Chapter III—Bureau of Entomology and Plant Quarantine

[B. E. P. Q.—Q. 64]

PART 301—DOMESTIC QUARANTINE NOTICES

MEXICAN FRUITFLY QUARANTINE

JULY 3, 1944.

Introductory note. The following revision of the Mexican fruitfly quarantine regulations provides for a harvest season for grapefruit, sweet limes, and "sour" and "bittersweet" oranges from September 1 through June 15 of each year for all the regulated area, and for a year-round harvest season for commercial varieties of sweet oranges, kumquats, tangelos, and all varieties of the mandarin group of oranges.

Under the former regulations the harvest season for fruitfly host fruits closed on April 30 except that the grapefruit harvest in three counties closed on the last day of February.

Persons operating a packing plant for fruit that is to be shipped interstate from the regulated area will now be required to obtain packers' permits, and permits for harvesting citrus fruits may also be required by the inspector.

Circular B. E. P. Q. 472 as revised effective September 25, 1941, specifying the type of sterilization treatments that are authorized, remains in effect.

Applications for permits should be made to the Bureau of Entomology and Plant Quarantine, 503 Rio Grande National Life Building, Harlingen, Tex.

Determination of the Secretary of Agriculture. The Secretary of Agriculture, having determined that it was necessary to quarantine the State of Texas to prevent the spread of an injurious insect known as the Mexican fruitfly (Anastrepha ludens Loew), new to and not theretofore widely prevalent or distributed within and throughout the United States, and having given the public hearing required by law, promulgated a revision of Notice of Quarantine No. 64 (§ 301.64, Part 301, Chapter III, Title 7), effective October 15, 1937, and of regulations supplemental thereto, effective October 16, 1939, governing the movement of fruits interstate from the State of Texas.

The Secretary has determined that it is necessary to revise the aforesaid regulations for the purpose of extending the harvesting season and to make other modifications.

Order of the Secretary of Agriculture. Pursuant to the authority conferred upon the Secretary of Agriculture by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 161), the subpart entitled "Mexican Fruitfly" of Part 301, Chapter III, Title 7, Code of Federal Regulations [B. E. P. Q.—Q. 64 as revised] is hereby revised to read as follows:

SUBPART—MEXICAN FRUITFLY

AUTHORITY: §§ 301.64 to 301.64–8 issued under sec. 8, 39 Stat. 1165, 44 Stat. 250; 7 U.S.C. 161.

§ 301.64 *Notice of quarantine.* Under the authority conferred by section 8 of the Plant Quarantine Act of August 20, 1912, as amended (7 U.S.C. 161), the Secretary of Agriculture quarantines the State of Texas to prevent the spread of the Mexican fruitfly (Anastrepha ludens Loew). Hereafter no fruits of any variety shall be shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved, or allowed to be moved interstate from the said quarantined State in manner or method or under conditions other than those prescribed in the rules and regulations hereinafter made or under such modification thereof as may be issued by the Chief of the Bureau of Entomology and Plant Quarantine as hereinafter provided: *Provided*, That the restrictions of this quarantine and of the rules and regulations supplemental thereto or modification thereof as hereinafter provided, may be limited to the areas in the State of Texas now, or which may hereafter be designated by the Secretary of Agriculture as regulated areas: *Provided further*, That such limitation of the restrictions to the regulated areas shall be

conditioned upon the said State providing for and enforcing such control measures with respect to such regulated areas, including the control of intrastate movement of host fruits from such areas, as in the judgment of the Secretary of Agriculture shall be deemed adequate to prevent the spread of the Mexican fruitfly therefrom to other parts of the State: *And provided further*, That, except as to extension or reduction of the regulated area, the Chief of the Bureau of Entomology and Plant Quarantine may modify by administrative instructions any of the restrictions of the regulations supplemental hereto when in his judgment such action is necessary to prevent the spread of the Mexican fruitfly.

Rules and Regulations

§ 301.64–1 *Definitions.* For the purpose of these regulations, the following words shall be construed respectively to mean:

(a) Mexican fruitfly: The insect known as the Mexican fruitfly (Anastrepha ludens Loew) in any stage of development.

(b) Regulated areas: The areas in the State of Texas now, or which may hereafter be, designated as such by the Secretary of Agriculture in accordance with the provisos of § 301.64 as revised.

(c) Host fruits: Fruits susceptible to infestation by the Mexican fruitfly, namely, mangoes, sapotas (including sapodillas and the fruit of all members of the family Sapotaceae and of the genus Casimiroa and all other fruits commonly called sapotas or sapotes), peaches, guavas, apples, pears, plums, quinces, apricotes, mameys, ciruelas, fruit of species of the genus Sargentia, and all citrus fruits except lemons and sour limes, together with any other fruits which may later be determined as susceptible.

(d) Harvesting season: A period during which host fruits are permitted to be harvested for shipment interstate.

(e) Host-free period: A period during which no host fruits are produced or permitted to exist within the regulated area except as provided in these regulations or under conditions prescribed by the Chief of the Bureau of Entomology and Plant Quarantine.

(f) Inspector: An inspector of the United States Department of Agriculture.

(g) Moved interstate: Shipped, offered for shipment to a common carrier, received for transportation or transported by a common carrier, or carried, transported, moved or allowed to be moved from the area designated as regulated in the State of Texas into or through any other State or Territory or District.

§ 301.64–2 *Regulated area.* In accordance with the provisos to § 301.64, the Secretary of Agriculture designates as regulated area the counties of Brooks, Cameron, Dimmit, Hidalgo, La Salle, Webb, and Willacy in the State of Texas, and that portion of Jim Wells County, Tex., lying south of Highway 141 and a line projected due west to the Jim Wells-Duval County line from the point where Highways 141 and 66 intersect.

§ 301.64–3 *Restrictions on interstate movement*—(a) *Permits required for citrus fruits.* Grapefruit, oranges, and other citrus fruits, except lemons and sour limes, shall not be moved interstate from a regulated area into or through any point outside thereof unless a shipping permit has been issued therefor by

the United States Department of Agriculture.

(b) *Movement of noncitrus host fruits prohibited.* Peaches, apples, pears, plums, quinces, apricots, mangoes, sapotas (see § 301.64–1 (c)), guavas, mameys, ciruelas, and fruits of species of the genus Sargentia shall not be moved interstate from the regulated area and no permits will be issued for such movement.

(c) *No restrictions on lemons, sour limes, and manufactured fruit products.* No restrictions are placed by these regulations on the interstate movement of lemons, sour limes, or products manufactured from host fruits.

(d) *Movement through regulated area.* No restrictions are placed by these regulations on the interstate movement of restricted fruits from an area not under regulation through a regulated area when such movement is on a through billing.

§ 301.64–4 *Conditions governing the issuance of shipping permits.* Permits for the interstate movement of grapefruit, oranges, and other restricted citrus fruits from the regulated area may be issued upon determination by the inspector that the proposed movement does not involve risk of spread of the Mexican fruitfly. Such determination will be based on compliance with the following conditions:

(a) *Grove inspection and sanitation.* The grove in which the fruit was produced shall be maintained in compliance with the host-free requirement provided in § 301.64–5 (a). The grove shall further be maintained in compliance with such other requirements as may be enforced by the State of Texas for the suppression of Mexican fruitfly infestation. Permits may be issued for the interstate movement of fruit produced only in such groves as have been inspected prior to the harvesting of the fruit concerned and have been found free from Mexican fruitfly infestation: *Provided*, That if a grove or portion thereof from which the fruit is to be shipped is within an infested zone established under § 301.64–5 (b), permits for the interstate shipment of such fruit may be issued only after the fruit has been sterilized or otherwise treated or handled in manner or by methods prescribed by the Chief of the Bureau of Entomology and Plant Quarantine.

(b) *Packing-house requirements.* Persons desiring to operate a packing plant for the purpose of shipping restricted citrus fruits from the regulated area shall apply for a packer's permit to the Bureau of Entomology and Plant Quarantine, Harlingen, Tex., and agree in writing to operate such plant in compliance with these regulations and the regulations of the Texas State Department of Agriculture, including those applying to sanitation requirements, harvesting, sterilization, packing, and shipping of restricted citrus fruits, and in addition shall maintain and make available for examination by authorized inspectors records of all receipts and sales or shipments of restricted citrus fruits.

(c) *Applications to harvest fruit.* Persons desiring to harvest citrus fruit within the regulated area for movement to points outside such area may be required to secure harvesting permits when in the judgment of the inspector the requirement of such permits is necessary to prevent the spread of the Mexican fruitfly, and when due notices to that effect has been given by the inspector. Applications for such permits, when required, shall show the kind and quantity of the citrus fruit it is proposed to harvest for movement, the location and ownership of the grove from which it will be harvested, and the location at which it will be packed for shipment. The permit issued by the inspector will include provisions needed to assure compliance with these regulations and the regulations of the Texas Department of Agriculture.

(d) *Containers.* Shipping permits will be issued for the interstate movement of only such fruit as is packed in containers customarily used in the regulated area for the commercial shipment of citrus fruits, and of such nature as will permit the inspector to identify the contents thereof.

(e) *Sterilization may be required.* Sterilization of host fruits in manner and by method prescribed by the Chief of the Bureau of Entomology and Plant Quarantine may be required as a condition for the issuance of permits for interstate movement thereof when in his judgement the shipments concerned might involve risk of spread of the Mexican fruitfly.

(f) *Destination limitations.* Permits may be limited as to destination and when so limited the fruits covered thereby shall not be moved interstate from the regulated area, directly or indirectly, either in the original containers or otherwise, to destinations other than those authorized in such permits, except to the usual diversion points for diversion to authorized destinations only.

(g) *Cancelation of permits.* Permits issued under these regulations may be withdrawn or canceled and further permits refused, whenever in the judgment of the Bureau of Entomology and Plant Quarantine, the further use of such permits might result in the dissemination of the Mexican fruitfly. After any such permit is withdrawn or has expired, the further use of any permit tags issued thereunder is prohibited.

§ 301.64–5 *Conditions required in the regulated area.* The interstate movement of grapefruit, oranges, and other restricted citrus fruit from the regulated area under permits issued by the United States Department of Agriculture will be conditioned on the State of Texas providing for and enforcing the following control measures in manner and by method approved by the United States Department of Agriculture, namely:

(a) *Harvesting season and host-free period.* The harvesting season of grapefruit, sweet limes, and "sour" and "bittersweet" oranges produced within the regulated area shall begin on the first day of September each year, and end at midnight on June 15 of the following year. A host-free period for these fruits shall be maintained each year beginning on the 16th day of June and continuing through the last day of August. The harvesting season of commercial varieties of sweet oranges, kumquats, tangelos, and all varieties of the mandarin group of oranges, shall extend throughout the year: *Provided*, That sterilization may be required as to any citrus fruits as specified in § 301.64–4 (e): *Provided further*, That the harvesting season and the host-free period in any regulated area shall be subject to such modification as to duration as may be authorized by the Chief of the Bureau of Entomology and Plant Quarantine.

Prior to the host-free period each year, all grapefruit, sweet limes, and "sour" and "bittersweet" oranges shall be removed from the trees for destruction, immediate shipment, or storage with adequate protection to prevent infestation, and all noncitrus host fruits shall be removed from the trees and either destroyed or stored with adequate protection to prevent infestation.

Other than those citrus fruits, the harvesting season for which extends throughout the year, no host fruits shall be permitted to remain on the trees within a regulated area at any time during the host-free period except fruit in an immature stage.

(b) *Infested zones.* Upon the determination of a Mexican fruitfly infestation within a regulated area, which in the judgment of the Chief of the Bureau of Entomology and Plant Quarantine constitutes a risk of spread of such fly, an infested zone to include part or all of one or several groves shall be designated by the State of Texas subject to approval by the United States Department of Agriculture and no host fruits in susceptible stages of maturity produced within such zone shall be shipped interstate except under the conditions specified in the proviso of § 301.64–4 (a).

Marking and Use of Permit

§ 301.64–6 *Marking requirements.* Every crate, box, or other container of host fruit moved interstate under these regulations shall have securely attached thereto a shipping permit issued under the provisions of § 301.64–4, and shall be subject to such other marking as may be required by the inspector.

Each shipment of six or more crates, boxes, or other containers of host fruit moved interstate under these regulations shall, in addition to the shipping permit on each such container, be accompanied by a master permit showing the number of containers and either license number and destination of the vehicle or the name, number, and destination of the freight car or other carrier, as the case may be.

§ 301.64–7 *Inspection in transit.* Any car, vehicle, basket, box, crate, or other container, moved interstate, which contains or which the inspector has probable cause to believe contains articles the movement of which is prohibited or restricted by these regulations, shall be subject to inspection by inspectors at any time or place.

§ 301.64–8 *Shipment for experimental or scientific purposes.* Fruits subject to restriction in these regulations may be moved interstate for experimental or scientific purposes, on such conditions

and under such safeguards as may be prescribed by the Chief of the Bureau of Entomology and Plant Quarantine. The container of fruits so moved shall bear, securely attached to the outside thereof, an identifying tag from the Bureau of Entomology and Plant Quarantine showing compliance with such conditions.

These revised rules and regulations shall be effective on and after July 3, 1944, and shall supersede the rules and regulations promulgated October 10, 1939.

Done at the city of Washington this 29th day of June 1944. Witness my hand and the seal of the United States Department of Agriculture.

[SEAL] GROVER B. HILL,
Acting Secretary of Agriculture.

Chapter X—War Food Administration (Production Orders)

[WFO 5, Amdt. 1]

PART 1206—FERTILIZER

DELIVERY AND USE OF FERTILIZER

Effective July 1, 1944, War Food Order No. 5 (formerly Food Production Order No. 5)[1] is hereby revised and amended in its entirety to read as follows:

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of fertilizer for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

Fertilizers for Farm Use

§ 1206.1 *Conditions of manufacture, delivery and use of fertilizers.* No fertilizer manufacturer, dealer or agent shall, subject to the exemptions provided herein, deliver for use on crops, and no person shall use on crops, in any of the States listed in Schedule I, attached hereto, any grades of fertilizer other than the grades designated in such schedule as applicable to the respective States listed therein, and where a grade is designated on such schedule as available only for a particular crop or purpose, such grade shall be delivered for use and used only on such crop or for such purpose. All fertilizers, whether mixed or unmixed materials, manufactured and delivered for general crop use, may be packaged only in units of 80 pounds or more net weight. Unapproved grades in bags in the hands of manufacturers, dealers or agents on June 30, 1944, are exempt from the foregoing provisions, as is their use by any person.

§ 1206.2 *Fertilizer ingredients for home mixing and direct application.* Each fertilizer manufacturer, dealer and agent shall make available to home mixers the same percentage of his 1944–45 supply of each fertilizer material as he delivered for such use from his 1940–41 or 1941–42 supply, whichever is greater. There shall be no discrimination against any customer who wishes to purchase fertilizer materials for inclusion in home mixtures.

§ 1206.3 *Permitted rate of application per acre.* The Director may fix the maximum rate of application per acre for use on any crop, and in connection therewith may, in his discretion, fix the maximum pounds of any individual fertilizer component to be applied per acre. In the absence of the exercise of this authority by the Director, no person shall use any fertilizer on any crop at a rate of application per acre in excess of (1) the rate recommended by the State Agricultural Experiment Station in the State concerned or (2) the rate customarily used in the area in which the crop is to be grown, whichever is greater.

§ 1206.4 *Maximum requirements.* The maximum requirement of any person for fertilizer for use on any crop shall be the acreage of the crop to be grown multiplied by the highest rate of application per acre permitted by § 1206.3. No person shall use or acquire any fertilizer in excess of his maximum requirements. No fertilizer manufacturer, dealer or agent shall deliver to any person any fertilizer for use on crops in excess of such person's maximum requirements.

§ 1206.5 *Distribution and delivery.* (a) No fertilizer manufacturer, dealer or agent, shall, in the year ending June 30, 1945, deliver to any person any fertilizer for use by such person on farm crops, unless an application or a purchase order has been executed clearly setting forth the grade and quantity of fertilizer desired, the crop upon which it is to be used, the rate of application per acre and the acreage to be fertilized. The purchaser shall be provided with a copy of the application or order.

(b) Each fertilizer manufacturer, dealer and agent, shall, during the 1944–45 season, make fertilizer available according to crop requirements in each geographical locality in which such manufacturer, dealer and agent made fertilizer available for use in the 1943–44 season, unless such manufacturer, dealer or agent has adequate proof that crop requirements for fertilizer in any such locality are being adequately provided by other manufacturers, dealers or agents.

Victory Gardens

§ 1206.6 *Victory garden fertilizer.* Fertilizer manufacturers, dealers or agents may deliver fertilizer for use on victory gardens in any State listed on Schedule I, in package of less than 80 pounds, only of the grade or grades designated in Schedule I for victory gardens in such State. Such fertilizer shall be labeled "Victory Garden Fertilizer—For Food Production Only." The grades so designated in Schedule I are recommended for use on victory gardens, but fertilizer of any approved grade for any State may be delivered, in packages of 80 pounds or more, for use on victory gardens in such State and may be labeled as indicated above. No person shall use on victory gardens any fertilizer delivered in violation of this section.

Fertilizer for Non-Food Use

§ 1206.7 *Fertilizer for non-food use—* (a) *Manufacture of specialty fertilizer.* During the year ending June 30, 1945, each fertilizer manufacturer may manufacture only one grade of mixed specialty fertilizer for sale in any particular State under his own brand and registration, and only one grade of such fertilizer for any other person who purchases it for resale in any particular State under his brand and registration. Such grade need not be an approved grade, but it must contain at least 16 units of available plant food, in terms of nitrogen, phosphoric acid and potash. Any fertilizer material eligible for direct sale may also be delivered as a specialty fertilizer. No manufacturer, however, shall use in specialty fertilizers (straight or mixed), during the year ending June 30, 1945, quantities of nitrogen and potash in excess of the quantities of such materials used by him for specialty fertilizer purposes in the year ending June 30, 1942, or the year ending June 30, 1943, whichever is greater; and, with respect to nitrogen, no manufacturer shall use in specialty fertilizers a quantity of insoluble organics in excess of the quantity of such material used by him for specialty fertilizer purposes during the year ending June 30, 1944.

(b) *Use of specialty fertilizer.* No fertilizer manufacturer, dealer or agent shall deliver for use, and no person shall use, on lawns, parks, golf courses, cemeteries, roadsides, and the non-commercial production of flowers, bulbs, shrubs, trees, or other ornamental plants, any fertilizer other than specialty fertilizer.

(c) *Use of fertilizer for the commercial production of flowers, bulbs, shrubs, trees, and ornamental plants.* Fertilizer of any approved grade and specialty fertilizer may be delivered for use and used on the commercial production of flowers, bulbs, shrubs, trees, and ornamental plants. However, no fertilizer manufacturer, dealer or agent shall deliver any fertilizer to any person, and no person shall use any fertilizer, for such purposes in excess of the quantity of fertilizer, in terms of nitrogen and potash, used by such person for such purposes during the year ending June 30, 1942, or the year ending June 30, 1943, whichever is greater.

Exemptions

§ 1206.8 *Exemptions.* Notwithstanding any other provisions of this order:

(a) *Deliveries to fertilizer manufacturers.* Any person may deliver fertilizer or fertilizer materials to a fertilizer manufacturer for use in the manufacture of mixed fertilizer.

(b) *Deliveries to armed forces.* Fertilizer manufacturers, dealers or agents may deliver any quantity of fertilizer for use in establishing and maintaining grass and other vegetation at Air Force Stations of the United States Army, Navy, Marine Corps and Coast Guard, and at other military installations for establishing and maintaining grass and other vegetation, where such is certified, in the case of the Army, by the Division Engineer, or, in the case of the Navy, Marine Corps and Coast Guard, by the Agronomist, Bureau of Aeronautics, Navy Department, as essential for training activities, operations or health.

(c) *Deliveries for experimental purposes to educational institutions.* Any fertilizer may be delivered to and used by educational institutions or publicly owned agricultural institutions for experimental purposes.

(d) *Starter fertilizers.* Nothing herein shall be construed to prohibit the manufacture or delivery of starter fertilizers in pressed tablet form, or in a completely soluble form.

Miscellaneous Provisions

§ 1206.9 *Records and reports.* Each fertilizer manufacturer, dealer and agent who delivers fertilizers to any person, other than a manufacturer, dealer or agent, shall keep a record of each such delivery involving a quantity of over 250 pounds, showing the person to whom delivery was made, the date of delivery, and the quantity of fertilizer materials or grade of mixed fertilizer. (For this purpose, the taking of fertilizer by a manufacturer, dealer or agent for use on his own crops shall be treated as a delivery.) Such records shall be retained for a period of two years. Applications or purchase orders received by manufacturers, dealers or agents pursuant to paragraph (a) of § 1206.5 shall also be retained for a period of two years. In addition, the Director shall be entitled to obtain such information from, and require such reports and the keeping of such other records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

§ 1206.10 *Directions.* Each person affected by this order shall comply with such directions as may be issued from time to time by the Director with respect to the quantities, grades and kinds of mixed fertilizers to be manufactured and with respect to the delivery and use of any fertilizers.

§ 1206.11 *State regulations.* Nothing contained in this order shall be construed to permit the delivery or use of any grade of fertilizer in any State where the use or delivery of such grade in such State is specifically prohibited by such State.

§ 1206.12 *Federal Explosives Act.* Nothing contained in this order shall be construed to supersede or affect in any manner whatsoever the licensing and other requirements of the Federal Explosives Act of December 26, 1941 (55 Stat. 863), as amended, and the regulations issued thereunder by the Bureau of Mines of the United States Department of the Interior.

§ 1206.13 *Definitions.* For the purposes of this order:

(a) "Fertilizer" means any material used as a plant food containing one or more of the following: nitrogen, phosphorus, or potassium, excluding, however, unprocessed animal and poultry manure, peat, humus and basic slag.

(b) "Grade" means the minimum guaranteed plant food content of any fertilizer expressed in percentages of its principal plant food components in the following order: nitrogen, available phosphoric acid and available potash.

(c) "Approved grade" means any grade of fertilizer listed in Schedule I attached hereto.

(d) "Rate of application per acre" means the total pounds of fertilizer applied per acre. Where single-strength or multiple-strength grades are substituted, one for the other, the pounds of fertilizer shall be increased or decreased in accordance with the nitrogen, phosphoric acid and potash content of the grades used and replaced.

(e) "Victory garden" means any garden planted primarily for the non-commercial production of vegetables and small fruits.

(f) "Specialty fertilizer" means any fertilizer which is prepared for use on lawns, shrubbery, trees, flowers, bulbs, parks and parkways, malls and roadsides, cemeteries, golf courses, trees, and other ornamental plants.

(g) "Fertilizer manufacturer" means any person who manufactures or mixes fertilizer for sale.

(h) "Dealer" means any person, other than a fertilizer manufacturer, who purchases fertilizer for resale.

(i) "Agent" means any person, other than a fertilizer manufacturer, who receives fertilizer on a consignment basis for sale.

(j) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not. The term "person" shall also include the United States or any agency thereof, and a State or any political subdivision or agency thereof.

(k) "State" means any of the 48 States and the District of Columbia.

(l) "Director" means the Director of the Office of Materials and Facilities of the War Food Administration.

§ 1206.14 *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of fertilizer of any persons, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

§ 1206.15 *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

§ 1206.16 *Violations.* In accordance with the applicable procedure, any person who violates any provision of this order may be prohibited from receiving, making any deliveries of, or using fertilizer. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

§ 1206.17 *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

§ 1206.18 *Territorial application of order.* This order shall have application only in the 48 States and the District of Columbia of the United States.

§ 1206.19 *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Director, Office of Materials and Facilities, War Food Administration, Washington 25, D. C., Ref. WFO-5.

NOTE: All record keeping requirements of this order have been approved by, and subsequent reporting and record keeping requirements will be subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of June, 1944.

ASHLEY SELLERS,
Assistant War Food Administrator.

SCHEDULE I—FERTILIZER GRADES FOR 1944–1945

GRADES APPLICABLE TO ALL STATES

Nitrate of soda	[1] 16–0–0
By-product nitrate of soda	[1] 14–0–0
Nitrate of potash	14–0–14
Sulphate of ammonia	20 (or higher) –0–0
Cyanamid	20 (or higher) –0–0
Uramon	42–0–0
Ammoniated superphosphate	4 (or higher) –16 (or higher) –0
Ammonium phosphate	11–48–0
Ammonium phosphate-sulphate	16–20–0
Cal-nitro	20 (or higher) –0–0
A–N–L	20 (or higher) –0–0
Ammonium nitrate	[2] 30 (or higher) –0–0
Potassium nitrate	14–0–44 (or higher)
Superphosphate	[1] 0–18 (or higher)–0
Muriate of potash	[1] 0–0–50 (or higher)
Sulphate of potash	0–0–48 (or higher)
Manure salts	0–0–22 (or higher)
Sulphate or potash magnesia	0–0–18 (or higher)
Potash lime	0–0–6
Ground phosphate rock	Any Grade
Colloidal phosphate	Any Grade
Cotton hull ash	Any Grade
Wood ash	Any Grade
Straight carriers of organic nitrogen	[1] Any Grade

[1] This grade is designated for use on victory gardens in conformity with the provisions of § 1206.6, but is not limited to such use.

PART 1206—FERTILIZER

USE OF EDIBLE OILSEED MEAL IN FERTILIZER

The fulfillment of requirements for the defense of the United States will result in a shortage in the supply of edible oilseed meal for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1206.700 *Use of edible oilseed meal in fertilizer*—(a) *Acquisition.* During the period from July 1, 1944, to June 30, 1945, no person shall acquire any edible oilseed meal for fertilizer purposes unless specifically authorized to do so by the Director. Applications for such authorization shall be filed with the Director on or before September 30, 1944. The maximum quantity of edible oilseed meal which any person may be authorized to acquire for fertilizer purposes shall be the same proportion of the total quantity of edible oilseed meal made available for fertilizer purposes as the proportion which such person used for fertilizer purposes of the total quantity used by all applicants for such purposes during the period July 1, 1941, to June 30, 1942. In making an application the applicant shall inform the Director of the quantity of edible oilseed meal used by him for fertilizer purposes during the period July 1, 1941, to June 30, 1942, unless such information has previously been filed with the Director pursuant to the provisions of War Food Order No. 12 (formerly Food Production Order No. 12)[1]. The Director's authorization, serially numbered, will be issued in writing upon approval of the application. No processor, jobber or other person shall deliver any edible oilseed meal to any person for fertilizer purposes other than a person duly authorized to acquire such meal pursuant to the provisions of this order.

(b) *Inedible oilseed meal of edible type.* No processor, jobber or other person shall transfer or deliver any inedible oilseed meal of edible type for fertilizer purposes without first having obtained authorization to do so from the Director. To obtain such authorization the processor, jobber or other person shall apply to the Director in writing, setting forth the type and quantity of such oilseed meal, and an explanation of why it is considered inedible. The authorization will be issued by the Director upon approval.

(c) *Records and reports.* Each person affected by this order shall maintain for at least two years accurate records of his acquisitions and deliveries of edible oilseed meal and inedible oilseed meal of edible type for fertilizer purposes showing the quantities and types acquired from or delivered to each person. In addition, the Director shall be entitled to obtain such information from, and require such reports and the keeping of such additional records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(d) *Definitions.* For the purposes of this order:

(1) "Edible oilseed meal" means cottonseed oil meal or cake, soybean oil meal or cake, peanut oil meal or cake, and linseed oil meal or cake of merchantable quality for feeding purposes.

(2) "Inedible oilseed meal of edible type" means an oilseed meal that ordinarily is edible, but because of taste, color or chemical change, is unfit for feeding.

(3) "Person" means any individual, partnership, corporation, association, business trust or any organized group of persons whether incorporated or not. The term "person" shall also include the United States or any agency thereof and a State or any political subdivision or agency thereof.

(4) "Processor" means a person who produces or processes oilseed meal.

(5) "Jobber" means any person who imports, or purchases from a processor or importer, oilseed meal for transfer to fertilizer manufacturers or other persons.

(6) "Director" means the Director of the Office of Materials and Facilities of the War Food Administration.

(e) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of edible oilseed meal or inedible oilseed meal of edible type, of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(f) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(g) *Violations.* In accordance with the applicable procedure, any person who violates any provision of this order may be prohibited from receiving, making any deliveries of, or using edible oilseed meal or inedible oilseed meal of edible type. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(h) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(i) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Director, Office of Materials and Facilities, War Food Administration, Washington 25, D. C., Ref. WFO 105.

(j) *Effective date.* This order shall become effective July 1, 1944.

NOTE: All reporting and record keeping requirements of this order have been approved by, and subsequent reporting and record keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1440—ESSENTIAL OILS

OIL OF PEPPERMINT

War Food Order No. 81, as amended (8 F.R. 12525, 9 F.R. 152, 4321, 4319), is further amended by deleting therefrom the provisions of § 1440.1 (d) (2) and inserting, in lieu thereof, the following:

(2) During the period from June 30, 1944, to September 30, 1944, inclusive, any person may, in addition to the quantity which such person may acquire under his quota for the current year ending September 30, 1944, make advance acquirements of oil of peppermint only in a total amount not in excess of 50 percent of his quota of oil of peppermint hereunder for the year beginning on October 1, 1944; but any such advance acquirement of oil of peppermint is not to be considered as increasing a person's quota for the current year or for the year beginning on October 1, 1944, and any such advance acquirement of oil of peppermint shall be subject, in all respects, to the restrictions of this order. Except as authorized in the preceding sentence, the total acquirements of oil of peppermint by any person (either personally, or through an agent, or bailee) during any year, as defined in (a) (9) hereof, shall not, when added to the amount of oil of peppermint which he had on hand (either personally, or through an agent, or bailee) unused at the beginning of that year, except as provided in (e) hereof, exceed his quota of oil of peppermint for such year. Any person may, however, carry on hand at any one time, in addition to the amount authorized hereinabove in this paragraph, a stock of oil of peppermint sufficient to meet his requirements for the next succeeding 90 days in manufacturing products for delivery to or for the account of the agencies or persons listed or referred to in (f) hereof: *Provided,* That the Director may, if he shall deem it desirable to do so at any time, specify the amount of oil of peppermint which any such person may carry on hand for such non-quota use, in which event the amount so specified by the Director shall be the maximum amount which may be carried on hand for that purpose.

This order shall become effective at 12:01 a. m., e. w. t., June 30, 1944. With respect to violations of said War Food Order No. 81, as amended, rights accrued, liabilities incurred, or appeals taken under said order, as amended, prior to the effective time of the provisions hereof, all provisions of War Food Order No. 81, as amended, in effect prior to the effective time hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action; or other proceeding with respect to any such violation, right, liability, or appeal.

PART 1460—FATS AND OILS

TERMINATION OF REQUIRED RECOVERIES OF GLYCERINE

War Food Order No. 33, as amended (8 F.R. 17397, 9 F.R. 4319), is hereby terminated.

This order shall become effective at 12:01 a. m., e. w. t., June 29, 1944.

With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 33, as amended, prior to said date, all provisions of said War Food Order No. 33, as amended, shall be deemed to remain in full force and effect for the purpose of sustaining any proper suit, action, or

other proceeding with respect to any such violation, right, liability, or appeal.

Issued this 28th day of June 1944.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5382]

PART 19—INCOME TAX UNDER THE INTERNAL REVENUE CODE

TAXATION OF COMPENSATION FOR PERSONAL SERVICES RENDERED FOR A PERIOD OF FIVE YEARS OR MORE

Regulations 103 (part 19, Title 26, Code of Federal Regulations, 1940 Supp.) are amended as follows:

Section 19.107–1, as amended by Treasury Devision 5220, approved February 2, 1943, is further amended to read as follows:

§ 19.107–1 *Tax on compensation received in taxable years beginning in 1939 and 1940 for personal services rendered over extended period.* Where, in any taxable year beginnig after December 31, 1938, and before January 1, 1941, an individual receives compensation for personal services rendered by him, either in his individual capacity or as a member of a partnership, over a period of five calendar years or more from the beginning to the completion of such services, the tax attributable to the amount of such compensation shall, for the taxable year in which such compensation is received, not exceed the aggregate of the taxes attributable to such compensation had it been received in equal portions in each of the years included in the period during which the services were rendered.

With respect to compensation received in taxable years beginning after December 31, 1938, and before January 1, 1941, section 107 is applicable only where at least 95 per cent of the total compensation for such services is paid on or after their completion. It is immaterial when the personal services are rendered provided a period of at least five years elapses during the period from the beginning to the completion of the services. For example, an individual beginning his services on July 13, 1934, and completing them on July 18, 1939, meets such requirement, since the period of his services covers a period of at least five years.

The first step in determining whether the limitation in section 107 relative to the amount of tax is applicable is the computation of the amount of tax for the current taxable year attributable to the compensation received in such year for services rendered over the required period. The tax attributable to such compensation is the difference between the tax for such taxable year computed with the inclusion of such compensation in gross income and the tax for such taxable year computed without including such compensation in gross income.

The next step is to compute the tax attributable to such compensation for each of the taxable years, including the current taxable year, within which falls one or more days included in the period of service, as if the compensation had been received daily. The amount of the tax attributable to such compensation for each such taxable year is the difference between the tax for such year computed with the inclusion of an allocable portion of such compensation in gross income and the tax for such year computed without including any part of such compensation in gross income. The portion of the compensation allocable to each such taxable year is an amount equal to the entire amount of such compensation received in the current taxable year, divided by the number of days included within the period of service, and multiplied by the number of such days falling within the particular taxable year.

The tax for the current taxable year shall be the tax for such year computed without including the compensation for personal services subject to section 107 in gross income, plus the amount of tax for such taxable year attributable to such compensation, computed in accordance with the second preceding paragraph, or the sum of the taxes attributable to such compensation, had it been received in equal portions for each day included in the period of service, computed in accordance with the preceding paragraph, whichever is the smaller.

The method of allocating compensation for personal services to the taxable years in which falls all or part of any of the years within the period of service may be illustrated by the following example, in which the taxpayer makes his returns on the cash receipts and disbursements basis:

Example. A, an individual who keeps his books and makes his income tax returns on the calendar year basis, performed personal services for the period which began on July 13, 1934 and ended on July 18, 1939, for which he received $109,920 on September 1, 1939. For the purpose of determining whether the aggregate of the taxes attributable to the $109,920 compensation, had it been received in equal portions in each of the years included in the period of service, is less than the tax attributable to such compensation for the taxable year 1939, $60 ($109,920 divided by 1,832) must be allocated to each of the days included within the period of service. That part of the compensation attributable to 1934 is $10,320 (172 times $60); to 1935 is $21,900 (365 times $60); to 1936 is $21,960 (366 times $60); to 1937 and 1938 is $21,900 each (365 times $60); and to that part of 1939 during which the personal services were performed is $11,940 (199 times $60).

Subchapter D—Employment Taxes

[T. D. 5383]

PART 400—EXCISE TAX ON EMPLOYERS UNDER TITLE IX OF THE SOCIAL SECURITY ACT

PART 403—EXCISE TAX ON EMPLOYERS UNDER THE FEDERAL UNEMPLOYMENT TAX ACT

FEDERAL UNEMPLOYMENT TAX

Regulations 90, such regulations as made applicable to the Internal Revenue Code by Treasury Decision 4885, and Regulations 107, amended to conform to sections 601 and 602 of the Revenue Act of 1943. Credit against the tax imposed by Title IX of the Social Security Act for the calendar years 1936, 1937, and 1938, and the tax imposed by the Federal Unemployment Tax Act (subchapter C, chapter 9, Internal Revenue Code) for the calendar year 1939 and subsequent calendar years, for contributions paid into State unemployment funds.

PARAGRAPH A. *Credit against tax for 1936, 1937, and 1938.* In order to conform Regulations 90 (Part 400, Title 26, Code of Federal Regulations), relating to the excise tax on employers under Title IX of the Social Security Act, to section 602 of the Revenue Act of 1943 (Public Law 235—78th Congress), enacted February 25, 1944, such regulations are amended as follows:

(1) Section 400.203, (Title 26, Code of Federal Regulations) (article 203), relating to persons liable for the tax for the calendar year 1936, 1937, or 1938, is amended by striking out the second sentence of the last paragraph together with the parenthetical cross reference to § 400.211 (article 211) following such sentence, and by inserting in lieu therof the following:

However, if he is subject to such a State law, he may be entitled to certain credits against the tax. See § 400.211 and § 400.212.

(2) Immediately preceding § 400.211, as amended by Treasury Decision 5088 (Title 26, Code of Federal Regulations, 1941 Supp.) (article 211), relating to credit against the tax for the calendar year 1936, 1937, or 1938 for contributions paid, the following is inserted:

SECTION 602 (a) OF THE REVENUE ACT OF 1943. *Allowance of credit against tax for 1936, 1937, and 1938.* Against the tax imposed by section 901 of the Social Security Act for the calendar year 1936, 1937, or 1938, any taxpayer shall be allowed credit (if credit is not allowable under section 902 of such Act) for the amount of contributions paid by him into an unemployment fund under a State law—

(1) Without regard to the date of payment, to the extent hereinafter provided in this subsection;

(2) Without regard to the date of payment, with respect to wages paid after September 19, 1939;

(3) Without regard to the date of payment, if the assets of the taxpayer were, at any time during the period August 11, 1939, to October 8, 1939, inclusive, or the period October 9, 1940, to December 6, 1940, inclusive, or the period September 21, 1941, to November 18, 1941, inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction.

The provisions of the Social Security Act in force prior to February 11, 1939 (except the provision limiting the credit to amounts paid before the date of filing returns), shall apply to allowance of credit under this subsection; except that the amount of credit against the tax for the calendar year 1936, 1937, or 1938, for contributions paid after December 6, 1940, shall not (unless the credit is allowable on account of paragraph (2) or (3)) exceed 90 per centum of the amount which would have been allowable as credit on account of such contributions had they been paid before the last day upon which the taxpayer was required under section 905 of such Act to file a return for such year. The terms used in this subsection shall have the same meaning as when used in title IX of such Act prior to February 11, 1939. The total credit allowable against the tax imposed by section 901 of such Act for the calendar year 1936, 1937, or 1938 shall not exceed 90 per centum of such tax.

(3) Section 400.211, as amended by Treasury Decision 5088 (Title 26, Code of Federal Regulations, 1941 Supp.) (article 211), relating to credit against the tax for the calendar year 1936, 1937, or 1938 for contributions paid, is further amended to read as follows:

§ 400.211 *Credit against tax for calendar year 1936, 1937, or 1938 for contributions paid*—(a) *In general.* Subject to the limitations hereinafter prescribed in paragraphs (b), (c), (d), and (e), the taxpayer may credit against the tax for the calendar year 1936, 1937, or 1938 the total amount of contributions paid by him under all State laws which have been found by the Social Security Board to contain the provisions specified in section 903 (a) of the Social Security Act: *Provided*, That no credit may be taken for contributions under a State law if such State has not been duly certified for the calendar year to the Secretary by the Social Security Board.

(b) *Limitation on total credit allowable.* The total credit allowed to any taxpayer for contributions paid to State unemployment funds with respect to employment during any one year shall not exceed 90 percent of the tax against which such credit is applied. See § 400.212 (d) (3), relating to the aggregate limitation on the credit against the tax for the calendar year 1938 in case an additional credit is taken under section 909 of the Social Security Act.

(c) *Limitation on services with respect to which credit is allowable.* Contributions must have been paid with respect to employment as defined in section 907 (c) of the Social Security Act, that is, with respect to services performed by an employee within the United States and not excepted by such Act. See §§ 400.206 to 400.206 (7), inclusive.

(d) *Limitation on the taxable year in which services are performed.* Contributions must have been paid with respect to services performed during the calendar year covered by the return.

(e) *Limitation on amount of credit allowable based on time when contributions are paid*—(1) *In general.* Contributions paid into a State unemployment fund at any time may be credited against the tax, but the amount of the credit is dependent upon the time when the contributions are paid. The amount of the credit shall be determined in accordance with subparagraph (2), (3), (4), (5), (6), or (7), below, whichever is applicable, subject, however, to the limitation on the total credit set forth in paragraph (b), above. Although contributions paid at any time may be credited against the tax, no refund or credit of the tax based on credit for contributions paid will be allowed unless the contributions are paid prior to the expiration of four years after the payment of the tax. For provisions relating to the statutory period of limitations applicable to refund or credit of the tax, see § 400.503 (c).

(2) *Amount of credit allowable when contributions are paid before last day for filing return.* Contributions paid into a State unemployment fund before the last day upon which the return for the taxable year is required to be filed may be credited against the tax in an amount equal to such contributions, but not, however, to exceed 90 percent of such tax. (The last day for filing the return is January 31 next following the close of the taxable year unless the time for filing the return is extended. See §§ 400.303, 400.304, 400.305.

(3) *Amount of credit allowable when contributions are paid on or after last day for filing return but before December 7, 1940.* Contributions paid into a State unemployment fund on or after the last day upon which the return for the taxable year is required to be filed but before December 7, 1940, may be credited against the tax in the same amount that would have been allowable as credit had such contributions been paid before such last day. See § 400.503a, relating to refund, credit, or abatement of the tax based on credit for contributions paid.

(4) *Amount of credit allowable when contributions are paid after December 6, 1940.* Contributions paid into a State unemployment fund after December 6, 1940, may be credited against the tax in an amount not to exceed 90 percent of the amount which would have been allowable as credit on account of such contributions had they been paid before the last day upon which the return for the taxable year was required to be filed. See, however, subparagraphs (5) and (6), below, for special provisions relating respectively to credit for contributions paid where taxpayers' assets were in the custody or control of certain fiduciaries and to credit for contributions paid with respect to wages paid after September 19, 1939. See also subparagraph (7), below, relating to the payment of contributions to the wrong State. For provisions relating to refund, credit, or abatement of the tax based on credit for contributions paid, see § 400.503a.

(5) *Amount of credit allowable when taxpayers' assets are in custody or control of certain fiduciaries.* This subparagraph applies to those cases in which the assets of the taxpayer were, at any time during the period August 11, 1939, to October 8, 1939, inclusive, or the period October 9, 1940, to December 6, 1940, inclusive, or the period September 21, 1941, to November 18, 1941, inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. In such cases contributions paid into a State unemployment fund at any time may, notwithstanding the provisions of subparagraph (4), above, be credited against the tax in the same amount that would have been allowable as credit had the contributions been paid before the last day upon which the return for the taxable year was required to be filed.

(6) *Amount of credit allowable when wages are paid after September 19, 1939, for employment during 1936, 1937, or 1938.* This subparagraph applies to contributions with respect to wages paid after September 19, 1939, for employment during the calendar year 1936, 1937, or 1938. Such contributions paid into a State unemployment fund at any time may, notwithstanding the provisions of subparagraph (4), above, be credited against the tax in the same amount that would have been allowable as credit had the contributions been paid before the last day upon which the return for the taxable year was required to be filed.

(7) *Amount of credit allowable when contributions are paid to wrong State.* Contributions paid into the unemployment fund of a State which are required under the unemployment compensation law of that State, with respect to remuneration on the basis of which the taxpayer had, prior to such payment, erroneously paid an amount as contributions under another unemployment compensation law, shall be deemed to have been made at the time of the erroneous payment. If, by reason of such other law, the taxpayer was entitled to cease paying contributions with respect to services subject to such other law, the payment into the proper fund shall be deemed to have been made on the date the return for the taxable year was actually filed under section 905 of the Social Security Act.

(f) *Contributions.* The term "contributions" for purposes of credit against the tax means payments required to be made by an employer pursuant to a State law into the unemployment fund of such State, to the extent that such payments are made by the employer without any part thereof being deducted or deductible from the wages of individuals in his employ. Notwithstanding the provision limiting the term to payments required by a State law, the term also includes so much of any payments made as contributions for the calendar year 1936 or 1937 into the unemployment fund of a State which payments are held by the highest court of such State not to be required payments under the unemployment compensation law of such State, as are not returned to the taxpayer.

(g) *Refund of State contributions.* If, subsequent to the filing of the return, a refund is made by a State to the taxpayer of any part of his contributions which had been credited against the tax, the taxpayer is required to advise the Commissioner under oath of the date and amount of such refund and the reason therefor, and to pay the tax, if any, due as a result of such refund, together with interest from the date when the tax was due.

(4) Section 400.212, as amended by Treasury Decision 4876 (Title 26, Code of Federal Regulations, 1938 Supp.) (article 212) relating to the additional

credit against the tax for the calendar year 1938, is further amended as follows:

(A) By striking out the first sentence of paragraph (a) and inserting in lieu thereof the following:

In addition to the credit against the tax allowable for contributions actually paid to State unemployment funds (see § 400.211), the taxpayer may be entitled to a further credit under section 909.

(B) By striking out the second sentence of paragraph (d) (1), together with the parenthetical cross reference to article 211 following such sentence, and by inserting in lieu thereof the following:

If the State law does not make provision for such a lower rate, no additional credit is available to the taxpayer and he can take only the credit allowable for contributions actually paid. See § 400.211.

(C) By striking out paragraph (d) (3) and inserting in lieu thereof the following:

(3) The aggregate of such additional credit and the credit allowable for contributions actually paid to State unemployment funds shall not exceed 90 percent of the tax against which credit is taken.

(5) Section 400.213 (a), added by Treasury Decision 4876 (Title 26, Code of Federal Regulations, 1938 Supp.) (article 213 (a)), relating to proof of the credit allowable under section 902 of the Social Security Act against the tax for the calendar year 1936, 1937, or 1938, is amended as follows:

(A) By striking out the heading of the paragraph and inserting in lieu thereof the following:

(a) *Credit for contributions paid.*

(B) By striking out subparagraph (3) and inserting in lieu thereof the following:

(3) Such other or additional proof as the Commissioner may deem necessary to establish the right to the credit.

(6) Section 400.503 (Title 26, Code of Federal Regulations) (article 503), relating to refund and credit of taxes erroneously collected with respect to the calendar year 1936, 1937, or 1938, is amended as follows:

(A) By striking out paragraph (c) and inserting in lieu thereof the following:

(c) No refund or credit will be allowed after the expiration of four years after the payment to the collector of the tax, penalty, interest, or addition to the tax, except upon one or more of the grounds set forth in a claim filed prior to the expiration of such four-year period. A claim based on credit for contributions paid into a State unemployment fund shall not be considered as setting forth a sufficient ground within the meaning of this article unless the contributions, with respect to which credit is claimed, are paid prior to the filing of the claim. The amount of the refund or credit shall not exceed the portion of the tax, penalty, interest, or addition to the tax paid during the four years immediately preceding the filing of the claim for refund or credit, or if no claim was filed, then during the four years immediately preceding the allowance of the refund or credit.

(B) By striking out paragraph (d) and inserting in lieu thereof the following:

(d) A claim which does not comply with the requirements of this section will not be considered for any purpose as a claim for refund or credit.

(7) Immediately preceding § 400.503a, added by Treasury Decision 4812 (Title 26, Code of Federal Regulations, 1938 Supp.) (article 503½), as amended by Treasury Decision 5088 (1941 Supp.), relating to refund, credit or abatement of the tax for the calendar year 1936, 1937, or 1938 based on credit for contributions paid, the following is inserted:

SECTION 602 (c) OF THE REVENUE ACT OF 1943.

Refund, credit, or abatement. (1) Refund or credit of the tax (including penalty and interest collected with respect thereto, if any), based on any credit allowable under this section, may be made in accordance with the provisions of law applicable in the case of erroneous or illegal collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund.

(2) Any claim for refund or credit, with respect to the tax (including penalty and interest collected with respect thereto, if any) imposed by section 901 of the Social Security Act * * *, based on credit for contributions, which has been disallowed prior to the date of enactment of this Act, the allowance of which would be considered erroneous under section 3774 (b) or section 3775 (b) of the Internal Revenue Code, shall nevertheless be allowable if otherwise allowable under this section * * *.

(3) Notwithstanding the acceptance of an offer in compromise prior to the date of enactment of this Act with respect to any tax (or penalty or interest in connection therewith) imposed by section 901 of the Social Security Act * * *, any claim for refund, credit, or abatement with respect to the tax (including penalty and interest collected with respect thereto, if any) imposed by * * * such Acts, based on credit for contributions, shall be allowable if otherwise allowable under this section * * *.

(4) On and after the date of the enactment of this Act no refund, credit, or abatement shall be allowed based on any credit allowable under section 701 of the Revenue Act of 1941.

(8) Section 400.503a added by Treasury Decision 4812 (Title 26, Code of Federal Regulations, 1938 Supp.) (article 503½), as amended by Treasury Decision 5088 (1941 Supp.) relating to refund, credit, or abatement of the tax for the calendar year 1936, 1937, or 1938 based on credit for contributions paid, is further amended to read as follows:

§ 400.503a *Refund, credit, or abatement of tax for calendar year 1936, 1937, or 1938, based on credit against such tax for contributions paid*—(a) *In general.* If the tax for the calendar year 1936, 1937, or 1938, against which an amount is allowable as credit under section 602 (a) of the Revenue Act of 1943 for contributions paid, has been paid without the benefit of such credit, the taxpayer shall be entitled to a refund or credit of the tax equal to the amount of such allowable credit for contributions paid. The taxpayer shall also be entitled to a refund or credit of the amount of interest or penalty, if any, collected from him with respect to the tax refunded or credited. See, however, § 400.503 (c), relating to the statutory period of limitations applicable to such refund or credit. No interest shall be allowed or paid by the Government on the amount of any such refund or credit. Every claim for such refund or credit shall be made on Form 843 in accordance with the provisions of this section and § 400.503, relating to refund and credit of taxes erroneously collected. A claim which does not comply with these requirements wil not be considered for any purpose as a claim for refund or credit.

On and after February 25, 1944, no refund, credit, or abatement shall be allowed based on any credit allowable under section 701 of the Revenue Act of 1941. Nor shall any refund, credit, or abatement be allowed, on or after September 20, 1941, based on any credit allowable under section 810 of the Revenue Act of 1938, section 902 (a) of the Social Security Act Amendments of 1939, or section 701 of the Second Revenue Act of 1940.

(b) *Special cases; claim disallowed or liability compromised.* Section 602 (c) (2) of the Revenue Act of 1943 provides that, even though refund or credit, with respect to the tax (including penalty and interest collected with respect thereto, if any) for the calendar year 1936, 1937, or 1938, based on credit for contributions, would be considered erroneous under section 3774 (b) of the Internal Revenue Code (in case of a claim for refund) or under section 3775 (b) of the Internal Revenue Code (in case of a claim for credit) by reason of the disallowance by the Commissioner of the claim for such refund or credit and the failure of the claimant to bring suit for the recovery of the tax prior to the expiration of the statutory period of limitation for bringing suit therefor, the Commissioner may nevertheless allow such refund or credit if (1) the claim therefor was filed prior to the expiration of the statutory period of limitation for filing the claim, (2) such claim was disallowed prior to February 25, 1944, and (3) such refund or credit is otherwise allowable under section 602 of the Revenue Act of 1943.

Section 602 (c) (3) of the Revenue Act of 1943 provides that, notwithstanding the acceptance of an offer in compromise prior to February 25, 1944, with respect to the tax (or penalty or interest in connection therewith) for the calendar year 1936, 1937, or 1938, the Commissioner may nevertheless allow any refund, credit, or abatement with respect to such tax (including penalty and interest collected with respect thereto, if any), based on credit for contributions, if such refund, credit, or abatement is otherwise allowable under section 602 of the Revenue Act of 1943. In such case the amount of the refund, credit, or abatement shall be determined as though an offer in compromise had not been accepted, except that any amount paid by the taxpayer under the compromise agreement shall be treated as a payment on account of the tax (including penalty and interest in connection therewith, if any).

The allowance of any such refund, credit, or abatement shall be subject to the provisions of paragraph (a) of this section.

PAR. B. *Credit against tax for 1939.* In order to conform Regulations 90 (Part 400, Title 26, Code of Federal Regulations), only as made applicable to the Internal Revenue Code by Treasury Decision 4885 (Chapter I, note, of such Title 26, 1939 Supp.), to sections 601 and 602 of the Revenue Act of 1943 (Public Law 235—78th Congress), enacted February 25, 1944, such regulations are amended as follows:

(1) Section 400.1 (l) added by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.), (article 1 (l) defining the term "Federal Unemployment Tax Act" for the purposes of the regulations for the calendar year 1939, is amended by striking out the first sentence and inserting in lieu thereof the following:

The term "Federal Unemployment Tax Act" means subchapter C of chapter 9 of the Internal Revenue Code, as amended by sections 608, 609, 610, 611, 612, 613, and 615 of the Social Security Act Amendments of 1939 and by section 601 of the Revenue Act of 1943.

(2) Section 400.2 (a), added by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.) (article 2 (a)) relating to the scope of the regulations for the calendar year 1939, is amended by striking out the first sentence and inserting in lieu thereof the following:

These regulations relate to the excise tax on employers of eight or more employees for the calendar year 1939 imposed under the Federal Unemployment Tax Act (subchapter C of chapter 9 of the Internal Revenue Code, which superseded Title IX of the Social Security Act with respect to the tax for such year and subsequent years), as amended by sections 608, 609, 610, 611, 612, 613, and 615 of the Social Security Act Amendments of 1939 and by section 601 of the Revenue Act of 1943.

(3) Section 400.203, as amended by Treasury Decision 4931 and by Treasury Decision 4953 (Title 26, Code of Federal Regulations, and 1939 Supp.) (article 203), relating to persons liable for the tax for the calendar year 1939, is further amended by striking out the second sentence of the last paragraph, together with the parenthetical cross reference to §§ 400.211a and 400.212 following such sentence, and by inserting in lieu thereof the following:

However, if he is subject to such a State law, he may be entitled to certain credits against the tax. See §§ 400.211a and 400.212.

(4) Immediately preceding § 400.211a, added by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.) (article 211 (1)), as amended by Treasury Decision 5088 (1941 Supp.), relating to credit against the tax for the calendar year 1939 for contributions paid, the following is inserted:

SECTION 601 (A) OF THE REVENUE ACT OF 1943.

Section 1601 (a) (3) (relating to the time within which contributions are required to be paid in order to be allowable as credit) is amended to read as follows:

(3) The credit against the tax for any taxable year shall be permitted only for contributions paid on or before the last day upon which the taxpayer is required under section 1604 to file a return for such year; except that credit shall be permitted for contributions paid after such last day, but such credit shall not exceed 90 per centum of the amount which would have been allowable as credit on account of such contributions had they been paid on or before such last day.

SECTION 602 (b) OF THE REVENUE ACT OF 1943.

*Allowance of credit against tax for 1939 * * * where assets in control of court.* Against the tax imposed by the Federal Unemployment Tax Act for the calendar year 1939 * * *, any taxpayer shall be allowed credit for the amount of contributions paid by him into an unemployment fund under a State law, without regard to the date of payment, if the assets of the taxpayer were, at any time during the period from the last day upon which the taxpayer was required under section 1604 of the Federal Unemployment Tax Act to file a return of the tax against which credit is claimed to June 30 next following such last day, inclusive, or (in the case of credit against the tax for the calendar year 1939) the period October 9, 1940, to December 6, 1940, inclusive, or the period September 21, 1941, to November 18, 1941, inclusive, * * * in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. The provisions of the Federal Unemployment Tax Act (except section 1601 (a) (3)) * * * shall apply to allowance of credit under this subsection. The terms used in this subsection shall have the same meaning as when used in the Federal Unemployment Tax Act. The total credit allowable against the tax imposed by such act for the calendar year 1939 * * * shall not exceed 90 per centum of such tax.

(5) Section 400.211a, added by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.) (article 211 (1)), as amended by Treasury Decision 5088 (1941 Supp.), relating to credit against the tax for the calendar year 1939 for contributions paid, is further amended to read as follows:

§ 400.211a *Credit against tax for calendar year 1939 for contributions paid*—(a) *In general.* Subject to the limitations hereinafter prescribed in paragraphs (b), (c), and (d), the taxpayer may credit against the tax for the calendar year 1939 the total amount of contributions paid by him under all State laws which have been found by the Social Security Board to contain the provisions specified in section 1603 (a) of the Federal Unemployment Tax Act: *Provided*, That no credit may be taken for contributions under a State law if such State has not been duly certified for the calendar year to the Secretary by the Social Security Board. The contributions may be credited against the tax whether or not they are paid with respect to employment as defined in the Federal Unemployment Tax Act.

(b) *Limitation on total credit allowable.* The total credit allowed to any taxpayer for contributions paid to State unemployment funds shall not exceed 90 percent of the tax against which such credit is applied. See § 400.212 (d) (2), relating to the aggregate limitation in case an additional credit is taken under section 1601 (b) of the Federal Unemployment Tax Act.

(c) *Limitation on the taxable year with respect to which contributions are allowable.* Contributions must have been paid with respect to the calendar year 1939.

(d) *Limitation on amount of credit allowable based on time when contributions are paid*—(1) *In general.* Contributions paid into a State unemployment fund at any time may be credited against the tax, but the amount of the credit is dependent upon the time when the contributions are paid. The amount of the credit shall be determined in accordance with subparagraph (2), (3), (4), or (5), below, whichever is applicable, subject, however, to the limitation on the total credit set forth in paragraph (b), above. Although contributions paid at any time may be credited against the tax, no refund or credit of the tax based on credit for contributions paid will be allowed unless the contributions are paid prior to the expiration of four years after the payment of the tax. For provisions relating to the statutory period of limitations applicable to refund or credit of the tax, see § 400.503 (c).

(2) *Amount of credit allowable when* contributions are paid on or before last day for filing return. Contributions paid into a State unemployment fund on or before the last day upon which the return for the taxable year is required to be filed may be credited against the tax in an amount equal to such contributions, but not, however, to exceed 90 percent of such tax. (The last day for filing the return is January 31, 1940, unless the time for filing the return is extended. See §§ 400.303, 400.304 and 400.305.)

(3) *Amount of credit allowable when contributions are paid after last day for filing return.* Contributions paid into a State unemployment fund after the last day upon which the return for the taxable year is required to be filed may be credited against the tax in an amount not to exceed 90 percent of the amount which would have been allowable as credit on account of such contributions had they been paid into the State unemployment fund on or before such last day. See, however, subparagraph (4), below, for special provisions relating to credit for contributions paid where taxpayers' assets were in the custody or control of certain fiduciaries. See also subparagraph (5), below, relating to the payment of contributions to the wrong State. For provisions relating to refund, credit, or abatement of the tax based on credit with respect to contributions, see § 400.503e.

(4) *Amount of credit allowable when taxpayers' assets are in custody or control of certain fiduciaries.* This subparagraph applies to those cases in which the assets of the taxpayer were, at any time during the period from the last day upon which the return for the calendar year 1939 was required to be filed to June 30, 1940, inclusive, or the period October 9, 1940, to December 6, 1940, inclusive, or the period September 21, 1941, to November 18, 1941, inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. In

such cases contributions paid into a State unemployment fund at any time may, notwithstanding the provisions of subparagraph (3), above, be credited against the tax in the same amount that would have been allowable as credit had the contributions been paid on or before the last day upon which the return for the taxable year was required to be filed.

(5) *Amount of credit allowable when contributions are paid to wrong State.* Contributions for the calendar year 1939 paid into the unemployment fund of a State which are required under the unemployment compensation law of that State, but which are paid with respect to remuneration on the basis of which the taxpayer had, prior to such payment, erroneously paid an amount as contributions under another unemployment compensation law, shall be deemed for purposes of credit to have been paid at the time of the erroneous payment. If, by reason of such other law, the taxpayer was entitled to cease paying contributions with respect to services subject to such other law, the payment into the proper fund shall be deemed for purposes of credit to have been made on the date the return was actually filed under section 1604 of the Federal Unemployment Tax Act.

(See, however, section 7 (b) of the Act approved August 13, 1940 (Public, No. 764, 76th Congress), for a special provision relating to credit for certain contributions paid with respect to certain services affected by such Act; and see sections 1, 3, 4, and 6 of such Act quoted preceding § 400.206 (8), relating to such services.)

(e) *Refund of State contributions.* If, subsequent to the filing of the return for the calendar year 1939, a refund is made by a State to the taxpayer of any part of his contributions for such year which had been credited against the tax, the taxpayer is required to advise the Commissioner under oath of the date and amount of such refund and the reason therefor, and to pay the tax, if any, due as a result of such refund, together with interest from the date when the tax was due.

(6) Section 400.212, as amended by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.) (article 212), relating to the additional credit against the tax for the calendar year 1939, is further amended as follows:

(A) By striking out the first sentence of paragraph (a) and inserting in lieu thereof the following:

In addition to the credit against the tax allowable for contributions actually paid to State unemployment funds (see § 400.211a), the taxpayer may be entitled to a further credit under section 1601 (b) of the Federal Unemployment Tax Act.

(B) By striking out the second sentence of paragraph (d) (1), together with the parenthetical cross reference to § 400.211a (article 211 (1)), following such sentence, and by inserting in lieu thereof the following:

If the State law does not make provision for such a lower rate, no additional credit is available to the taxpayer and he can take only the credit allowable for contributions actually paid. See § 400.211a.

(C) By striking out paragraph (d) (2) and inserting in lieu thereof the following:

(2) The aggregate of such additional credit and the credit allowable for contributions actually paid to State unemployment funds shall not exceed 90 percent of the tax against which credit is taken.

(7) Section 400.213 (a), added by Treasury Decision 4876 (Title 26, Code of Federal Regulations, 1938 Supp.) (article 213 (a)) as amended by Treasury Decision 4953 (1939 Supp.), relating to proof of the credit allowable under section 1601 (a) of the Federal Unemployment Tax Act against the tax for the calendar year 1939, is further amended as follows:

(A) By striking out the heading of the paragraph and inserting in lieu thereof the following:

(a) *Credit for contributions paid.*

(B) By striking out subparagraph (3) and inserting in lieu thereof the following:

(3) Such other or additional proof as the Commissioner may deem necessary to establish the right to the credit.

(8) Section 400.503 (Title 26, Code of Federal Regulations), relating to refund and credit of taxes erroneously collected with respect to the calendar year 1939, is amended as follows:

(A) By striking out paragraph (c) and inserting in lieu thereof the following:

(c) No refund or credit will be allowed after the expiration of four years after the payment to the collector of the tax, penalty, interest, or addition to the tax, except upon one or more of the grounds set forth in a claim filed prior to the expiration of such four-year period. A claim based on credit for contributions paid into a State unemployment fund shall not be considered as setting forth a sufficient ground within the meaning of this article unless the contributions, with respect to which credit is claimed, are paid prior to the filing of the claim. The amount of the refund or credit shall not exceed the portion of the tax, penalty, interest, or addition to the tax paid during the four years immediately preceding the filing of the claim for refund or credit, or if no claim was filed, then during the four years immediately preceding the allowance of the refund or credit.

(B) By striking out paragraph (d) and inserting in lieu thereof the following:

(d) A claim which does not comply with the requirements of this article will not be considered for any purpose as a claim for refund or credit.

(9) Immediately preceding § 400.503e, added by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.), (Article 503⅝), as amended by Treasury Decision 5088 (1941 Supp.), relating to refund, credit, or abatement of the tax for the calendar year 1939 based on credit with respect to contributions, the following is inserted:

SECTION 601 (b) AND (c) OF THE REVENUE ACT OF 1943.

(b) Section 1601 (a) (5) (relating to refunds) is repealed.

(c) Section 1601 (relating to credits against the Federal unemployment tax) is amended by inserting at the end thereof the following:

(d) *Refund or credit.* Refund or credit of the tax (including penalty and interest collected with respect thereto, if any), based on any credit allowable under this section, may be made in accordance with the provisions of law applicable in the case of erroneous or illegal collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund.

SECTION 602 (c) OF THE REVENUE ACT OF 1943.

Refund, credit, or abatement. (1) Refund or credit of the tax (including penalty and interest collected with respect thereto, if any), based on any credit allowable under this section, may be made in accordance with the provisions of law applicable in the case of erroneous or illegal collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund.

(2) Any claim for refund or credit, with respect to the tax (including penalty and interest collected with respect thereto, if any) imposed by • • • section 1600 of the Federal Unemployment Tax Act, based on credit for contributions, which has been disallowed prior to the date of enactment of this Act, the allowance of which would be considered erroneous under section 3774 (b) or section 3775 (b) of the Internal Revenue Code, shall nevertheless be allowable if otherwise allowable under this section or section 1601 of the Federal Unemployment Tax Act.

(3) Notwithstanding the acceptance of an offer in compromise prior to the date of enactment of this Act with respect to any tax (or penalty or interest in connection therewith) imposed by • • • section 1600 of the Federal Unemployment Tax Act, any claim for refund, credit, or abatement with respect to the tax (including penalty and interest collected with respect thereto, if any) imposed by • • • such Acts, based on credit for contributions, shall be allowable if otherwise allowable under this section or section 1601 of the Federal Unemployment Tax Act.

(4) On and after the date of the enactment of this Act no refund, credit, or abatement shall be allowed based on any credit allowable under section 701 of the Revenue Act of 1941.

(10) Section 400.503e, added by Treasury Decision 4953 (Title 26, Code of Federal Regulations, 1939 Supp.) (article 503⅝) as amended by Treasury Decision 5088 (1941 Supp.), relating to refund, credit, or abatement of the tax for the calendar year 1939 based on credit with respect to contributions, is further amended to read as follows:

§ 400.503e *Refund, credit, or abatement of tax for calendar year 1939, based on credit against such tax with respect to contributions*—(a) *In general.* If the tax for the calendar year 1939, against which an amount is allowable as credit under section 1601 of the Federal Unemployment Tax Act or section 602 (b) of the Revenue Act of 1943, has been paid without the benefit of such credit, the taxpayer shall be entitled to a refund or credit of the tax equal to the amount of such allowable credit. The taxpayer shall also be entitled to a refund or credit of the amount of interest or penalty, if any, collected from him with respect to the amount of tax refunded or credited. See, however, § 400.503 (c), relating to the statutory period of limitations applicable to such refund or credit. No interest shall be allowed or paid by the Government on the amount of any such refund or credit. Every claim for such refund or credit shall be made on Form 843 in accordance with the provisions of this article and § 400.503, relating to refund and credit of taxes erroneously collected. A claim which does not comply with these requirements will not be considered for any purpose as a claim for refund or credit.

On and after February 25, 1944, no refund, credit, or abatement shall be allowed based on any credit allowable under section 701 of the Revenue Act of 1941. Nor shall any refund, credit, or abatement be allowed, on or after September 20, 1941, based on any credit allowable under section 701 of the Second Revenue Act of 1940.

(b) *Special cases; claim disallowed or liability compromised.* Section 602 (c) (2) of the Revenue Act of 1943 provides that, even though refund or credit, with respect to the tax (including penalty and interest collected with respect thereto, if any) for the calendar year 1939, based on credit for contributions, would be considered erroneous under section 3774 (b) of the Internal Revenue Code (in case of a claim for refund) or under section 3775 (b) of the Internal Revenue Code (in case of a claim for credit) by reason of the disallowance by the Commissioner of the claim for such refund or credit and the failure of the claimant to bring suit for the recovery of the tax prior to the expiration of the statutory period of limitation for bringing suit therefor, the Commissioner may nevertheless allow such refund or credit if (1) the claim therefor was filed prior to the expiration of the statutory period of limitation for filing the claim, (2) such claim was disallowed prior to February 25, 1944, and (3) such refund or credit is otherwise allowable under section 1601 of the Federal Unemployment Tax Act or section 602 of the Revenue Act of 1943.

Section 602 (c) (3) of the Revenue Act of 1943 provides that, notwithstanding the acceptance of an offer in compromise prior to February 25, 1944, with respect to the tax (or penalty or interest in connection therewith) for the calendar year 1939, the Commissioner may nevertheless allow any refund, credit, or abatement with respect to such tax (including penalty and interest collected with respect thereto, if any), based on credit for contributions, if such refund, credit, or abatement is otherwise allowable under section 1601 of the Federal Unemployment Tax Act or section 602 of the Revenue Act of 1943. In such case the amount of the refund, credit, or abatement shall be determined as though an offer in compromise had not been accepted, except that any amount paid by the taxpayer under the compromise agreement shall be treated as a payment on account of the tax (including penalty and interest in connection therewith, if any).

The allowance of any such refund, credit, or abatement shall be subject to the provisions of paragraph (a) of this section.

PAR. C. *Credit against tax for 1940 and subsequent years.* In order to conform Regulations 107 (Part 403, Title 26, Code of Federal Regulations, Cum. Supp.), relating to the excise tax on employers under the Federal Unemployment Tax Act (subchapter C, chapter 9, Internal Revenue Code), to sections 601 and 602 of the Revenue Act of 1943 (Public Law 235—78th Congress, enacted February 25, 1944, such regulations are amended as follows:

(1) Section 403.101 (a), relating to the scope of the regulations for the calendar year 1940 and subsequent calendar years, is amended by striking out "(See § 403.1 (b) (1) for a cronological description of the pertinent statutes.)".

(2) Immediately preceding § 403.401, as amended by Treasury Decision 5088, approved October 17, 1941, relating to credit against the tax for the calendar year 1940 and subsequent calendar years for contributions paid, the following is inserted:

SECTION 601 (a) OF THE REVENUE ACT OF 1943.

Section 1601 (a) (3) (relating to the time within which contributions are required to be paid in order to be allowed as credit) is amended to read as follows:

(3) The credit against the tax for any taxable year shall be permitted only for contributions paid on or before the last day upon which the taxpayer is required under section 1604 to file a return for such year; except that credit shall be permitted for contributions paid after such last day, but such credit shall not exceed 90 per centum of the amount which would have been allowed as credit on account of such contributions had they been paid on or before such last day.

SECTION 602 (B) OF THE REVENUE ACT OF 1943

Allowance of credit against tax for • • • 1940, 1941, and 1942 where assets in control of court. Against the tax imposed by the Federal Unemployment Tax Act for the calendar year • • • 1940, 1941, or 1942, any taxpayer shall be allowed credit for the amount of contributions paid by him into an unemployment fund under a State law, without regard to the date of payment, if the assets of the taxpayer were, at any time during the period from the last day upon which the taxpayer was required under section 1604 of the Federal Unemployment Tax Act to file a return of the tax against which credit is claimed to June 30 next following such last day, inclusive, • • • or (in the case of credit against the tax for the calendar year 1940) the period September 21, 1941, to November 18, 1941, inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. The provisions of the Federal Unemployment Tax Act (except section 1601 (a) (3)), including such provisions as modified by section 902 (e) of the Social Security Act Amendments of 1939, shall apply to allowance of credit under this subsection. The terms used in this subsection shall have the same meaning as when used in the Federal Unemployment Tax Act. The total credit allowable against the tax imposed by such Act for the calendar year • • • 1940, 1941, or 1942 shall not exceed 90 per centum of such tax.

(3) Section 403.401, as amended by Treasury Decision 5088, relating to credit against the tax for the calendar year 1940 and subsequent calendar years for contributions paid, is further amended as follows:

(A) By striking out the heading of paragraph (b) and inserting in lieu thereof the following:

(b) *Limitation on total credit allowable.*

(B) By striking out paragraph (c) and inserting in lieu thereof the following:

(c) *Limitation on amount of credit allowable based on time when contributions are paid*—(1) *In general.* Contributions paid into a State unemployment fund at any time may be credited against the tax, but the amount of the credit is dependent upon the time when the contributions are paid. The amount of the credit shall be determined in accordance with subparagraph (2), (3), (4), or (5), below, whichever is applicable, subject, however, to the limitation on the total credit set forth in paragraph (b), above. Although contributions paid at any time may be credited against the tax, no refund or credit of the tax based on credit for contributions paid will be allowed unless the contributions are paid prior to the expiration of four years after the payment of the tax. For provisions relating to the statutory period of limitations applicable to refund or credit of the tax, see § 403.602 (c).

(2) *Amount of credit allowable when contributions are paid on or before last day for filing return.* Contributions paid into a State unemployment fund on or before the last day upon which the return for the taxable year is required to be filed may be credited against the tax in an amount equal to such contributions, but not, however, to exceed 90 percent of such tax. (The last day for filing the return is January 31 next following the close of the taxable year unless the time for filing the return is extended. See §§ 403.506 and 403.507.)

(3) *Amount of credit allowable when contributions are paid after last day for filing return.* Contributions paid into a State unemployment fund after the last day upon which the return for the taxable year is required to be filed may be credited against the tax in an amount not to exceed 90 percent of the amount which would have been allowable as credit on account of such contributions had they been paid into a State unemployment fund on or before such last day. See, however, subparagraph (5), below, for special provisions relating to credit, against the tax for the taxable year 1940, 1941, or 1942 only, for contributions paid where taxpayers' assets were in the custody or control of certain fiduciaries. See also subparagraph (4), below, relating to the payment of contributions to the wrong State. For provisions relating to refund, credit, or abatement of the tax based on credit with respect to contributions, see § 403.602.

Example (1). The Federal return of the M Company for the calendar year 1940 discloses a total tax of $12,000. The company is liable for total State contributions of $8,000 for such year. The due date of the company's Federal return is January 31, 1941, no extension of time for filing the return having been granted. The contributions are not paid until February 1, 1941. If the contributions had been paid on or before January 31, 1941, the entire amount could have been credited against the tax (such amount not exceeding 90 percent of the Federal tax of $12,000). Since the contributions were paid after January 31, 1941, the M Company

is entitled to a credit of 90 percent of the amount of the contributions ($8,000), or $7,200, the net liability for Federal tax being $4,800 ($12,000 minus $7,200).

Example (2). The facts are the same as in example (1), except that the M Company is liable for and pays total State contributions of $12,000, instead of $8,000. If the contributions had been paid on or before January 31, 1941, the amount allowable as credit would have been $10,800 (90 percent of the Federal tax of $12,000). Since the contributions were paid after January 31, 1941, the M Company is entitled to a credit of 90 percent of $10,800, or $9,720, the net liability for Federal tax being $2,280 ($12,000 minus $9,720).

Example (3). The Federal return of the R Company for the calendar year 1940 discloses a total tax of $10,000. The company is liable for total State contributions of $9,000 for such year. The due date of the company's Federal return is January 31, 1941, no extension of time for filing the return having been granted. The R Company pays $8,000 of the total State contributions on or before such date, and the remaining $1,000 on February 1, 1941. If the $1,000 had been paid on or before January 31, 1941, that amount could have been credited against the tax (such amount plus the $3,000 paid on or before January 31, 1941, not exceeding 90 percent of the Federal tax of $10,000). Since the $1,000 was paid after January 31, 1941, the R Company is entitled to a credit of 90 percent of this amount or $900, plus the credit of $8,000 allowable for the contributions paid on or before January 31, 1941. The net liability for Federal tax is thus $1,100 ($10,000 minus $8,900).

(4) *Amount of credit allowable when contributions are paid to wrong State.* Contributions for the taxable year paid into a State unemployment fund which are required under the unemployment compensation law of that State, but which are paid with respect to remuneration on the basis of which the taxpayer had, prior to such payment, erroneously paid an amount as contributions under another unemployment compensation law, shall be deemed for purposes of the credit to have been paid at the time of the erroneous payment. If, by reason of such other law, the taxpayer was entitled to cease paying contributions for such taxable year with respect to services subject to such other law, the payment into the proper fund shall be deemed for purposes of credit to have been made on the date the return for such year was actually filed under section 1604 of the act.

Example. Employer N, whose Federal return for the calendar year 1940 discloses a total tax of $1,000, employs individuals in State X and State Y during the calendar year 1940. N assumes in good faith that the services of his employees are covered by the unemployment compensation law of State Y, and pays as contributions to State Y the amount of $900 based upon the remuneration of the employees. All of the services were in fact covered by the unemployment compensation law of State X, and none by the law of State Y. The payment to State Y was made on January 31, 1941. When the error was discovered thereafter, N paid to State X contributions in the amount of $900 based upon such remuneration. Since the contributions were paid to State Y on January 31, 1941, the contributions to State X are, for purposes of the credit, deemed to have been paid on such date. N is entitled to a credit of $900 against the Federal tax of $1,000, the net liability for Federal tax being $100 ($1,000 minus $900).

(5) *Amount of credit allowable, against tax for taxable year 1940, 1941, or 1942 only, when taxpayers' assets are in custody or control of certain fiduciaries.* This subparagraph applies only to credit against the tax for the taxable year 1940, 1941, or 1942 in those cases where the assets of the taxpayer were, at any time during the period from the last day upon which the taxpayer was required to file a return of the tax against which credit is claimed to June 30 next following such last day, both dates inclusive, or, in the case of credit against the tax for the taxable year 1940, the period September 21, 1941, to November 18, 1941, both dates inclusive, in the custody or control of a receiver, trustee, or other fiduciary appointed by, or under the control of, a court of competent jurisdiction. In such cases contributions paid into a State unemployment fund at any time may, notwithstanding the provisions of subparagraph (3), above, be credited, against the tax for the taxable year 1940, 1941, or 1942, in the same amount that would have been allowable as credit had the contributions been paid on or before the last day upon which the return for the taxable year was required to be filed.

(4) Section 403.402 (d), relating to the 90-percent limitation on credits with respect to the tax for the calendar year 1940 and subsequent calendar years, is amended to read as follows:

(d) *Ninety-percent limitation on credits.* The aggregate of the additional credit under section 1601 (b) of the act, the credit under section 1601 (a) of the act, the credit under section 701 (b) of the Revenue Act of 1941, the credit under section 602 (b) of the Revenue Act of 1943, and the special credit under section 902 (e) of the Social Security Act Amendments of 1939 shall not exceed 90 percent of the tax against which credit is taken.

(5) Section 403.403 (a), as amended by Treasury Decision 5302, approved October 11, 1943, relating to proof of the credit allowable under section 1601 (a) of the Federal Unemployment Tax Act against the tax for the calendar year 1940 and subsequent calendar years, is further amended as follows:

(A) By striking out the heading of the paragraph and inserting in lieu thereof the following:

(a) *Credit under section 1601 (a) of the act or section 602 (b) of the Revenue Act of 1943.*

(B) By striking out subparagraph (3) and inserting in lieu thereof the following:

(3) Such other or additional proof as the Commissioner may deem necessary to establish the right to the credit provided for under section 1601 (a) of the act or section 602 (b) of the Revenue Act of 1943.

(6) Immediately following the provisions of law under the caption "Section 701 (c) of the Revenue Act of 1941" preceding § 403.602, as amended by Treasury Decision 5088, the following is inserted:

SECTION 601 (b) AND (c) OF THE REVENUE ACT OF 1943.

(b) Section 1601 (a) (5) (relating to refunds) is repealed.

(c) Section 1601 (relating to credits against the Federal unemployment tax) is amended by inserting at the end thereof the following:

(d) *Refund or credit.* Refund or credit of the tax (including penalty and interest collected with respect thereto, if any), based on any credit allowable under this section, may be made in accordance with the provisions of law applicable in the case of erroneous or illegal collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund.

SECTION 602 (c) OF THE REVENUE ACT OF 1943.

Refund, credit, or abatement. (1) Refund or credit of the tax (including penalty and interest collected with respect thereto, if any), based on any credit allowable under this section, may be made in accordance with the provisions of law applicable in the case of erroneous or illegal collection of the tax (including statutes of limitations). No interest shall be allowed or paid on the amount of any such credit or refund.

(2) Any claim for refund or credit, with respect to the tax (including penalty and interest collected with respect thereto, if any) imposed by * * * section 1600 of the Federal Unemployment Tax Act, based on credit for contributions, which has been disallowed prior to the date of enactment of this Act, the allowance of which would be considered erroneous under section 3774 (b) or section 3775 (b) of the Internal Revenue Code, shall nevertheless be allowable if otherwise allowable under this section or section 1601 of the Federal Unemployment Tax Act.

(3) Notwithstanding the acceptance of an offer in compromise prior to the date of enactment of this Act with respect to any tax (or penalty or interest in connection therewith) imposed by * * * section 1600 of the Federal Unemployment Tax Act, any claim for refund, credit, or abatement with respect to the tax (including penalty and interest collected with respect thereto, if any) imposed by * * * such Acts, based on credit for contributions, shall be allowable if otherwise allowable under this section or section 1601 of the Federal Unemployment Tax Act.

(4) On and after the date of the enactment of this Act no refund, credit, or abatement shall be allowed based on any credit allowable under section 701 of the Revenue Act of 1941.

(7) Section 403.602, as amended by Treasury Decision 5088, relating to claims for refund, credit, or abatement of the tax for the calendar year 1940 and subsequent calendar years, is further amended as follows:

(A) By striking out paragraph (c) and inserting in lieu thereof the following:

(c) *Limitations on claims.* No refund or credit will be allowed after the expiration of four years after the payment to the collector of the tax, penalty, or interest, except upon one or more of the grounds set forth in a claim filed prior to the expiration of such four-year period. A claim based on credit for contributions paid into a State unemployment fund shall not be considered as setting forth a sufficient ground within the meaning of this section unless the contributions, with respect to which credit is claimed, are paid prior to the filing of the claim. The amount of the refund or credit shall not exceed the portion of the tax, penalty, or interest paid during the four years immediately preceding the filing of the claim for refund or credit, or if no claim was filed, then during the four years immediately preceding the allowance of the refund or credit.

(B) By striking out paragraph (f) and inserting in lieu thereof the following:

(f) *Refunds or credits under section 1601 (d) of the act.* The provisions of this section of these regulations shall apply in the case of claims for refund or credit of the tax (including penalty and interest collected with respect thereto, if any) based upon credit allowable under section 1601 of the act (see Subpart D of these regulations). No interest shall be allowed or paid by the Government on the amount of any such refund or credit.

(C) By striking out paragraph (g) and inserting in lieu thereof the following:

(g) *Refunds or credits, under section 602 (c) (1) of Revenue Act of 1943, of tax for taxable year 1940, 1941 or 1942.* The provisions of this section of these regulations shall apply in the case of claims for refund or credit of the tax (including penalty and interest collected with respect thereto, if any) for the taxable year 1940, 1941, or 1942, based on credit, for contributions paid, allowable under section 602 (b) of the Revenue Act of 1943. No interest shall be allowed or paid by the Government on the amount of any such refund or credit.

(h) *Refund or credit if claim therefor disallowed prior to February 25, 1944.* Section 602 (c) (2) of the Revenue Act of 1943 provides that, even though refund or credit, with respect to the tax (including penalty and interest collected with respect thereto, if any), based on credit for contributions, would be considered erroneous under section 3774 (b) of the Internal Revenue Code (in case of a claim for refund) or under section 3775 (b) of the Internal Revenue Code (in case of a claim for credit) by reason of the disallowance by the Commissioner of the claim for such refund or credit and the failure of the claimant to bring suit for the recovery of the tax prior to the expiration of the statutory period of limitation for bringing suit therefor, the Commissioner may nevertheless allow such refund or credit if (1) the claim therefor was filed prior to the expiration of the statutory period of limitation for filing the claim, (2) such claim was disallowed prior to February 25, 1944, and (3) such refund or credit is otherwise allowable under section 1601 of the Federal Unemployment Tax Act or section 602 of the Revenue Act of 1943. The allowance of any such refund or credit shall be subject to the provisions of this section of these regulations. No interest shall be allowed or paid by the Government on the amount of any such refund or credit.

(i) *Refund, credit, or abatement if liability compromised prior to February 25, 1944.* Section 602 (c) (3) of the Revenue Act of 1943 provides that, notwithstanding the acceptance of an offer in compromise prior to February 25, 1944, with respect to the tax (or penalty or interest in connection therewith), the Commissioner may nevertheless allow any refund, credit, or abatement with respect to such tax (including penalty and interest collected with respect thereto, if any), based on credit for contributions, if such refund, credit, or abatement is otherwise allowable under section 1601 of the Federal Unemployment Tax Act or section 602 of the Revenue Act of 1943. In such case the amount of the refund, credit, or abatement shall be determined as though an offer in compromise had not been accepted, except that any amount paid by the taxpayer under the compromise agreement shall be treated as a payment on account of the tax (including penalty and interest in connection therewith, if any). The allowance of any such refund, credit, or abatement shall be subject to the provisions of this section of these regulations. No interest shall be allowed or paid by the Government on the amount of any such refund or credit.

(j) *Refund, credit, or abatement based on credit allowable under section 701 of the Revenue Act of 1941 barred.* On and after February 25, 1944, no refund, credit, or abatement of the tax (including penalty and interest collected with respect thereto, if any) for the taxable year 1940 shall be allowed based on any credit allowable under section 701 of the Revenue Act of 1941.

(Paragraph A: Secs. 902 and 908 of the Social Security Act (49 Stat. 639, 643; 42 U.S.C., 1102, 1108); sec. 902 (b), (c), (d), and (h) of the Social Security Act Amendments of 1939 (53 Stat. 1399; 42 U.S.C., 1102, note); and sec. 602 of the Revenue Act of 1943 (Pub. Law 235—78th Cong.). Paragraphs B and C: Sec. 1601 of the Internal Revenue Code, as amended by sec. 609 of the Social Security Act Amendments of 1939 (53 Stat. 1387; 26 U.S.C., 1601) and by sec. 601 of the Revenue Act of 1943 (Pub. Law 235—78th Cong.); sec. 1609 of the Internal Revenue Code (53 Stat. 188; 26 U.S.C., 1609); and section 602 of the Revenue Act of 1943 (Pub. Law 235—78th Cong.).)

[SEAL] JOSEPH D. NUNAN, Jr.,
Commissioner of Internal Revenue.

Approved: June 28, 1944.

JOHN L. SULLIVAN,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter VIII—Foreign Economic Administration

Subchapter B—Export Control

[Amdt. 187]

PART 801—GENERAL REGULATIONS

REFUNDS OF SUBSIDY PAYMENTS UPON EXPORTATION OF CERTAIN COMMODITIES

Part 801 General Regulations is hereby amended by adding thereto § 801.16 as follows:

§ 801.16 *Refunds of subsidy payments.* (a) No person may export any of the types or varieties of dry edible beans, processed prunes or processed raisins described in paragraph (d) of this section (Schedule A) to any destination other than Canada unless:

(1) There has been refunded to Commodity Credit Corporation any subsidy payment made by Commodity Credit Corporation on such commodities in the amount with respect to each variety, grade and size specified in paragraph (d) of this section, and

(2) There is presented to the Collector of Customs at the port of exit, with the individual export license or release certificate authorizing the exportation of such commodities, a Certificate of Subsidy Clearance issued by Commodity Credit Corporation which shall indicate the fact that the exporter has met the requirement specified in sub-paragraph (1) in regard to refunds of subsidy payments to Commodity Credit Corporation with respect to the commodities authorized for export under such license or release certificate, or that such refund is not required for the particular shipment.

(b) Application for Certificate of Subsidy Clearance relating to the commodities set forth in paragraph (d) of this section shall be submitted to Commodity Credit Corporation on 1943 CCC Export Form 1, or in such other manner as may be prescribed by Commodity Credit Corporation. If a refund of subsidy payment is required, the application to Commodity Credit Corporation shall be accompanied by a certified check for the refund, payable to the Commodity Credit Corporation.

(c) Such Certificate of Subsidy Clearance shall be issued by the Commodity Credit Corporation and shall be substantially in the following form:

CERTIFICATE OF SUBSIDY CLEARANCE

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 3270—CONTAINERS

[Limitation Order L-337]

FIBRE SHIPPING DRUM

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the material to make fibre drums for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3270.76 *Limitation Order L-337*—(a) *Definitions.* For the purpose of this order:

(1) "Packer" means any person who uses fibre drums for commercially packing any product.

(2) "Fibre drums" means any new cylindrical shipping container in breakdown or set-up form which (i) is of the types known in the container industry as "fibre drums" and "fibre pails", (ii) is made with a body of paperboard and ends of paperboard, steel (30 gauge or heavier), wood or any combination thereof, (iii) has a capacity of one gallon or more and (iv) is of the types which, upon conforming with any applicable Consolidated Freight Classification rule[1] and Interstate Commerce Commission regulation,[2] are acceptable for shipment without covering containers. This does not include cylindrical containers, of similar construction, known in the container industry as "cans" or "tubes", but does include fibre drums which are rejects or seconds.

Restrictions

(b) *Restrictions on packing.* No packer shall pack or ship any product in a fibre drum other than those listed in Schedules A and B.

(c) *Restrictions on manufacture, sale or delivery.* No person shall manufacture, sell or deliver any fibre drums which he knows or has reason to believe will be accepted or used in violation of the terms of this order.

(d) *Restrictions on inner containers.* No packer shall accept delivery of or use any fibre drums for packing or shipping products already packaged in an inner container. This restriction does not apply to primary protective packing used as a protection for food products such as a cellophane pouch or vegetable parchment.

(e) *Export restrictions.* No person shall export any empty fibre drums outside of the forty-eight states and the District of Columbia unless specifically authorized by the Foreign Economic Administration. The application for authorization shall be made by letter to the Foreign Economic Administration setting forth the product to be packed and all other pertinent facts.

(f) *Quota restrictions.* (1) No packer shall, during any calendar year, accept delivery of or use for packing any product listed in Schedule B more fibre drums than his quota for that product as shown in the Schedule. A packer's quota for any calendar year shall be the designated percentage of the quantity of a product which he packed in fibre drums in 1943.

(2) The quota restrictions of this paragraph shall become effective July 1, 1944. A packer's quota for the second half of 1944 shall be computed as follows: He takes the quantity of the product that he packed in fibre drums in the corresponding period of 1943 and multiplies this by the designated quota percentage for that product.

(g) *Inventory restrictions.* No packer shall, at any time, accept delivery of fibre drums which will increase his total inventory of that type or size of drum to more than his requirements for the following sixty day period.

Authorizations

(h) *Authorizations.* The War Production Board may authorize persons to pack products, other than those listed in the Schedules, in fibre drums. Application for such authorization shall be made by letter to the War Production Board and such applications will be considered only on the basis of the essential need for, and the supply of, new fibre drums, and the availability of used drums or substitute containers.

General Exceptions

(i) *Fibre drums for certain Government Agencies.* The restrictions of this order shall not apply (1) to the manufacture of fibre drums manufactured to meet the packaging specifications of, and for delivery to or for the account of, the government agencies listed below or (2) to the purchase, acceptance, use, or export of fibre drums by those agencies: The Army, Navy, Maritime Commission, United States Post Office, Federal Reserve System, United States Treasury Department (only for Lend-Lease requirements and for coin, currency, and securities requirements), War Shipping Administration, United Nations Rehabilitation and Relief Administration, or any agency procuring for delivery pursuant to the Act of Congress of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

Miscellaneous Provisions

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Division, Washington 25, D. C. Ref.: L-337.

(k) *Reports.* Any person affected by this order shall file such reports and questionaires as the War Production Board may request from time to time, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(l) *Appeals.* Appeals from this order shall be filed by addressing a letter to the War Production Board, Containers Division, Washington 25, D. C. Ref.: L-337.

The letter of appeal need not follow any particular form. It should state informally, but completely, the particular provision appealed from, the precise relief desired, the reasons why denial of the appeal would result in undue and excessive hardship, and such other statistical and narrative information as may be pertinent.

(m) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(n) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control and may be deprived of priorities assistance.

Issued this 29th day of June 1944.

By J. JOSEPH WHELAN,
Recording Secretary.

PART 3284—BUILDING MATERIALS

[General Limitation Order L-277, as Amended June 29, 1944]

ELECTRICAL WIRING DEVICES AND HEATER CORD SETS

§ 3284.31 *General Limitation Order L-277*—(a) *Definitions of "electrical wiring device and replacement heater cord set."* (1) "Electrical wiring device" means any unit of an electric circuit which does not consume electrical energy, but is used for the purpose of switching, tapping, or connecting such circuit. The term includes, but is not limited to the following:

(i) Sockets and lampholders of all types and component parts thereof;

(ii) Switches, such as: tumbler, push, rotary, snap, pull, door, pendant, cord, canopy, appliance switches; and component parts thereof;

(iii) Receptacles, such as: weatherproof, watertight, non-watertight, motor base, polarized, locking, electric range, pilot light receptacles; and component parts thereof;

(iv) Caps, plugs, connectors and taps, such as: weatherproof, watertight, non-watertight, polarized, locking and electric range plugs, current taps, attachment plugs and component parts of such caps, plugs, connectors and taps;

(v) Rosettes, adapters; and component parts thereof.

(2) "Electrical wiring devices" shall not include lighting fixtures, portable lamps, flashlights, fuses, fuse cutouts, lugs, mechanical wire connectors, knife blade switches, fluorescent starter switches, relays, push buttons, automatic control equipment, circuit breakers, cord sets, or any unit of an electric circuit designed and constructed to connect, convey or control electrical energy in excess of 60 amperes or 600 volts.

(3) "Replacement heater cord set" means any heater cord set not produced for original use in the manufacture or assembly of any new electrical appliance. "Heater cord set" means any assembly of insulated wire, an attachment plug and an appliance plug or terminals which is used to connect an electrical appliance to a source of electrical current.

(b) *Definition of "manufacturer".* "Manufacturer" means any person who produces, processes, or assembles electrical wiring devices, component parts, or heater cord sets.

(c) *Restrictions on manufacture of heater cord sets.* (1) On and after July 5, 1944 no person shall manufacture or assemble replacement heater cord sets except pursuant to an authorization issued by the War Production Board on Form GA-1850. The amount authorized will be based on the manufacturer's 1940 total production of such sets, available facilities including manpower required, and the availability of controlled materials to meet such production.

(2) All heater cord sets shall be six feet in length. The conductors shall be size No. 16 or No. 18 American Wire Gauge and shall be either type HC, type HPD, type HSJ, or the equivalent insulated copper wire. The wire shall test three thousand or more cycles in flexure.

NOTE: Paragraph (d), formerly (c), redesignated June 29, 1944.

(d) *Restrictions on sale and delivery of electrical wiring devices.* No manufacturer may ship, transfer, sell or otherwise dispose of an electrical wiring device except on an order bearing a preference rating of AA-5 or higher.

(e) *Restrictions on sale and delivery of replacement heater cord sets.* On or after July 5, 1944, no manufacturer may ship, transfer, sell or otherwise dispose of replacement heater cord sets except on an order bearing a preference rating of AA-5 or higher.

NOTE: Paragraphs (f), (g), (h) and (i), formerly (d), (e), (f) and (g), redesignated June 29, 1944.

(f) *Violations and false statements.* Any person who wilfully violates any provisions of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further delivery of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(g) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB 1477 with the field office of the War Production Board for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(i) *Communications.* Reports and other communications concerning this order shall be addressed to: War Production Board, Building Materials Division, Washington, 25, D. C., Ref: L-277.

Issued this 29th day of June 1944.

PART 3291—CONSUMERS DURABLE GOODS

[General Limitation Order L-65, as Amended June 29, 1944]

ELECTRICAL APPLIANCES

§ 3291.311 *General Limitation Order L-65*—(a) *Definitions.* For the purposes of this order:

(1) "Electrical appliances" means only those appliances listed on Schedule A of this order which have as functional parts, electrical heating units (of any wattage), or which are powered by an electrical vibrator or electrical fractional horsepower motor.

(2) "Heating unit" means any electric heating unit designed primarily for use in an electrical appliance or in a domestic type electric range.

(3) "Electrical resistance material" means material in the form of ribbon or wire to be incorporated in heating units, in which either nickel or chromium or both, are used to create electrical resistance for the development of heat.

(4) "Manufacturer" means any person engaged in the business of manufacturing or assembling any heating units, electrical appliances or parts for such appliances, including a person who assembles parts of an electrical appliance for sale in knock-down form.

(5) "Distributor" means any person engaged in the business of transferring heating units, electrical appliances or parts for such appliances to his retail outlets or to other dealers.

(6) "Dealer" means any person engaged in the business of transferring or repairing heating units, electrical appliances or parts for such appliances to or for ultimate consumers.

Any person who acts in more than the single capacity of manufacturer, distributor or dealer as defined in paragraphs (a) (4), (a) (5) and (a) (6) of this order shall for the purposes of this order be deemed a manufacturer, distributor or dealer, depending upon the capacity in which he acts in each specific transaction.

(7) "Preferred order" means any purchase order, contract or subcontract for delivery to or for the account of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration.

(8) "Repair or replacement part" means any heating unit for a domestic electric range or any heating unit or other part (except cord sets) for an electrical appliance when such heating unit or part is not produced for use in the manufacture or assembly of any new electrical appliance or new domestic electric range. This order does not control the production or delivery of cord sets produced or delivered for use as repair or replacement parts. Such cord sets are controlled by Limitation Order L-277.

(9) "Current-carrying parts" include only the following parts: Heating units, thermostats and temperature controls, relays, lead-in and connection wires, switches, terminals, fuses, receptacles and parts of motors which conduct electric current, but shall not include cord sets.

(b) *General restrictions on production.* (1) On and after June 17, 1943, no manufacturer shall produce any new electrical appliance (or parts therefor) other than repair or replacement parts, except:

(i) The following new electrical appliances (or parts therefor) may be produced in fulfillment of preferred orders: Coffee makers, flat irons, air heaters, water heaters, and commercial or heavy duty equipment of the following types: broilers, food choppers, food mixers, food grinders, food servers, food slicers, fry kettles, griddles, hotplates, juicers, ovens, ranges, toasters, urns and vegetable peelers.

(ii) During the period beginning June 17, 1943, and ending September 30, 1943, inclusive, and during each three months period thereafter, a manufacturer may produce for other than preferred orders as specified in paragraph (b) (1) (i) above, no more units of any of the following types of new electrical appliance (or parts therefor) than 10% of the number of units of that particular electrical appliance (or parts therefor) produced by him during 1940: Commercial or heavy duty equipment of the following types; broilers, food choppers, food mixers, food grinders, food servers, food slicers, fry kettles, griddles, hotplates, juicers, ovens, ranges, toasters, urns and vegetable peelers; *Provided,* that no manufacturer shall produce any units of any type of new electrical appliance (or parts therefor) listed in this paragraph (ii) if such production will result in an accumulation of inventory of that particular type of new electrical appliance (or parts therefor) greater than 15% of the number of units of that particular electrical appliance (or parts therefor) produced by him during 1940.

(2) On and after June 17, 1943, no manufacturer shall use copper or copper base alloys in the production of any new electrical appliances, or parts therefor (whether or not in fulfillment of preferred orders) specified in paragraph (b) (1) of this order, except for such minimum amounts as are necessary for the conduction of electric current or essential to the proper functioning of parts.

(c) *Restrictions on transfer of new electrical appliances.* On and after June 17, 1943, no manufacturer shall transfer the physical possession of or title to any new electrical appliance manufactured after that date, except

(1) In fulfillment of preferred orders.

(2) Pursuant to specific authorization of the War Production Board on Form WPB-1319 pursuant to an application filed on said Form. Form WPB-1319 should be filed with the nearest field office of the War Production Board for all orders except for export, and with the Foreign Economic Administration, Washington 25, D. C. for export orders.

(d) *Repair or replacement parts.* (1) Except in fulfillment of preferred orders, on and after June 17, 1943, no manufacturer shall use copper or copper base alloys in the production of any repair or replacement parts, other than the specific parts listed on the following table, or any part thereof:

NOTE: "Flatirons" and "Water heaters" deleted June 29, 1944.

Type of equipment	*Repair or replacement parts for which copper or copper base alloys are permitted*
Air heaters	Current-carrying parts.
Commercial permanent wave equipment and commercial hair driers.	Current-carrying parts, other than copper or copper base alloy disposable grids for permanent wave equipment.
Commercial or heavy duty equipment of the following types: broilers, food choppers, food mixers, food grinders, food servers, food slicers, fry kettles, griddles, hotplates, juicers, ovens, ranges, toasters, urns and vegetable peelers.	Current-carrying parts and motor bearings where the use of other material is impracticable.
Heating units for domestic electric ranges	Current-carrying parts.
Hotplates and disc stoves	Current-carrying parts.
Roasters	Current-carrying parts.

(2) On and after June 17, 1943, no manufacturer shall use copper or copper base alloys in the production of repair and replacement parts in fulfillment of preferred orders, except for such minimum amounts necessary for the conduction of electric current or essential to the proper functioning of parts.

(3) [Deleted June 29, 1944.]

(4) On and after June 17, 1943, no manufacturer shall produce any repair or replacement parts if he has, or as a result of such production will have, more parts of such type in his inventory than the number of parts of such type which he sold during the preceding six calendar months.

(5) Except in fulfillment of preferred orders, on and after June 17, 1943, no manufacturer or distributor shall transfer any repair or replacement parts unless a similar used part has been delivered to him in exchange therefor, or unless he has been informed that a similar used part is being held or will be secured by the dealer or distributor to whom the new part is being transferred, or has been disposed of in accordance with this paragraph. The used parts shall be held subject to disposition at the direction of the manufacturer or distributor who transferred the new part. If no such direction is given within 60 days, the person holding the used part shall promptly dispose of it through regular scrap channels.

(e) *Restriction on use or transfer of electrical resistance material.* On and after June 17, 1943, no manufacturer shall use in the production of heating units or transfer for any purpose whatsoever, any electrical resistance material except pursuant to specific authorization of the War Production Board on Form WPB–1319. Application on that form should be filed with the War Production Board, Washington 25, D. C., Ref.: L–65.

(1) [Deleted Feb. 19, 1944]

(2) [Deleted Feb. 19, 1944]

(f) *Inventory restrictions.* No manufacturer shall accumulate for use in the manufacture of electrical appliances, heating units, or repair or replacement parts, any inventories of raw materials, semi-processed materials or finished parts in quantities in excess of the minimum amount necessary to maintain production as permitted by this order.

(g) *Applicability of other orders.* In so far as any other order heretofore or hereafter issued by the Office of Production Management or the War Production Board limits the use of any material in the production of electrical appliances, heating units, or repair or replacement parts to a greater extent than the limits imposed by this order, the provisions of such other order shall govern unless otherwise specified therein.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(i) *Reports.* Every manufacturer affected by this order shall execute and file Form WPB–1600 (formerly PD–655) with the War Production Board, Washington 25, D. C., Ref.: L–65, on or before the 10th day following the close of each calendar month.

(j) *Appeals.* Any appeal from the provisions of this order should be made on Form WPB–1477 (formerly PD–500).

(k) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(l) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Consumers Durable Goods Division, Washington 25, D. C., Ref.: L–65.

Issued this 29th day of June 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A

NOTE: "Flat Irons" and "Water Heaters" deleted June 29, 1944.

The following is the list of electrical appliances specified in paragraph (a) (1) of this order:

Air Heaters (except as covered by L–107 and L–158)
Aquarium Heaters
Baking Ovens
Barbecue Machines
Biscuit and Muffin Bakers
Blankets
Bottle Warmers
•Bread Slicers (except as covered by L–83)
Bread Toasters (except as covered by L–182)
Broilers
Casseroles
Chafing Dishes
Choppers, food and meat
Cigar and Cigarette Lighters
Clothes Driers
Coffee Makers
Coffee Mills
Coffee Roasters
Commercial Cooking and Food and Plate Warming Equipment
Corn Poppers
Curling Irons
•Dishwashing Equipment (domestic)
Double Boilers
Doughnut Cookers
Dry Shavers
Egg Boilers
Face and Hand Driers
Fan Type Heaters (except as covered by L–107 and L–158)
Faucet Heaters
Fly Screens and Traps
Fireplaces
Food Choppers and Slicers
Food Conveyance Equipment
Food Cooking Equipment
Food Grinders
•Food Mixers
•Food Preparation Machinery
Food Servers
Fry Kettles
Griddles
Grills
Hair Clippers
Hair Driers
Heating Pads
Hedge Clippers
Hotplates and Disc Stoves
Ice Cream Freezers, Domestic
••Immersion Heaters
•Juice Extractors
Knife Sharpeners and Grinders
Massage Vibrators
•Meat, Fish and Bone Cutters
Neckwear and Trousers Pressers
Ovens (except as covered by L–182)
Peanut Roasters
Percolators
Permanent Wave Equipment
Popcorn Machinery
Portable Air Heaters
Pyrographic Pencils
Radiant Heaters
Ranges, Commercial (except as covered by L–182)
Roasters
Roasting Ovens
Sandwich Toasters
Soup Cookers
Steak and Meat Tenderizing Equipment
Steam Tables
••Steamers
Stock Pots
••Strip Heaters
Table Stoves
Tea Kettles
••Unit Heaters
Urns
Vibrators
••Vane Heaters
Waffle Irons

•Only those using a fractional horsepower motor.

•• Except for industrial applications.

PART 944—REGULATIONS APPLICABLE TO THE OPERATION OF THE PRIORITIES SYSTEM

[Priorities Reg. 1, as Amended June 30, 1944]

Sec.
944.1 Purpose and scope of this regulation; definitions.
944.1a Certain defense orders rated AA–5.
944.1b Specific authorizations rated AA–5.
944.2 Rules for acceptance and rejection of rated orders.
944.3 Report to War Production Board of improperly rejected orders.
944.4 Assignment of preference ratings.
944.4a Cancellation of preference ratings.
944.5 Sequence of preference ratings.
944.6 Doubtful cases.
944.7 Sequence of filling rated orders.
944.8 Delivery or performance dates.
944.9 Report to War Production Board of improper delay of orders.
944.10 Effect of other regulations and orders.
944.11 Material to be used for purposes for which priorities assistance granted.
944.12 Intra-company deliveries.
944.13 Scope of regulations and orders.
944.13a Defense against claims for damages.
944.14 Inventory restriction.
944.14a Restriction on delivery.
944.15 Records.
944.16 Audit and inspection.
944.17 Reports.
944.18 Violations.
944.19 Appeals for relief in exceptional cases.
944.20 Notification of customers.

§ 944.1 *Purpose and scope of this regulation; definitions.* This regulation states the basic rules of the War Production Board which apply to all business transactions unless they are covered by more specific regulations or orders of the War Production Board which are inconsistent with this regulation. It includes transactions which are not subject to priority control in any other way than by this regulation. The following definitions apply for purposes of this regulation and any other regulation or order of the War Production Board, unless otherwise indicated.

(a) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(b) "Defense order" means:

(1) Any contract or purchase order for material to be delivered to, or for the account of the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Selective Service System, the Civil Aeronautics Administration, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, Defense Supplies Corporation, Metals Reserve Company.

(For status of Panama Canal and Coast Guard in general see Interpretation 1 e.)

(2) Any contract or purchase order placed by any agency of the United States Government for material to be delivered under the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(3) Any contract or purchase order for material which is to be ultimately delivered to the government of any country whose defense the President deems vital to the defense of the United States pursuant to the act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(c) "Material" means any commodity, equipment, accessory, part, assembly or product of any kind.

§ 944.1a *Certain defense orders rated AA–5.* Every defense order placed after March 18, 1944, for any material which has not been specifically assigned a higher preference rating is hereby assigned a rating of AA–5.

§ 944.1b *Specific authorizations rated AA–5.* When a War Production Board order or regulation with respect to a particular material requires specific authorization for the placing of a purchase order or for delivery or acceptance of delivery, every purchase order for delivery of that material which is specifically authorized pursuant to the order is rated AA–5 unless it is otherwise assigned a higher rating. This does not apply to materials for which ratings may not be used (such as those on List A of Priorities Regulation 3), or materials for which only certain specified ratings may be used (such as those on Schedule A of M–328).

§ 944.2 *Rules for acceptance and rejection of rated orders.* Every order bearing a preference rating must be accepted and filled regardless of existing contracts and orders except in the following cases:

(a) A person must not accept a rated order for delivery on a date which would interfere with delivery on equal or higher rated orders which he has already accepted, or if delivery of the material ordered would interfere with delivery on an order which the War Production Board has directed him to fill for that material or for a product which he makes out of it.

(b) A person must not accept a rated order (except an AAA) for delivery on a date which can be met only by using material which was specifically produced for delivery on another rated order, and which is completed or is in production and scheduled for completion within 15 days.

(c) If a person, when receiving a rated order bearing a specific delivery date, does not expect to be able to fill it by the time requested, he must not accept it for delivery at that time. He must either (1) reject the order, stating when he could fill it, or (2) accept it for delivery on the earliest date he expects to be able to deliver, informing the customer of that date. He may adopt either of these two courses, depending on his understanding of which his customer would prefer. He may not reject a low rated order just because he expects to receive conflicting higher rated orders in the future, nor because he would for any reason prefer to have higher ratings.

(d) If a person receives a rated order which is not required by § 944.8 to bear a specific delivery date and which he cannot fill promptly, he must accept it as long as he expects to be able to fill it within a reasonable time, unless he makes a consistent practice of not carrying a backlog and rejecting orders which cannot be promptly filled. He may treat different classes of customers differently in this respect, but only if there is a reasonable basis for the distinction. For example, he may make a regular practice of rejecting unfillable orders from all retailers but holding for backlog orders from all industrial customers.

(e) A rated order need not be (but may be) accepted in the following cases, but there must be no discrimination in such case against rated orders, or between rated orders of different customers:

(1) If the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment. (When a person who has a rating asks a supplier to quote his regularly established prices and terms of sale or payment, the supplier must do so, except that if this would require detailed engineering or accounting work, he may give his best estimate without such work and state that it is not binding. However, the supplier need not quote if he is not required to accept the rated order and knows that he will not do so if he receives it.)

(For status of OPA ceiling prices under this section see Interpretation 2. For rule covering types of sales and types of purchasers see Interpretation 3.)

(2) If the order is for the manufacture of a product or the performance of a service of a kind which the person to whom the order is offered has not usually made or performed, and in addition if either (i) he cannot fill the order without substantially altering or adding to his facilities or (ii) the order can readily be performed by someone else who has usually accepted and performed such orders.

(3) If the order is for material which the person to whom the order is offered produces or acquires for his own use only, and he has not filled any orders for that material within the past two years, except on "special sales" as permitted on Priorities Regulation 13. If he has, but the rated order would take more than the excess over his own needs, he may not reject the rated order unless filling it would interfere with equal or higher rated orders already on hand, or orders which the War Production Board has directed him to fill, for the material or for a product which he makes out of it.

(4) If filling the order would stop or interrupt his production or operations during the next 40 days in a way which would cause a substantial loss of total production or a substantial delay in operations.

(f) Any person who fails or refuses to accept an order bearing a preference rating shall, upon written request of the person placing the order, promptly give his reasons in writing for his failure or refusal.

(For types of contracts which must be deferred see Interpretation 1b. For rule as to use of facilities of controlled materials producers see Interpretation 4.)

(g) Some orders of the War Production Board provide special rules as to the acceptance and rejection of orders for particular materials. In such cases, the rules stated above in this section are inapplicable to the extent that they are inconsistent with the applicable order of the War Production Board. In addition, the War Production Board may specifically direct a person in writing to fill a particular purchase order or orders. In such cases he must do so without regard to any of the above rules in this § 944.2, except that he may insist upon compliance with regularly established prices and terms of payment.

§ 944.3 *Report to War Production Board of improperly rejected orders.* When a rated order is rejected in violation of this regulation, the person who wants to place it may file a report of the relevant facts with the War Production Board, which will take such action as it considers appropriate after requiring an explanation from the person rejecting the order.

§ 944.4 *Assignment of preference ratings.* Preference ratings may be assigned to contracts, orders or deliveries by means of preference rating certificates, or by rules, regulations or orders of the War Production Board assigning ratings to particular orders or deliveries or to specified classes of orders or deliveries. Such ratings may be assigned to accepted contracts or orders, and also to orders which have not been placed or accepted at the time the rating is applied for. Ratings are also assigned by certain governmental agencies, authorized by the War Production Board, to their own purchase orders or contracts. In some cases the War Production Board will raise or lower ratings already assigned and in that event the rules of Priorities Regulation 12 (§ 944.33) apply. Specific orders may also be issued as to particular deliveries or as to the use of particular facilities, without assigning ratings thereto.

§ 944.4a *Cancellation of preference ratings.* If a preference rating which has been assigned to a named individual is revoked, he must immediately, in the case of each order to which he has applied the rating, either cancel the order or inform his supplier that it is no longer to be treated as rated. If a regulation or order of the War Production Board which assigns a rating to a class or group of persons without naming them individually is revoked after March 18, 1944, they may not apply the rating to orders placed after the revocation. Orders to which they have already applied the rating for delivery within three months after the revocation remain validly rated, but, in the case of each order which they have placed for delivery after three months from that date, they must either cancel the order or withdraw the rating. If any person receives notice from his customer that the customer's order is no longer rated or that the customer's order is cancelled, he must immediately withdraw any extensions of the rating which he has made to orders placed by him. The War Production Board may specify different rules for the treatment of outstanding ratings at the time it revokes them.

(For the rules about transferring preference ratings when contracts are assigned, see Interpretation 5.)

§ 944.5 *Sequence of preference ratings.* Preference ratings in order of precedence are: AAA, AA–1, AA–2, AA–2X, AA–3, etc.; A–1–a, A–1–b, etc.; A–2, A–3, etc.; B–1, B–2, etc. The letter "X" after a numeral indicates that such rating is inferior to the rating of the same numeral and superior to the rating of the next numeral. (For example, AA–2X is inferior to AA–2 and superior to AA–3.) The War Production Board, after March 18, 1944, will not assign ratings below AA–5 but any such ratings which were assigned before that date may be applied or extended.

§ 944.6 *Doubtful cases.* Whenever there is doubt as to the preference rating applicable to any order, or as to whether a particular order is a defense order, the matter is to be referred to the War Production Board for determination, with a statement of all pertinent facts.

§ 944.7 *Sequence of filling rated orders.* (a) Every person who has rated orders on hand must schedule his operations, if possible, so as to fill each rated order by the required delivery or performance date (determined as explained in § 944.8). If this is not possible for any reason, he must give precedence to higher over lower rated orders and to all rated over unrated orders. However, material specifically produced for a rated order may not be used to fill a higher rater order (except AAA) subsequently received if the material is completed or is in production and scheduled for completion within 15 days. A low rated order bearing an earlier delivery or performance date must be filled before a higher rated order bearing a later delivery or performance date if it is possible to fill both of them on the required dates.

(b) As between conflicting orders which bear the same preference rating, precedence must be given to the order which was received first with the rating. As between conflicting orders received with the same preference rating on the same date, precedence must be given to the order which has the earlier required delivery or performance date.

(c) If a rated order or the rating applicable to an order is cancelled when the supplier has material in production to fill it, he need not immediately stop to put other rated orders into production if doing so would cause a substantial loss of total production. He may continue to process that material which he had put into production for the cancelled order to a stage of completion which would avoid a substantial loss of total production, but he may not incorporate any material which he needs to fill any rated order on hand. He may not, however, delay putting other rated orders into production for more than 15 days. Special rules regarding controlled materials are given in paragraph (c) (4) of CMP Regulation 2 and Interpretation 2 of that regulation.

(See Interpretation 1 c.)

§ 944.8 *Delivery or performance dates.* (a) Every rated order placed after March 18, 1944, must specify delivery or performance on a particular date or dates or within specified periods of not more than 31 days each, which in no case may be earlier than required by the person placing the order. Any order which fails to comply with this rule must be treated as an unrated order. The words "immediately" or "as soon as possible", or other words to that effect, are not sufficient for this purpose. There are four exceptions to this rule, where a rated order need not bear a required delivery or performance date as long as it is understood that delivery or performance is required as soon as practicable or customary: (1) Orders for maintenance, repair or operating supplies as identified by the symbol MRO or otherwise; (2) orders placed with or by persons who normally take physical delivery of the item ordered to hold it in stock for resale; (3) orders for not more than $100; (4) orders rated AAA.

(b) The required delivery or performance date, for purposes of determining the sequence of deliveries or performance pursuant to § 944.7, shall be the date on which delivery or performance is actually required. The person with whom the order is placed may assume that the required delivery or performance date is the date specified in the order or contract unless he knows either (1) that the date so specified was earlier than required at the time the order was placed, or (2) that delivery or performance by the date originally specified is no longer required by reason of any change of circumstances. A delay in the scheduled receipt of any other material which the person placing the order requires prior to or concurrently with the material ordered, shall be deemed a change of circumstances within the meaning of the foregoing sentence.

(c) If, after accepting a rated order which specifies the time of delivery, the person with whom it is placed finds that he cannot fill it on time or within 15 days following the specified time, owing to the receipt of higher rated orders or for other reasons, he must promptly notify the customer, telling him approximately when he expects to be able to fill the order.

§ 944.9 *Report to War Production Board of improper delay of orders.* When delivery or performance of a rated order is unreasonably or improperly delayed, the customer may file a report of the relevant facts with the War Production Board, which will take such action as it considers appropriate after requiring an explanation from the person with whom the order is placed.

§ 944.10 *Effect of other regulations and orders.* Specific allocations or other directions of the War Production Board for delivery of material or the use of facilities must be complied with regardless of ratings, unless otherwise specified. If restrictions under two or more regulations or orders of the War Production Board apply to the same subject matter, the most restrictive controls unless otherwise expressly provided. Defense orders or other rated orders are not exempt from restrictions on the amount of materials that may be made or delivered unless expressly so stated.

§ 944.11 *Material to be used for purposes for which priorities assistance granted.* (a) Any person who obtains material with priorities assistance must, if possible, use or dispose of it (or of the product into which it has been incorporated) for the purpose for which the assistance was given. This restriction applies to material obtained by means of a preference rating, allocation, specific direction, CMP allotment, or any other action of the War Production Board. Physical segregation is not required as long as the restrictions applicable to any specific lot of material or product are observed with respect to an equivalent amount of the same material or product. The foregoing restriction does not apply to scrap normally generated in the fabrication of material, but the use and disposition of certain forms of scrap are restricted by certain other regulations and orders of the War Production Board.

(b) When a material, or a product into which it has been incorporated, can no longer be used for the purpose for which the priorities assistance was given (for example, when the priorities assistance was given to fill a particular contract or purchase order and the material or product does not meet the customer's specifications or the contract or purchase order is cancelled), its use or disposition shall be restricted as follows:

(1) If the holder does not regularly sell similar materials or products in the course of his business, he may sell or transfer it only as provided in Priorities Regulation 13 (§ 944.34). Also, he may use it for any purpose for which he has the necessary preference rating and if he satisfies any other conditions which would be necessary in order to buy it for use by him from someone else under that regulation;

(2) The holder may use or dispose of the material or product to fill, in accordance with this regulation, a contract or purchase order bearing a preference rating of AA–5 or higher (or a rating as high as that with which the material was obtained, if it was obtained with a rating lower than AA–5), unless either the filling of the contract or purchase order or the fabrication of the material or product to fill that type of contract or purchase order is prohibited by an order or regulation of the War Production Board.

(3) The holder may use it to fill his own needs (such as meeting his requirements for maintenance, repair or operating supplies) if he has been authorized to obtain similar materials or products for that purpose by applying or extending a preference rating of AA–5 or higher (or a rating as high as that with which the material was obtained if he obtained it with a rating lower than AA–5), *Provided*, That use of the same for that purpose is not prohibited by an order or regulation of the War Production Board;

(4) It may be redelivered to the person from whom it was obtained, if he is willing to accept redelivery; or it may be delivered to the manufacturer, if he is willing to accept it;

(5) It may be used or disposed of as scrap, unless the use or disposition is prohibited by other regulations or orders of the War Production Board; or

(6) It may be used or disposed of in any other manner specifically authorized in writing by the War Production Board. Field offices of the Board will advise persons making inquiry of the method of obtaining authorization.

(c) In any event, if a material or product is a controlled material or a Class A product obtained pursuant to an allotment under CMP Regulation 1, the holder may use or dispose of it in accordance with paragraph (u) of that regulation.

§ 944.12 *Intra-company deliveries.* When any rule, regulation or order of the War Production Board prohibits or restricts deliveries of any material by any person, such prohibition or restriction shall, in the absence of a contrary direction, apply not only to deliveries to other persons, including affiliates and subsidiaries, but also to deliveries from one branch, division or section of a single enterprise to another branch, division or section of the same or any other enterprise under common ownership or control.

(For rule as to effect of inventory and small order provisions on separate operating units of same company see Interpretation 8.)

§ 944.13 *Scope of regulations and orders.* All regulations and orders of the War Production Board (including directions, directives and other instructions) apply to all subsequent transactions even though they are covered by previous contracts. Regulations and orders apply to transactions in the territories or insular possessions of the United States unless the regulation or order specifically states that it is limited to the continental United States or to the 48 states and the District of Columbia. However, restrictions of War Production Board orders or regulations on the use of material or on the amount of inventory shall not apply when the material is used or the inventory is held directly by the Army or Navy outside the 48 states and the District of Columbia, unless otherwise specifically provided.

(For application of WPB regulations and orders to liquidation sales see Interpretation 1d.)

§ 944.13a *Defense against claims for damages.* No persons shall be held liable for damages or penalties for any default under any contract or order which shall result directly or indirectly from compliance with any rule, regulation or order of the War Production Board, notwithstanding that any such rule, regulation or order shall thereafter be declared by judicial or other competent authority to be invalid.

§ 944.14 *Inventory restriction.* Unless specifically authorized by the War Production Board, no person shall knowingly make delivery of any material whatever, and no person shall accept delivery thereof if the inventory of such material of the person accepting delivery, in the same or other forms, is, or will by virtue of such acceptance become, in excess of the practicable minimum working inventory reasonably necessary to meet deliveries of the products of the person accepting delivery, on the basis of his current method and rate of operation. Unless specifically authorized by the War Production Board, no person shall process, fabricate, alloy or otherwise alter the shape or form of any material if his inventory of such material in its processed, fabricated, alloyed or otherwise altered shape or form is, or will by virtue of such operation become, in excess of a practicable minimum working inventory thereof. The term "practicable minimum working inventory" is to be strictly construed. The mere fact that the rate of turnover has increased or that materials are difficult to obtain does not justify maintaining inventories above the minimum with which operations can be continued. In the calculation of the practicable minimum working inventory of any person who imports material, either directly or through an agent, deliveries of such imported material to such person may be excluded.

§ 944.14a *Restriction on delivery.* No person shall deliver any material which he knows or has reason to believe will be accepted, redelivered, held or used in violation of any order or regulation of the War Production Board.

(For application of this section to seasonal industries see Interpretation 1a, and to minimum sale quantities and production runs see Interpretation 7.)

§ 944.15 *Records.* Each person participating in any transaction to which any rule, regulation or order of the War Production Board applies shall keep and preserve for a period of not less than two years accurate and complete records of his inventories of the material to which such rule, regulation or order relates and of the details of all transactions in such materials. Such records shall include the dates of all contracts or purchase orders accepted, the delivery dates specified in such contracts or purchase orders, and in any preference rating certificates accompanying them, the dates of actual deliveries thereunder, description of the material covered by such contracts or purchase orders, description of deliveries by classes, types, quantities, weights and values, the parties involved in each transaction, the preference ratings, if any, assigned to deliveries under such contracts or purchase orders, details of defense orders and all other rated orders either accepted or offered and rejected, and other pertinent information. Records kept by any person pursuant to this section shall be kept either separately from the other records of such person and chronologically according to daily deliveries by such person, or in such form that such a separate chronological record can be promptly compiled therefrom. Whenever a regulation or order requires a person to restrict his operations in proportion to his operations in a base period (for example, an order may forbid him to use more of a certain kind of material than he used in the fourth quarter of 1942) he must determine, as accurately as is reasonably possible, his base period operations and preserve a written record of any figures and work sheets showing how he made his calculations for inspection by War Production Board officials as long as the regulation or order remains in force and for two years after that. Whenever a person is restricted as to the quantity of material he may use in production or the amount he may produce, under quota restrictions, limitation orders, authorized production schedules, special directions or similar provisions, he must keep reasonably adequate records of the material consumed and of production to show whether he is complying with the restrictions. This record-keeping requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(Photographic copies of records may be kept. See Interpretation 6.)

§ 944.16 *Audit and inspection.* All records required to be kept by this regulation or by any rule, regulation or order of the War Production Board shall, upon request, be submitted to audit and inspection by its duly authorized representatives.

§ 944.17 *Reports.* Every person shall execute and file with the War Production Board such reports and questionnaires as it shall from time to time request, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

§ 944.18 *Violations.* Any person who violates any provision of this regulation or any other rule, regulation or order of the War Production Board, or who, by any statement or omission, wilfully falsifies any records which he is required to keep, or who otherwise wilfully furnishes false or misleading information to the War Production Board, and any person who obtains a delivery, an allocation of material or facilities, or a preference rating by means of a material and wilful, false or misleading statement, may be prohibited by the War Production Board from making or obtaining further deliveries of material or using facilities under priority or allocation control and may be deprived of further priorities assistance. The War Production Board may also take any other action deemed appropriate, including the making of a recommendation for prosecution under section 35 (A) of the Criminal Code (18 U. S. C. Sec. 80), or under the Second War Powers Act (Public No. 507, 77th Congress, March 27, 1942).

§ 944.19 *Appeals for relief in exceptional cases.* Any person who considers that compliance by himself or another with a rule or regulation or order of the War Production Board would work an exceptional and unreasonable hardship on him may appeal for relief. The rules for the filing and handling of appeals are given in Priorities Regulation 16.

§ 944.20 *Notification of customers.* Any person who is prohibited from or restricted in making deliveries of any material by the provisions of any rule, regulation or order of the War Production Board shall, as soon as practicable, notify each of his regular customers of

the requirements of such rule, regulation or order, but the failure to give notice shall not excuse any customer from the obligation of complying with any requirements applicable to him.

Issued this 30th day of June 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1A

INVENTORIES IN SEASONAL INDUSTRIES

The question has been raised, in connection with various seasonal industries, whether a company which is engaged in such an industry and which normally stocks up inventory in advance of the season, is forbidden by the foregoing regulation from doing so.

The prohibition against accepting delivery of inventory "in excess of the practicable minimum working inventory reasonably necessary to meet deliveries of the products of the person accepting delivery, on the basis of his current method and rate of operation," does not prevent the acceptance of delivery by such person of his requirements of the inventory in question provided, (a) that such person is not guilty of hoarding, and (b) that the deliveries accepted are no greater and no further in advance than those which he would normally accept in the ordinary course of his business to meet reasonably anticipated requirements. (Issued Mar. 18, 1944.)

INTERPRETATION 1B

TYPES OF EXISTING CONTRACTS WHICH MUST BE DEFERRED

Section 944.2 of Priorities Regulation 1, as amended, makes compulsory the acceptance and filling of rated orders for any material "regardless of existing contracts and orders". The "existing contracts" referred to include not only ordinary purchase contracts but other arrangements achieving substantially the same results, though in form they may concern the use of production facilities rather than the material produced. Preference ratings are applicable to facilities as well as materials.

Examples of such "existing contracts" which must be subordinated to higher rated orders are (1) arrangements whereby a producer, regularly engaged in producing a given product for sale to others, leases a portion of his plant, or the whole of it for a relatively short period, as a going concern to one of his customers and operation is continued under the producer's management and with the producer's regular personnel; and (2) arrangements whereby such a producer, in lieu of buying raw materials and selling the product, accepts raw materials belonging to a customer for processing pursuant to a toll agreement or similar undertaking. If the deliveries to be made to such customer carry a preference rating, the sequence of deliveries as compared with deliveries to other persons placing orders with the producer is to be determined as provided in § 944.7 of Priorities Regulation No. 1. (Issued Mar. 18, 1944.)

INTERPRETATION 1C

SEQUENCE OF DELIVERIES AND PRODUCTION FOR RATED ORDERS

The provisions of § 944.7 (b) of Priorities Regulation No. 1, as amended, with respect to the sequence of deliveries bearing the same preference rating, are applicable only in cases where different deliveries bearing the same preference rating cannot be made on schedule. If material supply and available facilities permit deliveries bearing the same rating to be made on schedule, Regulation No. 1 does not have any particular effect on the sequence of production for such deliveries. Where it is necessary to choose between deliveries bearing the same preference ratings, delivery to the customer from whom the order was first received with the rating is to be preferred and production schedules must be adjusted accordingly. For example, suppose a rated order is received from one customer in January for August delivery and another order bearing the same rating is received from a second customer in June calling for July delivery. If both deliveries cannot be made on schedule, the second customer is not permitted to get the material away from the first customer. The producer must defer production on the second order to the extent necessary to make delivery on the first order on the August delivery date. If, on the other hand, both deliveries can be made on schedule, it is not necessary to produce or make delivery on the first customer's order ahead of that of the second. (Issued Mar. 18, 1944.)

INTERPRETATION 1D

APPLICATION OF ORDERS AND REGULATIONS TO SALES BY AUCTIONEERS, RECEIVERS, TRUSTEES, ETC.

The impression has arisen that orders and regulations of the War Production Board which restrict the sale, transfer or delivery of materials, products or equipment, need not be observed in the case of sales made by auctioneers, receivers, trustees in bankruptcy, and other cases where the assets of a business are being liquidated. This impression is erroneous.

All orders and regulations of the War Production Board which control the sale, transfer or delivery of any material, product or equipment, apply to sales made by any person, whether for his own account or for the account of others, and all restrictions upon accepting delivery apply to acceptance of delivery at any type of sale, except as otherwise provided in Priorities Regulation No. 13 with respect to "special sales" or as otherwise provided in any other applicable regulation or order. Any sale made in violation of any order or regulation or any delivery accepted in violation of any order or regulation, subjects parties to all penalties provided by law, including liability for prosecution under Title III of the Second War Powers Act, which specifies penalties up to $10,000 or imprisonment for one year or both. (Issued Mar. 18, 1944.)

INTERPRETATION 1E

ARMY INCLUDES PANAMA CANAL—NAVY INCLUDES COAST GUARD

(a) Section 944.1 (b) defines "defense order" to mean, among other things, any contract or purchase order for material or equipment to be delivered to or for the accounts of the Army or Navy of the United States, the Panama Canal or the Coast Guard. At the present time the Panama Canal is part of the Army and the Coast Guard is part of the Navy. Some question has arisen as to whether the specific enumeration in Priorities Regulation No. 1 of the Panama Canal and the Coast Guard means that they do not fall within general references to the Army and Navy in other regulations and orders of the War Production Board. In particular, inquiries have been made as to whether exemptive provisions in limitation and conservation orders in favor of the Army and Navy also provide exemptions for the Panama Canal and the Coast Guard when the latter are not specifically mentioned.

An exemptive or other provision applicable to the Army also applies to the Panama Canal, and a provision applicable to the Navy to the Coast Guard, unless the provision expressly states otherwise.

(b) Question has also been raised as to the status of the Office of Strategic Services under § 944.1 (b) and similar general references to the Army and Navy in other regulations and orders of the War Production Board.

The operations of the Office of Strategic Services are under the direction and supervision of the Joint Chiefs of Staff. Therefore, any provision in a regulation or order of the War Production Board which applies to both the Army and the Navy (but not a provision which applies to the Army alone or to the Navy alone) also covers the Office of Strategic Services. (Issued Mar. 18, 1944)

INTERPRETATION 2

REGULARLY ESTABLISHED PRICES AND OPA CEILING PRICES

An order bearing a preference rating may not be rejected on the ground that the price is below the regularly established price, if the purchaser offers the OPA ceiling price.

Section 944.2 of Priorities Regulation 1 makes the acceptance of rated orders mandatory except in the several situations specified in the section. The only exception dealing with price is contained in paragraph (e) (1) which states that a rated order need not be accepted "if the person seeking to place the order is unwilling or unable to meet regularly established prices and terms of sale or payment".

"Regularly established prices" cannot be higher than OPA ceiling prices. They may, however, be lower. (Issued Mar. 18, 1944.)

INTERPRETATION 3

REJECTION OF RATED ORDERS FOR FAILURE TO MEET ESTABLISHED PRICES AND TERMS

(a) Section 944.2 of Priorities Regulation 1 states that every order bearing a preference rating must be accepted and filled with certain exceptions listed in the section. One exception is where a buyer does not "meet regularly established prices and terms of sale or payment". This exception applies to a seller who receives a rated order for quantities which are less than the minimum which he regularly sells. For example, a manufacturer who has been selling only in carload lots may reject a rated order for a less than carload lot.

This exception applies similarly to a person who regularly sells only in multiples of a specified quantity and receives a rated order for a number which is not a multiple of that quantity. For example, a manufacturer who regularly sells his product only in standard shipping packages containing one dozen receives a rated order for 40. He may fill the whole order or he may fill it to the extent of 36 and reject it for 4.

A further problem arises when a manufacturer receives such an order with split ratings. For example, suppose the manufacturer who sells his product only in standard shipping packages of a dozen receives an order for 30 rated AA–4 and 20 rated AA–5. In such a case the general rule is that amounts in excess of a multiple of the standard shipping package ordered at higher ratings may be included with amounts ordered at lower ratings if the manufacturer wishes to adhere to his standard shipping package and not fill the order as received. He may then, in the case supposed, treat the order as one for 24 items rated AA–4 and 24 rated AA–5 and reject it for 2 of the items. Of course, he may fill the order as placed if he prefers to do so; but, if he does not he must fill it as illustrated above.

(b) The exception also applies to the seller who regularly sells only to certain types of trade purchasers, such as wholesalers, jobbers or retailers. He may reject orders from other types of purchasers but only if it is practicable to obtain the merchandise in the required quantity through regular trade channels.

(c) It should be noted that paragraph (e) of § 944.2 in which the above exception appears includes the requirement that "there must be no discrimination in such case against rated orders, or between rated orders of different customers." This means, for example, that a seller who sells principally at wholesale but also at retail to one or more customers may not reject rated retail orders from other customers. However, if a manufacturer or wholesaler has an exclusive distributor, either for all sales or for a particular territory, he may reject orders from other purchasers provided the exclusive distributor is in a position to fill the orders promptly. (Issued Mar. 18, 1944.)

INTERPRETATION 4

ACCEPTANCE OF RATED ORDERS FOR USE OF FACILITIES BY CONTROLLED MATERIALS PRODUCERS

Section 944.2 of Priorities Regulation No. 1 provides for the compulsory acceptance of defense and other preference rated orders for the use of facilities, and § 944.7 provides for the sequence of deliveries on such orders. With respect to all such orders placed with a producer of controlled materials, the provisions of these sections are applicable only to the extent that they do not interfere with the acceptance, production, and delivery of orders which he is permitted to fill under paragraph (t) (3) of CMP Regulation No. 1. (Issued Mar. 18, 1944.)

INTERPRETATION 5

EFFECT OF ASSIGNMENT OF A RATED ORDER OR CONTRACT ON SEQUENCE OF DELIVERY

When a rated contract is assigned, the rating remains applicable to the contract as assigned if, but only if, the assignee uses the material covered by the contract for substantially the same purpose for which the rated contract was placed.

Examples. (1) The Navy places a rated order with A and A extends the rating to B. Later the Navy and A cancel the contract and the Navy enters into a new contract with C for delivery of the same product at the same time and applies the same rating to it. A assigns to C his contract with B. The rating which A had extended to B remains valid as of the time it was extended by A, and B must honor it in making delivery to C.

(2) A steel mill places an order for a repair part rated AA–1 under CMP Regulation No. 5. The steel mill finds that it does not need the part but another steel mill needs the same and asks the first mill to assign its contract for the part. The second mill could also apply a AA–1 rating to the delivery. However, it prefers to use the first mill's rating so as to come ahead of the orders which have been placed since the first mill placed its order. The second mill may not make this use of the rating, since the rated order was placed for the repair of the first mill's facilities and the purpose of the order has thus been changed.

(3) The War Production Board assigns a rating on a PD–1A certificate to a textile manufacturer to buy some textile machinery. He places an order with a machinery manufacturer and applies the rating to the order. He decides he does not need the machinery but finds another textile producer who does need the machinery and is willing to purchase the same from him. He therefore assigns the contract for the machinery to the second textile producer. The rating does not apply to the delivery to the second producer since it was assigned by the War Production Board only for the purpose of filling a specific need shown by the first textile producer. (Issued July 24, 1943.)

INTERPRETATION 6

MICROFILM RECORDS

Records required to be kept by § 944.15 of Priorities Regulation No. 1 or by any other order or regulation of the War Production Board may be kept in the form of microfilm or other photographic copies instead of the originals. (Issued Aug. 14, 1943.)

INTERPRETATION 7, AS AMENDED APR. 14, 1944

MINIMUM SALE QUANTITIES AND PRODUCTION RUNS

(a) *Applicable provisions of the regulations.* Section 944.14 of Priorities Regulation No. 1 forbids the making or acceptance of a delivery which will give the customer more than the "practicable minimum working inventory reasonably necessary" for him to make his own deliveries. A similar provision in paragraph (b) (2) of Priorities Regulation No. 3 says that a customer who is applying a rating for which no specific quantities have been authorized may use it only to get the "minimum required amounts".

(b) *Factors to be considered in determining how much can be ordered and delivered.* In determining a customer's minimum inventory "reasonably necessary" under Priorities Regulation No. 1 or his "minimum required amounts" under Priorities Regulation No. 3, it is proper in some cases to consider not only the immediate needs of the customer's plant but also whether the amount which he orders will be a minimum production run for his supplier. The customer may order and receive (and the supplier may deliver) the customer's requirements for a longer period in advance than he actually needs at the time of delivery if, but only if, it is not practicable for him to get the item from any supplier in the smaller quantities which he presently needs. The supplier may reject his customer's order if it is less than the minimum which he regularly sells, as explained in Interpretation 3 of Priorities Regulation No. 1. This means that if he regularly sells not less than a certain minimum production run, he does not have to accept orders which either total less than the run or which call for individual deliveries of less than the run.

(c) *Relief in exceptional cases.* If the conditions stated in paragraph (b) above cannot be satisfied but the customer wants to order or accept delivery of more than his actual needs at the time of delivery, he should apply to the Redistribution Division of the War Production Board for permission, stating the facts and why it is not practicable to satisfy the conditions of paragraph (b).

(d) *Special provisions for controlled materials and Class A products.* This interpretation does not apply to deliveries of controlled materials under the Controlled Materials Plan. Rules regarding deliveries of controlled materials are given in CMP Regulation No. 2, and additional rules for Class A products are explained in Interpretation 9 to CMP Regulation No. 1.

(e) *Specific limits on ratings may not be exceeded.* This interpretation does not apply to the use of a rating where a specific quantity is stated in the instrument assigning the rating. If a person is assigned a rating for a specific amount of material, he may not use it to get more. If he finds that he can only get the material in larger quantities, he should apply for a modification of the rating.

(f) *No effect on contractual rights.* The times and amounts in which deliveries are to be made are to be determined by agreement between the supplier and the customer. Nothing in this interpretation relieves a supplier from fulfilling a contract to make deliveries at specified times in specified amounts. For example, if a customer has agreed to buy and a supplier has agreed to furnish 100 units a month for six months, this interpretation does not obligate the buyer to accept 600 units delivered during the first month, although it permits him to do so under the conditions described in paragraph (b). (Issued Apr. 14, 1944.)

INTERPRETATION 8

EFFECT OF INVENTORY AND SMALL ORDER PROVISIONS ON SEPARATE OPERATING UNITS OF THE SAME COMPANY

(a) If an individual plant, branch store, division or other operating unit normally keeps separate inventory from the rest of the corporation or firm, inventory restrictions in WPB orders and regulations apply to it separately. Thus, although another unit may have exceeded an inventory limit, this does not prevent a unit which has not exceeded it from acquiring additional inventory within the limit.

(b) Likewise, if an order of the War Production Board provides an exemption for small purchases, an operating unit which normally buys separately need not consider purchases made by other units in determining whether it comes within the exemption.

(c) It may happen that the same operating unit will be treated separately for purposes of inventory restrictions but not for purposes of small order exemptions. For example, if a distributor purchases centrally for direct shipment to several outlets which keep separate inventories, the outlets are treated separately for purposes of inventory restrictions but the central purchasing agency must include all its purchases in determining whether a transaction comes within a small order exemption.

(d) This interpretation applies only in cases where a contrary rule is not expressly stated in the applicable War Production Board order or regulation. Also it only applies where the regular business practice of the unit in question is to keep a separate inventory or to buy separately. It does not apply if the regular practice has been changed just for the purpose of coming within this interpretation. (Issued Nov. 22, 1944)

INTERPRETATION 9: Revoked Mar. 18, 1944.

[F. R. Doc. 44–9589: Filed, June 30, 1944; 11:46 a. m.]

PART 1001—TIN

[General Preference Order M–43, as Amended June 30, 1944]

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of tin for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 1001.1 *General Preference Order M–43*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(b) *Applicability of order.* The prohibitions and restrictions contained in this order shall apply to the use of material in all items or articles hereafter manufactured irrespective of whether such items or articles are manufactured pursuant to a contract made prior or subsequent to January 10, 1944, or pursuant to a contract supported by an allotment symbol or a preference rating. Insofar as any other order of the War Production Board may have the effect of limiting or curtailing to a greater extent than herein provided the use of tin in the production of any item or article, the limitations of such other order shall be observed.

(c) *Definitions.* For the purposes of this order:

(1) "Tin" means and includes both pig tin and secondary tin.

(2) "Pig tin" means metal containing 98% or more by weight of the element tin, in shapes current in the trade (including anodes, small bars, and ingots) produced from ores, residues or scrap.

(3) "Secondary tin" means any material (except tin plate and terne plate as those terms are defined in Supplementary Order M–21–e) which contains less than 98% but not less than 1.5% by weight of the element tin.

(4) "Manufacture" means to fabricate, assemble, melt, cast, extrude, roll, turn, spin, produce, coat, or process in any way, but does not include the processing of tin ore, concentrates, residues or scrap into metallic tin.

(5) "Inventory" of a person includes the inventory of affiliates and subsidiaries of such person, and the inventory of others where such inventory is under the control of or under common control with, or available for the use of such person.

(6) "Implements of war" means combat end-products, complete for tactical operations (including, but not limited to, aircraft, ammunition, armaments, weapons, ships, tanks, military vehicles and radio and radar equipment), and any parts, assemblies or materials to be incorporated in any of the foregoing items. This term does not include facilities or equipment used to manufacture the foregoing items.

(7) "Base period" means the corresponding calendar quarter of 1940.

(8) "Distributor" means any person regularly engaged in the business of buying and selling tin, and includes warehousemen and jobbers.

(d) *General restrictions on use of tin.* (1) No product or article or part thereof shall be manufactured of pig tin if it is possible to use secondary tin for such purpose.

(2) No tin in any form shall be used in the manufacture of any item or in any process appearing on List A of this order; nor shall tin be used for any purpose except to manufacture the items or for the purposes listed in Schedule I, II, III or IV of this order, and then, only within the limitations and restrictions specified in Schedule I, II, III or IV with respect to such item or purpose.

(e) *Restrictions on the use of certain tin products.* Except with the specific permission in writing of the War Production Board granted pursuant to appeal under paragraph (k) no person shall use any of the tin-bearing products on List B of this order in the manufacture or treating of any other product or article; *Provided,* That when any such tin-bearing product is listed in Schedule I, II, III or IV it may be used for the purposes for which it is permitted to be manufactured as specified in Schedule I, II, III or IV.

(f) *Restrictions on deliveries.* (1) No person shall deliver or accept delivery of pig tin without the specific authorization in writing of the War Production Board; *Provided, however,* That in the absence of a contrary direction by the War Production Board, pig tin may be delivered without specific authorization:

(i) To the Metals Reserve Company or to any other corporation organized under section 5(d) of the Reconstruction Finance Corporation Act as amended (15 U. S. C., sec. 606 (b)), or to any duly authorized agent of any such corporation.

(ii) By any distributor in lots of three long tons or less up to but not exceeding a total of five long tons to any one customer in the same calendar month; *Provided,* That the aggregate of such deliveries which any person may receive from all distributors pursuant to the authority of this paragraph shall in no event exceed five long tons in any calendar month; and provided further, that any person seeking such a delivery shall, at the time of placing his purchase order, file with the distributor a statement substantially in the following form, signed manually or as provided in Priorities Regulation No. 7 by an official duly authorized for such purpose:

The undersigned hereby certifies:

(a) That no allocation of pig tin has been made to the undersigned by the War Production Board during the calendar month in which delivery of the pig tin covered by the accompanying purchase order is specified;

(b) That such pig tin if delivered will not cause the undersigned's total receipts of pig tin from all distributors during the same calendar month pursuant to the authorization of paragraph (f) of General Preference Order M-43, as amended, to exceed five long tons; and

(c) That such pig tin will not be used or disposed of by the undersigned in violation of any order or regulation of the War Production Board.

(Name of purchaser)

By ---
(Duly authorized official)

(2) On or before the 10th day of each calendar month, each distributor shall report to the War Production Board in such form and detail as said Board may from time to time prescribe, (subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942) his transactions in all pig tin during the previous month.

(g) *Allocations.* The War Production Board will from time to time allocate the supply of pig tin, including all pig tin released by the Metals Reserve Company, and issue specific directions as to the source, destination, and the amount of pig tin to be delivered or acquired. The War Production Board may also specifically direct the purposes and end products for which any person may convert, process or fabricate pig tin allocated to him.

(h) *Applications for, and reports of pig tin.* Application for allocations of pig tin or for specific authorization to accept delivery thereof under paragraph (f) shall be made to the War Production Board not later than the 20th day of the month next preceding the month in which delivery is desired, on Form WPB-412 or such other form as the War Production Board may from time to time prescribe. Any person who on the first day of a calendar month has in his possession or under his control two long tons or more of pig tin or who used during the preceding calendar month, 3,000 pounds or more of pig tin, shall, not later than the 20th day of such month, report to the War Production Board on Form WPB-412 in accordance with the instructions accompanying such form, regardless of whether or not he seeks an allocation of pig tin or specific authorization to accept delivery thereof during the next succeeding month.

(i) *Prohibitions against sales or deliveries with knowledge of intended misuse.* Notwithstanding the authorization by the War Production Board of a sale or delivery of tin, no person shall sell or deliver any tin or tin-bearing material or product thereof in the form of raw materials, semi-processed materials, finished parts or sub-assemblies to any person if he knows or has reason to believe such material or any product thereof is to be used in violation of the terms of this order. A supplier may rely upon the written statement of the customer seeking delivery of any such material, as to the purposes for which it will be used, unless the supplier knows or has reason to believe such statement to be false, and any such statement shall constitute on the part of the person making the same, a representation to the War Production Board within the meaning of section 35 (A) of the United States Criminal Code, 18 U. S. C. Sec. 80.

(j) *Limitation on inventories.* No person shall receive delivery of tin, or products thereof, in the form of raw materials, semi-processed materials, finished parts or sub-assemblies nor shall he put into process any raw material, in quantities which in either case shall result in an inventory of such raw, semi-processed or finished material in excess of a minimum practicable working inventory, taking into consideration the limitations placed upon the production of tin products by this order. In the absence of special permission to acquire or hold a greater supply of pig tin, forty-five days' inventory of such tin shall, for the purpose of this order, be deemed a practicable working inventory for any person except a manufacturer of tin plate as tin plate is defined in Supplementary Order M-21-e, as from time to time amended. Application for such special permission shall be made by letter to the War Production Board setting forth fully the facts upon which the applicant relies.

(k) *Appeals and communications.* Any appeal from the provisions of this order shall be made by filing a letter, referring to the particular provision appealed from and stating fully the grounds of the appeal. Appeals, reports and all communications concerning this order shall, unless otherwise directed, be addressed to the War Production Board, Tin and Lead Division, Washington 25, D. C., reference: M-43.

(l) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 30th day of June 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A

Pursuant to the foregoing order, the use of tin in any form, including semi-finished and finished products, in the manufacture of the items and for the purposes listed below is prohibited:

1. Advertising specialties.
2. Art objects.
3. Automobile body solder, or any similar material commonly used as a filler or smoother for automobile or truck bodies or fenders except as permitted in Schedule II, paragraph (8) (a).
4. Band and other musical instruments (except as permitted in Schedule I under the item "pipe organs", paragraph 11).
5. Britannia metal, pewter metal or other similar tin bearing alloy.
6. Broom wire.
7. Buckles.
8. Buttons.
9. Chimes and bells.
10. Emblems and insignia.
11. Fasteners: eyelets, spiral binders, office and industrial staples, book match clips, paper clips, slide fasteners, dress hooks.
12. Foil (except as permitted in Schedule I under the item "foil", paragraph 4).
13. Zinc galvanizing.
14. Household furnishings and equipment.
15. Jewelry.
16. Kitchen equipment (including cutlery and tableware), except as permitted in Schedule I, paragraphs 6 and 15.
17. Novelties, souvenirs and trophies.
18. Ornaments and ornamental fittings
19. Plating or coating for decorative purposes.
20. Powder (decorative).
21. Refrigerator trays and shelves.
22. Seals and labels.
23. Slot, game and vending machines.
24. Coated paper.
25. Tin oxide and other tin chemicals (except as permitted in Schedule I, paragraph 18).
26. Toys and games.

LIST B

The following tin-bearing products shall not be used in the manufacture or treating of any other products except in accordance with the provisions of paragraph (e) of the foregoing order:

1. Automobile body solder or any similar material containing tin, commonly used as a filler or smoother for automobile or truck bodies or fenders.
2. Tin oxide and other tin chemicals (except as permitted in Schedule I, paragraph 18).
3. Solder containing more than 30% tin by weight.
4. Babbitt metal or similar alloys used as babbitt containing more than 12% by weight of tin.
5. Britannia metal, pewter metal or other similar tin-bearing alloy.
6. Foil containing more than 1% tin by weight.
7. Copper-base alloy containing more than 2% tin by weight.

SCHEDULES

Pursuant to the foregoing order, tin may be used only in the production of the items and for the purposes set forth in these Schedules, subject to any limitations, restrictions or conditions specified with respect to any such items or purpose and then, only to the extent that substitution of either a less critical material or one of lesser tin content is impracticable.

The conditions, restrictions and limitations set forth in these Schedules with respect to any listed item or purpose shall apply to the manufacture of "Implements of War" produced for the Army or Navy of the United States, U. S. Maritime Commission or the War Shipping Administration, except where the use of tin in the grade and to the extent employed is required either by the latest applicable specifications, on drawings, or by letter or contract of the government service or agency for which the same are being produced.

SCHEDULE I—MISCELLANEOUS

1. *Detonators and blasting caps (including electric blasting caps).* This item includes all necessary parts and accessories but is limited to detonators and blasting caps which are to be used in mining, quarrying, or oil drilling operations. Necessary materials to be incorporated in such detonators or blasting caps shall be exempt from the limitations, conditions and restrictions specified in this schedule with respect to any such material.

2. *Tin plate, terne plate, and terne metal.* Tin plate, terne plate and terne metal, as respectively defined in Supplementary Order M-21-e, as from time to time amended, may be manufactured as permitted under the provisions of said supplementary order. Terne metal, however, may be manufactured from secondary tin only.

3. *Collapsible tubes.* The use of tin in the manufacture of collapsible tubes is permitted subject to the limitations and restrictions of Conservation Order M-115, as amended from time to time.

4. *Foil.* In the manufacture of foil the tin content shall be limited as follows, according to the purposes for which it is to be used:

(i) Electrotypers foil—not more than 16% tin by weight.

(ii) Dental foil—not more than 30% tin by weight.

(iii) Foil to be used in condensers—not more than 4½% tin by weight.

(iv) Soft babbit foil for the preparation of industrial metallic packing—not more than 1.5% tin by weight.

(v) Foil to be used in aircraft magnetos—not more than 50% tin by weight.

The quantity of tin which any person may use in the manufacture of foil during any calendar quarter shall be limited to 25% of the quantity used by him in the manufacture of foil during the base period.

5. *Dairy equipment.* Tin may be used to coat fluid milk shipping containers which are manufactured within the restrictions and in accordance with the provisions of Conservation Order M-200. Tin may be used to manufacture dairy equipment other than such fluid milk shipping containers, but the total quantity used by any person in the manufacture of such other dairy equipment during any calendar quarter, shall be limited to the quantity used by him for such purposes during the base period. Any dairy equipment may be retinned, *Provided only,* That the amount of tin which any retinner may use during any calendar quarter, for the retinning of dairy equipment, shall be limited to 150% of the quantity used by him for such purposes during the base period.

6. *Kitchen, galley and mess equipment* for the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration or the Forest Service of the United States Department of Agriculture. Tin may be used to coat the foregoing equipment excluding flat ware, to the extent required by the applicable specifications of the service or agency to which such equipment is to be delivered.

7. *Wire—Coating.* Tin or tin alloys may be prepared and used for coating wire only as follows and then, only when specified:

(a) *For copper wire.* There shall be no limitation upon the tin content of the coating alloy when the copper wire to be coated therewith is of a size of .0320" nominal diameter or finer. If the wire to be coated is of size larger than .0320" nominal diameter, the tin content of the coating alloy shall be limited to 12% tin by weight.

(b) *For steel wire.* (i) To be used as armature binding wire.

(ii) To be used in the manufacture of equipment for the production of textiles.

(iii) To be used in the packaging or marking of meat where the wire comes into actual contact with the meat.

(iv) In the liquor finishing process of fine steel bright wire.

8. *Foundry chaplets—Coating.* Alloys containing not more than 5% of tin by weight may be manufactured and used for coating foundry chaplets. Tin in no other form may be used for such coating, except as permitted under Supplementary Order M-21-e, as amended.

9. *Printing plates and type metal* for use by the printing, publishing and related service industries. Secondary tin only may be used in the manufacture of such plates and type metal. The quantity of secondary tin which any person may use in the manufacture of such plates and type metal during any calendar quarter, shall be limited to 75% of the quantity of tin used by him for such purposes during the base period.

10. *Dental amalgam alloys.* Tin may be used in the manufacture of dental amalgam alloys but the tin content of any such alloy shall be limited to 30% tin by weight.

11. *Pipe organs for religious and educational institutions.* Tin may be used only in the repair and maintenance of such organs and only where and to the extent that the substitution of a less critical material is impossible.

12. *Bolster metal* for use in the manufacture of cutlery and surgical instruments for the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration. The tin content of such bolster metal shall not exceed 10% by weight and shall be derived from secondary tin only.

13. *Fusible alloys and dry pipe valve seat rings.* Tin may be used in the manufacture of fusible alloys and dry pipe valve seat rings to the extent required to meet performance specifications with respect to the operation of the product in which such alloy is to be contained.

14. *Lead-base alloys for coating sheet, tube or wire.* Lead-base alloys containing tin may be manufactured and used to coat steel sheet, steel tubes or steel wire provided the tin content of any such alloy does not exceed 2.5% by weight and is not derived from pig tin.

15. *Equipment for preparing and handling food.* In addition to the purposes specified in item (5) of this schedule with respect to dairy products, tin may be used in the manufacture or repair of the following types of equipment, but only to the extent herein indicated:

(i) To coat or to retin articles of equipment used in the processing or handling of meat in the meat-packing industry, to the extent that any such articles come into actual contact with meat. The equipment intended to be covered by this provision includes, but is not limited to: bacon combs, hangers, metal molds, shovels, forks and scoops for handling sausage and cooking utensils.

(ii) To coat or retin equipment used in the processing or cooking of any food by institutions or by industrial or commercial establishments, but only such equipment as actually comes into contact with food.

16. Tin pipe and sheet tin for lining for use in the repair or maintenance of beverage dispensing units and parts thereof. Tin pipe and sheet tin may be manufactured only for use in the repair or maintenance of beverage dispensing units and parts thereof, provided that any customer for whom such pipe or sheet tin is manufactured shall return to the manufacturer a quantity of used pipe or scrap tin equal in tin content to that of the new pipe or sheet tin delivered to him.

17. *Descaling of metal castings.* Tin may be used in descaling of metal castings to the extent specifically authorized by the War

Production Board upon application made to it by letter.

18. *Tin and tin chemicals.* Pig tin may be reprocessed for use as a reagent and in the manufacture of tin chemicals for use as reagents, for medicinal purposes and also for use in the electrolytic plating process, where tin plating is permitted.

SCHEDULE II—SOLDERS

In the manufacture of solder the tin content by weight shall be limited as follows, according to the purpose for which the solder is to be used: *Provided, however,* That no manufacturer of solder, or wholesale distributor of solder, shall deliver any solder to any user, and no user shall accept delivery of any solder, from any manufacturer of solder, or wholesale distributor of solder, unless the user shall have furnished the manufacturer or wholesale distributor with the following certificate.

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that the tin contained in the material covered by this order shall be used solely for the purpose listed in schedule ---- section ---- of General Preference Order M-43, or is to be incorporated in an "Implement of War" and the tin content of the material has been definitely specified.

1. Manufacture of all cellular type radiators—solder per radiator shall average not more than 21% tin by weight.

2. Manufacture of all fin and tube type radiators for military and civilian use—solder per radiator shall average not more than 32% tin by weight.

3. Solder containing not more than 50% tin by weight may be used for the following:

(a) Ammunition box liners.

4. Solder containing not more than 40% tin by weight may be used for the following:

(a) Manufacture and repair of all galvanized iron or zinc tanks.

(b) Installation and repair of water service pipes connecting the piping of a structure with the outside water main.

5. Solder containing not more than 35% tin by weight may be used for the following:

(a) All radiator repair, but only in the form of solid or cored wire solder not to exceed ⅛" in diameter.

(b) Manufacture and repair of any type of indicating, recording, measuring or controlling instruments and their associate control valves.

(c) Manufacture and repair of dairy ware and dairy equipment where solder comes in contact with products.

(d) Manufacture, assembly and repair of galvanized iron items (except tanks) where the assembly is done with a "soldering iron."

(e) Manufacture, maintenance and repair of electric motors, generators, armatures, radio and radar equipment and electrical appliances.

(f) Manufacture of electrical fuses.

(g) Manufacture of gas meters. (For the repair of gas meters in accordance with Supplementary Order M-43-b—not more than 38% tin by weight.)

(h) Wiping lead sheathed cable joints or lead pipe joints.

(i) Manufacture or repair of lap and top combs, and other equipment used in the textile industry.

(j) Manufacture of foundry patterns and for soldering patterns to the gates.

(k) Manufacture and repair of the following dairy and egg processing equipment: cheese vats, clarifiers, separators, coolers, heaters and preheaters, dehydrators, fillers, filters, fore-warmers, hot wells, homogenizers and high pressure sanitary pumps, pasteurizers, sanitary centrifugal and positive pumps, vacuum pans and sanitary pipe lines in connection with soldering on sanitary ferrules and fittings.

(l) Manufacture and repair of tanks (except galvanized and zinc tanks).

6. Solder containing not more than 21% tin by weight may be used for the following:

(a) Sealing of milk cans. (Solder used for this purpose is commonly referred to as "tipping solder".)

(b) Soldering side seams of the all-seam-soldered can until August 31, 1944 and after August 31, 1944, a maximum of 5% tin by weight shall be used.

7. Solder containing not more than 5% tin by weight may be used for the following:

(a) Manufacture of cans made with either lock or lap side seam or with a combination of lock and lap side seam, except for the manufacture of the all-seam-soldered can.

8. Solder containing not more than 3% tin by weight may be used for the following:

(a) Repair of automobile bodies and fenders—solder to be derived from secondary sources only.

9. Solder containing not more than 30% tin by weight may be used for the following:

(a) All other uses not covered above and then, only to the extent that substitution of either a less critical material or one of lesser tin content is impracticable.

The total quantity of tin, which any person may use in the manufacture of solder during any calendar quarter, shall be limited to 40% of the quantity used by him in the manufacture of solder during the base period. The tin content of all solder used in the manufacture of "Implements of War", where required by specifications, is wholly exempt from this quota restriction.

SCHEDULE III—BABBITT

In the manufacture of babbitt metal and similar alloys used as babbitt, the tin content shall be limited as follows, according to the purpose for which it is to be used: *Provided, however,* That no manufacturer of babbitt or wholesale distributor of babbitt, shall deliver any babbitt, containing more than 12% tin by weight, to any user, and no user shall accept delivery of any babbitt from any manufacturer of babbitt, or wholesale distributor of babbitt, unless the user shall have furnished the manufacturer or wholesale distributor with the following certificate.

The undersigned purchaser certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that the tin contained in the material covered by this order shall be used solely for the purpose listed in Schedule ------ section ---- of General Preference Order M-43, or is to be incorporated in an "Implement of War", and the tin content of the material has been definitely specified.

1. Repair, maintenance or replacement in existing diesel engines, turbines, locomotive connecting rod or coupling rod bearings, and irrigation water pumping engines and equipment—not more than 90% tin by weight.

2. Manufacture, repair, maintenance or replacement of multivane crosshead linings in locomotives and for lining aluminum crossheads—no restriction.

3. Repair, maintenance or replacement in an industrial engine, compressor, or pump being used by operator engaged in the petroleum industry: *Provided,* In any such case, that any priorities assistance required for such repair, maintenance or replacement is obtained in accordance with Preference Rating Order P-98-b, as amended—not more than 90% tin by weight.

4. Repair, maintenance or replacement in vessels or shipping facilities pursuant to a preference rating duly established or assigned by the United States Maritime Commission—not more than 90% tin by weight.

5. Manufacture, repair, maintenance or replacement of connecting rod and main engine bearings for trucks and tractors, and for passenger carriers having a seating capacity of not less than 11 persons as defined in Limitation Order L-158—not more than 90% tin by weight.

6. For all other purposes—not more than 12% tin by weight and only secondary tin shall be used.

The total quantity of tin which any person may use in the manufacture of babbitt metal, or other similar alloys used as babbitt, during any calendar quarter, shall be limited to 40% of the quantity used by him in the manufacture of babbitt during the base period. The tin content of all babbitt used in the manufacture of "Implements of War", where required by specifications, is wholly exempt from this quota restriction.

SCHEDULE IV—BRASS AND BRONZE

A. CAST ALLOYS

(1) Restrictions on new uses of copper-base alloy foundry products. The restrictions of this sub-paragraph are in addition to those contained elsewhere in this order and in other orders and regulations of the War Production Board. No person shall use for any purpose in manufacture, any copper-base alloy foundry product, either rough or finished, containing more than 74% copper or 2% tin, unless one or more of the following conditions is satisfied:

(i) He was lawfully using copper base alloy for the particular purpose some time during the last six months of 1943;

(ii) A War Production Board order or regulation specifically allows an alloy with a higher copper or tin content;

(iii) The specifications of the Army or Navy of the United States, the U. S. Maritime Commission or the War Shipping Administration, applicable to the contract, sub-contract or purchase order call for an alloy with a higher copper or tin content, or

(iv) He has been specifically authorized in writing by the War Production Board to use an alloy with a higher copper or tin content. (Applications for specific authorization under this sub-paragraph to use copper-base alloy foundry products containing more than 74% copper or 2% tin, where such use would otherwise be in violation of the restrictions stated above, should be made by letter in duplicate addressed to the Copper Division of the War Production Board, Washington 25, D. C., Ref: M-9-c. A provision similar to this paragraph (1) appears in Order M-9-c and one application is sufficient under both Orders M-9-c and M-43.)

(2) *General restrictions.* In any case where the tin content of brass or bronze foundry products used by a person is not restricted by the provisions of paragraph (1) of this Schedule IV, the tin content of the brass and bronze foundry products which he uses shall be limited as follows, according to the purpose for which such products are used:

(a) For the manufacture of high ratio worm gears, fire engine pump gears, jack nuts, feed nuts, elevating nuts, thrust washers or disks, machine tool spindle bearings, hydraulic pump bodies and ends for gear pumps, grinder spindle sleeve bearings or step bearings—not more than 12% tin by weight.

(b) For the manufacture of heavy, slow cooling castings (such as, for example, steel mill screw-down nuts) where the performance characteristics require that the alpha-delta eutectoid must be retained—not more than 18% tin by weight.

(c) For the manufacture of piston rings for airbrake equipment—not more than 21.5% tin by weight.

(d) For the manufacture of piston rings for locomotives—not more than 20% tin by weight.

(e) For all other purposes, a maximum tin content of 9% tin by weight, unless the lead content of the alloy is equal to, or greater than, the tin content, and in such event, not to exceed 12% tin by weight.

B. WROUGHT ALLOYS

(3) *Restrictions on new uses of wrought copper-base alloy products.* The restrictions of this sub-paragraph are in addition to those contained elsewhere in this order and in other orders and regulations of the War Production Board. No person shall use for any purpose in manufacture, any wrought copper-base alloy product, containing more than 2% tin, unless one or more of the following conditions is satisfied:

(i) He was lawfully using copper-base alloy for the particular purpose some time during the last six months of 1943;

(ii) A War Production Board order or regulation specifically allows an alloy with a higher tin content;

(iii) The specifications of the Army or Navy of the United States, the United States Maritime Commission or the War Shipping Administration, applicable to the contract, subcontract or purchase order call for an alloy with a higher tin content; or

(iv) He has been specifically authorized in writing by the War Production Board to use an alloy with a higher tin content. (Applications for specific authorization under this sub-paragraph to use wrought copper-base alloy products containing more than 2% tin, where such use would otherwise be in violation of the restrictions stated above, should be made by letter in duplicate addressed to the Tin and Lead Division of the War Production Board, Washington 25, D. C., Ref: M-43.)

(4) *General restrictions.* In any case where the tin content of wrought brass or bronze products used by a person is not restricted by the provisions of paragraph (3) of this Schedule IV, the tin content of the wrought brass and bronze products which he uses shall be limited as follows, according to the purpose for which such products are used:

(i) For the manufacture of thermostatic discs or diaphragms, bronze welding rods, fourdrinier warp wire or rifle nuts in air hammers—not more than 9% tin by weight.

(ii) For all other purposes—not more than 5.8% tin by weight.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 9A, Direction 1 as Amended June 30, 1944]

COPPER TUBING FOR DISTRIBUTORS OF AUTOMOTIVE, HEATING AND REFRIGERATION REPAIR PARTS

The following amended direction is issued pursuant to CMP Regulation 9A:

(a) *What this direction does.* This direction tells distributors of automotive equipment, heating equipment (gas or oil burning), and refrigeration equipment how to get copper tubing to sell to repairmen for use in repairing such equipment.

(b) *What distributors can buy copper tubing under this direction.* Distributors of refrigeration equipment, distributors of gas or oil burner equipment, and distributors of automotive equipment who were in business on August 1, 1943 and who sold copper tubing for refrigeration, gas or oil burner or automotive repair purposes in 1941 may buy copper tubing under this direction. Warehouses who are authorized to replace brass mill stocks providing they file Form WPB-3007 may not obtain copper tubing under this direction.

(c) *How distributors get copper tubing.* A distributor of the kind covered in paragraph (b) may order for delivery in any calendar quarter up to 6000 pounds of copper tubing. He may endorse his orders for this tubing with the CMP allotment number V-3 and the CMP Regulation No. 7 certification. An order bearing this endorsement signed manually, or in the way as described in Priorities Regulation No. 7 is an authorized controlled material order under all CMP Regulations. A distributor who had more than one distribution point on August 1, 1943 may order up to 6000 pounds of copper tubing in each calendar quarter for delivery to each distribution point.

(d) *How a distributor may apply for additional tubing.* A distributor who needs more copper tubing than this direction allows, or who is not permitted under this direction to buy copper tubing for sale for repair purposes may apply by letter to the nearest War Production Board Field Office for authorization to buy the tubing he needs, stating how much copper tubing he needs for resale and why he needs that amount. If he needs more than a total of 12,000 pounds a quarter, he should apply to the Copper Division, War Production Board, Washington 25, D. C., stating how much copper tubing he needs and why he needs that amount.

(e) *Persons to whom distributors may sell copper tubing.* (1) A distributor may sell copper tubing bought under this direction only on an order placed under paragraph (c) of CMP Regulation No. 9A by (i) a refrigeration repairman, (ii) an automotive repairman and (iii) a gas or oil burner repairman. In the latter case only copper tubing of a type suitable for use for repair of functional parts of gas burning and oil burning heating equipment (excluding piping system connected with such equipment) may be sold.

(2) A distributor may sell not more than 2,000 pounds of copper tubing under this direction in one calendar quarter to fill orders placed with him by other distributors. A distributor buying from another distributor for the purpose of reselling to repairmen must so indicate when placing his orders.

No distributor may buy more copper tubing under this direction (whether from other distributors as permitted in this paragraph or from brass mill warehouses or producers) than he is permitted to buy under paragraphs (c) and (d). The fact that a distributor sells to another distributor does not increase the amount of tubing he is permitted to buy.

(f) *Restrictions on inventory.* A distributor may not accept deliveries of copper tubing ordered under this direction if his inventory of copper tubing already is, or will be, on accepting a delivery, more than a thirty-day's supply. However, if the supply of copper tubing which he has on hand is less than the permitted amount, he may accept delivery of the smallest commercial amount of that item of copper tubing which his distributor normally sells even if that will increase his supply beyond the amount specified.

(g) *Compliance with WPB orders and regulations.* Distributors operating under this direction must observe the restrictions of all applicable WPB orders and regulations. Attention is called to the provisions of M-9-c and M-9-c-4 which restrict the use of copper.

NOTE: This reporting requirement passed by Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 30th day of June 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 9A, Direction 4]

USE OF V-3 ALLOTMENT SYMBOL TO GET COPPER OR COPPER BASE ALLOY PIPE AND TUBING

The following direction is issued pursuant to CMP Regulation 9A:

(a) No repairman may use the V-3 allotment symbol assigned by this regulation to get from a brass mill or brass mill warehouse any copper or copper base alloy pipe or tubing unless it comes within the following descriptions:

(1) Seamless copper tubing soft in coils or in straight lengths of an O. D., gauge and type commonly sold as automotive tubing;

(2) Seamless copper tubing soft in coils in gauges .032" and .035" and of an O. D. and type commonly sold as refrigeration tubing;

(3) Seamless copper tubing soft in coils ½" or ⅜" O. D., x .049" gauge for oil burner service.

(b) Orders bearing the V-3 allotment symbol for any copper or copper base alloy pipe or tubing other than the three types described above may not be accepted or filled by any brass mill or brass mill warehouse.

(c) The term "brass mill warehouse", as used in this direction, means any warehouse which is authorized to replace deliveries from stock under the provisions of letter BM-36 (WPBI-505-Brass Mill Warehouse Replacement Orders) of July 23, 1943.

Issued this 30th day of June 1944.

PART 3207—INDUSTRIAL TYPE INSTRUMENTS, CONTROL VALVES AND REGULATORS; SIMPLIFICATION

[Limitation Order L-272, Schedule III, as Amended June 30, 1944]

PYROMETERS AND RESISTANCE THERMOMETERS

§ 3207.4 *Schedule III to Limitation Order L-272*—(a) *Definitions.* (1) "Pyrometer" includes millivoltmeter and potentiometer pyrometers and means any galvanometer type or null current automatically balanced type of potential measuring instrument which measures thermocouple voltage, is calibrated in degrees temperature, and has a scale length of not less than 4½ inches; exclusive, however, of precision type pyrometers manufactured and designed for laboratory use, or for use on watercraft other than pleasure craft.

(2) "Resistance thermometer" means any galvanometer type or null current automatically balanced type resistance measuring instrument which measures variations in resistance, is calibrated in degrees temperature and has a scale length of not less than 4½ inches; exclusive, however, of precision type resistance thermometers manufactured and designed for laboratory use, or for use on watercraft other than pleasure craft.

(b) *Operation of Schedule III.* The exemption provisions of paragraph (c) (1) (i) of Limitation Order L-272 shall not apply to this schedule.

(c) *Specifications.* (1) The following features, attachments and devices shall be eliminated:

(i) Special scale designs.

(ii) Special size cases and special finishes.

(iii) Cases having special design external wiring or conduit connection, either as to type or location of connections.

(iv) Internally mounted, manually operated thermoccuple selector switches.

(v) External protection cases.

(vi) Special attachments or housing to adapt to explosion resistant service.

(vii) Special nameplates.

(viii) Legend plates.

(ix) Locks on control setters.

(x) Handles on non-portable instruments.

(xi) Connecting lugs with thermocouple leads for pyrometers having an internal resistance of one hundred ohms and above.

(2) Only one size chart for each style or type (strip or round) shall be furnished, size to be at producer's option.

NOTE: Subparagraph (3), formerly (4), redesignated and former subparagraph (3) revoked June 30, 1944.

(3) No instrument lock and keys shall be furnished except where same are a part of producer's standard manufacturing design and practice.

Issued this 30th day of June 1944.

PART 3270—CONTAINERS

[Supplemental Order L-232-a, as Amended June 30, 1944]

WOODEN SHIPPING CONTAINERS FOR ORANGES AND GRAPEFRUIT

§ 3270.58 *Supplemental Order L-232-a*—(a) *Purpose.* The purpose of this supplemental order is to restrict the use of wooden shipping containers by permitting only a specified percentage of oranges and grapefruit to be shipped in them with the intent that the balance will be shipped in bags or otherwise than in wooden shipping containers.

(b) *Definitions.* For the purpose of this supplemental order:

(1) "Wooden shipping container" means any new or used shipping container made wholly or partially of wood.

(2) "Seasonal year" shall mean the period from November 1, 1943 to October 31, 1944, and the quarters of the seasonal year shall be each succeeding three month period beginning November 1, 1943.

(c) *Restrictions.* (1) No person making shipments of oranges and grapefruit originating in the areas listed below shall commercially pack or ship in wooden shipping containers in any quarter of the seasonal year a greater proportion of the total volume of his shipments of oranges and grapefruit (not including shipments for canning, juice or other processing) than the following:

	Percent
Shippers making shipments originating in Texas	85
Shippers making shipments originating in California and Arizona	96

(2) However, this restriction shall not apply to any person who commercially packs or ships oranges or grapefruit originating in California or Arizona provided he restricts his packing and shipping of those fruits in new wooden shipping containers in the quarters beginning with May 1, 1944 and August 1, 1944, to 92% of the total volume of his shipments of oranges and grapefruits during each quarter (not including shipments for canning, juice or other processing).

(3) Any person shipping less than his quota of oranges and grapefruit in wooden shipping containers in any quarter may increase his quota of shipments in wooden shipping containers in the following quarters by the amount of the difference between his quota and what he actually shipped in the preceding quarters.

(4) This restriction shall not apply to any shipper who ships less than one carload of oranges and grapefruit, or its equivalent, in any quarter.

(5) Shippers located in the Florida area have not been included in the restrictions provided for by this order because the Florida Citrus Commission is placing and administering quota restrictions to the end that not more than 90% of the total shipments in the seasonal year of oranges and grapefruit from Florida shall be in wooden shipping containers.

NOTE: Subparagraphs (3) through (5), formerly (2) through (4), redesignated June 30, 1944.

(6) Transportation of the fruit from the field to the packing sheds or from the field or packing sheds to trucks or freight cars for bulk shipment is not "shipping" for the purpose of paragraphs (c) (1) and (2).

(d) *Transfer of quotas.* Any shipper who does not ship his permitted amount of oranges and grapefruit in wooden shipping containers may transfer his unused quota to another shipper in the same area.

(e) *Miscellaneous provisions*—(1) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provision appealed from and stating fully the grounds of appeal.

(2) *Records.* All persons affected by this order shall keep for at least two years records concerning the shipments of oranges and grapefruit in wooden shipping containers and shipments by other means, and also records concerning the transfer of quotas, including the names and addresses of parties involved and the amount transferred, and shall make reports on same, if required.

(3) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from accepting further deliveries of, or making deliveries in wooden shipping containers.

(4) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(5) *Communications.* All communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Containers Division, Washington 25, D. C., Ref: L-232-a.

Issued this 30th day of June 1944.

PART 3270—CONTAINERS

[Preference Rating Order P-146, Direction 1 As Amended June 30, 1944]

USE OF PREFERENCE RATINGS FOR U. S. NAVY DELIVERIES

The following amended direction issued pursuant to Preference Rating Order P-146:

(a) Notwithstanding the contrary provisions of Order P-146, any person may use a preference rating of AA-1 to get fibre shipping containers for the following items which are to be delivered directly to the Navy of the United States on orders placed before October 1, 1944 calling for delivery before November 1, 1944:

(1) Clothing, hats, gloves, and all other outer wear and undergarments or apparel, if made in whole or in part of leather or textile yarn, staple fibre or fabrics;

(2) Footwear, rationed and unrationed;

(3) Bedding.

(b) The preference rating to be used to obtain fibre shipping containers for the items listed in paragraph (a) of this direction for any purpose other than that stated above shall remain the same as set forth in the schedule attached to the order.

(c) The certification accompanying such an order shall refer to "Direction 1" instead of "paragraph ----."

Issued this 30th day of June 1944.

PART 3270—CONTAINERS

[Limitation Order L-232, as Amended June 30, 1944]

WOODEN SHIPPING CONTAINERS

§ 3270.56 *Limitation Order L-232*—(a) *Definitions.* For the purposes of this order:

(1) "Wooden shipping container" means any new shipping container made wholly or partially of wood which is used for the shipment and delivery of commodities. The term does include any used container to which new parts have been added to replace 3 or more faces of the container. The term does not include trunks, luggage, military locker boxes, field picking boxes, or boxes consisting of more than 50% of corrugated or solid fibre (by area). It shall not include a container, made by a container user for his own use from waste material referred to as edgings, trim and off-all and excluded from the definition of lumber in Order L-335, or from second-hand lumber, *Provided*, It is not made in a box factory or wood-working establishment which sells its product to other users. Second-hand lumber is lumber which has been previously used, as in building construction, or as dunnage in bracing, blocking, or shoring, or in construction of shipping containers.

(2) [Deleted June 30, 1944.]

General Restrictions

(b) *Restrictions*—(1) *Manufacture, sale or delivery of containers.* No person shall manufacture, sell or deliver any wooden shipping containers or parts which he knows or has reason to believe will be used or accepted in violation of any provision of this order.

(2) *Manufacture and assembly of containers.* No person shall commercially manufacture or assemble any wooden shipping container for the purposes described in the several tables of Schedule A, which does not meet the specifications contained in those tables. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(3) *Manufacture of container parts.* No person shall commercially manufacture any wooden parts designed for any wooden shipping container described in the several tables of Schedule A which, when assembled, will not conform with the specifications of those tables. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(4) *Coloring.* No manufacturer, dealer in, or commercial user of wooden shipping containers or parts shall dye, stain, or otherwise color containers or parts which are described in Schedule A. The restrictions of this paragraph shall not apply to barrels, drums, kegs, kits or pails.

(5) *Printing.* All stamping, printing and labeling, unless otherwise required by law, shall be placed on only one outside surface of any wooden shipping container covered by the several tables of Schedule A of this order, whether it be an end, a side, bottom, top or cover. The restrictions of this paragraph (b) (5) shall not apply to barrels, drums, kegs, kits or pails or to paper, labels or markings which only:

(i) State the capacity of the container in terms of whole or fractional pints, quarts, pecks, or bushels; or

(ii) in the case of baskets and hampers are identifying markings provided for in regulations of the Secretary of Agriculture issued under the United States Standard Container Act of 1928; or

(iii) are designed for the purpose of encouraging salvage and reuse of the container, provided the label or printing does not include the name, brand, trade-mark or other reference to any person, firm, partnership or corporation.

Restrictions on Packing and Shipping

(c) *Restrictions*—(1) *Commodities for which wooden shipping containers are forbidden.* No person shall commercially pack or ship in wooden shipping containers any of the commodities listed in Table I of Schedule B. This shall not, however, restrict the shipment of any commodity listed which has already been packed on the date it was included in this table or the shipment of any listed commodity in wooden shipping containers which were in the shipper's inventory or in transit to him on the date it was included in this table, but only for a period of sixty days thereafter.

(2) *Quota restriction on packing.* Packers of a commodity listed in Table II of Schedule B, are restricted in the quantity of that commodity which they may pack in wooden shipping containers in each calendar quarter to a percentage of the quantity that they packed in wooden shipping containers in the same quarter of the base period. The percentage and base period for each commodity are shown in the table.

(d) [Deleted June 30, 1944.]

(e) [Deleted June 30, 1944.]

Miscellaneous

(f) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of appeal.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Containers Division, Washington 25, D. C., Ref.: L-232.

(i) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

Issued this 30th day of June 1944.

[1] The inside depth of this box may be increased up to 11⅛", either by the addition of cleats of any thickness or by the use of a solid end.

[2] The inside depth of this box may be increased up to 7 1/16" by the addition of cleats of any thickness or by the use of a solid end.

[3] The inside depth of this box may be increased up to 5½" by the addition of cleats of any thickness or by the use of a solid end.

*Wherever an asterisk appears, cleats may be used for such items, as provided for in paragraph (c) of the text of Table II.

(a) The designation in column (1) of Table II is merely for identification and shall not be construed as restricting usage. 'Inside width' and 'Inside depth' of the container are the width and length, respectively, of the end pieces or end frames, exclusive of any cleats. 'Inside length' of the container shall be its outside length minus the combined thickness of both ends and of the center piece (if any).

(b) An optional variation of up to ⅛" under or up to ¼" over the specified inside lengths is allowed. A tolerance of up to ⅛", plus or minus, in the specified inside depths and inside width is allowed for shrinkage and manufacture.

(c) No cleats may be so used as to increase inside dimensions except where an asterisk appears in Column (1) of Table II or where, and as, specified in any footnote after that table. Where an asterisk appears in Column (1) of Table II, one or more cleats of ¼", ⅜", ½", ⅝", ¾", 1 1/16", or ⅞" thickness may be attached to the top of each end piece, or end frame, provided such cleat or cleats do not increase the inside dimensions of the container by more than the specified thickness of the cleat or cleats.

(d) *Exceptions.* (1) The restrictions of paragraphs (b) (2), (3), (4) and (5) of this order and of this Table II shall not apply to:

(i) The manufacture or assembly of wooden shipping containers by any person from wooden parts cut to size by him before March 4, 1943; provided, such manufacture or assembly is completed by August 31, 1943:

(ii) The assembly of wooden shipping containers by any person from cut-to-size wooden parts bought and received by him before April 1, 1943; provided, such assembly is completed by August 31, 1943;

(2) The restrictions of this Table II shall not apply to the manufacture or assembly of wooden shipping containers, or the manufacture of wooden parts for wooden shipping containers, to be delivered:

(i) To or for the account of the Army, the Navy, the Coast Guard, the Maritime Commission, the War Shipping Administration, or the Department of Agriculture (for Lend-Lease purposes), provided, the government agency's specifications require wooden shipping containers which do not comply with Table II.

(ii) To any person for use in packing fresh fruits or vegetables for delivery to or for the account of such government agencies; provided, the government agency's specifications require wooden shipping containers which do not comply with Table II; and provided further, such person furnishes the container or container-parts supplier with a written certification in substantially the following form, signed by an authorized official, either manually or as provided in Priorities Regulation No. 7;

"This is to certify that specifications of orders received by the undersigned from (designate government agency) require wooden containers not conforming with Order L-232. The material ordered herewith is for that purpose only.

Company_____
By_____
Title_____ Date_____"

Such certification shall constitute a representation to the supplier and to the War Production Board as to the truth of the facts stated therein. The supplier may rely upon such representation unless he has knowledge or reason to believe that it is not true.

19. Pottery products, household (except ornamental)	80
20. Printing and publishing products, except those listed elsewhere	80
21. Rugs	80
22. Tile (floor, wall, facing, glazed or unglazed)	80

NOTE: Notes 1 and 2 deleted June 30, 1944.

NOTE 3. The base period and quota period quantities of a commodity shall be determined by weight, volume or count of that commodity packed for shipment or shipped in wooden shipping containers, or by the board footage content of the wooden shipping containers required. The same measure shall be used in both the base period and quota period quantities for any commodity.

NOTE 4. *Exceptions.* No person shall be bound by quota restrictions contained in paragraph (c) (2) applicable to any commodity during any calendar year or seasonal year, whichever is specified, during which he neither packs nor ships more than one carload or 30,000 pounds of that commodity, whichever is the lesser.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[General Preference Order M-166 as Amended June 30, 1944]

FLAGS

§ 3290.84 *General Preference Order M-166*—(a) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable reg-

ulations of the War Production Board, as amended from time to time, except as otherwise provided herein.

(b) *Definitions.* For the purpose of this order:

(1) "Flag" means a piece of cloth used as an emblem, whether it be in the form of a banner, bunting, burgee, color, guidon, valance, half-fan, net banner, pennant, pull-down, rosette (or full-fan), standard, or in any other form.

(2) "Flag manufacturer" means any person manufacturing flags on a commercial scale, whether or not he also manufactures some other product or products.

(3) "Converter" means any person who purchases greige goods for conversion into fabrics meeting the requirements of any flag manufacturer.

(4) "Military order" means an order placed by the Army or Navy of the United States, the United States Maritime Commission, the Panama Canal, the Coast and Geodetic Survey, the Coast Guard, the Civil Aeronautics Authority, the National Advisory Committee for Aeronautics, the Office of Scientific Research and Development, the War Shipping Administration, the Veterans Administration, the American Red Cross or the Treasury Department.

(c) *Certain flags given preference in manufacturing; limitation on size of flags.* (1) All flag manufacturers must treat orders for the following types of flags as if rated AA-5 unless they are actually rated higher:

(i) *Official flags.* Flags of any country, flags of any department or agency of the Federal Government (including the military services and all subdivisions) or flags the use of which is authorized by any of them, flags of any State or municipal government, and flags to be delivered under a military order, as defined above.

(ii) *Religious flags.* The officially adopted flag of any religious denomination or sect.

(iii) *Signal flags.* Code flags, semaphore flags, or flags indicating danger or distress.

(iv) *Service flags.* Flags showing that a person or persons are serving in the armed forces of the United States.

(2) No flag manufacturer shall put into process any material for the manufacture of any flag having an area of more than 150 square feet, except as required by a military order or as permitted under paragraph (g) below.

(d) *Assignment of preference rating.* (1) A preference rating of AA-5 is hereby assigned to purchase orders by flag manufacturers for the following materials (either gray, bleached, dyed or printed) to be incorporated into the types of flags mentioned in paragraph (c) (1) above:

(i) Cotton mercerized bunting manufactured in accordance with the then current issue of Federal Specification CCC-B-791 type A and B;
(ii) Class A sheeting, Class B sheeting;
(iii) Print cloth of less than 80 sley;
(iv) Single filling flat duck;
(v) Broadcloth 36" 80 x 60 single ply;
(vi) Rayon fabric: 39" wide. 110 x 60 construction plain weave made with 150 denier viscose or acetate bright rayon yarn in the warp and filling.
(vii) Rayon fabric: 40" wide. 120 x 68 construction plain weave made with 120 denier warp and 150 denier filling acetate bright rayon yarn.
(viii) Rayon fabric: 48" in the reed. 100 ends in the reed, 72 picks, plain weave. 75 denier viscose or cupprammonium rayon warp crepe with 55/57 turns warped 2 ends S twist, 2 ends Z twist. 75 denier viscose or cupprammonium rayon filling with natural twist.
(ix) Rayon fabric: 52" wide. 225 x 76 or 80 construction plain weave made with 2 thread 40 denier cupprammonium 14/16 turns warp. 100 denier cupprammonium 12 turns filling.
(x) Rayon fabric: 39" wide. 140 x 64 construction satin standard finish made with 100 denier bright viscose warp. 150 denier bright viscose filling.
(xi) Pro rata widths to the above-mentioned weights and constructions.
(xii) Cotton sewing thread.

(2) Such preference rating shall be applied and extended in accordance with Priorities Regulation 3 and General Conservation Order M-328, except that converters may extend ratings only to obtain material which is required to fill a specific order on their books and may not extend ratings to replace inventories.

(3) The preference rating heretofore assigned to converters by this order is hereby revoked. Any materials obtained by converters through the use of such rating may be sold only on orders carrying an AA-5 or higher rating placed by flag manufacturers.

(e) *Quantity restrictions.* No flag manufacturer shall in any 12 months' period beginning July 1 of any year use in the manufacture of flags a greater quantity of fabrics than he used during the period July 1, 1942 to July 1, 1943.

(f) *Inventory restrictions.* No flag manufacturer or converter shall accept delivery of any materials for flag production, or cause any materials to be accepted on his behalf, if his inventory of raw materials and materials in process will then exceed the quantity to be used by him within 60 days. For this purpose greige goods delivered to flag manufacturers who do their own converting may be considered separately from finished goods, and greige goods may be accepted by such flag manufacturers if they will be converted into finished goods within 60 days.

This inventory restriction is in addition to that contained in § 944.14 of Priorities Regulation 1.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(h) *Communications to the War Production Board.* All reports required to be filed hereunder, and all communications concerning this order, shall, unless otherwise directed, be addressed to the War Production Board, Textile, Clothing and Leather Division, Washington 25, D. C., Reference M-166.

NOTE: Paragraph (i), formerly (j), redesignated and former paragraph (i) revoked June 30, 1944.

(i) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 30th day of June 1944.

PART 3293—CHEMICALS

[Conservation Order M-150, as Amended June 30, 1944]

AROMATIC SOLVENTS

Section 3293.171 *Conservation Order M-150* is hereby amended to read as follows:

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of aromatic solvents for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.171 *Conservation Order M-150*—(a) *Definitions.* For the purposes of this order:

(1) "Aromatic solvents" means Class A solvents and Class B solvents as defined herein.

(2) "Class A solvents" means xylene range solvents or alternate blended solvents or naphthas containing more than 30 per cent by volume of aromatic hydrocarbons, regardless of source, as determined by the analytical procedure described in "Approximate Analysis of Hydrocarbon Thinners" published in the Scientific Section Circular No. 568 of the National Paint, Varnish and Lacquer Association, November, 1938, pages 381 and 388, and having an A. S. T. M. initial boiling point of 185° F. (85° C.) or higher, a 50% distillation point lower than 330° F. (165.5° C.), and a dry point not in excess of 365° F. (185° C.). The term shall include solvents containing some combined or commercially inextractable benzene or toluene when such are inherently present in fractionated distillates. The term does not include benzene as defined in Order M-300, Schedule 22, toluene as defined in M-300, Schedule 21, or xylene as defined in M-300, Schedule 23, or solvents of the toluene range, which are defined below as "Class B solvents".

(3) "Class B solvents" means toluene range solvents from petroleum or coal tar origin having a distillation range of 200° F. to 285° F. (93° C. to 140° C.), and containing more than 30 per cent by volume of aromatic hydrocarbon, as determined by the analytical procedure described in paragraph (a) (2) above. The term does not include benzene as defined in Order M-300, Schedule 22, toluene as defined in M-300, Schedule 21, or xylene as defined in M-300, Schedule 23, or solvents containing xylene which are defined as Class A solvents.

(4) "Civilian order" means any purchase order which is not a military order.

(5) "Military order" means any purchase order for a product to be delivered to, or to be used on, or incorporated in, material or equipment delivered or to be delivered to the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission, the War Shipping Administration or to or for the account of any foreign country under the Act of March 11, 1941 (Lend-Lease Act).

(6) "Manufacturer" means any person who makes products containing aromatic solvents or who has such products made for him under toll agreement.

(b) *Limitation on use of aromatic solvents.* On and after July 1, 1944, the use of aromatic solvents shall be limited in the following manner:

(1) *Class A solvents.* Any person may use Class A solvents for any purpose except that no manufacturer may use Class A solvents for the production of the following products which are to be sold on civilian orders, or which are to be used on or incorporated in other products to be sold on civilian orders:

Dry cleaning fluid (except spotting fluid and soap).
Printing press and type washes.
Paint, varnish or lacquer remover.
Coatings for any of the end uses shown on Schedule A.

(2) *Class B solvents.* No manufacturer may use any Class B solvents except for the production or processing of products shown on Schedule B.

(c) *Suppliers' notification to customers.* No person who produces aromatic solvents or who purchases aromatic solvents for re-sale shall deliver aromatic solvents unless he notifies his customers whether the aromatic solvents are Class A or Class B solvents (whichever is the case) as defined in Order M-150. This notification may be made by a statement on the invoice or by any other written communication.

(d) *Changes in Schedules A and B.* The War Production Board may from time to time make whatever changes it may deem necessary in the end uses listed on Schedule A or in the products and the end uses listed on Schedule B.

(e) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds for the appeal.

(f) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

(h) *Communications to War Production Board.* All communications concerning this order, unless otherwise directed, shall be addressed to: War Production Board, Chemicals Bureau, Washington 25, D. C., Ref: M-150.

Issued this 30th day of June 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

SCHEDULE A—CLASS A SOLVENTS

Class A solvents may not be used for the production of coatings which are to be sold on civilian orders, or coatings which are to be used on or incorporated in other products to be sold on civilian orders, for any of the following end uses:

Code[1]	Prohibited uses
0341	Railroad freight cars, maintenance
0344	Railroad refrigerator cars, exterior, maintenance
0360	Automobiles, excluding parts
0362	Trailers & carts (maintenance)
0365	Motorcycles & bicycles (maintenance)
0366	Skis
0369	Road signs
0370	Highway markings
0552	Agricultural equipment (including farm tractors) motorized, maintenance
0554	Agricultural equipment, horsedrawn, maintenance
0709	Umbrella fabrics
0730	Oilcloth—except floor oilcloth (such as table and shelf oilcloth)
0731	Enamelled oilcloth or silk oilcloth
0732	Floor oil cloth (Linoleum)
0734	Wall covering
0739	Window hollands (shade cloth)
0740	Display cloth
0741	Shower curtains
0746	Printed textiles
0748	Novelty case cloth
0750	Luggage and kits
0751	Handbags (except frames and handles)
0752	Belts
1201	Bedsteads and bunks
1202	Trunks and foot lockers
1206	Venetian blinds
1207	Mirrors and picture frames
1208	Wood furniture—except bedsteads and bunks
1209	Metal furniture—except bedsteads and bunks
1210	Store fixtures—wood
1211	Store fixtures—metal
1212	Prefabricated partitions and shelving—wood
1213	Prefabricated partitions and shelving—metal
1214	Industrial and factory furniture, i. e. bins, lockers, tables, stools, etc.
1401	Prefabricated wall board.
1402	Prefabricated flooring.
1403	Weather stripping.
1405	Heating insulation.

[1] Code symbols refer to the symbols appearing in the "Primary Products and End Use List" (WPBI-217) prepared by the Protective Coatings Section, Chemicals Bureau, War Production Board.

SCHEDULE B—CLASS B SOLVENTS

Class B solvents may only be used for the production or processing of the following products:

1. Coatings for aircraft including instruments and parts.
2. Barrage balloon fabric.
3. Synthetic rubber.
4. Interior coatings for cans and metal closures and interior liners for metal closures where such cans and closures are to be used for the packaging of foods, drugs and pharmaceuticals.
5. Lacquers, saturants and fillers for cable, and impregnating varnishes for coils and wound apparatus.
6. Bonded mica for insulation purposes.
7. Vinyl coatings (on military orders only) where spray application is required.
8. Specification coatings (on military orders only) where the specification states that the use of Class B solvents is required.
9. Brake lining, clutch facing, and coated abrasives.
10. Any product for any end use (on military orders only) provided that not more than an aggregate quantity of 55 gallons of Class B solvents is used by any manufacturer in any calendar month for all such end uses.

PART 3293—CHEMICALS

[Limitation Order M-353 as Amended June 30, 1944]

WHITE PIGMENTS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of white pigments for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.546 *Limitation Order M-353*—(a) *Definitions.* (1) "White pigments" means titanium dioxide and zinc sulfide as defined herein.

(2) "Titanium dioxide" means any pigment containing more than 12 per cent titanium dioxide whether alone or admixed with or precipitated on inerts, extenders, or opaque pigments.

(3) "Zinc sulfide" means any pigment containing more than 12% zinc sulfide whether alone or admixed with, or precipitated on, inerts, extenders or opaque pigments. The term includes all the commercial grades of lithopone, but does not include luminescent pigments containing zinc sulfide.

(4) "Military order" means any purchase order for white pigments which is to be used in the manufacture of products delivered or to be delivered to, or to be used on, or incorporated in, material or equipment delivered or to be delivered to, the United States Army, Navy, Marine Corps, Coast Guard, Maritime Commission or the War Shipping Administration, or to or for the account of any foreign country under the Act of March 11, 1941 (Lend-Lease Act).

NOTE: Subparagraphs (2) and (4), formerly (1) and (2), redesignated June 30, 1944.

(b) *Inapplicability of certain preference ratings.* No person shall give any effect to any preference ratings below AA–2 on any purchase order for white pigments, unless the person placing such purchase order furnishes a certificate in substantially the following form signed by a duly authorized official, either manually or as provided by Priorities Regulation No. 7:

The undersigned hereby certifies to the War Production Board and to ---------- [insert name and address of supplier] that he is familiar with the provisions of Order No. M–353 and that his purchase order, dated ----------, for white pigments is a military order as defined in Order M–353.

(Name of purchaser)

By ---
(Signature and title of duly authorized official)

Orders rated below AA–2, not accompanied by the certificate, may be filled as unrated orders to the extent permitted by Priorities Regulation No. 1. The certificate need not be filed with the War Production Board. Any person receiving it may rely upon it in filling orders unless he knows or has reason to believe that it is false. The standard certification described in Priorities Regulation No. 7 may not be used instead.

(c) *Special directives.* The War Production Board may at any time issue special directives to any person respecting the production or delivery of white pigments, notwithstanding the other provisions of this order.

NOTE: Paragraphs (d), (e) and (f), formerly (e), (f) and (g) redesignated June 30, 1944.

(d) *Applicability of regulations.* Except as provided in paragraph (b) above, this order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board, as amended from time to time.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact, or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(f) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to War Production Board, Chemicals Division, Washington 25, D. C., Ref: M–353.

Issued this 30th day of June 1944.

PART 3302—SERVICE EQUIPMENT

[General Limitation Order L–91, as Amended June 30, 1944]

COMMERCIAL LAUNDRY EQUIPMENT, COMMERCIAL DRY CLEANING EQUIPMENT, AND TAILORS' PRESSING EQUIPMENT

§ 3302.16 *General Limitation Order L–91*—(a) *What this order does.* This order restricts the production and distribution of certain kinds of laundry equipment, dry cleaning equipment, and tailors' pressing equipment. This equipment is divided into two groups. The order restricts both production and distribution of the first group. Production of equipment in the second group is restricted, but distribution is not.

(b) *What equipment is in the first group.* The first group consists of the following kinds of laundry, dry cleaning and tailors' pressing equipment:

Blocking machines, garment
Boards, ironing
Boards, pressing
Boards, pressing, velvet and nap
Boards, shirt folding
Boards, steam
Boards, steam spotting
Cabinets, deodorizing, drying or sterilizing
Conveyors, bag (wet wash)
Conveyors, "go back"
Conveyors, shirt
Dry cleaning units, naphtha
Dry rooms, conveyor
Dryers, garment, hot air
Dryers, hosiery and sock
Dye machines
Extractors (including mechanical unloading)
Forms, collar
Forms, hosiery and sock
Forms, overall
Forms, sleeve
Forms, trouser
Filters, solvent, for drycleaning
Finishers, garment
Finishers, sleeve
Fluffers, handkerchief
Folding machines, automatic
Ironers, collar
Ironers, flatwork
Ironers, handkerchief
Ironer attachments:
  Canopies
  Feeding devices
Irons, puff
Listing machines
Marking machines
Presses
Shakers, flatwork
Shapers, sleeve
Shapers, trouser
Spreaders, flatwork
Stackers, flatwork, automatic
Stackers, handkerchief, automatic
Starch cookers
Starching and extracting machines
Starching machines
Steamers, garment
Steamers, velvet
Stills, vacuum, for drycleaning
Stretchers, trouser
Tables, marking
Tumblers
Washers (except glove)

(c) *What equipment is in the second group.* The second group consists of the following kinds of laundry, dry cleaning, and tailors' pressing equipment:

NOTE: "Puffers, steam" deleted June 30, 1944.

Boards, spotting, except steam
Collar shapers
Collar tippers
Cuff cleaners
Dampeners, cloth
Dampeners, collar and seam
Dryers, blanket and curtain
Dryers, rug
Dryers, windwhip
Dry cleaning units, synthetic
Dry rooms, sectional
Dye kettles
Feather sanitizing machines
Fluting machines
Forms, glove
Fur cleaning equipment
Glazers, fur
Glove cleaning machines
Hangers, revolving shirt
Hatters' equipment
Holders, bag
Holders, net
Irons, rotary
Ironers, edger
Ironers, hat crown
Ironers, ruffle
Ironer attachments:
  String mark eliminators
Napping machines (carding machines for blanket finishing)
Rug cleaning machines (stationary)
Sand bags, hat
Seam cleaners
Shirt envelope machines
Sterilizers, feather
Stretchers, blanket and curtain
Stretchers, dress
Tables, steam
Tubs, scrub
Tubs, starch
Tubs, stationary laundry
Washers, glove

(d) *Production of both groups is restricted.* A person may produce the equipment listed in paragraph (b) and (c) only to the extent authorized by this order or by written instructions from the War Production Board.

(e) *Production is permitted to fill U. S. Army and Navy orders.* A person may produce equipment if he builds it according to United States Army or Navy specifications in order to fill a specific United States Army or Navy order. This includes orders placed by prime contractors or subcontractors of the Army or Navy for equipment which will eventually be delivered to the Army or Navy and will be installed under Army or Navy supervision.

(f) *Production of equipment in first group is permitted to fill approved orders.* A person may produce equipment listed in paragraph (b) to fill orders approved for delivery under paragraph (k), and in addition to maintain an inventory of new equipment listed in paragraph (b) worth up to 5 per cent of the total value of new equipment listed in paragraph (b) which he billed to his customers during the calendar years 1939, 1940 and 1941. His total billings during that period and the value of his current inventory are to be calculated at his established prices f. o. b. shipping point. Production of equipment listed in paragraph (b) which was specifically authorized by the War Production Board, through the granting of appeals or otherwise, before May 22, 1944, may take place after that date only to the extent permitted by this paragraph.

In approving orders, and in processing applications for priorities assistance on Form CMP–4B, the War Production Board will be guided by the policy that the total production of the entire industry must not exceed the approved War Production Board program for the equipment listed in paragraph (b), and that the production in any one plant, or labor requirements therefor, must not interfere with war production in that plant or in any other plant located in the same area.

(g) *Production of equipment in second group is permitted to fill certain kinds of approved orders.* A person may assemble equipment listed in paragraph (c) to fill a specific order approved for delivery under paragraph (k), by assembling the equipment from parts completely fabricated before July 1, 1942. He may not make any parts for this purpose. Also, a person may produce equipment listed in paragraph (c) to fill a specific order approved for delivery under paragraph (k) for any of the following persons:

(1) The armed forces and maritime agencies of any foreign government friendly to the United States.

(2) The United States Maritime Commission.

(3) The War Shipping Administration.

(4) Privately owned ordnance plants.

(h) *Production of repair parts is permitted.* A person may make parts to use or sell for repairing, rebuilding or maintaining equipment.

(i) *Delivery of new equipment in first group is restricted.* A person may deliver new equipment listed in paragraph (b) only in those cases specified in the following paragraphs. There is no restriction on the delivery of secondhand equipment, including rebuilt equipment listed in paragraph (b). The delivery of both new and secondhand equipment listed in paragraph (c) is unrestricted.

(j) *Delivery to the United States Army and Navy is permitted.* A person may deliver new equipment listed in paragraph (b) to the United States Army or the United States Navy. A person may also deliver this equipment to a prime contractor or subcontractor of the Army or Navy, if the equipment will eventually be delivered to the Army or Navy and will be installed under Army or Navy supervision.

(k) *Approved deliveries are permitted.* A person may deliver new equipment listed in paragraph (b) to anyone whose order has been approved for delivery on Form WPB–924, issued before July 1, 1944, or a Form WPB–1319, or a Form GA–1456.

Form GA–1456 will be used to approve delivery to persons who request such approval when applying for authority to begin construction, and for priority assistance in obtaining materials for construction. Orders approved for delivery on Form GA–1456 should be accompanied by the following certification (in addition to the certification in Priorities Regulation 7):

Delivery approved on Form GA–1456.

Those who want to get their orders approved when construction is not involved should send an application to the War Production Board, Service Equipment Division, Washington 25, D. C.: Ref. L–91. Applications submitted before June 1, 1944, should be on Form WPB–924. Applications submitted after that date should be on Form WPB–1319. If the War Production Board approves an order for delivery on either of those forms, the approved form must be given to the person making the delivery before the equipment may be delivered. Moreover, if the form is not given to this person within thirty days after the date of official approval, the War Production Board's permission to deliver the equipment automatically expires.

(l) *Deliveries for resale are permitted.* A person may deliver new equipment listed in paragraph (b) to anyone who needs the equipment to fill an order or part of an order approved for delivery under paragraph (k). A person may also deliver this equipment to anyone who is acquiring the equipment only for resale within the United States (48 States and the District of Columbia). In the latter case the person delivering the equipment must continue to count it as part of his inventory under paragraph (f) until the equipment is redelivered to the United States Army, the United States Navy, or a person whose order has been approved for delivery under paragraph (k).

(m) *Use of equipment by manufacturers or dealers is restricted.* No person who produces equipment for sale or acquires new equipment listed in paragraph (b) for resale may put that equipment into use, unless the War Production Board gives him written permission to do so.

(n) *Emergency repair loans are sometimes permitted.* The War Production Board will consider written or telegraphic requests for permission to lend equipment listed in paragraph (b) to someone whose own equipment is undergoing emergency repairs. If the War Production Board gives permission in writing, a person may deliver equipment to another person for use while the latter's equipment is being repaired. When the repairs are finished, the borrowed equipment must be returned to the person who lent it. Equipment listed in paragraph (b) is still considered new equipment even though it has been used for repair loans of the sort contemplated by this paragraph, and is still subject to the restrictions of paragraph (i) after it has been returned to the person who lent it.

(o) *Use of metal parts for rebuilding equipment is restricted.* A person may use metal parts, including cast iron, for rebuilding equipment listed in paragraph (b) or paragraph (c) only to the following extent:

A person rebuilding equipment for the United States Army, the United States Navy, the United States Maritime Commission, or the War Shipping Administration, may use metal parts to the extent necessary to meet their specifications.

A person may also use metal parts in rebuilding a piece of equipment if their total weight will be less than 40 per cent of the total weight of the piece of equipment rebuilt, after the job is finished. A person may use additional metal parts for rebuilding a piece of equipment to the extent specifically authorized by the War Production Board in writing.

(p) *Reports on Form WPB–923 are required monthly.* Before the fifteenth of each month every person in the business of producing equipment listed in paragraph (b) or (c), and every person in the business of selling new equipment listed in paragraph (b) must send to the War Production Board a report on Form WPB–923. This reporting requirement has the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(q) *Miscellaneous reports.* Subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942, each person affected by this order must execute and file with the War Production Board whatever reports, information, and answers to questionnaires the War Production Board from time to time requests.

(r) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable provisions of the regulations of the War Production Board as amended from time to time.

(s) *Violations.* Any person who wilfully violates any provisions of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

(t) *Appeals.* Any appeal from this order shall be made by filing a letter, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(u) *Communications to War Production Board.* All reports required by this order, and all communications concerning its provisions should be addressed to: War Production Board, Service Equipment Division, Washington 25, D. C., Ref: L–91.

Issued this 30th day of June 1944.

WAR PRODUCTION BOARD,

Recording Secretary.

INTERPRETATION 1

LAUNDRY, DRY CLEANING AND TAILORS' PRESSES

General Limitation Order L–91 restricts the production and distribution of certain kinds of laundry equipment, dry cleaning equipment, and tailors' pressing equipment. The first group of such equipment listed in paragraph (b) includes "presses". All presses of the types commonly known as laundry, dry cleaning or tailors' presses are controlled by Order L–91, including those produced or delivered for purposes other than laundering, dry cleaning or tailoring. For example, all pants top presses, pants leg presses, off pressing machines with bucks 38 inches long or longer, and 38 inch to 45 inch utility presses, are restricted by Order L–91 regardless of whether they are being produced and delivered to dry cleaning plants or to clothing

manufacturers. On the other hand, Order L–91 is inapplicable to the following types of presses, since they are not commonly known as laundry, dry cleaning, or tailors' presses:

Back and blade presses.
Canvas front presses.
Coat front presses.
Collar presses.
Double bosom presses of the type used by shirt manufacturers.
Edge presses.
Fuse ply presses of the type used by shirt manufacturers.
Knit goods presses.
Off pressing machines, except those with bucks 38 inches long or longer.
Pocket presses.
Seam opening and under pressing presses.
Shoulder presses.
Side and back presses.
Sleeve and shrinking presses.
Vest presses.
Vest back presses.
Vest front presses.
Vest, neck and shoulder presses.

(2) The prices established for Grade 13 (billet, bloom and forge crops), Grade 25 (alloy free turnings) and Grade 26 (heavy turnings) may be charged only when shipped to a consumer directly from an industrial producer of such grades; otherwise the maximum price for such grades shall not exceed the price established for the corresponding grade of basic open hearth and blast furnace scrap.

(3) The prices established for Grade 28 (No. 1 chemical borings) and Grade 29 (No. 2 chemical borings) may be charged only when such grades are sold for use for chemical or annealing purposes; otherwise the maximum prices for such grades shall not exceed the price established for Grade 12 (cast iron borings).

(4) The price established for Grade 32 (wrought iron) may be charged only when sold to a producer of wrought iron; otherwise the maximum price for such grade shall not exceed the prices established for the corresponding grades of basic open hearth or blast furnace scrap.

(c) *Special pricing provisions.* (1) Sellers of Grade 28 (No. 1 chemical borings) and Grade 29 (No. 2 chemical borings) may make an extra charge of 75 cents per gross ton for loading in box cars or covering gondolas with a weather-resistant covering.

(2) Non-ferrous smelters may pay an extra charge of $1.50 per gross ton for preparing Grade 2 (No. 2 heavy melting steel) to a length of two feet or less, and a width of 15 inches or less.

(3) The maximum price of pit scrap, ladle scrap, salamander scrap, skulls, skimmings or scrap recovered from slag dumps and prepared to charging box size, shall be computed by deducting from the price of No. 1 heavy melting steel of dealer and industrial origin, the following amounts:

Where the iron content is 85% and over	$2.00
Where the iron content is 75% and over	4.00
Where the iron content is less than 75%	8.00

(4) The maximum price of iron or steel grindings or mill cinders, with the exception of those cast iron grindings with an iron content of 85 per cent and over and when sold for chemical use, shall be $4.00 per gross ton at any shipping point. Cast iron grindings with an iron content of 85 per cent and over shall not be subject to this regulation when sold for chemical use.

(5) Detinned or tin coated scrap sold for use in copper precipitation shall not be subject to this regulation.

SEC. 4. *Maximum shipping point prices for steel scrap of dealer and industrial origin.* (a) For shipping points located within a basing point named in section 3 of this regulation, the maximum shipping point price for any grade of steel scrap shall be the price established at such basing point, minus the applicable switching charge deduction set forth in section 5.

(b) For shipping points located outside the basing points named in section 3, the maximum shipping point price of any grade of steel scrap shall be the price established for the scrap at the most favorable basing point, minus the lowest established charge for transporting scrap from the shipping point to such basing point by rail or water carrier, or combination thereof. (The most favorable basing point is the basing point named in section 3 which will yield the highest shipping point price.) Where water rates are involved in the computation, a flat charge of 75¢ per gross ton for dock charges must be deducted in computing the shipping point price, except however, that at Memphis, Tennessee, the deduction shall be 50¢ per gross ton; at Great Lakes ports, $1.00 per gross ton; and at New England ports, $1.25 per gross ton.

(c) For shipping points located outside the basing points named in section 3, where water rates are used in computing shipping point prices, the f. a. s. vessel price shall apply f. o. b. cars for all shipping points located within the switching district of the city from which the water rate is applicable. Where the shipping point is located outside such switching district, the lowest established charge for transporting scrap by rail from the shipping point to the f. a. s. vessel point must be deducted from the f. a. s. vessel price. If no such established charge exists, then water rates may not be used in computing shipping point prices at such shipping points.

(d) The maximum shipping point price for No. 1 heavy melting steel (with differentials established in section 3 for all other grades) at all shipping points in New York City (or Brooklyn, New York) shall be $15.33 per gross ton.

(e) Maximum shipping point prices at all shipping points in the State of New Jersey shall be computed by the use of all rail transportation charges: Except that maximum shipping point prices at all shipping points in Hudson and Bergen Counties shall be computed from the Bethlehem, Pennsylvania, basing point.

(f) The maximum shipping point price for No. 1 heavy melting steel (with differentials established in section 3 for all other grades) need not fall below $14.00 per gross ton.

SEC. 5. *Switching charge deductions.* The switching charges to be deducted from the basing point price of dealer and industrial scrap as set forth in section 3, or the basing point price of non-operating railroad scrap, as set forth in section 7, in order to determine the maximum shipping point prices for such scrap originating in basing points, are as follows:

(a) Basing point:	*Cents per gross ton*
1. Alabama City, Alabama	26
2. Ashland, Kentucky	28
3. Atlanta, Georgia	32
4. Bethlehem, Pennsylvania	18
5. Birmingham, Alabama	32
6. Brackenridge, Pennsylvania	55
7. Buffalo, New York	26
8. Butler, Pennsylvania	28
9. Canton, Ohio	23
10. Chicago, Illinois	14
11. Cincinnati, Ohio	13
12. Claymont, Delaware	26
13. Cleveland, Ohio	42
14. Coatesville, Pennsylvania	28
15. Conshohocken, Pennsylvania	11
16. Detroit, Michigan	13
17. Duluth, Minnesota	28
18. Harrisburg, Pennsylvania	13
19. Johnstown, Pennsylvania	42
20. Kokomo, Indiana	28
21. Los Angeles, California	42
22. Middletown, Ohio	14
23. Midland, Pennsylvania	42
24. Minnequa, Colorado	22
25. Monessen, Pennsylvania	28
26. Phoenixville, Pennsylvania	28
27. Pittsburg, California	42
28. Pittsburgh, Pennsylvania	55
29. Portsmouth, Ohio	28
30. St. Louis, Missouri	28
31. San Francisco, California	42
32. Seattle, Washington	30

(a) Basing point:	*Cents per gross ton*
33. Sharon, Pennsylvania	42
34. Sparrows Point, Maryland	11
35. Steubenville, Ohio	28
36. Warren, Pennsylvania	42
37. Weirton, West Virginia	42
38. Youngstown, Ohio	42

[1] For Basic Open Hearth and Blast Furnace grades and grades No. 22, 23, and 24 in Section 3, the switching charge deduction shall be 80¢ per gross ton.

(b) The Pittsburgh, Pennsylvania, basing point includes the switching districts of Bessemer, Homestead, Duquesne, Munhall and McKeesport, Pennsylvania.

(c) The Cincinnati, Ohio, basing point includes the switching district of Newport, Kentucky.

(d) The St. Louis, Missouri, basing point includes the switching districts of Granite City, East St. Louis and Madison, Illinois.

(e) The San Francisco, California, basing point includes the switching districts of South San Francisco, Niles and Oakland, California.

(f) The Claymont, Delaware, basing point includes the switching district of Chester, Pennsylvania.

(g) The Chicago, Illinois, basing point includes the switching district of Gary, Indiana.

SEC. 6. *Maximum delivered prices for shipment by rail, vessel, or combination thereof, for steel scrap of dealer and industrial origin.* (a) The maximum delivered price of any grade of steel scrap delivered by rail, vessel, or combination thereof, shall be the shipping point price as determined in section 4, plus the established charge for transporting the scrap from the shipping point to the point of delivery by the means of transportation employed, subject to the springboard limitations set forth in paragraph (d) of this section.

(b) If delivery to the consumer involves vessel movement, the actual charges incurred at a public dock may be added to the established transportation charges. Where the dock facilities are owned or controlled by the shipper of the scrap, a maximum charge of 75¢ per gross ton may be added to the established transportation charges; except that the maximum charge shall be 50 cents per gross ton at Memphis, Tennessee, $1.00 per gross ton at any Great Lakes port, or $1.25 per gross ton at any New England port.

(c) In the case of water movement by deck scow or railroad lighter, no established charges at the dock or any charge or cost customarily incurred at the dock may be included in the delivered price. In lieu thereof, 50 cents per gross ton may be included in the delivered price.

(d) Normal springboard limitations. The maximum delivered price of any grade of steel scrap of dealer and industrial origin shall not exceed the price listed in section 3 for that grade at the basing point nearest, in terms of transportation charges, the consumer's plant by more than $1.00 with the following exceptions:

(1) For consumers located nearest, in terms of transportation charges, the St. Louis, Missouri, basing point, the maximum delivered price of any grade of steel scrap shall not exceed the price listed in section 3 for that grade at St. Louis by more than $1.50.

(2) For consumers located nearest, in terms of transportation charges, the Detroit, Michigan, Birmingham, Alabama, or Alabama City, Alabama, basing points, the maximum delivered price of any grade of steel scrap shall not exceed the price listed in section 3 for that grade at such basing points by more than $2.00.

(3) Where the delivered price of any grade of scrap shipped from a New England shipping point exceeds the normal springboard limitations set forth above, the maximum transportation charges which may be added to the shipping point price shall be $6.65 per gross ton.

(4) Consumers of Grade 13 (billet, bloom and forge crops) originating in and shipped from the Pittsburgh, Pennsylvania basing point may pay the shipping point price established in section 4 for that grade, plus transportation charges actually incurred but not to exceed $2.65 per gross ton.

(5) Consumers purchasing any grade of turnings for electric furnace use in the production of ferro-alloys, may pay the shipping point price established in section 4 for that grade of turnings plus full transportation charges to the point of delivery.

(6) Consumers of chemical borings may pay the shipping point price established in section 4 for that grade of chemical borings plus full transportation charges to the point of delivery.

(7) Consumers purchasing steel scrap for use in copper precipitation may pay the shipping point price established in section 4 for the particular grade of scrap, plus full transportation charges to the point of delivery.

(8) When steel scrap is shipped by vessel from Duluth, Minnesota or Superior, Wisconsin, consumers purchasing such scrap may pay the shipping point price established in section 4, plus full transportation charges to the point of delivery.

(9) Consumers purchasing mill cinder or grindings may pay the shipping point price established in section 4 for those grades, plus full transportation charges to the point of delivery.

(10) For Grade 14 (bar crops and plate scrap), Grade 16 (punchings and plate scrap), Grade 25 (alloy free turnings), Grade 26 (heavy turnings) and Grade 27 (briquetted turnings) shipped directly from industrial plants in the State of Michigan, consumers located nearest, in terms of transportation charges, the Buffalo, New York, Pittsburgh, Brackenridge, and Midland, Pennsylvania, basing points, may pay the shipping point price plus full transportation charges to the point of delivery.

(e) Steel scrap originating within the States of Arizona, Arkansas, California, Colorado, Florida, Idaho, Kansas, Louisiana, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington and Wyoming shall be designated "remote scrap". Consumers purchasing any grade of "remote scrap" may pay the shipping point price established in section 4 for the particular grade of scrap, plus full transportation charges to the point of delivery, provided that the delivered price does not exceed the price at the basing point nearest, in terms of transportation charges, the consumer's plant by more than $7.00 per gross ton.

(f) Where scrap is shipped pursuant to an allocation order issued by the War Production Board, a consumer may pay the shipping point price as established in section 4, plus full transportation charges to the point of delivery.

(g) Where the War Production Board allocates for rail shipment, scrap which has been stored at a dock for water movement, the consumer may pay the dock charges set forth in paragraph (b) above.

SEC. 7. *Basing point prices for steel scrap of railroad origin*—(a) *Basing point prices from which maximum on-line and maximum delivered prices are computed.*

(1) Basing point prices for the base grade, No. 1 railroad heavy melting steel, Grade 1:

Basing point:	*Price per gross ton*
Alabama City, Alabama	$18.00
Ashland, Kentucky	20.50
Atlanta, Georgia	18.00
Bethlehem, Pennsylvania	19.25
Birmingham, Alabama	18.00
Brackenridge, Pennsylvania	21.00
Buffalo, New York	20.25
Butler, Pennsylvania	21.00
Canton, Ohio	21.00
Chicago, Illinois	19.75
Cincinnati, Ohio	20.50
Claymont, Delaware	19.75
Cleveland, Ohio	20.50
Coatesville, Pennsylvania	19.75
Conshohocken, Pennsylvania	19.75
Detroit, Michigan	18.85
Duluth, Minnesota	19.00
Harrisburg, Pennsylvania	19.75
Johnstown, Pennsylvania	21.00
Kokomo, Indiana	19.25
Los Angeles, California	18.00
Middletown, Ohio	20.50
Midland, Pennsylvania	21.00
Minnequa, Colorado	17.50
Monessen, Pennsylvania	21.00
Phoenixville, Pennsylvania	19.75
Pittsburg, California	18.00
Pittsburgh, Pennsylvania	21.00
Portsmouth, Ohio	20.50
St. Louis, Missouri	18.50
San Francisco, California	18.00
Seattle, Washington	15.50
Sharon, Pennsylvania	21.00
Sparrows Point, Maryland	19.75
Steubenville, Ohio	21.00
Warren, Ohio	21.00
Weirton, West Virginia	21.00
Youngstown, Ohio	21.00

(2) Differentials per gross ton above or below the price of Grade 1 (No. 1 railroad heavy melting steel) for other grades of railroad steel scrap.

Grades	*Differentials*
2. No. 2 Railroad Heavy Melting Steel	Base
3. Wrought Iron and Soft Steel	Base
4. No. 2 Steel Wheels	Base
5. Axles, Iron and/or Steel	—1.00
6. No. 1 Busheling	—3.50
7. No. 2 Busheling	—1.50
8. No. 1 Turnings	—6.00
9. No. 2 Turnings, Drillings and Borings	—3.50
10. Iron Arch Bars	—3.50
11. Steel Arch Bars	—3.50
12. Boilers, Fire Boxes and Tanks	—3.50
13. No. 2 Cast Steel	—.50
14. Uncut Frogs and Switches	—3.50
15. Flues, Tubes and Pipes	—3.50
16. Limed Iron and Steel	
17. Structural Wrought Iron and/or Steel, uncut	—3.50
18. Destroyed Steel Cars and Locomotive Tenders	—5.00
19. No. 1 Sheet Scrap	—7.00
20. No. 2 Sheet Scrap	+.50
21. Scrap Rails in Random Lengths	+2.50
22. Re-rolling Rails	+2.50
23. Cut Rails, 3' and Under	+3.75
24. Cut Rails, 18" and Under	+2.50
25. Cast Steel, No. 1	+2.50
26. Uncut Tires	+4.50
27. Cut Tires	+1.00
28. Iron Arch Bars, 3' and Under	Base
29. Uncut Bolsters and Side Frames	+2.50
30. Cut Bolsters and Side Frames	+2.50
31. Angle and Splice Bars	+6.00
32. Solid Steel Axles	+3.50
33. No. 3 Steel Wheels	+3.50
34. Spring Steel	+1.00
35. Couplers and Knuckles	+3.50

(b) *Restrictions on use.* (1) The price established for grade 22 (re-rolling rails) may be charged only when purchased and sold for re-rolling use; otherwise the maximum price for such grade shall not exceed the price established for grade 21 (scrap rails in random lengths). (The term "re-rolling rails" includes any rails which are sold to be used for re-rolling, irrespective of whether or not such rails are usable for relaying).

(2) The price established for grade 32 (solid steel axles) may be charged only when purchased and sold for re-rolling or reforging use; otherwise the maximum price for such grade shall not exceed the price established for the base grade, No. 1 railroad heavy melting steel.

SEC. 8. *Maximum on-line prices for steel scrap of railroad origin.* The term "on-line prices" means the maximum prices that the originating railroad may charge for scrap delivered to a consumer located on the line of that railroad.

(a) *On-line prices for operating railroads operating in a basing point.* The maximum on-line price of any grade of steel scrap originating from an operating railroad operating in a basing point named in section 7 shall be the price established in such section for the scrap at the highest priced basing point in which the railroad operates.

(b) *On-line prices for operating railroads not operating in a basing point.* The maximum on-line price of any grade of steel scrap originating from an operating railroad not operating in a basing point named in section 7 shall be the price established for the scrap at the most favorable basing point named in that section minus the foreign line proportion of the lowest established charge for transporting scrap by rail from the scrap accumulation point of the railroad to such basing point. (The "scrap accumulation point" shall be that point from which the greatest tonnage of scrap was shipped in the calendar year, 1943). The maximum on-line price of No. 1 railroad heavy melting steel need not fall below $15.00 per gross ton (with differentials established in section 7 for all other grades): *Provided, however,* That in no case need this maximum on-line price fall below the corresponding shipping point price for No. 1 heavy melting steel of dealer and industrial origin at the railroad's scrap accumulation point.

The "most favorable basing point" is the basing point named in section 7 which will yield the highest maximum on-line price.

On and after the 15th day of March, 1944, no operating railroad not operating in a basing point named in section 7 may sell or offer to sell iron and steel scrap to a consumer or his broker (without obtaining prior written approval from the Office of Price Administration) unless it has filed with the Office of Price Administration, Iron and Steel Branch, Washington (25), D. C., a statement in writing setting forth its maximum on-line price for No. 1 railroad heavy melting steel and describing the method by which the said maximum on-line price was calculated and such statement has been approved in writing by the Office of Price Administration, Washington, D. C. The statement shall include: the most favorable basing point selected, the price at such basing point, the location of the scrap accumulation point, the lowest established charge for transporting scrap by rail from such accumulation point to the named basing point, and the foreign line proportion of such lowest established charge.

(c) *Non-operating railroads.* (1) The maximum on-line (or shipping point) price of any grade of steel scrap originating from a non-operating railroad shall be the price established for the scrap at the most favorable basing point named in section 7 minus the lowest established charge for transporting scrap by rail from the scrap accumulation point of the railroad to such basing point. The maximum on-line price of No. 1 railroad heavy melting steel need not fall below $15.00 per gross ton (with differentials established in section 7 for all other grades): *Provided, however,* That in no case need this maximum on-line price fall below the corresponding shipping point price for No. 1 heavy melting steel of dealer and industrial origin at the railroad's scrap accumulation point of the railroad to such basing point.

(2) Where the non-operating railroad is located within a basing point set forth in section 7, the switching charge deductions established in section 5 will be applicable.

SEC. 9. *Maximum delivered prices for shipment by rail, vessel, or combination thereof, for steel scrap of railroad origin*—(a) *When delivered to a consumer located on the line of a railroad.* The maximum delivered price of any grade of steel scrap originating from an operating railroad and delivered to a consumer's plant located on the line of that railroad shall be the maximum on-line price established in section 8.

(b) *When delivered to a consumer located off the line of the originating railroad.* The maximum delivered price of any grade of steel scrap originating from an operating railroad and delivered to a consumer located off the line of that railroad, by rail, vessel or combination thereof, shall be the maximum on-line price established in section 8, plus the foreign line proportion of the through rate from the point of shipment to the consumer's plant via the junction nearest such plant in terms of transportation charges, or the commercial rate from such nearest junction to the consumer's plant (unless off-line routing at another point is directed by order of a governmental agency). In no case may the railroad seller participate in the transportation charges incurred in off-line delivery of scrap unless the maximum on-line price for the scrap is reduced by the amount of the participation in the off-line transportation charges.

(c) *When delivered to a consumer from a non-operating railroad.* The maximum delivered price of any grade of steel scrap originating from a non-operating railroad shall be the maximum price established in section 8 (c), plus transportation charges to the point of delivery. Such transportation charges shall be computed in the same manner and subject to the same limitations as the charges allowable under section 6 or 15 for dealer or industrial scrap except that the springboard limitations in section 6 shall not apply to the grades of rails, Grades No. 21, 22, 23, and 24.

SEC. 10. *Maximum prices for railroad steel scrap sold by sellers other than railroads.* (a) Railroad steel scrap prepared by a dealer or moving through a dealer's yard (except for unprepared scrap prepared in-transit pursuant to section 15) or sold by any other person than a railroad as defined in this Regulation, shall be classified and priced under sections 3 and 4 except that for the following grades of steel scrap set forth in section 7, Grades No. 4, 5, 14, 21, 22, 23, 24, 26, 27, 29, 30, 31, 32, 33, 34, and 35, the maximum shipping point prices shall be the same as those established for non-operating railroads in section 8 (c), and the maximum delivered prices shall be the same as those established for non-operating railroads in section 9 (c).

SEC. 11. *Maximum shipping point and maximum on-line prices for all cast iron scrap.* (a) The maximum shipping point price per gross ton for any of the following grades of cast iron scrap shall be the price shown in the following table for the zone in which the scrap is located; for a railroad seller of cast iron scrap, the maximum on-line price per gross ton shall be the price shown in the table for the highest priced zone in which the railroad operates:

Grades	Zone A	Zone B	Zone C
1. Cast iron No. 1 (cupola cast)	$18.00	$19.00	$20.00
2. Cast iron No. 2 (charging box cast)	17.00	18.00	19.00
3. Cast iron No. 3 (heavy breakable cast)	14.50	15.50	16.50
4. Cast iron No. 4 (burnt cast)	13.25	14.25	15.25
5. Cast iron brake shoes	13.25	14.25	15.25
6. Stove plate	17.00	18.00	19.00
7. Clean auto cast	18.00	19.00	20.00
8. Unstripped motor blocks	15.50	16.50	17.50
9. Wheels No. 1	18.00	19.00	20.00
10. Malleable	20.00	21.00	22.00

Zone A includes the States of Montana, Idaho, Wyoming, Nevada, Utah, Arizona, and New Mexico.

Zone B includes the States of North Dakota, South Dakota, Nebraska, Colorado, Kansas, Oklahoma, Texas and Florida.

Zone C includes all states not named in Zones A and B, and includes the switching district of Kansas City, Kansas-Missouri.

(b) *Restrictions on use.* (1) The maximum shipping point or on-line price which a basic open-hearth consumer may pay for cast iron No. 1 (cupola cast), wheels, No. 1, clean auto cast or malleable shall be the price established for cast iron No. 3 (heavy breakable cast) unless such higher priced grades are allocated by the War Production Board.

(2) The maximum shipping point or on-line price which any foundry consumer other than a malleable iron producer may pay for Grade 10 (malleable) shall be the price established for cast iron No. 1 (cupola cast), unless such malleable scrap has been allocated by the War Production Board.

SEC. 12. *Maximum delivered prices for shipment by rail, vessel, or combination thereof, for all cast iron scrap.* (a) The maximum delivered price for shipment by rail, vessel, or combination thereof of any grade of cast iron scrap of dealer or industrial origin shall be the shipping point price as determined in section 11 plus the established charge for transporting the scrap from the shipping point to the point of delivery by the means of transportation employed. If delivery to the consumer involves water movement the actual charges incurred at a public dock may be added to the established transportation charges. Where the dock facilities are owned or controlled by the shipper of the cast iron scrap, the following maximum dock charges may be added to the established transportation charges: At Memphis, Tennessee, 50 cents per gross ton; at any Great Lakes port, $1.00 per gross ton; at all New England ports, $1.25 per gross ton; and at all other ports, 75 cents per gross ton.

(b) The maximum delivered price of any grade of cast iron scrap of railroad origin shall be the maximum on-line price as determined in section 11 plus the transportation charges allowable to railroad sellers of steel scrap as set forth in section 9.

SEC. 13. *Maximum delivered prices for shipment by truck for all steel or cast iron scrap.* (a) Where delivery of any grade of iron or steel scrap is made by public carrier truck, the maximum delivered price shall be the maximum shipping point price, or in the case of railroad scrap, the maximum on-line price, as established in section 4, 8, 10 or 11, whichever is applicable, plus the established public carrier charge, subject to the limitations set forth in paragraph (c) of this section.

(b) Where delivery of any grade of iron or steel scrap is made in a truck owned or controlled by the shipper or broker of the scrap, the maximum delivered price shall be the maximum shipping point price, or in the case of railroad scrap, the maximum on-line price, as established in section 4, 8, 10 or 11, whichever is applicable, plus the highest established rail carload freight rate for shipping scrap from the rail siding nearest the shipping point to the rail siding nearest the point of delivery, subject to the limitations set forth in paragraph (c) of this section. The transportation charge for delivering any grade of iron or steel scrap in a truck owned or controlled by the shipper need not fall below $1.00 per gross ton.

(c) The springboard limitations set forth in section 6 shall be applicable to truck deliveries of all steel scrap of non-operating railroad or dealer and industrial origin.

(d) Where delivery of any grade of cast iron scrap is made solely by truck, transportation charges in excess of $1.00 per gross ton may not be added to the maximum shipping point price, or in the case of railroad cast iron scrap the maximum on-line price, unless the shipper of the scrap shall sign and deliver to the consumer a certificate made out to the Office of Price Administration, Washington (25), D. C. Such certificate shall show the point from which the scrap was shipped and the persons by whom the scrap was transported from the shipping point to the point of delivery, and shall specify the quantity and grade of scrap, the shipping point price, the shipping point, the point of delivery, and the transportation charges incurred. The consumer shall acknowledge receipt of the material on the face of the certificate. Certification must be executed on OPA Form 104.15 or a copy thereof. Such forms may be secured from any regional office of the Office of Price Administration or a facsimile of the form may be prepared by the shipper.

The above mentioned certificate shall be preserved by the consumer and a copy thereof retained by the seller as part of the record keeping requirements outlined in section 29.

(e) Where delivery of any grade of iron or steel scrap is made by a rail-truck movement to a consumer lacking adequate facilities for receiving scrap by rail and the truck portion of such movement is made in a truck owned or controlled by the shipper or broker of the scrap, a maximum charge of $1.00 per gross ton may be made for the truck portion of such movement. If the consumer has adequate facilities for receiving such scrap by rail, no charge may be made for the truck portion of such rail-truck movement. Where delivery is made by a truck-rail movement no charge may be added for the truck portion of the movement since the scrap has not reached its shipping point (see section 28 (h)) until it has been placed f. o. b. railroad cars.

ARTICLE III—GENERAL PROVISIONS

SEC. 14. *Superior or inferior grades.* (a) Except upon prior written approval by the Office of Price Administration, Washington (25), D. C., no grade of iron or steel scrap for which premiums are not already provided shall command a premium over the maximum prices established in this regulation for the base grades, No. 1 heavy melting steel, No. 1 railroad heavy melting steel, and No. 1 cupola cast.

(b) Unlisted grades of iron or steel scrap inferior to the base grades mentioned in paragraph (a) of this section shall be priced by the Office of Price Administration, Washington (25), D. C., whenever the seller of such scrap applies for the establishment of an appropriate price.

SEC. 15. *Intransit preparation.* (a) A consumer may designate a dealer or dealers to prepare steel scrap of dealer and industrial origin intransit on a preparation fee basis under the following circumstances:

(1) Where unprepared steel scrap of dealer and industrial origin is allocated for preparation intransit by the War Production Board.

(2) Where a consumer purchases unprepared remote scrap of dealer and industrial origin in rail carload lots.

(3) Where Grade 7 (machine shop turnings) or other grades of long or bushy turnings are allocated in rail carload lots to a consumer by the War Production Board for bundling or briquetting, or where a consumer purchases such turnings in rail carload lots for crushing.

(4) Where Grade 12 (cast iron borings) is allocated to a consumer by the War Production Board for briquetting.

(b) A consumer may designate a dealer or dealers to prepare steel scrap of railroad origin intransit on a preparation fee basis only where a consumer without adequate preparation facilities purchases unprepared steel scrap from an originating railroad.

(c) A consumer may designate a dealer or dealers to prepare cast iron scrap intransit on a preparation fee basis under the following circumstances:

(1) Where Grade No. 2 (cast iron No. 2), Grade No. 3 (cast iron No. 3) or Grade No. 8 (unstripped motor blocks) is allocated by the War Production Board to a consumer lacking adequate facilities for breaking such cast iron.

(2) Where a consumer purchases Grade No. 2 (cast iron No. 2), Grade No. 3 (cast iron No. 3) or Grade No. 8 (unstripped motor blocks) which has its origin in the States comprising Zones A or B as set forth in section 11.

(d) No fee may be paid to the person preparing scrap intransit pursuant to the provisions of this section if the scrap originates in the preparer's yard or if title to the scrap resides in the preparer at any time after the scrap leaves its shipping point, unless such scrap is allocated by the War Production Board.

(e) The maximum preparation fee for preparing any grade of iron or steel scrap intransit shall be the applicable fee established in section 16.

(f) Whenever intransit preparation of iron or steel scrap is permissible pursuant to the provisions of this section, the maximum delivered price shall be the maximum shipping point or maximum on-line price for the unprepared scrap plus the rail transportation charges incurred in moving the scrap to the point of preparation, plus the applicable maximum preparation fee as established in section 16, plus the transportation charges from the preparation yard to the point of delivery as established and restricted in sections 6, 9, 12 or 13, whichever is applicable.

SEC. 16. *Maximum preparation charges.* (a) The maximum fees which may be charged for intransit preparation of any grade of steel scrap of dealer or industrial origin which is allocated to a consumer by the War Production Board shall be as follows:

(1) For preparing into Grade No. 1 (No. 1 heavy melting steel), Grade No. 2 (No. 2 heavy melting steel) or Grade No. 3 (No. 1 busheling), $3.50 per gross ton.

(2) For hydraulically compressing Grade No. 4 (No. 1 bundles), Grade No. 5 (No. 2 bundles) or Grade No. 6 (No. 3 bundles), $4.00 per gross ton.

(3) For hydraulically compressing Grade No. 7 (machine shop turnings), $5.00 per gross ton.

(4) For crushing Grade No. 7 (machine shop turnings), $2.00 per gross ton.

(5) For preparing into Grade No. 27 (briquetted turnings), $5.00 per gross ton.

(6) For preparing into Grade No. 21 (briquetted cast iron borings), $4.00 per gross ton.

(7) For preparing into Grade No. 14 (bar crops and plate scrap), Grade No. 15 (cast steel), Grade No. 16 (punchings and plate scrap), or Grade No. 20 (cut structural and plate scrap, 1 foot and under), $6.00 per gross ton.

(8) For preparing into Grade No. 19 (cut structural and plate scrap, 2 feet and under) or Grade No. 23 (one foot foundry steel), $5.50 per gross ton.

(9) For preparing into Grade No. 18 (cut structural and plate scrap, 3 feet and under) or Grade No. 22 (two foot foundry steel), $5.00 per gross ton.

(10) For hydraulically compressing Grade No. 17 (electric furnace bundles), $5.00 per gross ton.

(11) For preparing into Grade No. 32 (wrought iron), $10.00 per gross ton.

(b) Where remote scrap as defined in section 6 (e) is purchased for intransit preparation, the maximum preparation fee for preparing any grade of unprepared steel scrap shall not exceed $3.50 per gross ton; the maximum preparation fee for hydraulically compressing any grade of bundles shall not exceed $4.00 per gross ton, unless the scrap is allocated by the War Production Board. Where the scrap is allocated by the War Production Board the preparation fees set forth in (a) above will be applicable.

(c) The maximum fees which may be charged for intransit preparation of any grade of steel scrap of railroad origin shall be as follows:

(1) For preparing into Grade No. 1 (No. 1 railroad heavy melting steel) and Grade No. 2 (No. 2 railroad heavy melting steel), $3.50 per gross ton.

(2) For hydraulically compressing Grade No. 19 (No. 1 sheet scrap) and Grade No. 20 (No. 2 sheet scrap), $4.00 per gross ton.

(3) For preparing into Grade No. 23 (cut rails, 3 feet and under), $2.00 per gross ton.

(4) For preparing into Grade No. 24 (cut rails, 18 inches and under), $3.25 per gross ton.

(5) For preparing into Grade No. 27 (cut tires), $2.00 per gross ton.

(6) For preparing into Grade No. 30 (cut bolsters and side frames), $2.50 per gross ton.

(d) The maximum fees which may be charged for intransit preparation of cast iron shall be limited to the following:

(1) For preparing Grade No. 8 (unstripped motor blocks) into Grade No. 7 (clean auto cast), $2.50 per gross ton and Grade No. 3 (heavy breakable cast) into Grade No. 1 (cast iron No. 1), $3.50 per gross ton.

(2) For preparing Grade No. 2 (charging box cast) into Grade No. 1 (cast iron No. 1), $1.00 per gross ton.

(e) Whenever scrap has arrived at its point of delivery, and the consumer engages a dealer to prepare such scrap, no fee may be charged or paid for such service unless the consumer obtains prior written approval from the Office of Price Administration, Washington (25), D. C.

(f) No preparation charge other than the charges set forth in this section may be made for the preparation of any grade of iron or steel scrap unless the consumer has secured prior written approval of such charge from the Office of Price Administration, Washington (25), D. C.

SEC. 17. *Premiums for alloy content.* With the exception of the premiums specifically authorized in this Section or those established in any other price schedule or regulation issued by the Office of Price Administration, no premium may be charged for alloys contained in iron or steel scrap. Except as outlined below the premiums are not confined to a particular use.

(a) *Nickel.* A premium of $1.00 per gross ton for each ¼ of 1% may be charged where the scrap contains not less than 1% and not over 5.25% nickel.

(b) *Molybdenum.* A premium of $2.00 per gross ton may be charged for scrap containing not less than .15% molybdenum. A premium of $3.00 per gross ton may be charged for scrap containing not less than .65% molybdenum.

(c) *Manganese.* A premium of $3.00 per gross ton over the applicable basing point price for No. 1 heavy melting steel or No. 1 railroad heavy melting steel may be charged where scrap contains not less than 10% manganese and is in sizes larger than 12" x 24" x 8". A premium of $7.00 per gross ton over the applicable basing point price for No. 1 heavy melting steel or No. 1 railroad heavy melting steel may be charged where scrap contains not less than 10% manganese and is cut to sizes of 12" x 24" x 8" or smaller. The manganese premiums provided in this paragraph (c) are applicable if the scrap is sold for electric furnace use only.

(d) *Silicon.* The adjustments established under section 4 for electric furnace, and foundry grades shall not be applicable if the scrap contains silicon between .5% and 1.75%.

(e) *Chromium.* Steel scrap conforming to SAE 52100 may command a premium of $1.00 per gross ton when sold for electric furnace use only.

(f) *Multiple alloys.* Where any grade of scrap contains two alloy elements for which premiums have been established in this section, the total premium may not exceed the maximum premium for any one contained alloy.

SEC. 18. *Mixed shipments.* (a) When grades of scrap, other than alloy scrap, commanding different maximum prices under the provisions of this regulation are included in one vehicle (other than a vessel or barge), except as hereinafter provided under paragraph (c) of this section, the maximum price for the scrap in such vehicle shall be the maximum price applicable to the lowest priced grade in the vehicle.

(b) The limitations set forth in paragraph (a) of this section shall not affect shipments involving vessel or barge movement if each grade commanding a different maximum price under the provisions of this regulation is segregated in the vessel or barge.

(c) Where one vehicle contains exclusively grades of scrap for which premiums for alloy content are established under section 17 of this regulation, the alloy premiums shall only apply if each different grade alloy scrap is segregated in the vehicle, in which event, the limitations contained in paragraph (a) of this section shall not apply.

(d) Where one vehicle contains exclusively alloy scrap for which a premium has been established for a single alloy under section 17 of this regulation, the amount of the maximum premium may be determined by the use of the average analysis of such alloying element in that vehicle, provided, that such average analysis meets the requirements set forth in section 17.

SEC. 19. *Commissions.* (a) No commission shall be payable on sales made under this regulation except by a consumer to a broker for brokerage services rendered to the consumer. Where scrap is allocated by the War Production Board, other than from a governmental agency, the seller may designate a broker. Where scrap is allocated by the War Production Board from a governmental agency, the consumer may designate a broker. In the event that a broker purchases iron or steel scrap for sale to a consumer, such consumer may pay such broker a commission not exceeding 50¢ per gross ton, except that for grades of scrap commanding a premium for nickel content the maximum commission shall be $1.00 per gross ton. No commission shall be payable unless—

(1) The broker is regularly and primarily engaged in the business of buying and selling iron and steel scrap;

(2) The broker guarantees the quality and delivery of an agreed tonnage of scrap;

(3) The scrap is purchased by the consumer at a price no higher than the applicable maximum price established in this regulation;

(4) The broker sells the scrap to the consumer at the same price, with the same discounts and allowances, at which he purchased it, and does not include in the shipping point price any cost, fee, or charge incurred in placing the scrap at its shipping point;

(5) The broker does not split or divide the commission in whole or in part, with the seller or sellers of the scrap, or with another broker, or sub-broker, or with the consumer;

(6) The commission is shown as a separate item on the invoice;

(b) No commission shall be payable to a person for scrap which he prepares: *Provided, however,* That whenever intransit preparation is permitted by any provision of this regulation, a broker may charge a commission notwithstanding the fact that he also prepares the scrap.

(c) No commission shall be payable to a person controlling, or holding directly or indirectly a substantial financial interest in the person preparing the scrap, or to a person employed or controlled by the person preparing the scrap, or to a

person in whom the person preparing the scrap holds directly or indirectly a substantial financial interest or control.

SEC. 20. *Unprepared scrap.* (a) The term "unprepared scrap" shall have its customary trade meaning and shall not include such demolition projects as bridges, box cars or automobiles, which must be so priced that the prepared scrap will be delivered to the consumer within the maximum delivered prices established by this regulation.

(b) For unprepared steel scrap other than materials suitable for hydraulic compression, the maximum basing point prices shall be $3.50 per gross ton beneath the price of the prepared base grades, No. 1 heavy melting steel or No. 1 railroad heavy melting steel, as established in section 3 or 7.

(c) That unprepared material which when compressed constitutes a No. 1, No. 2 or No. 3 bundle shall be priced at $4.00 per gross ton beneath the price for those prepared grades as established in section 3.

(d) The tin cans or other tin or terne coated material from which Grade No. 30 (tin can bundles) is constituted shall be priced at $3.50 per gross ton less than the price established for that prepared grade in section 3.

(e) Any iron casting which cannot be broken with an ordinary drop into Grade No. 2 (cast iron No. 2) or Grade No. 1 (cast iron No. 1) as established in section 11, may not be classified as Grade No. 3 (cast iron No. 3). Where such iron casting requiring blasting or other special preparation is sold to a consumer of scrap, the shipping point price for Grade No. 3 (cast iron No. 3) as established in section 11 must be reduced by the amount of the additional charges required for preparation.

SEC. 21. *Transportation charges.* (a) The rail or vessel charges, or combination rail-vessel charges, used in computing maximum shipping point or maximum on-line prices in sections 4 or 8 of this regulation need not reflect any increase in rates which became effective after March 14, 1942, nor need such charges reflect any transportation tax.

(b) Any tax imposed upon the transportation charges from the shipping point to the point of delivery, may be included in the maximum delivered price.

(c) No vessel charge shall be deemed an established charge within the provisions of this Regulation unless regular vessel movement of scrap, except for seasonal or wartime restrictions, is or has been made to the most favorable basing point since January 1, 1940, as a customary business practice of scrap shippers located at the shipping point involved.

(d) Where rail or vessel charges vary because of seasonal factors, the lowest established charge shall be the lowest charge in effect at any time during the year.

SEC. 22. *Weights to govern.* (a) Except as otherwise provided in this section, settlement for all scrap shall be made on the basis of weights at the point of delivery.

(b) *Rail shipments.* If the consumer is a member of a weighing association, settlement shall be on the basis of mill weights. If the consumer does not have weighing facilities, settlement shall be made on the basis of railroad weights at the point of delivery.

No adjustment need be made for shortages of 500 pounds or less per car between shipping point weights and weights at the point of delivery. If the shortage exceeds 500 pounds per car, adjustment must be made for the full shortage.

(c) *Vessel shipment.* When shipment is wholly or partially by vessel, weights at the dock prior to vessel movement shall govern. If the scrap moves from the shipping point to the dock by rail and weights at the shipping point have been determined, no adjustment need be made for differences of 500 pounds or less per car between shipping point weights and weights at the dock. If the difference exceeds 500 pounds per car, adjustment must be made for the full shortage in the car.

(d) Settlement for scrap purchased from the Navy may be made on the basis of shipping point weights.

ARTICLE IV—SPECIFICATIONS

SEC. 23. *Steel grades of dealer and industrial origin.* All grades must be free of dirt, non-ferrous metals or foreign material of any kind and free of excessive rust and corrosion.

BASIC OPEN HEARTH AND BLAST FURNACE GRADES

1. *No. 1 heavy melting steel.* Clean wrought iron or steel scrap ¼ inch and over in thickness, not over 18 inches in width and not over 5 feet in length. Individual pieces must be free from attachments, and so cut as to lie flat in the charging box. May include heavy forgings, forge butts, billet, bloom, slab or bar crops not conforming to chemical analysis required for electric furnace or acid open hearth use. May include new mashed pipe ends, original diameter 4 inches and over. May not include auto body and fender stock.

2. *No. 2 heavy melting steel.* Wrought iron or steel scrap, black or galvanized, ⅛ inch and over in thickness, not over 18 inches in width and not over 5 feet in length. (Uncut bumpers and front axles of passenger automobiles, and uncut rear ends of passenger automobiles free of wheels and brake assemblies and drained of oil, may be included even though over 5 feet in length). Individual pieces must be free from attachments and so cut as to lie flat in the charging box. May include pipe; heavy oil field or similar cable not less than 1 inch in diameter and cut to lengths of 3 feet or less; and car sides and light plate cut 15 inches by 15 inches or under. May not include auto body and fender stock.

3. *No. 1 busheling.* Clean wrought iron or steel scrap ⅛ inch and over in thickness, not exceeding 12 inches in any dimension, including new factory busheling 20 gauge or heavier, (for example, sheet clippings, stampings, etc.) and steel cartridge cases 40 MM or less. May not contain burnt material or auto body and fender stock. Must be free of metal coated, limed or porcelain enameled stock.

4. *No. 1 bundles.* New black steel sheet scrap, clippings, or skeleton scrap, hydraulically compressed or hand bundled to charging box size and weighing not less than 75 pounds per cubic foot. (Hand bundles must also be tightly secured and stand handling with a magnet). Must be free of paint or protective coating of any kind. May include Stanley balls, or mandrel wound bundles or skeleton reels, tightly secured. May not include detinned scrap, electrical sheets, or any material over 0.5% of silicon.

5. *No. 2 bundles.* Body and fender scrap, or similar black sheet scrap, hydraulically compressed to charging box size and weighing not less than 75 pounds per cubic foot. May include chemically detinned material. No tin can will be deemed to be detinned unless it has undergone the chemical process for the removal and recovery of tin. May not include galvanized, vitreous enameled stock tin plate, terne plate, or other metal coated material. Painted or lacquered material shall not be considered as coated material. May include hydraulically compressed uncoated fence wire and light coil springs.

6. *No. 3 bundles.* Galvanized sheet scrap or galvanized wire compressed into charging box size weighing not less than 75 pounds per cubic foot. May include black sheet scrap bundles weighing less than 75 pounds per cubic foot and hand baled cotton ties, provided such bundles will stand handling with a magnet. May not include terne plate or vitreous enameled stock.

7. *Machine shop turnings.* Clean steel or wrought iron turnings free of cast or malleable iron borings, non-ferrous metals in a free state, scale or excessive oil. May not contain badly rusted or corroded stock.

7(a) *Baled machine shop turnings.* Machine shop turnings hydraulically compressed into bundles weighing not less than 75 pounds per cubic foot. May include not over 25% by weight black sheet scrap used for binding or wrapping purposes.

8. *Mill scale.* Iron oxide produced in rolling mill, forge shop practice or other heat treating operations; containing not less than 65% metallic iron.

9. *Mixed borings and turnings.* Shoveling turnings mixed with cast or malleable iron borings and drillings, free of scale or excessive oil or non-ferrous metals in a free state. May not contain badly rusted or corroded stock.

10. *Shoveling turnings.* Clean short steel or wrought iron turnings, drillings or screw cuttings. May include any such material whether resulting from crushing, raking or other processes. Must be free of springy, bushy, tangled or matted material, lumps, non-ferrous metals in a free state, scale, grindings, or excessive oil.

11. *No. 2 busheling.* Cut hoops, netting, cut, unbaled fence wire, light sheets, rusted car sides, cotton ties, and galvanized light material. No dimension over 12 inches. May be black or galvanized. May include oil field or similar cable cut to lengths of 2 feet or less and machine gun clips. No hard steel, porcelain enameled, or metal coated material may be included.

12. *Cast iron borings.* Clean cast iron or malleable iron borings and drillings, free of steel turnings, scale, lumps and excessive oil.

ELECTRIC FURNACE AND FOUNDRY GRADES

13. *Billet, bloom and forge crops.* Billet, bloom, axle, slab, heavy plate and heavy forge crops, not over 0.05% phosphorus or sulphur and not over 0.5% silicon, free from alloys. Must not be less than 2 inches in thickness, not over 18 inches in width and not over 36 inches in length. Must be new material delivered to the consumer directly from the industrial producer.

14. *Bar crops and plate scrap.* Bar crops, plate scrap, forgings, flashings, bits, jars and tool joints, containing not over 0.05% phosphorous or sulphur, not over 0.5% silicon, free from alloys. Must not be less than 2 inches in thickness not over 18 inches in width and not over 36 inches in length, except that plate scrap may not be less than ½ inch thick and that flashings may be of any thickness but may not exceed 2 feet in length.

15. *Cast steel.* Steel castings not over 48 inches long, 18 inches wide and ¼ inch in thickness, containing not over 0.05% phosphorus or sulphur, free from alloys and attachments. May include heads, gates and risers.

16. *Punchings and plate scrap.* Punchings or stampings, plate scrap and bar crops containing not over 0.05% phosphorous or sulphur and not over 0.5% silicon, free from alloys. All material must be cut 12 inches and under and with the exception of punchings or stampings must be at least ⅛ inch in thickness. Punchings or stampings may not be less than ¼ inch or more than 6 inches in diameter.

17. *Electric furnace bundles.* New black steel sheet scrap hydraulically compressed into bundles 14 x 14 x 20 inches or smaller.

18. *Cut structural and plate scrap, 3 feet and under.* Clean open hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch in thickness, not over 3 feet in length and 18 inches in width. Must not contain over 0.05% phosphorus or sulphur.

19. *Cut structural and plate scrap, 2 feet and under.* Clean open hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch in thickness, not over 2 feet in length and 18 inches in width. Must not contain over 0.05% phosphorus or sulphur.

20. *Cut structural and plate scrap, 1 foot and under.* Clean open hearth steel plates, structural shapes, crop ends, shearings, or broken steel tires. Must be not less than ¼ inch in thickness or over 1 foot in length or width. Must not contain over 0.05% of phosphorus or sulphur.

21. *Briquetted cast iron borings.* Cast iron borings, Grade 12, compressed into a cohesive solid, reasonably free from oil, each briquette to weigh not more than 20 pounds and to have a density of not less than 60 per cent.

22. *Foundry steel, 2 feet and under.* Steel scrap ⅛ inch and over in thickness, not over 2 feet in length or 18 inches in width. Individual pieces must be free from attachments. May not include nonferrous metals, metal coated material, cast or malleable iron, wrought iron, pipe, body and fender stock, cable, enameled or galvanized material.

23. *Foundry steel, 1 foot and under.* Steel scrap ⅛ inch and over in thickness, not over 1 foot in length or width. Individual pieces must be free from attachments. May not include non-ferrous metals, metal coated material, cast or malleable iron, wrought iron, pipe, body and fender stock, cable, enameled or galvanized material.

24. *Springs and crank shafts.* Clean automotive springs and crankshafts, either new or used.

25. *Alloy free turnings.* New, short, clean steel turnings free from lumps, tangled or matted material, cast iron borings, or excessive oil, containing not more than 0.05% phosphorus or sulphur and free of alloys. Must be delivered to the consumer directly from the industrial producer.

26. *Heavy turnings.* Short, heavy steel turnings, containing not over 0.05% phosphorus or sulphur and free of alloys. May include rail chips. May not include machine shop or other light turnings and must weigh not less than 75 pounds per cubic foot in the original state of production. Must be delivered to the consumer directly from the industrial producer.

SPECIAL GRADES

27. *Briquetted turnings.* Steel turnings compressed into a cohesive solid, reasonably free from oil, each briquette to weigh not more than 20 pounds and to have a density of not less than 60 percent.

28. *No. 1 chemical borings.* New clean cast or malleable iron borings and drillings containing not more than 1% oil, free from steel turnings, or chips, lumps, scale, corroded or rusty material.

29. *No. 2 chemical borings.* New clean cast or malleable iron borings and drillings, containing not more than 1.50% oil, free from steel turnings, or chips, lumps, scale, corroded or rusty material.

30. *Tin can bundles.* Must be exclusively tin coated or tin alloyed material, reasonably clean, with all contents removed, hydraulically compressed into charging box size. Minimum weight, 75 pounds per cubic foot.

31. *Welding rod butts.* The remnants of iron and steel welding rods used in welding.

32. *Wrought iron.* Clean wrought iron scrap, free of steel and with rivets and attachments removed. May include wrought iron structural shapes, plates, bars, pipe, staybolts or any other material known to have been manufactured from wrought iron.

33. *Shafting.* Random length shafting suitable without further preparation for rerolling, or forging. Must be reasonably straight and free of attachments.

SEC. 24. *Steel grades of railroad origin.*

1. *No. 1 railroad heavy melting steel.* (A. A. R. No. 24). Steel scrap ¼ inch and over in thickness, not over 18 inches in width, and not over 5 feet long. Individual pieces must be cut into such shape that they will be free from attachments, and will lie reasonably straight and compact in a charging box. Cut boiler plate must be practically cleaned of lime, free from staybolts. May include structural shapes, plates, rods, and bars ½ inch and heavier, steel castings, heavy chain, heavy forgings, forged butts and similar heavy material. This grade may also include new mashed pipe ends, original diameter four inches and over, thoroughly flattened, sheet bars, billets, blooms, rail ends, railroad steel and wrought scrap, such as angle and slice and splice bars, couplers, knuckles, draw bars, cut cast steel bolsters, coil and leaf springs (all coil springs to be ⅝ inch or larger diameter). No needle or skeleton plate scrap, agricultural shapes, annealing pots, boiler tubes, grate bars, cast iron, malleable iron, or curly or unwieldly pieces may be included. Must be free from dirt, excessive rust or scale or foreign material of any kind.

2. *No. 2 railroad heavy melting steel.* (A. A. R. No. 25). Plate scrap, such as car sides, ¼ inch or over in thickness. Punchings ⅛ inch and over in thickness, heavy clippings, new unmashed pipe ends under 4 inches in diameter. Car sides and all light plate to be sheared 15 inches by 15 inches or under and all light rods to be 12 inches and under in length. Any curved or twisted pieces must be sheared in such shape that they will lie reasonably flat in a charging box and not tangle in handling with a magnet, all to be free from cast iron, malleable iron, burnt scrap, dirt or foreign material of any kind. Maximum size 15 inches wide by 3 feet long.

3. *Wrought iron and soft steel.* (A. A. R. Nos. 43 and 44). Wrought iron and/or soft steel from railroad chops and cars, including iron links and pins. Flats ¼ inch thick and over, rounds and/or squares ⅜ inch thick and over. May include tie plates, track bolts, spikes and nuts. All to be free from steel shapes, plates and riveted materials. Maximum size 18 iches wide by 5 feet long.

4. *No. 2 steel wheels.* (A. A. R. No. 41). Includes all kinds of built up or steel tired wheels 36 inches and under.

5. *Axles, iron and/or steel.* (A. A. R. Nos. 4 and 5). Hollow bored steel axles. Railroad car/and/or locomotive axles, A. A. R. and M. C. B. sizes, and free from defective or imperfect forgings. No axles to be included of shorter length than distances between wheel seats.

6. *No. 1 busheling.* (A. A. R. No. 10). Clean iron and/or soft steel pipes and/or flues, tank and/or bands, No. 12 gauge and heavier, steel plate puchings and/or clippings, soft steel and/or iron forgings and/or flashings. No dimension over 8 inches. To be free from burnt material, hard steel, cast, malleable and metal coated material of any kind.

7. *No. 2 busheling.* (A. A. R. No. 10–A). Netting, sheet and/or similar light material, lighter than No. 12 gauge. No dimension over 8 inches. To be free from hard steel, cast and metal coated material of any kind.

8. *No. 1 turnings.* (A. A. R. No. 38). Heavy turnings from wrought iron and/or steel railroad axles or heavy forgings and/or rail chips, to weigh not less than 75 pounds per cubic foot. Free from dirt or other foreign material of any kind.

9. *No. 2 Turnings, drillings, and borings.* (A. A. R. No. 39) Cast, wrought, steel and/or malleable iron borings, turnings, and/or drillings mixed with other metals.

10. *Iron arch bars.* (A. A. R. No. 1) Railroad iron arch, transom, and/or tie bars, uncut.

11. *Steel arch bars.* (A. A. R. No. 1–A). Railroad steel arch, transom, and/or tie bars, uncut.

12. *Boilers, fire boxes and tanks.* (A. A. R. No. 8). Iron or steel boiler or tank plate cut apart sufficiently to load (with or without staybolts).

13. *No. 2 cast steel* (A. A. R. No. 11). Steel castings over 18 inches wide and over 5 feet long.

14. *Uncut frogs and switches.* (A. A. R. No. 18). Steel and/or iron frogs and switches that have not been cut apart, exclusive of manganese.

15. *Flues, tubes and pipe.* (A. A. R. No. 21). Wrought iron and/or soft steel. Must be free from dirt, excessive corrosion or lime and riveted seams. Fitting attached permitted.

16. *Limed iron and steel.* (A. A. R. No. 22). All kinds of iron or steel material from interior of boilers. (Except flues which are encrusted with lime, such as crown bars, crown bar bolts, staybolts, etc.)

17. *Structural wrought iron and/or steel, uncut.* (A. A. R. No. 35). All steel or steel mixed with iron from bridges, structures and/or equipment that has not been cut apart; may include uncut bolsters, brake beams, steel trucks, underframes, channel bars, steel bridge plates, frogs and/or crossing plates and/or other steel of similar character.

18. *Destroyed cars and locomotive tenders.* (A. A. R. No. 45). Includes bodies of steel cars cut apart sufficiently to load; excludes trucks and/or cast steel underframes.

19. *No. 1 sheet scrap.* (A. A. R. No. 30). Under ¼ inch thick, consisting of cut stacks and/or stack netting, hoops, band iron and/or steel, pressed steel, hand car wheels, scoops and/or shovels (free of wood), and/or wire rope, all sizes. Must be free from burnt or metal coated material, cushion and other similar springs and lime encrusted pipe and flues from boilers.

20. *No. 2 sheet scrap.* (A. A. R. No. 31). Includes netting (other than stack wire) and/or galvanized material, composition brake shoes and/or gas retorts.

21. *Scrap rails in random lengths.* (A. A. R. No. 29). Standard section tee girder, or guard rails; to be free from frogs and switch rails not cut apart, and contain no manganese, cast welds or attachments of any kind except angle bars. Free from concrete, dirt and foreign material of any kind.

22. *Rerolling rails.* (A. A. R. No. 27). Standard section tee rails, original weight 50 pounds per yard or heavier, five feet long and over. Suitable for rerolling into bars and shapes. Free from bent and twisted rails, frog, switch and guard rails, or rails with split heads and broken flanges.

23. *Cut rails 3 feet and under.* (A. A. R. No. 28). Cropped rail ends 3 feet and under in length. Free from angle bars, splice bars, tie plates, concrete, dirt or other foreign material.

24. *Cut rails 18 inches and under.* Cropped rail ends 18 inches and under in length. Free

from angle bars, splice bars, tie plates, concrete, dirt, or other foreign material.

25. *Cast steel No. 1.* (A. A. R. No. 11–A). Steel castings cut to charging box size, not over 5 feet in length or 18 inches in width. No piece weighing less than 10 pounds to be included.

26. *Uncut tires.* (A. A. R. Nos. 36 and 37). Locomotive or car tires, uncut.

27. *Cut tires.* (A. A. R. Nos. 36 and 37). Locomotive or car tires, cut to lengths of 3 feet and under.

28. *Iron arch bars, 3 feet and under.* (A. A. R. No. 1). Railroad iron arch, transom and/or tie bars cut 3 feet and under.

29. *Uncut bolsters and side frames.* (A. A. R. No. 9). Cast steel bolsters and/or truck side frames, uncut.

30. *Cut bolsters and side frames.* Cast steel bolsters and/or truck side frames, cut to charging box size, 5' by 18" or smaller.

31. *Angle and splice bars.* (A. A. R. No. 6). Fish plates and/or patented joints, iron or steel.

32. *Solid steel axles.* (A. A. R. Nos. 2 and 3). Solid car and/or locomotive steel axles. (Free from axles with keyway between wheel seats; no axles of shorter lengths than distance between wheels seats to be included.)

33. *No. 3 steel wheels.* (A. A. R. No. 42). Solid cast steel, forged, pressed, or rolled steel car and/or locomotive wheels, not over 42 inches in diameter.

34. *Spring steel.* (A. A. R. Nos. 34 and 34–A). Coil springs made of material not less than ¾ inch in diameter. Elliptical springs made of material not less than ¼ inch in thickness, not over 18 inches wide. May be assembled or cut apart.

35. *Couplers and knuckles.* (A. A. R. No. 17). Railroad car and/or locomotive steel couplers, knuckles, and/or locks stripped clean of all other attachments.

SEC. 25. *All cast iron grades.*

1. *Cast iron No. 1 (cupola cast).* Clean cast iron scrap such as columns, pipes, plates and castings of a miscellaneous nature, including the cast iron parts of agricultural machinery. Must be free from stove plate, burnt iron, brake shoes, or foreign material. Must be cupola size, not over 24 inches by 30 inches, and no piece to weigh over 150 pounds.

2. *Cast iron No. 2 (charging box cast).* Clean cast iron scrap in sizes not over 5 feet in length or 18 inches in width, suitable for charging into an open-hearth furnace without further preparation. Must be free from burnt iron, brake shoes or stove plate.

3. *Cast iron No. 3 (heavy breakable cast).* Cast iron scrap over charging box size or weighing more than 500 pounds and which can be broken by an ordinary drop into cupola size. May include cylinders, driving wheel centers, but may not include hammer blocks or bases. May include steel which is an integral part of the casting, which does not protrude more than 6 inches and which does not exceed 10% of the weight of the casting.

4. *Cast iron No. 4 (burnt cast).* Burnt cast iron scrap such as stove parts, grate bars and miscellaneous burnt iron. Includes sash weights or window weights.

5. *Cast iron brake shoes.* Driving and/or car brake shoes of all types except composition filled shoes.

6. *Stove plate.* Clean cast iron stove plate. Must be free from malleable and steel parts, window weights, plow points or burnt cast.

7. *Clean auto cast.* Clean auto blocks, free of all steel parts except camshafts, valves, valve springs and studs.

8. *Unstripped motor blocks.* Automobile or truck motors from which steel and nonferrous fittings have not been removed. Must be free from drive shafts, differentials and parts of frames.

9. *Wheels, No. 1.* Cast iron railroad car or locomotive wheels.

10. *Malleable.* Malleable parts of automobiles, railroad cars, locomotives or miscellaneous malleable iron castings. Must be free of cast iron and steel parts and other foreign material.

ARTICLE V—MISCELLANEOUS PROVISIONS

SEC. 26. *Imported scrap.* (a) (1) Imported scrap, when imported by a consumer or his broker, is at its shipping point when it has been placed f. o. b. carrier for delivery to the consumer at its port of entry (when imported by vessel movement), or, if imported by other than vessel movement, when it has reached its point of entry (the point of entry shall be that city at or nearest the point where the carrier crosses the border between the United States and the foreign country from which the scrap was exported).

(2) Imported scrap when imported by a dealer and delivered to the dealer's yard shall be at its shipping point when it has been placed f. o. b. carrier at the dealer's yard.

(b) Imported scrap is at its point of delivery to a consumer when it has arrived for unloading at the consumer's plant.

(c) When imported scrap has arrived at its shipping point as defined, in this section, it shall be subject to the maximum shipping point or on-line prices established in sections 4, 8, 10 or 11, whichever is applicable, and subject to any and all other provisions found in this regulation, except that:

(1) The mixed shipment provision shall not be applicable to scrap imported by vessel;

(2) The springboard limitations contained in section 9 shall not be applicable;

(3) The in-transit preparation provisions contained in this regulation shall not be applicable unless in-transit preparation for a named consumer is specifically authorized by the War Production Board at the time it grants an import license for such scrap.

SEC. 27. *Exported scrap.* The maximum export price for any grade of iron or steel scrap shall be the maximum shipping point or on-line price as established in sections 4, 8, 10 or 11, whichever is applicable, plus all transportation charges allowable under the appropriate section, to the place of export. For scrap exported by vessel, this maximum export price shall be f. a. s. vessel at the place of export, and the actual cost incidental to shipment and export from that point may be added, if shown as separate charge on the invoice.

SEC. 28. *Definitions.* (a) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Iron and steel scrap" means all ferrous materials, other than pig iron as defined in Revised Price Schedule 10, either alloyed or unalloyed, of which iron or steel is a principal component, which are the waste of industrial fabrication, or objects that have been discarded on account of obsolescence, failure or any other reason, when sold to a consumer as defined in paragraph (c) of this section, or his broker.

(c) "Consumer" means a purchaser of iron or steel scrap for use in the production of iron or steel products by melting, rerolling, forging, or machining; or any person purchasing iron or steel scrap for use as a reduction agent in the production of chemicals or pigments, for use in the production of non-ferrous materials, for use as ballast or counterweights, or for annealing; and which includes any governmental agency or subdivision other than the Reconstruction Finance Corporation, its subsidiaries or agencies.

(d) "Operating railroad" means a railroad, terminal association, or switching company which operates a railway line and derives at least a portion of its revenue from the carrying of freight.

(e) "Non-operating railroad" means all steam and electric railroads other than operating railroads, as defined in paragraph (d) of this section, and includes suburban and interurban electric railroads, street railways, refrigerator car, stock car, sleeping car and tank car companies engaged primarily in the transportation business, but does not include mine or logging roads.

(f) "Imported scrap" means all iron and steel scrap having a point of origin outside the 48 states of the United States and the District of Columbia.

(g) "Free of alloys" means that any alloys contained in the steel are residual and have not been added for the purpose of making an alloy steel. Steel scrap will be considered free of alloys where the residual alloying elements do not exceed the following amounts:

	Percent
Nickel	0.45
Chromium	.20
Molybdenum	.10
Manganese	1.65

and where the combined residuals other than the manganese do not exceed a total of .60%.

(h) Lowest established charges. The term "lowest established charges for transporting scrap" shall mean the rail or vessel freight rate for transporting material generally classified as iron or steel scrap and shall not refer to freight charges for transporting any special grade thereof.

(i) "Shipping point". Scrap is at its shipping point in the case of all-rail, rail-vessel, rail-truck or truck-rail movement when it has been placed f. o. b. railroad cars for shipment to the consumer; in the case of all-vessel, vessel-rail or vessel-truck movement, when it has been placed f. a. s. vessel for shipment to the consumer; and in the case of all-truck movement, when it has been placed f. o. b. truck for shipment to the consumer.

(j) "Point of delivery" shall mean that point at which scrap has arrived for unloading at the plant of the consumer.

(k) "Dealer and industrial origin" shall mean all sources of scrap other

[8 F.R. 13240.
[8 F.R. 13241.

than railroads as defined in this regulation.

SEC. 29. *Records and reports.* (a) Every person making a sale of iron or steel scrap to a consumer or a broker and every consumer or broker purchasing iron or steel scrap shall keep for inspection by the Office of Price Administration for a period of not less than one year, complete and accurate records of each such sale or purchase: the date thereof, the name and address of the buyer or seller, the shipping point price (or in the case of railroad sellers, the on-line price), the quantity in pounds, the quality in grades as defined in the applicable section, the method of transportation used from shipping point to point of delivery, the delivered price and the commission, if any, involved in the sale.

(b) Buyers and sellers of iron or steel scrap affected by this regulation shall submit such further reports to the Office of Price Administration as may from time to time be required.

(c) Where shipment of scrap to the consumer or his broker involves rail or water movement, the shipper must execute and mail to the consumer or his broker a shipping notice simultaneously with the shipment of the scrap. Such shipping notice must contain the date of shipment, number and initial of the car or name of vessel, the consumer's and/or broker's purchase order number, the specific grade or grades of scrap as they are designated in the applicable section of this regulation and the signature of the shipper or his duly authorized representative.

SEC. 30. *Less than maximum prices.* Lower prices than those established by this regulation may be charged, demanded, paid or offered.

SEC. 31. *Evasion.* The provisions of this regulation shall not be evaded by direct or indirect means.

SEC. 32. *Licensing and registration*—(a) *Licensing.* The provisions of Licensing Order No. 1[1], licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(b) *Registration.* The provisions of Licensing Order No. 2[2] are applicable to every dealer subject to this Maximum Price Regulation 4 selling iron and steel scrap to a consumer or his broker. In this section and this section only, the term "dealer" shall have the meaning given to it by Licensing Order No. 2.

SEC. 33. *Enforcement.* Persons violating any provision of this regulation are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942, as amended.

SEC. 34. *Petitions for amendment.* Any person seeking an amendment of any provisions of this regulation may file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1.[3]

This regulation shall become effective the 5th day of July 1944.

NOTE: All reporting and record-keeping requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of June 1944.

PART 1372—SEASONAL COMMODITIES

[RMPR 298]

ROTENONE AND PYRETHRUM

Maximum Price Regulation 298 is redesignated Revised Maximum Price Regulation 298 and is revised and amended to read as set forth herein. Revised MPR 298 now establishes maximum prices for rotenone at levels other than retail which were covered by MPR 298 and also for pyrethrum at levels other than at retail. Prices for pyrethrum at these levels were formerly governed by the General Maximum Price Regulation.

In the judgment of the Price Administrator, the maximum prices established by this revised regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. So far as practical, the Price Administrator has advised and consulted with the members of the industry affected by this revised regulation.

Such standards and specifications as are used in this revised regulation were, prior to such use, in general use in the industry affected.

A statement of the considerations involved in the issuance of this revised regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Appendix A—Maximum prices for rotenone and rotenone products.
Appendix B—Maximum prices for pyrethrum and pyrethrum products.

AUTHORITY: Secs. 1 to 8, inclusive (§ 1372.151), issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R 4681.

SECTION 1. *Applicability.* (a) Except as provided in paragraph (b) of this section with reference to emergency sales to the United States and its agencies and paragraph (c) of this section with reference to export sales, this regulation shall apply to all sales other than at retail of rotenone and pyrethrum and of rotenone and pyrethrum products, whether sold for immediate or future delivery, within the District of Columbia and the 48 states of the United States.

(b) *Emergency purchases.* This regulation shall have no application to any purchases by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

(c) This regulation shall have no application to export sales of rotenone and pyrethrum and rotenone and pyrethrum products. The maximum price of such sales shall be determined in accordance with the provisions of the Second Revised Export Price Regulation.

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver other than at retail, and no person in the course of trade or business shall buy or receive other than at retail rotenone and pyrethrum and rotenone and pyrethrum products at a price above the maximum price established by Appendices A and B of this regulation for such sale, nor shall any person agree to solicit, offer or attempt to do any of the foregoing. This prohibition, however, is subject to the provision for adjustable pricing contained in paragraph (b) of this section, the exception for emergency purchases by the United States and its agencies contained in paragraph (b) of section 1 and the exception for export sales contained in paragraph (c) of section 1.

(b) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by an order of the Administrator or any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(c) Prices lower than the maximum prices established by this regulation may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a seller obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price is an evasion of this regulation, and therefore prohibited; and any offer or agreement which accomplishes or attempts to accomplish such a result is equally prohibited; except, that the foregoing does not prohibit practices which were customary either to the seller or to the trade prior to April 1, 1942 of requiring the buyer to purchase combinations of commodities or of requiring the buyer to sell back to the seller other commodities or the same commodity; *Provided,* All such sales and purchases are at the market price, not exceeding the maximum price.

SEC. 4. *Records and reports.* (a) Each person selling within the continental United States rotenone and pyrethrum and rotenone pyrethrum products other than at retail, shall preserve and keep for inspection by the Office of Price Administration, for as long a period as the Emergency Price Control Act of 1942, as amended, remains in effect, all available records, customarily kept, of prices, costs, pricing methods, delivery charges, allowances and discounts, on all sales of such products made by such seller since January, 1941.

(b) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require, subject to the approval of the Bureau of the Budget, in accordance with Federal Reports Act of 1942.

SEC. 5. *Enforcement.* Persons violating any provisions of this regulation are subject to the license revocation or suspension provisions, civil enforcement actions, suits for treble damages and criminal penalties, provided in the Emergency Price Control Act of 1942, as amended.

SEC. 6. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of any one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 7. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment of any provision of this regulation may file a protest or petition for amendment in accordance with the provisions of revised Procedural Regulation No. 1[1] issued by the Office of Price Administration.

SEC. 8. *Definitions.* (a) When used in this Revised Maximum Price Regulation No. 298, the term:

(1) "Rotenone" means the chemical compound having the formula $C_{23}H_{22}O_6$.

(2) "Crude rotenone" means the rotenone which would be indicated as present in the rotenone bearing material by the Seil analytical method, in which the rotenone content is calculated from the weight of crude solvate.

(3) "Pure rotenone" means rotenone which would be indicated as present in the rotenone-bearing material by the analytical method developed by Jones and Graham and adopted as "official, first action" by the Association of Official Agricultural Chemists.

(4) "Chemically pure rotenone" means crystals of pure rotenone $C_{23}H_{22}O_6$.

(5) "Rotenone powder" means ground rotenone root, sufficiently fine so that 90 per cent of the ground material will pass through a 200-mesh sieve. "Powder" includes a blend of two or more lots of ground root but does not include material containing any substance other than ground rotenone-bearing root.

(6) "Rotenone resin" means the dry, undiluted product, consisting of rotenone and rotenoids, which is extracted from rotenone bearing material with the usual commercial solvent.

(7) "Rotenone liquid extracts" means rotenone resins in solution.

(8) "Technically pure rotenone" means crystals containing at least 90 per cent pure rotenone.

(9) "Rotenone solvate", as used in this regulation, means a compound of rotenone and carbon tetrachloride containing at least 71 per cent pure rotenone.

(10) "Rotenone roots" means roots dug from the ground such as timbo, barbasco, cube or derris root whether whole, chopped or ground, except rotenone powder as defined in paragraph (5) of this section.

(11) "Pyrethrins" means the active principles of pyrethrum flowers including Pyrethrin I ($C_{21}H_{28}O_3$) and Pyrethrin II ($C_{22}H_{28}O_5$), indicated as present in the pyrethrum product by the Seil analytical method.

(12) "Pyrethrum flowers" means the dried flowers of various species of the genus Chrysanthemum, family Compositae, having commercial value for use as insecticides.

(13) "Finely ground pyrethrum powder" means the ground pyrethrum flowers of a fineness suitable for use in finished insecticides.

[1] 7 F.R. 8961, 8 F.R. 3313, 3533, 6173, 11806, 9 F.R. 1594, 3075.

(14) "Flowers ground for percolation" means the coarsely ground pyrethrum flowers as prepared for purposes of extracting the pyrethrins.

(15) "Exhausted flowers" means the part of the pyrethrum flower remaining after extraction of most of the pyrethrins.

(16) "Pyrethrum dust base" means a dry powder prepared by coating or impregnating clay, talc or any other more or less inert material with pyrethrins.

(17) "Oleoresins or unpurified pyrethrum concentrates" means the extractives of pyrethrum flowers, including pyrethrins and varying amounts of solvent.

(18) "De-waxed or purified pyrethrum concentrates" means the extracted pyrethrins isolated from impurities to the extent necessary to comply with the specifications for use in insecticides by the Armed Services.

(19) "Pyrethrum liquid extracts" means solutions of pyrethrum extractives standardized according to pyrethrins content.

(20) "Unfinished products" means preparations of rotenone or pyrethrum, as the context may imply, which are not commonly used as finished insecticides but which may be materials in the manufacture of finished insecticides.

(21) "Finished insecticides" means products containing rotenone or pyrethrum, as the context may imply, and used for control of insects, when sold in a form commonly purchased by consumers.

(22) "Unit" means 1 per cent by weight.

(23) "Processor" means any person who purchases rotenone bearing roots, rotenone powder and pyrethrum flowers from the Foreign Economic Administration. A processor may also be a manufacturer.

(24) "Manufacturer" means any person who grinds, extracts, mixes, reconditions or otherwise processes rotenone bearing roots or pyrethrum flowers or products thereof to produce other unfinished products or finished insecticides.

(25) "Distributor", as used in this regulation, means any person who purchases rotenone of pyrethrum or rotenone or pyrethrum products from a processor for resale to a manufacturer.

(26) "Wholesaler," for the purposes of this regulation, means a person other than a manufacturer who sells the commodity being priced to a dealer.

(27) "Dealer," for the purposes of this regulation, is a person other than a manufacturer or wholesaler who sells at retail the commodity being priced.

(28) "Sale at retail" means a sale to an ultimate consumer.

Appendix A—Maximum Prices for Rotenone and Rotenone Products

The maximum prices below are in general for the material in large containers. Where no specific provision is made for pricing sales in small containers, the seller may add, on such sales, his customary "small package" differentials.

(a) (1) *Rotenone roots for sale to processors.* Five cents per unit of crude rotenone per pound of root, seller to pay all costs of freight, insurance, entry, analysis, weighing and the like, ex-dock at port of entry.

(2) *Rotenone powder for sale to processors.* Seven cents per unit of pure rotenone per pound of powder, seller to pay all costs of freight, insurance, entry, analysis, weighing and the like, ex-dock at port of entry.

(b) *Unfinished rotenone products for sale by processors and distributors*—(1) *Rotenone powder.* Eight cents per unit of pure rotenone per pound of powder, f. o. b. cars at New York, New York, except there may be added, for sales in quantities of less than 200 pounds, 10 percent.

(2) *Rotenone resin.* Twelve cents per unit of pure rotenone per pounds of resin, f. o. b. processor's plant.

(3) *Rotenone liquid extract.* $1.05 per unit of pure rotenone per gallon of extract plus the cost of one gallon of the solvent used for the extract, f. o. b. processor's plant.

(4) *Chemically pure rotenone.* $13.50 per pound, f. o. b. processor's plant.

(5) *Technically pure rotenone.* $10.90 per pound, f. o. b. processor's plant.

(6) *Rotenone solvate.* $8.65 per pound, f. o. b. processor's plant.

(7) *Other unfinished rotenone products.* The maximum price shall be determined by the seller after specific authorization from the Office of Price Administration. A seller who seeks an authorization to determine a maximum price under the provision of this paragraph shall file with the Agricultural Chemicals Section of the Office of Price Administration in Washington, D. C., an application setting forth:

(i) A description of the commodity for which a maximum price is sought,

(ii) A list of materials used in the manufacture of the commodity,

(iii) An outline of the manufacturing process,

(iv) The seller's cost of raw materials, packages, manufacturing and other expenses,

(v) Changes in the selling price since January 1, 1941, and

(vi) The seller's maximum price under the General Maximum Price Regulation. When such authorization is given, it will be accompanied by instructions as to the method for determining the maximum price. Within ten days after such price has been determined, the seller shall report the price to the Agricultural Chemicals Section of the Office of Price Administration in Washington, D. C. The price so reported shall be subject to adjustment at any time by the Office of Price Administration.

(c) *Finished rotenone insecticides for sale by manufacturers.*—(1) *Finished rotenone insecticides for which a maximum price had been established prior to June 1, 1944.* The maximum price which the manufacturer might have charged for the insecticide on May 31, 1944 plus 1.5 cents per unit of pure rotenone per pound of the insecticide, except that in no event may prices for the following finished insecticides exceed the prices listed therewith:

Dry finished insecticides for which rotenone powder is the base, in containers of ten pounds or more capacity, for sale to dealers, subject to customary wholesalers' discounts, f. o. b. manufacturer's plant. 14 cents per pound of finished insecticide guaranteed to contain 1 percent pure rotenone, plus or minus, as the case may be, 1 cent per pound of finished insecticide for each variation in pure rotenone content of one-tenth of 1 percent (0.1%). For example, the maximum prices for dusts containing .5% and .75% pure rotenone shall be 9 cents and 11.5 cents per pound, respectively. In the event the insecticide contains active insecticidal ingredients in addition to rotenone, the above prices may be increased by the amount of the delivered cost to the manufacturer for such additional active ingredients guaranteed in the finished insecticide. If the manufacturer of the finished rotenone insecticide is also the manufacturer of the additional active ingredient he may use his maximum price for a sale to another insecticide manufacturer as his own delivered cost of such additional active ingredient.

(2) *Finished rotenone insecticides for which no maximum price had been established prior to June 1, 1944.* (i) The price for the most closely similar insecticide for which a maximum price is established in subparagraph (1) above plus or minus, as the case may be, the difference between the total cost of all raw materials and packages used in the manufacture of the similar insecticide and the total cost of all raw materials and packages used in the manufacture of the insecticide being priced.

(ii) If a manufacturer cannot otherwise determine his maximum price, he shall apply to the Office of Price Administration for authorization to establish a maximum price in accordance with the provisions of paragraph (b) (7) of this appendix.

(d) *Finished rotenone insecticides for sale by wholesalers.* The maximum price which the manufacturer may charge the wholesaler, as established by this regulation, plus the wholesaler's customary margin on sales of such insecticides to retailers.

Appendix B—Maximum Prices for Pyrethrum and Pyrethrum Products

The maximum prices below are, in general, for the material in large containers. Where no specific provision is made for pricing sales in small containers, the seller may add, on such sales, his customary "small package" differentials.

(a) *Pyrethrum flowers for sale to processors.* 25 cents per unit of pyrethrins per pound of flowers, seller to pay all costs of freight, insurance, entry, analysis, weighing and the like, ex-dock at port of entry.

(b) *Unfinished pyrethrum products for sale by processors and distributors.*—(1) *Finely ground pyrethrum powder from whole flowers.* 37.5 cents per unit of pyrethrins per pound of powder, f. o. b. processor's plant.

(2) *Flowers ground for percolation.* 35 cents per unit of pyrethrins per pound of ground flowers, f. o. b. processor's plant.

(3) *Finely ground pyrethrum powder from exhausted flowers.* 6 cents per pound, f. o. b. processor's plant.

(4) *Finely ground pyrethrum powder consisting of a combination of whole and exhausted flowers.* Five cents per one-tenth unit of pyrethrins per pound of powder, such price in no event to exceed 25 cents per pound, f. o. b. processor's plant.

(5) *Pyrethrum dust bases containing not less than 1 per cent pyrethrins.* 55 cents per unit of pyrethrins per pound of the dust base, f. o. b. processor's plant.

(6) *Oleoresins or unpurified pyrethrum concentrates.* 44 cents per unit of pyrethrins per pound of the product, f. o. b. processor's plant.

(7) *De-waxed or purified pyrethrum concentrates (meeting specifications for use in aerosol bombs).* 52 cents per unit of pyrethrins per pound of the product, f. o. b. processor's plant.

(8) *Pyrethrum liquid extracts.* A price for extracts, of concentrations as specified, in containers of 50 gallons capacity or larger, f. o. b. processor's plant:

Strength of extract	Standard pyrethrins content per 100 c. c.	Price per gallon	
		Regular	Deodorized
	Grams		
5:1	0.5	$1.90	$2.00
10:1	1	3.70	3.80
20:1	2	7.15	7.25
30:1	3	10.65	10.75
40:1	4	14.20	14.30
60:1	6	21.20	21.30

For sales in containers of less than 50 gallons capacity there may be added:

Size of container: [1]	*Add per gallon*
30 gallons	$0.10
15 gallons	.15
10 gallons	.30
5 gallons or smaller	.35

[1] If containers of capacities other than those specified are used, the maximum price per gallon shall be the same as for the next larger size container which is specified.

(i) *Other unfinished pyrethrum products.* If a processor cannot otherwise determine his maximum price, he shall apply to the Office of Price Administration for authorization to establish a maximum price in accordance with the provisions of paragraph (b) (7) of Appendix A.

(c) *Finished pyrethrum insecticides for sale by manufacturers*—(1) *Finished pyrethrum insecticides sold during the year ended March 31, 1942.* The price charged to a purchaser of the same class for the last sale prior to April 1, 1942, plus 1.5 cents per one-tenth unit of pyrethrins per pound of the insecticide.

(2) *Finished pyrethrum insecticides not sold during the year ended March 31, 1942.* (i) The price for the most closely similar insecticide for which a maximum price is established in subparagraph (1) above plus or minus, as the case may be, the difference between the total cost of all raw materials and packages used in the manufacture of the similar insecticide and the total cost of all raw materials and packages used in the manufacture of the insecticide being priced.

(ii) If a manufacturer cannot otherwise determine his maximum price, he shall apply to the Office of Price Administration for authorization to establish a maximum price in accordance with the provisions of paragraph (b) (7) of Appendix A.

(d) *Finished pyrethrum insecticides for sale by wholesalers.* The maximum price which the manufacturer may charge the wholesaler, as established by this regulation, plus the wholesaler's customary margin on sales of such insecticides to retailers.

This revised regulation shall become effective July 5, 1944.

NOTE: All record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 30th day of June 1944.

PART 1394—RATIONING OF FUEL AND FUEL PRODUCTS

[RO 5C,[1] Amdt. 132]

MILEAGE RATIONING: GASOLINE REGULATIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 5C is amended in the following respects:

1. Section 1394.8112 (a) is revoked.

2. A new § 1394.8112 (a) is added to read as follows:

(a) Every consumer who has in his possession or control any Class T coupons designated for use in a specified calendar quarter which were issued to him as a special ration may surrender such coupons to the appropriate Board, if the ration has not expired prior to the time of surrender. The Board shall issue to the consumer, in exchange for such coupons, Class T coupons which are valid for transfer in the calendar quarter in which they are to be used. The ration represented by the coupons shall have the same expiration date as the ration represented by the coupons surrendered, and shall have a gallonage value to be determined in accordance with paragraph (b) of this section.

3. Section 1394.8153 (a) (4) is amended by adding the following sentence:

In the case of Class T coupons bearing the designation of a specified calendar quarter, no transfer shall be made for such coupons before or after such specified quarter.

4. Section 1394.8206b (a) (16) is added to read as follows:

(16) Any Class T coupon bearing the designation of a specified calendar quarter, before such calendar quarter or more than twenty days after such calendar quarter.

5. Section 1394.8207 (g) is added to read as follows:

(g) No dealer or distributor shall transfer or offer to transfer gasoline to any dealer and no dealer shall accept a transfer of gasoline from any dealer or distributor for Class T coupons bearing the designation of a specified calendar quarter before such calendar quarter or after ten days after such calendar quarter.

6. Section 1394.8215 (j) is added to read as follows:

(j) Immediately after the end of each calendar quarter, each dealer who has in his possession or control Class T coupons bearing the designation of such calendar quarter which he received in exchange for valid transfers of gasoline during such calendar quarter shall attach such coupons to separate gummed sheets (OPA R-120) to which no other coupons are attached, and shall summarize such coupons on a summary form (OPA R-541) on which no other coupons are listed. Within ten days after the end of such calendar quarter the dealer shall surrender such coupons and summaries either to a distributor in exchange for a transfer of gasoline or to the Board with which his place of business is registered, in exchange for inventory coupons equal in gallonage value to the coupons so surrendered. Within twenty days after the end of each calendar quarter, each distributor who has in his possession or control any Class T coupons bearing the designation of such calendar quarter which he received in exchange for valid transfers of gasoline shall deposit such coupons in a ration bank account maintained by him.

This amendment shall become effective June 30, 1944.

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 3,[1] Amdt. 29]

SUGAR

A rationale accompanying this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 3 is amended in the following respects:

1. Section 1407.177 (a) (1) is amended to read as follows:

(1) He may, during the period from May 1, 1944, through June 30, 1944, and during any quarterly period (or two-month period in the case of an institutional user) beginning on or after July 1, 1944, use an amount not exceeding that which he used during the corresponding period in 1941. If, however, during any such period he uses an amount of imported sugar-containing products which is less than the amount he used during the same period in 1941, he may use the difference during any subsequent quarterly period (or two-month period in the case of an institutional user).

2. Section 1407.177 (b) is amended by deleting the word "Board" and inserting in its place the words "District Office".

3. Section 1407.177 (f) is amended to read as follows:

(f) Every person who uses imported sugar-containing products must, within ten days after the quarterly period (or two-month period in the case of an institutional user) in which he uses them, report to the district office, in any convenient form, the amount he used in that period. He must, in addition, when making his first report, attach a statement showing the amount he used during each quarter (or two-month period in the case of an institutional user) of 1941, and a statement showing the amounts in his possession and in transit to him on May 1, 1944, if by that date they were already in any of the 48 states of the United States or the District of Columbia and has been released by the Collector of Customs. (This paragraph does not apply to products used as permitted by paragraph (c).)

4. Section 1407.178 (d) is amended to read as follows:

*Copies may be obtained from the Office of Price Administration.

[1] 8 F.R. 15937.

[1] 9 F.R. 1433, 1534, 2233, 2826, 2828, 3031, 3513, 3579, 3847, 3944, 4099, 4350, 4474, 4880, 5220, 5254, 5220, 5166, 5466, 5426, 5346, 5805, 5829, 6233, 6562, 6562, 6564, 6881.

(d) Any person who imports or receives imported sugar-containing products from the Collector of Customs shall, beginning in June 1944, prepare and sign a report in duplicate, in any convenient form, showing:

(1) The amount imported by him during the preceding month;

(2) The names and addresses of the persons to whom he delivered imported sugar-containing products during the preceding month and the amount delivered to each such person; and

(3) The amount of such products in his possession at the close of business on the last day of the preceding month.

He must, in addition, when making his report covering the month of June 1944 include a statement of the amount of imported sugar-containing products in his possession on May 1, 1944. The original of the report shall be sent to the Office of Price Administration, Washington, D. C., not later than the 10th day of each month; the duplicate shall be retained by the person reporting.

This amendment shall become effective June 30, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 13,[1] Amdt. 45]

PROCESSED FOODS

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 13 is amended in the following respects:

1. Section 9.5 (b) is amended by adding the following sentence to the end of that paragraph:

Where foods ordered by a transferee are delivered by the transferor to a common or contract carrier for shipment and delivery by the carrier or a connecting common carrier to the transferee (whether or not actually consigned to the transferee), and no transfer of the foods to the transferee has previously occurred, their point value at the time when they are delivered to the carrier determines the number of points which must be given up.

2. Section 9.5 (c) (1) is amended by deleting the second sentence and substituting therefor the following:

(1) Where foods ordered by a transferee are delivered by the transferor to a common or contract carrier for shipment and delivery by the carrier or a connecting common carrier to the transferee (whether or not actually consigned to the transferee), and no transfer of the foods to the transferee has previously occurred, the foods are considered to be transferred at the time when they are delivered to the carrier. Exceptions to the rule, that points must be given up at or before the transfer is made, are stated in the next two subparagraphs.

3. Section 27.1 (a) (16) is amended to read as follows:

(16) "Transfer" means to sell, give, exchange, lend, deliver, or consign. It includes any transfer of possession or title, however accomplished, and any movement of goods from one establishment to another. The use by any "person" of "processed foods" which he produced or holds for sale or transfer is considered a transfer of those foods to himself. Also, a transfer takes place when an industrial user uses processed foods which he produced or imported after October 4, 1943. Where foods ordered by a transferee are delivered by the transferor to a common or contract carrier for shipment and delivery by the carrier or a connecting common carrier to the transferee (whether or not actually consigned to the transferee), and no transfer of the foods to the transferee has previously occurred, the foods are considered to be transferred at the time when they are delivered to the carrier. However, delivery to a common or contract carrier for shipment is not regarded as a transfer to the carrier; and delivery by the carrier to the consignee is not regarded as a transfer by the carrier.

This amendment shall become effective July 1, 1944.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16,[1] Amdt. 8]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Revised Ration Order 16 is amended in the following respects:

1. Section 10.5 (c) is amended by adding the following sentence to the end of that paragraph: "Where foods ordered by a transferee are delivered by the transferor to a common or contract carrier for shipment and delivery by the carrier or a connecting common carrier to the transferee (whether or not actually consigned to the transferee), and no transfer of the foods to the transferee has previously occurred, their point value at the time when they are delivered to the carrier determines the number of points which must be given up."

2. Section 10.5 (d) (1) is amended by deleting the second sentence and substituting therefor the following: "Where foods ordered by a transferee are delivered by the transferor to a common or contract carrier for shipment and delivery by the carrier or a connecting common carrier to the transferee (whether or not actually consigned to the transferee), and no transfer of the foods to the transferee has previously occurred, the foods are considered to be transferred at the time when they are delivered to the carrier. Exceptions to the rule, that points must be given up at or before the transfer is made, are stated in the next two subparagraphs."

3. The definition of "Transfer" in section 27.1 (a) is amended to read as follows:

"Transfer" means to sell, give, exchange, lend, deliver, or consign. It includes any transfer of possession or title, however accomplished, and any movement of goods from one establishment to another. The use by any "person" of foods covered by this order which he produced or holds for sale or transfer is considered a transfer of those foods to himself. Where foods ordered by a transferee are delivered by the transferor to a common or contract carrier for shipment and delivery by the carrier or a connecting common carrier to the transferee (whether or not actually consigned to the transferee), and no transfer of the foods to the transferee has previously occurred, the foods are considered to be transferred at the time when they are delivered to the carrier. However, delivery to a common or contract carrier for shipment is not regarded as a transfer to the carrier; and delivery by the carrier to the consignee is not regarded as a transfer by the carrier.

This amendment shall become effective July 1, 1944.

UNLOADING OF COAL AT KEYSER, W. VA., AND CONNELLSVILLE, PA.

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 29th day of June, A. D. 1944.

It appearing, that thirteen (13) cars containing coal at Keyser, West Virginia, and twenty-one (21) cars at Connellsville, Pennsylvania, on the Baltimore and Ohio Railroad Company, shipped by the American Fuel Corporation, have been on hand for an unreasonable length of time and that the delay in unloading said cars is impeding their use; in the opinion of the Commission an emergency exists requiring immediate action: *It is ordered,* That:

Coal at Keyser, West Virginia, and Connellsville, Pennsylvania, to be unloaded. (a) The Baltimore and Ohio Railroad Company, its agents or employees, shall unload forthwith B & O 323277 and 12 others at Keyser, West Virginia, also N & W 24238 and 20 others at Connellsville, Pennsylvania, all containing coal shipped by the American Fuel Corporation.

(b) Said carrier shall notify the Director of the Bureau of Service, Interstate Commerce Commission, Washington, D. C., when such carloads of coal have been completely unloaded. Upon receipt of such notice this order shall expire. (40 Stat. 101, sec. 402, 41 Stat. 476, sec. 4, 54 Stat. 901, 911; 49 U.S.C. 1 (10)–(17) 15 (2))

It is further ordered, That this order shall become effective immediately, and that a copy of this order and direction shall be served upon The Baltimore and Ohio Railroad Company and upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the

Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

SECURITIES AND EXCHANGE COMMISSION.

[File No. 70-914]

SOUTHERN INDIANA GAS AND ELECTRIC CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 28th day of June, A. D., 1944.

Notice is hereby given that a declaration has been filed with this Commission under the Public Utility Holding Company Act of 1935 by Southern Indiana Gas and Electric Company ("Southern Indiana"), a subsidiary of The Commonwealth & Southern Corporation, a registered holding company. All interested parties are referred to said document, which is on file in the office of this Commission, for a statement of the transaction therein proposed which is summarized as follows:

Southern Indiana proposes to reduce the stated capital with respect to its presently outstanding 400,000 shares of no par value common stock from $5,500,000 to $3,335,644.05 without reducing the number of shares, and to credit the amount of the reduction ($2,164,355.95) to a new account to be designated "Special Capital Surplus".

The transaction proposed is for the stated purpose of enabling Southern Indiana to comply with the terms and provisions of an order of the Public Service Commission of Indiana, dated May 10, 1944, requiring Southern Indiana, among other things, to transfer to Account 107, Utility Plant Adjustments, the sum of $2,164,355.95, which is included in the aggregate amount of $3,459,756.71 now classified on the company's books in Account 100.5, Utility Plant Acquisition Adjustments, and to dispose of the amount so transferred by a charge to the Special Capital Surplus account to be created as aforesaid.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said matter, and that said declaration shall not become effective except pursuant to further order of this Commission;

It is ordered, That a hearing on such matters under the applicable provisions of the Public Utility Holding Company Act of 1935 and the rules thereunder be held on July 10, 1944, at 10 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as may be designated on such date by the hearing room clerk. All persons desiring to be heard or otherwise wishing to participate in the proceedings shall notify the Commission in the manner provided by Rule XVII of the Commission's rules of practice on or before July 6, 1944.

It is further ordered, That Robert P. Reeder or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing above ordered. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by said declaration, particular attention will be directed at the hearing to the following matters and questions:

1. Generally, whether the proposed transactions comply with the applicable provisions of the Public Utility Holding Company Act of 1935 and all rules and regulations promulgated thereunder and particularly whether the proposed reduction of stated capital with respect to the presently outstanding common stock is detrimental to the public interest or the interests of investors or consumers, or will result in an unfair or inequitable distribution of voting power among holders of the securities of Southern Indiana.

2. What terms and conditions, if any, are necessary or appropriate in the public interest or the interests of investors or consumers to ensure compliance with the requirements of the Holding Company Act or any rules, regulations or orders promulgated thereunder.

It is further ordered, That the Secretary of the Commission shall serve notice of the entry of this order by mailing a copy thereof by registered mail to Southern Indiana Gas and Electric Company, The Commonwealth & Southern Corporation and Public Service Commission of Indiana, and that notice shall be given to all other persons by publication thereof in the FEDERAL REGISTER.

By the Commission.

UNITED GAS IMPROVEMENT CO., AND MANCHESTER GAS CO.

ORDER PERMITTING DECLARATIONS TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 28th day of June 1944.

In the matter of the United Gas Improvement Company and Harold C. Payson, file No. 70-879; Manchester Gas Company, file No. 70-903.

The United Gas Improvement Company (U. G. I.), a registered holding company, having filed an amendment to a joint application-declaration heretofore filed pursuant to the Public Utility Holding Company Act of 1935, by U. G. I. and Harold C. Payson (Payson), an individual, and Manchester Gas Company (Manchester), a subsidiary of U. G. I., having filed a declaration pursuant to the act whereunder U. G. I. proposes to sell and Manchester proposes to buy for $33,000 cash, 840 shares of 7% Cumulative Preferred Stock ($100 par value) and 4,200 shares of common stock ($100 par value) of Manchester, said stock representing all of U. G. I.'s holdings of securities in Manchester, and such shares to be retired and cancelled follwing their acquisition by Manchester; and

The original filings having proposed the sale by U. G. I. and the purchase by Payson for $33,000 cash of the shares of Manchester's preferred and common stock presently owned by U. G. I., and a public hearing having been held in respect thereof, but prior to Commission action thereon Payson having assigned his purchase agreement with U. G. I. to Manchester for a cash consideration of $5,000 and in connection therewith, Payson having requested the withdrawal of his application-declaration; and

Said amendment to the pending application-declaration of U. G. I. and the declaration of Manchester having been filed on May 29, 1944 and notice of said filings having been duly given in the form and manner prescribed in Rule U-23 and the Commission not having received a request for hearing with respect to said declarations within the period prescribed by said notice, or otherwise, and not having ordered a hearing thereon; and

U. G. I. having requested that the order of the Commission conform to the pertinent requirements of the Internal Revenue Code, as amended, including section 1808 (f) thereof; and

The Commission finding that the proposed transaction by U. G. I. is a step in compliance with the order of the Commission dated May 7, 1942 (Holding Company Act Release No. 3511) issued pursuant to section 11 (b) (1) of the act, directing U. G. I. to divest itself of ownership, control and holdings of securities of a number of companies, including Manchester, and that the requirements of section 12 of the act and Rules U-42 and U-43 are satisfied, and deeming it appropriate in the public interest and in the interests of investors and consumers to permit said declarations, as amended, to become effective;

It is hereby ordered, That, pursuant to Rule U-23 and the applicable provisions of said act and subject to the terms and conditions prescribed in Rule U-24, the aforesaid declarations, as amended, be, and the same hereby are, permitted to become effective forthwith.

It is further ordered, That the request of Harold C. Payson for the withdrawal of his application-declaration be, and the same hereby is, granted and said application-declaration is hereby deemed withdrawn.

It is further ordered, That the sale and transfer by The United Gas Improvement Company to Manchester Gas Company for $33,000 cash of said 840 shares of 7% Cumulative Preferred Stock ($100 par value) and 4,200 shares of common stock ($100 par value) and the acquisition and retirement thereof by Manchester Gas Company are necessary and appropriate to effectuate the provisions of section 11 (b) of the Public Utility Holding Company Act of 1935.

NORTHERN INDIANA PUBLIC SERVICE CO.

ORDER GRANTING APPLICATION AND PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 29th day of June, A. D. 1944.

Northern Indiana Public Service Company, a subsidiary of Clarence A. Southerland and Jay Samuel Hartt, Trustees of the Estate of Midland Utilities Company, a registered holding company, having filed an application-declaration, as amended, under sections 6 and 12 of the Public Utility Holding Company Act of 1935 and the rules and regulations promulgated thereunder, with respect to the refinancing of 220,078 shares of its cumulative preferred stock (69,858 shares of the 7% series, 124,505 shares of the 6% series, and 25,715 shares of the 5½% series) by (1) offering the present holders of such stock the opportunity to exchange each share of such stock for one share of $100 par value 5% cumulative preferred stock of the company, plus a cash payment in an amount representing the difference between the redemption prices of the stocks outstanding at present and the initial public offering price of the shares to be issued, with proper adjustments for accrued dividends upon the stock to be surrendered and upon the shares to be issued; (2) providing that any shares not surrendered by way of exchanges will be called for redemption at redemption prices, plus accrued dividends; and (3) providing that such number of the 220,078 shares of the $100 par value 5% cumulative preferred stock as have not been issued upon exchanges will be issued and sold through underwriters; and

Northern Indiana Public Service Company having proposed that (1) the compensation to be paid to underwriters for exerting their best efforts to solicit the exchanges, for standing by during the exchange period, and for underwriting the sale of such number of the 220,078 shares of $100 par value 5% Cumulative Preferred Stock as have not been issued by way of exchanges, and (2) the initial public offering price of such number of shares of the $100 par value 5% Cumulative Preferred Stock as have not been issued by way of exchanges, and the cash payment to be made to such holders of the $100 par value 7%, 6%, and 5½% Cumulative Preferred Stocks as have accepted the exchange offer, be determined by competitive bidding pursuant to the requirements of Rule U-50; and

Public hearings having been held upon such matter after appropriate notice, and the Commission having considered the record and having made and filed its findings and opinion herein;

It is ordered, That said application-declaration, as amended, be and hereby is granted and permitted to become effective forthwith, subject to the terms and conditions contained in Rule U-24; and to the following terms and conditions:

(1) That the proposed issuance and sale (including the exchange feature) of the 220,078 shares of $100 par value 5% cumulative preferred stock, aggregate par value $22,007,800, shall not be consummated until the results of the competitive bidding pursuant to Rule U-50 have been made a matter of record in this proceeding and a further order shall have been entered by this Commission in the light of the record so completed, which order may contain further terms and conditions as may then be deemed appropriate, jurisdiction being reserved for the imposition thereof in connection with the proposed transaction;

(2) That the proposed exchange and purchase agreement to be entered into between Northern Indiana Public Service Company and the exchange solicitors and underwriters be modified so as to provide that, in the event the fees and expenses of independent counsel for the exchange solicitors and underwriters be reduced ultimately below the estimated total of $21,500, the amount of any such reduction shall be paid over to Northern Indiana Public Service Company by the exchange solicitors and underwriters.

It is further ordered, That jurisdiction be and hereby is reserved over the payment of any fees and expenses to Stone & Webster and Blodget, Inc.; Harriman, Ripley & Co., Inc.; and to Willkie, Owen, Otis, Farr & Gallagher, as independent counsel for the prospective exchange solicitors and underwriters.

By the Commission.

WAR FOOD ADMINISTRATION.

Farm Security Administration.

AUTHORITY FOR ADVERTISING IN NEWSPAPERS AND OTHER PUBLICATIONS

I. For the fiscal year ending June 30, 1945, the Administrator and certain designated officials of the Farm Security Administration within their respective jurisdictions are authorized to incur expense for advertising in newspapers and other publications as hereinafter specifically set forth:

A. Regional Directors, Assistant Regional Directors, Chiefs of Regional Production and Loan Supervision Sections, District FSA Supervisors, FSA Supervisors, and Community Managers may advertise public and private foreclosure sales of personal and real property under lien to the Farm Security Administration as required by state laws or by orders of courts of competent jurisdiction.

B. Regional Directors, the Business Manager, and Regional Business Managers may advertise, in accordance with the applicable provisions of law, the dissolution of corporations and associations (including State RR Corporations, Defense Relocation Corporations, Land Purchasing Associations and so forth), and the sale and disposal of all real and personal property under the jurisdiction of the FSA.

C. The Business Manager and Regional Business Managers may advertise for bids for construction contracts into which the Farm Security Administration desires to enter.

D. The Business Manager and Regional Business Managers may advertise in connection with the solicitation of bids for the procurement of office and storage space, services, materials, supplies and/or equipment.

II. This authority includes the selection of county, city, or other newspapers, appropriate trade journals or other publications of limited or general circulation; and the placing therein of display or other advertisements which will be sufficient notification to the public of any particular proposal. For any single proposal, no advertisement will appear in more than fifteen newspapers or other publications, nor will more than five insertions be made in the same newspaper or publication, except where a large number of newspapers, or other publications, or a greater number of insertions, are required by state laws, or by order of a court of competent juridisction, in which case the required number of newspapers or other publications or the required number of insertions, or both, will be limited to the number required by such state laws or by such a court order.

(1940 C. C. C. Form E) and filed such contract with a regional office of Commodity Credit Corporation.

§ 254.2 *Liens.* Hay and pasture seed offered as collateral must be free and clear of all liens except in favor of the lienholders listed in the space provided therefor in the note and loan agreement or chattel mortgage. The names of all existing lienholders such as landlords, laborers, threshers, or mortgagees, must be listed. The waiver and consent to sell or mortgage the hay and pasture seed and pay the proceeds to the producer, as contained in the note and loan agreement or chattel mortgage, must be signed personally by all lienholders listed or by their duly authorized agents; or, if the lienholder is a corporation, by an officer thereof customarily authorized to execute such instruments. Waivers of lienholders may be executed on separate instruments if complete identification of the commodity and the producer is shown.

§ 254.3 *County agricultural conservation committees.* County agricultural conservation committees will administer the loan program within a county and will determine eligibility of producers. All loan forms will be obtained from offices of county committees and must be approved by the committee prior to disbursement of proceeds. A service fee of $1.00, or one-half percent of the net amount of the loan, whichever is larger, will be collected by the county committee, in connection with each loan, to cover the expenses incurred in the operation of the program.

§ 254.4 *Source of loans.* Loans may be obtained through banks and other lending agencies as defined herein, or direct from Commodity Credit Corporation.

§ 254.5 *Purchase of loans.* Commodity Credit Corporation will purchase, without recourse, notes evidencing loans on hay and pasture seed only from lending agencies which have executed and delivered, to the regional office of Commodity Credit Corporation serving the area, a Contract to Purchase (1940 C. C. C. Form E). Notes held by lending agencies must be tendered to the regional office of Commodity Credit Corporation serving the area, for purchase, within 10 days of written demand by the Corporation. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the outstanding face amount of such notes, plus accrued interest, from the date of disbursement by the lending agency to the date of payment of the purchase price, at the rate of 1½ percent per annum. Under the terms of the Contract to Purchase, lending agencies are required to report weekly, on 1940 C. C. C. Form F, all repayments or collections on producers' notes held by them and to remit with such report, to the regional office of Commodity Credit Corporation, an amount equivalent to 1½ percent per annum on the principal amount collected from the date of disbursement by the lending agency to the date of repayment.

§ 254.6 *Release of collateral.* A borrower may repay his note and obtain the release of the collateral, at any time prior to delivery of the collateral to Comodity Credit Corporation, upon payment of the principal amount due on the note, plus accrued interest at the rate of 3 percent per annum. Borrowers may repay directly notes that are held by local lending agencies, or, if the notes are held by Commodity Credit Corporation, or an out-of-town lending agency, they may request that the notes be forwarded to a local bank for collection, or remit an amount sufficient to pay the outstanding principal, and interest. Partial payment of a note and partial release of collateral may be arranged with the county agricultural conservation committee.

§ 254.7 *Offices of the Regional Directors of Commodity Credit Corporation.* The offices of the regional directors referred to herein and the areas served by them under these instructions are shown below:

SPECIAL INSTRUCTIONS CONCERNING LOANS ON COMMON AND CERTIFIED HAY AND PASTURE SEED

§ 254.12 *Eligible producer.* Any person, partnership, association, corporation, or other legal entity, producing or harvesting hay and pasture seed in 1944, as landowner, landlord, tenant, or custom harvester.

§ 254.13 *Eligible seed.* Any seed specified in the attached schedule of loan rates, produced in 1944, which complies with the other provisions of these instructions, which is cleaned or can be cleaned to meet the specifications as given for weeds and other crop seeds, as shown in the schedule of loan rates, and which complies with the Federal Seed Law and the State Seed Law in the State where the seed is processed. Such seed must be stored in an approved warehouse; the beneficial interest in the seed must be and must always have been in

the person tendering the seed for a loan; and the person tendering the seed for a loan must have the legal right to obtain a loan upon the security of the seed.

§ 254.14 *Seed specifications.* Northern, central, and southern regional areas based on adaptation and yield are recognized for alfalfa. The northern region includes all producing areas north of the southern boundaries of Oregon, Idaho, Wyoming, Nebraska, and eastward above the 40th degree of latitude. The central region includes all the producing areas south of the northern region and north of the 37th degree latitude (excluding California area north of the 37th latitude, but including approved origin alfalfa seed in Oklahoma tagged and sealed with the official tags and seals of the Oklahoma Crop Improvement Association), except as specified under "certified seed." The southern region includes all the producing areas south of the central region.

Red clover (medium double-cut) and mammoth (single-cut) will be eligible for loan except that seed produced west of the 119th degree longitude will not be eligible, except as specified under "certified seed."

Seed of legumes and grasses other than alfalfa and red clover are eligible for a loan in all parts of the United States.

All seed is to be labeled and must comply with the weed seed limitations of the State in which the seed is produced, or, in event of interstate shipment for storage or cleaning, it must be labeled to meet the requirements of the Federal Seed Act and the weed seed limitations of the State into which the seed is shipped, provided that no loan will be made if the seed contains seed of white top, Canada thistle, dodder, quackgrass, Johnson grass, bindweed, Russian knapweed, perennial sow thistle, or leafy spurge, singly or combined in excess of 45 seeds per pound.

§ 254.15 *Loans.* Hay and pasture seed otherwise eligible for a loan as specified herein are eligible under the terms and conditions and at the prices as stated in the schedule of loan rates included in these instructions.

§ 254.16 *Discounts for low quality seed.* Seed meeting the basic pure seed and germination specifications set out in the schedule of loan rates will be eligible for a loan at the highest loan rate established in such schedule. Lower quality seed will be eligible for a loan at the rates established in the schedule. Seed of lower seed purity or germination than the minimum seed purity and germination shown in the schedule shall not be eligible for a loan.

§ 254.17 *Certified seed.* Varieties or strains of hay and pasture seeds designated by State Agricultural Experiment Stations in cooperation with State seed certifying agencies, and Bureau of Plant Industry, Soils and Agricultural Engineering of the United States Department of Agriculture, will be eligible for loans as "certified seed." Seeds of these varieties or strains are to be certified by the State seed certifying agency of the State where grown. The standards and procedures for certification of each State must be approved by the executive committee of the International Crop Improvement Association, or its designated agent.

Certified seed, as defined above, will be eligible for loan in all States.

State and Federal lists of certified seeds eligible for loan and a list of State seed certifying agencies will be furnished by Commodity Credit Corporation.

§ 254.18 *Charges to be paid by producer.* Costs of cleaning, bagging, tagging, and transportation to approved warehouses, are to be borne by the producer. Such costs should not exceed the charges established in the cleaning and storage agreement for seed processors.

§ 254.19 *Availability and maturity.* Loans on eligible hay and pasture seed will be available after the 1944 harvest begins and through December 31, 1944. Loans will mature on demand, but not later than April 30, 1945.

SPECIAL INSTRUCTIONS CONCERNING LOANS ON IMPROVED VARIETIES OF LEGUME AND GRASS SEEDS

§ 254.25 *Eligible producer.* Any person, partnership, association, corporation, or other legal entity, producing as landlord, landowner, or tenant, improved varieties of legume and grass seed in 1944, in accordance with the instructions issued by the State Experiment Stations and Crop Improvement Associations.

§ 254.26 *Eligible seed.* Any seed approved by the Administrator, properly cleaned, bagged, certified, sealed, and stored.

§ 254.27 *Availability and maturity.* Loans on improved varieties of legume and grass seed will be available after 1944 harvest begins and through December 31, 1944. Loans will mature on demand, but not later than January 31, 1945.

Dated: June 1, 1944.

C. C. FARRINGTON,
Acting President.

[1944 C.C.C. Flaxseed Form 1—Instructions]

PART 255—1944 FLAXSEED LOANS

1944 FLAXSEED LOAN PROGRAM

Commodity Credit Corporation has authorized the making of loans on flaxseed stored on farms, or in approved public warehouses, in accordance with these instructions.

Sec.
255.1 Eligible producer.
255.2 Eligible flaxseed.
255.3 Eligible storage.
255.4 Loan rates.
255.5 Storage allowance.
255.6 Determination of quantity of flaxseed.
255.7 Liens.
255.8 Maturity and interest rate.
255.9 Lending agency.
255.10 Eligible paper.
255.11 Purchase of loans.
255.12 Offices of Commodity Credit Corporation.
255.13 County agricultural conservation committee.
255.14 Balance of collateral.

AUTHORITY: §§ 255.1 to 255.14, inclusive, issued under sec. 302, Agricultural Adjustment Act of 1938, as amended (52 Stat. 43; 7 U.S.C., 1940 ed., 1302).

§ 255.1 *Eligible producer.* Any person, partnership, association, or corporation, producing flaxseed in 1944 as landowner, landlord, or tenant.

§ 255.2 *Eligible flaxseed.* Flaxseed grading No. 1 or No. 2, which was produced in 1944, the beneficial interest to which is and always has been in the eligible producer. Flaxseed containing more than 30 percent damage or which contains more than 11 percent moisture, or which is musty, sour, heating, hot, or which has any commercially objectionable odor, or which is otherwise low quality, is not eligible for loan.

§ 255.3 *Eligible storage.* Loans will be made on eligible flaxseed stored in approved public grain warehouses, or in acceptable storage structures located on farms, in all areas.

§ 255.4 *Loan rates.* Loan values on flaxseed shall be based on numerical grades, as provided in the Official Grain Standards of the United States. Loan rates for U. S. No. 1 flaxseed will be based upon $2.95 per bushel at Minneapolis, Minnesota, Chicago, Illinois, and Portland, Oregon; $3.00 per bushel at Los Angeles and San Francisco, California; $2.85 per bushel at Emporia and Fredonia, Kansas; and $2.80 per bushel at Corpus Christi, Harlingen, and Houston, Texas. Loan rates for flaxseed grading U. S. No. 2 will be 5 cents per bushel less.

The foregoing schedule applies only to flaxseed delivered in carload lots which has been shipped by rail from a country shipping point to one of the designated terminal markets, as evidenced by paid freight bills duly registered for transit privileges and other documents as required: *Provided*, In the event the amount of paid-in freight is insufficient to guarantee minimum proportional rate from the terminal market, there shall be deducted from the applicable terminal loan value the difference between the amount of freight actually paid in and the amount required to be paid in to guarantee minimum proportional basis on the outbound movement: *Provided further*, That Commodity Credit Corporation will accept, in lieu of such bills, the approved warehouseman's supplemental certificate, or warehouse receipts on which a legend, signed by the warehouseman, has been stamped or typewritten, giving full information as to the value of such freight bill for transit billing, name of carrier, car number, freight rate, amount collected, unused transit stops, other pertinent information, and a statement that the freight bill has been officially registered for transit in accordance with the Uniform Grain Storage Agreement. A deduction of 6 cents per bushel shall be made if evidence is not submitted that paid rail freight bills have been registered for transit privileges.

The loan value for No. 1 and No. 2 flaxseed stored on farms and in approved country warehouses shall be determined by deducting from the applicable basic terminal loan value an amount equal to 5 cents per bushel more than the appropriate freight rate, plus the 3 percent freight tax. The appropriate freight rate shall be the county average of the all-rail interstate freight rates in effect May 16, 1944, from all points in the county from which flaxseed will be shipped to the appropriate terminal market. (Loan values applicable to each county will be contained in C. C. C. Flaxseed Form 1 for each State.)

Loan values for flaxseed stored in approved warehouses, other than those situated in the terminal markets designated in § 255.4, which was shipped by rail, shall be determined by the regional director of Commodity Credit Corporation. Values at such storage points shall be determined on the basis of terminal values listed in § 255.4, with appropriate adjustment for freight.

§ 255.5 *Storage allowance.* A storage allowance of $.07 per bushel will be advanced, at the time the loan is made, only on the number of bushels placed under loan in farm storage, and shall be earned by the producer, (1) if the flaxseed is delivered to the Commodity Credit Corporation on or after March 31, 1945 in the States of Arizona and California, and April 30, 1945 in other States, or (2) if, pursuant to demand by the Corporation for repayment, the flaxseed is delivered to the Commodity Credit Corporation prior to such dates, provided such demand for repayment was not due to any fraudulent representations on the part of the producer, or the flaxseed was damaged, threatened with damage, abandoned, or otherwise impaired. If delivery is made prior to such dates, with the consent or approval of the Commodity Credit Corporation, a storage payment will be earned in accordance with the terms of the mortgage supplement. Earned storage shall be computed after delivery has been completed and any storage advance not earned shall be repaid to the Corporation. Storage payment cannot be earned on a greater number of bushels than is specified in the chattel mortgage.

§ 255.6 *Determination of quantity of flaxseed.* A bushel shall be 56 pounds of clean flaxseed free of dockage, when determined by weight, or 1.25 cubic feet of flaxseed testing 56 pounds per bushel when determined by measurement. A deduction of three-quarters of a pound for each sack will be made in determining the quantity of the collateral when stored as sacked grain. In determining the quantity of flaxseed in farm storage by measurement, fractional pounds of the bushel test weight for flaxseed testing less than 56 pounds per bushel will be disregarded, and the quantity determined as above will be the following percentages of the quantity determined for 56-pound flaxseed:

	Percent
For flaxseed testing 56 pounds or over	100
For flaxseed testing 55 pounds or over, but less than 56 pounds	98
For flaxseed testing 54 pounds or over, but less than 55 pounds	96
For flaxseed testing 53 pounds or over, but less than 54 pounds	94
For flaxseed testing 52 pounds or over, but less than 53 pounds	92
For flaxseed testing 51 pounds or over, but less than 52 pounds	90
For flaxseed testing 50 pounds or over, but less than 51 pounds	88
For flaxseed testing 49 pounds or over, but less than 50 pounds	85
For flaxseed testing 48 pounds or over, but less than 49 pounds	83
For flaxseed testing 47 pounds or over, but less than 48 pounds	81

§ 255.7 *Liens.* The flaxseed collateral must be free and clear of all liens except in favor of the lienholders listed in the space provided therefor in the chattel mortgage or note and loan agreement.

§ 255.8 *Maturity and interest rate.* Notes secured by farm-stored flaxseed, or by warehouse receipts representing flaxseed, shall mature on demand, or on March 31, 1945 for California and Arizona flaxseed or on June 30, 1945 for all other flaxseed. All loans will bear interest at the rate of 3 percent per annum. Notes evidencing such loans must be dated on or before January 31, 1945.

§ 255.9 *Lending agency.* Any bank, cooperative marketing association, or other corporation, partnership, or person making loans in accordance with these instructions, which has executed the Contract to Purchase on 1940 C.C.C. Form F.

§ 255.10 *Eligible paper.* Eligible paper shall consist of notes of the producers secured by chattel mortgages, or warehouse receipts representing flaxseed in existence, dated prior to October 31, 1944, for California and Arizona flaxseed, or dated prior to January 31, 1945 for all other flaxseed. Notes shall be executed in accordance with these instructions, with State documentary revenue stamps affixed thereto where required by law. Notes executed by an administrator, executor, or trustee, will be acceptable only where valid in law.

§ 255.11 *Purchase of loans.* Commodity Credit Corporation will purchase, without recourse, eligible paper, as defined above, only from lending agencies which have executed and delivered, to the office of Commodity Credit Corporation to which notes are submitted, Contract to Purchase, 1940 C.C.C. Form E, obtainable only from such offices.

Notes held by lending agencies must be tendered to Commodity Credit Corporation, for immediate or deferred purchase, within 10 days of written request, or at least 10 days prior to maturity in the absence of written demand. The purchase price to be paid by Commodity Credit Corporation for notes accepted will be the face amount of such notes, plus accrued interest, from the respective dates to the date of payment of the purchase price, at the rate of 1½ percent per annum. Under the terms of the Contract to Purchase, lending agencies are required to report weekly, on 1940 C.C.C. Form F, all payments or collections on producers' notes held by them, and to remit, with such report, to Commodity Credit Corporation, an amount equivalent to 1½ percent interest per annum on the principal amount collected from the date of the note to the date of payment.

§ 255.12 *Offices of Commodity Credit Corporation.* The locations and addresses of the regional directors previously referred to herein, and the areas served by them under these instructions, are:

Address	*Area*
208 South La Salle Street, Chicago, Ill.	Delaware, Illinois (except East St. Louis), Indiana, Kentucky, Maryland, Michigan, New York, Ohio, Pennsylvania, Tennessee, Virginia, West Virginia, Southern Wisconsin, and States not otherwise listed.
Dwight Building, 1004 Baltimore Avenue, Kansas City, Mo.	Alabama, Arkansas, Colorado, Georgia, Florida, Kansas, Louisiana, Mississippi, Missouri (also East St. Louis), Nebraska, New Mexico, Oklahoma, South Carolina, Texas, Wyoming.
326 McKnight Building, Minneapolis, Minn.	Minnesota, Montana, North Dakota, South Dakota, Northern Wisconsin.
Artisans Building, 225 Southwest Broadway, Portland, Oreg.	Arizona, California, Idaho, Nevada, Oregon, Utah, Washington.

§ 255.13 *County agricultural conservation committee.* Forms may be obtained from county agricultural conservation committees or from the office of Commodity Credit Corporation. Pursuant to instructions, the State and county committees will determine, or cause to be determined, the quantity and grade of the flaxseed collateral, and the amount of the loan. All loan documents will be completed and approved by the county committee. In order to meet the cost of the local expenses, county agricultural conservation associations will collect a service fee for all loans.

§ 255.14 *Release of collateral.* The producer may obtain the return of notes secured by flaxseed at any time, prior to maturity, upon the payment of the principal amount due thereon, plus accrued interest. The loan paper may be sent to an approved bank for collection, or the producer may ascertain the amount due and remit directly to the office of Commodity Credit Corporation holding the paper. Partial releases of collateral may be arranged, with the county agricultural conservation committee, by paying to the holder of the note the loan value, plus accrued interest, for the flaxseed released.

Dated: June 8, 1944.

C. C. FARRINGTON,
Acting President.

PART 1405—FRUITS AND VEGETABLES

CALIFORNIA PLUMS

War Food Order No. 55, as amended, 9 F.R. 4321, 4319 (originally designated as Food Distribution Order No. 55, 8 F.R. 7626, as issued on June 7, 1943, and as amended, 8 F.R. 10061), is further amended to read as follows:

§ 1405.7 *Restrictions relative to the shipment of plums*—(a) *Definitions.* (1) "Plums" means any and all strains of any and all varieties of plums in fresh form grown in the State of California.

(2) "Person" means any individual, partnership, corporation, association, business trust, or any organized group of persons, whether incorporated or not.

(3) "Ship" means to ship plums by private carrier or common carrier from a point within California to a point outside California.

(4) "U. S. No. 2 grade" means U. S. No. 2 grade as defined in "U. S. Standards for Plums and Prunes (Fresh)," issued by the U. S. Department of Agriculture on May 28, 1937, and reissued by the Food Distribution Administration on January 18, 1943, and as in effect at the time of shipment of any particular lot of plums subject to this order.

(5) Each term defined in the aforesaid "U. S. Standards for Plums and Prunes (Fresh)" shall, unless otherwise distinctly expressed or manifestly incompatible with the intent hereof, have the same meaning when used herein as is set forth for the respective term in the "U. S. Standards for Plums and Prunes (Fresh)."

(6) "Director" means the Director of Distribution, War Food Administration.

(b) *Restrictions.* (1) No person may, after July 1, 1944, ship plums which do not meet the requirements of U. S. No. 2 grade: *Provided*, That not more than 10 percent of the plums in any package or container may fail to meet the requirements of said U. S. No. 2 grade, but not more than one-half of this amount, or 5 percent of the plums in any package or container, may be seriously damaged by worms, sunscald, or heat, and of said 5 percent not more than one-fifth, or 1 percent of the plums in any such package or container, may show decay: *Provided further*, That hail damage, with respect to any plum, which in depth does not exceed 3/64 of the minimum diameter of the plum and which in diameter of the aggregate surface area of such hail damage does not exceed one-half of the minimum diameter of the plum shall not be considered serious damage; and plums having such hail damage which is not serious damage may be shipped if they otherwise meet the provisions of this order.

(2) The Director may require any shipper to have any lot of plums inspected by an authorized representative of the Federal-State inspection service prior to the shipment of such plums.

(3) Each person shall submit promptly to the Director, 220 Federal Building, P. O. Box No. 230, Sacramento, California, a Federal-State shipping point inspection certificate covering each lot or shipment of plums shipped by him and inspected by an authorized representative of the Federal-State inspection service, whether or not such inspection has been required pursuant to the provisions of this order, stating: (i) the grade of the plums contained in such lot or shipment, or (ii) that the plums in such lot or shipment meet the requirements set forth in this order.

(4) Any assessment due from a handler pursuant to the provisions of War Food Order No. 55, as amended prior to the effective date hereof, shall be collected by the program manager, previously designated under War Food Order No. 55, as amended; and said program manager shall pay all outstanding obligations of the program manager for expenses necessarily incurred prior to the effective date hereof in accordance with the provisions of said War Food Order No. 55, as amended. The said program manager shall, within a reasonable period of time, sell all of the office furniture, office equipment, and other property of the program manager acquired with funds obtained as assessments from handlers prior to the effective date hereof, and in all respects entirely liquidate the affairs of said program manager for the period ending with the effective date hereof. The surplus, if any, in the hands of the program manager as a result of the aforesaid liquidation shall be refunded to the contributing handlers; and such surplus shall be disbursed among the handlers pro rata in proportion to their contribution to the funds. The liquidation, as aforesaid, shall be completed prior to September 1, 1944: *Provided*, That the Director may, if he determines that an additional period of time is reasonably necessary, extend the period in which the liquidation shall be completed.

(c) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of plums of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(d) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in plums.

(e) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(f) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using plums. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(h) *Communications.* All reports required to be filed hereunder and all communications, other than those required to be submitted pursuant to (b) (3) hereof, concerning this order shall, unless instructions to the contrary are issued by the Director, be addressed to the Director of Distribution, War Food Administration, Washington 25, D. C., Ref. WFO-55.

(i) *Effective date.* This amendment shall become effective at 12:01 a. m., e. w. t., July 1, 1944. With respect to violations, rights accrued, liabilities incurred, or appeals taken under said War Food Order No. 55, as amended, prior to the effective time of the provisions hereof, all of the provisions of War Food Order No. 55, as amended, in effect prior to the date of issuance hereof, shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Class 9. Pacific mackerel (pneumatorphorus, japonicus diego) and Pacific horse mackerel (Trachurus symmetricus). (For the period March 1, 1944, to June 24, 1944, both dates inclusive) Quota percentage pursuant to (b) (2) hereof: 45 percent. (For the period June 25, 1944, to February 28, 1945, both dates inclusive) Quota percentage pursuant to (b) (2) hereof: 55 percent.

(2) Sixty percent, by net weight, of each canner's 1944 pack of each class numbered 1 to 4, inclusive (designated in (b) (1) hereof), 40 percent, by net weight, of each canner's 1944 pack of class 5 (designated in (b) (1) hereof), 45 percent, by net weight, of each canner's 1944 pack of each class numbered 6 to 9, inclusive (designated in (b) (1) hereof for the period March 1, 1944, to June 24, 1944, both dates inclusive), and 55 percent, by net weight, of each canner's 1944 pack of each class numbered 6 to 9, inclusive (designated in (b) (1) hereof for the period June 25, 1944, to February 28, 1945, both dates inclusive), are hereby established as each canner's respective quotas of his 1944 pack for sale or delivery to government agencies. No canner may sell or deliver, in the aggregate, to government agencies a total quantity, by net weight, of his 1944 pack of the fish of any class (designated in (b) (1) hereof) in excess of a quantity of canned fish equal to the percentage of his 1944 pack of such class plus 60,000 pounds, by net weight, of the canned fish of the 1944 pack of such class.

(3) For each 60 pounds of canned fish of any class numbered 1 to 4, inclusive (designated in (b) (1) hereof), which a canner has sold or delivered to any government agency or with respect to which he has submitted to any government agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such government agency, such canner may sell or deliver 40 pounds of canned fish of the same class to persons other than a government agency: *Provided*, That, prior to the time of each such written tender, such canner had obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the government agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(4) For each 40 pounds of canned fish of the class numbered 5 (designated in (b) (1) hereof) which a canner has sold or delivered to any government agency or with respect to which he has submitted to any government agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such government agency, such canner may sell or deliver 60 pounds of canned fish of the same class to persons other than a government agency: *Provided*, That, prior to the time of each such written tender, such canner had obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the government agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(5) For each 45 pounds of canned fish of any class numbered 6 to 9, inclusive (designated in (b) (1) hereof for the period March 1, 1944, to June 24, 1944, both dates inclusive), which a canner has sold or delivered to any government agency or with respect to which he has submitted to a government agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such government agency, such canner may sell or deliver 55 pounds of canned fish of the same class to persons other than a government agency: *Provided*, That, prior to the time of each such written tender, such canner had obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the government agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(6) For each 55 pounds of canned fish of any class numbered 6 to 9, inclusive (designated in (b) (1) hereof for the period June 25, 1944, to February 28, 1945, both dates inclusive), which a canner has sold or delivered to any government agency or with respect to which he has submitted to any government agency a written tender of delivery of such canned fish in compliance with a written contract between such canner and such government agency, such canner may sell or deliver 45 pounds of canned fish of the same class to persons other than a government agency: *Provided*, That, prior to the time of each such written tender, such canner had obtained, with respect to the canned fish included in such written tender, an inspection certificate, issued by an inspection service approved by the government agency to which the tender has been made, indicating that such canned fish meets all the specifications set forth in such canner's aforesaid written contract for such canned fish.

(7) If any canner's 1944 pack of canned fish of any class (designated in (b) (1) hereof) is less than 4,800 pounds, such canner may consider such canned fish as a part of his 1944 pack of canned fish of any other class (designated in (b) (1) hereof).

(8) The Director may issue specifications at any time relative to the packing of the canned fish, the containers, container treatment, can marking, labeling, boxing, and strapping in connection therewith, or he may authorize any government agency to issue such specifications. Each person subject to the provisions of this order shall comply with such specifications, issued by the Director or the government agency authorized by the Director to issue such specifications, applicable to the canned fish processed by such person.

(c) *Inspection and grading.* All canned fish subject to the provisions of this order shall be subject to inspection and grading at any time by the Director or any government agency authorized by the Director to make such inspection and grading.

(d) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of canned fish of the 1944 pack which any person is required to offer or deliver pursuant to contracts heretofore or hereafter entered into with any government agency.

(e) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in canned fish.

(f) *Audits and inspections.* The Director shall be entitled to make such audit or inspection of the books, records and other writings, premises or stocks of canned fish of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(g) *Applicability of order.* Any person doing business in one or more of the 48 States, the District of Columbia, or the Territory of Alaska, is subject to the provisions hereof, but the provisions hereof shall not apply to any person doing business in any other Territory or Possession of the United States with respect to such business.

(h) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using canned fish, or any other material subject to priority or allocation control by any governmental agency. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(i) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order; and one such employee shall be designated by the Director to serve as Order Administrator.

(j) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional and unreasonable hardship on him may apply in writing for relief to the Director, setting forth in such petition all pertinent facts and the nature of the relief sought. The Director may thereupon take such action as he deems appropriate, which action shall be final.

(k) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Director, be addressed to the Director of Distribution, War Food Administration, Washington, 25, D. C. Ref. WFO–44.

(l) *Effective date.* The provisions of this order shall become effective at 12:01 a. m., e. w. t., June 25, 1944. With respect to violations, rights accrued, liabilities incurred, or appeals taken under War Food Order No. 44, as amended, prior to the effective time of the provisions hereof, the provisions of said War Food Order No. 44, as amended, in effect prior to the effective time hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with respect to any such violation, right, liability, or appeal.

NOTE: All record-keeping requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1465—FISH AND SHELLFISH

ALLOCATION OF IMPORTED SALTED FISH

War Food Order No. 72, as amended (8 F.R. 10970; 9 F.R. 4321, 4319), is further amended to read as follows:

§ 1465.23 *Regulations relative to the importation of salted fish into the United States*—(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not.

(2) "Salted fish" means any one or more of the following species of fish if cured or preserved in any manner with the use of salt, but does not mean the following species of fish if smoked or packed in air-tight containers: Cod (Gadus macrocephalus and Gadus callarias), haddock (Melanogrammus aeglefinus), hake (Urophycis species and Merluccius productus), pollock (Pollachius virens), cusk (Brosmius brosme), ling (Molva molva), and saithe (Gadus virens).

(3) "Dry" means to arrange salted fish in a single layer only and to reduce the moisture content of such salted fish to a desired percentage, by weight, by exposing such salted fish (i) to the sun and air or (ii) to artificially created currents of air in specially constructed dryers.

(4) "Green-salted fish," "wet-salted fish," "pickle-cured fish," or "kench-cured fish" means salted fish which (i) is neither skinned nor boned (except that the vertebral column may be removed), (ii) has not been dried, and (iii) contains more than 43 percent of moisture, by weight.

(5) "Semi-dried fish" or "soft-cured fish" means salted fish which (i) is neither skinned nor boned (except that the vertebral column may be removed), (ii) has been dried, and (iii) contains more than 43 percent of moisture, by weight.

(6) "Dried fish" or "dry-salted fish" means salted fish which (i) is neither skinned nor boned (except that the vertebral column may be removed), (ii) has been dried, and (iii) contains not more than 43 percent of moisture, by weight.

(7) "Boneless fish" means salted fish, whether or not dried, which is skinned or boned, wholly or partially.

(8) "1944 pack" means the salted fish produced from fish caught during the calendar year of 1944.

(9) "Import" means, except as used in (e) hereof, (i) to enter for consumption in the continental United States from any foreign country, including, but not being limited to, the Treaty Coasts defined in the Treaty of October 20, 1818, between the United States and Great Britain, entitled "Convention Respecting Fisheries, Boundary, and the Restoration of Slaves," proclaimed on January 30, 1819, or (ii) to withdraw from the bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States, for consumption in the continental United States.

(10) "Import" as used in (e) hereof means (i) to enter for consumption in Puerto Rico or the Virgin Islands from any foreign country, including, but not being limited to, the Treaty Coasts defined in the aforesaid Treaty of October 20, 1818, between the United States and Great Britain, or (ii) to withdraw (*a*) from the bonded custody of the United States Bureau of Customs (bonded warehouse) in Puerto Rico for consumption in Puerto Rico or (*b*) from the bonded custody of the United States Bureau of Customs (bonded warehouse) in the Virgin Islands for consumption in the Virgin Islands.

(11) "Importer" means any person who is the first owner, in the continental United States, of imported salted fish; and it is immaterial, in determining whether a person is an importer, whether or not the United States import duty, if any, or any other payment was made through or by a customs broker, nominal consignee, or other agent.

(12) "Director" means the Director of Distribution, War Food Administration.

(13) "Government agency" means (i) the Armed Services of the United States (excluding, for the purpose of this order, United States Army Post Exchanges, United States Navy Ships' Service Departments, and United States Marine Corps Post Exchanges); (ii) the War Food Administration (including, but not being limited to, any corporate agency thereof); (iii) the War Shipping Administration; (iv) the Veterans' Administration; and (v) any other instrumentality or agency designated by the War Food Administrator.

(14) "Armed Services of the United States" means the Army, the Navy, the Marine Corps, and the Coast Guard of the United States.

(b) *Allocations.* (1) No person shall import, or have imported for his account, into the continental United States, for consumption in the continental United States, any salted fish except in accordance with an allocation hereunder and pursuant to the provisions of this order.

(2) Unless otherwise ordered by the Director, each person is (subject to the limitation of the quota determined hereunder, the other provisions hereof, and to the import authorization under War Production Board Order M–63 (8 F.R. 8818), as amended and supplemented) hereby authorized to import, or have imported for his account, from the 1944 pack for consumption in the continental United States (i) from the Dominion of Canada not more than 60 percent, net weight, of the quantity of salted fish imported therefrom in 1942 of which such person was the importer; (ii) from New-

foundland not more than 65 percent, net weight, of the quantity of salted fish imported therefrom in 1942 of which such person was the importer; (iii) from Greenland not more than 70 percent, net weight, of the quantity of salted fish imported from Iceland in 1942 of which such person was the importer. Each quantity of salted fish imported in 1942 by, or for the account of, any such person for the use of any government agency or sold in 1942 to any government agency by such person subsequent to the importation of such salted fish shall be excluded from the aforesaid computation of such person's quota. The quota of salted fish which may be imported pursuant hereto shall be computed on the basis of dry-salted fish and may be imported as any one or more of the kinds of salted fish specified, respectively, in (a) (4), (5), (6), and (7) hereof: *Provided*, That the following conversion factors shall be applied in determining such quota and the quantity of salted fish to be imported pursuant to such quota: 1 pound of dried fish or dry-salted fish equals: (i) 1.75 pounds of green-salted fish, wet-salted fish, pickle-cured fish, or kench-cured fish; (ii) 1.5 pounds of semi-dried fish or soft-cured fish; (iii) 1 pound of boneless fish.

(3) Each person shall, prior to importing salted fish, submit to the Director, not later than July 15, 1944, a statement, with respect to each lot of imported salted fish of which such person was the importer in the calendar years 1942 and 1943, respectively, and in 1944 prior to the effective date hereof, showing: (i) the country of origin; (ii) the name of the shipper; (iii) the quantity; (iv) the date and port of entry (including the entry number, if available); (v) the rate of duty paid; (vi) the name of the person making the United States Customs entry or withdrawal from the bonded custody of the United States Bureau of Customs; and (vii) the quantity of salted fish sold, in the calendar years 1942 and 1943, respectively, and in 1944 prior to the effective date hereof, by such person to a government agency and the name of such government agency. The Director shall, from the information submitted to him and from such other information as may be available to him, determine, in accordance with the provisions of this order, each person's quota of salted fish which may be imported by, or for the account of, such person from the 1944 pack of salted fish: *Provided*, That the quantity of salted fish from the 1944 pack which was imported in 1944 prior to the effective date of this order by, or for the account of, any such person, shall be deducted in computing the respective person's quota, except that any such quantity of such salted fish which was imported by, or for the account of, such person for the use of any government agency or was sold in 1944 by such person, subsequent to the importation of such salted fish and prior to the effective date hereof, to any government agency shall not be deducted in computing such person's quota. The Director shall notify each person who complies with the provisions hereof relative to the respective person's quota determined pursuant hereto; and no such person shall import, or have imported for his account, any salted fish in excess of his quota. No quota shall be allocated, except under (i) hereof with respect to petitions for relief from hardship, to any person who fails to submit to the Director the aforesaid information on or before July 15, 1944, as required by this order.

(4) Each person's quota pursuant hereto is on condition that he shall (i) contract, on or before July 31, 1944, for the purchase of the entire quota of salted fish allocated hereunder to such person and (ii) submit to the Director, on or before August 10, 1944, a copy of each such contract: *Provided*, That no such contract need be submitted with respect to salted fish which are the product of the Dominion of Canada or which are the product of American fisheries and are from the Treaty Coasts or regions described in the aforesaid Treaty of October 20, 1818, between the United States and Great Britain.

(c) *Additional allocations.* The Director may hereafter allocate among other persons, as well as to the War Food Administration (including, but not being limited to, any corporate agency thereof), (1) any portion of a person's quota which such person notifies the Director will not be used by such person; (2) any person's quota which is not allocated to such person because of his failure to comply with the provisions of (b) (3) and (4) hereof; (3) any portion of any person's quota which is revoked in accordance with the applicable procedure as specified in (j) hereof; and (4) all other quantities of salted fish which, from time to time, the Director may determine to be available for importation. The Director may prescribe such methods and conditions of such subsequent allocations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order; and each person who receives an allocation pursuant to the provisions of this paragraph (c) may import, or have imported for his account, the salted fish covered by such allocation.

(d) *Exemption from quota restrictions.* The provisions of this order shall not be construed as restricting the importation of salted fish of the 1944 pack by or for a government agency: *Provided*, That any such importation of salted fish by or for a government agency shall be free from regulation hereunder only if, with respect to each such importation, a certificate is issued prior to the importation of the salted fish of the 1944 pack, by the Quartermaster General of the Army, the Chief of the Bureau of Supplies and Accounts or the Chief of the Bureau of Naval Personnel of the Navy, the Commandant of the United States Coast Guard, the Quartermaster of the United States Marine Corps, the Administrator of the War Shipping Administration, the Director of the Veterans' Administration, the Director, or the duly authorized representative of any of the foregoing, and such certificate (1) is issued to the person having the prime contract with a government agency, and (2) specifies the following: the name of the importer supplying such salted fish and that such salted fish are for direct Army, Navy, Coast Guard or Marine Corps issue or for contract feeding of the Army, the Navy, the Coast Guard, or the Marine Corps personnel, or for consumption on ships operating under the War Shipping Administration. Each person who asserts that a particular importation and delivery of salted fish is for a government agency and is, therefore, exempt from quota restriction under this order, shall promptly submit to the Director a copy of each such certificate, and certify to the Director that such is a true and correct copy of the certificate issued, as aforesaid.

(e) *Restrictions relative to Puerto Rico and the Virgin Islands.* No person other than the War Food Administration (including, but not being limited to, any corporate agency thereof) may import any salted fish of the 1944 pack into Puerto Rico or the Virgin Islands.

(f) *Audits and inspections.* The Director shall be entitled to make such audit and inspection of the books, records and other writings, premises or stocks of salted fish of any person, and to make such investigations, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(g) *Records and reports.* (1) The Director shall be entitled to obtain such information from, and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in the Director's discretion, to the enforcement or administration of the provisions of this order.

(2) Every person subject to this order shall, for at least two years (or for such period of time as the Director may designate), maintain an accurate record of his transactions in salted fish.

(h) *Contracts.* The restrictions of this order shall be observed without regard to contracts heretofore or hereafter entered into, or any rights accrued or payments made thereunder. This order shall not, however, be construed as reducing the amount of salted fish which any person is required to offer or deliver pursuant to contracts heretofore or hereafter entered into with any government agency.

(i) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Such petition shall be addressed to Order Administrator, War Food Order No. 72, Office of Distribution, War Food Administration, Washington 25, D. C. Petition for such relief shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator on the petition, he shall obtain, by requesting the Order Administrator therefor, a review of such action by the Director. The Director may, after said review, take such action as he deems appropriate, and such action shall be final. The provisions of this paragraph (i) shall not be construed to deprive the Director of authority to consider originally any petition for relief from hardship submitted in accordance herewith. The Director may consider any such petition and take such action with reference thereto that he deems appropriate, and such action shall be final.

(j) *Violations.* Any person who violates any provision of this order may, in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using salted fish, or any other material subject to priority or allocation control by any governmental agency. In addition, any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Further, civil action may be instituted to enforce any liability or duty created by, or to enjoin any violation of, any provision of this order.

(k) *Delegation of authority.* The administration of this order and the powers vested in the War Food Administrator, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order; and one such employee shall be designated by the Director to serve as Order Administrator.

(l) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided herein or in instructions issued by the Director, be addressed to the Order Administrator, WFO 72, Office of Distribution, War Food Administration, Washington 25, D. C.

(m) *Effective date.* This order shall become effective at 12:01 a. m., e. w. t., June 29, 1944. With respect to violations, rights accrued, liabilities incurred, or appeals taken under said War Food Order No. 72, as amended, prior to the effective time of the provisions hereof, the provisions of War Food Order No. 72, as amended, in effect prior to the effective time hereof shall be deemed to continue in full force and effect for the purpose of sustaining any proper suit, action, or other proceeding with regard to any such violation, right, liability, or appeal.

NOTE: All reporting and record-keeping requirements of this order have been approved by, and subsequent reporting and record-keeping requirements will be subject to the approval of, Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TITLE 8—ALIENS AND NATIONALITY

Chapter I—Immigration and Naturalization Service

PART 110—PRIMARY INSPECTION AND DETENTION

PART 166—ALIENS' BORDER CROSSING IDENTIFICATION CARDS

JUNE 27, 1944.

Sections 110.54, 110.55, 110.56, 110.57, 110.58, 110.60, 110.61, and 110.62, Title 8, Chapter I, Code of Federal Regulations, are hereby repealed.

The following new Part 166 is added to Title 8, Chapter I, Code of Federal Regulations:

Sec.

166.1 Resident alien's border crossing identification card; qualifications to obtain.
166.2 Resident alien's border crossing identification card; application.
166.3 Resident alien's border crossing identification card; issuance; validity.
166.4 Resident alien's border crossing identification card; use.
166.5 Resident alien's border crossing identification card; extension or revalidation.
166.6 Resident alien's border crossing identification card; cancellation.
166.11 Nonresident alien's border crossing identification card; qualifications to obtain.
166.12 Nonresident alien's border crossing identification card; application.
166.13 Nonresident alien's border crossing identification card; issuance; validity.
166.14 Nonresident alien's border crossing identification card; use.
166.15 Nonresident alien's border crossing identification card; cancellation.

AUTHORITY: §§ 166.1 to 166.15, inclusive, issued under sec. 23, 39 Stat. 892, sec. 24, 43 Stat. 166, sec. 37 (a), 54 Stat. 675; 8 U.S.C. 102, 222, 458; sec. 1, Reorg. Plan No. V, 5 F.R. 2223, 8 CFR 90.1 (sec. 30, 54 Stat. 673, 8 U.S.C. 451).

§ 166.1 *Resident alien's border crossing identification card; qualifications to obtain.* A resident alien's border crossing identification card may be issued to any alien who, upon application therefor, submits satisfactory evidence that he (1) has been legally admitted to the United States for permanent residence and has not relinquished the status of a permanent resident, (2) has complied with the applicable provisions of the Alien Registration Act, 1940, and (3) has a legitimate purpose and reasonable need to make a temporary visit or visits to Canada or Mexico, with no single visit to exceed a period of six months: *Provided, however*, That no such card shall be issued nor shall any such card previously issued be renewed unless the applicant or holder thereof is a person who is permitted to depart from the United States under the terms of laws, regulations, Executive orders, or other governmental restrictions regulating the departure of aliens from the United States in effect at the time application for such card or renewal thereof is made.

§ 166.2 *Resident alien's border crossing identification card; application.* Application for a resident alien's border crossing identification card shall be made, upon a form prescribed for that purpose, at any immigration and naturalization field office in the continental United States or Alaska. The applicant shall appear in person and, under oath or affirmation, shall execute his application, before an immigrant inspector, prior to his departure from the United States, except that an alien whose identification card has been lost or destroyed subsequent to his departure may execute an application for a card before an immigrant inspector when applying for admission to the United States if the outstanding identification card had not yet expired. The applicant shall furnish a photograph, size 2 by 2 inches, the distance from the top of the head to point of chin to be approximately 1¼ inches, unmounted, printed on thin paper with a light background, clearly showing a full front view of the features of the applicant without hat, and it shall have been taken within 30 days of the date when it is furnished. Where because of unusual circumstances it would be a hardship for the applicant to obtain such photograph, the immigrant inspector considering the application may in his discretion waive the furnishing of the photograph.

§ 166.3 *Resident alien's border crossing identification card; issuance; validity.* If the applicant is found to have the qualifications enumerated in § 166.1, the identification card may be issued to him by an immigrant inspector. Entries on the card shall be made by typewriter, if practicable, or in ink, and the applicant shall sign the card in ink, either with his full name or by witnessed mark after proper identification. The applicant's photograph shall be fastened on the card unless the furnishing of the photograph was waived, in which case his right index finger print shall be placed on the card in lieu of his photograph. The card shall be valid for an initial period of not to exceed six months, and the expiration date shall be fixed accordingly and written on the card when it is issued. The identification card shall be delivered to the applicant on his personal appearance in the office where the application is filed, except that where justified by unusual circumstances the card may be delivered to him either before or after his departure from the United States through some other immigration and naturalization office or by mailing it to him.

§ 166.4 *Resident alien's border crossing identification card; use.* The rightful holder of a valid resident alien's border crossing identification card issued under § 166.3 may present that document in lieu of an immigration visa or re-entry permit when applying for admission at any land, water, or air port of entry in the continental United States or Alaska as a returning legal resident after an absence from the United States of not more than six months, provided that during such absence he shall not have visited any foreign territory other than Canada or

Mexico. The presentation of a resident alien's border crossing identification card shall not otherwise relieve the applicant from establishing that he is not subject to exclusion from the United States.

CROSS REFERENCE: For permits to enter and passports, see 8 CFR Part 175.

§ 166.5 *Resident alien's border crossing identification card; extension or revalidation.* On the request of the holder and with the limitations prescribed in this section, a resident alien's border crossing identification card, either before or after its expiration, may be made valid by an immigrant inspector at any office authorized under § 166.2 to accept applications, for an additional period or periods not exceeding six months each. Such a card may also be extended or revalidated at a United States immigration station in Canada, where the holder satisfactorily establishes that the card was valid when he departed from the United States, but such extension or revalidation shall be only to a date within six months after the date on which such departure occurred. An expired card may be revalidated if the holder applies for admission to the United States, is found to be otherwise admissible, and satisfactorily establishes that the card was valid when he departed from the United States and that he has not been absent from the United States for more than six months. Each additional period of validity shall commence on the date the extension of validity or revalidation is granted. No card shall be made valid unless the holder has the qualifications enumerated in § 166.1. No card issued before November 14, 1941, shall be extended or revalidated notwithstanding any extensions or revalidations thereof which may have been subsequently granted. Extension or revalidation shall preferably be granted by the original issuing office, but if that is not practicable, such action may be taken by any other authorized office. All extensions or revalidations granted shall be endorsed on the card and the issuing office notified of the action taken if the extension or revalidation was granted by an office other than the original issuing office.

§ 166.6 *Resident alien's border crossing identification card; cancellation.* All resident aliens' border crossing identification cards which were issued before November 14, 1941, are hereby canceled notwithstanding any extensions or revalidations which may have been subsequently granted, and when they come to the attention of officers of the Service, such cards shall be lifted from the holder and filed in the original issuing office. Any valid or expired resident alien's border crossing identification card which was issued on or after November 14, 1941, and which is found in the possession of an alien who does not have the qualifications enumerated in § 166.1 or who is making improper use of the card, shall be lifted from the holder and returned to the original issuing office for cancellation, together with a report of the reasons therefor: *Provided, however,* That no card shall be lifted and canceled if found in the possession of an alien applying for admission to the United States unless and until the holder has been excluded by a board of special inquiry.

§ 166.11 *Nonresident alien's border crossing identification card; qualifications to obtain.* A nonresident alien's border crossing identification card may be issued to any alien who, upon application therefor, submits satisfactory evidence that he (1) is a native-born citizen of Canada, domiciled or residing therein, or a British subject domiciled or residing in Canada or a native-born citizen of Mexico domiciled or residing therein, (2) is in possession of a valid passport or document in the nature of a passport duly issued to the holder by the appropriate authorities of the government of which he is a citizen or subject, if such a travel document be a requirement for entry, (3) desires temporary admission into the United States for a period or periods of not more than 29 days each, and (4) is admissible to the United States under the immigration laws: *Provided, however,* That no such card shall be issued unless the applicant is known or shown to be a person who has complied fully with all provisions applicable to him of laws, regulations, Executive orders, or other governmental restrictions regulating the entry of aliens to the United States in effect at the time application for such card is made.

§ 166.12 *Nonresident alien's border crossing identification card; application.* Application for a nonresident alien's border crossing identification card shall be made, upon a form prescribed for that purpose, at a United States immigration office located at any land, water, or air port of entry in the continental United States or Alaska or at any United States immigration station located in Canada. The applicant shall appear in person and, under oath or affirmation, shall execute his application before an immigrant inspector. The applicant shall furnish his photograph, prepared under the specifications prescribed for photographs in § 166.2, or the furnishing of the photograph may be waived under the conditions stated in § 166.2.

§ 166.13 *Nonresident alien's border crossing identification card; issuance; validity.* If the applicant is found to have the qualifications enumerated in § 166.11, the identification card shall be issued to him by an immigrant inspector. Entries on the card shall be made by typewriter, if practicable, or in ink, and the applicant shall sign the card in ink, either with his full name or by witnessed mark after proper identification. The applicant's photograph shall be fastened on the card unless the furnishing of the photograph was waived, in which case his right index finger print shall be placed on the card in lieu of his photograph. The card shall be valid for an unlimited time unless it is canceled as provided in § 166.15. The identification card shall be delivered to the applicant on his personal appearance in the office where the application is filed, except that where justified by unusual circumstances the card may be delivered to him by mail prior to his entry to the United States.

§ 166.14 *Nonresident alien's border crossing identification card; use.* The rightful holder of a nonresident alien's border crossing identification card issued under § 166.13, or by a United States diplomatic or consular officer, may present such card in lieu of a consular visa, if that document be required, when arriving direct from Canada or Mexico and applying for admission to the United States at any land, water, or air port of entry in the continental United States or Alaska. The presentation of a nonresident alien's border crossing identification card shall not otherwise relieve the applicant from establishing that he is not subject to exclusion from the United States.

CROSS REFERENCE: For permits to enter and passports, see 8 CFR Part 175.

§ 166.15 *Nonresident alien's border crossing identification card; cancellation.* All nonresident alien's border crossing identification cards which were issued before November 14, 1941, are hereby canceled notwithstanding any extensions or revalidations which may have been subsequently granted, and when they come to the attention of officers of the Service, such cards shall be lifted from the holder and filed in the original issuing office. Any valid or expired nonresident alien's identification card which was issued on or after November 14, 1941, and which is found in the possssion of an alien who does not have the qualifications enumerated in § 166.11 or who is making improper use of the card, shall be lifted from the holder and returned to the original issuing office for cancellation, together with a report of the reasons therefor: *Provided, however,* That no card shall be lifted and canceled if found in the possession of an alien applying for admission to the United States unless and until the holder has been excluded by a board of special inquiry.

EARL G. HARRISON,
Commissioner of Immigration and Naturalization.

PART 3—DIGEST OF CEASE AND DESIST ORDERS

NATIONAL TECHNICAL INSTITUTE

§ 3.69 (b) *Misrepresenting oneself and goods—Goods—Demand for or business opportunities:* § 3.69 (b) *Misrepresenting oneself and goods—Goods—Success, use or standing:* § 3.72 (120) *Offering deceptive inducement to purchase or deal—Individual's special selection or situation:* § 3.72 (n) *Offering deceptive inducements to purchase or deal—Special offers, savings and discounts.* In connection with offer, etc., in commerce, of courses of instruction, and among other things, as in order set forth (1) representing to prospective students that they have been especially selected; or representing to such students that they have been recommended to respondent by their high school principal or other persons, unless such recommendations have actually been made; (2) representing by means of so-called scholarships or otherwise, that the usual and customary tuition fee is a special or reduced price; and (3) representing that graduates of respondent's courses have usually or generally obtained lucrative employment in the particular field in which instruction has been received from respondent; or that respondent's training assures one of such employment; prohibited. (Sec. 5, 38 Stat. 719, as amended by sec. 3, 52 Stat. 112; 15 U.S.C., sec. 45b) [Cease and desist order, National Technical Institute, Docket 4789, June 1, 1944]

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 1st day of June, A. D. 1944.

In the Matter of Edward D. Miller, an Individual, Trading as National Technical Institute (Formerly National Diesel Institute)

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission and the answer of respondent, in which answer respondent admits all of the material allegations of fact set forth in said complaint and states that he waives all intervening procedure and further hearing as to said facts, and to Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That the respondent, Edward D. Miller, an individual, trading as National Technical Institute or under any other name, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, and distribution of courses of instruction in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing to prospective students that they have been especially selected; or representing to such students that they have been recommended to respondent by their high school principal or other persons, unless such recommendations have actually been made.

2. Representing, by means of so-called scholarships or otherwise, that the usual and customary tuition fee is a special or reduced price.

3. Representing that graduates of respondent's courses have usually or generally obtained lucrative employment in the particular field in which instruction has been received from respondent; or that respondent's training assures one of such employment.

4. Representing that respondent's school occupies any building or buildings larger than it in fact occupies; or owns, maintains, or uses any equipment or material in excess of that actually owned, maintained, or used.

5. Representing that respondent maintains or employs a faculty of engineers or teachers qualified to give instruction in the subjects of diesel engineering, air-conditioning, aeronautical engineering, electrical engineering, or commercial training.

6. Representing that instructors will call upon students at any time or times to teach, assist, or review the work of such students, unless this is in fact done by qualified instructors having the necessary technical qualifications.

7. Using the term "Institute" as part of the name under which respondent's business of selling courses of instruction is conducted, or using the term "Institute" in any manner to designate, describe, or refer to respondent's business.

It is further ordered, That the respondent shall, within sixty days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with his order.

By the Commission.

At a regular session of the Federal Trade Commission, held at its office in the City of Washington, D. C., on the 1st day of June, A. D. 1944.

In the Matter of M. G. Neuman, an Individual Doing Business as Valmor Products Company, Famous Products Company, and Madam Jones Company

This proceeding having been heard by the Federal Trade Commission upon the complaint of the Commission, the answer of respondent, testimony and other evidence in support of and in opposition to the allegations of the complaint taken before an examiner of the Commission theretofore duly designated by it, report of the trial examiner and exceptions thereto, briefs in support of and in opposition to the complaint, and the oral arguments of counsel; and the Commission having made its findings as to the facts and its conclusion that said respondent has violated the provisions of the Federal Trade Commission Act:

It is ordered, That respondent Morton G. Neumann, an individual trading as Valmor Products Company, Famous Products Company, Madam Jones Company, or under any other name, his representatives, agents, and employees, directly or through any corporate or other device, in connection with the offering for sale, sale, or distribution of his medicinal and cosmetic preparations hereinafter named, or any other preparation or preparations of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under and other name or names, do forthwith cease and desist from, directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by inference:

(a) That Sweet Georgia Brown Lemon Fragrance Cleansing Cream will lighten the complexion, clear up dark complexions, or in any way alter or change the color of the skin of the user.

(b) That Brown Skin Beauty Skin Brightener will lighten the skin or in any way alter or change the color of the skin of the user.

(c) That Brown Skin Beauty Lemon Fragrance Vanishing Cream will cause the skin of the user to be less oily or greasy.

(d) That Sweet Georgia Brown Sleeping Beauty Night Cream will stimulate the skin or have any stimulating effect upon the skin of the user.

(e) That Valmor Eau de Quinine Hair Tonic will promote the growth of hair, prevent the loss of hair, or act as a tonic for the scalp or hair.

(f) That Valmor Walk-Easy Foot Powder is a competent or effective remedy for tired or aching feet.

(g) That Valmor Little Blue Pills with Buchu have any therapeutic value in the treatment of functional disturbances of the kidneys; will act as a kidney stimulant; will in any way relieve backache due to bladder irritation, or pain in the back, broken sleep, or leg pains caused by ailing kidneys; or will in any way aid or assist the kidneys in removing poisons or acids from the blood; or which advertisement fails to reveal that the use of said preparation by persons having diseased or disordered kidneys may result in serious injury, and that prolonged administration of said preparation may injure normal kidneys: *Provided, however*, That any such advertisement need contain only the statement "Caution: Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or on both label and labeling, contain the above warning.

(h) That Brother Johnson's American Oil Haarlem Capsules will in any way aid or assist inactive kidneys, or relieve or prevent broken sleep or burning bladder flow, or constitute a competent or effective treatment for any kidney disorder; or which advertisement fails to reveal that the use of said preparation by persons having diseased or disordered kidneys may result in serious injury, and that prolonged administration of said preparation may injure normal kidneys: *Provided, however*, That any such advertisement need contain only the statement "Caution: Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or on both label and labeling, contain the above warning.

(i) That Old Indian System Tonic is a tonic or will exert any tonic effect upon the system; that inactive bowels cause the formation of poisons which attack the body, causing weakness, run-down condition, or fatigue, or that said preparation constitutes a competent or effective remedy for weakness, run-down condition, or fatigue; or which advertisement fails to reveal that said preparation should not be used by persons suffering from nausea, vomiting, abdominal pains, or other symptoms of appendicitis *Provided, however*, That any such advertisement need contain only the statement "Caution: "Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or on both label and labeling, contain the above warning.

(j) That Madam Jones Vegetable Compound constitutes a competent or effective remedy for cramps, pains, and nervousness due to weak or run-down condition; that it will make difficult periods more pleasant, or is of any value before or after childbirth, or during change of life; or that its use will clear the skin, make the eyes sparkle, or provide good health or a happy nature to the user; or which advertisement fails to reveal that said preparation should not be used by persons suffering from nausea, vomiting, abdominal pains, or other symptoms of appendicitis: *Provided, however*, That any such advertisement need contain only the statement "Caution: Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or on both label and labeling, contain the above warning.

(k) That Madam Jones Female Tablets are harmless and entirely safe in use; or which advertisement fails to reveal that frequent or continued use of such preparation may be dangerous: *Provided, however*, That any such advertisement need contain only the statement "Caution: Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or on both label and labeling, contain the above warning.

(l) That Valmor Red Clover Compound is a tonic or will have any tonic effect upon the system of the user; is a competent or effective treatment for tired, weak, or run-down conditions; that constipation causes poisons to enter the blood, or that said preparation would be effective in removing poisons from the blood; or which advertisement fails to reveal that said preparation should not be used by persons suffering from nausea, vomiting, abdominal pains, or other symptoms of appendicitis, or by persons having goiter or other thyroid disease, or by any one suffering from active or arrested tuberculosis: *Provided, however*, That any such advertisement need contain only the statement "Caution: Use Only as Directed," if and when the directions for use wherever they appear on the label, in the labeling, or on both label and labeling, contain the above warning.

(m) That Old Indian Herb Tea will keep the user in good health or prevent sickness; or is a competent or effective remedy for sour stomach, pimples, bad breath, or tired, dragged-out feeling.

2. Disseminating or causing to be disseminated, by any means, for the purpose of inducing or which is likely to induce, directly or indirectly the purchase of said preparations in commerce, as "commerce" is defined in the Federal Trade Commission Act, and advertisement which contains any of the representations prohibited in paragraph 1 hereof, or which advertisement concerning Valmor Little Blue Pills with Buchu, Brother Johnson's American Oil Haarlem Capsules, Old Indian System Tonic, Madam Jones Vegetable Compound, Madam Jones Female Tablets, or Valmor Red Clover Compound fails to comply with the affirmative requirements set forth respectively in subparagraphs (g), (h), (i), (j), (k), or (l) of said paragraph 1 hereof.

It is further ordered, That said respondent, his representatives, agents, and employees, directly or through any corporate or other device, do forthwith cease and desist from:

3. Using the term "Gro-Strate," or any other word or words of similar import, to designate, describe, or refer to his product "Gro-Strate Hair Dressing" or any other preparation having substantially similar ingredients or properties.

4. Using the words "Eau de Quinine," or any other words importing or implying that a preparation contains quinine, to designate, describe, or refer to any preparation which contains no quinine or an insubstantial quantity thereof.

It is further ordered, That respondent shall, within sixty (60) days after the service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with this order.

By the Commission.

PART 2—MEASUREMENT OF VESSELS

WAIVER OF ADMEASUREMENT LAWS

JUNE 28, 1944.

R. S. 4153, as amended, waived to extent necessary to permit omission of tonnage of enclosed shelter-deck space from gross tonnage of certain vessels.

Upon the written recommendation of the United States Maritime Commission and pursuant to the authority vested in me by the provisions of section 501 of the Second War Powers Act, 1942 (50 U.S.C. App. Sup. 635), I hereby waive compliance with the provisions of so much of R.S. 4153, as amended (46 U.S.C. 77), as requires the tonnage of a shelter-deck space which is under cover and permanently closed in to be added to the gross tonnage, to the extent necessary to permit the tonnage of that space to be omitted from the gross tonnage of any shelter-deck vessel to which the order of the Acting Secretary of Commerce, dated February 28, 1942 (7 F.R. 1696), and confirmed and continued by the order of the Acting Secretary of the Treasury, dated April 1, 1942 (7 F.R. 2600), or to which the order of the Acting Secretary of the Treasury, dated February 8, 1944 (9 F.R. 1611), applies, and which has been permanently enclosed in accordance with the provisions of such order even though, at the time of construction or thereafter, such space is further closed in by the construction therein of a water-tight compartment for the stowage of ammunition, whether such compartment is in the tonnage well or elsewhere. I deem that such action is necessary in the conduct of the war.

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5384]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

CREDIT FOR DIVIDENDS PAID ON PUBLIC UTILITIES PREFERRED STOCK

Regulations 111 amended to conform to section 116, Revenue Act of 1943, relating to credit for dividends paid on preferred stock of public utilities.

In order to conform Regulations 111 (26 CFR, Cum. Supp., Part 29) to section 116 of the Revenue Act of 1943 (Pub. Law 235, 78th Cong.), enacted February 25, 1944, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 29.26–1 the following:

SEC. 116. CREDIT FOR DIVIDENDS PAID ON PREFERRED STOCK OF PUBLIC UTILITIES. (Revenue Act of 1943, Title I.)

(a) *Dividends unpaid and accumulated.* Section 26 (h) (1) (relating to credit for dividends paid on certain preferred stock) is amended by inserting at the end of the first sentence thereof the following: "For the purposes of the credit provided in this subsection the amount of dividends paid shall not include any amount distributed in the current taxable year with respect to dividends unpaid and accumulated in any taxable year ending prior to October 1, 1942. Amounts distributed in the current taxable year with respect to dividends unpaid and accumulated for a prior taxable year shall for the purposes of this paragraph be deemed to be distributed with respect to the earliest year or years for which there are dividends unpaid and accumulated."

(b) Stock Issued to Replace Existing Securities.—Section 26 (h) (2) (B) (defining "preferred stock") is amended by inserting at the end thereof the following: "Stock issued on or after October 1, 1942, shall be deemed for the purposes of this paragraph to have been issued prior to October 1, 1942, if it was issued (including issuance either by the same or another corporation in a transaction which is a reorganization, as defined in section 112 (g) (1), or a transaction to which section 112 (b) (10), or so much of section 112 (d) or (e) as relates to section 112 (b) (10), is applicable, or which is a transaction subject to Supplement R) to refund or replace bonds or debentures issued prior to October 1, 1942, or to refund or replace other preferred stock (including stock which is preferred stock by reason of this sentence), but only to the extent that the par or stated value of the new stock does not exceed the par, stated, or face value of the bonds or debentures issued prior to October 1, 1942, or the other preferred stock, which such new stock is issued to refund or replace. The determination of whether stock was issued to refund or replace bonds or debentures issued prior to October 1, 1942, or to refund or replace other preferred stock, shall be made under regulations prescribed by the Commissioner with the approval of the Secretary."

SEC. 101. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1943, Title I.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1943.

PAR. 2. Section 29.26–5 is amended as follows:

(A) By inserting immediately after the heading the following: "(a) *In general.*"

(B) By amending the first sentence thereof to read as follows: "The credit provided in section 26 (h), except as provided in paragraph (b) of this section for taxable years beginning after December 31, 1943, is an amount equal to the dividends paid during the taxable year by certain public utility corporations on certain classes of preferred stock."

(C) By inserting after "October 1, 1942," in the first sentence of the second paragraph thereof the following: "except as provided in paragraph (c) of this section for taxable years beginning after December 31, 1943,".

(D) By inserting at the end thereof the following two new paragraphs:

(b) *Amount of credit for taxable years beginning after December 31, 1943.* For taxable years beginning after December 31, 1943, the amount of dividends paid in a given taxable year shall not include any amount distributed in such year with respect to dividends unpaid and accumulated in any taxable year ending prior to October 1, 1942. If any distribution is made in the current taxable year with respect to dividends unpaid and accumulated for a prior taxable year, such distribution will be deemed to have been made with respect to the earliest year or years for which there are dividends unpaid and accumulated. Thus, if a public utility makes a distribution with respect to a prior taxable year, it shall be considered that such distribution was made with respect to the earliest year or years for which there are dividends unpaid and accumulated, whether or not the public utility states that the distribution was made with respect to such year or years and even though the public utility states that the distribution was made with respect to a later year. Even though it has dividends unpaid and accumulated with respect to a taxable year ending prior to October 1, 1942, a public utility may, however, receive credit for dividends paid with respect to the current taxable year. If there are no dividends unpaid and accumulated with respect to a taxable year ending prior to October 1, 1942, a public utility may receive credit for dividends paid with respect to a prior taxable year which ended after October 1, 1942; and such credit may be in addition to a credit for dividends paid with respect to the current taxable year. However, if local law or its own charter requires a public utility to pay all unpaid and accumulated dividends before any dividends can be paid with respect to the current taxable year, such public utility will not receive credit for any distribution in the current taxable year to the extent that there are dividends unpaid and accumulated with respect to taxable years ending prior to October 1, 1942.

(c) *Stock issued on or after October 1, 1942.* In the case of taxable years beginning after December 31, 1943, stock issued on or after October 1, 1942 under certain circumstances will be considered as having been issued prior to October 1, 1942 for purposes of the credit provided in section 26 (h). If the new stock is issued on or after October 1, 1942 to refund or replace bonds or debentures which were issued prior to October 1, 1942, or to refund or replace other stock which was preferred stock within the meaning of section 26 (h) (2) (B), such new stock shall be considered as having been issued prior to October 1, 1942. If stock is issued to refund or replace stock which was preferred stock within the meaning of section 26 (h) (2) (B), it shall be immaterial whether the preferred stock so refunded or replaced was issued before, on, or after October 1, 1942. If stock issued on or after October 1, 1942 to refund or replace stock, which was issued prior to October 1, 1942 and which was preferred stock within the meaning of section 26 (h) (2) (B), is not itself preferred stock within the meaning of section 26 (h) (2) (B), no stock issued to refund or replace such stock can be considered preferred stock for purposes of the credit provided in section 26 (h).

In the case of any stock issued on or after October 1, 1942 to refund or replace bonds or debentures issued prior to October 1, 1942, or to refund or replace other stock which was preferred stock within the meaning of section 26 (h) (2) (B), only that portion of the stock issued on or after October 1, 1942 will be considered as having been issued prior to October 1, 1942, the par or stated value of which does not exceed the par, stated, or face value of such bonds, debentures, or other preferred stock which the new stock was issued to refund or replace. In such case no shares of the new stock issued on or after October 1, 1942 shall be earmarked in determining the credit allowable under section 26 (h), but the appropriate allocable portion of the total amount of dividends paid on such stock will be allowable as a credit under such section.

EXAMPLE. If a public utility has outstanding 1,000 bonds which were issued prior to October 1, 1942 and each of which has a face value of $100 and if on or after October 1, 1942 each of such bonds is retired in exchange for one and one-tenth shares of stock issued on or after October 1, 1942 and having a par value of $100 per share, only ten-elevenths of the dividends paid on the stock thus issued in exchange for the bonds will be considered as having been paid on stock which was issued prior to October 1, 1942. If a dividend of $6 a share is paid on such stock during the taxable year, a credit of $6,000 will be allowable under the provisions of section 26 (h). Likewise, if stock which is issued on or after October 1, 1942 has no par value but a stated value of $50 per share and such stock is issued in a ratio of three shares to one share to refund or replace preferred stock having a par value of $100 per share, only two-thirds of the dividends paid on the new shares of stock will be considered as having been paid on stock which was issued prior to October 1, 1942. If a total of $27,000 is paid as a dividend on such new stock during the taxable year a credit of $18,000 will be allowable under the provisions of section 26 (h).

Whether or not stock issued on or after October 1, 1942 was issued to refund or replace bonds or debentures issued prior to October 1, 1942, or to refund or replace other preferred stock, is in each case a question of fact. Among the factors to be considered is whether such stock is new in an economic sense to the corporation or whether it was issued merely to take the place, directly or indirectly, of bonds, debentures, or other preferred stock of such corporation. It is not necessary that the new stock be issued in exchange for such bonds, debentures, or other preferred stock. The mere fact that the bonds, debentures, or other preferred stock remain in existence for a short period of time after the issuance of the new stock (or were retired before the issuance of the new stock) does not necessarily mean that such new stock was not issued to refund or replace such bonds, debentures, or other preferred stock. It is necessary to consider the entire transaction, including the issuance of the new stock, the date of such issuance, the retirement of the old bonds, debentures, or preferred stock, and the date of such retirement, in order to determine whether such new stock really was issued to take the place of bonds, debentures, or other preferred stock of the corporation or whether it represents something essentially new in an economic sense in the corporation's financial structure. If, for example, a public utility, which has outstanding bonds issued prior to October 1, 1942, issues new stock on March 1, 1944 in order to secure funds with which to retire such bonds and with the money paid in for such stock retires the bonds on April 1, 1944, such stock may be considered as having been issued to refund or replace bonds issued prior to October 1, 1942. Whether the money used to retire the bonds can be traced back and identified as the money paid in for the stock will have evidentiary value, but will not be conclusive, in determining whether the stock was issued to refund or replace the bonds. Similarly, whether the amount of money used to retire the bonds was smaller than, equal to, or greater than that paid in for the stock, or whether the entire issue of bonds is retired, will be important, but not decisive, in making such determination.

Stock issued on or after October 1, 1942 by a corporation to refund or replace bonds or debentures of a second corporation which were issued prior to October 1, 1942, or to refund or replace other preferred stock of such second corporation, may be considered as having been issued prior to October 1, 1942 if such new stock was issued (1) in a transaction which is a reorganization within the meaning of section 112 (g) (1); or (2) in a transaction to which section 112 (b) (10), relating to reorganization of certain insolvent corporations, or so much of section 112 (d) or (e) as relates to section 112 (b) (10), is applicable; or (3) in a transaction which is subject to the provisions of Supplement R, relating to exchanges and distributions in obedience to orders of the Securities and Exchange Commission. Whether the stock actually was issued to refund or replace bonds or debentures of the second corporation issued prior to October 1, 1942, or to refund or replace preferred stock of such second corporation, shall be determined under the same principles as if only one corporation were involved. A corporation may issue stock to refund or replace its own bonds, debentures, or other preferred stock in a transaction which is a reorganization within the meaning of section 112 (g) (1), in a transaction to which section 112 (b) (10), or so much of section 112 (d) or (e) as relates to section 112 (b) (10), is applicable, or in a transaction which is subject to the provisions of Supplement R. The provisions of this subsection, in addition, are applicable in case a corporation issues stock on or after October 1, 1942 to refund or replace its own bonds, debentures, or other preferred stock even though the issuance of such stock may not fall within one of the categories enumerated above.

Even though stock issued on or after October 1, 1942 is considered as having been issued prior to October 1, 1942 by reason of having been issued to refund or replace bonds or debentures issued prior to October 1, 1942, or to refund or respect of dividends paid on such stock, will not be deemed to be preferred stock within the meaning of section 26 (h) (2) (B), and no credit will be allowable in respect of dividends paid on such stock, unless the stock fulfills all the other requirements of a preferred stock set forth in section 26 (h) (2) (B) and in paragraph (a) of this section.

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

GROSS INCOME OF CERTAIN INSURANCE COMPANIES

Amending § 29.204–2 of Regulations 111, relating to gross income of insurance companies other than life or mutual and mutual marine insurance companies.

Section 29.204–2 of Regulations 111 (26 CFR, Cum. Supp., Part 29) is amended by adding at the end thereof a new paragraph to read as follows:

For taxable years beginning after December 31, 1943 every insurance company to which this section applies must be prepared to establish to the satisfaction of the Commissioner of Internal Revenue that the part of the deduction for "losses incurred" which represents unpaid losses at the close of the taxable year comprises only actual unpaid losses stated in amounts which, based upon the facts in each case and the company's experience with similar cases, can be said to represent a fair and reasonable estimate of the amount the company will be required to pay. Amounts included in, or added to, the estimates of such losses which, in the opinion of the Commissioner, are in excess of the actual liability determined as provided in the preceding sentence will be disallowed as a deduction. For taxable years beginning after December 31, 1943, the Commissioner may require any such insurance company to submit such detailed information with respect to its actual experience as is deemed necessary to establish the reasonableness of the deduction for "losses incurred."

PART 30—REGULATIONS UNDER THE EXCESS PROFITS TAX ACT OF 1940

PART 35—EXCESS-PROFITS TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

Regulations 109 and 112 amended to conform to the Revenue Act of 1943, section 201, relating to taxable years to which amendments applicable, section 202 (a) and (b), relating to increase in excess profits tax rate, section 203, relating to certain fiscal year taxpayers, section 204 (a) and (b), relating to increase in specific exemption, section 205, relating to reduction of excess profits credit based on invested capital in certain brackets, and section 206, relating to publicity of relief granted under section 722.

In order to conform Regulations 109 (Part 30, Title 26, Code of Federal Regulations, 1941 Supp.) and Regulations 112 (Part 35, Title 26, Code of Federal Regulations, Cum. Supp.) to sections 201, 202 (a) and (b), 203, 204 (a) and (b), 205, and 206 of the Revenue Act of 1943 (Public Law 235, 78th Congress) enacted February 25, 1944, such regulations are amended as follows:

PARAGRAPH 1. There is inserted immediately preceding § 30.710–1 the following:

SEC. 203. CERTAIN FISCAL YEAR TAXPAYERS. (Revenue Act of 1943, Title II.)

* * * * *

(b) *Computation of tax for taxable year beginning in 1941 and ending after June 30, 1942.*—Section 710 (a) (3) (relating to certain fiscal year taxpayers) is amended to read as follows:

(3) Taxable years beginning in 1941 and ending after June 20, 1942.—In the case of a taxable year beginning in 1941 and ending after June 30, 1942, the tax shall be an amount equal to the sum of—

(A) that portion of a tentative tax under this subchapter, computed as if the law applicable to taxable years beginning on January 1, 1941, were applicable to such taxable year, which the number of days in such taxable year before July 1, 1942, bears to the total number of days in such taxable year, plus

(B) that portion of a tentative tax under this subchapter, computed as if the law applicable to taxable years beginning on January 1, 1941, were applicable to such taxable year, but as if the amendments made by sections 105 (a), (b) (other than those relating to dividends on the preferred stock of public utilities), (c), (d), and (e) (1), 202, and 206 of the Revenue Act of 1942 were applicable to such taxable year, which the number of days in such taxable year after June 30, 1942, bears to the total number of days in such taxable year."

(c) *Taxable years to which applicable.*—The amendment made by subsection (a) shall be applicable only to taxable years beginning in 1943 and ending in 1944. The amendments made by subsection (b) shall be applicable only to taxable years beginning in 1941 and ending after June 30, 1942.

PAR. 2. Section 30.710–4 (b), as added by Treasury Decision 5246, approved March 18, 1943, is amended as follows:

(A) By changing that part of the second paragraph designated as "(2)" to read as follows:

(2) That portion of a tentative excess profits tax computed under the law applicable to taxable years beginning on January 1, 1941, determined as if such law included the amendments made by the Revenue Act of 1942 in section 105 (a), relating to normal tax, section 105 (b) (other than those relating to dividends on the preferred stock of public utilities), relating to surtax on corporations, section 105 (c), relating to the nondeductibility of the excess profits tax in computing net income, section 105 (d), relating to the credit under section 26 (e) for income subject to the excess profits tax, section 105 (e) (1), relating to credit for dividends received, section 202, relating to rate of excess profits tax for taxable years beginning after December 31, 1941, and section 206, relating to certain technical changes in the determination of excess profits net income under section 711 occasioned by the change in base for the computation or normal tax and surtax, which the number of days after June 30, 1942, in the taxable year of the taxpayer bears to the total number of days in such year.

(B) By changing the reference to "item 79" in 79 of the example to read "item 78".

PAR. 3. There is inserted immediately preceding § 35.710–1 the following:

SEC. 202. INCREASE IN EXCESS PROFITS TAX RATE. (Revenue Act of 1943, Title II.)

(a) *In general.* Section 710 (a) (1) (A) (relating to the rate of excess profits tax) is amended to read as follows:

(A) 95 per centum of the adjusted excess profits net income, or.

(b) *Technical amendment relating to public utilities.* Section 710 (a) (1) (B) (relating to the 80 per centum limitation) is amended by inserting before the period at the end thereof the following: ", and without regard to 80 per centum of the credit provided in section 26 (h) relating to credit for dividends paid on certain preferred stock)."

* * * * *

SEC. 203. CERTAIN FISCAL YEAR TAXPAYERS. (Revenue Act of 1943, Title II.)

(a) *Computation of tax for taxable years beginning in 1943 and ending in 1944.* Section 710 (a) (relating to imposition of excess profits tax) is amended by inserting at the end thereof the following new paragraph:

(6) *Taxable years beginning in 1943 and ending in 1944.* In the case of a taxable year beginning in 1943 and ending in 1944, the tax shall be an amount equal to the sum of—

(A) that portion of a tentative tax computed as if the law applicable to taxable years beginning on January 1, 1943, were applicable to such taxable year, which the number of days in such taxable year prior to January 1, 1944, bears to the total number of days in such taxable year, plus

(B) that portion of a tentative tax, computed as if the law applicable to taxable years beginning on January 1, 1944, were applicable to such taxable year, which the number of days in such taxable year after December 31, 1943, bears to the total number of days in such taxable year.

* * * * *

(c) *Taxable years to which applicable.* The amendment made by subsection (a) shall be applicable only to taxable years beginning in 1943 and ending in 1944. The amendments made by subsection (b) shall be applicable only to taxable years beginning in 1941 and ending after June 30, 1942.

SEC. 204. INCREASE IN SPECIFIC EXEMPTION. (Revenue Act of 1943, Title II.)

(a) *In general.* Section 710 (b) (1) (relating to the specific exemption) is amended by striking out "$5,000" and inserting in lieu thereof "$10,000".

* * * * *

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1943, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1943.

PAR. 4. Section 35.710–1 is amended as follows:

(A) By striking out the third and fourth sentences and inserting in lieu thereof the following:

A corporation whose excess profits net income, computed as provided in section 711 (a) (2) and (3), is not greater than $5,000 for a taxable year beginning prior to January 1, 1944, or is not greater than $10,000 for a taxable year beginning after December 31, 1943, or in the case of a mutual insurance company (other than life or marine) which is an inter-insurer or reciprocal underwriter whose excess profits net income is not greater than $50,000 for any taxable year, need not file an excess profits tax return for such a taxable year. See section 729 (b) as amended by section 204 of the Revenue Act of 1943.

(B) By striking out the last sentence and inserting in lieu thereof the following:

The excess profits tax for a taxable year beginning prior to January 1, 1944, shall not exceed an amount which when added to the normal tax and surtax for such year equals 80 percent of the corporation surtax net income computed without regard to the credit provided in section 26 (e) for income subject to excess profits tax. The excess profits tax for any taxable year beginning after December 31, 1943, shall not exceed an amount which when added to the normal tax and surtax for such year equals 80 percent of the corporation surtax net income computed without regard to the credit provided in section 26 (e) for income subject to excess profits tax and without regard to 80 percent of the credit provided in section 26 (h) for dividends paid on certain preferred stock.

PAR. 5. Section 35.710–2 is amended as follows:

(A) By striking out that part of the first paragraph designated as "(a)" and inserting in lieu thereof the following:

(a) A specific exemption of $5,000 for a taxable year beginning prior to January 1, 1944, and of $10,000 for a taxable year beginning after December 31, 1943, except that in the case of a mutual insurance company (other than life or marine) which is an interinsurer or reciprocal underwriter the specific exemption for any taxable year is $50,000.

(B) By striking out the second paragraph and inserting in lieu thereof the following:

For the computation of corporation surtax net income appropriately adjusted under section 710 (a) (1) (B) in those cases where the excess profits tax is computed under such section as an amount which when added to the tax imposed by Chapter 1 (other than section 102) equals 80 percent of such corporation surtax net income, see § 35.710–4.

PAR. 6. Section 35.710–3 (b) is amended as follows:

(A) By striking out the fifth sentence of the first paragraph and inserting in lieu thereof the following:

The amount of the unused excess profits credit which was so applied is determined as follows: The adjusted excess profits net income is computed for each such taxable year without the specific exemption allowed by section 710 (b) (1) of $5,000 for a taxable year beginning prior to January 1, 1944, or of $10,000 for a taxable year beginning after December 31, 1943, and without credit of any carry-over or carry-back from the taxable year in which such unused excess profits credit arose or from any taxable year subsequent thereto.

(B) By inserting a comma in lieu of the period after "December 31, 1939" in the first sentence of the second paragraph.

(C) By striking from the last three sentences of the second paragraph the words "specific exemption of $5,000" wherever they appear and by inserting in lieu thereof the words "applicable specific exemption."

(D) By striking out that part of the example designated as "(2) (iii)" and inserting in lieu thereof the following:

(iii) For 1946, the carry-over is $10,000, determined by reducing the $75,000 unused excess profits credit by the sum of the adjusted excess profits net incomes for 1943 and 1944 computed for the year 1943 without the deduction of the $5,000 specific exemption and for the year 1944 without the deduction of the $10,000 specific exemption and further computed for both 1943 and 1944 without any carry-back from 1945 or any year subsequent to 1945 (for 1943, the $185,000 excess profits net income less the $100,000 excess profits credit and the $20,000 carry-back from 1944, or $65,000, plus, for 1944, the $55,000 excess profits net income less the $100,000 excess profits credit, or $0 adjusted excess profits net income, a total of $65,000).

(E) By changing "$5,000", wherever it appears in that part of the example designated as "(2) (iv)" and as "(3) (ii), (iii), and (iv)", to read "$10,000".

(F) By inserting "or $10,000" immediately after $5,000" in the last paragraph.

PAR. 7. Section 35.710–3 (c) is amended by inserting immediately preceding the last sentence the following new sentence:

For disallowance of interest with respect to any part of such an overpayment which is determined by the Commissioner to be attributable to the final determination of an application for relief or benefit under section 722 for any taxable year, see section 3771 (g).

PAR. 8. Section 35.710–4 is amended as follows:

(A) By striking out that part of the first paragraph immediately preceding and including the colon and inserting in lieu thereof the following:

(a) *Taxable years beginning and ending prior to January 1, 1944.* The excess profits tax for a taxable year beginning and ending prior to January 1, 1944 shall be whichever of the following is the lesser:

(B) By renumbering "(a)" and "(b)" following the colon in the first paragraph to read "(1)" and "(2)", respectively.

(C) By changing the phrase "paragraph (b)" in the first sentence of the second paragraph to read "subparagraph (2)".

(D) By changing the word "section" in that portion of the third paragraph immediately preceding the first colon to read "paragraph".

(E) By inserting immediately preceding the first sentence of the last paragraph the following new paragraph heading: "(d) *Mutual insurance companies.*".

(F) By inserting immediately preceding such new paragraph (d) the following new subsections:

(b) *Taxable years beginning in 1943 and ending in 1944.* The excess profits tax for a taxable year beginning in 1943 and ending in 1944 is an amount determined under section 710 (a) (6) in lieu of an amount which would otherwise be determined under the law applicable to a taxable year beginning on January 1, 1943. Such excess profits tax is computed in a manner comparable to the computation of the normal tax and surtax under section 108 (b) (1) for the same taxable year, that is, as the sum of the proportionate parts of two tentative taxes. See § 29.108–1 of this chapter. Consequently, each of the tentative excess profits taxes is to be computed in the light of, and with regard to, the computation of the corresponding tentative normal tax and surtax.

The excess profits tax computed under section 710 (a) (6) for a taxable year beginning in 1943 and ending in 1944 is an amount equal to the sum of:

(1) That portion of a tentative excess profits tax computed under the law applicable to taxable years beginning on January 1, 1943, which the number of days prior to January 1, 1944, in the taxable year of the taxpayer bears to the total number of days in such year, plus:

(2) That portion of a tentative excess profits tax computed under the law applicable to taxable years beginning on January 1, 1944, which the number of days after December 31, 1943, in the taxable year of the taxpayer bears to the total number of days in such year.

The tentative excess profits tax determined under section 710 (a) (6) (A) or section 710 (a) (6) (B), to be prorated in the determination of the excess profits tax under section 710 (a) (6), shall be the taxes prior to the credit under section 729 (c) and (d) for tax paid to a foreign country or possession of the United States, prior to the adjustment under section 734 on account of position inconsistent with prior income tax liability, and prior to the credit for debt retirement under section 783, but after the deduction of the tax deferment provided in section 710 (a) (5). The credit under section 729 (c) and (d), the adjustment under section 734, and the credit under section 783 shall be applied against the sum of the portions of the tentative excess profits taxes finally determined under section 710 (a) (6).

The excess profits net income for the purposes of the tentative excess profits tax under section 710 (a) (6) (A) shall be computed upon the basis of the normal tax net income determined for the purposes of the first tentative normal tax under section 108 (b) (1) (A), and any adjustments under section 711 (a) (1) and (2), applicable to a taxable year beginning on January 1, 1943, shall be made with respect to such normal tax net income. The excess profits net income for the purposes of the tentative excess profits tax under section 710 (a) (6) (B) shall be computed on the basis of the normal tax net income determined for the purposes of the second tentative normal tax under section 108 (b) (1) (B), and any adjustments under section 711 (a) (1) and (2) applicable to a taxable year beginning on January 1, 1944, shall be made with respect to such normal tax net income.

Each tentative excess profits tax is subject to the limitation in section 710 (a) (1) (B), that such tax when added to the normal tax and surtax imposed for the taxable year under Chapter 1 shall not exceed 80 percent of the corporation surtax net income computed with the proper adjustments provided in section 710 (a) (1) (B). With respect to the first tentative excess profits tax under section 710 (a) (6) (A), the corporation surtax net income for the purposes of the computation provided in section 710 (a) (1) (B) shall be determined without regard to the credit provided in section 26 (e) (relating to income subject to excess profits tax), and the normal tax and surtax shall be the tentative normal tax and surtax computed under section 108 (b) (1) (A). With respect to the second tentative excess profits tax computation provided in section 710 (a) (6) (B), the corporation surtax net income for the purposes of the computation provided in section 710 (a) (1) (B) shall be computed without regard to the credit provided in section 26 (e) (relating to income subject to excess profits tax) and without regard to 80 percent of the credit provided in section 26 (h) (relating to dividends paid on certain preferred stock), and the normal tax and surtax shall be the tentative normal tax and surtax computed under section 108 (b) (1) (B). For the computation of corporation surtax net income for purposes of the excess profits tax computation under section 710 (a) (1) (B), see § 35.710–4 (a) and (c).

The amount of the tax deferment under section 710 (a) (5) shall be deducted in the computation of each tentative excess profits tax under section 710 (a) (6) (A) and section 710 (a) (6) (B). In determining the applicability of section 710 (a) (5) with respect to the first tentative excess profits tax computation under section 710 (a) (6) (A), the adjusted excess profits net income shall be the adjusted excess profits net income computed under section 710 (a) (6) (A) and the normal tax net income shall be the normal tax net income computed under section 108 (b) (1) (A); with respect to the second tentative excess

profits tax computation under section 710 (a) (6) (B), the adjusted excess profits net income shall be the adjusted excess profits net income under section 710 (a) (6) (B) and the normal tax net income shall be the normal tax net income computed under section 108 (b) (1) (B). The amount by which either tentative excess profits tax may be reduced shall be an amount equal to 33 percent of the amount by which such tentative excess profits tax computed without the benefits of section 722 exceeds the amount of such tentative excess profits tax computed by using the excess profits credit based upon a constructive average base period net income claimed by the taxpayer under section 722 in lieu of the actual credit. See § 35.710–5 as to the computation of the tax deferment under section 710 (a) (5).

If the taxable year which begins in 1943 and ends in 1944 is a taxable year of less than twelve months, the excess profits net income shall be placed on an annual basis under section 711 (a) (3) (A) for the purposes of both tentative tax computations under section 710 (a) (6) and this subsection, or shall be determined as the actual excess profits net income for a twelve-month period under the method provided in section 711 (a) (3) (B) for the purposes of both such tentative tax computations. Regardless of the method adopted, the amounts of excess profits taxes so computed upon the basis of twelve months' income shall be properly reduced under section 711 (a) (3) in order to determine the tentative taxes under section 710 (a) (6) (A) and (B), and the tentative taxes so determined shall then be properly prorated upon the basis prescribed in section 710 (a) (6) (A) and (B).

If the excess profits net incomes for the purposes of the tentative taxes for a taxable year of less than 12 months are placed on an annual basis under section 711 (a) (3) (A), the normal tax net income used in computing excess profits net income for each tentative tax shall be the normal tax net income determined under section 108 (b) (1) (A) or section 108 (b) (1) (B), as the case may be, and the appropriate adjustments under section 711 (a) (1) and (2) shall be based upon such normal tax net income. If such tentative taxes are computed under section 711 (a) (3) (B) on the basis of an established adjusted excess profits net income for a 12-month period, the normal tax net income used in computing excess profits net income for each tentative tax shall be the normal tax net income determined under section 108 (b) (1) (A) or section 108 (b) (1) (B), as the case may be, for the appropriate 12-month period described in section 711 (a) (3) (B), and the proper adjustments under section 711 (a) (1) and (2) shall be made with respect to such normal tax net income.

Each tentative excess profits tax is subject to the limitation in section 710 (a) (1) (B) that such tax when added to the corresponding normal tax and surtax shall not exceed 80 percent of the corporation surtax net income computed with the proper adjustments prescribed in section 710 (a) (1) (B). If section 710 (a) (1) (B) is applicable to the computation of the first tentative excess profits tax under section 710 (a) (6) (A), the normal tax and surtax shall be the first tentative normal tax and surtax ascertained under section 108 (b) (1) (A); the corporation surtax net income shall be the corporation surtax net income computed under section 108 (b) (1) (A) without regard to the credit under section 26 (e) (relating to income subject to excess profits tax), but upon the basis, annual basis or basis of an established twelve-month period, which is used in computing the excess profits tax. If section 710 (a) (1) (B) is applicable to the computation of the second tentative excess profits tax under section 710 (a) (6) (B), the normal tax and surtax shall be the second tentative normal tax and surtax ascertained under section 108 (b) (1) (B); the corporation surtax net income shall be the corporation surtax net income computed under section 108 (b) (1) (B) without regard to the credit under section 26 (e) (relating to income subject to excess profits tax) and without regard to 80 percent of the credit provided in section 26 (h) (relating to dividends paid on certain preferred stock), but upon the basis, annual basis or basis of an established twelve-month period, which is used in computing the excess profits tax. The amount determined by multiplying the corporation surtax net income so computed by 80 percent shall be properly reduced pursuant to section 711 (a) (3). The difference between such amount so reduced and the sum of the appropriate tentative normal tax and surtax shall be the tentative excess profits tax computed under section 710 (a) (1) (B). For the computation of the excess profits tax in case of a taxable year of less than twelve months, see section 711 (a) (3) and § 35.711 (a)–4.

(c) *Taxable years beginning after December 31, 1943.* The excess profits tax for taxable years beginning after December 31, 1943, shall be whichever of the following is the lesser:

(1) An amount equal to 95 percent of the adjusted excess profits net income, or

(2) An amount which when added to the tax imposed for the taxable year under Chapter 1 (not including the tax under section 102 on account of the improper accumulation of surplus) equals 80 percent of the corporation's surtax net income, computed under section 15 or Supplement G (relating to insurance companies), as the case may be, but without regard to the credit provided in section 26 (e), relating to income subject to excess profits tax, and without regard to 80 percent of the credit provided in section 26 (h), relating to credit for dividends paid on certain preferred stock.

For the purposes of section 710 (a) (1) (B) and of clause (2) of the preceding sentence, the tax imposed for the taxable year under Chapter 1 is the sum of the normal tax and surtax for such year prior to the credit under section 131 for taxes paid to a foreign country or possession of the United States. The corporation surtax net income for such purposes shall be computed by disregarding the credit under section 26 (e) (relating to income subject to excess profits tax), otherwise provided in section 15 (a) or Supplement G as a reduction against net income both in determining corporation surtax net income and in determining the amount of net income upon which is computed the 85 percent limitation upon the credit for dividends received, and by disregarding 80 percent of the credit under section 26 (h) (relating to dividends paid on certain preferred stock) otherwise provided in section 15 (a) or Supplement G as a reduction in determining corporation surtax net income. The credit provided in section 26 (h) shall not include any amount distributed with respect to dividends unpaid and accumulated in any taxable year ending prior to October 1, 1942. In all other respects, corporation surtax net income shall be computed as provided in section 15 (a) or Supplement G, as the case may be, with respect to taxable years beginning after December 31, 1943.

The application of section 710 (a) (1) and of this paragraph may be shown by the following example:

Assume that Corporation A, which makes its return on the calendar year basis, is a public utility corporation within the definition in section 26 (h) (2) (A). Its net income for the calendar year 1944 is $411,000 and includes $100,000 of dividends upon the common stock of a domestic manufacturing company. It has paid a dividend of $5,000 on its preferred stock (as defined in section 26 (h) (2) (B)), and the amount so distributed did not include any dividends unpaid and accumulated in any taxable year ending prior to October 1, 1942. Its excess profits net income is $500,000, its excess profits credit is $145,000, and it has no unused excess profits credit adjustment. Its excess profits tax is $257,927, computed as follows:

Excess Profits Tax	
1. Excess profits net income	$500,000
2. Specific exemption	10,000
3. Excess profits credit	145,000
4. Total of item 2 and item 3	155,000
5. Adjusted excess profits net income	$345,000
6. Excess profits tax (95% of item 5)	327,750
7. Net income (computed without regard to credit provided in section 26 (e) relating to income subject to excess profits tax)	$411,000
8. Less:	
(a) Dividends received credit (85 percent of $100,000 but not in excess of 85 percent of item (7)	85,000
(b) Credit provided in section 26 (h) for dividends paid on certain preferred stock, computed without regard to 80 percent thereof (20 percent of $5,000)	1,000
	86,000
Excess Profits Tax—Continued	
9. Corporation surtax net income (computed without regard to the credit provided in section 26 (e) and without regard to 80 percent of the credit provided in section 26 (h)) (item 7 minus item 8)	$325,000
10. 80 percent of item 9	260,000
11. Income tax under Chapter 1 (other than section 102) for the taxable year (item 26)	2,073
12. Excess of item 10 over item 11	257,927
13. Excess profits tax (item 6 or item 12, whichever is the lesser)	257,927
Normal Tax	
14. Net income (adjusted net income)	411,000
15. Less income subject to excess profits tax (credit under section 26 (e)) (item 5)	345,000
16. Item 14 minus item 15	66,000
17. Dividends received credit (85 percent of $100,000 but not in excess of 85 percent of item 16)	56,100
18. Normal tax net income	9,900
19. Normal tax ($750 plus 17 percent of $4,900)	1,583
Surtax	
20. Net income	411,000
21. Less income subject to excess profits tax (credit under section 26 (e)) (item 5)	345,000
22. Item 20 minus item 21	66,000
23. Less:	
(a) Dividends received credit (85 percent of $100,000 but not in excess of 85 percent of item 22)	56,100
(b) Dividends paid on certain preferred stock	5,000
	61,100
24. Corporation surtax net income	4,900
25. Surtax (10 percent of item 24)	490
26. Total normal tax and surtax (item 19 plus item 25)	2,073

PAR. 9. Section 35.710–5 is amended by striking out the last sentence of the second paragraph and inserting in lieu thereof the following:

In any case in which the excess profits tax computed with the use of the constructive average base period net income is determined under section 710 (a) (1) (B) as an amount which when added to the normal tax and surtax imposed under Chapter 1 equals 80 percent of the corporation surtax net income properly adjusted under section 710 (a) (1) (B), the credit for income subject to excess profits tax provided in section 26 (e), used in determining normal tax net income and corporation surtax net income, shall be computed for the purposes of determining such normal tax and surtax by using the excess profits credit based upon the constructive average base period net income in lieu of the actual excess profits credit.

PAR. 10. There is inserted immediately preceding § 35.714–1 the following:

SEC. 205. REDUCTION OF EXCESS PROFITS CREDIT BASED ON INVESTED CAPITAL IN CERTAIN BRACKETS. (Revenue Act of 1943, Title II.)

Section 714 (relating to the excess profits credit based on invested capital) is amended to read as follows:

SEC. 714. EXCESS PROFITS CREDIT—BASED ON INVESTED CAPITAL.

The excess profits credit, for any taxable year, computed under this section, shall be the amount shown in the following table:

If the invested capital for the taxable year, determined under section 715 is:	The credit shall be:
Not over $5,000,000	8% of the invested capital.
Over $5,000,000, but not over $10,000,000.	$400,000, plus 6% of the excess over $5,000,000.
Over $10,000,000	$700,000, plus 5% of the excess over $10,000,000.

SEC. 201. TAXABLE YEARS TO WHICH AMENDMENTS APPLICABLE. (Revenue Act of 1943, Title II.)

Except as otherwise expressly provided, the amendments made by this title shall be applicable only with respect to taxable years beginning after December 31, 1943.

PAR. 11. Section 35.714–1 is amended by striking out the second sentence and inserting in lieu thereof the following:

Regardless of the ratio of earnings to invested capital for previous taxable years, such credit is an amount equal to 8 percent of the corporation's invested capital for the taxable year, except that if such invested capital for any taxable year exceeds $5,000,000, the credit for such taxable year is an amount determined in accordance with the following tables:

TAXABLE YEARS BEGINNING PRIOR TO JANUARY 1, 1944

Invested capital	*Credit*
Over $5,000,000 but not over $10,000,000.	$400,000, plus 7% of the excess over $5,000,000.
Over $10,000,000, but not over $200,000,000.	$750,000, plus 6% of the excess over $10,000,000.
Over $200,000,000	$12,150,000, plus 5% of the excess over $200,000,000.

TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1943

Over $5,000,000 but not over $10,000,000.	$400,000, plus 6% of the excess over $5,000,000.
Over $10,000,000	$700,000, plus 5% of the excess over $10,000,000.

PAR. 12. There is inserted immediately preceding § 35.722–1 the following:

SEC. 206. PUBLICITY OF RELIEF GRANTED UNDER SECTION 722. (Revenue Act of 1943, Title II.)

(a) *In general.* Section 722 is amended by inserting at the end thereof the following new subsection:

(g) The Commissioner shall compile for each fiscal year beginning after June 30, 1941, by internal revenue districts, and alphabetically arranged, all cases in which relief has been allowed during such year under the provisions of this section by the Commissioner and by The Tax Court of the United States, as the case may be. Such compilation shall contain the name and address of each taxpayer to which relief has been so allowed, the business in which the taxpayer is engaged, the amount of the excess profits credit before such allowance, the increase in such credit claimed, the increase in such credit allowed, and the amount of the gross reduction in the tax under this subchapter and of the gross increase in the tax under Chapter 1, which results from the operation of this section. In the case of relief allowed by The Tax Court of the United States, the Commissioner shall also set forth the data previously reported under this subsection with respect to relief previously allowed in such case by the Commissioner. Such compilation shall be published in the FEDERAL REGISTER.

(b) *Taxable years to which applicable.* The compilation of cases required by the amendment made by subsection (a) shall not be limited to cases relating to taxable years beginning after December 31, 1943.

PAR. 13. There is inserted immediately preceding § 35.729–1 the following:

SEC. 204. INCREASE IN SPECIFIC EXEMPTION. (Revenue Act of 1943, Title II.)

* * * * * * *

(b) *Return requirement.* Section 729 (b) (2) (relating to return requirement) is amended by striking out "$5,000" and inserting in lieu thereof "$10,000".

Subchapter C—Miscellaneous Excise Taxes

[T. D. 5385]

PART 101—TAXES ON ADMISSIONS, DUES, AND INITIATION FEES

CABARET TAX

In order to conform Regulations 43 (26 CFR, Cum. Supp., Part 101), relating to taxes on admissions, cabarets, dues, and initiation fees under Chapter 10 of the Internal Revenue Code, as amended, to section 3 of the Public Debt Act of 1944 (Pub. Law 333, 78th Cong.), approved June 9, 1944, and for other purposes, such regulations are hereby amended as follows:

PARAGRAPH 1. The words appearing in parentheses in the heading beginning "Part 101" immediately preceding "Subpart A—Introductory," as amended by Treasury Decision 5349, approved March 17, 1944, are further amended by adding

at the end thereof "and the Public Debt Act of 1944."

PAR. 2. The first sentence of the first paragraph of § 101.0, as amended by Treasury Decision 5349, is further amended by changing the period at the end thereof to a comma and adding thereafter the following: "and the Public Debt Act of 1944."

PAR. 3. Immediately preceding § 101.1 there is inserted the following:

SEC. 3. REDUCTION OF WAR TAX RATE ON CABARETS, ROOF GARDENS, ETC. (Public Debt Act of 1944, approved June 9, 1944.)

* * * * *

(b) *Effective date.* The amendment made by subsection (a) shall be applicable only with respect to the period beginning at 10 antemeridian on the first day of the first month following the date of enactment of this Act.

PAR. 4. Section 101.1 as amended by Treasury Decision 5349, is further amended as follows:

(A) By changing the period at the end of the second paragraph to a comma and adding thereafter the following: "and the Public Debt Act of 1944."

(B) By inserting at the end of the third paragraph the following: "The amendment made by the Public Debt Act of 1944, and the amendments of these regulations pursuant to such act, with respect to the cabaret tax become effective at 10 a. m. on July 1, 1944."

PAR. 5. Immediately preceding § 101.13 there is inserted the following:

SEC. 3. REDUCTION OF WAR TAX RATE ON CABARETS, ROOF GARDENS, ETC. (Public Debt Act of 1944.)

(a) *Reduction of rate.* Section 1650 of the Internal Revenue Code is amended by striking out "30 per centum" where it appears in the table therein as the war tax rate on cabarets, roof gardens, and so forth, and inserting in lieu thereof "20 per centum".

PAR. 6. Section 101.13, as amended by Treasury Decision 5349, is further amended as follows:

(A) By changing "30 percent" in the second sentence of the first paragraph to "20 percent".

(B) By substituting for the fourth paragraph thereof the following new paragraphs:

Where the tax is passed on to the patrons, which may be shown by any one of the three methods outlined below, the amount thereof shall be excluded in determining the total amount of the charges upon which the tax is to be computed:

(1) The cabaret tax at the rate of 20 per cent of the total amount charged for admission, refreshment, service, and merchandise is entered and shown as a separate item on the waiters' checks or bills given to the patrons.

(2) The charge for admission, refreshment, service, or merchandise and the cabaret tax of 20 per cent applicable thereto are rung up on separate keys of a cash register and recorded under separate symbols on the cash register tape.

(3) Signs are prominently displayed, or statements are printed conspicuously on menus or price lists, reading as follows: "All prices include 20 per cent Federal cabaret tax." Where this method is used, the tax due for any month on the basis of 20 per cent of the total amount paid by the patrons for admission, refreshment, service, and merchandise, exclusive of the tax passed on to them, may be computed by dividing the total receipts for the month by 120 and multiplying the result by 20.

An establishment subject to the cabaret tax has the option of using whichever of the foregoing three methods it may select. (For records see § 101.32 (b).)

Where a State tax imposed upon the amounts paid for admission, refreshment, service, or merchandise, is passed on to the patrons, which may be shown by one of the foregoing methods, the State tax may likewise be excluded in computing the Federal tax liability. Where the third method is used, the computation of the Federal tax must be modified to make allowance for the inclusion of the State tax in the total receipts. For example, if the rate of the State tax is 2 per cent, the total receipts for any month should be divided by 122 and the result multiplied by 20 in order to compute the Federal tax liability for such month on the basis of 20 per cent of the total amount paid for admission, refreshment, service, or merchandise.

If the Federal tax or the State tax is not passed on to the patrons, the amount thereof shall not be excluded in computing the cabaret tax.

PAR. 7. Section 101.14, as amended by Treasury Decision 5349, is further amended by changing "$1.50" in the third sentence of example (3) to "$1.00".

PAR. 8. Section 101.32, as amended by Treasury Decision 5349, is further amended as follows:

(A) By inserting at the end of the first paragraph of paragraph (b) the following:

Where the passing on of the tax is evidenced by the use of waiters' checks or bills which show the tax as a separate item or by the use of a cash register which records the tax under separate symbols on the cash register tape, as provided by method (1) or (2) included in paragraph four of § 101.13, the total receipts from patrons (exclusive of tax) and the total taxes passed on to them as disclosed by the waiters' checks or bills or the cash register tapes for each day should be entered in the daily record. Where the tax is not shown as a separate item but the passing on of the tax is evidenced by the use of signs or by statements on the menus, as provided by method (3) included in paragraph four of § 101.13, the gross receipts for each day should be entered in the daily record.

(B) By inserting at the end of paragraph (b) the following paragraph:

Where the passing on of the tax to the patrons is evidenced by entries on waiters' checks or bills or by the use of a cash register, the waiters' checks or bills or the cash register tapes must be kept by the establishment for a period of not less than six months.

TITLE 29—LABOR

Chapter IX—War Food Administrator (Agricultural Labor)

[Specific Wage Ceiling Reg. 13, Amdt. 1]

PART 1102—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF CALIFORNIA

WORKERS ENGAGED IN TREE PICKING AND CUTTING APRICOTS IN CERTAIN CALIFORNIA COUNTIES

Section 1102.10 (9 F.R. 7047) is hereby amended as set forth below:

The title of 1102.10 is amended to read as follows:

§ 1102.10 *Wages of workers engaged in tree picking of apricots and cutting of apricots in Areas A, B, and C (hereinafter defined), State of California.*

Paragraph (a) is revised and amended to read as follows:

(a) *Areas, crops, and classes of workers.* Persons engaged in picking apricots from trees, and persons so engaged a portion of the time who are also engaged on a farm in the cutting of apricots in Areas A, B, and C, State of California, are agricultural labor as defined in § 4001.1 (1) of the regulations of the Director of the Office of Economic Stabilization issued on August 28, 1943 (8 F.R. 11960, 12139), as amended on December 9, 1943 (8 F.R. 16702) and June 1, 1944 (9 F.R. 6035).

Paragraph (b) (2) is revised and amended to include within the term "Area B" the County of Contra Costa, California.

Paragraph (c) is revised and amended to read as follows:

(c) *Wage rates; maximum wage rates for tree picking of apricots and cutting apricots.*

(1) In Area A:
  (i) Picking:
    Piece work rate------ $12 per ton.
    Hourly rate---------- 75 cents per hour.
  (ii) Cutting:
    Piece work rate------ $15 per ton.
    Hourly rate---------- 75 cents per hour.
(2) In Area B:
  (i) Picking:
    Piece work rate--- $13 per ton.
    Hourly rate------- 80 cents per hour.
  (ii) Cutting:
    Piece work rate--- $16 per ton.
    Hourly rate------- 80 cents per hour.
(3) In Area C:
  (i) Picking:
    Piece work rate--- $13 per ton.
    Hourly rate------- 85 cents per hour.
  (ii) Cutting:
    Piece work rate--- $16 per ton.
    Hourly rate------- 85 cents per ton.

If workers in any of the areas above described are paid on other than tonnage basis, the compensation must be equivalent to the above.

All the above rates are exclusive of any payments to labor contractors.

[Specific Wage Ceiling Reg. 20]

PART 1102—SALARIES AND WAGES OF AGRICULTURAL LABOR IN THE STATE OF CALIFORNIA

WORKERS IN DAIRYING IN CERTAIN PORTIONS OF THE LOS ANGELES METROPOLITAN MILK SHED, CALIF.

§ 1102.13 *Workers engaged as milkers, milk-house machine operators, and milk-house can men in dairying in the Counties of Los Angeles, Orange, Riverside, San Bernardino and Ventura, State of California.* Pursuant to § 4001.7 of the regulations of the Director of the Office of Economic Stabilization relating to wages and salaries issued August 28, 1943 (8 F.R. 11960, 12139), as amended on December 9, 1943 (8 F.R. 16702) and June 1, 1944 (9 F.R. 6035) and to the regulations of the War Food Administrator issued January 20, 1944 (9 F.R. 831), entitled "Specific Wage Ceiling Regulations" and based upon relevant facts submitted by the California WFA Wage Board and obtained from other sources, it is hereby determined that:

(a) *Areas, crops, and classes of workers.* Persons engaged as milkers, milk-house machine operators, and milk-house can men in dairying in the Counties of Los Angeles, Orange, Riverside, San Bernardino and Ventura, State of California, are agricultural labor as defined in § 4001.1 (1) of the regulations of the Director of the Office of Economic Stabilization issued on August 28, 1943 (8 F.R. 11960, 12139), as amended on December 9, 1943 (8 F.R. 16702) and June 1, 1944 (9 F.R. 6035).

(b) *Definitions.* When used in this specific wage ceiling regulation, unless otherwise distinctly expressed, or manifestly incompatible with the intent thereof:

(1) The term "wage rates" means wages, salary, bonuses, the actual value of all perquisites such as board, lodging, and other items, and all other forms of direct or indirect compensation as defined in the general regulations; provided, in cases where board and lodging are furnished the worker, the minimum deduction shall be $40 per month. Where milk is furnished, the minimum deduction shall be the actual value of the milk f. o. b. the ranch. All rates per month provide for one day off in each seven days. Monthly wage rates for workers other than regular, relief, and emergency milkers, shall apply to the work period customarily in effect on each dairy prior to December 9, 1943.

(2) (i) The term "Holstein string" means a string composed of two-thirds (⅔) or more black and white cows, and black cows of Holstein types;

(ii) The term "Jersey and Guernsey string" means a string composed of two-thirds (⅔) or more Jersey and Guernsey type cows; and

(iii) The term "mixed string" means any other string not fitting the classifications of (i) or (ii). The above classification of strings shall be applicable in determining the base poundage for hand milkers.

(3) The term "string", for machine milkers, means a string of 60 cows except for certified dairies the number of cows is 52: *Provided, however,* That any number less than 60 and 52, respectively, is a string if the average daily production is equal to the base poundage of 1900 pounds. For hand milkers a string is 30 cows, except for certified dairies the number of cows is 26: *Provided, however,* That any number less than 30 and 26, respectively, is a string if the average daily production is equal to the applicable base poundage set forth in paragraph (c) (1) (ii) hereof.

(4) The term "long string" for machine milking means a string in excess of 60 cows (or 52 cows on certified dairies); a "long string" for hand milking is in excess of 30 cows (or 26 cows on certified dairies).

(5) The term "short string", for machine milking means a string of less than 60 cows (or 52 cows on certified dairies) not producing the base poundage; a "short string" for hand milking is less than 30 cows (or 26 cows on certified dairies) not producing the base poundage.

(6) The term "milkers" means persons whose duties are to bring the string to and from the corral, feed grain, wash the cows, milk and strip the cows, dump the milk, clean the barn in conformity with sanitary standards, and perform other duties customarily related to the milking operation.

(7) The term "milk-house machine operators" means persons whose duties are to operate and clean the bottle washers, bottle fillers, pasteurizers, and other milk-house equipment, to keep the milk-house in the required sanitary condition, and to perform other duties customarily related to the above major duties.

(8) The term "milk-house can men" means persons whose duties consist of filling cans or tankers with bulk milk, to clean and sterilize milking machines, cans, refrigerator and cooling equipment, and all other milk-house equipment, to keep the milk-house in the required sanitary condition, and to perform other duties customarily related to the above major duties.

(9) The term "emergency and relief milkers" means persons whose duties are the same as "milkers."

(c) *Wage rates; maximum rates for dairy workers*—(1) *Milkers.* (i) Machine: base pay per string per month $205, plus bonus per month of 12½¢ for each daily average pound of milk drawn in excess of the base poundage of 1,900 pounds.

(ii) Hand: base pay per string per month $205, plus bonus per month of 25¢ for each daily average pound of milk drawn in excess of the following base poundage:

(a) 1050 pounds	Holstein strings.
(b) 950 pounds	Mixed strings.
(c) 850 pounds	Jersey and Guernsey strings.

(iii) For machine milking of long strings the maximum additional payment shall be the bonus per month of 12½¢ for each pound drawn in excess of the base poundage, or $4 per month for each cow in excess of 60 cows (or 52 cows on certified dairies), whichever is greater.

(iv) For hand milking of long strings the maximum additional payment shall be the bonus per month of 25¢ for each pound drawn in excess of the base poundage, or $8 per month for each cow in excess of 30 cows (or 26 cows on certified dairies), whichever is greater.

(v) For relief milkers: the maximum wage paid shall be the highest wage paid to any milker of a string which is relieved.

(vi) Maximum payment for milking less than a string (short string) by machine or by hand, shall be in proportion to the base pay as the actual number of cows milked bears to 60 or 30 cows for machine and hand milking respectively (or 52 or 26 cows respectively on certified dairies) or as the actual daily poundage of milk bears to the applicable base poundage, whichever is greater: *Provided, however,* That milkers on short strings doing other jobs may receive additional compensation at the legal rate for the other job or jobs for the proportionate time spent on such other job or jobs.

(vii) Extra turnins: $5.00 additional per month may be allowed if turnins are in excess of 3 per milking.

(viii) Payments on other than bonus basis: if payments are made on a flat monthly wage or other basis, the maximum payment may not exceed the equivalent rate when calculated as above.

(2) Emergency milkers for one milking $7.00; for periods of one to six days, inclusive, $12.00 per day.

(3) Milk-house man: machine or can, $195 per month.

(d) *Administration.* The California WFA Wage Board located at 2181 Bancroft Way, Berkeley, California, will have charge of the administration of this order in accordance with the provisions of the specific wage ceiling regulations issued by the War Food Administrator January 20, 1944 (9 F.R. 831).

(e) *Applicability of specific wage ceiling regulations.* This specific wage ceiling regulation No. 20 shall be deemed to be a part of the specific wage ceiling regulations issued by the War Food Administrator on January 20, 1944 (9 F.R. 831) and the provisions of such regulations shall be applicable to this specific wage ceiling regulation No. 20 and any violation of this specific wage ceiling regulation No. 20 shall constitute a violation of such specific wage ceiling regulations.

PART 1100—REGULATIONS RELATIVE TO SALARIES AND WAGES OF AGRICULTURAL LABOR

ESTABLISHMENT OF WAGE CEILING

The regulations relative to salaries and wages of agricultural labor issued by the War Food Administrator on January 17, 1944 (9 F.R. 655) and amended on June 1, 1944 (9 F.R. 6011) are hereby amended as follows:

1. Section 1100.1 is amended by adding the following at the end thereof:

(1) The term "producer" means the person who is in charge of the farming operations on a farm.

2. Section 1100.8 is amended to read as follows:

§ 1100.8 *Procedure for recommending establishment of wage ceilings.* Whenever it is requested in writing, by petition or otherwise, by a majority of the producers of any commodity in a particular area who would be affected by a specific wage ceiling relative to that particular commodity and area, the wage board having jurisdiction over that area shall hold a public hearing for the purpose of aiding the Administrator in the establishment of a specific wage ceiling regulation, as described in § 1100.7 hereof.

For the purposes of such a hearing a member of the staff of the Office of Labor, sitting as a non-voting member of the board, may be appointed. The board shall give public notice of such hearing at least three days prior to the hearing. Such public notice shall be given by posting in prominent places in the area to be affected, and by publication in local newspapers of general circulation. The hearing shall be conducted by two or more members of the board as the board shall direct. The hearing shall be informal. Testimony shall be taken concerning the type of work to be controlled, the exact areas to be subject to control, the crop or crops to be affected, the wage rates paid, and all related matters relative to the establishment or a wage ceiling. All interested persons may appear and testify. A transcript of the record shall be kept. The presiding officer shall open the hearing with a statement of its purpose and the rules which will govern. As soon as possible after the hearing is concluded, the board shall prepare its recomendations (which must be approved by at least a majority of the board) as to the type of employment, wage rates to be paid, crop or crops to be affected, the extent of the area to be subject to control, and other related matters, and forward the report together with the transcript of the hearing to the Administrator. Neither the testimony received nor the recommendations of the board are binding upon the Administrator in establishing a specific wage ceiling regulation. Any interested person may file a petition for reconsideration of a specific wage ceiling regulation with the wage board administering the regulation or with the Administrator. If such a petition is filed with a wage board, such board shall forward the petition together with its recommendations to the Administrator.

Effective July 1, 1944.

(56 Stat. 765, 50 U.S.C. Supp. II 961 et seq., as amended by Pub. Law 34, 78th Cong.; E.O. 9328, 8 F.R. 9681, regulations of Economic Stabilization Director, dated Aug. 28, 1943, as amended, 8 F.R. 11960, 12139, 16702, 9 F.R. 6035)

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Direction 53]

CONTROLLED MATERIALS PURCHASED FOR MRO IN FOREIGN COUNTRIES

The following direction is issued pursuant to CMP Regulation 1:

(a) Exporters may buy for shipment on general export license in each calendar quarter not more than the amounts of controlled material listed below for each single consignee by the use of the allotment symbol E-2. An exporter may buy this material only if he knows or has reason to believe that the consignee will use it for maintenance, repair, or operating supplies (not including capital additions). The exporter may not buy any controlled material under this direction if he knows or has reason to believe that the consignee will use it for any other purpose.

Carbon steel (including wrought iron)	3 tons
Alloy steel	1,200 pounds
Copper and copper base alloy	300 pounds.
Aluminum	500 pounds.

(b) The exporter may buy the controlled materials as explained in paragraph (a) by placing on his order the symbol E-2 and the certification described in Priorities Regulation 7. Such an order is an authorized controlled material order for the purpose of all CMP Regulations. The exporter may place separate orders for material destined for one consignee, but the total of all such orders in one calendar quarter for each consignee may not exceed the amounts set forth in paragraph (a).

(c) Nothing in this direction shall be construed to relieve any exporter from complying with the provisions of any applicable regulation, rule or order of the War Production Board or the Foreign Economic Administration.

(d) An exporter may not buy any controlled material under this direction for a consignee in any case where he knows or has reason to believe that the consignee has been given an authorization and quota for maintenance, repair and operating supplies under Direction 20 to CMP Regulation 5, or where the consignee obtains maintenance, repair and operating supplies under Order P-56 (mines and smelters).

Issued this 1st day of July 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 5, Direction 20]

MRO FOR PERSONS ABROAD PRODUCING FOR THE UNITED STATES GOVERNMENT

The following direction is issued pursuant to CMP Regulation 5:

A person producing material in foreign areas on contract with or for sale to the United States Government may get maintenance, repair and operating supplies under CMP Regulation 5, but only upon specific authorization and within a quota issued by the War Production Board upon the recommendation of the Foreign Economic Administration. An application for issuance of an authorization and quota should be made by letter in triplicate, addressed to the War Production Board but filed with the Foreign

Economic Administration, Requirements and Supply Branch, Washington, D. C., which will forward the application to the War Production Board with appropriate recommendations for action. This direction does not apply, however, to an operator in the petroleum industry or to any person for whom Order P–56 ("Mines and Smelters") prescribes the procedure for obtaining maintenance, repair and operating supplies.

Issued this 1st day of July 1944.

PART 3270—CONTAINERS

[Conservation Order M–290, Direction 4]

DELIVERIES OF SHEETS TO SHEET PLANTS UNDER SECOND QUARTER AUTHORIZATIONS AFTER JULY 1, 1944

The following direction is issued pursuant to Conservation Order M–290:

(a) If all of the conditions stated in this direction are fulfilled, a sheet plant may accept against second quarter authorizations deliveries of corrugated and solid fibre sheets, even though they were not delivered or in transit to it by June 30, 1944.

(1) The sheet plant must have placed its order, duly certified in accordance with Order M–290 (see paragraphs (c) and (d)), for the sheets with its supplier prior to June 20, 1944, and must be entitled to accept the sheets, in so far as tonnage is concerned, within the authorization it received for the second quarter of 1944.

(2) The corrugated or solid fibre sheets must be made from containerboard which was delivered or in transit to the sheet supplier prior to July 1, 1944, pursuant to a duly certified purchase order carrying the sheet plant's authorization number in accordance with paragraph (c) of Order M–290.

(b) This direction supersedes, to the extent indicated, the statement contained in outstanding second quarter authorizations for containerboard, to the effect that such authorizations lapse with respect to any containerboard not actually delivered or in transit to the consumer by the last day of the quarter covered by his application. In all other respects, the provisions of Order M–290 and all authorizations issued thereunder remain fully applicable.

Issued this 1st day of July 1944.

PART 3281—PULP AND PAPER

[Limitation Order L–120, Schedule I, as Amended July 1, 1944]

PAPER AND PAPERBOARD FOR USE IN COMMERCIAL PRINTING

§ 3281.17 *Schedule I to Limitation Order L–120*—(a) *Definitions.* For the purpose of this schedule, including the appendix:

(1) The term "paper and paperboard" means and is limited to the kinds of paper and paperboard commonly described and distributed in the paper trade by the names used as captions in the appendix below.

(2) The term "paper and paperboard for use in commercial printing" means all paper and paperboard commonly manufactured and distributed for use in printing, including but not limited to the printing of house organs, music, labels and posters; and excluding only those manufactured and distributed for use in printing newspapers and magazines, pamphlets published for resale, and books, or for conversion into another paper product or products otherwise than by printing.

(3) A "grade" means one particular quality within a kind of paper or paperboard such grade having the essential properties peculiar to such kind and common to all grades within such kind, but distinguished from other such grades by a difference in the degree to which one or several of those common properties are emphasized. However, a difference in the degree to which any common property is emphasized, due only to a difference in ash content, in sizing, in the quantity of adhesive in the coating formula, or in the dyes used in the paper or paperboard, or coating shall not be considered as resulting in a different grade.

(4) "Color" means any hue of the spectrum, including but not limited to ivory, india and green-white tints, and black, but not including white.

(5) The term "basis weight" means the weight in pounds per 500 sheets in the size indicated under the appropriate caption, or the equivalent weight of 500 sheets in any other size figured proportionately to the size specified.

(6) The term "thickness" means the thickness of a sheet of paper or paperboard expressed either in terms of plies or in terms of thousandths of an inch measured by the Cady Micrometer.

(7) An "item" means a quantity of paper or paperboard all of which is of the same size, grain, basis weight, finish, color and grade.

(8) The term "standard" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, a grade and color selected and a basis weight or thickness, and size specified under A of the appropriate caption in the appendix below.

(9) The term "special" as applied to grade, color, basis weight, and size means, with respect to each manufacturer, any grade, color, basis weight, thickness or size that is not standard.

(10) The term "special making order" means a single order placed by a single buyer for manufacture at one time for use by one printer or consumer.

(11) The term "manufacture" includes all making and finishing operations prior to packaging or packing, including pasting whether by a primary manufacturer or otherwise.

(12) "Person" means any individual, partnership, association, or other form of enterprise, including within one "person" all affiliates, subsidiaries, individuals, corporations, partnerships, or other forms of enterprise subject to a common executive or operating management or with a common sales organization.

(b) *Identification of the papers or paperboards subject to this schedule.* It shall be the duty of each person who manufactures paper or paperboard to determine in the first instance, but subject to review and official classification by the War Production Board at any time thereafter, under which caption, if any, of the appendix belongs each of the "paper and paperboard for use in commercial printing" manufactured by him. There shall be taken into account in such determination, and in any review and reclassification by the War Production Board the designation by which the manufacturer heretofore identified or distributed the paper or paperboard in question, the common designation in the paper trade of similar papers or paperboards selling within the same general price range as the paper or paperboard in question, and the common designation in the paper trade of papers or paperboards possessing the same general physical characteristics, manufactured by the same general processes, or commonly distributed and used for the same general uses as the paper or paperboard in question. If a manufacturer is uncertain as to the proper caption under which to classify a particular kind of "paper or paperboard for use in commercial printing", or whether a particular kind of paper or paperboard is such a paper or paperboard at all or belongs under any caption of the appendix to this schedule, he may apply to the War Production Board, in writing, for an official classification of such paper or paperboard, submitting with his application representative samples of the grade or grades in which he manufactures such paper or paperboard, a full explanation of the processes by which he manufactures the same, the designation by which he has heretofore identified or distributed the same, the general uses for which it is intended, the general price range within which it is sold, and the types of paper or paperboard with which it chiefly competes, and a full explanation of the reasons for his uncertainty. The War Production Board may on its own motion review a manufacturer's classification and substitute therefore an official classification. In any event, an official classification by the War Production Board by telegram or notice in writing sent to the manufacturer, shall, unless and until the War Production Board shall amend or revise the same by telegram or notice in writing sent to the manufacturer, be conclusive.

(c) *Selection of grades for regular manufacture.* Each person who manufactures any kind of "paper or paperboard for use in commercial printing", shall select such "grade" or "grades" (if selection is indicated under the appropriate caption and has not already been made by him), not to exceed the number specified in A (1) of the appropriate caption of the appendix below, as he may desire to adopt for regular manufacture, and shall forthwith notify the War Production Board of such selection on Form WPB 1295 (formerly PD–589). The manufacturer may thereafter apply to

the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board, in writing, the original selection shall remain binding.

(d) *Selection of colors for regular manufacture.* If by the terms of A (2) under the appropriate caption of the Appendix below a manufacturer is permitted with respect to a particular grade of a kind of "paper and paperboard for use in commercial printing", to select a number of colors and such selection is indicated and has not already been reported by him, each person desiring to manufacture such grade in colors shall immediately select therefor such particular colors, not to exceed the number indicated in A (2) of the appropriate caption, as he may desire to adopt for regular manufacture, and shall immediately notify the War Production Board of such selection on Form WPB 1295 (formerly PD–589). The manufacturer may thereafter apply to the War Production Board for leave to amend the original selection, but unless and until such leave is granted by the War Production Board in writing, the original selection shall remain binding.

(e) *General limitations.* No person shall manufacture any kind of "paper or paperboard for use in commercial printing" in any grade, color, basis weight, or size other than those specified or selected as standard under A of the appropriate caption of the appendix (where such standards are specified or selected under A of the appropriate caption), or contrary to any other provision under the appropriate caption. This general rule is, however, subject to the following exceptions:

(1) Tolerances and variations are permitted to the extent provided in paragraph (f).

(2) Cutting and slitting to various sizes are permitted to the extent provided in paragraph (g).

(3) Special provision is made for "jobs" and "seconds" in paragraph (h).

(4) Special provision is made for export orders in paragraph (i).

(5) Exceptions are made for "special making orders" under certain captions of the appendix. However, regardless of these exceptions where special making orders are so permitted under any caption, the basis weight or thickness must not exceed the heaviest standard basis weight or thickness permitted under A of such caption.

(6) Paper or paperboard in process of manufacture on June 5, 1944, and conforming to the requirements of this order prior to the amendment effective that date, may be completed otherwise than by pasting.

(7) Paper or paperboard may be manufactured for a particular use in any basis weight or thickness permitted for such use by this or any other order of the War Production Board, provided the basis weight or thickness does not exceed the maximum specified by the War Production Board for such use, and provided all other provisions of this or such other orders are fully complied with.

(f) *Tolerances and variations.* The prohibitions and restrictions of this revised schedule are subject to the normal tolerances customary in the manufacture of the kind of paper or paperboard under each caption and to the normal variations in quantity manufactured customarily acceptable in the paper trade for such kind. Nothing in this revised schedule shall restrict the remaking, because of faulty manufacture or excessive underrun, of all or any part of a "special making order" accepted in good faith for manufacture in accordance with the terms of this revised schedule.

(g) *Cutting and slitting.* Nothing in this revised schedule shall restrict the cutting of any sheet size to sizes of which the parent size is a multiple, provided the parent size is manufactured in accordance with the provisions of this revised schedule, nor restrict the slitting to fractional width rolls of any parent roll size manufactured in accordance with the provisions of this revised schedule on an order for rolls; however, a special sheet size may not be cut from a standard or special roll size except in a quantity and under the conditions, if any, applying to a "special size" under B of the appropriate caption in the Appendix below.

(h) *Jobs and seconds.* Nothing in this revised schedule shall restrict the sale of "job lots" or "seconds" resulting from faulty manufacture or overruns customarily unacceptable to the buyer, which occur during a bona fide attempt to manufacture "paper and paperboard" according to the terms of this revised schedule, provided that the manufacturer clearly informs the purchaser that such paper or paperboard is a "job lot" or "seconds" and so indicates on each package.

(i) *Exception for export.* Regardless of the foregoing provisions of this revised schedule and of the provisions of Limitation Order L–120, a person may manufacture for export (but may not without permission in writing from the War Production Board sell in the domestic market) any "kind" of "paper or paperboard for use in commercial printing" in any size, basis weight or thickness required, regardless of quantity, provided all other provisions of this schedule are complied with and (if the basis weight or thickness is heavier than permitted) such person has received permission in writing from the War Production Board to manufacture the particular order in question in such heavier basis weight.

(j) *Records and reports*—(1) *Standard samples.* Each person who manufactures any kind of "paper or paperboard for use in commercial printing" shall keep, readily available for inspection by the War Production Board, representative samples of each standard grade and each standard color of such grade selected by him under A (1) and A (2) of the appropriate caption.

(2) *Special making orders.* On and after September 1, 1943, each person who manufactures any "special making order" permitted under B of the appropriate caption of the appendix below shall require from the buyer a statement to the effect that such order is purchased for use by one printer or consumer, shall keep such statement, together with a complete record of such order, readily available for inspection by the War Production Board and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(3) *Export orders.* On and after September 1, 1943 each person who manufactures "paper or paperboard for use in commercial printing" for export shall require from the buyer a statement on his purchase order to the effect that such paper is purchased for export, shall keep such statement, together with a complete record of the order against which such paper is manufactured, readily available for inspection by the War Production Board, and shall submit reports of such orders to the War Production Board as it may from time to time require, subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

NOTE: The reporting requirements of paragraphs (c) and (d) have been approved by the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

Issued this 1st day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX—STANDARDIZATION AND SIMPLIFICATION OF PAPER AND PAPERBOARD FOR USE IN COMMERCIAL PRINTING

UNCOATED ENGLISH (MACHINE) FINISH BOOK PAPERS

A. Grades, Colors, Weights, and Sizes for regular manufacture:

(1) Standard Grades: Not more than two, selected according to paragraph (c) of the foregoing schedule.

(2) Standard Colors: In one of the grades selected under A (1), White and India only. The other grade selected may be manufactured in White, and India and five other colors, selected according to paragraph (d) of the foregoing schedule.

(3) Standard basis weights (Per 500 sheets 25" x 38"): 30, 35, 40; and, if for use in printing sheet music, basis weight 80, or music other than sheet music, basis weight 50, or cigarette cups, basis weight 65, or seed packets, basis weight 60, or labels, basis weight 45; provided that before the sale thereof the manufacturer shall require from the buyer a statement that the order is for such use. The manufacturer shall keep such statement, together with a complete record of the order, readily available for inspection by the War Production Board.

(4) Standard Sizes (in inches):

Sheets: 25 x 38, 28 x 42, 28 x 44, 32 x 44, 35 x 45, 38 x 50.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. Exceptions for "special making orders" as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either white or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A Special Basis Weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing Schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or white; or a special color in the quantities provided for under Exception (2) above

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

(5) Basis Weights below 30 pound. No restriction on grade, basis weights or sizes in basis weights below 30 pound.

UNCOATED BOOK PAPERS, SUPERCALENDERED

A. *Grades, Colors, Weights and Sizes for regular manufacture:*

(1) Standard Grades: Not more than two, selected according to paragraph (c) of the foregoing schedule, provided they correspond to the two selected for Uncoated English (Machine) Finish Book Papers.

(2) Standard Colors: In one of the grades selected under A (1), White and India only. The other grade selected may be manufactured in White, and India and five other colors, selected according to paragraph (d) of the foregoing schedule.

(3) Standard basis weights (For 500 sheets 25" x 38"): 35, 40, 45; and if for use in printing sheet music, basis weight 80, or music other than sheet music, basis weight 50; or for use in producing labels, basis weight 50; or cigarette cups, basis weight 65; or seed packets basis weight 65; provided that before the sale thereof the manufacturer shall require from the buyer a statement that the order is for such use. The manufacturer shall keep such statement, together with a complete record of the order, readily available for inspection by the War Production Board.

(4) Standard Sizes (in inches):

Sheets: 25 x 38, 28 x 42, 28 x 44, 32 x 44, 35 x 45, 38 x 50.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A special basis weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing Schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

ANTIQUE (EGGSHELL) FINISH BOOK PAPERS

A. *Grades, Colors, Weights and Sizes for regular manufacture.*

(1) Standard grades: Not more than two, selected according to paragraph (c) of the foregoing schedule, but only one may carry a watermark and/or a laid mark.

(2) Standard colors: In one of the grades selected under A (1), White and India only. The other grade selected may be manufactured in White, and India and five other colors, selected according to paragraph (d) of the foregoing schedule.

(3) Standard basis weights (Per 500 sheets 25" x 38"): 35, 40, 45; and, if in a standard watermarked text grade, basis weight 50.

(4) Standard sizes (in inches):

Sheets: 25 x 38, 28 x 42, 28 x 44, 32 x 44, 35 x 45, 38 x 50.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A special basis weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing Schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

(5) Any fancy finish may be applied to any item conforming to the other conditions of this caption.

(6) No laid mark or other watermarks permitted.

(7) No supercalendered Offset Paper permitted.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A special basis weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing Schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

(5) Any fancy finish may be applied to any item conforming to the other conditions of this caption.

(6) A laid mark or other watermark may be incorporated in a special making order of 5,000 pounds or more of any item conforming to the other conditions of this caption.

(7) A Supercalender Finish may be applied to fill a special making order for 2,000 pounds or more of any item conforming to the other conditions of this caption.

PROCESS (MACHINE) COATED BOOK PAPERS

A. *Grades, Colors, Weights and Sizes for regular manufacture.*

(1) Standard Grades: Not more than two, selected according to paragraph (c) of the foregoing schedule.

NOTE: A person may, upon application to and approval by the War Production Board select for regular manufacture not more than 2 additional grades of Process (Machine) Coated Book Papers, each in lieu of a grade of Glossy Coated Two Sides Book Papers and, if his application is granted, may not thereafter, unless and until permitted by the War Production Board, regularly manufacture the grade or grades of Glossy Coated Two Sides Book Papers thus replaced.

(2) Standard Colors: White only.

(3) Standard basis weights (Per 500 sheets 25" x 38"): 45, 50, 60 and 70; providing the basis weight of the body stock is no heavier than 45.

(4) Standard Sizes (in inches):

Sheets: 25 x 38, 28 x 42, 28 x 44, 32 x 44, 35 x 45, 38 x 50.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade, and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A Special Basis Weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

COATED ONE SIDE BOOK PAPERS

A. *Grades, Colors, Weights and Sizes for regular manufacture.*

(1) Standard Grades: Not more than one grade of body stock to which may be applied two grades of coating, selected according to paragraph (c) of the foregoing schedule, one for general use and the other suitable for varnishing and gloss ink printing.

(2) Standard Colors: White only.

(3) Standard basis weights (per 500 sheets 25" x 38"): 50, 60; and if for use in printing cigarette cups, basis weight 70, or if for use in printing sheet music, basis weight 85:

Provided, That before the sale thereof the manufacturer shall require from the buyer a statement that the order is for such use. The manufacturer shall keep such statement together with a complete record of the order, readily available for inspection by the War Production Board.

(4) Standard sizes (in inches):

Sheets: 25" x 38", 28" x 42", 28" x 44", 32" x 44", 35" x 45", 38" x 50".

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A Special Basis Weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

(5) Special Coating Formulae: Any glossy coated one side coating formula may be applied to the one grade of body stock permitted under A (1) to fill a special making order:

(a) In 5,000 pounds or more of one item in White only, and in any basis weight permitted under A (3); or

(b) In 10,000 pounds or more of White or any one color, standard or special, and in any one basis weight permitted, standard or special, with at least 5,000 pounds of each item.

GLOSSY COATED TWO SIDES BOOK PAPERS

A. *Grades, Colors, Weights, and Sizes for regular manufacture:*

(1) Standard Grades: Not more than three, selected according to paragraph (c) of the foregoing schedule.

(2) Standard Colors: In each of two of the grades selected under A (1), White and either India or Ivory but not both. The other grade selected may be manufactured in White, and India and five other colors, selected according to paragraph (d) of the foregoing schedule.

(3) Standard basis weights (Per 500 sheets 25" x 38"): 50, 60; and, providing the basis weight of the body stock (i. e., finished paper minus coating) is no heavier than 45, basis weight 70.

(4) Standard Sizes (in inches):

Sheets: 25 x 38, 28 x 42, 28 x 44, 32 x 44, 35 x 45, 38 x 50.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A Special Basis Weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight. or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above

(5) Special Coating Formulae: Any glossy coated two sides coating formula may be applied to a grade of body stock regularly manufactured under A (1) to fill a special making order:

(a) In 5,000 pounds or more of one item in White only, and in any basis weight permitted under A (3); or

(b) In 10,000 pounds or more of White or any one color, standard or special, and in any one basis weight permitted, standard or special, and with at least 5,000 pounds of each item.

(6) Glossy Coated One Side: Any body stock and coating used for a standard grade of Glossy Coated Two Sides Book Papers may be used to manufacture a similar grade coated one side to fill a special making order, provided that:

(a) The quantity of each basis weight permitted for coated one side is at least 10,000 pounds; and

(b) The quantity of each item is at least 5,000 pounds.

COATED TWO SIDES OFFSET PAPERS

A. *Grades, Colors, Weights, and Sizes for regular manufacture:*

(1) Standard Grades: Not more than one, selected according to paragraph (c) of the foregoing schedule.

(2) Standard Colors: White only

(3) Standard basis weights (Per 500 sheets 25" x 38"): 50, 60; and, providing the basis weight of the body stock (i. e., finished paper minus coating) is no heavier than 45, basis weight 70.

(4) Standard Sizes (in inches):

Sheets: 22½ x 35, 25 x 38, 28 x 42 28 x 44, 32 x 44, 35 x 45, 38 x 50, 41 x 54.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one calar, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(3) A special basis weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

DULL COATED BOOK PAPERS

A. *Grades, Colors, Weights, and Sizes for regular manufacture:*

(1) Standard Grades: Not more than one, selected according to paragraph (c) of the foregoing schedule.

(2) Standard Colors: The grade selected under A (1) may be manufactured in White, and India and five other colors, selected according to paragraph (d) of the foregoing schedule.

(3) Standard basis weights (Per 500 sheets 25" x 38"): 50, 60; and, providing the basis weight of the body stock (i. e., finished paper minus coating) is no heavier than 45, basis weight 70.

(4) Standard Sizes (in inches):

Sheets: 25 x 38, 28 x 42, 28 x 44, 32 x 44, 35 x 45, 38 x 50.

Rolls: Any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds

(3) A special basis weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 5,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

PLAIN COATED COVER PAPERS

A. *Grades, Colors, Weights, and Sizes for regular manufacture:*

(1) Standard Grades: Not more than one, selected according to paragraph (c) of the foregoing schedule.

(2) Standard Colors: The grade selected under A (1) may be manufactured in White, and India and five other colors, selected according to paragraph (d) of the foregoing schedule.

(3) Standard basis weights (per 500 sheets 20" x 26"): 50, 60; and in addition, any finished basis weight in a soilproof, greaseproof or moisture resistant cover which results from coating a 20" x 26" —65# raw stock is permitted.

(4) Standard Sizes (in inches):

Sheets: 29 x 26, 23 x 35, 26 x 40, 35 x 46.

Rolls: any dimension of a standard sheet size is a standard size for roll widths.

B. *Exceptions for "special making orders"* as defined in (a) (10) of the foregoing schedule:

(1) A Special Grade may be manufactured to fill a special making order, provided that:

(a) The quantity of such special grade is at least 20,000 pounds, all in either White or any one color, standard or special; and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds.

(2) A Special Color may be manufactured to fill a special making order, provided that:

(a) The quantity of each special color is at least 20,000 pounds in one grade, and

(b) The quantity of each permitted basis weight is at least 10,000 pounds; and

(c) The quantity of each item is at least 5,000 pounds

(3) A special basis weight may be manufactured, subject to the provisions of paragraph (e) of the foregoing schedule, to fill a special making order in a quantity of at least 10,000 pounds, and in at least 5,000 pounds of each item:

(a) In a standard grade; or a special grade in the quantities provided for under Exception (1) above; and

(b) In a standard color or White; or a special color in the quantities provided for under Exception (2) above; and

(c) Provided that before the sale of Plain Coated Cover in any basis weight lighter than 20" x 26"—50 the manufacturer shall require from the buyer a statement that the order is for use only as a cover. The manufacturer shall keep such statement, together with a complete record of the order, readily available for inspection by the War Production Board.

(4) A Special Size may be manufactured to fill a special making order in a quantity of at least 2,000 pounds of an item:

(a) In a standard grade, standard color or standard basis weight; or

(b) In a special grade, special color or special basis weight in the quantities provided for under exceptions (1), (2) and (3) above.

BOGUS (TICKET) BRISTOL

Maximum basis weight permitted: 22½" x 28½—120.

POSTER PAPERS

Maximum basis weight permitted: 25" x 38"—50; and, if for 24 sheet poster for outdoor billboards, 25" x 38"—55, provided that before the sale thereof the manufacturer shall require from the buyer a statement that the order is for such use. The manufacturer shall keep such statement, together with a complete record of the order, readily available for inspection by the War Production Board.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-531, Amdt. 1]

CARTMELL'S SALES & SERVICE

Suspension Order No. S-531 was issued against Robert J. Cartmell, doing business as Cartmell's Sales & Service, on April 18, 1944. Mr. Cartmell has applied for an amendment of the order.

The Regional Compliance Chief, the Regional Attorney, and the Compliance Commissioner have reviewed the case and concluded that undue hardship would result unless the order were modified.

Wherefore, upon the agreement and consent of Robert J. Cartmell, the Regional Compliance Chief, and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

Section 1010.531 *Suspension Order S-531*, issued April 18, 1944, be, and hereby is, amended by the substitution of the following paragraphs (c) and (e) in place of the present paragraphs (c) and (e):

(c) The provisions of this order shall not apply to repair parts for the servicing of refrigerating equipment and farm machinery nor to the installation of two complete food lockers, one for Chester Cooperative Freeze Locker, Inc., of Chester, Vermont, and one for Frozen Food Lockers, Inc., Hanover, New Hampshire.

(e) This order shall take effect on April 25, 1944, and shall expire on October 25, 1944.

Issued this 1st day of July 1944.

PART 1010—SUSPENSION ORDERS

[Suspension Order S-570]

MAJESTIC FURNITURE & UPHOLSTERING MFG. CO.

The Majestic Furniture & Upholstering Manufacturing Company, a corporation, was engaged in the business of manufacturing furniture and of recovering and repairing used furniture, and was also a retail dealer in furniture. It maintained a store for the sale of furniture at 1518 6th Avenue, and an upholstery shop at 1118 Pine Street in Seattle, Washington. On June 30, 1943, the corporation was dissolved, since which time Sam J. Doces, Gust Doces, Peter Michael and George Barbazuny, who were all of the stockholders of the corporation, have continued the business as a partnership under the firm name of Majestic Furniture & Upholstering Manufacturing Company. During the period beginning November 1, 1942 and ending August 25, 1943, the corporation and later the partnership processed, fabricated, worked on, and assembled 52 pieces of new wood upholstered furniture containing steel springs and coils in violation of Limitation Order L-135. The respondents were familiar with the provisions of Limitation Order L-135, and their violations were substantial, significant and deliberately wilful.

These violations of Limitation Order L-135 diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.570 *Suspension Order No. S-570.* (a) Sam J. Doces, Gust Doces, Peter Michael and George Barbazuny, individually and as co-partners, doing business as Majestic Furniture & Upholstering Manufacturing Company, or under any other name, their or any of their successors or assigns, shall not use any metal upholstery springs (as defined in Limitation Order L-260-a) in the production of upholstered furniture (as defined in Limitation Order L-260-a) unless hereafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Sam J. Doces, Gust Doces, Peter Michael and George Barbazuny, individually and as co-partners, doing business as Majestic Furniture & Upholstering Manufacturing Company, or under any other name, their or any of their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 1, 1944 and shall expire on September 30, 1944.

Issued this 23d day of June 1944.

Recording Secretary.

(i) Transfer of quota.

RESTRICTIONS

(j) Number of designs.
(k) Dealer helps.

CONSUMPTION QUOTA

(l) Computation of consumption quota, paper.
(m) Computation of consumption quota, paperboard.
(n) Borrowing and carry-over.
(o) Total permitted consumption.
(p) New publishers.
(q) Certification to printer.

DELIVERY RESTRICTIONS

(r) Limit on tonnage which may be accepted.
(s) Increase of deliveries.
(t) Certification to paper dealer or mill.

MISCELLANEOUS PROVISIONS

(u) Records.
(v) Applicability of regulations.
(w) Appeals.
(x) Communications.
(y) Violations.

Scope

(a) *The purpose of this order.* This order does five things. First, it limits the tonnage of paper which a publisher may cause to be used in the production of greeting cards and illustrated post cards. Second, it limits the tonnage of paperboard which a publisher may cause to be used in the packaging of greeting cards and illustrated post cards. A publisher's "consumption quotas" of paper and paperboard are determined by the tonnage of these materials which he caused to be consumed in 1942. A publisher may not exceed his consumption quotas even though the paper or paperboard is physically available to him. Third, the order limits the tonnage of paper and paperboard which may be accepted by or on behalf of a publisher of greeting cards or illustrated post cards. This is based upon his inventory of these items. Fourth, it limits the number of designs which a publisher may cause to be printed, based upon the number of designs which he caused to be printed in 1942. Fifth, it prohibits the furnishing of "dealer help" material by a publisher.

Definitions and Explanations

(b) *Greeting cards and illustrated post cards.* (1) "Greeting card" means any commercial form of card, sheet or folder which conveys a greeting or similar type of message by means of printed reading matter or pictorial matter. The term includes "chromos" which contain pictures but no words, and also cards which contain words but no pictures. The term does not include photographs made without the use of ink, nor does it include cards, sheets or folders of which no copies are offered for sale at any level of distribution.

(2) "Illustrated post card" means any form of card, sheet or folder containing printed pictorial matter and space for the addition of a personal message. The term does not include photographs made without the use of ink, nor does it include cards, sheets or folders of which no copies are offered for sale at any level of distribution.

(c) *Publisher.* (1) A person who was engaged in the greeting card or illustrated post card business in 1942 is the "publisher" of any greeting card or illustrated post card which he caused to be produced in that year, unless exclusive distribution rights in that card for 1942 were transferred to another person engaged primarily in the greeting card or illustrated post card business. In such a case, the person who had the exclusive distribution rights in 1942 is the "publisher" of that card.

(2) A "publisher" may use his consumption quota for the production of greeting cards or illustrated post cards whether he retains for himself or assigns to someone else the exclusive or non-exclusive reproduction rights or distribution rights, either permanently or temporarily.

(3) The term "publisher" includes an individual, partnership, association, business trust, corporation, or any organized group of persons, whether incorporated or not. It does not mean the author or designer of the cards or the plate maker, printer, finisher, packager, wholesaler, jobber or retailer, unless one of these persons also performs the functions of a publisher. It is immaterial whether the cards are produced in the publisher's plant or in someone else's plant.

(d) *Paper.* "Paper" means any grade, quality, type, basis weight or size of paper or paperlike substance used in the manu-

facture of greeting cards or illustrated post cards. The term includes paper reclaimed wholly or partly from printed or unprinted waste, as well as paper made entirely from virgin fiber.

(e) *Paperboard.* "Paperboard" means any grade, quality, type, basis weight or size of paperboard or bristol used in the manufacture of boxes or packages for greeting cards or illustrated post cards. The term includes paperboard reclaimed wholly or partly from printed or unprinted waste, as well as paperboard made entirely from virgin fiber.

(f) *Use.* (1) Paper is "used" in the manufacture of greeting cards and illustrated post cards when ink is first applied to it or, if unprinted, when the paper is first assembled with printed sheets in the manufacture of a card.

(2) Paperboard is "used" in the boxing or packaging of greeting cards and illustrated post cards when the first operation occurs in manufacturing the boxes.

(3) When a job is started in one calendar quarter and runs over into the next, the paper or paperboard actually used during each quarter must be charged against the publisher's consumption quota for that quarter. The entire job may not be regarded as if it were started and finished in the same quarter.

(g) *Production waste.* All production waste shall be included in determining the tonnage of paper or paperboard which a publisher uses in the manufacture of greetings cards and illustrated post cards.

(h) *Inventory.* "Inventory" means all the paper or paperboard which is available for a publisher's use. It is immaterial whether such paper or paperboard is in the publisher's hands or in the hands of a paper dealer or other person. Paper or paperboard in transit is not included.

(i) *Transfer of quotas.* (1) Quotas provided by one War Production Board order may not be used for the purposes set forth in any other order. Thus, for example, a publisher may not cause to be used for the manufacture of greeting cards or illustrated post cards any part of a paper consumption quota established under Order L-241 (Commercial printing), Order L-244 (Magazines), Order L-245 (Books), or any other order, and he may not permit any part of his consumption quota for paper established under this order to be used for any purpose other than the manufacture of greeting cards and illustrated post cards.

(2) Similarly, a publisher may not permit any part of his consumption quota for paperboard established under this order to be used for any purpose other than the boxing or packaging of greeting cards or illustrated post cards, and he may not cause any paperboard other than that provided by his consumption quota established under this order to be used for the boxing or packaging of greeting cards and illustrated post cards.

(3) The rules governing the assignability of quotas are stated in Priorities Regulation 7A.

Restrictions

(j) *Limit on number of designs.* In the year 1944 and in each calendar year after that, no publisher may publish more than 80% of the total number of greeting card or illustrated post card designs, new or old, which he published during 1942.

(k) *Prohibition of dealer helps.* No publisher may furnish any "dealer helps" for greeting cards or illustrated post cards, except "dealer helps" which he already had in inventory on May 20, 1943. This prohibition applies to items such as date books, advertising cards, banners, merchandise bags, window displays, inserts, etc., and to sample cards. However, it does not apply to mounted samples for the display of cards to the public.

Consumption Quota

(l) *Computation of consumption quota for paper.* In the third calendar quarter of 1944 and in each calendar quarter after that, no publisher may cause to be used for the manufacture of greeting cards and illustrated post cards any paper in excess of his quarterly consumption quota of paper, which shall be computed as follows:

(1) Determine the gross tonnage of paper consumed in manufacturing the publisher's greeting cards and illustrated post cards during the corresponding calendar quarter of 1942.

(2) Determine the gross tonnage of paper consumed during the corresponding calendar quarter of 1942 in manufacturing the publisher's "dealer helps" as defined in paragraph (k) of this order.

(3) Take 60 percent of the total of these two tonnage figures. This is the publisher's consumption quota of paper which he may cause to be used in the manufacture of greeting cards and illustrated post cards in the corresponding calendar quarter of 1944 and succeeding years.

(m) *Computation of consumption quota for paperboard.* In the third calendar quarter of 1944 and in each calendar quarter after that, no publisher may cause to be used for the manufacture of boxes or packages for greeting cards and illustrated post cards any paperboard in excess of his quarterly consumption quota of paperboard, which shall be computed as follows:

(1) Determine the gross tonnage of paperboard consumed in boxing and packaging the publisher's greeting cards and illustrated post cards during the corresponding calendar quarter of 1942.

(2) Take 50 percent of this tonnage figure. This is the publisher's consumption quota of paperboard which he may cause to be used in boxing and packaging his greeting cards and illustrated post cards in the corresponding calendar quarter of 1944 and succeeding years.

(n) *Borrowing and carry-over.* (1) A publisher may add an extra 15 percent to his consumption quota of either paper or paperboard in any quarter if he subtracts that amount from his consumption quota of that material for the next quarter.

(2) If a publisher uses less paper or paperboard than he is allowed in any calendar quarter, he may add the saving to his consumption quota of that material in a subsequent quarter or distribute the saving over several subsequent quarters.

(o) *Total permitted consumption.* A publisher may use in any calendar quarter:

(1) His quarterly consumption quota of the particular material as determined under paragraphs (l) and (m),

(2) Plus permitted borrowing from his consumption quota of that material for the next calendar quarter, as provided in paragraph (n) (1),

(3) Plus any less-than-quota savings of that material carried over from previous calendar quarters as provided in paragraph (n) (2), or minus any tonnage of that material which had been borrowed during the preceding calendar quarter from his consumption quota of that material for that calendar quarter, as provided in paragraph (n) (1),

(4) Plus ex quota tonnage of that material, if any, which may have been granted on appeal for consumption in that quarter.

(p) *New publishers.* Any person who did not publish greeting cards or illustrated post cards in 1942 has no consumption quota of paper or paperboard under this order and may not publish greeting cards or illustrated post cards.

(q) *Certification to printer.* No publisher may order greeting cards or illustrated post cards to be printed or manufactured, and no person may print or manufacture such cards unless the publisher furnishes, or has previously furnished, to that printer or manufacturer a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned publisher certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the printer and to the War Production Board that he is familiar with Order L-289 and that all orders placed by the publisher with that printer for items regulated by Order L-289, as amended from time to time, will be in compliance therewith.
>
> This is a one-time certification and need not accompany each individual order.

Delivery restrictions

(r) *Limits on tonnage which may be accepted.* No publisher may accept, and no person may accept for a publisher's use, delivery of paper or paperboard (including boxes) if the publisher's inventory of that material exceeds a 90-days' supply, or if acceptance of the delivery will bring his inventory above this level. This restriction applies to a publisher's total inventory of all grades, qualities, types, basis weights, and sizes of paper and paperboard (including boxes), regardless of the quantity of any particular item in his inventory. For the purpose of this limitation, inventories of paper for use in the manufacture of cards and of paperboard (including boxes) for the boxing and packaging of the cards may be determined independently. The number of days' supply shall be computed at the average daily rate of allowable consumption for the current calendar quarter.

(s) *Increase of deliveries.* A publisher may accept delivery of paper or of paperboard (including boxes) which would increase his inventory to more than a 90-days' supply of that material only in the following two circumstances:

(1) If a publisher's total inventory of all paper or of all paperboard exceeds a 90-days' supply and his inventory of a particular item (grade, basis weight and size) of paper or of paperboard is less than a 30-days' supply, he may bring his inventory of that item up to a 90-days' supply, provided it is required for his production within 30 days after receipt of the paper or paperboard.

(2) Regardless of the quantity of a particular item, or of all items, in a publisher's inventory, he may accept delivery of any item which he is entitled to accept under paragraphs (r) and (s) (1) in the unit quantity (e. g. full carload, full truckload, 10,000 pounds, 5,000 pounds, 4 cases) in which he accepted delivery of that item in 1942.

(t) *Certification to paper dealer or mill.* No publisher or his agent may order or accept delivery of paper or paperboard and no person may deliver paper or paperboard to a publisher or his agent, unless the publisher furnishes, or has previously furnished, to the person making the delivery a certification in substantially the following form, signed manually or as provided in Priorities Regulation 7 (§ 944.27) by an official duly authorized for such purpose:

> The undersigned publisher certifies, subject to the penalties of section 35 (A) of the United States Criminal Code, to the seller and to the War Production Board that he is familiar with the provisions of Order L-289 and that all purchases by him of items regulated by that order, as amended from time to time, will be in compliance therewith.
>
> This is a one-time certification and need not accompany each individual order.

Miscellaneous Provisions

(u) *Records.* In order to assure compliance with this order, every publisher must calculate, as accurately as he can, the tonnage of paper and paperboard which he used during each calendar quarter of 1942 for the items covered by this order. He must also keep accurate records of this type of information for each calendar quarter beginning with July 1, 1943. He must preserve these figures and his work sheets subject to inspection by War Production Board officials as long as this order remains in force and for two years after that.

(v) *Applicability of regulations.* This order and all transactions affected by it are subject to all present and future regulations of the War Production Board.

(w) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter referring to the particular provisions appealed from, stating fully the grounds of the appeal.

(x) *Communications.* All communications concerning this order shall be addressed to: War Production Board, Printing and Publishing Division, Washington 25, D. C., Ref: L-289.

(y) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using materials under priority control, and may be deprived of priorities assistance.

Issued this 3d day of July 1944.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 3, as Amended July 3, 1944]

PREFERENCE RATINGS UNDER THE CONTROLLED MATERIALS PLAN

§ 3175.3 *CMP Regulation 3*—(a) *Purpose and scope.* The purpose of this regulation is to define the operation of preference ratings under the Controlled Materials Plan.

(b) *Definitions.* The following definitions shall apply for the purpose of this regulation and for the purposes of any other CMP regulation unless otherwise indicated:

(1) "Production material" means, with respect to any person, material or products (including fabricated parts and subassemblies) which will be physically incorporated into his product, and includes the portion of such material normally consumed or converted into scrap in the course of processing. It also includes items purchased by a manufacturer for resale to round out his line, if such items do not represent more than 10% of his total sales. It does not include any items purchased by him as manufacturing equipment or for maintenance, repair or operating supplies as defined in CMP Regulation 5.

(2) "Allotment number or symbol" means:

(i) An allotment number or symbol placed on a delivery order as provided in paragraphs (f) and (g) of this regulation, or as provided in CMP Regulation 1 or CMP Regulation 5; or

(ii) A number or symbol placed on a delivery order pursuant to any other regulation or order of the War Production Board, if, but only if, such number or symbol is expressly called or is expressly described as an "allotment number or symbol."

(c) *Superiority of ratings with allotment numbers or symbols over other ratings of equal grade during the second quarter.* A delivery order bearing a preference rating with an allotment number or symbol applied before July 1, 1943 shall (unless otherwise ordered by the War Production Board) be deemed superior in rating, for purposes of Priorities Regulation 1, to any delivery order bearing a rating of the same grade without an allotment number or symbol, but shall not be superior to another order bearing a rating of a higher grade. For example, a rating of AA-2X with an allotment number or symbol is superior to another rating of AA-2X without an allotment number or symbol, but is inferior to any rating of AA-1 with or without an allotment number or symbol.

An allotment number or symbol applied to a rating after June 30, 1943, shall not have any effect on the rating. For example, an order placed in June with a rating of AA-2X to which an allotment number is applied in July or an order placed in July with a rating of AA-2X and bearing an allotment number shall each be deemed equal in rating to orders rated AA-2X to which no allotment number or symbol is applied.

(d) *Preference ratings with allotment numbers for production schedules*—(1) *Prime consumers.* In each case when an allotment is made to a prime consumer making Class A or Class B products, and his production schedule is authorized by a Claimant Agency or an Industry Division, a preference rating will be assigned to such schedule for use with the allotment number applicable to the schedule.

(2) *Secondary consumers.* In each case when an allotment is made to a secondary consumer making Class A products and his production schedule is authorized by the consumer making the allotment, the consumer making the allotment shall apply or extend to such production schedule the same rating as he has received for his own related production schedule for use with the appropriate allotment number, except as otherwise provided in paragraph (h) of this regulation.

(3) *Use of ratings received for authorized production schedules.* A prime or secondary consumer who has received a preference rating for an authorized production schedule as provided in this paragraph (d) may use said rating, with the appropriate allotment number, only to acquire production materials in the minimum practicable amounts required to fulfill such schedules, or to replace production materials in his inventory, subject to the restrictions of paragraph (d) (3) of Priorities Regulation 3. He may not use such rating for any other purpose.

(e) *No extension of customers' ratings by prime consumers making Class B products.* A prime consumer who manufactures Class B products and has received an authorized production schedule for such manufacture, accompanied by a preference rating to be used with his allotment number, shall not extend any other rating received by him from a customer, except that if a delivery to be made by him is rated AAA, he may extend said rating to the extent necessary to obtain production material required to fill his AAA order, but may not extend the same for purposes of replenishing his inventory.

(f) *Use of allotment numbers and symbols on delivery orders.* (1) Each prime or secondary consumer shall place on each rated delivery order for production materials, required to fulfill his authorized production schedule of Class A or Class B products, his allotment number with the certification provided in paragraph (g) of this regulation or in Priorities Regulation No. 7.

(2) A person placing a rated order for maintenance, repair or operating supplies under CMP Regulation 5 shall place thereon the allotment symbol MRO with the certification required by said regulation or the certification in Priorities Regulation No. 7.

(3) A person placing a rated small order for Class A products under paragraph (i) of CMP Regulation No. 1 does not have to put his allotment number on the order. He can place on the order the symbol "SO" with the rating and the certification provided in paragraph (g) of this regulation or in Priorities Regulation No. 7.

(4) A dealer, distributor, jobber or other person who receives a rated order bearing an allotment number or symbol for any material (other than a controlled material) or product, which is not manufactured by him (or which is manufactured by him, but for the manufacture of which he has received no authorized production schedule), may extend the rating to the extent permitted by Priorities Regulation No. 3, with the same allotment number or symbol, using the form of certification prescribed in paragraph (g) of this regulation or in Priorities Regulation No. 7. If he places a single rated order to which he extends ratings bearing different allotment numbers or symbols, he shall include a statement indicating all the allotment numbers or symbols extended and the amount of the delivery order (in quantity or dollar value) represented by each. He may, if he prefers, extend the rating without any allotment number or symbol.

(5) No person shall place any allotment number or symbol on any delivery order except as provided in the foregoing provisions of this paragraph (f) or as specifically provided in any other regulation or order of the War Production Board.

(g) *Form of certification.* Any person when placing an allotment number or symbol on a rated delivery order pursuant to this regulation or CMP Regulation No. 1 shall accompany or endorse the same with a certification in substantially the following form (in lieu of the certification provided in Priorities Regulation No. 3) signed manually or as provided in Priorities Regulation No. 7:

Preference rating ---------- Allotment number or symbol ---------- The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that he is authorized under CMP Regulation No. 3 to apply or extend the above preference rating and allotment number or symbol to the delivery of the items covered by the attached delivery order.

An allotment number shall consist of the appropriate Claimant Agency letter symbol followed by the major program number (consisting of one digit only as provided in paragraph (c) (6) (ii) of CMP Regulation No. 1) but the quarterly designation does not have to be used.

However, if the order is placed in connection with an allotment of controlled materials by the purchaser to the seller, the quarterly designation as described in paragraph (c) of CMP Regulation No. 1 must be used.

(h) *Use of existing ratings.* (1) A person who has not yet received his allotment and CMP rating for a particular production schedule may apply and extend other preference ratings for such production to the extent permitted by existing Priorities Regulations and Orders (including, in the case of PRP Units, Priorities Regulation 11A regarding transition from PRP to CMP).

(2) [Deleted July 3, 1944]

(i) *Construction and facilities.* Preference ratings assigned for construction or facilities may be applied or extended in the manner and subject to the restrictions provided in CMP Regulation No. 6.

(j) *Effect of preference ratings on deliveries of controlled materials.* (1) Authorized controlled material orders placed with controlled materials producers shall be accepted and filled by such producers as provided in CMP Regulation No. 1 without regard to any preference ratings applicable to such delivery orders and in preference to all other delivery orders, except as may be otherwise specifically directed. To the extent that controlled materials producers are able to fill orders other than authorized controlled material orders, they shall fill such orders until July 1, 1943, in accordance with preference ratings as provided in Priorities Regulation 1 and subject to any other applicable regulations or orders of the War Production Board.

(2) Authorized controlled material orders placed pursuant to applicable CMP Regulations, with persons who are not controlled materials producers, shall be filled by them without regard to any preference ratings applicable to such delivery orders and in preference to all other delivery orders, except as otherwise specifically provided in applicable regulations or orders of the War Production Board, and except that an authorized controlled material order placed with any such person which is rated AAA shall take precedence over other authorized controlled material orders.

(k) *Effect of ratings on conflicting production and delivery schedules for Class A and Class B products.* Manufacturers of Class A and Class B products must comply with the requirements of paragraph (p) of CMP Regulation 1 with respect to the rejection of orders in excess of capacity, and, in the event they are unable to fulfill all orders which they have accepted, they must report for instructions as provided in paragraph (q) of CMP Regulation 1 but until and unless otherwise instructed, they shall fill orders in accordance with preference ratings as provided in Priorities Regulation No. 1 and paragraph (c) of this regulation.

Issued this 3d day of July 1944.

INTERPRETATION 2

PURCHASES TO ROUND OUT A LINE

(a) Under CMP Regulation No. 3 preference ratings assigned to an authorized production schedule may be used with the related allotment number to acquire production materials required to fulfill the schedule. The term "production material" is defined in paragraph (b) (1) of the regulation to include "items purchased by a manufacturer for resale to round out his line, if such items do not represent more than 10 percent of his total sales."

(b) The provision may not be used indiscriminately by a manufacturer to compel others to furnish him with materials for resale which he normally is able to produce himself. It was intended to permit acquisition of resale items normally sold by a producer as his own product, rather than as a distributor, in accordance with customary trade practices. Examples of such cases are (a) repair parts or special accessories for the product manufactured; (b) articles necessary to complete a "kit" or "package" which is sold as such and thereby becomes the "product," of the manufacturer such as goggles and gloves sold with welding equipment; (c) articles necessary to fill out a specific line or type of product such as sets of wrenches where the manufacturer produces some of the sizes in the set but purchases the remaining sizes to complete the set.

(c) The provision may not be used by persons, such as service repair shops, who do not manufacture products for sale.

(d) In those cases where the estimated amount of resale items to be purchased by a manufacturer will exceed 10 percent of his sales, he may not use this provision to purchase any resale items but will be treated as a distributor with respect to the entire quantity. Priorities assistance may be obtained by applying to the Wholesale and Retail Trade Division of the War Production Board on Form PD-1X, if the items are to be purchased from manufacturers, or the distributor may extend his customers' ratings, to the extent permitted by Priorities Regulation No. 3, and in extending ratings may use allotment numbers appearing on his customers' orders as provided in paragraph (f) (4) of CMP Regulation No. 3.

(e) It should be borne in mind that a preference rating assigned to an authorized production schedule may be used by a manufacturer "only to acquire production materials in the minimum practicable amounts required to fulfill such schedule, or to replace production materials in his inventory, subject to the restrictions of paragraph (c) (2) of Priorities Regulation No. 3. He may not use such rating for any other purpose."

(f) In illustration of the above, assume that a manufacturer's authorized production schedule permits him to manufacture electric motors having a value of $10,000. He may apply the preference rating assigned to such schedule to obtain all materials and components incorporated in motors produced by him and, in addition, he may purchase up to $1,000 worth of finished parts to be sold separately as repair parts for such motors. If the manufacturer desires to purchase $2,000 worth of such repair parts, he may not acquire any of them with the rating assigned to his authorized production schedule. (Issued June 2, 1943.)

INTERPRETATION 4

USE OF PRODUCTION MATERIAL RATINGS IN ORDERING NON-CONTROLLED MATERIALS AND COMPONENTS FOR ADVANCE QUARTER DELIVERY

(a) Under paragraph (d) (3) of CMP Regulation 3 a consumer may use the preference rating assigned with an authorized production schedule only to get production materials (other than controlled materials) "in the minimum practicable amounts required to fill such schedules or to replace production materials in his inventory." This does not prevent placing rated orders for delivery after the quarter for which the allotment of controlled material is made. While an allotment authorizes the ordering of controlled materials for delivery only in the quarter for which the allotment is valid, it is recognized that the production for which controlled materials are allotted may not be completed until a later quarter, if there is a long production cycle or if the controlled materials are received near the end of the quarter. In such cases, non-controlled materials and components may not be needed until a later quarter and the rating may be used to order them for delivery when required. In fact, they must not be ordered for delivery before they are actually needed. Also, where items are taken from inventory in meeting the schedules, replacements may not be needed until a later quarter.

(b) For purposes of using the rating to fill authorized production schedules, a consumer may assume (in the absence of specific information to the contrary), that he will receive authorized production schedules at least big enough to use all the controlled materials he is allotted, and he may place his rated orders accordingly. For example, if a manufacturer of generators which take six months to make has received allotments only through the third quarter of 1944, he may assume that he will receive authorized production schedules for the fourth quarter and the first quarter of 1945 big enough to use up the controlled materials allotted, and he may proceed on this assumption in ordering the non-controlled materials and components which he will need in those quarters. PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 3, Interpretation 1 as amended July 3, 1944]

EFFECT OF AN ALLOTMENT SYMBOL

The following amended interpretation is issued with respect to CMP Regulation 3:

In § 3175.3 the provisions of paragraph (c) of CMP Regulation No. 3 with respect to the superiority of a rating with an allotment number over the same rating without an allotment number are subject to the provisions of Priorities Regulation No. 12 regarding reratings. The receipt of an allotment number against a delivery order previously rated without an allotment number is equivalent to a rerating of the delivery order.

PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 3, Interpretation 3 as Amended July 3, 1944]

USE OF ALLOTMENT NUMBERS FOR PURPOSES OF IDENTIFICATION

The following amended interpretation is issued with respect to CMP Regulation 3:

(a) Under paragraph (f) of CMP Regulation No. 3 each manufacturer of Class A or Class B products who has received an authorized production schedule is required to show the allotment number assigned to the schedule on each rated order for production materials required to fill the schedule. However, if he is placing a "small order" he need only use the "SO" symbol, as explained in paragraph (i) (4) of CMP Regulation No. 1. This requirement is for identification purposes and remains effective even though allotment numbers placed on orders after June 30, 1943, will not have any up rating effect.

(b) On the other hand, a dealer, distributor, jobber or other person receiving a rated order bearing an allotment number or symbol for any material (other than a controlled material) or product, which is not manufactured by him (or which is manufactured by him, but for the manufacture of which he has received no authorized production schedule) is not required to show the allotment number or symbol appearing on his customer's order in extending the rating.

(c) In brief, prime and secondary consumers who have received an authorized production schedule must identify all orders for production materials by the allotment number assigned to the related schedule and persons who are not operating under authorized production schedules may, but need not, do so.

[Conservation Order M-81, Direction 4]

EXPERIMENTAL USE OF ALUMINUM FOR CANS

The following direction is issued pursuant to Conservation Order M-81:

(a) *Purpose.* The War Production Board has made available aluminum to be used for experimental purposes during the third quarter of 1944 in the manufacture of cans, and it may be used in accordance with the following provisions:

(b) *Use of aluminum.* During the third quarter of 1944 aluminum may be used in the manufacture of cans and these cans may only be used in the sizes specified for the packing of the following products (where no size is specified, any size is permitted):

1. Baking Powder (2 lb. and up)
2. Lard (50 lb. size)
3. Malted Milk Powder (5 lb. and up)
4. Tobacco (8 oz. and 16 oz. only)
5. Snuff
6. Tooth Powder
7. Cereal Beverages and soluble coffee
8. Cocoa
9. Ointment & Salve Boxes
10. Tablet Boxes
11. Pretzels, Crackers, Biscuits & Potato Chips (12¾ x 14½" and larger)

(c) *Other products.* Container manufacturers who do not make containers for any product listed in Paragraph (b) may apply for an allotment of aluminum to make an experimental run of cans to pack any other product.

(d) *Filing applications.* Application for permission to use aluminum for the purposes stated in Paragraphs (b) and (c) shall be made by letter stating the product to be packed and the tonnage of steel used to make cans for that product in 1941, and shall be accompanied by a CMP 4-B application requesting an allotment of aluminum for that purpose. They shall be filed before July 10, 1944 with the Containers Division, War Production Board, Washington 25, D. C., even though the applicant has been notified that his CMP case has been transferred to the field office. An allotment of aluminum on such application shall constitute authorization for any packer to use the cans made therefrom for packing the stated product.

(e) *Non-interference with war production.* In processing applications under this Direction the War Production Board will be guided by the policy that production in any one plant or labor requirements for that production, shall not interfere with war production in that plant or any other plant located in the same area.

[Preference Rating Order P-140, Direction 2]

CANCELLATION OF RATINGS FOR CONTAINERS FOR DISTILLED SPIRITS AND HIGH WINES

The following direction is issued pursuant to Preference Rating Order P-140:

(a) *Cancellation of rating.* Schedule A of Order P-140 assigns a rating of AA-2 to get wooden shipping containers for the products under Order M-69—namely, distilled spirits and high wines as defined in that order. The assignment of that rating for wooden shipping containers for those products is hereby revoked and may no longer be used for that purpose. All ratings of AA-2 applied for or extended to any order for wooden shipping containers for those products are hereby cancelled.

(b) *Rerating of existing orders.* Orders for wooden shipping containers for distilled spirits and high wines heretofore placed shall be regarded as having an AA-5 rating and shall be scheduled and filled accordingly. Any person who is entitled to a higher rating than AA-5 to get wooden shipping containers for those products (except under the provision revoked by this direction) may rerate his order accordingly and such rating shall supersede the rating of AA-5 assigned herein.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L–335, Direction 1]

SAWMILLS' SHIPMENTS OF DOUGLAS FIR, WHITE FIR, NOBLE FIR, SITKA SPRUCE (EXCEPT AIRCRAFT GRADE) AND WEST COAST HEMLOCK

The following direction is issued pursuant to Order L–335:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the States of Oregon and Washington west of the crest of the Cascade Mountain range which produce the following species of lumber: Douglas fir (psuedotsuga taxifolia), White fir, Noble fir, Sitka spruce, (except aircraft grade of Sitka spruce) and West Coast hemlock.

(b) *Military orders placed with sawmills that take precedence over other orders.* This paragraph applies to every sawmill mentioned in paragraph (a) above which currently produces 25,000 or more board feet of lumber (whether one of the named species or not) per average day of eight hours of continuous operation or which produced an average of 25,000 or more board feet of lumber per day during the days from June 3, 1943 to December 3, 1943 on which it was in operation. Starting with the month of August, 1944, sawmills that receive orders of the types described in paragraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 35 percent of the sawmill's anticipated monthly shipments. Such an order may not be accepted by a sawmill after the beginning of the month preceding the month of shipment if the acceptance of the order would result in displacing other certified and rated orders amounting to more than 10 percent of the sawmill's anticipated monthly shipments. A sawmill's shipment on such orders shall be in the sizes required by the agency or person placing the order. Orders of the types described in paragraph (c) below requiring delivery after August 1, 1944 which were placed with a sawmill before July 1, 1944 and validated before July 20, 1944 shall be treated as certified orders placed before July 1, 1944.

(c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

(1) Orders for the account of the United States Government placed by the U. S. Army, U. S. Navy, U. S. Marine Corps, U. S. Coast Guard, U. S. Maritime Commission, and War Shipping Administration;

(2) Orders for the account of the United States Government placed by the Treasury Department, Procurement Division on behalf of the Foreign Economic Administration bearing the symbol DA–TPS;

(3) Orders placed by any other persons which bear a certification of the Central Procuring Agency, Procurement Division of the United States Corps of Engineers to the effect that the lumber purchased thereby is for the use of one of the agencies mentioned in subparagraph (1) of this paragraph, or is for "command construction" or "advance base procurement".

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation." A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L–335, but orders placed with a sawmill over and above the required 35 percent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

(e) *Sawmills producing less than 25,000 board feet not getting certified orders may ship on uncertified orders.* Any sawmill defined in paragraph (a) which is smaller than the type of sawmill included in paragraph (b) must accept certified orders (whether military or not) of consumers and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L–335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors on uncertified and unrated orders. A shipment of lumber on a distributor's uncertified and unrated orders must not be made if it will interfere with the filling of a certified order. Retail sales by sawmills are subject to the provisions of paragraphs (u) and (v) of Order L–335 and the provisions of Direction 8 to be issued under the order.

Issued this 3d day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L–335, Direction 2]

SAWMILLS' SHIPMENTS FROM WESTERN PINE REGION

The following direction is issued pursuant to Order L–335:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the States of Washington, Oregon, California, Idaho, Montana, Wyoming, Nevada, Utah, Colorado, Arizona, New Mexico, and South Dakota which produce the following species of lumber: Ponderosa pine, sugar pine, lodgepole pine, Idaho White pine, white fir, and Douglas fir (except Idaho white pine, white fir, and Douglas fir produced west of the crest of the Cascade mountain range in the States of Oregon and Washington), Western white spruce, Engelmann spruce, and larch.

(b) *Military orders placed with sawmills that take precedence over other orders.* This paragraph applies to every sawmill mentioned in paragraph (a) above which currently produces 10,000 or more board feet of lumber (whether one of the named species or not) per average day of eight hours of continuous operation or which produced an average of 10,000 or more board feet of lumber per day during the days from June 3, 1943 to December 3, 1943 on which it was in operation. Starting with the month of August, 1944, sawmills that receive orders of the types described in pargaraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 20 percent of the sawmill's anticipated monthly shipments. Such an order may not be accepted by a sawmill after the beginning of the month preceding the month of shipment if the acceptance of the order would result in displacing other certified and rated orders amounting to more than 10 percent of the sawmill's anticipated monthly shipments. A sawmill's shipment on such orders shall be in the sizes required by the agency or person placing the order. Orders of the types described in paragraph (c) below requiring delivery after August 1, 1944 which were placed with a sawmill before July 1, 1944 and validated before July 20, 1944 shall be treated as certified orders placed before July 1, 1944.

(c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

(1) Orders for the account of the United States Government placed by the U. S. Army, U. S. Navy, U. S. Marine Corps, U. S. Coast Guard, U. S. Maritime Commission, and War Shipping Administration;

(2) Orders for the account of the United States Government placed by the Treasury Department, Procurement Division on behalf of the Foreign Economic Administration bearing the symbol DA–TPS;

(3) Orders placed by any other persons which bear a certification of the Central Procuring Agency, Procurement Division of the United States Corps of Engineers to the effect that the lumber purchased thereby is for the use of one of the agencies mentioned in subparagraph (1) of this paragraph, or is for "command construction" or "advance base procurement".

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation". A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L–335, but orders placed with a sawmill over and above

the required 20 percent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

(e) *Sawmills producing less than 10,000 board feet not getting certified orders may ship on uncertified orders.* Any sawmill defined in paragraph (a) which is smaller than the type of sawmill included in paragraph (b) must accept certified orders (whether military or not) of consumers and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L–335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors on uncertified and unrated orders. A shipment of lumber on a distributor's uncertified and unrated orders must not be made if it will interfere with the filling of a certified order. Retail sales by sawmills are subject to the provisions of paragraphs (u) and (v) of Order L–335 and the provisions of Direction 8 to be issued under the order.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L–335, Direction 3]

SAWMILLS' SHIPMENTS OF REDWOOD

The following direction is issued pursuant to Order L–335:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the State of California which produce redwood lumber.

(b) *Military orders placed with sawmills that take precedence over other orders.* This paragraph applies to every sawmill mentioned in paragraph (a) above which currently produces 25,000 or more board feet of lumber (whether redwood or not) per average day of eight hours of continuous operation or which produced an average of 25,000 or more board feet of lumber per day during the days from June 3, 1943 to December 3, 1943 on which it was in operation. Starting with the month of August, 1944, sawmills that receive orders of the type described in paragraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 60 percent of the sawmill's anticipated monthly shipments. Such an order may not be accepted by a sawmill after the beginning of the month preceding the month of shipment if the acceptance of the order would result in displacing other certified and rated orders amounting to more than 10 percent of the sawmill's anticipated monthly shipments. A sawmill's shipment on such orders shall be in the sizes required by the agency or person placing the order. Orders of the types described in paragraph (c) below requiring delivery after August 1, 1944 which were placed with a sawmill before July 1, 1944 and validated before July 20, 1944 shall be treated as certified orders placed before July 1, 1944.

(c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

(1) Orders for the account of the United States Government placed by the U. S. Army, U. S. Navy, U. S. Marine Corps, U. S. Coast Guard, U. S. Maritime Commission, and War Shipping Administration.

(2) Orders for the account of the United States Government placed by the Treasury Department, Procurement Division on behalf of the Foreign Economic Administration bearing the symbol DA–TPS;

(3) Orders placed by any other persons which bear a certification of the Central Procuring Agency, Procurement Division of the United States Corps of Engineers to the effect that the lumber purchased thereby is for the use of one of the agencies mentioned in subparagraph (1) of this paragraph, or is for "command construction" or "advance base procurement".

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation". A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L–335, but orders placed with a sawmill over and above the required 60 percent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

(e) *Sawmills producing less than 25,000 board feet not getting certified orders may ship on uncertified orders.* Any sawmill defined in paragraph (a) which is smaller than the type of sawmill included in paragraph (b) must accept certified orders (whether military or not) of consumers and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L–335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors on uncertified and unrated orders. A shipment of lumber on a distributor's uncertified and unrated orders must not be made if it will interfere with the filling of a certified order. Retail sales by sawmills are subject to the provisions of paragraphs (u) and (v) of Order L–335 and the provisions of Direction 8 to be issued under the order.

Issued this 3d day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L–335, Direction 4]

SAWMILLS' SHIPMENTS OF SOUTHERN YELLOW PINE

The following direction is issued pursuant to Order L–335:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the United States which produce Southern yellow pine lumber.

(b) *Military orders placed with sawmills that take precedence over other orders.* This paragraph applies to every sawmill mentioned in paragraph (a) above which currently produces 5,000 or more board feet of lumber (whether Southern yellow pine or not) per average day of eight hours of continuous operation or which produced an average of 5,000 or more board feet of lumber per day during the days from June 3, 1943 to December 3, 1943 on which it was in operation. Starting with the month of August, 1944, sawmills that receive orders of the types described in paragraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 35 percent of the sawmill's anticipated monthly shipments. Such an order may not be accepted by a sawmill after the beginning of the month preceding the month of shipment if the acceptance of the order would result in displacing other certified and rated orders amounting to more than 10 percent of the sawmill's anticipated monthly shipments. A sawmill's shipment on such orders shall be in the sizes required by the agency or person placing the order. Orders of the types described in paragraph (c) below requiring delivery after August 1, 1944 which were placed with a sawmill before July 1, 1944 and validated before July 20, 1944 shall be treated as certified orders placed before July 1, 1944.

(c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

(1) Orders for the account of the United States Government placed by the U. S. Army, U. S. Navy, U. S. Marine Corps, U. S. Coast Guard, U. S. Maritime Commission, and War Shipping Administration;

(2) Orders for the account of the United States Government placed by the Treasury Department, Procurement Division on behalf of the Foreign Economic Administration bearing the symbol DA–TPS;

(3) Orders placed by any other persons which bear a certification of the Central Procuring Agency, Procurement Division of the United States Corps of Engineers to the effect that the lumber purchased thereby is for the use of one of the agencies mentioned in sub-paragraph (1) of this paragraph, or is for "command construction" or "advance base procurement".

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation". A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L–335, but orders placed with a sawmill over and above the required 35 percent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

(e) *Sawmills producing less than 5,000 board feet not getting certified orders may ship on uncertified orders.* Any sawmill defined in paragraph (a) which is smaller than the type of sawmill included in paragraph (b) must accept certified orders (whether military or not) of consumers and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L–335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors on uncertified and un-

rated orders. A shipment of lumber on a distributor's uncertified and unrated orders must not be made if it will interfere with the filling of a certified order. Retail sales by sawmills are subject to the provisions of paragraphs (u) and (v) of Order L–335 and the provisions of Direction 8 to be issued under the order.

Issued this 3d day of July 1944.

PART 3285—LUMBER AND LUMBER PRODUCTS

[Order L–335, Direction 5]

SAWMILLS' SHIPMENTS OF CYPRESS (RED OR YELLOW) LUMBER

The following direction is issued pursuant to Order L–335:

(a) *What sawmills are covered by this direction.* This direction applies only to sawmills located in the United States which produce cypress (red or yellow) lumber.

(b) *Military orders placed with sawmills that take precedence over other orders.* This paragraph applies to every sawmill mentioned in paragraph (a) above which currently produces 5,000 or more board feet of lumber (whether one of the named species or not) per average day of eight hours of continuous operation or which produced an average of 5,000 or more board feet of lumber per day during the days from June 3, 1943 to December 3, 1943 on which it was in operation. Starting with the month of August, 1944, sawmills that receive orders of the types described in paragraph (c) below must accept and ship such orders in preference to all other orders (except orders rated AAA) to the extent that such orders do not require more than 30 percent of the sawmill's anticipated monthly shipments. Such an order may not be accepted by a sawmill after the beginning of the month preceding the month of shipment if the acceptance of the order would result in displacing other certified and rated orders amounting to more than 10 percent of the sawmill's anticipated monthly shipments. A sawmill's shipment on such orders shall be in the sizes required by the agency or person placing the order. Orders of the types described in paragraph (c) below requiring delivery after August 1, 1944 which were placed with a sawmill before July 1, 1944 and validated before July 20, 1944 shall be treated as certified orders placed before July 1, 1944.

(c) *Military orders.* The following types of certified and rated orders placed with a sawmill shall be accorded the treatment provided for in paragraph (b) above and shipments made on such orders may be credited against the percentage that a sawmill is required to ship under that paragraph in preference to other orders:

(1) Orders for the account of the United States Government placed by the U. S. Army, U. S. Navy, U. S. Marine Corps, U. S. Coast Guard, U. S. Maritime Commission, and War Shipping Administration;

(2) Orders for the account of the United States Government placed by the Treasury Department, Procurement Division on behalf of the Foreign Economic Administration bearing the symbol DA–TPS;

(3) Orders placed by any other persons which bear a certification of the Central Procuring Agency, Procurement Division of the United States Corps of Engineers to the effect that the lumber purchased thereby is for the use of one of the agencies mentioned in subparagraph (1) of this paragraph, or is for "command construction" or "advance base procurement".

For the purposes of this direction "orders" shall be deemed to include the memorandum of purchase issued by the Central Procuring Agency on ED Form 526 commonly known as a "purchase allocation". A "purchase allocation" order is not to receive the preferential treatment to be accorded military orders under paragraph (b) above unless it is one of the types of orders described above.

(d) *Other military orders.* The amount of lumber that must be made available to the military on orders receiving the preferential treatment described in paragraph (b) is the minimum and a sawmill must continue to accept other orders coming from the same sources for lumber in excess of the required percentage mentioned in paragraph (b) in accordance with paragraphs (x) (1) and (x) (2) of Order L–335, but orders placed with a sawmill over and above the required 30 percent shall be treated like any other order and they will not take precedence over other orders which are equally or higher rated.

(e) *Sawmills producing less than 5,000 board feet not getting certified orders may ship on uncertified orders.* Any sawmill defined in paragraph (a) which is smaller than the type of sawmill included in paragraph (b) must accept certified orders (whether military or not) of consumers and distributors offered it in accordance with paragraphs (x) (1) and (x) (2) of Order L–335 but if such a sawmill has not been offered certified orders for all of its lumber it may ship the balance to lumber distributors on uncertified and unrated orders. A shipment of lumber on a distributor's uncertified and unrated orders must not be made if it will interfere with the filling of a certified order. Retail sales by sawmills are subject to the provisions of paragraphs (u) and (v) of Order L–335 and the provisions of Direction 8 to be issued under the order.

PART 3288—PLUMBING AND HEATING EQUIPMENT

[General Limitation Order L–185, as Amended July 1, 1944]

WATER HEATERS

The fulfillment of requirements for the defense of the United States has created a shortage of materials used in the manufacture of water heaters for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3288.51 *General Limitation Order L–185*—(a) *Definitions.* (1) "Direct fired water heater" means any device for the direct transference of heat produced by electricity or by the combustion of coal, wood, fuel oil or gas, or derived from solar rays, to the water of a hot water supply system. The term includes, but is not limited to, coils, side-arm water heaters, bucket-a-day stoves, laundry stoves (with cored water sections), dome type water heaters, steel hot water supply heaters, or service water tank heaters having not more than two cored water sections, automatic storage water heaters, instantaneous or continuous flow water heaters, underfired storage water heaters, electric water heaters, and solar water heaters. The term does not include any low pressure cast iron or steel boiler designed for the purpose of heating water to provide heat for the interior of a building by means of circulating steam or hot water.

(2) "Indirect water heater" means any device to which steam or hot water is piped for the transference of the heat of such steam or hot water to the water of a hot water supply system, or the water of a hot water space heating system. The term includes, but is not limited to, coils, side arm water heaters, submerged type water heaters or any indirect water heater (including tanks) commonly referred to as a storage water heater consisting of a heating element installed in a hot water storage tank for the purpose of heating and storing hot water for any use, and any indirect water heater consisting of a coil or a nest of tubes installed in a shell or pressure vessel having a diameter 12" or less (if other than circular in cross section and internal cross sectional area 113 sq. in. or less) and designed for the purpose of supplying hot water to a hot water space heating system. The term does not include any storage tank, the manufacture of which is governed by Limitation Order L–199, even though used in conjunction with any indirect water heater. It is not intended by the foregoing definition to include any product which is controlled by Limitation Order L–123.

(3) "Hot water supply system" means any system of supplying hot water used in whole or in part for bathing, washing, cleaning, cooking or other similar purposes. The term does not include any system for supplying hot water for specialized industrial or agricultural purposes.

(4) "Hot water space heating system" means any system which is designed for the purpose of heating the interior of a building or other structure (including ships) by utilizing the heat of hot water.

(5) "Metal jacket" means any metal covering, lining, or portion thereof (but not any metal band two inches or less in width used to support a jacket which holds dry insulation) for any direct fired or indirect water heater, except any metal covering, lining, or portion thereof which conducts flue gases, water, or steam through and to the outside of a direct fired or indirect water heater, and except any ferrous metal wire netting used as a base for the wet application of insulating material.

(6) "Copper base alloy" means any alloy in the composition of which the percentage of copper metal by weight equals or exceeds 40% of the total weight of the alloy.

(b) *Use of copper, stainless steel, and monel metal in manufacture.* No person shall use in the manufacture, fabrication, or assembly of any direct fired or indirect water heater, any copper, copper base alloy, stainless steel, or monel metal except:

(1) For repair parts not including tanks;

(2) For temperature, pressure, vacuum or electrical controls, safety devices or valves;

(3) For tank spuds or tappings;

(4) For coils and tubular units built with copper tubing of 1½" outside diameter or less, in indirect water heaters only. However, the shells, steam heads, tube plates and other cast parts of indirect water heaters shall be of ferrous metal, or non-metallic materials except that terminal outlets and spacer plates may be of a copper base alloy in which no primary tin or copper is used, and the alloy shall be of no higher grade than alloy 5A of the A. S. T. M. specification B–145–42–T.

The exceptions to the restrictions in the use of copper, stainless steel, or monel metal contained in paragraphs (b) (2) and (b) (4) thereof do not apply to the production of indirect water heaters designed for hot water space heating systems.

(5) For coils and terminal outlets for direct fired side-arm water heaters, except that any copper base alloy used in the production of terminal outlets may contain no primary tin or copper, and the alloy shall be of no higher grade than alloy 5A of the A. S. T. M. Specification B–145–42–T.

(6) For current carrying parts and heating elements for electric water heaters.

(c) *Use of copper, stainless steel, and monel metal in the installation of repair and replacement parts.* (1) No person shall in any repair or replacement use or install parts containing in the aggregate more than two pounds of copper or copper base alloy, stainless steel, or monel metal, if the weight of the copper, copper base alloy, stainless steel, or monel metal so used or installed exceeds by more than one pound the weight of copper, copper base alloy, stainless steel, or monel metal replaced. The restrictions in this subparagraph do not apply to the replacement of ferrous heating elements for direct or indirect water heaters.

(2) All copper and copper base alloy replaced in any repair shall be delivered by the person making the repair to a scrap dealer or other person specified under Copper Order M–9.

(d) *Manufacture of metal jackets.* No person shall manufacture or fabricate any metal jacket except: (1) From materials in his inventory on May 8, 1944; (2) From materials obtained from frozen, idle and excess inventories; (3) From allotted materials; or (4) From aluminum the use of which for making metal jackets is specifically authorized by the War Production Board pursuant to Order M–1–i.

(e) *Restrictions on production*—(1) *Water heaters except electric.* No person shall manufacture or assemble more units of direct fired (other than electric) or indirect water heaters than his quota, which for each calendar year, shall be determined by the percentage indicated on Schedule A of his 1941 unit production of the same classification of water heaters. However, regardless of the number of water heaters he may have produced before July 1, 1944, his quota for the period from that date through December 31, 1944, shall be ½ the quota for each calendar year. If additional production is necessary to fulfill the approved War Production Board program, any person may request authorization to exceed his quota by addressing a letter to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., stating his proposed additional production in units per quarter, and the War Production Board may authorize additional production on Form GA–1850.

(2) *Electric water heaters.* (i) No person shall manufacture or assemble any electric water heaters except to the extent authorized by the War Production Board on Form GA–1850. The War Production Board will authorize limited production so that the aggregate production of electric water heaters for each calendar year will not exceed 37 per cent of the aggregate production of the industry from July 1, 1940 through June 30, 1941, except that for the period from July 1, 1944, through December 31, 1944, the aggregate production shall not exceed 18½ per cent. Production will not be authorized in any plant where such production or labor requirement therefor will interfere with war production in that plant or in any other plant located in the same area.

(ii) A person wishing to make electric water heaters (other than those excepted by paragraph (f)), should apply for authorization by letter addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., reference L–185. This letter should state the proposed production in units per quarter. Where the applicant will need controlled materials in order to produce the equipment, the letter requesting authorization should be accompanied by an application on Form CMP–4B for the controlled materials.

(iii) No person may manufacture or assemble electric water heaters in more than three sizes (based on water storage capacity) nor in more than one model in each size, but a change in the number or design of heating elements shall not constitute a change in size or model. Each person shall report in a letter the size and model designation of the electric water heaters he intends to produce. Each person shall thereafter produce only those sizes and models so reported unless written authorization is received from the War Production Board to produce any other models or sizes. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Exceptions to manufacturing restrictions.* The restrictions of this order do not apply to the production of water heaters or parts required by the Army, Navy, Maritime Commission, or War Shipping Administration, or by rules and regulations promulgated by the Coast Guard for merchant vessels, for use in ships, boats, planes, laundries, kitchens, hospitals, bakeries, or advance bases, or to fill orders authorized by the Maritime Commission on Form WPB–646. Water heaters produced under this paragraph (f) shall not be charged against the production quotas set forth in paragraphs (e) (1) and (e) (2).

(g) *Appeals.* Any appeal from the provisions of this order shall be filed on Form WPB–1477 with the Field Office of the War Production Board, for the district in which is located the plant or branch of the appellant to which the appeal relates.

(h) *Communications.* All communications concerning this order, unless otherwise directed should be addressed to the War Production Board, Plumbing and Heating Division, Washington 25, D. C., Reference L–185.

(i) *Reports.* Manufacturers of water heaters shall report on or before the tenth day of each month on Form WPB–3717, following the instructions on the form. This reporting requirement has been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

(j) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control and may be deprived of priorities assistance.

Issued this 1st day of July 1944.

Recording Secretary.

SCHEDULE A—PERMITTED PERCENTAGES OF 1941 UNIT PRODUCTION

NOTE: Schedule A amended in its entirety July 1, 1944.

	Percent
A. Direct fired water heaters:	
1. Underfired water heaters	80
2. Coal and wood fired water heaters	100
3. Side-arm heaters	70
4. All others	50
B. Indirect water heaters	57

PART 3291—CONSUMER'S DURABLE GOODS

[Limitation Order L–30–b, Direction 1 as Amended July 1, 1944]

ENAMELED COLD PACK CANNERS

The following amended direction is issued pursuant to Limitation Order L–30–b:

(a) *What this direction does.* This direction is designed to provide for the production of enameled cold pack canners for use in the 1944 canning season. It permits production before October 1, 1944, only.

(b) *Definition of enameled cold pack canner.* An "enameled cold pack canner" is a covered utensil made of vitreous-enameled iron and steel having a capacity of from 17 to 25 quarts which may be used for canning food products and is designed to hold 7 one-quart jars, 9 one-pint jars or 4 half-gallon jars.

(c) *What sizes of canners may be made.* Each manufacturer is permitted by this direction to make one size of enameled cold pack canner. This may be the same as one of the sizes of stock pots which he makes under Table A of Order L–30–b, or may be made in addition to those sizes, but no cold pack canner made under this direction may be sold by a manufacturer as a stock pot.

(d) *How many cold pack canners may be made.* No manufacturer may produce more enameled cold pack canners between February 19 and October 1, 1944, than 50% of the number of such canners which he made in the twelve months ending June 30, 1941.

(e) *Effect of Order L–30–b.* Under paragraph (h) of Order L–30–b the iron and steel which a manufacturer uses in making cold pack canners may be used in addition to his quotas for civilian orders of enameled ware under paragraph (e) of that order.

(f) *Wire racks.* Wire racks may be made of carbon steel for use in the enameled cold pack canners to be produced under this direction. Tin may be used in plating these wire racks. These provisions supersede any provisions in Orders M–126 and M–43 which would prevent the use of these materials.

Issued this 1st day of July 1944.

PART 3291—CONSUMERS DURABLE GOODS

[Limitation Order L–30–d, Direction 1, as Amended July 1, 1944]

The following amended direction is issued pursuant to L–30–d:

ALUMINUM PRESSURE CANNERS

(a) *What this direction does.* In order to provide for the production of aluminum pressure canners for the 1944 canning season, this direction tells what types of pressure canners may be made, who may make them and how many may be made.

(b) *Definition of "pressure canners".* As used in this direction, "pressure canner" means any device commonly known as a pressure cooker or pressure canner which may be used for canning food products under steam pressure, and which is equipped with a dial, indicating or weighted gauge, a venting device and a safety valve.

(c) *Production of pressure canners*—(1) *Authorized list of manufacturers.* The following manufacturers may produce or assemble between January 31 and October 1, 1944 at their plants at the addresses indicated, aluminum pressure canners in quantities not exceeding the number indicated opposite their names:

NOTE: Table amended July 1, 1944.

	7-quart size	14-quart size
Burpee Can Sealer Co., Barrington, Ill.	39,500	10,000
National Aluminum Mfg. Co., Peoria, Ill.	34,000	22,500
Wisconsin Aluminum Foundry Co., Manitowoc, Wis.	12,500	-------
Pressure Cooker Co., Denver, Colo.	2,614	-------
National Pressure Cooker Co., Eau Claire, Wis.	191,200	67,500
Lakeside Aluminum Co., Minneapolis, Minn.	19,886	-------

(2) *Restriction on aluminum permanent mold castings.* No person may make any aluminum permanent mold castings for the aluminum pressure canners to be produced under this direction without first obtaining the written specific authorization of the War Production Board. Applications for authorization to make such castings should be made by letter to the War Production Board, Washington 25, D. C., Ref: L–30–d, Direction 1. Each applicant should submit complete information as to the availability of his facilities for making castings in the light of his present and potential war work and the manpower situation in his plant and in the area where it is located. The War Production Board will not issue any authorization to produce permanent mold castings if the Board finds that such production will interfere with the production and delivery of war orders, and the Board intends to change or revoke any authorization if later conditions show that such interference is likely.

(3) *Additional production.* The War Production Board may add additional manufacturers to those listed above or increase the quantities specified to the extent that materials, facilities and manpower are available and additional pressure canners are needed to meet requirements. Any person desiring to produce aluminum pressure canners in addition to those mentioned above should apply by letter to the War Production Board, Washington 25, D. C., Ref: L–30–d, Direction 1. Each applicant should submit full details of the pressure canners he proposes to make, including a bill of materials on Form CMP–1, and illustrations, designs or samples when practicable. He should also submit complete information as to the availability of his facilities for this production in the light of the war work which he is doing and the manpower situation in his plant and in the area where his plant is located. A CMP–4B application for any controlled materials needed should accompany any application under this paragraph.

(4) *Revision of quotas.* If the War Production Board finds that any manufacturer will be unable to produce his quota of pressure canners because of interference with war orders or for any other reason, the Board intends to reduce his quota and transfer the excess to another manufacturer.

(d) *What types of pressure canners may be made; sizes and permissible metals*—(1) *Sizes.* Only two sizes of pressure canners may be made under this direction, one with a capacity of 7 one-quart glass jars, and the other with a capacity of 14 one-quart glass jars.

(2) *Materials which may be used.* The body, cover and insets for preparing food must be made of aluminum or aluminum alloy. Carbon steel may be used in any other parts or attachments, including wire racks. Alloy steel may be used in locking devices and safety and relief valves only. Copper and copper base alloy may be used in indicating gauges, safety and relief valves and blow-out plugs only. Tin may be used in plating wire racks only. These provisions supersede any provisions in Orders M–1–l, M–9–c, M–43 and M–126, which would prevent the use of these materials. In all other respects the use of materials in pressure canners must conform to applicable conservation orders.

(e) *Reports.* (1) Beginning March 10, 1944, each manufacturer shall file by the 10th day of each month, a report by letter with the War Production Board, Washington 25, D. C., Ref: L–30–d, Direction 1, stating the number of pressure canners which he made in the preceding calendar month by sizes.

(2) The reporting provisions in this Direction have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 1st day of July 1944.

Recording Secretary.

DOMESTIC ICE REFRIGERATORS

§ 3291.23 *Schedule VIII to Limitation Order L–7–c.* Pursuant to paragraph (b) (2) of Limitation Order L–7–c:

The following production quotas for domestic ice refrigerators are established for the period from July 1, 1944 through September 30, 1944, inclusive. During that period each manufacturer listed is authorized to make the number of domestic ice refrigerators set forth below opposite his name. Manufacturers listed may only make the refrigerators in their own plants at the location set forth opposite their respective names. Manufacturers listed may not make more domestic ice refrigerators than the number opposite their names, even for orders bearing preference ratings. All domestic ice refrigerators made by each manufacturer must be included in the quotas assigned in this Schedule.

Subchapter C—Office of Director of War Utilities

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 4501—COMMUNICATIONS

[Utilities Order U–8, as Amended July 1, 1944]

ORDER LIMITING THE MANUFACTURE OF TELEPHONES

The purpose of this order is to conserve materials and manufacturing capacity required for the prosecution of the war by restricting the manufacture of telephones. However, because of the prime necessity for maintaining telephone service, this order is not intended to prevent the maintenance, repair or conversion of telephone sets, nor is it intended to prevent the manufacture of parts to maintain, repair or convert telephone sets.

§ 4501.26 *Utilities Order U–8*—(a) *Definitions.* For the purpose of this order:

(1) "Person" means any individual, partnership, association, business trust, corporation, receiver or any form of enterprise whatsoever, whether incorporated or not.

(2) "Standard telephone set" means any telephone set except those on List B attached. It does not include any of the apparatus or wiring set forth on List A attached.

(3) "Wire intercommunicating telephone set" means any telephone set for use in a wire intercommunicating system which is not owned by a public telephone system and does not involve the use of substantial amounts of outside plant. Thus, it includes any telephone set for use in connection with a system contained within a building or within a group of buildings located nearby one another. It does not include a telephone set for use in a system employing large amounts of outside plant such as are required by the telephone lines of railroad or pipe line companies. Nor does it include a wire intercommunicating set which employs electronic tubes as an essential part of such set.

(b) *Restrictions.* (1) No person shall produce any standard telephone sets except:

(i) To fill orders of the kind shown on List C, or

(ii) To maintain an inventory specifically permitted by the War Production Board, or

(iii) To fill authorized production quotas established by the War Production Board. Production will be authorized so as not to exceed the approved WPB program and so that the production authorized in any one plant, or labor requirements therefor, will not interfere with war production in that plant or in any other plant located in the same area.

However, any person may maintain, repair or convert existing standard telephone sets.

(2) No person shall produce parts of standard telephone sets, except:

(i) For the maintenance, repair or conversion of existing telephone sets, or

(ii) For non-telephone use, or

(iii) For another person who regularly produces or assembles telephones for sale, or

(iv) To assemble standard telephone sets permitted by Order U-8, or

(v) To assemble standard telephone sets permitted by a specific grant of relief from the restrictions of Order U-8 by the War Production Board, or

(vi) To assemble standard telephone sets within an authorized production quota established by the War Production Board.

Any person producing telephone parts may produce any part in a minimum production run whenever his inventory contains less than a 60 days supply.

(3) No person shall sell parts of standard telephone sets manufactured after November 15, 1942 unless the buyer certifies in writing to the seller and the War Production Board that the parts are to be used:

(i) For maintenance, repair or conversion of existing telephone sets, or

(ii) For non-telephone use, or

(iii) To assemble telephone sets permitted by Order U-8, or

(iv) To assemble standard telephone sets permitted by a specific grant of relief from the restrictions of Order U-8 by the War Production Board, or

(v) To assemble standard telephone sets within an authorized production quota established by the War Production Board.

However, parts manufactured and sold under a specific WPB permission to produce or assemble a complete telephone(s), may be resold without a certification as to use.

The requirement of this paragraph (b) (3) will be satisfied for all future purchase orders for telephone parts if the buyer makes a single written certification to his supplier and the War Production Board that all telephone parts ordered by him will be used only in ways described in this paragraph.

(4) No person shall produce or assemble any wire intercommunicating telephone sets except:

(i) To fill an order bearing a preference rating of AA–5 or higher for a maintenance replacement of an existing set or for additional stations within the designed capacity of an existing system,

(ii) To fill an order specifically authorized and rated by the War Production Board on Form WPB–1319 for telephones in connection with a new wire intercommunicating system or with an addition beyond the designed capacity of an existing wire intercommunicating system. Applications for such specific authorization shall be addressed to the Communications Division, Office of War Utilities, Washington (25), D. C.

(iii) To fill orders of the kinds shown on List C.

(iv) To maintain an inventory specifically permitted by the War Production Board.

(c) *Records.* All persons who produce telephone sets or parts shall keep and preserve for not less than two years accurate and complete records concerning production and sale of telephone sets and parts. Any person who sells telephone parts manufactured after November 15, 1942 for which a buyer's certification is required by paragraph (b) (3) shall keep and preserve the buyer's certification(s) for not less than two years.

(d) *Reports.* All persons who produce or assemble telephone sets or parts shall make such reports as shall be required from time to time by the War Production Board; subject to the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(e) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from process or use of, material under priority control, and may be deprived of priorities assistance.

(f) *Appeals.* Any person affected by this order may apply for relief by letter, specifying the particular provision involved and stating all the facts on which he relies.

(g) *Communications.* All reports required and all communications concerning this order shall be addressed to the Communications Division, Office of War Utilities, War Production Board, Washington (25), D. C., Reference: U-8.

Issued this 1st day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

LIST A—ITEMS NOT AFFECTED BY THE ORDER

1. Jacks and plugs.
2. Switching keys.
3. Extension bells.
4. Loud-ringing bells.
5. Connecting blocks.
6. Protectors.
7. Station, drop and line wiring and cabling.
8. Battery boxes.
9. Dials or equivalent calling devices.

LIST B—TELEPHONES WHICH MAY BE MANUFACTURED

1. Head and chest telephone sets.
2. Telephone test sets for use in connection with the construction and maintenance of wire communication plant.
3. Any telephone set assembled in connection with a coin collecting device for use as a public pay station.

4. Outdoor and mine type telephone sets which are so designed as to employ a minimum of critical materials consistent with the essential service requirements.

5. Explosion proof sets for use in mines, and in locations in munitions plants and other essential industries where the use of a standard telephone set would give rise to danger of explosion.

6. Telephone sets, of special design, required for use on shipboard or in connection with underwater and flying operations and for gas masks.

7. Portable telephone sets (outdoor type) and sound powered telephone sets for use by railroads, pipe line companies, the Coast and Geodetic Survey, the Forest Service and the Alaska Highway.

8. Telephone sets for railroad train dispatching service or for railroad traffic control service, or for service with railway electric switch locks.

9. Push-to-talk handsets, that is, handsets having a selector device which permits the use of either the transmitter or the receiver or both, for use by the armed services.

LIST C—PERSONS FOR WHOM TELEPHONES MAY BE MANUFACTURED

1. Any telephone set or part ordered by, or for the account of, or for resale to, the Army or Navy of the United States, the United States Maritime Commission, the War Shipping Administration, the Panama Canal, the Coast Guard, and the Civil Aeronautics Administration.

2. Any telephone set or part for use in combat or for combat equipment, ordered by, or for the account of, or for resale to, the government of any of the following countries: Belgium, China, Czechoslovakia, Free France, Greece, Iceland, Netherlands, Norway, Poland, Russia, Turkey, United Kingdom, including its dominions, crown colonies and protectorates, and Yugoslavia, or any other country, including those of the Western Hemisphere, now or hereafter designated, pursuant to the Act of March 11, 1941 entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act).

Definitions

§ 4600.01 *Meaning of certain terms.* As used in this order:

(a) "Rubber" when used alone refers to any or all of the following: Crude rubber, latex, reclaimed rubber and scrap rubber.

(b) "Crude rubber" means all forms and types of natural crude rubber, but does not mean or include balata, chilte, gutta-percha, gutta siak, gutta jelutong, pontianac, latex, reclaimed rubber or scrap rubber.

(c) "Latex" means the dry latex solids contained in natural liquid latex.

(d) "Reclaimed rubber" means any vulcanizable material derived from the processing or treatment of scrap rubber except reclaimed residue or "mud". Reclaimed residue or "mud" means dried and recovered sludge consisting of a mixture of partially hydrolyzed cellulose, finely divided rubber and other waste products of the digester process of reclaiming rubber.

(e) "Scrap rubber" means any material which results from or is incident to the processing of rubber or synthetic rubber in the manufacture or repair of any product including any unvulcanized scrap rubber containing fabric and any defectively processed materials or products which are not usable for a purpose for which they are designed. The term also means any finished product or part thereof made in whole or in part from rubber or synthetic rubber which through wear, deterioration or obsolescence has served its purpose in its present state.

The term does not include (1) a pneumatic tire or tire casing which can be made serviceable under present limited operating conditions for a use for which it was designed, by means of a temporary or permanent repair or by retreading or recapping in accordance with recognized commercial practice; (2) any other product which is still usable for a primary purpose for which it was designed; (3) any residual piece of uncured tire cord friction (cord end) which is of sufficient size to be usable as new material in the manufacture of tire patches or in the repair of tires.

(f) "Synthetic rubber" includes Neoprene (all types including GR-M), Thiokol all types except GR-P; all Isobutylene polymer and copolymer types, including Butyl (GR-I) and Polyisobutylene (also known as Polybutene, Vistanex, Vistac and Synthetic 100); all Butadiene polymer and copolymer types, including but not limited to Buna S (GR-S all types, Hycar OS and Styraloy) and all Buna N types, such as Hycar, Perbunan, Chemigum, Butaprene, GR-A and Neoprene ILS; and all Isoprene polymer and copolymer types.

(g) "Balata" means any of the gums of recognized commercial grades, having a gutta hydrocarbon base and a high resin content, and includes such gums whether in crude or refined (deresinated or partly deresinated) form; but does not mean or include scrap balata or reclaimed balata, or Coquirana, Chicken-Wire, Peruvian F. A. Q. white, and Massaranduba Balata.

(h) "Chlorinated rubber" means the reaction product of chlorine and rubber, synthetic rubber or balata.

(i) "Consume" means to fabricate, process, stamp, cut or in any manner make any substantial change in the form, shape or chemical composition of rubber, synthetic rubber or balata and include both the consumption of scrap rubber for the production of reclaimed rubber, and the separating, tearing, splitting or pulling apart of scrap rubber for any purpose.

(j) "Government order" means any contract or purchase order for material or equipment:

(1) To be delivered to or for the account of any agency of the United States, including any independent regulatory commission or board, any executive department, independent establishment, commission, board, bureau, division, agency, administration, service, or office of the Executive branch of the Federal Government, and any corporation operated by the Federal Government. The term does not include any contract or purchase order for (i) maintenance, operating or repair material or equipment to be delivered to or for the account of any Federal Government-owned or controlled plant or facility which is not operated by the Federal Government or, (ii) material or equipment to be delivered to or for the account of any post exchange, ship's store, commissary, officer's mess, officers', non-commissioned officers' or enlisted men's club, or any similar agency or organization, whether or not such contract or purchase order bears an endorsement specified in Priorities Regulation No. 17.

(2) To be delivered to, or for the account of, any foreign country under the provisions of the Act of March 11, 1941, entitled, "An Act to Promote the Defense of the United States" (Lend-Lease Act).

(3) Required by the person placing the same to fill his contracts or purchase orders on hand, provided the material or equipment is to be physically incorporated in material or equipment to be delivered under contracts or purchase orders included under paragraphs (1) and (2) of this § 4600.01 (j).

(k) "Civilian order" means any contract or purchase order for material or equipment which is not a "Government order" as defined above.

(l) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

General Restrictions on Consumption

§ 4600.02 *Authorized consumption.* No person shall consume any of the following materials without first obtaining authorization to do so from the Rubber Director, War Production Board, on Form WPB-3662:

Crude rubber.
Natural latex.
Any synthetic rubber except GR-S (all types) or Thiokol types.
Chlorinated rubber.

No person shall consume any materials listed above except in the amounts and for the purposes authorized on Form WPB-3662. The consumer may, however, substitute synthetic rubber for crude rubber and may exceed by 5% the amount of material authorized for a particular purpose, but he must not exceed the total amount of any type of material which he is authorized to consume for all purposes. In addition, material may be consumed for experimental use without authorization to the extent permitted by Appendix I.

In order to obtain authorization under this section, a consumer must file Form WPB-3662 for each calendar month.

§ 4600.03 *Permitted uses.* No person shall use crude rubber, natural latex, reclaimed, scrap or chlorinated rubber or any synthetic rubber except for the products and purposes specified in Appendix I, subject to the applicable manufacturing regulations of this order.

§ 4600.04 *Balata.* No person shall consume balata except upon specific authorization of the Rubber Director, War Production Board. Requests for authorization to consume balata may be made by letter to the Office of Rubber Director, War Production Board, Washington 25, D. C. See definition of "Balata" at § 4600.01 (g) for types of balata not restricted by this order.

Purchase Procedure

§ 4600.05 *Purchase requests for rubber or synthetic rubber.* Purchase requests for crude rubber, natural latex, neoprene (GR-M), or butyl (GR-I or Class types) must be made on Form WPB-3682 in accordance with the instructions accompanying the form. Purchase requests for GR-S (all types) should be made to Rubber Reserve Company in accordance with regulations of Rubber Reserve Company.

Authorized consumers may purchase synthetic rubber which is privately produced or chlorinated rubber, directly from the producer subject to the inventory restrictions of § 4600.07.

Material subject to prior authorization on Form WPB-3662 may be consumed only to the extent authorized on the form in accordance with applicable manufacturing regulations.

For purchases of material for experimental use, see Appendix I.

Deliveries and Importation

§ 4600.06 *Delivery restrictions.* No person shall deliver to another person any material controlled by this order other than reclaimed and scrap rubber except as permitted by regulations of Rubber Reserve Company, or as specifically authorized by the Rubber Director, War Production Board. Nothing contained in this section shall be deemed to prohibit:

(a) Delivery of rubber, synthetic rubber, chlorinated rubber or balata from one location to another location controlled by the same person where no change of ownership takes place, or by any corporation to another corporation which is its subsidiary or of which it is a subsidiary.

(b) A "loan" of GR-S (all types) for permitted uses under this order. A loan must not be made unless the person lending the material is reasonably certain that an equivalent amount of the material will be returned to him when he needs it. Full records of the loan transactions must be kept by both persons lending and persons borrowing, and the transactions must be reported as shipments or receipts on Form WPB-3410 for the calendar month in which the transactions occur.

(c) Any person from accepting delivery from another of rubber, synthetic rubber, chlorinated rubber, or balata for the purpose of milling, washing, deresinating, drying, compounding, or conditioning the same, or for processing or manufacturing products therefrom, and thereafter returning the same or the products thereof to such other person.

§ 4600.07 *Inventories of material.* No person, other than Rubber Reserve Company, shall acquire or maintain an inventory of any of the following materials in excess of an amount which can reasonably be expected to last him for the period designated below:

Type of material	*Permissible inventory.—days for each type*
Crude rubber, latex, reclaimed rubber, balata, GR-S, neoprene or thiokol	60
Any type of synthetic rubber not listed above; or chlorinated rubber	30

A person engaged in the business of reclaiming rubber, however, may maintain such inventories of scrap and reclaimed rubber as he deems advisable, notwithstanding the provisions of this section or of section 944.14 of Priorities Regulation 1 as amended.

§ 4600.08 *Importation.* No person shall import any rubber, synthetic rubber or balata, or any finished or semi-finished product of which 10% or more by weight is composed of rubber, synthetic rubber or balata or any combination thereof except as permitted under this section.

For the purposes of this section, "import" means to transport in any manner into the continental United States from any foreign country or from any territory or possession of the United States (including the Philippine Islands). It includes shipments into a free port, free zone, or bonded custody of the United States Bureau of Customs (bonded warehouse) in the continental United States and shipments in bond into the continental United States for transshipment to Canada, Mexico, or any other foreign country.

The restrictions of this section shall not apply to any of the following:

(a) Any importation by Rubber Reserve Company, Rubber Development Corporation, or any Corporation organized under section (5) (d) of the Reconstruction Finance Corporation Act, as amended, or any agent acting for one or more of them.

(b) The importation by any person during any calendar month of products or materials (except tires, tire casings and tire tubes) which contain an aggregate of not more than twenty-five pounds of rubber, synthetic rubber and balata, provided such products or materials are not imported for the purpose of manufacturing, processing, sale or resale;

(c) The importation by any person of tires and tubes for the personal use of such person, provided such importation (except of bicycle tires and tubes) is expressly authorized by the Office of Price Administration;

(d) The importation for testing purposes of camelback, or of tires or tubes or sections thereof by any manufacturer of camelback, tires or tubes;

(e) The importation of bicycle tires and tubes originally manufactured in the continental United States, Canada or the British Isles;

(f) The importation of tires for recapping, retreading or repair, provided the tires are thereafter exported to the owners in the foreign country from which the products were imported;

(g) The importation of any scrap rubber by the Army or Navy of the United States or the United States Maritime Commission;

(h) The importation of any finished products made of rubber, synthetic rubber or balata by diplomatic representatives of any foreign government for their personal use or the use of members of their staffs;

(i) The importation of any finished product made of rubber, synthetic rubber or balata by commercial representatives of any foreign government for use in their official business;

(j) The importation from the Dominion of Canada by any person of rubber, synthetic rubber or balata or any products thereof manufactured in the continental United States, Canada or the British Isles.

Production and Operations

§ 4600.09 *Special regulations for tire and tube production.* No person shall manufacture tire and tube products except in accordance with the regulations prescribed in List 6 of Appendix II.

§ 4600.10 *Heel and sole products.* Each manufacturer of heel and sole products shall fill orders in the sequence established by the following pattern and may produce and ship orders classified in a lower group of the pattern only to the extent that such production and shipments do not interfere with the fulfillment of orders in each higher group:

Group No.	*Type of order*
1	Orders for manufacture or repair of shoes for U. S. Armed Forces.
2	Civilian orders for repair materials and for manufacture of rationed new shoes.
3	Orders for manufacture of shoes to fill Government orders other than U. S. Armed Forces.
4	All other orders.

Orders must be filled in accordance with the above pattern without regard to preference ratings.

§ 4600.11 *Garden hose.* Garden hose may be produced or delivered without regard to preference ratings. No person shall apply or extend any rating to garden hose, and no person selling garden hose shall require a rating as a condition of sale. Any rating purporting to be applied or extended to garden hose shall be void and no person shall give any effect to it.

§ 4600.12 *Regrooving tires.* No person shall regroove the tread or tread surface of any tire or tire casing (except airplane and bus mileage contract tire casings) whether by cutting, scraping, grinding, burning, heating, remolding or any other means. This restriction does not apply to the grooving of tires in the course of recapping or retreading or restoring the original design to tread sectional repairs.

§ 4600.13 *Recapping or retreading tires.* No person shall recap or retread a tire unless the tire is worn smooth in the middle of the tread. As used herein, a tire is "worn smooth" when the tread design is no longer visible.

§ 4600.14 *Destruction of scrap; consumption of rubber products.* No person shall destroy, damage, cut or tear apart any Class 1 scrap rubber except for the purpose of consuming the same in accordance with the provisions of this order. (See Appendix I for definition of Class 1 scrap).

No person shall consume any finished or semi-finished product containing in the aggregate more than 10% by weight of rubber or synthetic rubber, except for a purpose for which it was designed.

Miscellaneous

§ 4600.15 *Reports.* The following reports shall be filed:

(a) Each person who owned any rubber, chlorinated or synthetic rubber during any calendar month, except scrap rubber, shall file with the Office of Rubber Director, War Production Board, a report on his stocks, receipts, production, consumption and shipments, on Form WPB-3410 in accordance with the instructions accompanying the form. This paragraph shall not apply to persons who perform the operations listed in § 4600.06 (c) of this order except that producers of reclaimed rubber shall report their entire production regardless of the ownership of the material consumed.

(b) Each manufacturer of tires and tubes or camelback, and any mass distributor who sells tires and tubes manufactured for him under his own brands or trade marks and whose sales volume of tires and tubes in 1941 exceeded 50,000 tires or 100,000 tubes, shall file a report on his production, shipments and inventory for each calendar month on Form WPB-3438 with the Office of Rubber Director, War Production Board, in accordance with the instructions accompanying the form, unless otherwise directed.

(c) Each manufacturer of light weight rubber gloves from crude rubber or natural latex shall report by letter to the Office of Rubber Director, War Production Board, the number of "firsts" and of "seconds" and "rejects" manufactured by him in each calendar quarter. Reports shall be filed not later than the 15th day of the calendar month following the quarterly period in which such manufacture took place.

(d) Each manufacturer of heels, heel bases, soles, taps, soling sheets or top-lifting sheets, shall file with the Office of Rubber Director, War Production Board, a report on his production, shipments and inventory on Form WPB-2592 in accordance with the instructions accompanying the form.

§ 4600.16 *Outstanding authorizations and directives.* All outstanding special authorizations and directives (other than authorizations granted pursuant to appeal) issued prior to July 1, 1944, are hereby revoked.

§ 4600.17 *Applicability of regulations.* Except as otherwise provided, this order and all transactions affected thereby are subject to all applicable provisions of War Production Board Priorities and CMP Regulations as amended from time to time.

§ 4600.18 *Appeals.* Appeal from the provisions of this order shall be made by filing Form WPB-2242 (formerly PD-500-b), referring to the particular provision appealed from and stating fully the grounds of the appeal.

§ 4600.19 *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

§ 4600.20 *Communications.* All reports required to be filed under this order, and all communications concerning this order, shall, unless otherwise directed, be addressed to: Office of Rubber Director, War Production Board, Washington 25, D. C., Ref.: Order R-1.

NOTE: The reporting provisions of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 1st day of July 1944.

RUBBER DIRECTOR,
WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX I—GENERAL PERMITTED USES

Type of material	General permitted uses	Monthly consumption for experimental use without authorization [1]
Crude rubber or natural latex	In the manufacture of products listed below for which crude rubber or natural latex is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only as authorized on Form WPB-3662.	None.
Reclaimed rubber	In the manufacture of any product listed below or of any other product to fill U. S. Army, Navy or Maritime Commission orders.	No limit.

[1] Permitted uses of material in this Appendix do not apply to experimentation. Materials in the amounts indicated may be diverted from inventory or from purchases for manufacturing operations. To purchase privately produced synthetic rubber for experimental purposes, make application directly to the producer; for GR-synthetic rubbers, make application to Rubber Reserve Company, Washington, D. C.

9	Belting	No	---	---	---	---	Belting must be manufactured in accordance with the following regulations, except V-belts to fill Government orders for military aircraft, aircraft engines, parts of watercraft, aircraft, Army or Navy contract specifically requires the use of different construction.
							Rubber belting utilizing a solid woven carcass construction may be used provided the construction uses no more cotyle rubber than is permitted in laminated belting of equivalent size and thickness.
							Constructions or combinations of fabric and other reinforcing material, such as cord or wire, are permitted provided total crude rubber does not exceed that which is used in an equivalent grade, fabric ply construction belt.
							Any brands or labels used shall be spaced at least ten feet apart, except that each belt may have at least one brand or label. When multiple cord belts are used, the crude rubber may be used provided that it does not exceed .025 lbs. per ply per inch of width.
							Color: Black unless otherwise indicated.
9A	Conveyor and elevator belting:						
	Conveyor and elevator belting, and transmission belting, except the following types	5	5	X	0	0	Neoprene permitted in belts for handling coal over 4" size in underground applications.

Scrap rubber:		
Class 1 (defined as ground tire peels; uncured tire cord friction scrap; vulcanized scrap tires and tire parts (except tire beads) and inner tubes; reworn or scrap tire buffings having a specific gravity of 1.13 or less; and clinging tread buffings and fuel cell scrap).	Class 1 scrap may be consumed only: Where specifically permitted in products listed below or of any other product to fill U. S. Army, Navy or Maritime Commission orders. Class 1 scrap process scrap which may be used in the manufacture of the product from which it was derived; in the compounding of reclaimed rubber provided no light colored reclaimed rubber is produced from any black reclaimed rubber. "Light colored crumb" means all-white zinc carcass (No. 1), and any light colored types such as white, pink, light gray, pure gum and light tan carcass (No. 2). Class 2 scrap No restrictions on use except under (a). Class 2 scrap and scorched compounds excluding fuel cell scrap, may be consumed only in the manufacture of products listed below.	No limit.
Class 2 (any scrap not included in Class 1 above).		200 lbs.; latices, 250 lbs.
Synthetic rubber:		
GR-S (all types)	In the manufacture of any product listed below or of any other product to fill U. S. Army, Navy or Maritime Commission orders.	200 lbs.; latices, 250 lbs.
Neoprene types, (GR-M, GN, CG, E, FR, FR-S, KNR, ILS, M, latex).	In the manufacture of products listed below for which neoprene is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only as authorized on Form WPB-3662.	200 lbs.
Buna N types (GR-A, Hycar, Perbunan, Butaprene, Chemigum).	In the manufacture of products listed below for which Buna N is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only as authorized on Form WPB-3662.	200 lbs.; dispersions, 250 lbs.
Butyl (GR-I, standard and class, dispersions).	In the manufacture of products listed below for which butyl is specifically permitted, subject to any applicable manufacturing regulations or restrictions, but only as authorized on Form WPB-3662.	No limit.
Thiokol types	In the manufacture of any product listed below or of any other product to fill U. S. Army, Navy or Maritime Commission orders.	200 lbs.
Polyisobutylene (Vistanex, synthetic tack, polybutene, Vistac).	As specifically authorized on Form WPB-3662	None.
Miscellaneous (Hycar OS, Styraloy, other).	As specifically authorized on Form WPB-3662	Do.
Chlorinated rubber (Parlon, Parlon A)	As specifically authorized on Form WPB-3662	

PERMITTED PRODUCTS FOR GOVERNMENT OR CIVILIAN ORDERS

NOTE: For general permitted uses, see above. In applying on Form WPB-3662 for those types of material which are subject to prior authorization, use this appendix in accordance with the instructions accompanying the form. Form WPB-3662 may not be used in applying for permission to consume any material for a purpose which is not permitted by Appendix I.

Monthly consumption of crude rubber, natural latex, neoprene, buna N and butyl will be permitted on the basis of uses shown in this appendix, *but only to the extent that material and manufacturing facilities are available after requirements for Army, Navy, Maritime Commission and other essential orders have been fulfilled.*

COLUMNS AND SYMBOLS

Appendix II column refers to applicable regulations in Appendix II by list number. The other columns show to what extent crude, natural latex, neoprene, buna N and butyl authorized on Form WPB-3662 may be used in the manufacture of particular products. The material columns are blank when applicable regulations in Appendix II or special restrictions limit the use of the material.

"O" indicates that the use of the material is prohibited, subject to any special restrictions or provisions applicable to the particular product. Any synthetic rubber may, however, be substituted for crude rubber when the use of crude is permitted.

"X" indicates that the material may be consumed in the minimum quantities required by a manufacturer who has received authorization to consume on Form WPB-3662, subject to any special restrictions or provisions applicable to the particular product.

Percentage figures indicate maximum percent of total volume of compound, unless otherwise specified.

"Y" Indicates that the material may be consumed in the minimum quantities required but only after the material has been specifically authorized for the particular product on Form WPB-3662. The end product and the quantity of material required must be separately stated in applying on the form. Limited quantities will be authorized after all other requirements have been fulfilled.

APPENDIX II—MANUFACTURING REGULATIONS

(a) *Applicability.* (1) This appendix sets forth certain compounding proportions and manufacturing regulations for many of the products listed in Schedule A of Appendix I. No person may manufacture the products governed by the lists attached to this appendix unless such product is manufactured in accordance with the applicable regulations set forth in this appendix.

(2) All regulations apply to all purchase orders, including both Government and Civilian orders, except where otherwise designated in the appropriate list.

(3) Regulations in the appendix do not apply to the manufacture of experimental products or experimental compounds designed for:

(i) The substitution of synthetic rubber, reclaimed rubber or scrap rubber for crude rubber and latex.

(ii) The conservation of crude rubber, latex, synthetic rubber, reclaimed rubber or scrap rubber.

(b) *General provisions.* (1) The total rubber hydrocarbon (sometimes designated RHC in this appendix) is the sum total of crude rubber and the average rubber hydrocarbon value of reclaimed rubber, expressed on a volume basis. The average rubber hydrocarbon value of reclaimed rubber shall be calculated from the rubber value of reclaimed rubber as certified by the manufacturer of the reclaimed rubber and shall be determined by the "difference (or indirect)" method.

(2) Reference to Army, Navy, Federal, Railroad, etc., specifications by number mean the latest issue or amendment of the particular specifications.

TABLE OF LISTS ATTACHED TO APPENDIX II

List and title:

1 Compounds for mechanical rubber goods.
6 Tire and tube production pattern.
17 Tire and flap curing bags.
18 Airplane tire tubes.
20 Vibration mount and shock absorbers.
21 Rubber footwear.
22 Compounds for tires and tire casings.
23 Tire and tube repair materials.
24 Tires and tire casings (except airplane and bicycle tires).
25 Tire tubes (except airplane and bicycle tire tubes).
26 Tire flaps.
27 Insulated wire and cable.
28 Feeding nipples.
29 Airplane tire and tire casings.
30 Retreading materials.
31 Tank blocks, treads, and band tracks.
32 Use of high-tenacity rayon cord.
33 Tire tube valves (except bicycle tire tube valves).
34 Bicycle tires and tubes.

LIST 1—REGULATIONS FOR THE MANUFACTURE OF COMPOUNDS FOR MECHANICAL RUBBER GOODS

(a) *Applicability.* This List 1 establishes certain general provisions and regulations governing the compounds to be used in the manufacture of mechanical rubber products. These regulations shall apply to all mechanical goods compounds, whether manufactured from crude rubber, reclaimed rubber, synthetic rubber, latex, scrap or any combination of these materials.

(b) *General provisions.* (1) Compounds containing less crude rubber or latex than that amount designated either in Schedule A, Appendix I, or in lists now or hereafter attached to this Appendix II may be used in manufacturing products governed by said schedule or lists, provided the physical or service requirements, where designated, are met.

(2) All compounds shall be black, except where otherwise designated in Schedule A or in other applicable lists.

(3) Where maximum percent by volume for crude rubber and latex is designated, it shall include crude rubber used in cements to aid processing.

LIST 6—REGULATIONS FOR THE TIRE AND TUBE PRODUCTION PATTERN

(a) *Production pattern.* (1) In order to secure maximum output from existing tire and tube production facilities in accordance with the essentiality of demand, the following production pattern shall be observed and followed by all manufacturers, notwithstanding any other applicable order, regulation or authorization of the War Production Board.

PRODUCTION PATTERN

Group and Type of Product

1. Airplane tires and tubes:
   - (a) Large size tires, built on truck equipment.
   - (b) Small size tires, hand built or built on industrial pneumatic equipment.
   - (c) Other small size tires, built on passenger equipment.
   - (d) Tubes.
2. Truck-bus tires and tubes:
   - (a) Combat tires.
   - (b) Extra large size tires, 16.00 and larger cross-section.
   - (c) Large size tires, 9.00 through 14.00 cross-section except 9.00 x 16, 8 ply; also the following tires: 7.50 x 15, 10–12 ply; 8.25 x 15—10, 12 and 14 ply.
   - (d) Medium size tires (dual bead), all 10 ply up to and including 8.25 cross-section, excluding 7.50 x 15 and 8.25 x 15.
   - (e) Small size truck type tires (single bead) 8 ply and under, and 9.00 x 16, 8 ply; but excluding tires described in sub-group (f) below.
   - (f) Tires with 15 inch and 16 inch rim diameters, up to and including 7.50 cross-section (4, 6 and 8 ply only).
   - (g) Solid tires.
   - (h) Tubes.
3. Tractor-implement tires and tubes:
   - (a) Large size tires, over 7.50 cross-section.
   - (b) Front and small size tires, up to and including 7.50 cross-section.
   - (c) Tubes.
4. Industrial tires and tubes:
   - (a) Bogie rollers.
   - (b) Pressed-on solids.
   - (c) Cured-on solids.
   - (d) Pneumatic tires.
   - (e) Tubes.
5. Camelback and repair materials:
   - (a) Truck type and heavy duty.
   - (b) Passenger type.
6. Passenger and motorcycle tires and tubes:
   - (a) Tires.
   - (b) Tubes.
7. Bicycle tires and tubes:
   - (a) Tires.
   - (b) Tubes.

(2) The foregoing production pattern establishes the order of preference in which each manufacturer's interchangeable facilities must be used in the manufacture of tire and tube products and applies to facilities in each group or sub-group or in as many groups as are covered by the manufacturer's facilities.

(3) Where there is any degree of interchangeability in the use of the manufacturer's facilities, these facilities shall be extended to a lower group or sub-group in accordance with the production pattern when the manufacturer has established an inven-

tory position not exceeding 15 days' supply in each higher group or sub-group for which the facilities are used. Inventories thus established shall be maintained in accordance with the production pattern.

For the purposes of this list, a 15-day inventory position means one-fourth of the manufacturer's sales during the preceding 60 day period.

For example: Assume that a 15-day position has been established in groups 1 and 2. This releases interchangeable facilities for the remaining groups in order of preference. When inventories are exhausted in groups 1 and 2, then any interchangeable facilities which are used in a lower group in the pattern must be diverted to groups 1 and 2 as soon as possible in order to re-establish an inventory not exceeding a 15-days' supply in groups 1 and 2 and in accordance with the pattern.

Another example: Requirements for Item f of group 2—truck tires of 15 inch and 16 inch bead diameter through 7.50 cross-section (these are also passenger type sizes) must be met to the extent of an inventory not exceeding a 15 days' supply before production facilities shall be used for regular passenger tires in group 6.

(4) The use of interchangeable tire and tube production facilities, except in accordance with the foregoing production pattern, is prohibited unless specific authorization in writing is secured from the Office of Rubber Director, War Production Board.

(b) *Miscellaneous provisions.* (1) Because of the urgency for maximum tire and tube production and in view of the critical manpower shortage, no manufacturer shall perform the following operations:

(i) Wrapping of tires, regardless of end use.

(ii) Removal of minor light spots and surface imperfections not actually harmful from a service standpoint.

(2) Deviations from normal manufacturing practices which are set forth in this paragraph (b) shall not be interpreted as permitting any relaxation of essential inspection of the finished product.

List 17—Regulations for the Manufacture of Tire and Flap Curing Bags

(a) *Manufacturing regulations.* The manufacture of tire and flap curing bags of all sizes and types is subject only to the following regulations:

(1) The use of crude rubber or latex in the manufacture of tire and flap curing bags shall conform to the regulations shown in Table A.

(2) GR-I, GR-S and reclaimed rubber may be used in any amounts and proportions desired.

(b) *Marking of synthetic curing bags.* All curing bags containing synthetic rubber shall have a permanent circumferential colored stripe at least three-eighths inch wide applied on the base section of the bag. The appropriate color shall be determined from paragraph (c) (2) of List 22, Appendix II.

List 18—Regulations for the Manufacture of Airplane Tire Tubes

(a) *General provisions.* (1) The crude rubber content of any tube governed by this List 18 shall not include processing losses or crude rubber used in valves.

(b) *Manufacturing regulations.* (1) Tubes of any size and type may be manufactured to fill both Government and civilian orders, (subject, for Government orders, to the approval of the procuring agency) provided that:

(i) Crude rubber and latex may be consumed only in valves, valve adhesion pads, splicing gum strips and cements, and identification inks and cements.

(ii) GR-S and GR-I synthetic rubber and reclaimed rubber may be used in any amounts and in any proportions desired.

(2) The manufacture of tubes consuming more crude rubber than permitted by paragraph (b) (1) of this List 18 shall be limited to the sizes and types listed in Table A, subject to the maximum crude rubber contents designated therefor.

(c) *Marking of synthetic tubes.* (1) All tubes containing synthetic rubber shall have a permanent circumferential colored stripe at least three-eighths inch wide applied on the base section of the tube. The appropriate color shall be determined from paragraph (c) (2) of List 22.

List 20—Regulations for the Manufacture of Vibration Mount and Shock Absorbers

(a) *Manufacturing regulations.* (1) No crude rubber or natural latex may be consumed in the manufacture of compression type mountings or insulations regardless of shore durometer reading.

(2) No crude rubber or natural latex may be consumed in the manufacture of plate, sandwich, tubular or other types of shear mountings or insulations where the temperature of applications are minus 40° F. and above. Engine and instrument mounts for aircraft may be considered as falling in the applications functioning below minus 40° F. Therefore, crude rubber or natural latex may be consumed in the manufacture of plate, sandwich, tubular or other types of shear mountings or insulations for aircraft engine and instrument mounts.

(3) No crude rubber or natural latex may be consumed in the manufacture of nonbonded torsional vibration dampers but bonded torsional vibration dampers may be manufactured from crude rubber or latex until further notice.

(4) No crude or natural latex may be consumed in the manufacture of cushioning for cameras, or cushioning or parts for radio and radar instruments and/or fire and flight control mechanisms.

(5) Crude rubber or latex may be used for bonding cements and tie-gum compounds but shall not exceed 1/32" thickness for any type of vibration mount or shock absorber.

List 21—Regulations for the Manufacture of Rubber Footwear

(a) *General provisions.* (1) The manufacture of rubber footwear and canvas rubber soled shoes shall be limited to the items shown in paragraphs (b), (c), (d), and (e) of this List 21.

(2) All rubber footwear and canvas shoes shall be manufactured in black color compound only.

(3) Unlimited plus or minus variations from average weight of total crude rubber and latex per pair are permitted provided the over-all consumption of crude rubber and latex does not exceed total permitted consumption on the basis of listed ceilings for all items manufactured.

(4) Reclaimed rubber and GR-S synthetic rubber may be consumed in any amount required for the manufacture of these products.

List 22—Regulations for the Manufacture of Compounds for Tires and Tire Casings

(a) *Applicability.* These regulations govern the manufacture of compounds for tires and tire casings. Other lists attached to Appendix II will govern the use of these compounds in the manufacture of finished products. These compounds need be used only when required by other regulations contained in lists attached to Appendix II. The variations permitted by this List 22 are allowed in the manufacture of finished products covered by other applicable lists unless expressly prohibited by such other lists.

(b) *Natural rubber compounds.* The composition of natural rubber compounds shall be governed by the regulations set forth in the following table:

Description of compound	Grade	Percent by volume			
		Crude rubber		Total RHC	
Type		Max.	Min.	Max.	Min.
Tread compounds	A	73.0	71.0	75.0	71.0
	B	59.5	57.5	74.6	65.0
Friction compounds	A	88.5	83.5	94.2	83.5
	B	78.0	73.0	94.2	75.0

(c) *Synthetic rubber compounds.* (1) No regulations are now designated for the manufacture of synthetic rubber compounds for tires and tire casings.

(2) The identification of the various types of synthetic rubber is effected by designating each type by a letter and a color.

Letter	Color	Type of synthetic
S	Red	GR-S (Buna S).
M	Yellow	GR-M (Neoprene).
I	Light blue	GR-I (Butyl).

(d) *Synthetic tire constructions.* (1) The distribution of synthetic rubber in tires and tire casings is controlled by the following synthetic construction identification numbers, which indicate the proportion of synthetic rubber to crude rubber, and the placement of the synthetic rubber.

Synthetic construction identification numbers:	Type of synthetic
S–3, S–4, S–5, etc	GR–S

(2) S–3 denotes 100% GR–S tread on a 100% GR–S carcass, except that:

(i) Crude rubber may be used throughout the tire at the manufacturer's discretion, but shall not exceed, by weight, the following percentage of the sum of the crude rubber, GR–S synthetic rubber and reclaimed rubber hydrocarbon contents:

	Percent
Passenger and motorcycle	1.25
Truck	2.00
Airplane	2.00
Combat	5.00
All other	1.50

Individual sizes may exceed the indicated maximum percentage, provided that the average crude rubber content of all sizes of the same type of tire does not exceed the indicated maximum percentage.

(ii) Reclaimed rubber may be used throughout the tire at the manufacturer's discretion.

(3) S–4 denotes approximately 90% GR–S and 10% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

(i) Crude rubber may be used only to the extent permitted by the "maximum content crude rubber" designated.

(ii) Reclaimed rubber may be used throughout the tire at the manufacturer's discretion.

(4) S–5 denotes 100% GR–S tread on a natural rubber carcass, except that:

(i) Crude rubber may be used only in cements, in tread and side-wall splice gum strips and in the tire body, but only to the extent permitted by the "maximum content crude rubber" designated.

(ii) Reclaimed rubber may be used throughout the tire at the manufacturer's discretion.

(5) S–6 denotes approximately 70% GR–S and 30% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

(i) Crude rubber may be used to the extent permitted by the "maximum content crude rubber" designated.

(ii) Reclaimed rubber may be used throughout the tire at the manufacturer's discretion.

(6) S–7 denotes approximately 35% GR–S and 65% crude rubber, distributed throughout the tire at the manufacturer's discretion, except that:

(i) Crude rubber may be used only to the extent permitted by the "maximum content crude rubber" designated.

(ii) Reclaimed rubber may be used throughout the tire at the manufacturer's discretion.

List 23—Regulations for the Manufacture of Tire and Tube Repair Materials

(a) *General provisions.* Only one grade of product may be manufactured in each item governed by this List 23, and that grade must be consistent with maintaining a quality adequate for the service for which the product is designed.

(b) *Manufacturing regulations.* The manufacture of tire and tube repair materials shall be limited to the items shown in this subdivision (b), subject to the compound regulations designated therefor.

(1) Crude rubber is consumed only as follows:

Hard rubber base type. Crude rubber shall be consumed only in cements and/or hard base and shall not exceed, by weight, ten percent of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents.

Tie-gum base (soft base) type. Crude rubber shall be consumed only in cements and/or tie gum and shall not exceed, by weight, five percent of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents. Individual sizes may exceed the five percent maximum, provided that the average crude rubber content of all sizes does not exceed the five percent maximum.

(ii) GR–S synthetic rubber, reclaimed rubber and Classes 1 and 2 scrap rubber may be used in any amounts and in any proportion desired.

(3) The manufacture of tires and tire casings consuming more crude rubber than permitted by paragraph (b) (1) and (b) (2) of this List 24 shall be limited to the sizes, plies and tread types listed in this paragraph (b) (3), subject to the maximum crude rubber contents or compound grades designated therefor.

Description of item	Maximum percent, by volume, of crude rubber in compound	Restrictions
(1) Bulk tire repair materials:		
(a) Tread repair stock (1/16" max. ga.)	30.0	
(b) Repair cushion stock	40.0	For Civilian orders only.
Do	60.0	For Gov't. orders only.
(c) Cord repair friction (.047 max. ga.)	40.0	For Civilian orders only.
Do	60.0	For Gov't. orders only.
(d) Sq. woven fabric friction	40.0	For Civilian orders only.
Do	60.0	For Gov't. orders only.
(e) Cements (cold cure)	Max. .20 pound crude rubber per gallon.	
(f) Cements (vulcanizing)	Min. .55 pound crude rubber per gallon.	
(2) Tire patches: [1]		
(a) Uncured-vulcanizing type:		
Body	40.0	
Facing	40.0	
(b) Cured and semi-cured-vulcanizing type:		
Body	0.0	
Facing	40.0	
(c) Temporary emergency-cold cure type (composite)	5.0	
(d) Tire reliners	0.0	
(e) Nail hole plugs	0.0	
(3) Tube patches:		
(a) Combination tube repair gum (cured back, uncured face).	[2]	
(b) Tube repair gum (uncured)	60.0	
(c) Hot patch gum (uncured)	78.0	
(d) Truck tube valve repair patches (composite)	60.0	
(e) Tube replacement valve facing	60.0	
(4) Sectional bags	[3]	

[1] Crude rubber may be consumed in cements for adhesion purposes in manufacturing tire patches.
[2] Maximum 1.15 pounds crude rubber per square yard.
[3] Maximum of 80% crude rubber, by volume, of the sum of the total RHC plus synthetic rubber.

(c) *Restrictions.* (1) In items (2) (c), (3) (a), and (3) (d), different grades of compounds may be used in the cured and uncured portions of each, provided the total crude rubber content in the whole item does not exceed the percent represented by the compound grade specified.

(2) Repair kits containing any of the above materials, except garage kits, shall not contain more than .04 pound of combination tube repair gum, nor more than 1.5 cubic inches of any rubber cement.

(3) Garage kits containing any of the above materials shall contain either ⅓ pound, ½ pound or 1 pound of combination tube repair gum and not more than ½ pint of rubber cement.

List 24—Regulations for the Manufacture of Tires and Tire Casings (Except Airplane and Bicycle Tires)

(a) *General provisions.* (1) The crude rubber content of any tire or tire casings governed by this List 24 shall not include processing losses or crude rubber used in curing bags.

(2) No crude rubber latex shall be consumed in the cord treatment.

(3) On those sizes of natural rubber tires for which no "maximum content crude rubber" is designated, the compound grades shown under "compound designation" shall apply (the first letter designating the friction and the second letter designating the tread compound grade) and the composition of the compounds shall conform to the regulations set forth in List 22, Appendix II.

(4) On those sizes of synthetic rubber tires for which no "maximum content crude rubber" is designated, the tire construction shall be of the synthetic type designated and the compounds thereof shall conform to the appropriate regulations set forth in List 22, Appendix II.

(5) The use of rayon in the manufacture of tires and tire casings governed by this List 24 shall conform to the regulations set forth in List 32, Appendix II.

(6) When the cord used in any tire is made of rayon or is of a gauge less than .027 inch as measured by the current ASTM standard in effect, the "maximum content crude rubber" permitted, if based on cotton construction, shall be reduced by 6 percent.

(7) Only one grade of tire may be manufactured in any size, ply and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tire is designed.

(8) Where "Mud-Snow" type trend is designated in this List 24, tires with either directional or non-directional (ND) tread designs may be manufactured.

(9) Single marked high pressure type tires or single marked balloon type tires may be substituted for dual marked type tires.

(10) S–7 synthetic construction may be substituted for S–5 synthetic construction wherever S–5 is designated in this List 24, subject, for Government orders, to the approval of the procuring agency. The "maximum content crude rubber" designated for S–5 shall also apply to S–7.

(b) *Manufacturing regulations.* (1) Pneumatic tires of any size, ply and tread type may be manufactured provided that they conform to the regulations for S–3 synthetic construction tires in List 22, Appendix II.

(2) Solid tires (except bogie, idler and support rollers), including cured-on solid tires, 4" x 1½" up, may be manufactured, *Provided*, That:

All other	As needed.

(c) *Branding of tires.* (1) All natural rubber tires or tire casings manufactured to fill Civilian orders shall bear, on the serial side and near the serial number, a brand with the words "War Tire" and the letters designated under Compound Designation. Letters used to brand tires of a cross-section of 6.50 inches or more shall be at least one-fourth inch high, while those used to brand smaller tires shall be at least one-eighth inch high. This "War Tire" brand may (but need not) be applied to natural rubber tires or tire casings manufactured to fill Government orders, at the discretion of the manufacturer.

(2) All synthetic rubber tires or tire casings manufactured to fill either Civilian or Government orders shall have a colored dot, either circular or rectangular (with or without rounded corners or ends) and with an average effective dimension of at least one inch, vulcanized on both sides of the tire, the appropriate color to be determined from subdivision (c) (2) of said List 22. In addition, all synthetic rubber pneumatic tires or tire casings shall bear, on both sides of the tire and in characters at least five-eighths inch high, a brand showing the appropriate synthetic construction identification. The colored dot and the brand shall be permanent and may be superimposed if desired. The colored dot and synthetic construction identification may be smaller than the designated minimum on sizes of tires for which the designated minimum is unreasonably large.

(d) *Tolerances.* (1) On those sizes of natural rubber tires, in this List 24, for which no "maximum content crude rubber" is designated, but for which friction and tread compound grades are designated, a manufacturer can calculate the maximum amount of crude rubber and total RHC which may be used in the manufacture of a tire or tire casing of any such size. Within the maximum amounts thus calculated, a manufacturer may, at his discretion, shift the amounts between friction and tread.

(2) On those sizes, in this List 24, for which no "maximum content crude rubber" is designated, a manufacturer shall have, in each respective size, an operating tolerance on the content of crude rubber limited only by the maximum content designated.

(3) On those sizes, in this List 24, for which no "maximum content crude rubber" is designated but for which friction and tread compound grades are designated, the tolerance set forth in said List 22 shall apply.

(e) *Definitions.* (1) Where used in this List 24, "Standard Highway" as applied to tread type means regular skid-depth, "100" level, on-the-road type.

(2) Where used in this List 24, "Mud-Snow", as applied to tread type means extra-traction, on-and-off-the-road type.

LIST 25—REGULATIONS FOR THE MANUFACTURE OF TIRE TUBES (EXCEPT AIRPLANE AND BICYCLE TIRE TUBES)

(a) *General provisions.* (1) The crude rubber content of any tube governed by this List 25 shall not include processing losses or crude rubber used in valves.

(2) Only one grade of tube may be manufactured in any size and type, and that grade must be consistent with maintaining a quality adequate for the service for which the tube is designed.

(3) The restrictions of this List 25 shall not apply to tubes for city and intercity bus mileage contract tires of cross-sections 10.00 and larger.

(b) *Manufacturing regulations.* (1) Tubes of any size and type may be manufactured to fill both Government and Civilian orders (subject, for Government orders, to the approval of the procuring agency) *Provided*, That:

(i) Crude rubber and latex may be consumed only in valves, valve adhesion pads, splicing gum strips and cements, and identification inks and cements.

(ii) GR–S and reclaimed rubber may be used in any amounts and in any proportion desired.

(2) The manufacture of tubes consuming more crude rubber than permitted by subdivision (b) (1) of this List 25 shall be limited to the sizes and types listed in Tables A and B, subject to the maximum tube volumes and crude rubber contents designated therefor.

(3) The manufacture of tubes from GR–I shall be limited to the sizes and types listed in Tables A, B, C and D. No restriction is placed on maximum tube volumes or maximum content GR–I.

(c) *Marking of synthetic tubes.* All tubes containing synthetic rubber shall have a permanent circumferential colored stripe at least three-eighths inch wide applied on the base section of the tube. The appropriate color shall be determined from paragraph (c) (2) of List 22, Appendix II.

(d) *Tolerances.* On those sizes in this List 25, for which a "maximum tube volume" and a "maximum content crude rubber" is designated, a manufacturer shall have a tolerance on the tube volume and the content of crude rubber limited only by the maximums designated therefor.

LIST 26—REGULATIONS FOR THE MANUFACTURE OF TIRE FLAPS

(a) *Manufacturing regulations.* The manufacture of flaps for all sizes and types of tires to fill both Government and Civilian orders is subject only to the following regulations:

(1) Crude rubber may be consumed only for splicing cements and for identification inks or cements.

(2) GR–S synthetic rubber, reclaimed rubber and Classes 1 and 2 scrap rubber may be used in any amounts and in any proportion desired.

(b) *Marking of synthetic flaps.* All flaps containing synthetic rubber shall have a permanent circumferential colored stripe at least three-eighths inch wide applied on either side of the flap. The appropriate color shall be determined from paragraph (c) (2) of List 22, Appendix II.

LIST 27—REGULATIONS FOR THE MANUFACTURE OF INSULATED WIRE AND CABLE

(a) *Compounds.* (1) The crude rubber content of compounds referred to in this List 27 shall conform to the regulations designated in the table below.

(2) In addition to the crude rubber designated, GR–S synthetic rubber and reclaimed rubber may be used in any amounts.

(b) *Manufacturing regulations.* (1) Insulated wire and cable of any type may be manufactured, *Provided*, That,

(i) No crude rubber or latex may be used (except as permitted by paragraph (b) (2) of this List 27).

(ii) GR–S rubber and reclaimed rubber may be used in any amounts and in any proportions desired.

(2) The manufacture of insulated wire and cable consuming crude rubber and latex shall be limited to the types shown in this paragraph (b) (2). However, the use of crude rubber and latex is limited to insulation compounds only and is subject to the compound restrictions designated.

(2) Carcass frictions for ice grip tires shall be identical to those used in like sizes for regular tires in above table. Crude rubber and synthetic rubber may be used in treads without limitation.

(3) *Rubber insulating tape.* Compounds for rubber insulating tape shall conform to regulations set forth in Appendix I, except that compounds designed for tape for the following uses may be manufactured in W-AA quality.

(i) For operating voltages in excess of 3,000 volts.

(ii) For cables to be used in wet locations.

(iii) For operation at conductor temperatures of 70° C. or higher.

(iv) For cable manufactured for Armed Forces.

(4) *Cable tape.* No crude rubber or latex may be consumed in the manufacture of cable tape. However, GR–S synthetic rubber and reclaimed rubber may be used in any amounts and in any proportion desired.

LIST 28—REGULATIONS FOR THE MANUFACTURE OF FEEDING NIPPLES

(a) The manufacture of feeding nipples from crude rubber, latex synthetic rubber, reclaimed rubber or scrap rubber shall be limited to infants' nipples and lambs' nipples.

(b) *Infants' nipples.* (1) All infants' nipples shall be manufactured in accordance with the regulations set forth in the following Table A:

TABLE A

Type	Molded	Latex dipped	Crude rubber dipped	Hand made

(2) Compounds may contain ground scrap generated by the manufacturer in the production of infants' feeding nipples.

(c) *Lambs' nipples.* The total weight of crude rubber and/or latex in each finished nipple shall not exceed 0.0105 pounds.

LIST 29—REGULATIONS FOR THE MANUFACTURE OF AIRPLANE TIRE AND TIRE CASINGS

(a) *General provisions.* (1) The crude rubber content of any tire or tire casing governed by this List 29 shall not include processing losses, crude rubber used in curing bags or latex used in the cord treatment. Latex, however, shall be consumed only in the treatment of nylon cord.

(2) On those sizes of synthetic rubber tires for which no "maximum content crude rubber" is designated, the tire construction and shall be of the synthetic type designated for the compounds thereof shall conform to the appropriate regulations set forth in List 22, Appendix II.

(3) S–7 synthetic construction may be substituted for S–5 synthetic construction wherever S–5 is designated in this List 29, subject, for Government orders, to the approval of the procuring agency. The "maximum content crude rubber" designated for S–5 shall also apply to S–7.

(4) The regulations contained in Army-Navy aeronautical Specification AN–C–55b (Casings: Aircraft Landing, Auxiliary and Beaching Tire), as amended, shall govern the following:

(i) The type of tread design used on tires listed in this List 29.

(ii) The use of rayon in tires listed in this List 29 (see also List 32 attached to this Appendix II).

(5) The "maximum content crude rubber" is based on rayon or nylon cord construction.

(b) *Manufacturing regulations.* The manufacture of airplane tires and tire casings shall be limited to the sizes, plies and tread types listed in this paragraph (b) (subject to the maximum crude rubber contents or compounds grades designated thereof.

(c) *Branding of tires.* All synthetic rubber airplane tires or tire casings shall have a brand permanently vulcanized on both sides of the tire, consisting of the appropriate synthetic construction identification, in characters at least three-eighths inch high, superimposed upon a rectangular colored medallion (with or without rounded corners or ends) at least five-eighths inch wide and one and one-fourth inches long, the appropriate color to be determined from paragraph (c) (2) of said List 22. When a brand with dimensions larger than the designated minimums is used, its dimensions shall be in the same relative proportions as the designated minimums.

(d) *Tolerances.* On those sizes in this List 29 for which a "maximum content crude rubber" is designated, a manufacturer shall have in each respective size, an operating tolerance on the content of crude rubber limited only by the maximum content designated.

LIST 30—REGULATIONS FOR THE MANUFACTURE OF RETREADING MATERIALS INCLUDING CAMELBACK (WING-DIE), CAPPING STOCK (BEVEL-DIE), LUG STOCK, BASE STOCK, PADDING STOCK, STRIPPING STOCK, FILLER STRIP AND FULL CIRCLE CURING TUBES.

(a) *General provisions.* (1) Crude rubber may be consumed in cements for application of cushion gum and in inks or cements for identification purposes.

(b) *Manufacturing regulations.* (1) The manufacture of retreading materials to fill both Government and civilian orders shall be limited to camelback (wing-die), capping stock (bevel-die), lug stock, base stock, padding stock, stripping stock, filler strip and cushion gum for application by the manufacturer to camelback, capping stock, lug stock and base stock and full circle curing tubes.

(2) The compounds used in manufacturing the items permitted by paragraph (b) (1) of this List 30 shall conform to the regulations shown in the following table:

RETREADING MATERIALS

Description of product	Percent by volume in compound: Crude rubber Max.	GR–S Min.	Total new rubber Max.	Total new rubber Min.	Total RHC plus syn. rubber Min.	Restrictions
'A' Camelback, capping stock, lug stock and base stock.[1]	0.0	65.0	.....	65.0	70.0	No restrictions on use for treading purposes.

[1] Crude rubber may be consumed in cushion gum to be applied to Grades 'A' and 'C' treading materials, but the crude rubber so consumed shall not exceed, by weight, 2.0 percent of the total weight of treading material.

[2] Crude rubber may be consumed in cushion gum to be applied to Grade 'F' camelback or capping stock, but the crude rubber so consumed shall not exceed, by weight, 1.6 percent of the total weight of camelback.

[3] 'F' Grade camelback and capping stock shall not be manufactured in die sizes with crown widths wider than 5"

LIST 31—REGULATIONS FOR THE MANUFACTURE OF TANK BLOCKS, TREADS, AND BAND TRACKS

(a) *Manufacturing regulations.* The manufacture of tank blocks, treads and band tracks is subject only to the following regulations:

(1) The use of crude rubber shall conform to the regulations shown in Table A.

(2) GR–S synthetic rubber, reclaimed rubber and Classes 1 and 2 scrap rubber may be used in any amounts and in any proportions desired.

TABLE A—TANK BLOCKS, TREADS AND BAND TRACKS

LIST 32—REGULATIONS FOR THE USE OF HIGH TENACITY RAYON CORD

(a) In the manufacture of rubber products, high-tenacity rayon cord may be used only for the following listed products.

Order of preference:	*Type of product*
1.	Airplane tires.
2.	Self-sealing fuel cells.
3.	Bullet-sealing hose.
4.	Combat (U. S.) tires including only cross-sections 8.00 and larger.
5.	Mileage contract bus tires: (a) Intercity bus tires of cross-section 9.00 and smaller in S–3, S–4, S–5, S–6 and S–7 synthetic constructions only. (b) Intercity bus tires of cross-sections 10.00 and larger in any crude rubber or synthetic rubber constructions. (c) City bus tires in S–3, S–4, S–5, S–6 and S–7 synthetic constructions only.
6.	Synthetic rubber truck and bus tires, including only: Tread Types: Standard low Platform Trailer. Sizes: 7.50 and up, 10 plies and more. Constructions: S–3, S–4, S–5, S–6 and S–7. Orders: Government and Civilian.
7.	Truck and bus tires, including only: Tread Types: Standard Highway and Mud-Snow. Sizes: 14.00–20–24, 20 plies. Constructions: Any. Orders: Government only.
8.	Synthetic rubber truck and bus tires, including only: Tread Types: Standard Highway, Mud-Snow. Sizes: 8.25 through 10.00, 10 plies and more. Constructions: S–4 and S–6. Orders: Government and Civilian.
9.	Truck and bus tires, including only: Tread Types: Standard Highway: Sizes: 8.25–20, 10 and 12 plies. 9.00–20, 10 plies. 9.00–20/36x8, 12 plies. 10.00–20–22, 12 plies. 11.00–20–22, 12 plies. Constructions: S–4, S–5, S–6 and S–7. Orders: Civilian only.
10.	Synthetic truck and bus tires including only: Tread Types: Standard Highway, Mud-Snow. Sizes: 11.00 and up, 12 plies and more. Constructions: S–4 and S–6. Orders: Government and Civilian.
11.	Synthetic special purpose tires including: Tread Types: Rock Service, Logger, Earthmover, and 18.00 and up Mud-Snow. Sizes: All. Constructions: S–4, S–5, S–6 and S–7. Orders: Government and Civilian.
12.	Synthetic truck and bus tires including only: Tread Types: Standard Highway, Mud-Snow. Sizes: 7.00 and 7.50, 10 plies. Construction: S–3 and S–4. Orders: Government and Civilian.
13.	Tire repair materials (to be made only from scrap rayon cord friction material resulting from the manufacture of products listed above).

(b) All available rayon for a given allocation period will be allocated in accordance with the order of preference in the above usage pattern, full allocations being made for total industry requirements for the first group before any allocations are made for the second group, and so on down the list until the entire supply of rayon available for that period has been allocated.

(c) Any person to whom rayon is allocated must consume it in the order of preference in the above usage pattern, arranging to fulfill all requirements in the first group before any is used in the second group, and so on down the list.

LIST 33—REGULATIONS FOR THE MANUFACTURE OF TIRE TUBE VALVES (EXCEPT BICYCLE TIRE TUBE VALVES)

(a) *Manufacturing regulations.* The manufacture of tire tube valves (excepting bicycle tire tube valves) of all sizes and types is subject only to the following regulations:

(1) The use of crude rubber or latex in the manufacture of tire tube valves shall conform to the regulations shown in Table A.

(2) GR–I, GR–S and reclaimed rubber may be used in any amounts and proportions desired.

LIST 34—REGULATIONS FOR THE MANUFACTURE OF BICYCLE TIRES AND TUBES

(a) *Manufacturing regulations.* (1) The manufacture of bicycle tires (clincher, wire-edge or single tube) and tubes, including rim strips, valves, cots, washers and curing bags, to fill both Government and Civilian orders, is subject only to the following regulations:

(i) No crude rubber may be consumed for any purpose.

(ii) GR-S synthetic rubber, reclaimed rubber and Classes 1 and 2 scrap rubber may be used in any amounts and in any proportion desired.

(b) *Marking of synthetic tires and tubes.* (1) All tires containing synthetic rubber shall have a square or circular colored dot with a minimum dimension of at least three-eighths inch, permanently vulcanized on one side of the tire, the appropriate color to be determined from paragraph (c) (2) of List 22, Appendix II.

(2) All tubes containing synthetic rubber shall have a permanent circumferential colored stripe at least one-eighth inch wide applied on the base section of the tube. The appropriate color shall be determined from paragraph (c) (2) of List 22, Appendix II.

PART 4600—RUBBER, SYNTHETIC RUBBER, BALATA AND PRODUCTS THEREOF

[Rubber Order R-1, Appendix III, as Amended July 1, 1944]

Rubber Order R-1, Appendix III, is hereby amended in its entirety to read as follows:

Introductory

Appendix III to Rubber Order R-1 as amended is divided into two parts. Part A contains regulations applicable to the distribution or use of end products. Part B contains special or temporary manufacturing regulations which for the most part involve the conversion of products from crude rubber to synthetics. Part B manufacturing regulations govern in case of inconsistency with other provisions of Rubber Order R-1.

Appendix III will be reissued from time to time for the purpose of deleting or revising special or temporary regulations.

A. *End Product Regulations*

§ 4600.30 *Acquisition of tires and tubes for original equipment.* In order to obtain tires and tubes for original equipment, a manufacturer must certify his purchase order in substantially the following form signed by an authorized official unless the tires are subject to the Tire Allotment Plan (Appendix IV of this order), in which case the tires may be obtained only under Appendix IV:

The undersigned hereby certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the tires listed on the attached purchase order are required by him for mounting on original equipment and that the deliveries specified will not result at any time in an inventory exceeding 30 days' supply based upon his total authorized monthly production.

Authorized official.

Use of the above certification constitutes a representation that the deliveries scheduled will not result in the acquisition of more tires and tubes (including inventory) than are required for the particular manufacturer's production of vehicles or equipment during the 30-day period following each scheduled delivery. In the event of a decrease in the number of products actually required, the manufacturer shall notify his supplier of the reduction, and the scheduled deliveries shall be revised accordingly.

§ 4600.31 *Acquisition of industrial type tires and tubes and solid tires for replacement purposes.* (a) No person shall deliver or accept delivery of any pneumatic tire described in paragraph (b) below for replacement on any passenger automobile, motorcycle, bus, farm implement, farm tractor or commercial motor vehicle except in accordance with OPA Ration Order 1A. The following certification procedure is applicable only to new pneumatic tires and tubes of the sizes and types described below for replacement on other types of vehicles and equipment and to any industrial or highway solid tire for replacement purposes regardless of the type of vehicle or equipment.

For example, a person who wishes to replace a straight side pneumatic tire in size 4.00–12 on a passenger car or small delivery truck, may do so only under the ration order. On the other hand, a person who requires the same tire for replacement on material handling equipment such as an industrial power truck uses the certification procedure.

Replacement tires or tubes of the following types are subject to the provisions of the ration order, even though the tires or tubes are required for industrial equipment: passenger, motorcycle, truck-bus and special purpose, or farm tractor-implement.

(b) *Certification of purchase orders.* No person shall deliver any tires or tubes for replacement purposes (except as otherwise provided in OPA Ration Order 1A) in the following classifications:

(1) Any straight side pneumatic tire designed primarily for industrial use up to and including size 4.50–12 and the following sizes: 6.00–9, 7.50–10, 7.50–15 (4-ply, smooth tread only) and 9.00–10;

(2) Any single tube pneumatic tire designed primarily for industrial use;

(3) Any industrial or highway solid tire:

Unless the person acquiring the same shall attach to his purchase order a certification in substantially the following form signed by an authorized official either manually or as provided in Priorities Regulation No. 7:

The undersigned hereby certifies to
---(insert name and address of seller) and to the War Production Board that he is familiar with Rubber Order R-1 and that the products listed on this purchase order are required by him for replacement purposes within 30 days from the date of this certification and do not include any pneumatic tires or tubes for any passenger automobile, motorcycle, bus, farm implement, farm tractor, or commercial motor vehicle.

Date

Name of Purchaser

Authorized Official

Definitions of the vehicles and equipment for which replacement tires or tubes may not be obtained by certification are set forth in OPA Ration Order 1A.

(c) *Preference ratings.* Tires and tubes which are subject to the foregoing certification procedure may be produced or delivered to fill civilian orders for replacement purposes (identified by certification) without regard to preference ratings. Any rating purporting to be applied or extended to any such tires or tubes for replacement purposes shall be void and no person shall give any effect to it except in filling Government orders.

§ 4600.32 *Lifesaving suits.* No person shall deliver or accept delivery of any lifesaving suit except for use on board an ocean or coastwise cargo or tank vessel of over 1,000 gross tons, and then only in accordance with regulations of the United States Coast Guard.

This section does not apply, however, to deliveries made to or for the account of the United States Army, Navy, Coast Guard or any foreign country under the provisions of the Act of March 11, 1941, entitled "An Act to Promote the Defense of the United States" (Lend-Lease Act). In addition, dealers may acquire lifesaving suits for resale under this section.

"Lifesaving suit" means any suit approved by the United States Coast Guard, made in whole or in part of rubber or synthetic rubber, designed for use with an approved life preserver and intended for rescuing or preserving the lives of seamen.

§ 4600.33 *Crude rubber or latex gloves.* No person shall manufacture light weight gloves from crude rubber or natural latex except for sale to resellers or to institutions for use by surgeons. No reseller shall sell any such gloves acquired after July 1, 1944 except to institutions for use by surgeons under orders rated under CMP Regulation 5–A.

Use of the certification provided in CMP Regulation 5–A constitutes a representation by the institution to its supplier that it requires light weight gloves manufactured from crude rubber or natural latex for use by surgeons.

"Firsts" in resellers' inventories as of July 1, 1944, "seconds", and "rejects", however, may be sold for any professional, industrial, commercial, educational or laboratory use under the certification procedure provided in § 4600.34 for light weight synthetic rubber gloves.

The restrictions of this section shall not apply to U. S. Army and Navy orders.

§ 4600.34 *Miscellaneous products.* No person shall deliver any of the following listed products to fill civilian orders unless the purchaser certifies to his supplier in substantially the following form:

The undersigned certifies, subject to the criminal penalties for misrepresentation contained in section 35 (A) of the United States Criminal Code, that the products purchased by him are required for a permitted use specified in Rubber Order R-1, in connection with his business or profession (or if reseller, substitute the following clause—that the products purchased by him will be sold only in accordance with Rubber Order R-1 as amended).

Purchaser or authorized official.

This section does not apply to Government orders.

Product description	*Permitted uses*
Any synthetic rubber glove less than 12" in length and with a customary gauge of less than 0.026 inches including rubberized fabric gloves, netlined gloves (except hand made gloves of calendered stock and electricians' gloves). Also "seconds" or "rejects" including those manufactured from crude rubber or natural latex.	For any professional, industrial, commercial, educational, or laboratory use, excluding any household or domestic use.
Rubber bands	For agricultural purposes and for the processing of products or materials, excluding stationery or office supply uses.
Fabric backed pressure sensitive tape (except high heat resistant and noncorrosive electrical tape).	Repair of transportation facilities: Maintenance and manufacture of industrial and mining equipment; the manufacture of the following products and parts thereof: (a) Aircraft, (b) Armored tanks, (c) Ships, (d) Army transport vehicles, (e) Guns, (f) Small arms, (g) Signalling devices, (h) Precision instruments, (i) Munitions, (j) Electrical equipment, (k) Machine tools, (l) Vehicles for common carriers and related transportation facilities. Splicing cotton jacketed cellulose gaskets for sealing drums and paint pails; production and shipping of photographic and motion picture film and X-ray film; sealing containers used to maintain sterility or vacuum in the manufacture of medicine and drugs; industrial and wholesale packaging of drugs and chemicals.

A person who has filed the above certification with his supplier need not certify subsequent purchases of the same products. The certification shall be deemed applicable to all purchases, unless the purchaser notifies his supplier to the contrary.

A supplier may continue to fill orders for fabric backed pressure sensitive tape under the form certification previously required for purchases of pressure sensitive tape.

B. *Temporary or Special Manufacturing Regulations*

§ 4600.40 *Tires and tubes.* The following regulations are applicable to tires and tubes notwithstanding other regulations contained in Rubber Order R-1 as amended:

(a) *Solid tires.* List 24, Appendix II, regulates the use of crude rubber in solid tires. Until July 15, 1944, crude rubber may, however, be consumed for cements and/or tie gum (or hard base) not exceeding ten percent by weight of the sum of the crude rubber, synthetic rubber and reclaimed rubber hydrocarbon contents.

(b) *Synthetic construction, airplane tires.* List 29, Appendix II, regulates the manufacture of airplane tires, but synthetic construction shall be used in the manufacture of airplane tires in accordance with the following regulations:

Size	Synthetic construction	Mandatory date
4, 6 and 8 ply (including Nylon construction)	S–6	May 1, 1944
10 and 12 ply (excepting Nylon construction)	S–6	Do.
10x3/4 ply HPA (excepting Nylon construction)	S–4	June 1, 1944
6.00—6/4 ply LPL (excepting Nylon construction)	S–4	Do.
6.50—10/6 ply LPL (excepting Nylon construction)	S–4	Do.
7.00—6/4 ply LPL (excepting Nylon construction)	S–4	Do.
6.50—10/6 ply LPL (excepting Nylon construction)	S–4	Do.
7.00—6/4 ply LPL (excepting Nylon construction)	S–4	Do.
7.50—10/6 ply LPL (excepting Nylon construction)	S–4	Do.
8.50—10/6 ply LPL (excepting Nylon construction)	S–4	Do.
8.90—12.50/4 ply LPL (excepting Nylon construction)	S–4	Do.
5.00—4/6 ply LPA (excepting Nylon construction)	S–4	Do.
7.00—5/4 ply LPA (excepting Nylon construction)	S–4	Do.
8.00—5/6 ply LPA (excepting Nylon construction)	S–4	Do.
9.50—12/6 ply LPBG (excepting Nylon construction)	S–4	Do.
11.00—12/8 ply LPBG (excepting Nylon construction)	S–4	Do.
10 and 12 ply (including Nylon construction)	S–6	July 1, 1944
14 ply and up (including Nylon construction)	S–6	Aug. 1, 1944
All 4, 6 and 8 ply (excepting Nylon construction)	S–4	Do
All 4, 6 and 8 ply (including Nylon construction)	S–4	Oct. 1, 1944

When nylon is used the S–6 or S–4 construction may be used at the option of the manufacturer and subject to the approval of the procuring agency, in which case those regulations designated for S–6 and S–4 constructions shall apply to nylon tires. If the S–6 or S–4 construction is not used with nylon prior to the date on which it is mandatory, as shown above, then the S–5 (or S–7) construction shall be used and shall conform to the regulations for S–5 (or S–7) construction as set forth in List 22, Appendix II, Rubber Order R–1, as amended.

Airplane tires in 14 plies and up may be manufactured in S–6 construction at the option of the manufacturer and subject to the approval of the procuring agency, in which case those regulations designated for S–6 construction shall apply. If the S–6 construction is not used prior to the date on which it is mandatory, as shown above, then the S–5 (or S–7) construction shall be used and shall conform to the regulations for S–5 (or S–7) construction as set forth in List 22, Appendix II, Rubber Order R–1, as amended.

(c) *Truck-bus tires.* List 24, Appendix II, regulates the manufacture of tires and tire casings except airplane and bicycle tires. The tires listed below, however, may be manufactured in accordance with the following regulations until the applicable expiration date indicated:

(1) The following regulations effective until July 15, 1944, applicable to Civilian orders only:

[1] Crude rubber may be consumed in cushion gum to be applied to Grade "S" Camelback or capping stock, but the crude rubber so consumed shall not exceed, by weight, 1.5 percent of the total weight of camelback. The use of tread buffings is permitted.

[2] Grade camelback and capping stock shall not be manufactured in die sizes with crown widths wider than 5.

(e) *Tire and tube repair materials.* List 23, Appendix II, regulates the manufacture of tire and tube repair materials. Until July 15, 1944, however, tire and tube repair materials may be manufactured in accordance with the following regulations:

TIRE AND TUBE REPAIR MATERIALS

Description of item	Percent by volume in compound					Restriction
	Crude rubber GR-S		Total new rubber		Total RHC plus GR-S

(e) Tube replacement valve facing	60.0	20.0	----	75.0	78.0	
(4) Sectional base	50.0	----	----	----	----	

[1] Crude rubber may be consumed in cements for adhesion purposes in manufacturing tire patches.

§ 4600.41 *Wire and cable.* The following regulations are applicable to wire and cable notwithstanding other regulations of Rubber Order R–1 as amended.

(a) *Insulation.* List 27, Appendix II, regulates the use of crude rubber and latex in wire and cable insulation. Until October 1, 1944, the following ignition cables may be manufactured in accordance with the regulations set forth below:

Item	Specification	Insulation compound
Aircraft ignition cable	32427, AN–J–56	W–A.A. W–A.A.

(3) Until July 15, 1944, intercity bus mileage tires in cross-sections 7.50 and down, all piles, may be manufactured in S–5 synthetic construction.

(d) *Retreading materials.* List 30, Appendix II, regulates the manufacture of retreading materials. Until July 15, 1944, however, retreading materials may be manufactured in accordance with the following regulations:

RETREADING MATERIALS

Description of product	Percent by volume in compound					Restrictions

PART 1305—ADMINISTRATION

[Gen. RO 8,[1] Amdt. 9]

GENERAL PROHIBITIONS, PENALTIES AND CONDITIONS

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

General Ration Order No. 8 is amended in the following respects:

1. A new section 2.19 is added to read as follows:

SEC. 2.19 *Miscellaneous.* Nothing in this or any other ration order issued by the Office of Price Administration shall be construed to contain any requirement as to the observance of any regulation, order, license or requirement issued or prescribed pursuant to the Emergency Price Control Act or the Stabilization Act of 1942.

2. Section 4.1 of General Ration Order 8 is amended to read as follows:

SEC. 4.1 *Suspension orders.* (a) Any person who violates a ration order may, by administrative suspension order, be prohibited from receiving any transfer or delivery of, or from selling, using or otherwise disposing of, any rationed commodity. Proceedings for suspension orders shall be in accordance with the provisions of Revised Procedural Regulation No. 4 of the Office of Price Administration.

This amendment shall become effective July 1, 1944.

PART 1305—ADMINISTRATION

[Supp. Order 91]

EXEMPTION FROM PRICE CONTROL OF CERTAIN COMMODITIES, SERVICES, COMMODITY TRANSACTIONS AND SERVICE TRANSACTIONS IN THE TERRITORY OF HAWAII

A statement to accompany this Supplementary Order No. 91 has been issued simultaneously herewith and has been filed with the Division of the Federal Register.* For the reasons set forth in that statement, and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328, it is hereby ordered, that:

§ 1305.119 *Exemption from price control of certain commodities, services, commodity transactions and service transactions in the Territory of Hawaii.* (a) Nothwithstanding the provisions of any regulation or order issued prior to the effective date of this order by the Office of Price Administration which are effective in the Territory of Hawaii, all sales by any person of the following listed commodities, services, commodity transactions and service transactions are exempt from price control either absolutely, or where the exemption is qualified, upon the conditions and to the extent qualified.

(1) Those commodity transactions excepted from the General Maximum Price Regulation under the provisions of Revised Supplementary Regulation No. 1.

(2) Those services excepted from the General Maximum Price Regulation under the provisions of Revised Supplementary Regulation No. 11.

(3) Those commodities controlled under Maximum Price Regulation 429—Certain Used Consumer Goods; Maximum Price Regulation 139—Used Household Mechanical Refrigerators; Maximum Price Regulation 294—Used Vacuum Cleaners; Maximum Price Regulation 372—Used Washing Machines; and Maximum Price Regulation 320—Used Bedsprings, when sold in connection with and as a part of a bona fide sale of real estate.

(4) Sales of any commodity by an administrator or executor in liquidation of the assets of an estate (other than in connection with the continuation of a business) pursuant to statutory authority granted such administrator or executor under the provisions of the Revised Laws of Hawaii.

This Supplementary Order No. 91 shall become effective July 8, 1944.

Issued this 3d day of July 1944.

CHESTER BOWLES,
Administrator.

[MPR 415,[1] Amdt. 7]

CERTAIN FEDERAL GOVERNMENT PURCHASES OF NEW RUBBER TIRES AND TUBES

A statement of the considerations involved in the issuance of this amendment issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 4 (c) is amended to read as follows:

(c) *Packing expenses.* The maximum prices fixed by this regulation include all expenses for standard government packing, and Revised Supplementary Order No. 34[2] shall not apply to such packing. However, Revised Supplementary Order 34 may be applied in the case of special government packing for overseas shipments.

This amendment shall become effective July 8, 1944.

Issued this 3d day of July 1944.

PART 1340—FUEL

[RMPR 122,[1] Amdt. 25]

SOLID FUELS SOLD AND DELIVERED BY DEALERS

A statement of considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of Federal Register.*

Revised Maximum Price Regulation No. 122 is amended in the following respects:

1. In § 1340.254 (c), new Rule 7 is added to read as follows:

Rule 7. Notwithstanding other provisions of this regulation, if a dealer is charged a price for oil or chemical treatment of coal, the dealer, on his sales of such treated coal, may charge a maximum price equal to his maximum price for the same coal untreated plus the treatment charge made of him by his supplier: *Provided,* That this Rule 7 shall not apply unless the treated coal is kept separate and is not mixed with untreated coal. The dealer shall state the treatment charge separately from all other items on his invoice.

2. Section 1340.256 (c) (1) is amended to read as follows:

(1) In the case of bituminous coal prepared at the dock as double-screened or lump sizes, the amount per net ton specified for the solid fuels following:

From mines in District Nos. 1, 2, 4 or 6	$0.80
From mines in District No. 3 (except medium volatile in Price Classification A)	.80
From mines in District No. 3 and in Price Classification a: medium volatile	1.05
From mines in District Nos. 7 or 8: low volatile	1.35
From mines in District Nos. 7 or 8: medium or high volatile	1.05

The maximum price for each size and kind of dock run bituminous coal shall be 50 cents per net ton lower than the maximum price for the same size and kind of coal when rescreened at the dock.

3. Section 1340.256 (c) (2) is amended to read as follows:

(2) in the case of bituminous coal in all other sizes, the amount per net ton specified for the solid fuels following:

From mines in District Nos. 7 and 8: low volatile screenings and run-of-mine	$0.75
From mines in District Nos. 1, 2, 3, 4, 6, 7 or 8: high volatile screenings and run-of-mine	.65
From mines in District Nos. 1, 2, 3, 4 or 6: high volatile stoker size	.65
From mines in District Nos. 7 or 8: high volatile stoker size	.95

PART 1364—FRESH, CURED AND CANNED MEAT AND FISH PRODUCTS

[MPR 364,[1] Amdt. 19]

FROZEN FISH AND SEAFOOD

A statement of the considerations involved in the issuance of this amendment has been issued simultaneously herewith and filed with the Division of the Federal Register.*

Maximum Price Regulation No. 364 is amended in the following respects:

1. Section 2 is amended to read as follows:

SEC. 2. *How processors' maximum prices are fixed*—(a) *General rule.* The processor's maximum price for sales of frozen fish or seafood, except as otherwise provided in paragraphs (b), (c), (d) and (e) of this section, is the applicable listed base price in section 14, with any appropriate adjustment for kind of package as provided in section 13, plus any transportation cost allowable under section 3a (a). This is the maximum price f. o. b. shipping point nearest freezer or other warehouse.

(b) *Branch warehouse sales.* Where the processor receives frozen fish or seafood in carload lots at a warehouse remote from the original freezer and sells and delivers such frozen fish or seafood in less-than-carload lots from the stock of such warehouse, his maximum price f. o. b. shipping point nearest warehouse for such sales to wholesalers, government agencies, retailer-owned cooperatives or chain store warehouses is the applicable listed base price in section 14, with any appropriate adjustment for kind of package as provided in section 13, plus any transportation cost allowable under section 3a (a) (1), plus a mark-up of 12 percent applied to the sum of the foregoing, plus any transportation cost allowable under section 3a (a) (2).

However, the prices established in this paragraph (b) may be charged by such processor only if he has two or more full-time employees stationed in the city where such warehouse is located and such employees are engaged in selling and handling frozen fish or seafood at such warehouse solely for such processor. Furthermore, the prices established in this paragraph (b) apply only to sales of those species of frozen fish or seafood which the processor, during the greater portion of the year preceding April 13, 1943, received at such warehouse for the most part in carload lots and sold and delivered from such warehouse for the most part in less-than-carload lots.

(c) *Cash and carry sales to retailers and purveyors of meals.* The processor's maximum price for sales of frozen fish and seafood ex freezer, platform or other warehouse to individual retailers or purveyors of meals is the applicable listed base price in section 14, with any appropriate adjustment for kind of package as provided in section 13, plus any transportation cost allowable under section 3a (1), plus a mark-up of 15 percent applied to the sum of the foregoing, plus any transportation cost allowable under section 3a (a) (2).

(d) *Service and delivery sales to retailers and purveyors of meals.* The processor's maximum price for sales of frozen fish and seafood to individual retailers or purveyors of meals, where the processor delivers such fish or seafood in his own motor truck or wagon or in a motor truck or wagon used solely for his own deliveries from his established place of doing business to the individual retail store or to the place of doing business of the purveyor of meals, is the applicable listed base price in section 14, with any appropriate adjustment for kind of package as provided in section 13, plus any transportation cost allowable under section 3a (a) (1), plus a mark-up of 12 percent applied to the sum of the foregoing, plus any transportation cost allowable under section 3a (a) (2).

However, the prices established in this paragraph (b) may be charged by such processor only if he has two or more full-time employees stationed in the city where such warehouse is located and such employees are engaged in selling and handling frozen fish or seafood at such warehouse solely for such processor. Furthermore, the prices established in this paragraph (b) apply only to sales of those species of frozen fish or seafood which the processor, during the greater portion of the year preceding April 13, 1943, received at such warehouse for the most part in carload lots and sold and delivered from such warehouse for the most part in less-than-carload lots.

(c) *Cash and carry sales to retailers and purveyors of meals.* The processor's maximum price for sales of frozen fish and seafood ex freezer, platform or other warehouse to individual retailers or purveyors of meals is the applicable listed base price in section 14, with any appropriate adjustment for kind of package as provided in section 13, plus any transportation cost allowable under section 3a (1), plus a mark-up of 15 percent applied to the sum of the foregoing, plus any transportation cost allowable under section 3a (a) (2).

(d) *Service and delivery sales to retailers and purveyors of meals.* The processor's maximum price for sales of frozen fish and seafood to individual retailers or purveyors of meals, where the processor delivers such fish or seafood in his own motor truck or wagon or in a motor truck or wagon used solely for his own deliveries from his established place of doing business to the individual retail store or to the place of doing business of the purveyor of meals, is the applicable listed base price in section 14, with any appropriate adjustment for kind of package as provided in section 13, plus any transportation cost allowable under section 3a (a) (1), plus a mark-up of 12 percent applied to the sum of the foregoing, plus any transportation cost allowable under section 3a (a) (2).

(e) *Special provisions applicable to processors' sales of frozen halibut.* The processor in determining his maximum price for frozen halibut under the provisions of paragraph (a), (b), (c) or (d) of this section 2 shall use as the base price plus any transportation allowance the lowest amount determined by the application of the following three: (1) The appropriate base price listed in section 14 for frozen halibut which was originally landed fresh on the Pacific Coast of the Continental United States plus the rail rate for frozen fish for the type of shipment used from Seattle, Washington, to the processor's distribution point; (2) the appropriate base price listed in section 14 for frozen halibut which was originally landed fresh on the Pacific Coast of Canada plus the rail rate for frozen fish for the type of shipment used from Prince Rupert, British Columbia, to the processor's distribution point or (3) the appropriate base price listed in section 14 with respect to the point of landing plus the transportation allowance provided in section 3a (a).

2. Section 3 (a) is amended to read as follows:

(a) *General instructions.* Each wholesaler's maximum price for the kind of frozen fish or seafood listed in section 14 is found by multiplying his "net cost", as defined in the following paragraph (b), by the appropriate percentage mark-up figure, set out in the following paragraphs (c) and (d), adding the result to the net cost, and adding thereto the allowance in section 3a (b) (2) for transportation between warehouses of the same wholesaler, when such transportation is involved.

3. Section 3 (b) is amended to read as follows:

(b) *Net cost.* (1) Except as otherwise provided in subparagraphs (2) and (3) of this paragraph the wholesaler's "net cost" is the amount he paid for the particular item of frozen fish or seafood delivered at his established place of doing business, plus or minus any appropriate package differentials listed in section 13, less all discounts allowed him except the discount for prompt payment, and excluding all charges for local trucking, hauling and handling.

When a wholesaler buys frozen fish or seafood in a style of processing for which a base price is listed in section 14 and further processes it in a style of processing for which a different price is listed, he may add to his net cost the difference between the two base prices.

(2) The wholesaler's "net cost" must not exceed the sum of the following: (i) the applicable listed base price in section 14, plus or minus (ii) any appropriate package differentials listed in section 13 added or subtracted by previous handlers of the fish or seafood, plus (iii) allowable transportation costs added by previous handlers of the fish or seafood, plus (iv) the appropriate mark-up, if any, allowed his supplier, plus or minus (v) any package differentials listed in section 13 for repackaging, if any, by the wholesaler, plus (vi) allowable transportation costs for delivery of the frozen fish or seafood to the wholesaler's established place of doing business, from his supplier's place of business, exclusive of local trucking, hauling and handling charges.

(3) *Net cost for sales of halibut.* The wholesaler, in determining his "net cost" for sales of frozen halibut in accordance with the provisions of section 3 (b) (1) and (2), shall use as the base price plus any transportation allowance permitted him or his supplier the lowest amount determined by the application of the following three: (1) The appropriate base price listed in section 14 for frozen halibut which was originally landed fresh on the Pacific Coast of the Continental United States plus the rail rate for frozen fish for the type of shipment used from Seattle, Washington, to his established place of business; (2) the appropriate base price listed in section 14 for halibut which was originally landed fresh on the Pacific Coast of Canada plus the rail rate for frozen fish for the type of shipment from Prince Rupert, British Columbia, to his established place of business; (3) the appropriate base price listed in section 14 with respect to the point of landing plus the transportation allowance permitted him or his supplier in section 4.

4. Section 3 (c) is amended to read as follows:

(c) *Wholesaler's mark-up for different classes of sales.* Mark-up is the percentage over net cost set forth hereinafter for the type of sale involved. To obtain the selling price, multiply the net cost by the percentage mark-up figure; the result added to the net cost is the selling price. The mark-up which applies in any particular sale depends on the class in which the buyer and seller fall and the kind of service performed in the particular sale. The classes, types of service, and mark-ups are set forth in the following paragraph (d).

No wholesaler who purchases frozen fish or seafood from another wholesaler or from a processor whose sales are governed by section 2 (b) may sell such frozen fish and seafood to other wholesalers at a price higher than his supplier's maximum price plus transportation cost allowable under section 3a (b) (1).

In no event shall the price charged for a sale to an individual retailer or purveyor of meals include more than one mark-up of either 7 percent or 12 percent, as the case may be (regardless of whether the mark-up is taken pursuant to this section or section 2), and one retailer-owned cooperative or cash and carry or service and delivery wholesaler mark-up.

5. Section 3 (d) (1) is amended to read as follows:

(1) *Primary wholesalers.* Primary wholesalers with respect to any species of fish or seafood listed in the table of base prices of section 14 are wholesalers who buy frozen fish or seafood from processors in carload lots and distribute it for resale to other wholesalers, government agencies, retailer-owned cooperatives or chain store warehouses in less-than-carload lots, and who, during the greater part of the year preceding April 13, 1943, bought the greater portion of the frozen fish or seafood they sold in carload lots and distributed the greater portion of such fish or seafood in less-than-carload lots. In the sale of frozen fish or seafood which has been unloaded, stored and warehoused in the regular course of his business, the primary wholesaler's mark-up is 12 percent. In the case of sales of fish or seafood which has not been stored and warehoused, the primary wholesaler's mark-up is 7 percent. In the case of sales involving delivery from the processor's cold storage warehouse to the primary wholesaler's customer, there is no mark-up. Sales to wholesalers, government agencies, retailer-owned cooperatives, or chain store warehouses by wholesalers other than those who qualify as primary wholesalers as defined in this section shall be at prices no higher than their supplier's ceiling prices plus transportation costs allowable under section 3a (b) (1), except for such less-than-carload lot sales to government agencies to which subparagraphs (3) and (4) of section 3 (d) are applicable.

6. Section 3 (d) (3) is amended to read as follows:

(3) *Cash and carry sales.* Cash and carry sales are sales of frozen fish or seafood to individual retailers and purveyors of meals by wholesalers who normally do not extend credit and whose sales are made ex freezer or platform. The mark-up for this class of sale is 15 percent.

7. Section 3 (d) (4) is amended to read as follows:

(4) *Service and delivery sales.* Service and delivery sales are sales of frozen fish or seafood by wholesalers to individual retailers or purveyors of meals where the wholesaler delivers such frozen fish or seafood in his own motor truck or wagon or in a motor truck or wagon used solely for his own deliveries from his established place of doing business to the individual retail store or to the place of doing business of the purveyor of meals.

8. Section 3 (d) (6) is amended to read as follows:

(6) *Country trade shipments.* Processors or wholesalers who ship to retailers and purveyors of meals located in rural areas or outlying points may add to their permitted mark-ups the actual cost of any special shipping cases and the cost of any extra refrigerant used for the shipment. Such processors or wholesalers must denote separately on invoices to customers the actual cost of the cases and the refrigerant.

9. Section 3 (e) is amended to read as follows:

(e) *Imported frozen fish and seafood.* The maximum price at which a wholesaler, including any agent of a foreign shipper, may sell any frozen fish or seafood listed in section 14 which he imports is the applicable listed base price in section 14, plus or minus the appropriate differential for packaging provided in section 13, plus transportation cost allowable under section 4 (c) plus the appropriate mark-up provided in paragraphs (c) and (d) of section 3 applied to the sum of the foregoing, plus any transportation cost allowable under section 3a (b) (2) for transportation between warehouses of the same wholesaler.

10. A new section 3a is inserted to read as follows:

SEC. 3a. *Allowance for transportation*—(a) *When a processor may add transportation costs*—(1) *Fresh fish transportation.* Any processor may include as part of his maximum price the actual per pound transportation cost, not to exceed the carload rail freight rate per pound for fresh fish, if such rate is available, from the port of entry to the freezing point. Where a carload rail freight

rate is not available such per pound transportation cost must not exceed the lowest available common carrier rate. However, no such transportation allowance may be added in the case of fish listed in Schedule No. 11 (g) (Petrale sole—Pacific), 17 (Lingcod—Pacific), 40 (Dover sole), 40A (English sole), 40B (Sand sole), 40C (Turbot sole), 62 (Flounder—Pacific) or 67 (Rex sole), if any of these varieties has been landed fresh ex-vessel at any of the following ports of entry in California: Half Moon Bay, Point Reyes, Bodega Bay, Crescent City, Trinidad or Shelter Cove, and it is frozen in California, Washington, or Oregon.

(2) *Frozen fish transportation.* If a processor ships frozen fish or seafood to a warehouse or other distribution point remote from the original freezer, such processor may include as part of his maximum selling price, for sales from such warehouse or other distribution point, the actual transportation cost. Such transportation cost shall not include charges for local trucking, hauling and handling, and shall not exceed the common carrier rate for the type of transportation used.

(b) *When a wholesaler may add transportation costs.* (1) Any wholesaler who buys frozen fish or seafood from a processor or other wholesaler may include as part of his net cost the actual transportation cost from his supplier's shipping point to his established place of business.

(2) Any wholesaler who ships frozen fish or seafood from one of his warehouses to a remote warehouse or other distribution point may add to his maximum price the actual transportation cost from the shipping point nearest the first warehouse to such remote warehouse or other distribution point.

(3) The actual transportation cost referred to in paragraph (b) (1) and (2) shall not include local trucking, hauling and handling charges and shall not exceed the common carrier rate for the type of shipment used.

(c) *Transportation allowance for imported frozen fish.* Any importer or agent of a foreign consignor of any frozen fish or seafood except frozen Atlantic Coast smelts and frozen Canadian lake fish covered in Schedules Nos. 70–77, inclusive, in the table of base prices in section 14 may add as a transportation allowance the lowest amount determined on the following three bases:

(1) The actual cost of transportation (exclusive of local trucking, hauling and handling charges) from the seller's shipping point to the importer's receiving point;

(2) The actual cost of transportation (exclusive of local trucking, hauling and handling charges) to the importer's receiving point from the point at which the frozen fish or seafood entered the United States or the carload rail rate for frozen fish or seafood from the point in the United States nearest the foreign shipper's shipping point, whichever is designated on the invoice by the importer.

(3) The actual cost of transportation (exclusive of local trucking, hauling and handling charges) to the importer's receiving point from the nearest domestic port from which a substantial volume of that species is shipped.

However, with respect to the species listed hereinafter the cost of transportation shall not exceed the cost for the type of shipment used from the ports listed for that species.

Species:	Port
Cod, haddock, pollack, hake, cusk, yellowtail, blackback, lemon sole, gray sole, sea dab, mackerel, rosefish	Boston, Mass.

(4) In determining the transportation allowance, provided in subparagraphs (1), (2) and (3) of this paragraph (c), common carrier rates shall be used. The importer may add the allowance only when he records it on an invoice to the customer purchasing the fish or seafood, designating which of the three bases he is using.

Where frozen Atlantic Coast smelts are imported for resale in the United States the freight from the point of shipment to the wholesaler's warehouse, not to exceed the carload rail freight rate, may be added.

Where frozen Canadian lake fish covered in Schedules Nos. 70–77, inclusive, in the table of base prices in section 14 are imported for resale in the United States, there may be added the actual transportation cost (excluding local trucking, hauling and handling charges) from the point of shipment in Canada to the destination point in the United States, but in no event more than the carload rail freight rate for frozen fish from the City of Winnipeg in the Province of Manitoba, Canada, to the destination point in the United States.

11. Paragraph (f) is added to section 7 to read as follows:

(f) *Authorization to regional offices to modify invoice provisions.* Any Regional Administrator of the Office of Price Administration may, by order, alter, modify or suspend any of the requirements in paragraph (e) of this section if in his judgment such action is necessary in order that fish may be marketed efficiently within his jurisdiction and is consistent with the effective enforcement of this Maximum Price Regulation No. 364. The Regional Administrator may alter, modify or suspend such requirements with reference to such types of sales and such localities within his jurisdiction as he may designate, but only in the case where the buyer and seller are both located within his jurisdiction. He may make such provisions for posting the items required in paragraph (e) as in his judgment are necessary to prevent the circumvention or evasion of this regulation. The Regional Administrator may issue such order on his own initiative or upon application for adjustment of the requirements in paragraph (e) by any person subject to them. Subpart B of Revised Procedural Regulation No. 1 shall apply to such applications for adjustment.

12. In section 12 after the definition of "Butterfly fillet" and before the definition of "cellophane wrapped", the following definition is inserted:

"Carload lot" means a shipment of not less than 24,000 pounds of frozen fish or seafood.

13. In section 12 after the definition of "Processor" and before the definition of "Round fish" the following definition is inserted:

"A retailer" is a person other than a purveyor of meals or a chain store warehouse who buys frozen fish or seafood and resells more than 80 percent of such fish or seafood to ultimate consumers.

14. In section 12 after the last definition the following definition is inserted:

"A wholesaler" is a person who buys frozen fish or seafood and resells 20 percent or more of such frozen fish or seafood to persons other than ultimate consumers.

15. In section 13 an introductory paragraph is inserted to read as follows:

SEC. 13. *Table of package differentials.* This section sets out the amount which may be added to, or which must be subtracted from, the base price listed in section 14 when the frozen fish or seafood is packed in containers of sizes and kinds herein listed or when the frozen fish or seafood is not packed in boxes or other containers.

16. In section 14 an introductory paragraph is inserted to read as follows:

SEC. 14. *Table of base prices for frozen fish and seafood.* This section lists the various species of frozen fish and seafood for which maximum prices are fixed by this regulation. The base price, in cents per pound, is listed for each species according to the style of processing and the size and in some instances, the grade. The listed base prices in this section are base prices per pound for frozen fish and seafood as packed in and including a container of a size and kind other than those containers of the sizes and kinds listed in section 13.

17. In the table of base prices in section 14 Schedule No. 11 (g) Item No. 4, Schedule No. 17, Item No. 2, Schedule No. 25, Item No. 3, Schedule No. 40, Item No. 4, Schedule No. 40 A, Item No.[*] 6, Schedule No. 40 B, Item No. 4, Schedule No. 40 C, Item No. 4, and Schedule 62, Item No. 3 are amended to read as follows:

Schedule No.	Name	Item No.	Style of processing	Size	Base price per pound
11	(g) Sole, Petrale—Pacific	4	Fillets	All sizes	$0.27
17	Lingcod—Pacific (Ophiodon elongatus)	2	Fillets	All sizes	.27
25	Red cod or Rock cod—Pacific (Sebastodes specie)	3	Fillets	All sizes	.25
40	Sole, Dover—Pacific	4	Fillets	All sizes	.27
40 A	Sole, English—Pacific	6	Fillets	All sizes	.27
40 B	Sole, Sand—Pacific	4	Fillets	All sizes	.27
40 C	Sole, Turbot—Pacific	4	Fillets	All sizes	.27
62	Flounder—Pacific	3	Fillets	All sizes	.27

18. Footnote 6 at the end of the table of base prices in section 14 is amended to read as follows:

[6] These prices apply to this species caught or landed in Canada except that they do not apply to fish caught in Lake of the Woods and any other body of water east of that lake which is partly in Canada and partly in the State of Minnesota, or which constitutes the boundary line between Canada and the State of Minnesota; Lake Superior, Lake Huron, Lake St. Clair, Lake Erie, Lake Ontario and any of the waters connecting these five lakes; and the St. Lawrence River where it constitutes the boundary line between New York State and Canada.

19. Footnote 10 at the end of the table of base prices in section 14 is amended to read as follows:

[10] The base prices listed for halibut apply to frozen halibut originally landed fresh on the Pacific Coast of the Continental United States. For frozen halibut originally landed fresh in Canada or Alaska, deduct the following amounts from the listed prices:

Style of dressing:	Deductions cents
Dressed	2½
Steaks	3¼
Fillets	4
Round	2½
Drawn	2½

For frozen halibut originally landed fresh on the Atlantic Coast of the United States, add ½ cent to the listed prices.

This amendment shall become effective July 1, 1944.

Issued this 1st day of July 1944.

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.[*]

Section 61 is amended in the following respects:

1. The heading is amended to read as follows: *"Maximum prices for mixed fertilizer, superphosphate, potash and nitrogeneous material."*

2. Paragraphs (a) (2), (3) and (7) are amended to read as follows:

(2) "Dealer" means a person who purchases mixed fertilizer, superphosphate, potash or nitrogeneous material and resells it to a consumer.

(3) "Consumer" means a person purchasing mixed fertilizer, superphosphate, potash or nitrogeneous material for use in aiding the growth of crops or plants (and not for resale) including the Agricultural Adjustment Agency.

(7) "Nitrogenous material" means any organic or inorganic substance containing nitrogen, when marketed or sold as an aid to the growth of crops or plants.

3. Paragraph (b) is amended in the following respects:

a. The heading is amended to read as follows: *"Manufacturer's maximum prices for mixed fertilizer, superphosphate, potash and nitrogeneous material."*

b. Subparagraphs (1), (2) and (3) are redesignated subdivisions (i), (ii) and (iii).

c. A new heading for subparagraph (1) is added to read as follows: *"Maximum prices for sales of mixed fertilizer, superphosphate, and potash."*

d. Subparagraphs (2) and (3) are added to read as follows:

(2) *Manufacturer's maximum prices for cash sales of nitrogenous fertilizer material.* The maximum price for a cash sale of nitrogenous fertilizer material by fertilizer manufacturers, direct or through agents, to a consumer shall be:

(i) The manufacturer's actual landed cost of the material, in the case of ammonium nitrate; or the manufacturer's weighted average landed cost of each material, calculated as of July 1, October 1, January 1 and April 1, in the case of sulphate of ammonia or any other nitrogenous fertilizer material, for all of the lots of each material received by him during the quarter-annual period last preceding the date of the calculation; or, if none was received in that period, the cost of the latest quarter-annual period in which material was received.

(ii) An additional amount equal to the fertilizer manufacturer's expenditure, if any, for transportation of the nitrogenous fertilizer material within the territory to the fertilizer manufacturer's plant or warehouse or direct to the buyer's delivery point.

(iii) An additional 50 cents per ton if the nitrogenous fertilizer material is stored in and delivered from the fertilizer manufacturer's plant.

(iv) Plus the actual cost of bags used, and $1.00 per ton when such nitrogenous fertilizer material is received in bulk by the fertilizer manufacturer and resold in bags.

(v) An additional amount equal to the cost of governmental tax tags, if any, and the attaching thereof, or governmental tonnage or inspection tax, but no license cost or registration fee.

(vi) In addition a maximum margin of: $4.00 per ton if the cost (subdivisions (i) through (v)) is less than $40.00 per ton; $5.00 per ton if such cost is $40.00 or more but less than $50.00 per ton; $6.00 per ton if such cost is $50.00 or more but less than $60.00 per ton; $7.00 per ton if such cost is $60.00 or more but less than $70.00 per ton; $8.00 per ton if such cost is $70.00 or more per ton.

(vii) An additional 50 cents per ton if the nitrogenous fertilizer material is stored in, and delivered from a warehouse owned or operated by a fertilizer manufacturer or agent.

(viii) An additional amount equal to the actual transportation expense incurred in making delivery from a fertilizer manufacturer's plant or warehouse or from the buyer's delivery point, to the consumer.

(ix) An amount equal to the actual loading or handling charges incurred in making delivery to the buyer.

(3) *Manufacturer's maximum prices for credit sales of nitrogenous fertilizer material.* In the case of credit sales, credit terms shall not be more onerous on Spring season sales than those in effect and applicable to such dealer or consumer for the period from February 16, 1942, to February 20, 1942, inclusive, and for Fall season sales, credit terms shall not be more onerous than those in effect and applicable to such dealer or consumer for the period from October 1, 1941, to October 15, 1941, inclusive.

4. Paragraph (c) is amended in the following respects:

a. The heading is amended to read as follows: *"Dealer's maximum prices for mixed fertilizer, superphosphate, potash and nitrogeneous material."*

b. The first paragraph of subparagraph (1) is amended to read as follows:

(1) *Cash prices.* A dealer's maximum cash prices for sale of mixed fertilizer, superphosphate, potash or nitrogenous material shall be determined by adding together the following factors:

(c) Subparagraph (2) is amended to read as follows:

(2) *Time prices.* A dealer's maximum time prices for sales of fertilizer, superphosphate, potash and nitrogenous material shall be equal to his maximum cash prices plus 6 percent.

5. Paragraph (e) is amended to read as follows:

(e) *Filing of price schedules by manufacturers.* Not later than July 1, 1944, every manufacturer of mixed fertilizer, superphosphate, potash and nitrogenous material in Puerto Rico shall file with the Territorial Office of Price Administration, San Juan, Puerto Rico, a complete schedule of prices in effect on that date and thereafter shall file within five days of their effective date all supplements and amendments to price schedules in effect on July 1, 1944.

NOTE: The reporting and record-keeping provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1367—FERTILIZERS

[RMPR 205]

FERTILIZER RAW MATERIALS

Maximum Price Regulation 205 is redesignated Revised Maximum Price Regulation 205 and is revised and amended to read as set forth herein.

Revised Maximum Price Regulation 205 now covers all of the major fertilizer raw materials when sold to fertilizer manufacturers.

Article I contains the provisions of general applicability.

Article II provides for maximum prices of sulphate of ammonia which were formerly governed by Maximum Price Regulation 205 and also provides for maximum prices for other chemical nitrogenous fertilizer materials which were formerly governed by the General Maximum Price Regulation.

Article III provides for maximum prices of organic nitrogenous fertilizer materials which were formerly covered by Maximum Price Regulation 470.

Article IV provides for maximum prices of superphosphate which were formerly covered by section 4.4 of RSR 14 to the General Maximum Price Regulation.

Article V provides for maximum prices of potash which were formerly covered by Maximum Price Regulation 404.

So far as practicable, the Price Administrator has ascertained and given due consideration to the prices of fertilizer raw materials prevailing between October 1 and 15, 1941, and has made adjustments for such relevant facts as he has determined and deemed to be of general applicability; and he has advised and consulted with representative members of the industry which will be affected by this regulation.

In the judgment of the Price Administrator, the maximum prices established by this regulation are and will be generally fair and equitable, and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Executive Orders 9250 and 9328.

Such standards and specifications as are used in this regulation were, prior to such use, in general use in the trade or industry affected.

A statement of the considerations involved in the issuance of this regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

ARTICLE I—SCOPE AND MISCELLANEOUS PROVISIONS OF THE REGULATION

SECTION 1. *Applicability*—(a) *In general.* Except as provided in paragraph (b) of this section with reference to emergency sales to the United States and its agencies and paragraph (c) of this section with reference to export sales, this regulation shall apply to all sales to fertilizer manufacturers or governmental departments and agencies (except sales by non-producers to the Agricultural Adjustment Agency of superphosphate) of the domestic and imported fertilizer raw materials covered by this regulation, whether sold for immediate or future delivery, within the District of Columbia and the 48 states of the United States.

(b) *Emergency purchases.* This regulation shall have no application to any purchase by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative, and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

(c) *Export sales.* This regulation shall have no application to export sales of the fertilizer raw materials covered herein. The maximum price of such sales shall be determined in acccordance with the provisions of the Second Revised Export Price Regulation. For the purposes of that regulation in the case of exports to Puerto Rico or the Virgin Islands the maximum domestic price of sulphate of ammonia shall be $29.20 per ton in bulk, f. o. b. New York, New York; Philadelphia, Pennsylvania; and Baltimore, Maryland, the normal ports of exit.

SEC. 2. *Sales at other than maximum prices*—(a) *Prohibition.* Regardless of any contract or obligation, no person shall sell or deliver to a fertilizer manufacturer or governmental department or agency and no fertilizer manufacturer or governmental department or agency shall buy or receive in the course of trade or business any of the fertilizer raw materials covered by this regulation at a price above the maximum price established by this regulation for sales to such fertilizer manufacturer or governmental department or agency, nor shall any person agree, solicit, offer or attempt to do any of the foregoing. This prohibition, however, is subject to the provision for adjustable pricing contained in paragraph (b) of this section, the exception for emergency purchases by the United States and its agencies contained in paragraph (b) of section 1 and the exception for export sales contained in paragraph (c) of section 1.

(b) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(c) *Lower prices.* Prices lower than the maximum prices established by this regulation may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a seller obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price is an evasion of this regulation, and therefore prohibited; and any offer or agreement which accomplishes or attempts to accomplish such a result is equally prohibited; except, that the foregoing does not prohibit practices which were customary either to the seller or to the trade prior to April 1, 1942 of requiring the buyer to purchase combinations of commodities or of requiring the buyer to sell back to the seller other commodities or the same commodity, *Provided,* All such sales and purchases are at the market price, not exceeding the maximum price.

SEC. 4. *Records and reports.* (a) All sellers of fertilizer raw materials covered by this regulation shall keep, for so long as the Emergency Price Control Act of 1942, as amended, is in effect, for inspection by the Office of Price Administration customary records of each offer, agreement, purchase, sale or delivery showing the date thereof, the name and address of buyer, the destination point, the material sold, the price charged or received, the total transportation charges and the amount of transportation charges, if any, paid by the seller.

(b) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

SEC. 5. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942 as amended.

SEC. 6. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of any one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 7. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment of any provisions of this regulation may do so in accordance with the provisions of Revised Procedural Regulation No. 1.[1] Issued by the Office of Price Administration.

SEC. 8. *Definitions.* When used in this regulation, the terms:

(a) "Person" includes an individual, corporation, partnership, association or other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of any of the foregoing.

(b) "Fertilizer manufacturer" means a person who produces, mixes or processes mixed fertilizer or who markets mixed fertilizer or fertilizer raw materials for his own account and who purchases fertilizer raw materials from a producer, importer or jobber for resale to consumers or to dealers either as straight materials or as ingredients in mixed fertilizers.

(c) "Ton" means 2,000 pounds.

(d) "Unit" means 1% of a ton or 20 pounds.

(e) "Transportation cost" means the cost of transportation actually incurred by a person except that for movement other than by for-hire carrier the transportation cost shall be the reasonable value of the service, not exceeding any maximum price established therefor.

ARTICLE II—MAXIMUM PRICES OF CHEMICAL NITROGENOUS FERTILIZER MATERIALS

SEC. 9. *Sulphate of ammonia. (Minimum nitrogen content 20.5%)*—(a) *Washington, Oregon, California and Arizona.* The maximum price that may be charged for sulphate of ammonia delivered to any destination in Washington, Oregon, California and Arizona shall be $36.50 per ton in bulk and $38.00 per ton in bags: *Provided,* That on any shipment from a California production point to such destination where the freight charges exceed $4.53 per ton such excess freight charges may be for the account of the buyer, and *Provided further,* That on any shipments from a Utah production point where the freight charges exceed $7.21 per ton, such excess freight charges may be for the account of the buyer.

(b) *Colorado, Idaho, Montana, Nevada, New Mexico, Utah and Wyoming.* The maximum price that may be charged for sulphate of ammonia in bags shall be: $41.00 per ton delivered to any des-

[1] 7 F.R. 8961, 8 F.R. 3313, 3533, 6173, 11806, 9 F.R. 1594, 3075.

tination in Colorado; $42.60 per ton delivered to any destination in New Mexico; and, for deliveries to any destination in Idaho, Montana, Nevada, Utah and Wyoming, $31.50 per ton in carload quantities of 40 tons or more, $34.10 per ton in quantities of 15 tons or more but less than 40 tons and $41.60 per ton in quantities of less than 15 tons. In the case of deliveries of material in bulk, the above maximum prices shall be reduced by $2.50 per ton.

(c) *Illinois, Indiana, Kentucky, Michigan, Ohio, Wisconsin and the Ohio River section of West Virginia.* The maximum price that may be charged for sulphate of ammonia, in bulk, delivered to any destination in Illinois, Indiana, Kentucky, Michigan, Ohio, Wisconsin and the Ohio River section of West Virginia shall be $29.20 per ton but not in excess of $28.20 per ton plus the lowest carload rail freight rate per ton on the commodity to such destination from the inland oven which has the lowest carload rail freight rate to such destination.

For bagged sales there may be added to the above maximum prices $1.00 per ton plus a sum not in excess of the established maximum price, at the time of the sale, for the bags containing the ton.

(d) *All other states.* The maximum price that may be charged for sulphate of ammonia, in bulk, delivered to any destination in all other states than those set forth under (a), (b) and (c) above, shall be the lower of the following prices:

(1) $28.20 per ton plus the lowest carload rail freight rate per ton on the commodity to such destination from the inland oven which has the lowest carload rail freight rate to such destination.

(2) $29.20 per ton at port plus the lowest carload rail freight rate per ton on the commodity to such destination from the port which has the lowest carload rail freight rate to such destination.

For bagged sales there may be added to the above maximum prices $1.00 per ton plus a sum not in excess of the established maximum price, at the time of the sale, for the bags containing the ton.

(e) "Inland oven" means the following:

Alabama:
Alabama City.
Fairfield.
North Birmingham.
Tarrant.
Thomas.
Woodward.
Illinois:
Granite City.
Chicago.
Joliet.
Rockford.
South Chicago.
Waukegan.

(f) If sulphate of ammonia is shipped from the producer's plant or, in the case of imports, from the point of discharge, to a warehouse situated at a point other than the point of production or discharge, is handled through a warehouse, and reshipped from the warehouse in bags, there may be added to the maximum bagged price the sum of $.50 per ton. The point of discharge is the port at which the imported sulphate of ammonia is unloaded from a vessel, or, in the case of rail shipments of imported sulphate of ammonia, the place at which such shipment is first unloaded.

SEC. 10. *Nitrate of soda (minimum nitrogen content, 16.0%.)*—(a) *Domestic.* The maximum price that may be charged for domestically produced nitrate of soda shall be $27.00 per ton in bulk, $30.05 per ton in 100-pound bags, or $29.35 per ton in 167 or 200-pound bags f. o. b. production point, provided that if and when this material is stored at Atlantic and Gulf nitrate ports by the seller, the maximum delivered price at any destination that may be charged shall be $1.00 per ton higher than the above prices, plus the lowest carload rail freight rate per ton on the material to such destination from the Atlantic or Gulf nitrate port which has the lowest carload rail freight rate to such destination. For nitrate of soda containing less than 16 units of nitrogen, the above maximum price shall be reduced at the rate of $2.00 per unit.

(b) *Imported.* The maximum delivered price at any destination that may be charged for imported nitrate of soda shall be $30.00 per ton in bulk, $33.00 per ton in 100-pound bags, or $32.40 in 167 or 200-pound bags, plus the lowest carload rail freight rate per ton on the material to such destination from the nitrate port which has the lowest carload rail freight rate to such destination.

For the purpose of this and the following section, "nitrate port" shall mean any one of the following:

Searsport, Maine
Boston, Massachusetts
New York, New York
Camden, New Jersey
Baltimore, Maryland.
Norfolk, Virginia
Wilmington, North Carolina
Charleston, South Carolina
Savannah, Georgia
Jacksonville, Florida
Tampa, Florida
Panama City, Florida
Pensacola, Florida
Gulfport, Mississippi
New Orleans, Louisiana
Lake Charles, Louisiana
Los Angeles, California
San Francisco, California
Portland, Oregon
Tacoma, Washington
Seattle, Washington
DuPont, Washington

SEC. 11. *Nitrate of soda-potash (minimum nitrogen content 14%).* The maximum delivered price at any destination that may be charged for nitrate of soda-potash (potash-nitrate) shall be $38.00 per ton, in bulk, $41.00 per ton in 100-pound bags, or $40.40 per ton in 167 or 200-pound bags, plus the lowest carload rail freight rate per ton on the material to such destination from the nitrate port which has the lowest carload rail freight rate to such destination.

SEC. 12. *Calcium cyanamide* — (a) *Granular (minimum nitrogen content, 20.6%).* The maximum price that may be charged for granular calcium cyanamide shall be $37.25 per ton in 100-pound bags or $1.62½ per unit of nitrogen, in bulk, f. o. b. Niagara Falls, Ontario, Canada.

(b) *Pulverized (minimum nitrogen content, 21%).* The maximum price that may be charged for pulverized calcium cyanamide shall be $37.25 per ton in 100-pound bags or $1.52½ per unit of nitrogen, in bulk, f. o. b. Niagara Falls, Ontario, Canada.

SEC. 13. *Urea compound (minimum nitrogen content, 42%).* (a) At destinations in states other than Washington, Oregon, California and Arizona, the maximum delivered price that may be charged for urea compound ("Uramon") shall be $57.40 per ton in bulk or $59.40 per ton in 100-pound bags, plus the lowest carload rail freight rate per ton on the commodity to such destination from Belle, West Virginia, or the Atlantic or Gulf port which has the lowest carload rail freight rate to such destination. In case such freight rate per ton from a port to a destination for urea compound exceeds the freight rate on sulphate of ammonia from the same port to the same destination, such lower sulphate of ammonia rate shall be used.

(b) At destinations located in Washington, Oregon, California, and Arizona the maximum delivered price shall be $71.00 per ton in bulk or $73.00 per ton in 100-pound bags.

SEC. 14. *Ammonium nitrate-lime compound (minimum nitrogen content, 20.5%).* The maximum price that may be charged for ammonium nitrate-lime compound ("Cal-Nitro" or "A-N-L Brand") shall be $29.00 per ton in bulk and $32.50 per ton in bags, f. o. b. Hopewell, Virginia.

SEC. 15. *Nitrogen solutions and urea-ammonia liquors.* The maximum price that may be charged for nitrogen solutions or urea-ammonia liquors shall be:

(a) $127.00 per ton of nitrogen contained in "UAL–37" and

$121.58 per ton of nitrogen contained in other nitrogen solutions or urea-ammonia liquors, in seller's tank cars, f. o. b. Belle, West Virginia, or the following ports:

Searsport, Me.
Boston, Mass.
New Haven, Conn.
Port of N. Y.
Philadelphia, Pa.
Carteret, N. J.
Camden, N. J.
Paulsboro, N. J.
Wilmington, Del.
Baltimore, Md.
Norfolk, Va.
Hopewell, Va.
Wilmington, N. C.
Charleston, S. C.
Savannah, Ga.
Jacksonville, Fla.
Tampa, Fla.
Pensacola, Fla.
Panama City, Fla.
Mobile, Ala.
Gulfport, Miss.
New Orleans, La.
Lake Charles, La.

(b) At any other destination, to the prices set forth in (a) above, there may be added that one of the following which gives the lowest delivered cost per ton of nitrogen:

(1) The lowest carload rail freight rate per ton on the urea-ammonia liquor (fertilizer ammoniating solutions) or nitrogen solution to such destination from Belle, West Virginia, or that one of the above ports which has the lowest carload rail freight to such destination, or

(2) The lowest carload rail freight rate per ton on anhydrous ammonia to such destination from Belle, West Virginia, or that one of the above ports which has the lowest carload rail freight rate to such destination.

SEC. 16. *Ammoniacal liquors.* The maximum delivered price at any destination that may be charged for ammoniacal liquor shall be:

(a) $75.00 per ton of ammonia contained in such liquor, in seller's tank cars, f. o. b. producer's plant at Indiana Harbor, Indiana; South Chicago, Illinois; or Detroit, Michigan, plus the lowest carload rail freight rate per ton on the commodity to such destination from that one of the above points which has the lowest carload rail freight rate to such destination.

(b) $80.00 per ton of ammonia contained in such liquor, in seller's tank cars, f. o. b. producer's plant at Ashland, Kentucky; Ironton, Ohio; Portsmouth, Ohio; Belle, West Virginia; Hopewell, Virginia; or Niagara Falls, New York, plus the lowest carload rail freight rate per ton on the commodity to such destination from that one of the above points which has the lowest carload rail freight rate to such destination.

(c) $80.00 per ton of ammonia contained in such liquor, in seller's tank cars, f. o. b. producer's plant at Milwaukee, Wisconsin, plus the lowest carload rail freight rate per ton on the commodity to such destination from that one of the following points: Milwaukee, Wisconsin; Detroit, Michigan; or Chicago, Illinois, which has the lowest carload rail freight rate to such destination.

(d) $80.00 per ton of ammonia contained in such liquor, in seller's tank cars, f. o. b. producer's plant at Baton Rouge, Louisiana; Ensley, Alabama; or Bethlehem, Pennsylvania.

SEC. 17. *Anhydrous ammonia.* The maximum price that may be charged for anhydrous ammonia (commercial grade) shall be:

(a) $90.00 per ton, in seller's tank cars, f. o. b. California production points.

(b) $50.00 per ton, in seller's tank cars, f. o. b. producer's plant at Belle, West Virginia; Niagara Falls, New York; Hopewell, Virginia; or Wyandotte, Michigan, plus the lowest carload rail freight rate per ton on the commodity to such destination from that one of the above points which has the lowest carload rail freight rate to such destination.

ARTICLE III—MAXIMUM PRICES OF ORGANIC NITROGENOUS FERTILIZER MATERIALS

SEC. 18. *Process tankage in bulk.* The maximum price that may be charged for process tankage, in bulk, f. o. b. plant at point of production, shall be:

Production point:	*Price per unit of ammonia*
Norfolk, Va	$3.50
Carrollville, Wis	3.20
Endicott, N. Y	3.20
Carteret, N. J	3.15
Chemical, Ill	3.15

SEC. 19. *Dried activated sewage sludge, in bulk.* The maximum price that may be charged for dried activated sewage sludge, in bulk, f. o. b. plant at point of production, shall be:

Production point:	*Price per unit of ammonia*
Milwaukee, Wis	$3.00
Chicago, Ill	2.80
Houston, Tex	2.60

In addition to the above, seller may make a charge of $.40 per unit of available phosphoric acid.

SEC. 20. *Castor pomace and unground castor cake, in bags.* The maximum price, f. o. b. point of production, that may be charged for castor pomace in bags, shall be $2.90 per unit of ammonia and for unground castor cake in bags shall be $15.50 per ton.

ARTICLE IV—MAXIMUM PRICES OF SUPERPHOSPHATE

SEC. 21. *Ordinary superphosphate, in bulk.* The maximum price that may be charged for ordinary superphosphate (containing less than 22% available phosphoric acid) for sale in bulk shall be:

(a) *Pulverized superphosphate.* (1) For sales of run-of-pile, f. o. b. cars at each producing point, the price specified for that point as listed below:

Point of production:	*Maximum price per unit of available phosphoric acid*
Little Rock, Ark	$0.71
Texarkana, Ark	.71

Any person selling for delivery outside an area for which his producing point is listed as a price basing point, or selling to a buyer who does not specify a point of destination at the time of the sale, may charge a price, f. o. b. cars at producing point, no higher than the basing point price specified for that producing point.

(3) For sales of superphosphate guaranteed to contain 18%, 19%, or 20% available phosphoric acid, with no charge for over-run, the maximum price as established under (1) or (2), plus 30¢ per ton.

(b) *Granulated superphosphate.* The maximum price, as established under (1), (2) or (3) above, plus 2¢ per unit of available phosphoric acid.

SEC. 22. *Triple superphosphate in bulk*—(a) *Pulverized.* The maximum price that may be charged for triple superphosphate (containing 40% or more available phosphoric acid) for sale in bulk shall be:

(1) For material produced in Montana, 88½¢ per unit of available phosphoric acid delivered, except that actual freight in excess of $7.62 per ton may be charged to the account of the buyer.

(2) For material produced at other production points prices, per unit of available phosphoric acid, f. o. b. point of production, as follows:

(i) Tennessee	$0.75
(ii) South Carolina	.70
(iii) Florida	.63

(3) For material produced at production points not covered in (1) or (2) above, 63¢ per unit of available phosphoric acid plus the cost, per unit, of transportation at the lowest carload rail freight rate on 48% superphosphate from East Tampa, Florida, to the production point, f. o. b. point of production.

(b) *Granulated.* The maximum price is that established under (1), (2) or (3) above, plus $1.00 per ton, except that this $1.00 may not be added on for sales in bags to Government departments and agencies.

SEC. 23. *Double superphosphate in bulk.* The maximum price per ton which may be charged f. o. b. railroad cars at point of production, for double superphosphate (containing 22% or more but less than 40% available phosphoric acid) for sale in bulk, shall be:

(a) The product of 20 units of available phosphoric acid times the price per unit for a guaranteed grade of ordinary superphosphate, f. o. b. cars at producing points, as established in section 21 (a), plus

(b) The product of the number of units contained therein in excess of 20 units times the applicable maximum price per unit for triple superphosphate, f. o. b. cars at the producing point, as established in section 22 (a). If the producer of such double superphosphate is not a producer of triple superphosphate, his applicable maximum price, for calculations required in this paragraph, shall be his actual delivered cost of triple superphosphate, or if none was purchased, the maximum price as established in section 22 (a) (3).

SEC. 24. *Sales of superphosphate in bags.* The maximum price that may be charged for superphosphate for sales in bags shall be the applicable maximum price for bulk sales as determined under section 21, 22 or 23 above, plus $1.50 per ton and plus a sum not in excess of the established maximum price, at the time of the sale, for the bags containing the ton.

SEC. 25. *Sales of superphosphate to Government departments and agencies.* The maximum price that may be charged for sales of superphosphate to any agency of the United States Government shall be the applicable maximum price as established under sections 21, 22, 23 or 24 plus, in the case of such sales of triple superphosphate in bags, $1.00 per ton in addition to the $1.50 per ton for bagging under Section 24 above.

SEC. 26. *Resale of double or triple superphosphate.* The maximum price which one fertilizer manufacturer or mixer may charge another fertilizer manufacturer or mixer for the sale of double or triple superphosphate not produced by the seller shall be the applicable maximum price as established under sections 22, 23, or 24 above, plus $3.00 per ton and any transportation cost from producing point to point of delivery paid by seller.

ARTICLE V—MAXIMUM PRICES FOR POTASH

SEC. 27. *Muriate of Potash, in bulk, spot sales*—(a) *For the 60% grade.* The maximum price that may be charged for spot sales of domestic 60% muriate of potash, in bulk, shall be, at the option of the buyer:

(1) $.535 per unit of K_2O, basis ex-vessel the potash port which has the lowest carload rail freight rate on potash to destination, plus the customary delivery charges from the end of ship's tackle to destination; or

(2) $.455 per unit of K_2O, f. o. b. cars at Trona, California; or

(3) $.423 per unit of K_2O, f. o. b. cars at seller's plant near Carlsbad, New Mexico.

(b) *For the 50% grade.* The maximum price that may be charged for spot sales of domestic 50% muriate of potash, in bulk, shall be, at the option of the buyer:

(1) $.56 per unit of K_2O, basis ex-vessel the potash port which has the lowest carload rail freight rate on potash to destination, plus the customary delivery charges from the end of ship's tackle to destination; or

(2) $.48 per unit of K_2O, f. o. b. cars at Trona, California; or

(3) $.448 per unit of K_2O, f. o. b. cars at seller's plant near Carlsbad, New Mexico.

SEC. 28. *Manure salts, in bulk, spot sales.* The maximum price that may be charged for spot sales of domestic manure salts, in bulk, shall be $.20 per unit of K_2O, f. o. b. cars at seller's plant near Carlsbad, New Mexico.

SEC. 29. *Sulphate of potash (basis 90% K_2SO_4), in bulk, spot sales.* The maximum price that may be charged for spot sales of domestic sulphate of potash (basis 90% K_2SO_4), in bulk, shall be $36.25 per ton basis ex-vessel the potash port which has the lowest carload rail freight rate on potash to destination, plus the customary delivery charges from the end of ship's tackle to the buyer's destination.

SEC. 30. *Sulphate of potash magnesia (basis 40% K_2SO_4 and 18.5% MgO), in bulk, spot sales.* The maximum price that may be charged for spot sales of domestic sulphate of potash magnesia (basis 40% K_2SO_4 and 18.5% MgO), in bulk, shall be $26.00 per ton basis ex-vessel the potash port which has the lowest carload rail freight rate on potash to destination, plus customary delivery charges from the end of ship's tackle to buyer's destination.

SEC. 31. *Contract sales of potash.* The maximum price at which contract sales of domestic potash, in bulk, may be made are:

(a) *Contracts executed prior to July 1.* Where a buyer contracts, prior to the first day of July, for the purchase of potash for delivery in approximately equal monthly quantities during the period from June 1 to the 31st day of March next succeeding, the buyer, and any person to whom the War Production Board allocates the whole or any part of the potash subject to such contract, may buy:

(1) On ex-vessel sales, at the spot prices set forth under sections 27 (a) (1) and (b) (1), 29 and 30 above, at a discount of 8% where the potash contracted for is accepted in approximately equal monthly quantities between June 1 and the 31st day of March next succeeding, and in addition, at a 4% discount when the full delivery contracted for, or delivery to the extent permitted under the War Production Board allocation, has been accepted.

(2) On f. o. b. cars sales, muriate of potash and manure salts at the spot prices set forth under sections 27 (a) (1) and (b) (1) and 28 above, at the discounts and under the conditions set forth under the paragraph (1) above, except that muriate of potash shall be subject to a further deduction of 8¢ per unit of K_2O in the case of sales f. o. b. cars at Trona, California, and a deduction of 11.2¢ per unit of K_2O in the case of sales f. o. b. cars at seller's plant near Carlsbad, New Mexico.

(b) *Contracts executed between July 1 and October 1.* Where a buyer contracts, on and after the first day of July and prior to October 1 of the same year, for the purchase of potash for delivery in approximately equal monthly quantities during the period from October 1 to the 31st day of March next succeeding, the buyer, and any person to whom the War Production Board allocates the whole or any part of the potash subject to such contract, may buy:

(1) On ex-vessel sales, at the spot sales prices as set forth under sections 27 (a) (1) and (b) (1), 29 and 30 above, at a discount of 4% where the potash contracted for is accepted in approximately equal monthly quantities between October 1 and the 31st day of March next succeeding, and in addition, at a 2% discount when the full delivery contracted for, or delivery to the extent permitted under War Production Board allocation, has been accepted.

(2) On f. o. b. cars sales, muriate of potash and manure salts at the spot prices set forth under sections 27 (a) (1) and (b) (1) and 28 above at the discounts and under the conditions set forth under the paragraph (b) (1) above, except the muriate of potash shall be subject to a further deduction of 8¢ per unit of K_2O in the case of sales f. o. b. cars at Trona, California, and a deduction of 11.2¢ per unit of K_2O in the case of sales f. o. b. cars at seller's plant near Carlsbad, New Mexico.

SEC. 32. *Sales of potash in bags.* For sales of potash in bags there may be added to the applicable bulk prices above set forth $1.50 per ton plus a sum not in excess of the established maximum price, at the time of the sale, of the bags containing the ton.

SEC. 33. *Sales of imported potash.* The maximum prices at which potash originating outside of and imported into continental United States, may be sold and delivered, within the United States and any of its territories and possessions, are:

(a) *April and May deliveries.* For deliveries made during the months of April and May, the maximum spot prices set forth in sections 27, 28, 29 and 30 above;

(b) *October through March deliveries.* For deliveries made during the months beginning October 1 and ending March 31 next succeeding, the maximum spot prices set forth in sections 27, 28, 29 and 30 above less a discount of 6%.

(c) *June through September deliveries.* For deliveries made during the months beginning June 1 and ending September 30 next succeeding the maximum spot prices set forth in sections 27, 28, 29 and 30 less a discount of 12%.

SEC. 34. *Sales of potash by one fertilizer manufacturer to another.* The maximum prices at which a fertilizer manufacturer may sell his potash to another fertilizer manufacturer shall be no more than the applicable maximum spot price hereinbefore established, plus an amount equal to the actual transportation costs, if any, incurred and paid by the fertilizer manufacturer making the sale.

SEC. 35. *Freight adjustments; potash ports.* (a) On sales of 60% muriate of potash, transportation costs payable by the buyer shall be equalized or adjusted so that his actual transportation cost per unit of K_2O will be no greater than such cost would have been had the muriate of potash contained 62.5% K_2O.

(b) "Potash port" means any of the following:

Searsport, Maine.
Boston, Mass.
New York, N. Y.
Carteret, N. J.
Philadelphia, Pa.

PART 1314—RAW MATERIALS FOR SHOES AND LEATHER PRODUCTS

[RPS 9,[1] Amdt. 10]

HIDES, KIPS AND CALFSKINS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Price Schedule No. 9 is amended in the following respects:

1. Section 1314.4 is amended to read as follows:

§ 1314.4 *Commissions.* In the event that a seller of hides, kips or calfskins shall employ a broker to sell hides, kips or calfskins on his behalf, or in the event that a buyer shall employ a broker to buy, receive and ship hides, kips or calfskins on his behalf, a brokerage commission of not more than 3% of the purchase price may be charged for such services and added to the applicable maximum price established hereunder. A commission may not be charged to both buyer and seller. A commission shall be payable only if (a) it is shown as a separate charge in billing; (b) the hides, kips or calfskins are purchased or sold at a price no higher than the applicable maximum price; and (c) no broker splits or divides the commission with the buyer or with the seller, or with an agent or employee of the buyer or the seller.

In no case may any person charge or receive such a commission or fee on hides, kips or calfskins sold for his own account even though such person may have performed the receiving service or any other service for the buyer, and in no case may any person charge or receive, pay or offer to pay such a commission or fee on hides, kips or calfskins purchased or sold in the green or partially cured state or on hides, kips or calfskins (except slunks) purchased or sold in lots of less than 20,000 pounds of hides or 5,000 pounds of skins.

2. Section 1314.5a is revoked.

3. Section 1314.6a is revoked.

4. Section 1314.7 is amended to read as follows:

§ 1314.7 *Reports.* (a) On and after July 24, 1942, every tanner, or agent acting on behalf of a tanner, and every person making sales of hides or skins to a tanner shall submit to the Office of Price Administration, Washington, D. C., a copy of each invoice or similar document delivered in connection with a purchase or a sale of hides or skins. Such invoice or document shall be transmitted by mail to the Office of Price Administration contemporaneously with its transmission to the buyer or seller, as the case may be, and shall contain all relevant details of the transaction, including (1) the quantity and price of each type, classification and grade of hides or skins sold and (2) the tare and other allowances given or received.

*Copies may be obtained from the Office of Price Administration.

[1] 7 F.R. 1227, 2000, 2132, 5706, 8948; 8 F.R. 2997, 11676, 12312, 13513, 15259, 16279; 9 F.R. 1325.

(b) In the event that the hides or skins actually received by the tanner, or by the agent acting on his behalf, differ in any material respect from the description thereof contained in the invoice or similar document delivered in connection with the purchase, the tanner or such agent shall transmit to the Office of Price Administration on the same day the inspection of the hides or skins is made, a statement identifying the seller and the shipment and setting forth such difference.

5. Section 1314.8a is amended to read as follows:

§ 1314.8a *Licensing.* The provisions of Licensing Order No. 1,[2] licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation or schedule. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

6. Section 1314.10 (j) is amended to read as follows:

(j) The term "shipping point" means the point from which the hides are shipped to the purchaser and shall include the point from which the seller, who has consolidated hides or skins into carload lots, ships them to the purchaser.

7. Section 1314.11 is amended to read as follows:

§ 1314.11 *Appendix A: Maximum prices for domestic hides*—(a) *Packer classifications*—(1) *Packer classifications sold on a selected basis.*[3]

Branded bulls (all weights)	.11	.10

[1] Optional with the seller.
[2] Or divided into 53 or 55 pounds and up and under 53 or 55 pounds.

Packer classifications of hides which fail to meet established standards of trim, tare allowance or delivery shall be sold at a price at least 1¢ per pound less than the applicable maximum price set forth in paragraph (a) (1) of this section.

(2) *Packer classifications sold on an unselected basis.* The maximum prices for packer classifications of hides sold on an unselected basis, i. e., flat for No. 1's and No. 2's shall be the applicable maximum prices for No. 2's set forth in paragraph (a) (1) of this section.

(b) *Other than packer classifications.*[4]

[Price per pound, f. o. b. shipping point]

	Trimmed	Untrimmed [1]
Free of brand steers and cows including free of brand bulls up to 58 pounds	$0.15	$0.14
Branded steers and cows, including branded bulls up to 58 pounds	.14	.13
Free of brand bulls	.11½	.10½
Branded bulls	.10½	.09½

[1] The term "untrimmed" as applied to hides, means hides without the standard head and tail trim prevailing on hides of packer classifications, in which the ears, ear butt fat and gristles, ox-lip, snouts and lower lips are trimmed off in the green stale before salting and in which the tails are cut off to not more than eight inches in length.

Tare allowance. A tare allowance of not less than 2% shall be allowed on all sales of hides other than packer classifications.

(c) *Pacific coast hides.*

[Price per pound, f. o. b. shipping point]

	Trimmed	Untrimmed [1]
Native and branded steers and cows (flat for No. 1's and No. 2's)	$0.13½	$0.12½
Native and branded bulls (flat for No. 1's and No. 2's	.10	.09

[1] Supra, note 1.

Tare allowance. A tare allowance of not less than two pounds tare per hide shall be allowed on all sales of Pacific Coast hides.

(d) *Hides or skins in mixed lots.* When hides or skins are sold in lots containing more than one type or grade of hides, kips or calfskins for which maximum prices are established by Price Schedule No. 9, unless the quantity of each such type or grade is determined by actual inspection and separately priced at not exceeding the applicable maximum, the maximum price for the lot shall be the maximum price for that type or grade of hide or skin included in the lot which has the lowest established maximum price.

(e) *Green or partially cured hides.* The maximum prices for green or partially cured hides shall be the maximum prices set forth above: *Provided,* That the maximum prices for green or partially cured hides sold to tanners, or for their account, or to persons who have hides tanned on contract (i. e., others than dealers buying and selling untrimmed hides for their own account) shall be the maximum prices set forth above reduced by 20%.

(f) *Sales of bull hides at retail.* The maximum price for retail sales of bull hides shall be the applicable maximum price set forth in Appendix A hereof plus two cents per pound. The term "retail sales" means sales through a regularly maintained retail establishment to the ultimate consumer: *Provided,* That no tanner or other processor of hides and no purchaser of hides for resale shall be deemed to be an ultimate consumer.

8. Section 1314.12 is amended to read as follows:

New York collector (17 lb. or more)	4.35

Calf and kipskins of the classifications set forth above which fail to meet established standards of trim, tare allowance or delivery for the type or grade sold, shall be sold at a price at least 2¢ per pound, or, when sold on a per skin basis, at least 20¢ per skin, less than the applicable maximum price set forth above.

Maximum prices for No. 2's. The maximum price for No. 2 calf and kipskins of the classifications set forth above shall not exceed the maximum price for each such classification reduced by a discount of 10%.

Maximum prices for skins not New York City trimmed. The maximum prices for calf and kipskins, other than Pacific Coast skins, which are not New York City trimmed, shall be the maximum prices established by Price Schedule No. 9 for packer calf and kipskins, Chicago City calf and kipskins or country calf and kipskins, whichever are applicable.

Maximum prices for skins sold on an unselected basis. The maximum prices for calfskins of the classifications set forth above sold on an unselected basis, i. e., flat for No. 1's and No. 2's, shall be the applicable maximum prices for No. 2's.

The maximum prices for kipskins of the classifications set forth above sold on an unselected basis, i. e., flat for No. 1's and No. 2's, shall be the applicable maximum prices for each such classification less 1¢ per pound.

When the quantity of No. 2's in any lot of skins sold is not determined by actual inspection or is based upon the buyer's or the seller's estimate thereof, the maximum price for the lot shall be the maximum price established by Price Schedule No. 9 for skins sold on an unselected basis.

(b) *Country calf and kipskins.*

*Including both wild and cultivated blackberries and dewberries.

[1] Zone I consists of the states of North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas and all states east thereof.

Zone II consists of the states of Montana, Wyoming, Colorado, Idaho, New Mexico, Arizona, Nevada, Utah, California, Oregon (counties of Wasco, Jefferson, Deschutes, Douglas, Coos, Curry and all counties east thereof) and Washington (counties of Okanogan, Chelan, Kittitas, Yakima, Klickitat and all counties east thereof.

Zone III consists of all other counties of Oregon and Washington.

[2] The per pound price applies to berries in all containers other than pints and quarts.

[3] In figuring a price under Column 6, or for sales made while the goods are in transit, the Column 5 price to be used is the price for the zone in which the berries were produced, in effect at the time of shipment from the country shipping point.

[4] The prices figured under Columns 6 and 7 are maximum prices for each lot or shipment of berries received and sold by the particular seller. For the sellers covered by column 7, see general provisions of this appendix.

2. In the table in paragraph (c), item 8 in Column 2 is amended to read as follows:

Strawberries, blackberries, dewberries, red and black raspberries.

This amendment shall become effective July 3, 1944.

Issued this 29th day of June 1944.

JAMES G. ROGERS, Jr.,
Acting Administrator.

Approved June 24, 1944.

MILEAGE RATIONING: TIRE REGULATIONS FOR PUERTO RICO

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 1B is amended in the following respects:

1. Section 1.3 (a) (5) is amended by deleting the phrase "tire, tube, recapping service or camelback" and inserting in lieu thereof the phrase "tire or tube."

2. Sections 1.3 (a) (18), 1.3 (a) (24), 1.3 (a) (31), 2.1 (a) (1) (i), 2.4 (b) (4), 2.4 (c), 2.7 (b), 2.16 (b) (1), 2.29 (c), 2.31 (d) (3), 2.31 (d) (4), 2.33 (j) (1), 2.33 (k), 3.2 (c), 3.3 (a) (4) and 3.5 are hereby revoked.

3. Section 1.3 (a) (28) is amended by deleting the phrase "solid or" after the phrase "means any".

4. Sections 1.6 (a), 2.0 (a), 2.9 (b) and 2.15 (a) are amended by deleting the phrase "tires, tubes, recapping service or camelback" wherever it appears and inserting in lieu thereof, in each instance, the phrase "tires or tubes".

5. Sections 1.6 (b), 2.3 (a), 2.8 (a), 2.9 (d), 2.10 (a), 2.17 (c) and 2.31 (f) are amended by deleting the phrase "tires, tubes or recapping service" wherever it appears and inserting in lieu thereof, in each instance the phrase "tires or tubes".

6. Sections 2.1 (a), 2.2 (a), 2.2 (c), 2.3 (a), and 2.5 are amended by deleting the phrase "tire, tube or recapping service" wherever it appears, and inserting in lieu thereof, in each instance, the phrase "tire or tube".

7. Section 2.1 (a) (2) is amended by inserting a period after the word "replace" and deleting the phrase "or recap".

8. Section 2.1 (a) (2) (ii) is amended by deleting the phrase "make timely application for" and inserting in lieu thereof the phrase "obtain timely".

9. Section 2.1 (a) (3) is amended by deleting the phrase "or recap" after the phrase "to replace".

10. Section 2.1 (a) (5) is amended by inserting a period after the word "replace" and deleting the phrase "or tire sought to be recapped".

11. The table in section 2.2 (c) is amended to read as follows:

[1] 8 F.R. 9551, 12695, 14153; 9 F.R. 219, 1318, 1945, 3849, 6629.

Type of ration	Adjusted weekly mileage	Eligible for tires	Eligible for tubes
Basic "A" only	12 miles a week	None	New or used at applicant's option.
Supplemental "B" occupational.	Less than 48 miles a week.	Grade III tire if applicant does not have a recappable carcass.	New or used at applicant's option.
Supplemental "B" occupational, or "C" preferred.	48 miles or more a week.	At applicant's option a Grade III or a Grade I tire if he does not have a recappable carcass.	New or used at applicant's option.
Fleet passenger and bulk rations.	Adjusted mileage	According to adjusted mileage for each vehicle.	New or used at applicant's option.

12. Section 2.2 (d) (1) is amended by inserting a period after the word "office" and deleting the phrase "or if the Director finds that the recapping facilities are unavailable or inadequate".

13. Section 2.4 (b) is amended by deleting the phrase "or for recapping service" after the phrase "for a used tire".

14. Section 2.4 (b) (1) is amended by deleting the phrase "recapping service" after the phrase "paragraph for".

15. Section 2.8 (b) is amended to read as follows:

(b) *Issuance of certificates by the Director.* Upon letter of application from any dealer or distributor in Puerto Rico, accompanied by Parts B, the Director may issue Exchange Certificates for tires or tubes to dealers and distributors in exchange for the Parts B surrendered. The Exchange Certificate shall be prepared on Form OPA-R-2 (Revised), and shall authorize replenishment of the same number of units of passenger-type tires, passenger-type tubes, truck-type tires and truck-type tubes as are included in the Parts B surrendered for exchange. The types of tires on the Exchange Certificates shall be computed in accordance with the table in section 2.31 (c). The parts "B" surrendered by the dealers and distributors shall thereupon be destroyed.

16. Section 2.11 (a) is amended by deleting the phrase "or recapped" after the phrase "to be replaced".

17. Section 2.13 is amended by deleting the phrase "or the type of recapping service or camelback" after the phrase "tires or tubes".

18. Section 2.14 (a) (1) is amended to read as follows:

(1) *For tires and tubes.* OPA Form R-2 (Revised) authorizing an applicant to acquire tires or tubes. Separate certificates shall be issued for tires and for tubes.

19. Section 2.16 (a) (1) (i) is amended by deleting the phrase "he is having his tires recapped or if" after the word "when".

20. Section 2.16 (a) (2) is amended by deleting the phrase "or the amount and type of recapping service" after the word "tubes".

21. Section 2.17 (b) is amended by inserting a period after the word "recapper" and deleting the phrase "in accordance with section 2.33 (j) (2)."

22. Sections 2.18 (b), 2.31 (a), 2.31 (b), 2.31 (c) (3) (i), 2.31 (c) (3) (ii), 2.31 (e), 2.32 (a), 2.32 (a) (5), 2.32 (b), 2.33 (a), 2.33 (b), 2.33 (c), 2.33 (f), 2.33 (g), 2.33 (l), 2.33 (m), 2.33 (n), 2.34 (a), 2.35 (e), 3.2 (a), 3.2 (a) (3), 3.3 (a) and 3.6 (a) are amended by deleting the phrase "tires, tubes or camelback" wherever it appears, and inserting in lieu thereof, in each instance, the phrase "tires or tubes".

23. Section 2.18 (c) is amended by deleting the phrase "or type of recapping service or camelback" after the word "tubes".

24. Section 2.19 is amended to read as follows:

SEC. 2.19 *Splitting of certificates.* A holder of a certificate or part of a certificate who is unable to acquire from one supplier all the tires or tubes which he has been authorized to acquire may return the certificate to the issuing Board and the Board shall thereupon cancel the returned certificate and issue as many certificates as are necessary to permit the acquisition of such tires or tubes from several suppliers. In the event that a certificate or part of a certificate is issued by a Board in the Virgin Islands of the United States, it may be surrendered by the holder to the Director in San Juan, Puerto Rico, who may issue as many certificates as are necessary.

25. Sections 2.28 (a) (1), 2.28 (a) (2), 2.32 (a) (1), 2.32 (a) (2), 2.32 (a) (3) and 2.32 (a) (4) are amended by deleting the phrase "tire, tube or camelback" wherever it appears and inserting in lieu thereof, in each instance, the phrase "tire or tube".

26. Sections 2.29 (a) (1) and 2.29 (a) (2) are amended by deleting the phrase "or recapped" wherever it appears.

27. Section 2.31 (c) (2) is amended by deleting the phrase "or 8½ lbs. of passenger type camelback" wherever it appears.

28. Section 2.31 (d) is amended to read as follows:

(d) *Camelback for recapping.* No recapper shall apply camelback to the tread surface of a carcass if the carcass will not be serviceable as a recapped tire.

29. Section 2.33 (i) is amended by inserting a period after the word "recapper" and deleting the phrase "in accordance with paragraph (j) (2) of this section".

30. Section 2.33 (j) (2) is amended to read as follows:

(2) If a dealer transfers a recappable tire to a recapper such recapper may transfer to such dealer a Grade III tire in exchange thereof.

31. Section 2.33 (q) is amended by deleting the word "camelback" and the last sentence.

32. Section 2.35 (f) is amended to read as follows:

(f) *Abuse of tires.* No person shall, without lawful authority abuse, alter, damage or neglect any tire or tube in his possession or control. Failure to obtain timely recapping or make timely application for replacement shall constitute a form of abuse, within the meaning of this paragraph.

33. Section 2.35 (m) is amended by deleting the phrase "tire, tube, camelback or recapping" and inserting in lieu thereof, the phrase "tire or tube".

34. Section 3.3 (a) (2) is amended by inserting a period after the word "thereof" and deleting the phrase "and the type of camelback used in recapping the tires".

35. Section 3.13 is amended by deleting the word "camelback".

This amendment shall become effective July 1, 1944.

Issued this 1st day of July 1944.

JORGE L. CORDOVA,
Territorial Director,
Puerto Rico.

PART 1367—FERTILIZERS

[RMPR 240]

PHOSPHATE ROCK

Maximum Price Regulation 240 is redesignated Revised Maximum Price Regulation 240 and is revised and amended to read as set forth herein. RMPR 240 establishes maximum prices for Florida land pebble and hard phosphate rock and for Tennessee brown phosphate rock.

In the judgment of the Price Administrator, the maximum prices established by this revised regulation are and will be generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and Executive Orders 9250 and 9328. So far as practical, the Price Administrator has advised and consulted with the members of the industry affected by this revised regulation.

Such standards and specifications as are used in this revised regulation were, prior to such use, in general use in the industry affected.

A statement of the considerations involved in the issuance of this revised regulation has been issued simultaneously herewith and filed with the Division of the Federal Register.*

AUTHORITY: Secs. 1 to 8, incl. (§ 1367.101) issued under 56 Stat. 23,765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Applicability*—(a) *In general.* Except as provided in paragraph (b) of this section with reference to emergency sales to the United States and its agencies and paragraph (c) of this section with reference to export sales, this regulation shall apply to all sales by miners of Florida land pebble and hard phosphate rock and of Tennessee brown phosphate rock, whether sold for immediate or future delivery, within the District of Columbia and the 48 states of the United States.

(b) *Emergency purchases.* This regulation shall have no application to any purchases by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation 1 to the General Maximum Price Regulation, as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group of purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

(c) *Export sales.* This regulation shall have no application to export sales of Florida land pebble and hard phosphate rock and of Tennessee brown phosphate rock. The maximum price of such sales shall be determined in accordance with the provisions of the Second Revised Export Price Regulation.

SEC. 2. *Sales at other than maximum prices*—(a) *Prohibition.* Regardless of any contract or obligation, no miner shall sell or deliver, and no person in the course of trade or business shall buy or receive from a miner Florida land pebble and hard phosphate rock and Tennessee brown phosphate rock at a price above the maximum price established by Appendices A, B and C of this regulation for such sale, nor shall any person agree to solicit, offer or attempt to do any of the foregoing. This prohibiton, however, is subject to the provision for adjustable pricing contained in paragraph (b) of this section, the exception for emergency purchases by the United States and its agencies contained in paragraph (b) of section 1 and the exception for export sales contained in paragraph (c) of section 1.

(b) *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery, but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by an order of the Administrator or any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(c) *Lower prices.* Prices lower than the maximum prices established by this regulation may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a miner obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price is an evasion of this regulation, and therefore prohibited; and any offer or agreement which accomplishes or attempts to accomplish such a result is equally prohibited; except, that the foregoing does not prohibit practices which were customary either to the miner or to the trade prior to April 1, 1942 of requiring the buyer to purchase combinations of commodities or of requiring the buyer to sell back to the miner other commodities or the same commodity; *Provided,* All such sales and purchases are at the market price, not exceeding the maximum price.

SEC. 4. *Records and reports.* (a) Every miner of Florida land pebble and hard phosphate rock and Tennessee brown phosphate rock who offers, agrees to sell, sells, or delivers such phosphate rock shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942 remains in effect, a complete and accurate record of every such offer, agreement, purchase, sale or delivery showing the date thereof, the name and address, the amount of the transportation charges paid by the miner and the quantity, grade and size sold.

(b) Persons affected by this regulation shall submit such reports to the Office of Price Administration as it may from time to time require.

SEC. 5. *Enforcement.* Persons violating any provisions of this regulation are subject to the criminal penalties, civil enforcement actions, suits for treble damages and proceedings for suspension of licenses provided for by the Emergency Price Control Act of 1942, as amended.

SEC. 6. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all miners subject to this regulation. A miner's license may be suspended for violations of the license or of any one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

SEC. 7. *Protests and petitions for amendment.* Any person desiring to file a protest against or seeking an amendment of any provision of this regulation ma_ do so in accordance with the provisions of Revised Procedural Regulation No. 1[1] issued by the Office of Price Administration.

SEC. 8. *Definitions.* When used in this Regulation 240, the terms:

(1) "Person" includes an individual, corporation, partnership, association, or other organized group of persons or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political subdivisions, or any agency of any of the foregoing.

(2) "Miner" means a person who mines or recovers from the soil, phosphate rock and who may process the same to whatsoever extent before shipment.

(3) "Phosphate rock" means rock composed of mixtures of phosphate minerals, the chief of which is tricalcium phosphate or tribasic phosphate of lime, a compound of phosphoric acid and lime chemically described as $CA_3(PO_4)_2$.

(4) "Florida land pebble phosphate rock" means phosphate rock of pebble-like formation mined and recovered in the State of Florida from land as distinguished from river beds.

(5) "Tennessee brown phosphate rock" means phosphate rock brown in color mined and recovered in the State of Tennessee.

(6) "Florida hard phosphate rock" means phosphate rock mined in Florida of a more solid formation than pebble rock.

(7) "B. P. L." means bone phosphate of lime, a commercial description of phosphate rock based upon the content tricalcium phosphate or tribasic phosphate of lime ($CA_3(PO_4)_2$).

(8) "Kind" means a phosphate rock described by the name of the state in which it is mined, the basic substance of which it is composed and may include the color of its appearance, as for example, "Florida land pebble phosphate rock;" "Tennessee brown phosphate rock."

(9) "Grade" means the percentage of phosphorus content expressed in units of bone phosphate of lime or phosphorus pentoxide (P_2O_5).

APPENDIX A—MAXIMUM PRICES FOR FLORIDA LAND PEBBLE PHOSPHATE ROCK

The miner may charge any person for Florida land pebble phosphate rock upon the terms and conditions, and for the grades and descriptions, the prices, all as set forth in the following schedule:

1. *Unground phosphate rock:*

Size.—Run of mine in carload lots—washed, dried and unground.

Price.—Basis gross ton (2240 lbs.) f. o. b. cars at mines.

[1] 7 F.R. 8961; 8 F.R. 3313, 3533, 6173, 11806; 9 F.R. 1594, 3075.

Quality.—Bone phosphate of lime (B. P. L.) on a dry basis, and not more than 4% combined oxide of iron and aluminum (when determined separately on a dry basis) and not more than 3% moisture.

Grades:

68/66% B. P. L.—$2.20 basis 68% B. P. L., 10¢ per unit rise to 70% maximum and 10¢ per unit fall to 64% minimum, fractions in proportion.

70/68% B. P. L.—$2.60 basis 70% B. P. L., 10¢ per unit rise to 72% maximum and 20¢ per unit fall to 68% minimum, fractions in proportion.

72/70% B. P. L.—$3.20 basis 72% B. P. L., 15¢ per unit rise to 74% maximum and 30¢ per unit fall to 70% minimum, fractions in proportion.

75/74% B. P. L.—$4.20 basis 75% B. P. L., 20¢ per unit rise to 76% maximum and 40¢ per unit fall to 74% minimum, fractions in proportion.

77/76% B P. L.—$5.20 basis 77% B. P. L., 25¢ per unit rise to 81% maximum and 50¢ per unit fall to 76% minimum, fractions in proportion.

Special sizes.—Add 50¢ per gross ton for all pebble rock without any flotation concentrates.

Screened rock after drying for furnace use: Add $1.00 per gross ton for all plus 5/32-inch screen size.

Wet rock.—Deduct 50¢ per gross ton for wet rock not dried.

Calcining.—Add $1.10 per gross ton for calcining basis 1500° Fahrenheit plus 5¢ per gross ton for each 100° Fahrenheit above 1500° or less 5¢ per gross ton for each 100° below 1500° guaranteed, no adjustment for less than 100°.

Grinding.—Add 45¢ per gross ton for grinding 48 to 52% minus 200 mesh screen.

Add 55¢ per gross ton for grinding 58 to 62% minus 200 mesh screen.

Car door boards.—Add $2.50 per car for boarding up box car doors.

Lining cars.—Add 75¢ per car for lining doors. Add $1.75 per car for lining cars.

NOTE: Above prices without any guarantee as to oxide of iron and alumina apply to sales to ferrophosphorus and pig iron manufacturers.

2. *Finely ground phosphate rock:*

Price.—Basis net ton (2,000 lbs.) f. o. b. cars at mines in carload lots in bulk.

Quality.—Phosphorus pentoxide (P_2O_5) on a dry basis minimum grade guaranteed and not more than 3% moisture.

Ground not less than 85% minum 200 mesh.

Grades:

29% P_2O_5—$2.70 per ton basis 29% P_2O_5 minimum.

30% P_2O_5—$2.90 per ton basis 30% P_2O_5 minimum.

31% P_2O_5—$3.10 per ton basis 31% P_2O_5 minimum.

32% P_2O_5—$3.45 per ton basis 32% P_2O_5 minimum.

33% P_2O_5—$4.00 per ton basis 33% P_2O_5 minimum.

34% P_2O_5—$4.65 per ton basis 34% P_2O_5 minimum.

35% P_2O_5—$5.55 per ton basis 35% P_2O_5 minimum.

No charge for car liners or car door boards.

Bagged.—Add $2.00 per net ton for ground rock in 100-lb. capacity multi-wall paper bags.

Add 50¢ per net ton for truck-load shipments in bulk.

3. *Dust collector product:* $2.50 per net ton approximately 60% to 75%. B. P. L. and fineness of approximately 40 to 69%. Minus 200 mesh with no guarantee plus $3.25 per car for partial paper lining and car door boards.

APPENDIX B—MAXIMUM PRICES FOR TENNESSEE BROWN PHOSPHATE ROCK

The miner may charge any person for Tennessee brown phosphate rock upon the terms and conditions, and for the grades and descriptions, the prices, all as set forth in the following schedule:

1. *Unground phosphate rock:*

Size.—Run of mine in carload lots—washed, dried and unground.

Price.—Basis gross ton (2,240 lbs.) f. o. b. cars at mines.

Quality.—Bone phosphate of lime (B. P. L.) on a dry basis combined oxide of iron and alumina (I. & A. determined separately on a dry basis) adjusted basis 2 units B. P. L. for 1 unit I. & A. and not more than 3% moisture.

Grades:

68/66% B. P. L. 6% I. & A.—$4.50 basis 68% B. P. L., 12½¢ per unit rise to 70% maximum and 15¢ per unit fall to 66% minimum, fractions in proportion; I. & A. basis 6% with 2 units B. P. L. for 1 unit I. & A., fractions in proportion, added when below or deducted when above.

70/68% B. P. L. 5½% I. & A.—$5.00 basis 70% B. P. L., 15¢ per unit rise to 72% maximum and 20¢ per unit fall to 68% minimum, fractions in proportion; I. & A. basis 5½% with 2 units B. P. L. for 1 unit I. & A., fractions in proportion, added when below or deducted when above.

72/70% B. P. L. 5½% I. & A.—$5.50 basis 72% B. P. L., 20¢ per unit rise to 75% maximum and 25¢ per unit fall to 70% minimum, fractions in proportion; I. & A. basis 5½% with 2 units B. P. L. for 1 unit I. & A., fractions in proportion, added when below or deducted when above.

Lump rock.—Add 50¢ per gross ton for screened lump rock of not more than 8% moisture, and with no adjustment for I. & A.

Wet rock.—Deduct 50¢ per gross ton for wet rock not dried.

Calcining.—Add $1.00 per gross ton for calcining basis 1500° Fahrenheit plus 5¢ per gross ton for each even 100° Fahrenheit above 1500° or less 5¢ per gross ton for each 100° below 1500° guaranteed.

Grinding.—Add 50¢ per gross ton for grinding 48 to 52% minus 200 mesh. Add 70¢ per gross ton for grinding 58 to 62% minus 200 mesh.

Car door boards.—Add $2.50 per car for boarding up car doors.

Lining cars.—Add 75¢ per car for paper lining doors. Add $1.75 per car for paper lining car.

2. *Finely ground phosphate rock:*

Price.—Basis net ton (2,000 lbs.) f. o. b. cars at mines in car load lots in bulk.

Quality.—Phosphorus pentoxide (P_2O_5) on a dry basis minimum grade guaranteed and not more than 3% moisture, no adjustment for excess grade or I. & A.

Ground 90 to 95% minus 200 mesh or 80 to 85% minus 300 mesh.

Grades:

29% P_2O_5—$4.65 per net ton basis 29% P_2O_5 minimum.

30% P_2O_5—$4.85 per net ton basis 30% P_2O_5 minimum.

31% P_2O_5—$4.95 per net ton basis 31% P_2O_5 minimum.

32% P_2O_5—$5.20 per net ton basis 32% P_2O_5 minimum.

33% P_2O_5—$5.70 per net ton basis 33% P_2O_5 minimum.

No charge for car liners or car door boards.

Add 30¢ per net ton for bagging in valve bags which purchaser provides.

Add 30¢ per net ton for truck load shipments in bulk.

Add $2.00 per net ton for bagging in 100-pound multi-wall paper bags.

Car bulkheads.—Add $2.00 per car for installing wooden bulkheads to separate bagged rock from unbagged rock only at buyer's request.

APPENDIX C—MAXIMUM PRICES FOR FLORIDA HARD PHOSPHATE ROCK

The miner may charge any person for Florida hard phosphate rock upon the terms and conditions, and for the grades and descriptions, the prices, all as set forth in the following schedule:

Unground phosphate rock

Size.—Run of mine in carload lots—crushed, washed, dried and unground.

Price.—Basis gross ton (2240 lbs.) f. o. b. cars or F. A. S. vessel at Fernandina, Florida.

Quality—Bone phosphate of lime (B. P. L.) on a dry basis, and not more than 4% combined oxide of iron and alumina (when determined separately on a dry basis) and not more than 3% moisture.

Grades:

72/70% B. P. L.—$7.10 basis 72% B. P. L., 15¢ per unit rise to 74% maximum and 30¢ per unit fall to 68% minimum, fractions in proportion.

PART 1407—RATIONING OF FOOD AND FOOD PRODUCTS

[Rev. RO 16,[1] Amdt. 9]

MEAT, FATS, FISH AND CHEESES

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.*

Section 7.6 (k) is added to read as follows:

(k) *Allotments for industrial users of meat having a point value.* An industrial user who, during the third quarter of his base period, used meat which on July 2, 1944 has a point value (other than zero) may apply for an allotment covering such meat. The application shall be made on OPA Form R-315, to the board or district office with which he is registered, and must estimate the number of pounds of such meat, separately for each item (as listed in section A of the Official Table of Trade Point Values—No. 16) which he used during the third quarter of his base period. The board or district office may grant the application if it finds that the industrial user, during the third quarter of his base period, used meat which has a point value other than zero on July 2, 1944. The amount of his allotment shall be computed in the following way:

(1) The number of pounds of each such item of meat which he used during the third quarter of his base period is multiplied by the point value in effect for that item on July 2, 1944 as shown on the Official Table of Trade Point Values (No. 16);

(2) The resulting figures are added together and multiplied by 0.7.

The result represents his allotment for the third allotment period of 1944 for meat having a point value on July 2, 1944. (Section 7.6 (d) applies in determining whether an industrial user who receives an allotment under this paragraph is entitled to a certificate, and in determining the amount of the certificate.)

This amendment shall become effective July 5, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

PART 1441—CHEMICAL TANNING MATERIALS

[MPR 352,[1] Amdt. 2]

CHESTNUT EXTRACT

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Maximum Price Regulation No. 352 is amended in the following respects:

1. "Section 6a. Applications for adjustment" is added to the table of contents.

2. Section 2 is amended to read as follows:

SEC. 2. *Maximum prices for chestnut extract.* The maximum prices established for the following named manufacturers are identical with adjusted maximum prices which would be prescribed under section 6a of this regulation as of July 6, 1944 and are based on the standards and criteria for price adjustments prescribed therein.

(a) *Liquid chestnut extract.* The following maximum prices are established for sales of liquid chestnut extract containing 25 per cent of tannin content.

(1) *Sales by manufacturers, f. o. b. plant*—(i) *Standard chestnut extract.*

[Per 100 pounds]

	Tank cars or tank trucks	In barrels in carloads	In barrels in less than carloads
Champion Paper & Fibre Co.	$2.41	$3.01	$3.26
The Mead Corporation	2.54	3.14	3.39
Leas and McVitty	2.50	3.10	3.35
Teas Extract Co.	2.95	3.55	3.80
Charles A. Schieren Co.	3.10	3.70	3.95
The Rosman Tanning Extract Co.	3.25	3.85	4.10
Gardner Extract Co.	3.10	3.70	3.95
All others	2.25	2.85	3.10

(ii) *Special chestnut extract.* For sales of special chestnut extract 25 cents per 100 pounds may be added to the maximum prices specified above.

(2) *Sales by jobbers, f. o. b. jobber's warehouse.* On sales by jobbers of standard or special chestnut extract in barrels, $1.25 per 100 pounds may be added to the manufacturer's maximum carload barrel prices specified in subparagraph (1) above for the particular material and supplier involved.

[1] 7 F.R. 8875, 10476; 8 F.R. 3706.

(3) The following maximum prices are established for sales of liquid chestnut extract containing more or less than 25 per cent tannin content.

For every 1 per cent of tannin content less than 25 per cent, there shall be deducted from the applicable basic price set forth in (1) and (2) above not less than 1/25 of such price. For every 1 per cent of tannin content more than 25 per cent, there may be added not more than 1/25 of such price.

(4) The maximum prices set forth in subparagraphs (1), (2), and (3) above include barrels when sales are made in barrels and no additional charges may be made for such barrels.

(b) *Powdered chestnut extract.* The following maximum prices are established for sales of powdered chestnut extract containing 65 per cent of tannin content.

(1) *Sales by manufacturers, f. o. b. plant*—(i) *Standard chestnut extract.*

[Per 100 pounds]

	In bags in carloads	In bags in less than carloads
Champion Paper and Fibre Co.	$6.92	$7.67
The Mead Corporation	7.25	8.00
Leas and McVitty	7.15	7.90
Teas Extract Co.	8.32	9.07
Charles A. Schieren Co.	8.71	9.46
The Rosman Tanning Extract Co.	9.10	9.85
Gardner Extract Co.	8.71	9.46
All others	6.50	7.25

(ii) *Special chestnut extract.* For sales of special chestnut extract $1.00 per 100 pounds may be added to the maximum prices specified above.

(2) *Sales by jobbers, f. o. b. jobber's warehouse.* On sales by jobbers of standard or special chestnut extract in bags, $1.50 per 100 pounds may be added to the manufacturer's maximum carload bag prices specified in subparagraph (1) above for the particular material and supplies involved.

(3) The following maximum prices are established for sales of powdered chestnut extract containing more or less than 65 per cent tannin content:

For every 1 per cent of tannin content less than 65 per cent, there shall be deducted from the applicable basic price set forth in subparagraph (1) and (2) above not less than 1/65 of such price. For every 1 per cent of tannin content more than 65 per cent, there may be added not more than 1/65 of such price.

(4) The maximum prices set forth in subparagraphs (1), (2), and (3) above do not include bags and the seller may make an additional charge for bags. Such additional charge shall not exceed the maximum price for the bag actually used as established by the applicable maximum price regulation of the Office of Price Administration, or the actual delivered cost of the bag to the seller of the chestnut extract, whichever is lower. Where an extra charge is made for a bag, such charge shall be separately stated from the charge for the chestnut extract. Where the seller retains title to bags and requires their return, he may charge a reasonable deposit to insure the return of such bags. The deposit must be refunded to the buyer upon his return of the bags in good condition within a reasonable time. Transportation costs with respect to the return of such bags shall be borne by the seller.

(c) *Credit charges.* The maximum prices established by this regulation shall not be increased by any charges for the extension of credit.

3. The following new definitions are added to section 13 (a):

"Factory cost" means and includes materials, labor and other indirect manufacturing costs assignable to the production of chestnut extract.

"Over-all profits" means over-all aggregate dollar profits (adjusted for changes in investment and before deduction of income and excess profits taxes) of applicant or, in the event applicant is a parent, subsidiary or affiliate of other corporations or business units, of the entire investment enterprise.

4. The following new section 6a is added:

SEC. 6a. *Applications for adjustment.* Any manufacturer of chestnut extract may apply for an adjustment of his maximum prices established under this regulation if it can be shown that there is a general shortage of supply of chestnut extract, and that the factory costs involved in applicant's production thereof have increased so substantially that a price adjustment is necessary to enable him to maintain or expand his production of said commodity.

(a) *Information to be submitted.* Any application filed hereunder shall be in accordance with Revised Procedural Regulation No. 1 and shall include the following unless such information is already on file with the Office of Price Administration and the applicant so indicates.

(1) Proposed maximum prices and method of arriving at the latter.

(2) Description of applicant's business including a list by major groups of all commodities manufactured.

(3) A statement showing dollar sales volume of chestnut extract and the percentage to total sales for the last complete calendar or fiscal year and for the most recent period for which information is available.

(4) A statement showing factory cost per unit and administrative and selling expense per unit for the last complete calendar or fiscal year and for the most recent period for which the information is available, including:

(i) Itemization of direct material and labor costs per unit, and if increased labor costs are shown, a full explanation of the reason for the increase and a showing that any wage rates subject to approval by the War Labor Board have been approved by that Board.

(ii) Other factory costs directly assignable to the production of chestnut extract. (This may include: indirect labor, factory supplies, repairs and maintenance of building, machinery and equipment, insurance, property taxes, depreciation at normal rates on plant and equipment actually used in manufacture, purchased utility services, and other items commonly associated with factory operation.)

(iii) General administrative and selling expenses such as: executive and administrative salaries, office expense, commissions, advertising, and similar items but not including income and excess profit taxes, charges to war reserves, or reserves for contingencies.

(5) The method of allocating indirect factory costs and administrative and selling expenses to chestnut extract and the method of charging inventories used in determining material costs.

(6) Profit and loss statements and balance sheets for each of the calendar or fiscal years between 1936 and 1939, inclusive; for the most recent full fiscal or calendar year; and for the latest period for which information is available prior to the date of filing the application. If this information has been submitted previously to the Office of Price Administration on Form A or on any other form, applicant should indicate when and with whom it was filed. Furthermore, the filing of this data is optional provided reports are available from the Bureau of Internal Revenue. Should the applicant prefer, this information will be requested by the Office of Price Administration directly from the Bureau of Internal Revenue.

(b) *Amount of adjustment.* No adjustment will be made under this section unless the Price Administrator finds that a price increase is necessary to aid in securing essential supply. Furthermore, any adjustment granted under this section shall be limited as follows:

(1) To an amount sufficient to make the adjusted price per unit equal to factory cost per unit where applicant's current over-all profits on an annual basis are favorable as judged by his own or the industry's historical experience.

(2) To an amount sufficient to make the adjusted price per unit equal to factory costs per unit, plus general administrative and selling expenses per unit, where applicant's current over-all profits on an annual basis are normal as judged by his own or the industry's historical experience or where his sales of chestnut extract constitute a substantial portion of the sales volume of his business or of a plant or division thereof.

(3) To an amount sufficient to make the adjusted price per unit equal to total cost per unit, plus an adequate margin of profit per unit, where applicant's current over-all profits on an annual basis are unfavorable as judged by his own or the industry's historical experience.

(4) Notwithstanding limitations on the amount of adjustment heretofore indicated, no maximum price adjusted under this section shall exceed the applicant's maximum price as of April 1, 1943, plus the amount by which applicant's per unit factory cost for chestnut extract has increased since that date. Furthermore, regardless of applicant's earnings position no adjusted price shall exceed factory or total cost per unit if historically applicant has sold chestnut extract at not more than factory or total cost per unit.

(c) *Orders issued under this section.* The Office of Price Administration may authorize or deny by order the maximum prices requested or any modification thereof and may also adjust the maximum prices of resellers and processors. It may require in appropriate cases a compensatory decrease in the maximum prices for another product or products manufactured by applicant.

Any order issued hereunder may be amended or revoked at any time.

This amendment shall become effective July 6, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 1st day of July 1944.

CHESTER BOWLES,
Administrator.

PART 1499—COMMODITIES AND SERVICES

[RMPR 165]

SERVICES

Maximum Price Regulation No. 165 as amended, services, is redesignated Revised Maximum Price Regulation No. 165 (Services) and is revised and amended to read as follows:

Maximum Price Regulation No. 165 as amended covered only those services specifically listed therein. Most other services subject to price control were covered by the General Maximum Price Regulation, and a relatively small number by other OPA regulations. This revision brings under Revised Maximum Price Regulation No. 165 (Services) most of the services which were heretofore under the General Maximum Price Regulation.

A statement of the considerations involved in the issuance of this regulation has been filed with the Division of the Federal Register.*

AUTHORITY: Sec. 1 to 24, inclusive, (§ 1499.101) issued under 56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Services covered.* This regulation covers the prices charged for all services except:

(a) Services exempted by Revised Supplementary Regulation No. 11.

(b) Services sold to a government agency pursuant to (1) a secret contract or subcontract as provided in Supplementary Order No. 42, and (2) an emergency purchase subject to the conditions of § 4.3 (f) of Revised Supplementary Regulation No. 1.

(c) Services specifically covered by other OPA regulations.[1]

(d) The following services which remain under the General Maximum Price Regulation:

(1) Transportation services of contract carriers;

(2) Storage, warehousing and terminal services, and services incident thereto.

(3) The furnishing of electricity, gas, light, heat, power or water when the furnishing thereof is not subject to the requirements set forth in paragraph (c) of Revised Supplementary Regulation No. 11, § 1499.46.

SEC. 2. *Prohibitions.* On and after August 1, regardless of any contract or other obligation:

(a) You may not sell any service covered by this regulation at a price higher than your maximum price.

(b) No person in the course of trade or business may buy any service covered by this regulation at a price higher than the maximum price.

Of course, you may charge lower prices than your maximum prices at any time.

SEC. 3. *Prices previously established.* This regulation supersedes Maximum Price Regulation No. 165 as amended—Services (MPR 165) and the General Maximum Price Regulation (GMPR), insofar as the GMPR dealt with services now covered by this regulation.

Since this regulation keeps certain of the basic pricing provisions of MPR 165 and the GMPR, many of your maximum prices under this regulation will be the same as those you properly established under MPR 165 and the GMPR.

In addition all supplementary regulations, supplementary service regulations, or orders issued by OPA under MPR 165 or the GMPR and prices established thereunder, and prices previously approved by OPA under paragraph (c) and (d) of § 1499.102 of MPR 165, remain in effect under this regulation.

However, the following maximum prices must be re-determined, since the methods by which they were determined under MPR 165 and the GMPR have been eliminated in this regulation: prices based on similarity to another service; prices based on your competitor's offering price, and prices determined by adjusting differentials between classes of purchasers.

SEC. 4. *General pricing provisions.* In determining your maximum price, use the first of the following provisions which applies to you. Your maximum price shall be:

(a) The highest price at which you supplied the same service in March 1942 to a purchaser of the same class.[2] If, however, in March 1942 you used a rate or a pricing method to determine your price, you may continue to use your highest March 1942 rate or pricing method (using your highest March 1942 charges) to determine your maximum price for the same service, to a purchaser of the same class.[2]

(b) The highest price at which you offered to supply the same service for supply in March 1942 to a purchaser of the same class,[2] if you did not actually supply it in that month, or a price resulting from application of your highest March 1942 rate or pricing method (using your highest March 1942 charges to a purchaser of the same class) which would, by your usual trade practice, have been used by you had you supplied the service in that month.

(c) The maximum price of your closest competitor for the same service to a purchaser of the same class,[2] *if* you did not actually supply it or offer it for supply in that month to any purchaser.

SEC. 5. *Services which cannot be priced under section 4.* (a) If you cannot determine a maximum price under section 4, you must file an application with the appropriate OPA district office for approval of a maximum price in line with the level of maximum prices otherwise established by this regulation. The application shall contain a description of the service, anticipated direct labor and material costs, and the proposed maximum price. It shall also contain a full explanation of the reasons why you cannot price this service under section 4. If you supplied any other service in March 1942, submit, in addition, a description of the most comparable service showing your present direct labor and material costs for it and your present maximum price. You must also furnish any additional information which OPA may require.

(b) You may not sell the service for which a maximum price is requested under this section until that price has been approved by OPA, but the proposed price shall be considered approved 20 days after mailing the application (or all additional information which may have been requested), unless, within that time, OPA notifies you that your proposed price has been disapproved.

(c) OPA may at any time disapprove or revise maximum prices proposed or established under this section so as to bring them into line with the level of maximum prices otherwise established by this regulation. You may not redetermine your maximum price after it has been determined under this section unless it is changed by OPA, in which case the changed price shall be your maximum price.

SEC. 6. *Pricing of seasonal services*—(a) *Services subject to seasonal variations in price.* If you have had a regularly established seasonal variation in price for the same service, your maximum price shall be the highest price charged to a purchaser of the same class during the corresponding season of the year from March 1, 1941 to February 28, 1942, inclusive, for the same service plus an amount equal to that price multiplied by the percentage increase in the cost of living between the last period of such corresponding season and March 1942.[3]

(b) *Services not supplied in March 1942 and supplied regularly only during one season of the year March 1, 1941 to February 28, 1942.* If you did not supply such service in March 1942 and supplied it regularly during only one season of the year March 1, 1941 to February 28, 1942, your maximum price shall be the highest price you charged to a purchaser of the same class for the same service during the last period previous to March 1942 in which such service was supplied plus an amount equal to that price multiplied by the percentage increase in the cost of living between that last period and March 1942.[3]

(c) This section applies only if the season during which the variation in price was in effect regularly consisted of at least 14 consecutive days:

(d) *Reports.* Within 10 days after determining a maximum price under this section, you must report the price in writing to the appropriate OPA district office, explaining how the price was computed. This price may be revised by OPA at any time to bring it into line with the level of prices established by this regulation.

SEC. 7. *Central pricing.* If you own or operate more than one service establishment and have established or desire to establish the practice of selling services at uniform prices in all or certain of your establishments, you may apply for a uniform pricing authorization, *Provided,* That you can propose a practicable method for determining prices centrally without increasing the general level of your prices and can show that a uniform pricing authorization will be an aid to price control. The application should be addressed to the Chief, Service Trades Branch, Washington 25, D. C. It should, as far as practicable, present such information regarding services as is required in the case of an application for uniform pricing of commodities by Revised Supplementary Order No. 13. OPA may on its own motion establish uniform prices for sellers owning or operating more than one service establishment and may for this purpose require sellers to furnish necessary information.

SEC. 8. *Commodities*—(a) *Commodities included in services.* Your maximum price for a service under this regulation includes any commodity furnished with the service. If your maximum price includes a separately stated charge for the commodity, your maximum price for the service shall be increased or decreased, as the case may be, by the difference between your separately stated charge for the commodity under this regulation and the maximum price fixed by the applicable commodity regulation.

(b) *Percentage commissions on commodity sales or purchases.* If you are a commission seller, buyer, broker, or auctioneer, and in March 1942 you used a percentage rate to determine your commission in connection with the sale or purchase of a commodity, you may now apply your highest March 1942 percentage rate to the current authorized price of the commodity under the applicable commodity maximum price regulation, or to your selling price of the commodity if it is lower, to determine your commission for the purchase or sale of the same commodity to a purchaser of the same class.

SEC. 9. *Special pricing provision (long-term contracts, etc.)* If in March 1942 you had in effect an increase in your prices for a service to your classes of purchasers generally, and you actually supplied the service to at least one class of purchaser in March 1942 at the increased price, but you did not supply the service at the increased price in March 1942 to a particular class of purchaser because either

(a) You did not supply the service to it in March 1942 after the price increase, or

(b) You supplied the service to it in March 1942 after the price increase at a lower price because you were bound to do so under a contract made before the price increase, then your maximum price to that particular class of purchaser shall be

(1) Your inreased offering price to it for supply during March 1942, or

(2) If you had no such increased offering price, then the highest price at which you supplied the service to a purchaser of a different class during March 1942 adjusted to reflect the customary differential in price between the two classes of purchaser.

SEC. 10. *Transfer of business; moving of business; chains*—(a) *Transfer.* If you acquire the business, assets or stock in trade of any business after April 28, 1942, and you carry on the business, or continue to supply the same type of service, in an establishment separate from any other establishment previously owned or operated by you, your maximum price shall be the same as those to which your transferor would have been subject if no such transfer had taken place, and your obligation to keep records sufficient to verify such prices shall be the same. You must further prepare and file (if your transferor has not already done so) and keep up to date the statement required under section 14. Your transferor shall preserve and turn over to you all records of transactions prior to the transfer which are necessary to enable you to comply with the record and filing provisions of this regulation.

(b) *Moving.* If you sell services at retail and move the business out of your trading area after July 31, 1944, you must apply to OPA for establishment of your maximum prices under section 5. If you move the business in the same trading area you must keep the same maximum prices.

(c) *Chains.* If you operate more than one selling unit and you open a new unit, after July 31, 1944, you must apply to OPA for establishment of your maximum prices for that unit under section 5, except that if you close a selling unit and open another one in the same trading area, your maximum prices for the new unit shall be the same as those of the unit you closed.

SEC. 11. *Taxes.* If a tax is imposed on a service covered by this regulation and the tax law does not forbid you to pass the tax on to your customers, you may add the tax to your maximum price in accordance with the following provisions: If the tax becomes effective after March 1942, you may add the tax to your maximum price if you separately state it. If the tax was in effect in March 1942 and you were not then supplying the service, you may add the tax to your maximum price as established under this regulation if such price does not already reflect the tax, if you separately state it. If the tax was in effect in March 1942 and you were then supplying the service and passing on the tax, you may continue to do so; if you separately stated the tax then, you must do so now. If in March 1942 you did not pass the tax on to your customers, you may not do so now. ("Tax" as used in this section also includes a tax increase.)

SEC. 12. *Additional charges.* You may not make a higher charge for expediting, packaging, or other incidents of a service than you made in March 1942 to a purchaser of the same class; nor may you now make any charge for any incident of a service if it was not your practice to do so in that month. You may not require a purchaser to pay a larger proportion of transportation costs incurred in the supply of any service than you required a purchaser of the same class to pay during March 1942 for the same or similar types of service. Unless authorized by OPA, you may not now require a deposit for any reason, if you did not require one in March 1942, nor may you now increase any such deposit which you required in March 1942.

SEC. 13. *Sales slips; receipts.* If you have customarily given a purchaser a sales slip or receipt, you must continue to do so. Upon request by a purchaser, you must, regardless of your previous custom, give the purchaser a sales slip or receipt.

SEC. 14. *Records; filings of statements; posting.* You must comply with the following provisions for keeping price records and for filing statements of your maximum prices:

(a) *Records.* Preserve for examination by the Office of Price Administration all records regarding your prices, rates, or pricing methods for services supplied or offered for supply during March 1942 (or such other period as is specified as your base period) and thereafter.

(b) *Filing of statements.* (1) *Prepare* and keep for examination by any person during ordinary business hours, a statement of your maximum prices, rates, or pricing methods for purchasers of each class together with an adequate description of each such service.

(i) If you have in any case taken the maximum price of your closest competitor for any service as your maximum price, indicate on the statement in every such case the service, the maximum price, and your closest competitor's name and address.

(ii) If your maximum prices are based upon a flat rate manual or similar pricing manual or parts catalog or list, you may (instead of appending it to the statement) clearly identify on the statement such manual, parts catalog, or list by name, edition, number, and date, indicating the instances in which it was not your practice in March 1942 to follow it.

(2) File a duplicate of your statement with the appropriate War Price and Rationing Board. You may, if you wish, file the statement, insofar as it applies to non-retail services which you sell, with the appropriate OPA district office and may request that it be treated as confidential and not subject to public disclosure. This statement will then be withheld from public inspection unless the withholding of the information it contains would be contrary to the purposes of the regulation, and you may also withhold from public inspection the statement required by (b) (1) above.

(3) You must prepare and file the statement (or a supplement thereto if the statement has previously been prepared and filed) within 30 days of the date that your maximum price for a service is first established by this regulation. You must also prepare and file an appropriate supplement to the statement within 10 days after any change in your maximum price is authorized by OPA.

(4) The statement and all supplements thereto must be signed by you or your authorized agent.

(5) If you can show that the foregoing requirements subject you to unusual hardship, you may apply to the National Office of OPA for written authorization to depart from those requirements. Such authorization will be given only if it will not be inconsistent with the purposes of this regulation.

(c) *Posting.* OPA may require you to post your maximum prices for any serv-

ice which you sell at retail whenever it is deemed necessary to the effective enforcement of this regulation.

SEC. 15. *Violation*—(a) *License suspension.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, apply to you. Your license may be suspended for violations of the license or of any price regulations applicable to licensed sales. If your license is suspended, you may not, during the period of suspension, make any sale for which your license has been suspended.

(b) *Civil and criminal action.* If you violate any provisions of this regulation you are subject to the criminal penalties, civil enforcement actions, license suspension proceedings, and suits for treble damages provided by the Emergency Price Control Act of 1942 as amended.

(c) *Record-keeping and filing violations; failure to establish maximum price.* If you fail to keep the records or file the statements required by section 14, or if you fail to apply to OPA for establishment of a maximum price under section 5, if you are required to do so, OPA may issue an order establishing maximum prices for the services you sell in line with prices established by this regulation. This will not relieve you of your obligation to comply with the requirements of section 14 and 5, or of the various penalties for any failure to do so.

SEC. 16. *Adjustments*—(a) *General adjustments.* OPA may adjust any maximum price established under this regulation upon a demonstration of substantial financial hardship threatening your ability to continue to supply a service, subject to the following limitations:

(1) No adjustment will increase your maximum prices above the levels necessary to permit you to continue the sale of your services;

(2) No adjustment will be made if it will create or tend to create a need for increases in the prices of other sellers in your locality or elsewhere; and

(3) No adjustment will increase your maximum prices above the prices at which your customers are able to obtain the same or a fairly equivalent service from other suppliers.

However, if, in the judgment of OPA, the loss of your services would be detrimental to the effective prosecution of the war or would impair the maintenace of an adequate wartime standard of living, OPA may apply only the first and second of the above limitation.

In judging whether a maximum price subjects you to substantial financial hardship, OPA will take into account such pertinent factors as the nature of your business, its earnings, and the earnings of your trade as a whole during a representative pre-war period. A price increase may be denied in whole or in part, however, if your hardship is attributable to such causes as a decline in sales volume because of reduced demand, general manpower shortage, shortage of essential supplies, or other difficulties apart from your maximum price. Even though a particular service or type of service is not profitable, an adjustment may be denied in whole or in part if, in the judgment of OPA, such action is justified in view of the profitability of your business as a whole.

(b) *Adjustment by buyer-seller agreement.* If the buyer agrees to absorb the price increase, you may apply for permission to increase the price of a non-retail service by an amount not to exceed direct labor and material cost increases incurred by you since your maximum price for the service was established. Such application must be filed on Form OPA 687:116 and all the requirements stated on the form must be complied with. Within 15 days after filing the form, or supplying such additional information as OPA may request, with the appropriate OPA district office, you may charge your increased price unless you are advised by OPA that your application has been denied. The OPA may at any time deny the application for the price increase in any case where it appears to be inconsistent with the purposes of the Emergency Price Control Act, as amended. You may obtain copies of this form from the OPA district office, or you may copy the form from Appendix A.

(c) *Application by purchaser who buys services from numerous sellers.* If the purchaser buys non-retail services from sellers too numerous to make recourse to paragraph (b) practicable, he may apply for an adjustment of the charges made to him by letter addressed to the Chief, Service Trades Branch, Office of Price Administration, Washington 25, D. C. Such letter should show that the facts set forth in section II of Form OPA 687:116 exist, the nature and extent of the sellers' cost increases, and, where practicable, the names and addresses of the sellers and the maximum prices of each. A price increase under this paragraph may not become effective until the applicant is advised in writing of OPA approval, which will be given only where it is clear that there is no practicable recourse to paragraph (b) and where granting such approval will not be inconsistent with the purposes of the Emergency Price Control Act as amended.

SEC. 17. *Adjustable pricing.* Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by OPA, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by OPA after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by the Administrator or by any official of OPA having authority to act upon the pending request for a change in price or to give the authorization. The authorization will be given by order, except that it may be given by letter or telegram when the contemplated revision will be the granting of an individual application for adjustment.

SEC. 18. *Petitions for amendment.* If you seek a change in any provision of this regulation affecting sellers of a service generally, you may file a petition for amendment.

SEC. 19. *Procedures.* Petitions for amendment and applications for adjustment shall be filed in accordance with Revised Procedural Regulation No. 1. Supplementary Order No. 28 provides for the filing of applications for adjustment or petitions for amendment based on a pending wage or salary increase requiring approval of the National War Labor Board. Procedural Regulation No. 6 governs applications for adjustment of maximum prices for services supplied under government contracts or subcontracts.

SEC. 20. *Amendments; supplementary service regulations; area orders.* This regulation may be changed or supplemented at any time by amendments, supplementary service regulations, or area pricing orders.

SEC. 21. *Evasion.* This regulation shall not be evaded directly or indirectly by any reduction of your customary allowances, discounts, or other price differentials, or by tying agreements, or by deterioration of services, or otherwise.

SEC. 22. *Applicability; base dates for territories and possessions*—(a) *Applicability.* This regulation applies to services supplied in the 48 states of the United States, the District of Columbia, and the territories and possessions of the United States.

(b) *Base dates for territories and possessions*—(1) *Alaska.* The base date for Alaska shall be March 1942.

(2) *Hawaii.* The base date for Hawaii shall be April 1942 instead of March 1942, and all references to March 1942 shall be changed to April 1942. In section 6, the period March 1, 1941 to February 28, 1942 shall be changed to the period from April 1, 1941 to March 31, 1942.

(3) *Puerto Rico and the Virgin Islands.* The base date for Puerto Rico and the Virgin Islands shall be April 10, 1942 to May 10, 1942, instead of March 1942, and all reference to March 1942 shall be changed to the period from April 10, 1942 to May 10, 1942. In section 6, the period March 1, 1941 to February 28, 1942 shall be changed to the period from April 10, 1941 to April 9, 1942.

SEC. 23. *Definitions and explanations.* (a) When used in this regulation:

(1) "Appropriate OPA district office" means the district office of the Office of Price Administration for the district where your place of business is located and from which your sales are made.

(2) "Appropriate War Price and Rationing Board" means the War Price and Rationing Board of the Office of Price Administration for the area where your place of business is located and from which your sales are made.

(3) "Base date" means the period as of which your maximum prices are fixed under this regulation.

(4) "Closest competitor" means that seller selling the same service under substantially the same conditions who is in close competition with you and is located nearest to you.

(5) "Non-retail sale" means a sale to an industrial or commercial user.

(6) "Offered" (as that word is used in connection with price) means the price quoted in your price list, or, if you had no price list in March 1942, the price which you regularly quoted in any other manner, or the price determined by your rate or pricing method. But "offered" (price) does not include a price intended to withhold a service from the market, or a price you offered as a bargaining price if you usually sold at a price lower than your asking price.

(7) "OPA" means the Office of Price Administration.

(8) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or the legal successor or representative of any of the foregoing, and the United States and any other government and the political subdivisions and agencies of any of the foregoing.

(9) "Pricing method" is a formula by which you determined a price for a service in March 1942 which included a rate, and an item for labor, materials, and mark-up for overhead and profit, or any of such items, whether or not the formula was disclosed to the purchaser. Unless the formula included a rate, the figure resulting from the application of the formula was a flat price (except where the supplying of a service was on a cost-sharing basis). See definition of "rate" below.

(10) "Purchaser of the same class" means a purchaser belonging to the same price class, that is, to a group of purchasers to whom it was your established practice in March 1942 to supply or offer to supply the same service at a particular price. If in March 1942 you customarily supplied or offered to supply the same service to any purchaser at a price different from the price at which you supplied or offered to supply the same service to all other purchasers, that purchaser is in a purchaser price class by himself.

If in March 1942 you had an established practice of charging the same price to certain customers on the basis of standards (such as, the nature of the buyer—wholesaler, retailer, etc., or the nature of the sale—large, small, cash, credit, etc.), you must place a new purchaser of the same service in the proper purchaser price class in accordance with such standards. If you had no such standards, or if the new purchaser does not correspond to any of such standards, you must establish a price for the new purchaser under section 5 of this regulation. For the purposes of this definition, a "new purchaser" means a purchaser to whom you did not supply or offer to supply the same service in March 1942.

(11) "Rate" is a means of determining a price by multiplying the time involved in supplying a service by a fixed charge per unit of time, or by multiplying the price of the commodity involved by a fixed percentage.

(12) "Records" includes books of accounts, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and any other papers and documents relating to your prices.

(13) "Rental" means any leasing of a commodity except where the lease is a substitute for a conditional sales contract, chattel mortgage, or other security device in connection with an installment sale, or except where the lease contains a provision giving the lessee an option to buy the leased commodity at a stipulated price from which all or a portion of the payments made as rent are to be deducted.

(14) "Season" means any division of the year into periods of at least 14 consecutive days for pricing purposes, such division being based upon regular and recurrent differences in demand for or supply of the service.

(15) "Sell" includes sell, rent, supply, dispose, barter, exchange, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", shall be construed accordingly.

(16) "Service" means the performance of an act or series of acts rendered, otherwise than as an employee, in connection with the processing, distribution, storage, installation, repair or negotiation of purchases or sales of a commodity, or in connection with the operation of any service establishment for the servicing of a commodity, or any incidents of the foregoing. The term includes the rental of any commodity if the rental charge is not covered by a commodity maximum price regulation and has not been exempted from price control. The term does not cover services incidental to the sale of a commodity.

(17) "You" refers to any seller subject to this regulation. If you supply services through more than one place of business, each such place of business shall, for the purpose of this regulation, be considered a separate seller.

SEC. 24. *Delegation of authority.* The Price Administrator, any Regional Administrator, and any District Director who has been authorized to act by the Regional Administrator having jurisdiction over his district, may establish, approve, disapprove, correct, or adjust maximum prices under section 4, 5, 6, 10, 15, 16, and 17 of this regulation.

APPENDIX A

OPA Form 687:116

UNITED STATES OF AMERICA, OFFICE OF PRICE ADMINISTRATION

APPLICATION FOR APPROVAL OF NON-RETAIL PRICE ADJUSTMENT AGREED TO BY SUPPLIER AND PURCHASER

INSTRUCTIONS

This method of adjustment cannot be used where the purchaser is a purchaser at retail.

This form must be used by a supplier of a non-retail service to obtain permission to adjust his maximum prices in accordance with the provisions of Section 16 (b) of Revised Maximum Price Regulation No. 165 (services). This amendment allows a supplier of a non-retail service to increase his ceiling prices by no more than the amount of any actual lawful dollars-and-cents increases in his material and labor costs incurred in supplying the service, provided that buyer and seller certify to the facts required by this form.

Three copies of this form, with the appropriate sections filled in and signed by the supplier and the purchaser, must be filed with the appropriate District Office of OPA at least 15 days before the first proposed sale of the service at the requested price. Except where the cost increase is based in part on a wage or salary increase requiring National War Labor Board approval the requested price may be charged 15 days after such filing unless and until the OPA notifies the supplier to the contrary.

In the case of an agreed-upon wage or salary increase requiring National War Labor Board approval, 3 copies of this form must be filed within 15 days from the date your application for approval of the agreed-upon wage or salary adjustment was filed with the National War Labor Board. If a disputed wage or salary proceding is involved, you must notify the appropriate District Office of OPA in writing within 15 days after receiving notice that the case was certified to the National War Labor Board and must file 3 copies of this form within 5 days of the date upon which you are notified of the proposed National War Labor Board decision in your case. In either case, you may not charge the increased price until the date upon which the wage or salary increase becomes finally effective.

PETROLEUM PRODUCTS

The statement of the considerations involved in the issuance of this amendment issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 7.20 is added to read as follows:

SEC. 7.20 *Transportation of petroleum products by tank truck within the State of Kansas.* The maximum rates for the transportation of petroleum and petroleum products in tank trucks between points within the State of Kansas by contract motor carriers are the rates and charges set forth in an order issued by the State Corporation Commission of Kansas on April 26, 1944 in Docket 26710–R, or the maximum rates established by the General Maximum Price Regulation or any supplementary regulation or order issued by the Office of Price Administration, whichever rates are higher.

This amendment shall become effective July 6, 1944.

Chapter XIII—Petroleum Administration for War

[PAO 11, as Amended July 1, 1944]

PART 1515—PETROLEUM PRODUCTION OPERATIONS

USE OF MATERIALS IN PETROLEUM PRODUCTION AND NATURAL GASOLINE

General order covering the United States, its territories and possessions.

The fulfillment of the requirements for the defense of the United States has created a shortage of materials necessary for the production of petroleum for defense, for private account, and for export; and the following order is deemed necessary in the public interest, to promote the national defense, and to provide adequate supplies of Petroleum for military and other essential purposes.

§ 1515.6 *Petroleum Administrative Order No. 11, as amended July 1, 1944.*—(a) *Scope of this order.* Except as otherwise modified by the provisions of any order issued as a supplement to this order, the provisions of this order shall be applicable to the use of material in petroleum production and natural gasoline recovery operations in the United States, its territories or possessions.

(b) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Material" means any commodity, equipment, accessory, part, assembly, or product of any kind.

(3) "Petroleum" means crude oil, condensate, natural gasoline, or natural gas.

(4) "Production" means any operation directly incident to the extraction or recovery of natural gasoline and associated hydrocarbons.

(5) "Natural gasoline recovery" means any operation directly incident to the extraction or recovery of natural gasoline and associated hydrocarbons.

(6) "Maintenance and repair" means (without regard to accounting practice):

(i) The upkeep of any structure, equipment, or material in sound working condition or the restoration or fixing of any structure, equipment, or material which has broken down, or is worn out, damaged, or destroyed;

(ii) Any other use of material not exceeding in material cost $500 for any one complete operation which has not been subdivided for the purpose of coming within this definition.

"Maintenance and repair" shall not include the drilling, redrilling, deepening, plugging back, or multiple completion of any well, the initial installation on any well of pumping or other artificial lifting equipment, or the extension or the initial construction or installation of a field gas gathering line.

(7) "Operating supplies" means any material other than material used for maintenance and repair which is essential to and consumed in production or natural gasoline recovery and which is normally carried by an operator as operating supplies or which is normally chargeable to operating expense, including, among other items, chemicals, additives, and blending agents.

(8) "Laboratory equipment" means material or equipment used exclusively for the purpose of controlling, or investigating more effective methods of conducting, production or natural gasoline recovery operations by means of research, technical, or control laboratories. This material or equipment shall not, however, include material for use in the construction of laboratory buildings or other structures.

(9) "Exploratory well" means any well located at least two miles from every other drilling or producible well. However, no well is an exploratory well if it is located in any Restricted Area or in any field which, when drilling of the well is commenced, has been proved to be productive only of gas or condensate or both.

(10) "Pool" means any underground accumulation of petroleum constituting a single and separate reservoir or source of supply within a field.

(11) "Sectionalized land" means:

(i) Land which has been divided into sections by or on behalf of the Federal Government, and generally known as "public land surveys", whether the land is publicly or privately owned; and in other instances,

(ii) Land which has been divided into approximately square tracts similar to sections and which tracts contain about 640 acres (not more than 720 acres nor less than 560 acres) and can be subdivided by quartering into approximately square subdivisions of about 40 acres (not more than 45 acres nor less than 35 acres), or land which has been classified as "sectionalized land" by an authorized official of the Petroleum Administration for War.

A quarter of a quarter section of a "public land survey" or of an approximately square 640 acre tract, as defined above, is called a "quarter-quarter section" in this order.

(12) "Non-sectionalized land" means land other than sectionalized land.

(13) "Lease equipment" means material for use in production to be located within or adjacent to any field, including, among other items, oil treating equipment, salt water disposal facilities and disposal wells, fresh water production facilities and wells, production office facilities, and camp facilities.

However, lease equipment shall not include: an oil, gas, or condensate well; well equipment or pumping or other artificial lifting facilities for an oil, gas, or condensate well; a flow, lead, or gathering line for a gas or condensate well; a crude oil gathering line connecting a lease or field shipping tank or battery where petroleum is first gauged to any other petroleum gathering or movement facility or any refining facility; a vacuum plant or facilities; a cycling plant or facilities; a pressure maintenance plant or facilities; a plant or facilities for the extraction or recovery of natural gasoline or associated hydrocarbons, or for other treatment or processing of natural gas.

(14) "Property interest" means an interest in land which gives the owner of the interest the right to enter on the land and drill for or produce petroleum and obtain title to part or all of the produc-

tion. Such interest is usually created by a deed or an oil and gas lease, and is commonly called a "working interest".

(15) "Condensate well" means a well which produces or is capable of producing a liquid which is predominantly condensate. However, a well which is completed separately in two or more horizons will be considered a "condensate well" only in the horizon or horizons which produce or are capable of producing a liquid which is predominantly condensate.

(16) "Restricted area" means a field, pool, or area, or any portion thereof, designated as a "restricted area" by an authorized official of the Petroleum Administration for War. Any field or pool, or portion of either, which has been designated by the Petroleum Administration for War as a condensate field and which has not been removed from such classification up to the date of the issuance of this order is declared to be a "restricted area."

(17) "Complete" or "recomplete", wherever used in connection with an oil or gas well, shall include equipping and connecting the well, but shall not include the initial installation on any well of pumping or other artificial lifting equipment; and, wherever used in connection with a condensate well, shall include equipping and connecting in a manner sufficient to test the well, but shall not include connecting the well to a gas gathering line or to a natural gasoline recovery or gas cycling plant.

(c) *General restrictions on use of material.* (1) No material may be used to drill or complete any well in a "restricted area" or to drill any well for condensate in a discovered field, unless:

(i) Drilling was commenced prior to the designation of the area as a "restricted area" and conforms to the applicable provisions of Petroleum Administrative Order No. 11 or to a specific exception heretofore granted authorizing the drilling and completion of the well; or

(ii) Drilling is authorized by a specific exception or other grant of authority as provided for by paragraph (m).

(2) No material may be used in connection with any production or natural gasoline recovery operation other than those specified in paragraph (c) (1), unless the use is authorized by the provisions of this order or by specific exception or other grant of authority as provided for by paragraph (m).

(d) *Authorized uses of material for maintenance, repairs, operating supplies, lease equipment, or laboratory equipment.* Notwithstanding any other provision of this order, material may be used in production and natural gasoline recovery for maintenance and repair purposes, as operating supplies, for lease equipment, or for laboratory equipment and the installation thereof.

(e) *Authorized uses of material in exploratory operations.* Material may be used for operations directly involved in the search for and discovery of a previously unknown pool by means of geological, geophysical, or geochemical prospecting, the drilling and completion of, and providing additions to, any exploratory well, or the drilling of any core hole. However, if a core hole is drilled less than two miles from any drilling or producible well and the location of the core hole does not conform to the provisions set forth in paragraph (f) for the use of material in development drilling operations, only surface casing or tubing of less than 500 feet in length may be installed in the core hole, and no petroleum may be produced therefrom unless permission has been granted by an authorized official of the Petroleum Admistration for War.

(f) *Authorized uses of material in oil and gas development drilling operations.* Material may be used to drill, complete, and provide additions to, any oil or gas well in any discovered field other than a "restricted area", or to drill, complete, and provide additions to, any oil or gas well not in a discovered field but within two miles of a drilling or producible well, if the material is used in accordance with the following provisions:

(1) Where the oil well is located on sectionalized land,

(i) The provisions of paragraphs (f) (3) and (f) (4) must be complied with, and

(ii) The well must be located on a drilling unit consisting of a quarter-quarter section upon which no other drilling or producible well is located, and

(iii) If a well spacing pattern has been specified for the field, pool, or area by an authorized official of the Petroleum Administration for War, the well must be located within 150 feet of a location which conforms with the specified pattern.

If no well spacing pattern has been specified, the well must be located on the quarter-quarter section within 150 feet of a location which corresponds to the location on a quarter-quarter section of the pattern-fixing well for the field. The pattern-fixing well is the first well (including the discovery well but excluding any well completed as a dry hole) spudded in the field after December 23, 1941, in search of oil, and located on a quarter-quarter section not closer than 300 feet from any line thereof and on which quarter-quarter section no other drilling or producible well is located.

The well spacing pattern for a well not located in a discovered field but located within two miles of a drilling or producible well shall be the same as the well spacing pattern applicable to the nearest drilling or producible well, unless otherwise specified by an authorized official of the Petroleum Administration for War.

An authorized official of the Petroleum Administration for War may specify that no uniform well spacing pattern need be followed in designated fields, pools, or areas.

(2) Where the oil well is located on non-sectionalized land,

(i) The provisions of paragraphs (f) (3) and (f) (4) must be complied with, and

(ii) The well must be located on a drilling unit consisting of at least 40 contiguous surface acres upon which no other drilling or producible well is located, and

(iii) The distance between any two points farthest apart on the drilling unit upon which the well is located must not exceed a distance of 2,100 feet, and

(iv) No portion of the drilling unit attributed to the well shall fall within 330 feet of any other drilling or producible well located on the same lease or property.

(3) Where the oil well is located on either sectionalized land or non-sectionalized land,

(i) The drilling unit upon which the well is located must not be attributed in whole or in part to any other drilling or producible well, and

(ii) All separate property interests in the drilling unit upon which the well is located must first be consolidated, and

(iii) The well must be located at least 900 feet away from every other drilling or producible well, and

(iv) The well must be located at least 330 feet from every lease line, property line, and subdivision line separating unconsolidated property interests, and

(v) The well must be drilled with due diligence to maintain a vertical well bore.

However, a well may be intentionally deviated from the vertical if the surface location of the well (in this case, the place on the surface directly over the bore hole at the lowest level at which the well is open to production) conforms to the other provisions applicable to sectionalized or non-sectionalized land which have been set out above.

Where a well is intentionally deviated from the vertical, a directional survey of the well bore must be filed with the Director of Production of the District in which the well is located within 30 days after the completion of the well.

(4) If any well drilled in conformity with the provisions of paragraphs (f) (1), (f) (2), and (f) (3) is completed as a gas or condensate well, it shall not be produced except to provide fuel for drilling or fuel for other lease operations, or for testing the well for a period not exceeding 15 days, and no material may be used to produce the well or provide additions therefor, except as necessary for such purposes, until authorization has been granted by an authorized official of the Petroleum Administration for War.

(5) Where the gas well is located on either sectionalized land or non-sectionalized land,

(i) The well must be located on a drilling unit consisting of at least 640 contiguous surface acres upon which no other drilling or producible well is located, and

(ii) The drilling unit upon which the well is located must not be attributed in whole or in part to any other drilling or producible well, and

(iii) The distance between any two points furthest apart on the drilling unit upon which the well is located must not exceed a distance of 8500 feet, and

(iv) All separate property interests in the drilling unit upon which the well is located must first be consolidated, and

(v) The well must be located at least 3960 feet from every other drilling or producible well, and

(vi) The well must be located at least 1320 feet from every lease line, property line, and subdivision line separating unconsolidated property interests, and

(vii) The well must be drilled with due diligence to maintain a vertical well bore.

However, a well may be intentionally deviated from the vertical if the surface location of the well (in this case, the place on the surface directly over the bore hole at the lowest level at which the well is open to production) conforms to the other provisions of this paragraph (f) (5).

Where a well is intentionally deviated from the vertical, a directional survey of the well bore must be filed with the Director of Natural Gas and Natural Gasoline of the District in which the well is located within 30 days after completion of the well.

(6) If any well drilled in conformity with the provisions of paragraph (f) (5) is completed as a condensate well, it shall not be produced except to provide fuel for drilling or fuel for other lease operations, or for testing the well for a period not exceeding 15 days, and no material may be used to produce the well or provide additions therefor, except as necessary for such purposes, until authorization has been granted by an authorized official of the Petroleum Administration for War.

(g) *Computation of acreage attributable to oil and gas wells.* (1) The acreage attributable to any oil or gas well spudded on or before December 23, 1941, shall be determined by assigning to the well an acreage equivalent to that of the existing well density contiguous to the well. In no event need the attributed acreage be greater than 40 acres for an oil well or 640 acres for a gas well.

(2) The acreage attributable to any oil or gas well spudded after December 23, 1941, shall be the same as the drilling unit assigned to the well pursuant to Conservation Order M-68 (8 F.R. 104), Petroleum Administrative Order No. 11, or any supplement or exception thereto, or any amendment thereof.

(h) *Authorized uses of material for deepening, plugging back or reworking, and recompletion of wells.* To the extent that the use of material for deepening, plugging back, or reworking, and recompletion operations in connection therewith, is not prohibited or otherwise limited by the provisions of any exception heretofore or hereafter issued pursuant to Conservation Order M-68, Petroleum Administrative Order No. 11, or any amendments thereof, or by the provisions of any order heretofore or hereafter issued as a supplementary order to Petroleum Administrative Order No. 11, or any amendment thereof, such deepening, plugging back, or reworking, and recompletion operations in connection therewith, may be undertaken without obtaining further authorization if the material is used for or in connection with any of the following operations:

(1) Multiple completion of any well in the pool from which the well is producing and in any other pool or pools into or through which casing was set at the time the well was originally drilled;

(2) Multiple completion of any well which has been deepened in accordance with paragraph (h) (5);

(3) Plugging back and recompletion of any well in a shallower pool, or completion of any well in deeper pool into or through which casing was set at the time the well was originally drilled;

(4) Reworking, redrilling, or deepening any well and recompletion of the well within the pool from which the well is producing or from which it last produced;

(5) Deepening and recompletion of any well in another pool, if, with respect to the pool in which the well is to be deepened and recompleted,

(i) The well is located on a drilling unit consisting of a quarter-quarter section, if located on sectionalized land, or of at least 40 contiguous surface acres, if located on non-sectionalized land, and

(ii) No other well located on the drilling unit is producible from the pool in which the well is recompleted, and

(iii) The drilling unit upon which the well is located is not attributed in whole or in part to any other well producible from the pool in which the well is recompleted, and

(iv) All separate property interests in the drilling unit upon which the well is located are first consolidated, and

(v) No portion of the drilling unit attributed to the well falls within 330 feet of any other well, located on the same lease or property, producible from the pool in which the well is recompleted, and

(vi) The well is located at least 900 feet from every other well producible from the pool in which the well is recompleted, and

(vii) the well is located at least 330 feet from every lease line, property line, and subdivision line separating unconsolidated property interests.

(6) If any well completed or recompleted in conformity with the provisions of this paragraph (h) is completed or recompleted as a gas or condensate well, it shall not be produced except to provide fuel for drilling or fuel for other lease operations, or for testing the well for a period not exceeding 15 days, and no material may be used to produce the well or provide additions therefor, except as necessary for such purposes, until authorization has been granted by an authorized official of the Petroleum Administration for War. However, this provision shall not apply to the recompletion of any gas or condensate well in conformity with paragraph (h) (4).

(i) *Authorized uses of material for installation of pumping or other artificial lifting facilities.* Material may be used to install or reinstall pumping or other artificial lifting equipment, including a central pumping power unit, or to install additional tubing or sucker rods, to the extent that such operations are not prohibited or otherwise limited by the provisions of any exception or any order issued after the date of this order as a supplementary order to Petroleum Administrative Order No. 11, or any amendment thereof.

(j) *Authorized uses of material for gas gathering lines and gas lift and booster plants not exceeding 500 h. p.* (1) Material may be used for construction, installation, expansion, extension, improvement, reconstruction, remodeling, or other similar operation in connection with any gas lift compression plant or field gas booster plant, or for the construction, installation, expansion, extension, or alteration of any gas gathering line, if

(i) The cost of material for any one complete operation does not exceed $10,000 and

(ii) The well or wells to which the line is to be connected were spudded prior to December 23, 1941, or were drilled and completed in conformity with Conservation Order M-68, Petroleum Administrative Order No. 11, or any amendment, supplement or exception to either of such orders, and

(iii) The line does not duplicate in whole or in part the transportation function of any existing line or lines.

(2) Material may be used for construction, installation, expansion, extension, improvement, reconstruction, remodeling, or other similar operation in connection with any gas lift compression plant or field gas booster plant, if

(i) The material to be installed or added does not increase the rated capacity of the plant more than 500 h. p. and

(ii) No one complete operation is subdivided for the purpose of making this provision applicable.

Where priorities assistance is necessary to obtain more than $500 worth of material for any one complete operation authorized in this paragraph (j), all additional priorities assistance must be obtained through the procedure established in the section of P-98-b covering "Material for Use in Production".

(k) *Authorized uses of material for natural gasoline recovery, gas treating, cycling, pressure maintenance, or gas lift and booster plants exceeding 500 h. p.* Material may be used for construction, installation, expansion, extension, improvement, reconstruction, remodeling, or other similar operation in connection with any natural gasoline recovery operation, gas desulphurization operation, gas dehydration operation, gas cycling operation for condensate recovery, pressure maintenance operation, or in connection with any gas lift compression plant or field gas booster plant where the material to be installed or added increases the rated capacity of the plant more than 500 h. p., if the cost of material for any one compete operation does not exceed $10,000.

Where a person desires to use material in connection with the operations under this paragraph (k), but cannot do so because of the limitations imposed, he must make application both for authorization to use the material and for necessary priorities assistance by completing and filing PAW Form 30. Instructions for filing are given in PAW Form 30, and any communications should be filed in accordance with the same instructions.

(l) *Applications for exception to this order.* Where a person desires to use material in connection with production, other than for the operations listed in paragraph (k), but cannot do so under the provisions of this order or any supplement hereto, he may make an application for an exception by filing the information requested in PAW Form 3 (revised) attached to this order.[1] Instructions for filing applications and any communications in connection therewith are given in PAW Form 3 (revised).

(m) *Exceptions or supplements to this order or to preceding related orders.* Material may be used in connection with any production or natural gasoline recovery operation authorized by,

(1) Any exception to Conservation Order M–68.

(2) Any supplementary order to Petroleum Administrative Order No. 11 issued March 30, 1943, or any amendment thereof, until such supplementary order is revoked, or

(3) Any exception or authorization issued by the Petroleum Administration for War either on its own initiative or in response to an application for exception filed under Petroleum Administrative Order No. 11 issued March 30, 1943, or any amendment thereof, or under the preceding paragraphs (k) and (l) of this order.

(n) *Continuing effect of liabilities.* The amendment of Petroleum Administrative Order No. 11, effected by this order, shall not excuse or condone any violation of affect in any way liability or penalty incurred because of any violation of Conservation Order M–68, Petroleum Administrative Order No. 11, or any amendment, supplement, or exception to either of these orders.

(o) *Violations.* Any person who willfully violates any provision of this order, or who, by any act or omission, falsifies records kept or information furnished in connection with this order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who willfully violates any provision of this order may be prohibited from delivering or receiving any material under priority control, or may be subject to other appropriate action.

(p) *Effective date.* This order shall take effect on the date of issuance.

[PAO 11, Supp. Order 12]

PART 1515—PETROLEUM PRODUCTION OPERATIONS

USE OF MATERIAL IN PETROLEUM PRODUCTION OPERATIONS

Applicable in the States of Arkansas, Louisiana, Mississippi, New Mexico, and Texas.

§ 1515.18 *Supplementary Order No. 12 to Petroleum Administrative Order No. 11, as amended July 1, 1944*—(a) *Scope of this order.* Except as otherwise modified by the provisions of any other order issued as a supplement to Petroleum Administrative Order No. 11, as amended July 1, 1944, or by the provisions of any exception issued pursuant to paragraph (m) of Petroleum Administrative Order No. 11, as amended July 1, 1944, the provisions of this supplementary order shall to the extent provided herein be applicable to the use of material in petroleum production operations in the States of Arkansas, Louisiana, Mississippi, New Mexico, and Texas, but not elsewhere.

(b) *Definitions.* The definitions of Petroleum Administrative Order No. 11, as amended July 1, 1944, shall apply in this supplementary order.

(c) *Authorized uses of material in oil development drilling operations.* Material may be used to drill, complete, and provide additions to, any well for the purpose of producing oil, except in a "Restricted Area", if there is compliance with the following provisions:

(1) The well must be located on a drilling unit consisting of at least 40 contiguous surface acres upon which no other drilling or producible well is located, and

(2) The drilling unit upon which the well is located must not be attributed in whole or in part to any other drilling or producible well, and

(3) The distance between any two points farthest apart on the drilling unit upon which the well is located must not exceed a distance of 2100 feet, and

(4) All separate property interests in the drilling unit upon which the well is located must first be consolidated, and

(5) The well must be drilled with due diligence to maintain a vertical well bore.

However, a well may be intentionally deviated from the vertical if the surface location of the well (in this case, the place on the surface directly over the bore hole at the lowest level at which the well is open to production) conforms to the other provisions which have been set out above.

Where a well is intentionally deviated from the vertical, a directional survey of the well bore must be filed with the Director of Production of the District in which the well is located within 30 days after completion of the well.

(6) If any well completed in conformity with the provisions of this paragraph (c) is completed as a gas or condensate well, it shall not be produced except to provide fuel for drilling or fuel for other lease operations, or for testing the well for a period not exceeding 15 days, and no material may be used to produce the well or provide additions therefor, except as necessary for such purposes, until authorization has been granted by an authorized official of the Petroleum Administration for War.

(d) *Authorized uses of material for deepening and recompletion of wells.* (1) Material may be used to deepen and recomplete any well in another pool, if, with respect to the pool in which the well is to be deepened and recompleted, there is compliance with the provisions of paragraphs (c) (1), (c) (2), and (c) (4).

(2) Material may be used for the multiple completion of any well deepened in conformity with paragraph (d) (1).

(3) If any well completed or recompleted in conformity with the provisions of this paragraph (d) is completed or recompleted as a gas or condensate well in any pool not theretofore opened for production to the well, it shall not be produced from such pool except to provide fuel for drilling or fuel for other lease operations, or for testing the well for a period not exceeding 15 days, and no material may be used to produce the well from such pool or provide additions therefor, except as necessary for such purposes, until authorization has been granted by an authorized official of the Petroleum Administration for War.

(e) *Authorized uses of material for installation of pumping or other artificial lifting facilities.* Material may be used to install or reinstall pumping or other artificial lifting equipment, including a central pumping power unit, or to install additional tubing or sucker rods on any well located in the East Texas Field, Upshur, Gregg, Smith, Rusk, and Cherokee Counties, Texas, only if:

(1) The pumping or other artificial lifting equipment is installed or reinstalled on a well located on a lease where the Railroad Commission of Texas permits, under its duly issued rules or regulations, the transfer of allowable oil production from any well on such lease to another well or other wells on the same lease, or

(2) The pumping or other artificial lifting equipment is reinstalled on the same well to which it was connected at the time any operation authorized under paragraph (h) of Petroleum Administrative Order No. 11, as amended July 1, 1944, was initiated, or

(3) The pumping or other artificial lifting equipment is installed on any well deepened or recompleted in conformity with paragraph (h) (5) of Petroleum Administrative Order No. 11, as amended July 1, 1944, or

(4) The pumping or other artificial lifting equipment is installed on or connected to a well located on any lease or tract where the number of wells to which pumping or other artificial lifting equipment is then attached does not exceed an average of one well to every 10 productive acres, or

(5) The pumping or other artificial lifting equipment is installed on a well located on any lease or tract of 10 acres or less whereon no other well is located to which pumping or other artificial lifting equipment is already attached, but in no event may a lease or tract be subdivided or rearranged for the purpose of making this provision applicable, or

(6) The pumping or other artificial lifting equipment is transferred in its entirety from one well to another well located on the same lease or tract, or

(7) The pumping or other artificial lifting equipment is installed on a well which has been drilled pursuant to an exception to Conservation Order M–68,[1] Petroleum Administrative Order No. 11, or any amendment or supplement to either of such orders, which exception contains no prohibition against the installation of pumping or other artificial lifting equipment, or

(8) The additional tubing or sucker rods are installed on a well to which there is already attached pumping or other artificial lifting equipment which has been regularly operated prior to the installation of the additional tubing or sucker rods.

(f) *Violations.* Any person who willfully violates any provision of this supplementary order, or who, by any act or omission, falsifies records kept or information furnished in connection with this supplementary order is guilty of a crime and upon conviction may be punished by fine or imprisonment.

Any person who willfully violates any provision of this supplementary order may be prohibited from delivering or receiving any material under priority control or may be subject to other appropriate action.

(g) *Effective date.* This supplementary order shall take effect on the date of issuance.

(E.O. 9276, 7 F.R. 10091; E.O. 9319, 8 F.R. 3687; WPB Directive No. 30, 8 F.R. 11559; E.O. 9125, 7 F.R. 2719; sec. 2 (a), Pub. Law 671, 76th Cong., as amended by Pub Laws 89 and 507, 77th Cong.)

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Order 83–F]

PART 13—RULES GOVERNING COMMERCIAL RADIO OPERATORS

SUSPENSION OF REQUIREMENTS

At a meeting of the Federal Communications Commission, held at its offices in Washington, D. C., on the 27th day of June 1944;

The Commission having under further consideration the matter of the shortage of radiotelegraph operators possessing six month's previous service as a qualified operator in a station on board a ship or ships of the United States, and having in mind the related provisions of sections 351 and 353 of the Communications Act of 1934, as amended; and

It appearing, that the Commission, by Orders Nos. 83, 83–A, 83–B, 83–C, 83–D, and 83–E, suspended for the periods July 9, 1941 to January 9, 1942, January 9, 1942 to July 9, 1942, July 9, 1942 to January 9, 1943, January 9, 1943 to June 30, 1943, July 1, 1943 to December 31, 1943, and January 1, 1944 to June 30, 1944, respectively, the requirements of six months' previous service contained in section 353 (b) of said act, and paragraphs (c) (3) and (d) (2) of § 13.61 of the rules and regulations; and

It appearing further, that a shortage of radiotelegraph operators available for assignment as qualified operators on board cargo ships of the United States, who possess six months' previous service, will continue to exist subsequent to June 30, 1944, and, accordingly, further suspension of the foregoing requirement is necessary;

It is ordered, Pursuant to Public Law No. 85, 78th Congress, approved June 22, 1943, that the aforesaid requirements contained in section 353 (b) of the Communications Act of 1934, as amended, and in paragraphs (c) (3) and (d) (2) of § 13.61 of the rules and regulations be, and the same are hereby, suspended for a further period beginning July 1, 1944 and ending December 31, 1944.

PART 63—EXTENSION OF LINES AND DISCONTINUANCE OF SERVICE BY CARRIERS[1]

COMMENCEMENT AND COMPLETION OF CONSTRUCTION

The Commission on June 27, 1944, effective immediately, amended § 63.05 (9 F. R. 2095) to read as follows:

§ 63.05 *Commencement and completion of construction.* Unless otherwise determined by the Commission upon proper showing in any particular case, in the event construction shall not have been begun upon a project involving an expenditure of more than $50,000 within 12 months from the date of the Commission's authorization, or all or part of the proposed facilities shall not have been placed in operation within 36 months after such date, such authorization shall terminate at the end of such 12 or 36 months period, as the case may be; in the case of projects involving an expenditure of $50,000 or less, the authorization therefor shall terminate at the end of 9 months or 18 months, as the case may be, in the event construction thereof shall not have been commenced, or the facilities placed in operation, within such respective periods.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter I—Interstate Commerce Commission

[No. 3666]

PARTS 71–85—EXPLOSIVES AND OTHER DANGEROUS ARTICLES[2]

MISCELLANEOUS AMENDMENTS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 24th day of June, A. D. 1944.

In the matter of regulations for transportation of explosives and other dangerous articles.

It appearing, that pursuant to section 233 of the Transportation of Explosives Act approved March 4, 1921 (41 Stat. 1445), and Part II of the Interstate Commerce Act, the Commission has formulated and published certain regulations for transportation of explosives and other dangerous articles;

It further appearing, that in applications received we are asked to amend the aforesaid regulations as set forth in provisions made part hereof;

And it further appearing, that amendments involved in said applications, having been considered and found to be in accord with the best-known practicable means for securing safety in transit and with the need therefor for promoting

safety of operation and standards of equipment used in the transportation of said dangerous articles:

It is ordered, That the aforesaid regulations for transportation of explosives and other dangerous articles be, and they are hereby, amended as follows:

Amending order Aug. 16, 1940, as follows (add):

Part 1A—War Emergency Regulations

Because of the present emergency and until further order of the Commission, shipments of explosives and other dangerous articles may be made upon request of the Secretary of War or the Secretary of the Navy in accordance with the following war emergency regulations:

(a) *Explosives by rail freight*—(1) *Shippers and carriers regulations; handling detonating agents and explosives and explosive ammunition in same car or vehicle.* Detonating fuzes, primer-detonator assemblies or other detonating elements containing explosives components, if of a safe type, may be shipped either assembled in bombs, depth charges, mines, projectiles, or torpedoes (torpedo warheads) or in properly packed containers in the same car or vehicle with bombs, depth charges, mines, projectiles, boosters, or torpedoes (torpedo warheads) by rail freight when separated from the explosive bombs, depth charges, mines, projectiles, boosters, or torpedoes (torpedo warheads) by not less than 3 feet. The intervening space of 3 feet must be filled with dry sand or dry earth in bags or in a crib so constructed or lined as to prevent sifting of the sand or earth. The crib must be secured against movement.

(2) Blasting caps or electric blasting caps may be loaded in the same car with other explosives provided the blasting caps are separated from the other explosives as prescribed in subpar. (1) herein.

(3) When bomb fuzes are packed with bomb fin assemblies, either crated or boxed in wooden or metal containers, the sand or earth filled space between bombs and the fuzes may be omitted provided adequate blocking and bracing is supplied to prevent the bombs from crushing and injuring the detonating fuzes due to ordinary shocks incident to transportation.

(4) Detonating devices, explosive ammunition or explosives must not be offered for transportation in bombs, depth charges, mines, separate boosters, or torpedoes (torpedo warheads) when possible to ship them as otherwise provided herein. (See section 57 (f).)

(5) Shipments of explosive bombs and large containers of incendiary bombs weighing 500 pounds or more, each, may be loaded in gondola cars (flat bottom) when adequately braced. When necessary wooden boxed bombs must be protected against accidental ignition.

(b) *Poison gas, class A, by rail freight*—(1) *Containers.* Poison gases, class A, may be shipped by, for, or to, the War or Navy Departments, as follows:

In metal drums, spec. ICC 5A or WD 5A, in box cars or gondola cars in carload lots only.

In tanks, spec. ICC 106A, mounted on or secured to multi-unit cars or gondola cars in carload lots only.

In bombs, in box cars or gondola cars in carload lots only.

In projectiles or ammunition for cannon with gas filled projectiles in box cars in carload or less-than-carload lots.

(2) *Gas handlers.* Each shipment of one or more carloads, as described in subparagraph (1), shall be accompanied by a crew of qualified gas handlers, supplied with equipment to handle leaks or other container failure, which will permit the escape of gas. Gas handlers will remain with the shipment during the entire time that it is in the custody of the carrier. Gas handlers will, in the event of leakage or escape of gas, make repairs and perform decontamination, if necessary. If they need assistance they will advise the carrier's representative as to the nearest Chemical Warfare Service Depot and aid required.

(3) *Loading and bracing in cars.* Drums must be loaded in cars having level floors. Cars equipped with metal corrugated ends or cars having bowed ends must be supplied with end wall bulkheads constructed in accordance with requirements for center gates. (See Sketch 1, B. E. Pamphlet No. 6).

Drums must be loaded not more than one tier (layer) high and with filling holes up. They must be loaded as closely together as possible both crosswise and lengthwise and so blocked and braced as to maintain their relative positions during transit.

Drums with filling holes in heads must be loaded on their bottoms. They may be loaded in rows, lengthwise of the car and any space between the sides of car and the nearest row of drums must be "filled in" with wooden boards or lumber nailed to sides of car sufficient in length and width to contact both hoops of drums, or, drums may be loaded across car in staggered stacks of which the number of drums in alternate stacks is reduced by one drum. All drums in stacks following the first stack loaded in end of car must be placed tightly into the angle of space formed by the sidewalls of the drums in the preceding stack. Any space between the sides of car and the drums in stacks having the greater number of drums, must be "filled in" with wooden boards or lumber nailed to sides of car sufficient in length and width to contact both hoops of drums.

Drums with filling holes in sides must be loaded on their sides with filling holes up. There must be loaded lengthwise of the car in rows and any space between sides of car and the nearest row of drums must be "filled in" with wooden boards or lumber nailed to sides of car sufficient in length and width to contact both hoops of drums.

Drums must be loaded in box cars from ends of car toward space between car doors, and there braced by center gates and wedges. (See Sketch 1, B. E. Pamphlet No. 6.)

Doorways of box cars must be protected by one of the methods prescribed in sketch 1, B. E. Pamphlet No. 6A.

Tanks must be securely mounted on cars especially provided for them or on gondola cars prepared with substantial wooden frames and blocks.

Bombs, projectiles, and cannon ammunition must be loaded, blocked and braced as shown in B. E. Pamphlet 6A. When shipments are loaded in gondola cars they must be securely blocked and braced and not loaded higher than the sides of the car.

(4) *Handling of cars.* Cars of poison gas, class A, accompanied by gas handlers, must not be "cut off" while in motion and must be coupled carefully and all unnecessary shocks must be avoided. Other cars must not be cut off and allowed to strike a car placarded "Poison Gas."

Cars of poison gas, class A, in drums, tanks or bombs, and car containing gas handlers' equipment if present must be placed in trains and must be kept at all times next to and ahead of car or cars occupied by gas handlers who will accompany such shipments to destination.

Cars of poison gas, class A, must not be placed in trains next to other cars placarded "Explosives" or "Dangerous."

Cars placarded both "Explosives" and "Poison Gas" must be placed in trains ahead of car or cars containing the gas handling crew and their equipment and the position of the car in the train in so far as the "Explosives" placard is concerned is waived.

Part 2—List of Explosives and Other Dangerous Articles

Superseding and amending list section 4, orders Aug. 16, 1940, and Nov. 8, 1941, as follows:

Article	Classed as—	Exemptions and packing (see sec.)	Label required if not exempt	Maximum quantity in one outside package rail express
(Add) Fluosulfonic acid	Cor. L	No exemption 274	White	10 pints.
(Cancel) Monochloracetone	Pois. A	No exemption 328, 329	Poison gas	Not accepted.
(Add) Monochloracetone (unstabilized).	Not accepted.			

Part 3—Regulations Applying to Shippers

Amending paragraph (e), section 204, order Aug. 16, 1940, as follows (packing sodium hydrosulfite):

Cancel Note added to section 204 (e) by order Oct. 28, 1942, as amended December 30, 1942.

Amending section 245, order Aug. 16, 1940, as follows (no exemption from regulations) (add):

(q) *Fluosulfonic acid.*

Amending order Aug. 16, 1940, as follows (packing fluosulfonic acid) (add):

274 (a) *Fluosulfonic acid* must be packed in containers as follows:

(b) Spec. 15A, 15B, 15C, 16A, or 19A. Wooden boxes with inside containers which must be not over 1 gallon each, except that inside containers up to 3 gallons are authorized when only one is packed in each outside container as follows:

(1) Pyrex glass bottles, authorized only for material containing an excess of SO_3, with Pyrex glass stoppers ground to fit and held in place by plaster of Paris covered by strong cloth securely tied; each bottle must be placed in a metal container, well cushioned therein with incombustible absorbent material such as mineral wool, infusorial earth (kieselguhr), asbestos, etc.;

(2) Or steel containers, 14 gauge steel throughout, welded heads and side seams, equipped with ¾ inch welded flange and plug. Threads for plug must be 8 or less per inch. Each drum must be tested for leakage with 15 pounds hydrostatic pressure.

(c) Spec. 5A. Metal barrels or drums not over 55 gallons capacity each.

(d) Spec. 103A. Tank cars.

Amending par. (k), section 303, Table, order Aug. 16, 1940, as follows (restrictions for compressed gases) (add):

NOTE 6. Cylinders purchased after Oct. 1, 1944, for the transportation of chlorine must contain no aperture other than that provided in the neck of the cylinder for the attachment of a valve equipped with an approved safety device.

Superseding and amending paragraph (a), section 328, order Aug. 16, 1940, to read as follows:

328 (a) *Chlorpicrin, bromacetone, and acrolein* when offered for transportation by carriers by rail freight, highway, or water must be packed in specification containers as follows:

Superseding and amending paragraph (a) section 329, order Aug. 16, 1940, to read as follows:

329 (a) *Chlorpicrin or mixtures of chlorpicrin with nonpoisonous liquid or gases,* in addition to containers prescribed in section 328, when offered for transportation by carriers by rail freight, highway, or water may be shipped as follows:

Appendix to Part 3—Shipping Container Specifications (CFR 72)

Amending paragraph 2, spec. 11A, order Aug. 16, 1940, as follows (add):

NOTE. Because of the present emergency and until further order of the Commission, cottonwood and poplar are authorized to be included in Group A woods.

It is further ordered, That this order amending the aforesaid regulations shall be effective on and after Oct. 1, 1944, and shall remain in full force and effect and be observed until further order of the Commission;

It is further ordered, That compliance with the aforesaid amendments made effective by this order is hereby authorized on and after the date of approval and publication thereof;

And it is further ordered, That a copy of this order be served upon all the parties of record herein; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 233, 41 Stat. 1445, sec. 204, 49 Stat. 546, sec. 4, 52 Stat. 1232, sec. 20, 54 Stat. 922, 56 Stat. 176, 18 U.S.C. 383, 49 U.S.C. 304)

By the Commission, Division 3.

[Administrative Order ODT 9, Amdt. 3]

PART 503—ADMINISTRATION

MOTOR CARRIERS; RECORDS AND REPORTS

Pursuant to the Act of May 31, 1941, as amended by the Second War Powers Act, 1942, Executive Orders 8989, as amended, 9156, 9214, and 9294, and War Production Board Directive 21,

It is hereby ordered, That Appendix 1 and Appendix 2 of Administrative Order ODT 9, as amended (8 F.R. 14166; 9 F.R. 948, 2304), are hereby cancelled, paragraph (c) of § 503.251a of Administrative Order ODT 9, as amended, is hereby revoked, paragraph (d) of § 503.250 and §§ 503.251 and 503.253 are hereby revised, and a new paragraph, designated as (c), is hereby added to § 503.252. The revised and added text reads as follows:

§ 503.250 *Property carrying vehicles; records.* Every certificate holder who operates a property carrying vehicle or vehicles shall keep the following records in respect of the vehicles covered by each certificate: * * *

(d) A record of periodic tire inspection for each vehicle, including for each inspection:

(1) Date of inspection;

(2) Inspection station number, county and state:

(3) Serial number or brand of tires requiring service, and description of required tire or vehicle service; and

(4) Certification of inspector that no service is necessary, or certification that such service as was required has been performed.

* * * * *

§ 503.251 *Property carrying vehicles; forms.* (a) The records required to be kept pursuant to § 503.250 of this order may be kept in any convenient form but shall contain, except in the case of tire inspection, entries in respect of operations for each month or period shorter than a month.

(b) Any certificate holder who has heretofore been provided with Form CWN–17, Weekly Operation Report and Tire Inspection Record (Single Unit), or Form CWN–17A, Tire Inspection Record (Fleet, and Supplementary for Single Units), by the Office of Defense Transportation, may, at his option, continue to use such form in keeping the periodic tire inspection records required to be kept pursuant to § 503.250 (d) of this order.

§ 503.252 *Passenger carrying vehicles; records.* Every certificate holder who operates a passenger carrying vehicle or vehicles shall keep the following records in addition to those required to be kept by general or other orders of the Office of Defense Transportation: * * *

(c) A record of periodic tire inspection for each vehicle, including for each inspection:

(1) Date of inspection;

(2) Inspection station number, county and state;

(3) Serial number or brand of tires requiring service, and description of required tire or vehicle service; and

(4) Certification of inspector that no service is necessary, or certification that such service as was required has been performed.

§ 503.253 *Passenger carrying vehicles; forms.* (a) The records required to be kept pursuant to § 503.252 of this order may be kept in any convenient form but shall contain, except in the case of tire inspection, entries in respect of operations for each month or period shorter than a month.

(b) Any certificate holder who has heretofore been provided with Form CWN–17, Weekly Operation Report and Tire Inspection Record (Single Unit), or Form CWN–17A, Tire Inspection Record (Fleet, and Supplementary for Single Units), by the Office of Defense Transportation, may, at his option, continue to use such form in keeping the periodic tire inspection records required to be kept pursuant to § 503.252 (c) of this order.

This Amendment 3 to Administrative Order ODT 9 shall become effective July 1, 1944.

NOTE: The recording and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

[Administrative Order ODT 26]

PART 503—ADMINISTRATION

TRANSPORTATION OF FARM PRODUCTS BY COMMERCIAL MOTOR VEHICLES FROM PRODUCING AREAS

General outline. This order requests and authorizes producers, motor carriers, dealers or receivers, as the case may be, of farm products, except dairy products, within any given area to form Industry Transportation Advisory Committees. Committees representative of any one, or combination, of such persons which have heretofore been recognized and approved by the Office of Defense Transportation are authorized to function as Industry Transportation Advisory Committees in accordance with this order. The order sets forth specific methods by which such committees are requested to assist the Office of Defense Transportation in attaining the purposes of General Order ODT 21, as amended, in relation to transportation of farm products, except dairy products, by commercial motor vehicle from producing areas to destination points. Where for any reason needed information has not been furnished to a district manager by a committee, he may proceed to acquire it on his own initiative.

The order authorizes each district manager to direct the operation of commercial motor vehicles in the transportation of farm products, except dairy products, from producing areas to destination points, within any area which the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department, may designate; such authority to be exercised subject to certain limitations expressed in the order and to any instructions or directions issued from time to time by the Director of the Office of Defense Transportation, and subject to the general control, supervision, modification or reservation in any specific case by such Director or by the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department. Provision is made for appeals by any producer, motor carrier, dealer or receiver from any direction issued pursuant to this order.

This general outline shall not be construed to alter the meaning of any provision contained in the order. The text of Administrative Order ODT 26 follows:

Pursuant to the Act of May 31, 1941, as amended by the Second War Powers Act, 1942, Executive Order 8989, as amended, Executive Order 9156, and War Production Board Directive 21, and in order to regulate the operation of commercial motor vehicles utilized in the transportation of farm products, except dairy products, from producing areas to destination points, pursuant to § 501.101 of General Order ODT 21, as amended (7 F.R. 7100; 8 F.R. 2510), it is hereby ordered, that:

Sec.

503.450 Industry Transportation Advisory Committees; formed by producers, motor carriers, dealers or receivers.

AUTHORITY: §§ 503.450 to 503.464, inclusive, issued under the Act of May 31, 1941, as amended by the Second War Powers Act, 1942, 56 Stat. 176, 50 App. U. S. Code §§ 631 through 645a; E.O. 8989, as amended, 6 F.R. 6725, 8 F.R. 14183; E.O. 9156, 7 F.R. 3349; War Production Board Directive 21, 8 F.R. 5834.

§ 503.450 *Industry Transportation Advisory Committees; formed by producers, motor carriers, dealers or receivers.* Producers, motor carriers, dealers or receivers, or combination thereof, as determined by the Office of Defense Transportation, of any farm product, except dairy products, or combination thereof, within any given area are hereby requested and authorized to elect (unless they have already formed a committee described in § 503.451 of this order) an Industry Transportation Advisory Committee which shall be representative of such producers, motor carriers, dealers or receivers, as the case may be, of a specific farm product or combination of farm products, except dairy products. When the committee is elected the members thereof shall elect a chairman, vice-chairman, secretary and such other officers as may be deemed advisable, and the chairman or other officer authorized by the committee shall sign and file with the Highway Transport Department, Office of Defense Transportation, Washington, D. C., a statement containing the following information:

(a) The kind or kinds of farm products, except dairy products, the transportation of which the committee will consider;

(b) The segment or segments of the industry having representation on the committee;

(c) The name and address of each person participating in the election of the committee;

(1) Whether such person is a producer, motor carrier, dealer or receiver, or combination thereof;

(2) The kind of farm products, except dairy products, which such person produces, transports, deals in or receives, as the case may be;

(d) The name and address of each member of the committee;

(e) The class or group of the industry which each member of the committee represents;

(f) The method utilized in electing the committee; and

(g) A description of the area within which the committee proposed to act.

§ 503.451 *Committees heretofore formed and approved.* Without further approval any Industry Transportation Advisory Committee representative of producers, motor carriers, dealers or receivers of farm products, except dairy products, which heretofore has been approved by the Office of Defense Transportation, is hereby authorized to function as an Industry Transportation Advisory Committee in accordance with and subject to the provision of this order.

§ 503.452 *Committees shall not act until approved.* Except as provided in §§ 503.450 and 503.451 of this order no Industry Transportation Advisory Committee shall perform any act until the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department, in a writing directed to the chairman of the committee, has approved the election of such committee, and the members and the officers thereof, and has approved the designation of the area in which the committee proposes to act, and has approved of the segments of the industry represented on the committee. Such approval may be withdrawn in whole or in part at any time.

§ 503.453 *Functions of Industry Transportation Advisory Committees.* Each approved Industry Transportation Advisory Committee, including any approved committee formed prior to the effective date of this order, is requested and authorized:

(a) To acquire and record information from time to time of the approximate quantity, kind and type of farm product or farm products, except dairy products, as the case may be, produced within the designated area of the committee to be transported by commercial motor vehicle and the points between which and the times at which such farm product or farm products, except dairy products, as the case may be, are to be so transported.

(b) To acquire and keep record, as deemed necessary, of the name and address of each motor carrier engaged in the transportation of such farm product or farm products, except dairy products, as the case may be (including a description of each commercial motor vehicle so operated by such carrier), to or from points within such area, and the name and address of each producer, dealer, or receiver served by such carrier.

(c) To study, develop, formulate and make recommendations and reports to the district manager concerning policies, procedures, rules, programs, formulas, or plans pertaining to the transportation of the particular farm product or farm products, except dairy products, as the case may be, by commercial motor vehicle from producing areas to destination points.

(d) To make recommendations to the district manager concerning the issuance, recall, review, reconsideration, suspension, cancellation or revocation of certificates of war necessity pertaining to commercial motor vehicles utilized or to be utilized in the transportation of the farm product or farm products, except dairy products, as the case may be, from producing areas to destination points.

§ 503.454 *Administration of § 501.101 of General Order ODT 21, as amended.* (a) Each district manager is hereby authorized to administer the provisions of § 501.101 of General Order ODT 21, as amended, (7 F.R. 7100; 8 F.R. 2510), in respect of the transportation of farm products, except dairy products, by commercial motor vehicle from producing areas within any area designated by the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department, to destination points, to assure that such operations shall be confined to those which are necessary to the war effort or to the maintenance of essential civilian economy, shall be so conducted as to assure maximum utilization in such service of the commercial motor vehicles so operated, and shall conserve and providently utilize rubber or rubber substitutes and other critical materials used in the manufacture, maintenance and operation of such vehicles.

(b) For the purpose of exercising the foregoing authority, each district manager is hereby authorized to acquire the information described in paragraphs (a) and (b) of § 503.453 of this order, unless information deemed necessary may be obtained from an approved Industry Transportation Advisory Committee.

§ 503.455 *Directions issued by district manager; service.* (a) The district manager shall consider any recommendation made by an approved Industry Transportation Advisory Committee for the area within which he is authorized to act pursuant to this order. Directions issued by the district manager pursuant to this order shall be in writing and signed by the district manager. A true copy shall be served upon each person having possession or control of a commercial motor vehicle whose operation will be governed by such directions. The service shall be made in person or by mail not less than 10 days prior to the effective date of any such directions.

(b) At the time of the issuance of any such directions a true copy thereof shall be furnished to the chairman of the appropriate Industry Transportation Advisory Committee within whose area the directions will be effective.

§ 503.456 *Limitations upon district manager.* No directions shall be issued by a district manager pursuant to this order that will:

(a) Deprive any person, without his consent, of transportation by the motor carrier usually performing such transportation unless:

(1) The performance of such transportation by another motor carrier is available or,

(2) The issuance of such directions is approved by the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department.

(b) Require any motor carrier to perform any transportation service that is not sanctioned by law or is beyond the carrier's transportation capacity.

§ 503.457 *Complaints; decision by district manager.* (a) Any producer, motor carrier, dealer, or receiver may file a complaint with the district manager concerning any direction issued by him pursuant to this order. Such a complaint may be filed at any time before or after the effective date of the directions, but the stay of directions provided for in § 503.460 of this order shall be applicable only in respect of complaints filed on or before the effective date of the directions. The complaint shall be in writing setting forth the facts pertaining thereto, and shall be signed by and show the address of the person filing the complaint. Signed statements, which support or contradict the facts set forth in the complaint or in any statement filed in the matter, may be filed by any person having an interest in the subject matter of the complaint at any time prior to a decision thereof by the district manager. The complaint shall be decided by the district manager within 10 days after receipt of the complaint. The decision shall be in writing stating the reasons therefor, and shall either overrule the complaint or sustain it in whole or in part. A copy of the decision shall be

(4) Certification of inspector that no service is necessary, or certification that time.

foregoing authority, each district man- part. A copy of the decision shall be

served on the complainant in person, or by mail directed to the address shown in the complaint: *Provided*, That the provisions of this section and §§ 503.458, 503.459 and 503.460 of this order shall not apply to any complaint made by a motor carrier concerning the issuance, review, reconsideration, suspension, recall, cancellation, or revocation of a certificate of war necessity, and any such complaint, and any proceedings in respect thereof, shall be exclusively governed by the provisions of any applicable order issued by the Office of Defense Transportation.

(b) At the time of the issuance of any such decision, a true copy thereof shall be furnished to the chairman of any appropriate Industry Transportation Advisory Committee within whose area the directions, which are the subject of the complaint, are or will be effective.

§ 503.458 *Appeals to regional director.* (a) Any complainant, within 5 days after service of the district manager's decision on the complaint, may file an appeal therefrom to the regional director. Such appeal shall be in writing filed with the district manager and shall state the reasons why the decision should be reversed or modified. Upon the filing of an appeal, the district manager forthwith shall forward the entire file in respect thereof to his regional director who within 10 days after receipt of the file shall decide the complaint upon the record so transmitted. The decision on the appeal shall be in writing stating the reasons therefor, and shall overrule the complaint, or sustain it, in whole or in part. A copy of the decision shall be served on the complainant in person, or by mail directed to the address shown in the complaint.

(b) At the time of the issuance of any such decision, a true copy thereof shall be furnished to the district manager and the chairman of any appropriate Industry Transportation Advisory Committee within whose area the directions, which are the subject of the complaint, are or will be effective.

§ 503.459 *Appeals to Director of the Office of Defense Transportation.* (a) Any complainant, within 5 days after service of the regional director's decision, may file an appeal therefrom to the Director of the Office of Defense Transportation. Such appeal shall be in writing, filed with the regional director, and shall state the reasons why the decision should be reversed or modified. Upon the filing of the appeal, the regional director shall forward the entire file to the Director of the Office of Defense Transportation, Washington, D. C., who will decide the appeal on the record so transmitted, and will overrule the appeal, or sustain it, in whole or in part. The decision of such appeal shall be final. A copy of the decision will be served on the complainant in person, or by mail directed to the address shown in the complaint.

(b) At the time of the issuance of any such decision, a true copy thereof will be furnished to the district manager, the regional director and the chairman of any appropriate Industry Transportation Advisory Committee within whose area the directions, which are the subject of the complaint, are or will be effective.

§ 503.460 *Stay of directions; modification to conform with final decision.* Pending a decision in respect of any complaint filed on or before the effective date of the directions, or pending decision of any appeal filed, in accordance with the order, in respect of such complaint, the directions, to the extent complained of, shall be suspended to the degree required to provide the complainant with the transportation service he was performing or receiving at the time of issuance of such directions. Any directions in respect of which any complaint is filed shall be modified by the district manager to the extent required to conform with any final decision on the complaint or on any appeal taken in respect thereof. Any decisions on a complaint or on an appeal to a regional director shall become final upon expiration of the time prescribed for appealing therefrom, if no appeal is filed within that time; any decision on an appeal to the Director of the Office of Defense Transportation shall be final when issued unless otherwise ordered.

§ 503.461 *Supervision and reservations.* The authority hereby delegated shall be exercised subject to any instructions or directions issued from time to time by the Director of the Office of Defense Transportation, and to general control and supervision, and modification or revocation in any specific case, by such Director, or by the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department. Notwithstanding any of the provisions of this order, the Director of the Office of Defense Transportation may, in his discretion, exercise from time to time the authority or perform any of the functions or duties delegated by this order. This order shall not be construed as revoking or otherwise affecting any prior delegation of authority contained in any order or other document heretofore issued by the Director of the Office of Defense Transportation or the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department.

§ 503.462 *Applicability.* The provisions of this order shall be applicable only within the continental United States.

§ 503.463 *Definitions.* (a) As used in this order the term:

(1) "District" and "region" mean, respectively, a district and region of the Highway Transport Department of the Office of Defense Transportation.

(2) "District manager" means the manager of a district.

(3) "Regional director" means the director of a region.

(4) "Dairy products" means whole milk, or any liquid or semi-liquid product or by-product thereof.

(5) "Farm products" means any article or thing which is yielded, raised, or produced on a farm (either incidental to or as a result of the cultivation of the soil or in connection with the breeding or raising of livestock) by nature, labor, or otherwise. Such term includes any domestic animal, bird, or insect, raised on a farm, and also any product of such animal, bird, or insect, produced on or in connection with the operation of a farm.

(6) "Producer" means any person by whom or under whose supervision or control farm products are produced.

(7) "Dealer or receiver" means any person who: (i) acquires farm products from producers for processing or resale; or (ii) markets farm products for producers.

POST OFFICE DEPARTMENT.

[Order No. 25157]

USE OF PENALTY MAIL PRIVILEGE

JUNE 30, 1944.

This order is issued in pursuance of Public Law 364 relating to the use of the penalty mail privilege.

When penalty envelopes are ordered under contracts made by the Postmaster General as provided by section 93, Postal Laws and Regulations, 1940, by any executive department or agency, or independent establishment of the Government, or other organizations and persons authorized by law to use the penalty privilege, the number of envelopes so ordered shall be reported to the Comptroller of the Post Office Department at such intervals and in such manner and detail as directed by him.

When any executive department or agency or independent establishment of the Government, or other organizations and persons authorized by law to use the penalty privilege, orders labels, wrappers, cards, or other articles bearing the indicia prescribed for matter mailed free of postage under the penalty privilege from or through the Government Printing Office, a report of the number or quantity of each such item or article so ordered or furnished shall be submitted to the Comptroller of the Post Office Department by the Government Printing Office at such intervals and in such detail as may be necessary to enable the Postmaster General to transmit this information quarterly to the Congress and the Bureau of the Budget as required by section 2 of Public Law 364.

In all cases where envelopes, labels, drappers, cards, or other articles bearing the penalty indicia, including those mailed without cover on which the penalty indicia are placed directly on the articles, are prepared or procured otherwise than as set forth in paragraphs 1 and 2 of this Order, each executive department or agency, and independent establishment of the Government, or other organizations and persons, shall obtain from the Third Assistant Postmaster General, or from a postmaster authorized by the Third Assistant Postmaster General to grant such permit, a permit authorizing mailings and setting forth the regulations governing such preparation or procurement. A report of all permits so issued shall be furnished the Comptroller. Each holder of such a permit shall submit with every mailing a statement showing the department or agency for which the mailing is made and the number of pieces mailed, as in the case of regular permit matter, and such statements shall be forwarded by the postmaster to the Comptroller of the Post Office Department at the close of each month.

Penalty mail shall not be accepted which bears penalty indicia handstamped thereon or in handwriting.

The Third Assistant Postmaster General and the Comptroller of the Post Office Department shall collaborate with executive departments and agencies, independent establishments of the Government and other organizations and persons in working out necessary and suitable methods, procedures, and forms, as may be necessary to carry out the provisions of Public Law 364.

Departments, agencies or others having mailings weighing over four pounds which are subject to postage under section 3 of the Act may, upon request submitted to the Third Assistant Postmaster General, arrange for the payment of such postage periodically on rendition of bills.

Section 5 of Public Law 364 exempts the Department of War and the Department of the Navy from the provisions of the Act for the duration of the present war and six months thereafter.

FRANK C. WALKER,
Postmaster General.

AUGUST STEINER

In re: Real property, property insurance policies, and a bank account owned by August Steiner.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That the last known address of August Steiner is Bonfeld, Wurttemberg, Germany, and that he is a resident of Germany and a national of a designated enemy country (Germany);

2. That August Steiner is the owner of the property described in subparagraph 3 hereof;

3. That the property described as follows:

a. Real property situated in the City of San Antonio, County of Bexar, State of Texas, particularly described as Lot Four (4) in New City Block Seventeen Hundred Sixty (1760) fronting Fifty (50) feet on the northwest side of Avenue B. between Fifth and Sixth Streets, and running back between parallel lines at right angles with Avenue B to the San Antonio River for depth, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

b. Real property situated in the City of San Antonio, County of Bexar, State of Texas, particularly described as Lot Number Two (2) and the West Nine (9) feet of Lot Number Three (3) in Block Numbered One (1) New City Block Numbered Twelve Hundred Sixty-nine (1269) situated within the corporate limits of the City of San Antonio, Bexar County, Texas, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

c. Real property situated in the City of San Antonio, County of Bexar, State of Texas, particularly described as Lot One (1), Block One (1) new city Block Twelve Hundred Sixty-nine (1269), situate within the corporate limits of the City of San Antonio, Bexar County, Texas, together with all hereditaments, fixtures, improvements and appurtenances thereto, and any and all claims for rents, refunds, benefits or other payments arising from the ownership of such property,

d. All right, title and interest of August Steiner in and to the following insurance policies, insuring the premises described in subparagraphs 3–a, 3–b and 3–c hereof,

(1) Plate Glass Insurance Policy No. PG 70151 issued by The Western Casualty & Surety Company, Fort Scott, Kansas,

(2) Fire Insurance Policy No. 295050 issued by the Federal Union Insurance Company, New York, New York,

(3) Fire Insurance Policy No. 295049 and Windstorm Insurance Policy No. 288940 issued by the Federal Union Insurance Company, New York, New York,

(4) Fire and extended coverage Insurance Policy No. 309931 issued by the Federal Union Insurance Company, New York, New York,

(5) Fire and Windstorm Insurance Policy No. TCD 3535 issued by the Houston Fire and Casualty Company, Houston, Texas,

e. That certain bank account in the Alamo National Bank, San Antonio, Texas, held in the name of Lena Hirschfeld, Trustee, which is due and owing to, and held for, August Steiner, including but not limited to all security rights in and to any and all collateral for all or part of such account,

is property within the United States owned or controlled by a national of a designated enemy country (Germany);

And determining that the property described in subparagraphs 3–d and 3–e hereof is necessary for the maintenance or safeguarding of other property (namely, that property described in subparagraphs 3–a, 3–b, and 3–c hereof) belonging to the same national of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to section 2 of said Executive order;

And further determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraphs 3–a, 3–b and 3–c hereof, subject to recorded liens, encumbrances and other rights of record held by or for persons who are not nationals of designated enemy countries, and hereby vests in the Alien Property Custodian the property described in subparagraphs 3–d and 3–e hereof,

All such property so vested to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

Such property and any or all of the proceeds thereof shall be held in an appropriate account, or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof, in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on June 7, 1944.

RICHARD OSCAR LESSING

In re: Estate of Richard Oscar Lessing, deceased; File: D–28–8792; E. T. sec. 10751.

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order 9095, as amended, and pursuant to law, the Alien Property Custodian after investigation,

Finding that:

(1) The property and interests hereinafter described are property which is in the process of administration by Carl Ernest Lessing, Executor, acting under the judicial supervision of the County Court of the City and County of Denver, State of Colorado;

(2) Such property and interests are payable or deliverable to, or claimed by, a national of a designated enemy country, Germany, namely,

National and Last Known Address

Ernest Lange, Germany.

And determining that—

(3) If such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country, Germany; and

Having made all determinations and taken all action, after appropriate consultation and certification, required by said Executive order or act or otherwise, and deeming it necessary in the national interest,

Now, therefore, the Alien Property Custodian hereby vests the following property and interests:

All right, title, interest and claim of any kind or character whatsoever of Ernest Lange in and to the Estate of Richard Oscar Lessing, deceased,

to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

Such property, and any or all of the proceeds thereof, shall be held in an appropriate special account or accounts, pending further determination of the Alien Property Custodian. This shall not be deemed to limit the powers of the Alien Property Custodian to return such property or the proceeds thereof, or to indicate that compensation will not be paid in lieu thereof, if and when it should be determined that such return should be made or such compensation should be paid.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may file with the Alien Property Custodian a notice of his claim, together with a request for a hearing thereon, on Form APC–1, within one year from the date hereof, or within such further time as may be allowed by the Alien Property Custodian.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of said Executive order.

Dated: June 28, 1944.

HILDEGARDE MUELLER MELSHEIMER AND CARMELITA MUELLER MEYERHOFF

Whereas, pursuant to Vesting Order Number 165 of September 24, 1942, the undersigned vested, among other things, the interest of Hildegarde Mueller Melsheimer and Carmelita Mueller Meyerhoff in and to two parcels of real property and improvements thereon known as Graff Building, San Francisco, California, and pursuant to an amendment to Vesting Order Number 165 of August 18, 1943, the undersigned vested, among other things, the said real property, together with all hereditaments, fixtures, improvements, and appurtenances thereto; and

Whereas, it was not intended by such order and the amendment thereto to vest the leasehold interest of any tenant in such real property and the improvements thereto or to disturb in any way the right of any tenant to use and occupy such real property and improvements or to affect adversely in any manner any right, title, interest or privilege any tenant might have in such real property and improvements thereto pursuant to any lease, existing at the time such real

property was vested by the undersigned; and

Whereas, it is considered appropriate to further particularize the actual scope of such order;

Now, therefore, Vesting Order Number 165 of September 24, 1942, as amended by the amendment to Vesting Order Number 165 of August 18, 1943, is hereby further amended by changing to a semicolon the period which follows the words "in the interest, and for the benefit, of the United States" appearing therein, and by inserting immediately after such semicolon the words:

Provided, however, That the property herein vested shall not include any right, title or interest by way of leasehold acquired by any person, firm or corporation, who is not a national of a designated enemy country, by any contract of lease either written or oral, or partly written or partly oral, in and to the aforesaid property nor shall such vesting disturb in any way the right of any such person, firm or corporation to use and occupy the aforesaid property or affect adversely in any way any right, title, interest or privilege any such person, firm or corporation might have as a result of having entered into any such contract of lease.

All other provisions of Vesting Order Number 165 and the amendment thereto and all action taken on behalf of the undersigned in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on December 29, 1943.

EMILIE ALTENBACH AND MARGOT BUCHMULLER

Whereas, pursuant to Vesting Order Number 816 of February 2, 1943, the undersigned vested, among other things, the interests of Emilie Altenbach and Margot Buchmuller in and to a certain parcel of real property and the improvements thereon situated at 8613–8615 South Broadway, Los Angeles, California, and pursuant to an amendment to Vesting Order Number 816 of September 3, 1943, the undersigned vested, among other things, the said real property, together with all hereditaments, fixtures, improvements, and appurtenances thereto; and

Whereas, it was not intended by such order and the amendment thereto to vest the leasehold interest of any tenant in such real property and the improvements thereto or to disturb in any way the right of any tenant to use and occupy such real property and improvements or to affect adversely in any manner any right, title, interest or privilege any tenant might have in such real property and improvements thereto pursuant to any lease, existing at the time such real property was vested by the undersigned; and

Whereas, it is considered appropriate to further particularize the actual scope of such order;

Now, therefore, Vesting Order Number 816 of February 2, 1943, as amended by the amendment to Vesting Order Number 816 of September 3, 1943, is hereby further amended by changing to a semicolon the period which follows the words "in the interest, and for the benefit, of the United States" appearing therein, and by inserting immediately after such semicolon the words:

Provided, however, That the property herein vested shall not include any right, title or interest by way of leasehold acquired by any person, firm or corporation who is not a national of a designated enemy country by any contract of lease either written or oral, or partly written or partly oral, in and to the aforesaid property nor shall such vesting disturb in any way the right of any such person, firm or corporation to use and occupy the aforesaid property or affect adversely in any way any right, title, interest or privilege any such person, firm or corporation might have as a result of having entered into any such contract of lease.

All other provisions of Vesting Order Number 816 and the amendment thereto and all action taken on behalf of the undersigned in reliance thereon, pursuant thereto and under the authority thereof are hereby ratified and confirmed.

Executed at Washington, D. C., on December 29, 1943.

ANNA BECKER

In re: A mortgage account and interest in insurance policies belonging to Anna Becker.

Vesting Order Number 1498, dated May 15, 1943, is hereby amended to read as follows:

Under the authority of the Trading with the Enemy Act, as amended, and Executive Order No. 9095, as amended, and pursuant to law, the undersigned, after investigation, finding:

1. That Anna Becker is a resident of Germany, whose last known address is Klebitzberg 1, Rostock, Mecklenburg, Germany, and is a national of a designated enemy country (Germany);

2. That said Anna Becker is the owner of the property described in subparagraph 3 hereof;

3. That the property described as follows:

a. That certain mortgage executed on January 25, 1938 by Esoran Holding Corporation, as mortgagor, in favor of Mildred Schiller, as mortgagee, and recorded on January 27, 1938 in the Office of the Register of Queens County, New York, in Liber 4406 of Mortgage at page 1, and thereafter assigned to Anna Becker, and any and all obligations secured by said mortgage, including but not limited to all security rights in and to any and all collateral (including the aforesaid mortgage) for any or all such obligations and the right to enforce and to collect such obligations, and the right to the possession of any and all notes, bonds, or other instruments evidencing such obligations,

b. All right, title, interest and claim of any nature whatsoever of Anna Becker in and to any and all obligations, contingent or otherwise, and whether or not matured, owing to Anna Becker by Richter & Kaiser, Inc., and represented on the books of Richter & Kaiser, Inc., as a credit balance due Anna Becker, including, but not limited to, all security rights in and to any and all collateral for any and all such obligations and the right to enforce and collect such obligations, and

c. All right, title and interest of Anna Becker in and to fire insurance policy No. 2474 issued by the Pacific Fire Insurance Company of New York to the Esoran Holding Corporation, and War Damage Corporation Certificate No. 596–54–2902 issued to the Esoran Holding Corporation, Pacific Fire Insurance Company, fiduciary agent,

is property within the United States owned or controlled by a national of a designated enemy country (Germany);

And determining that the property described in subparagraphs 3–b and 3–c hereof is necessary for the maintenance or safeguarding of other property (namely, that property described in subparagraph 3–a hereof) belonging to the same national of the same designated enemy country and subject to vesting (and in fact vested by this order) pursuant to Section 2 of said Executive order;

And further determining that to the extent that such national is a person not within a designated enemy country, the national interest of the United States requires that such person be treated as a national of a designated enemy country (Germany);

And having made all determinations and taken all action, after appropriate consultation and certification required by law, and deeming it necessary in the national interest,

hereby vests in the Alien Property Custodian the property described in subparagraph 3 hereof, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest, and for the benefit, of the United States.

The Alien Property Custodian has heretofore vested, or is about to vest, by Vesting Order Number 1506, the real property owned by Heinrich Brader and Beata Brader covered by the mortgage referred to in subparagraph 3–a hereof. It is not intended by vesting hereby the obligation secured by the said mortgage and vesting by Vesting Order Number 1506, the real property covered by the said mortgage, that the said mortgage be merged into the fee hereof, but it is intended to preserve the said mortgage separate and distinct from the fee.

Such property and any or all of the proceeds thereof shall be held in an appropriate account or accounts, pending further determination of the Alien Property Custodian. This order shall not be deemed to limit the power of the Alien Property Custodian to return such property or the proceeds thereof in whole or in part, nor shall this order be deemed to indicate that compensation will not be paid in lieu thereof, if and when it should be determined to take any one or all of such actions.

Any person, except a national of a designated enemy country, asserting any claim arising as a result of this order may, within one year from the date hereof, or within such further time as may be allowed, file with the Alien Property Custodian on Form APC–1 a notice of claim, together with a request for a hearing thereon. Nothing herein contained shall be deemed to constitute an admission of the existence, validity or right to allowance of any such claim.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order No. 9095, as amended.

Executed at Washington, D. C., on June 28, 1944.

[MPR 445, Order 338]

DOMESTIC DISTILLED SPIRITS

AUTHORIZATION OF MAXIMUM PRICES

For the reasons set forth in an opinion issued simultaneously herewith and in accordance with section 7.3a of Maximum Price Regulation 445, it is Ordered that:

SECTION 1. *Explanation of this order*—(a) *Purpose.* This order is issued to establish (where necessary) and to gather into a single document the most important provisions relative to ceiling prices of sellers of "Park & Tilford Reserve Distribution" whiskey to be sold in the first instance by Park & Tilford Import Corporation (a New York corporation) to the stockholders of Park & Tilford, Inc. (a Delaware corporation); to establish ceiling prices for the transfer of "whiskey purchase agreements" by stockholders of Park & Tilford, Inc.; to establish ceiling prices for "clearing" that whiskey; to require certain sellers of that whiskey to make reports to the Office of Price Administration and to afford a convenient means of directing attention to and giving notice of those ceiling prices and requirements.

(b) *Certain definitions.* "Cane spirits" whiskey as used in this order means a blend of 30% whiskey (5%, aged 7 years and 25%, aged 4 years) and 70% Cuban cane products neutral spirits, 86.8 proof, in a package containing 4/5 quart thereof, bearing the brand name of "Park & Tilford Reserve Distribution" on its front label. A case of that whiskey means 12 of such packages in an individual shipping container.

"Grain spirits" whiskey as used in this order means a blend of 30% whiskey (5%, aged 7 years and 25%, aged 4 years) and 70% domestic grain neutral spirits, 86.8 proof, in a package containing 4/5 quart thereof, bearing the brand name "Park & Tilford Reserve Distribution" on its front label. A case of that whiskey means 12 of such packages in an individual shipping container.

"Park & Tilford Reserve Distribution" whiskey as used in this order includes both cane spirits whiskey and grain spirits whiskey, as defined herein.

"Price" as used in this order means the consideration requested or received in connection with the sale of merchandise or supplying of a service.

"Ceiling price" as used in this order means the highest price that may be charged, demanded, paid or received.

"Assignee" as used in this order means any person who has acquired one or more whiskey purchase agreements by assignment from a special seller.

"Person" as used in this order means an individual, corporation, partnership, association, any other organized group of persons, and legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government or any of its political subdivisions, or any agency of the foregoing.

"Clearing" as used in this order means the service performed by a wholesaler, retailer or monopoly state in receiving "Park & Tilford Reserve Distribution" whiskey, sold by Park & Tilford Import Corporation to a stockholder, and delivering the whiskey to or for the account of that stockholder, his designated licensee or their legal representatives. The term also includes handling incident to receipt or delivery. Receiving and delivering such whiskey as a nominal purchaser, for accommodation of another, shall be deemed "clearing".

"Stockholder" as used in this order means any person who, at the close of business on June 23, 1944 was a registered owner of common stock of Park & Tilford, Inc.

"Running weighted average net cost" as used in this order means the amount obtained by:

(1) *With reference to cane spirits whiskey.* (i) Determining his net cost in accordance with Section 5.3 of Maximum Price Regulation 445 for each case of cane spirits whiskey in the seller's stock on the date of computation. For the purpose of determining the net cost for his most recent shipment of cane spirits whiskey, the seller shall use as his supplier's price, amounts determined in accordance with the applicable provisions of subdivisions (*a*), (*b*) or (*c*) of section 7 of this order. If two or more shipments of cane spirits whiskey have been received (exclusive of the most recent shipment), the net cost to be used for any of the cane spirits whiskey remaining in the seller's stock on the date of computation shall be his most recent running weighted average net cost for that whiskey.

(ii) Adding together the resulting figures obtained at (i); and

(iii) Dividing the sum obtained at (ii) by the total number of cases of cane spirits whiskey in the seller's stock.

(2) *With reference to grain spirits whiskey.* (i) Determining his net cost in accordance with Section 5.3 of Maximum Price Regulation 445 for each case of grain spirits whiskey in the seller's stock on the date of computation. For the purpose of determining the net cost for his most recent shipment of grain spirits whiskey, the seller shall use as his supplier's price, amounts determined in accordance with the applicable provisions of subdivisions (*a*), (*b*) or (*c*) of section 7 of this order. If two or more shipments of grain spirits whiskey have been received (exclusive of the most recent shipment), the net cost to be used for any of the grain spirits whiskey remaining in the seller's stock on the date of computation shall be his most recent running weighted average net cost for that whiskey.

(ii) Adding together the resulting figures obtained at (i); and

(iii) Dividing the sum obtained at (ii) by the total number of cases of grain spirits whiskey in the seller's stock.

"Plan" as used in this order means the offer dated May 26, 1944, made by Park & Tilford Import Corporation to the stockholders.

"Special seller" as used in this order means a person not customarily engaged in the business of buying and selling packaged distilled spirits as a wholesaler, retailer, primary distributing agent or monopoly state, who, by assignment of a whiskey purchase agreement or otherwise, sells or offers for sale "Park & Tilford Reserve Distribution" whiskey in accordance with a special license or permit authorizing him to receive and dispose of that whiskey, issued under applicable state laws or regulations. It also includes a person who sells or offers to sell such whiskey without license or permit.

"Whiskey Purchase Agreement" as used in this order means a contract to purchase "Park & Tilford Reserve Distribution" whiskey entered into by and between a stockholder and Park & Tilford Import Corporation, pursuant to the plan.

(c) *April 1, 1944, increase in Federal excise taxes.* The ceiling prices of "Park & Tilford Reserve Distribution" whiskey provided in this order include Federal excise taxes at rates in effect prior to April 1, 1944. The increase in the Federal excise tax effective April 1, 1944, applicable to "Park & Tilford Reserve Distribution" whiskey is $6.26 per case. If the seller's maximum price includes the increase in Federal excise tax, the seller must state on his invoice to the customer that the prices in the invoice include the increase effective April 1, 1944, in United States excise taxes and that no markup may be applied to the amount thereof. A statement in substantially the following language upon the face of the invoice shall be deemed compliance with this provision:

Our invoice price includes the increase effective April 1, 1944, in Federal excise taxes. OPA regulations prohibit a markup on the amount thereof.

SEC. 2. *Ceiling prices for sales of "Park & Tilford Reserve Distribution" whiskey by special sellers, other than by assignment of whiskey purchase agreements*—(a) *Prices.* The ceiling prices of a special seller for a sale of "Park & Tilford Reserve Distribution" whiskey other than by assignment of a whiskey purchase agreement are as follows:

(1) *Sales to wholesalers, primary distributing agents and monopoly states.* Ceiling prices per case, f. o. b. special seller's shipping point, are the total of the following:

(i) $20.17 per case of grain spirits whiskey or $23.61 per case of cane spirits whiskey; plus

(ii) Freight per case from the platform of the warehouse from which Park & Tilford Import Corporation shipped the whiskey to the special seller's receiving point paid by him with respect to the whiskey being priced; plus

(iii) Applicable state and local excise taxes at rates in effect on November 2, 1942, imposed on and paid by the special seller with respect to the whiskey being priced; plus

(iv) 15% of the total of (i), (ii), and (iii) immediately above; plus

(v) $6.26 per case, if the April 1, 1944 Federal excise tax increase is paid by the special seller with respect to the whiskey being priced; plus

(vi) The applicable amount of any new state or local excise tax first imposed by statute effective after November 2, 1942, and the applicable amount of any increase effective after November 2, 1942 in state or local excise taxes on that date, imposed on and paid by the special seller with respect to the whiskey being priced.

(3) *Sales of individual packages.* A special seller's ceiling price for sales of one or more individual packages of cane spirits or grain spirits whiskey to a purchaser of any class shall be 1/12th of his ceiling price per case for cane spirits or grain spirits whiskey, respectively, to a purchaser of that class, multiplied by the number of individual packages being priced.

SEC. 3. *Ceiling prices for sales of "Park & Tilford Reserve Distribution" whiskey by special sellers by assignments of whiskey purchase agreements*—(a) *Prices.* The ceiling prices of a special seller for sales of "Park & Tilford Reserve Distribution" whiskey by assignment of a whiskey purchase agreement are as follows:

(1) $20.17 per case of grain spirits whiskey or $23.61 per case of cane spirits whiskey, if paid by the special seller; plus

(2) Freight per case from the platform of the warehouse from which Park & Tilford Import Corporation shipped the whiskey to the designated assignee's receiving point if paid by the special seller with respect to the whiskey being priced; plus

(3) Applicable state and local excise taxes imposed on and paid by the special seller with respect to the whiskey being priced; plus

(4) $6.26 per case, if the April 1, 1944 Federal excise tax increase is paid by the special seller with respect to the whiskey being priced; plus

(5) $3.46 per case less clearing charges not exceeding $1.00 per case for each clearing that may be required to permit actual delivery to the assignee of the whiskey being priced. However, this amount may only be added with respect to sales to assignees who are not wholesalers, monopoly states or primary distributing agents.

SEC. 4. *Reports by special sellers.* A special seller selling, assigning, or transferring, by gift or otherwise, any "Park & Tilford Reserve Distribution" whiskey

shall file a report of the sale, assignment or transfer, with the District Office of the Office of Price Administration having jurisdiction over the territory in which the special seller resides. The report shall be in writing, signed by the special seller, shall be filed within 5 days after the sale, assignment or transfer has been made and shall contain statements showing:

(1) The name and address of the special seller filing the report.

(2) The name and address of the buyer, transferee or assignee.

(3) The date of the sale, assignment or transfer.

(4) The quantity (in terms of cases) of the whiskey sold, transferred or assigned, in the transaction reported.

(5) The special seller's ceiling price for the sale, assignment or transfer of the whiskey described in the report and his computation thereof.

(6) The total price which the buyer, assignee or transferee paid or contracted to pay for the whiskey sold, assigned or transferred, or if the transfer was made as a gift, a statement to that effect.

(7) The amount of all clearing charges which the special seller has paid with respect to the quantity of whiskey described in the report and the name and address of the persons to whom they were paid.

(8) Whether to the knowledge of the special seller, the buyer, assignee or transferee has paid or contracted to pay any commission, brokerage or fee in connection with the sale, assignment or transfer reported, and if known to the special seller, the amount thereof and the name and address of each person to whom payment thereof is to be or has been made.

The report required by this paragraph need not be filed if the quantity of such whiskey sold, assigned or transferred by the special seller to the buyer, assignee or transferee (in all transactions with that buyer, assignee or transferee) totals less than one case.

SEC. 5. *Ceiling prices for sales of "Park & Tilford Reserve Distribution" whiskey by wholesalers*—(a) *Initial ceiling prices.* The initial ceiling prices of a wholesaler for sales of "Park & Tilford Reserve Distribution" whiskey to customers of a particular class shall be the appropriate amounts determined in accordance with the provisions of Maximum Price Regulation 445 applicable to wholesalers, using, however, $20.17 per case of grain spirits whiskey or $23.61 per case of cane spirits whiskey, respectively, as his supplier's selling price (exclusive of state or local excise taxes) for purposes of determining his net cost for such whiskey he purchases from any seller.

(b) *Changes in ceiling prices.* Wholesalers who receive a purchase of either grain spirits or cane spirits whiskey after receipt of their first purchase thereof from any seller shall refigure their ceiling prices for that particular whiskey and such refigured ceiling prices shall become their ceiling prices therefor, all as provided in accordance with provisions of Maximum Price Regulation 445 applicable to wholesalers. For purposes of refiguring ceiling prices, any purchase of grain spirits or cane spirits whiskey, respectively, but no purchase of any whiskey of a different brand name, shall be deemed a "base purchase" thereof within the meaning of section 5.4 (c) of that regulation.

SEC. 6. *Ceiling prices for sales of "Park & Tilford Reserve Distribution" whiskey by monopoly states*—(a) *Initial ceiling prices.* The initial ceiling prices of a monopoly state for sales of "Park & Tilford Reserve Distribution" whiskey to customers of a particular class shall be the appropriate amounts determined in accordance with the provisions of Maximum Price Regulation 445 applicable to monopoly states, using, however, $20.17 per case of grain spirits whiskey or $23.61 per case of cane spirits whiskey, respectively, as its supplier's selling price (exclusive of state excise taxes) for purposes of determining its net cost for such whiskey it purchases from any seller.

(b) *Changes in ceiling prices.* Monopoly states which receive a purchase of either grain spirits or cane spirits whiskey after receipt of their first purchases thereof from any seller shall refigure their ceiling prices for that particular whiskey and such refigured ceiling prices shall become their ceiling prices therefor, all as provided in accordance with provisions of Maximum Price Regulation 445 applicable to monopoly states. For purposes of refiguring ceiling prices, any purchase of grain spirits or cane spirits whiskey, respectively, but no purchase of any whiskey of a different brand name, shall be deemed a "base purchase" thereof within the meaning of section 5.6 (c) of that regulation.

SEC. 7. *Ceiling prices for sales of "Park & Tilford Reserve Distribution" whiskey by retailers*—(a) *Prices.* The ceiling prices of a retailer for sales of "Park & Tilford Reserve Distribution" whiskey shall be as follows:

(1) *Sales to consumers*—(i) *Initial ceiling prices.* The initial ceiling prices of a retailer for sales of "Park & Tilford Reserve Distribution" whiskey to consumers shall be the appropriate amounts determined in accordance with provisions of Maximum Price Regulation 445 applicable to retailers using, however, as his supplier's selling price for purposes of determining his net cost for such whiskey, the following:

(*a*) If purchased from a wholesaler or special seller (otherwise than by assignment of a whiskey purchase agreement) the appropriate amount for cane or grain spirits whiskey respectively, determined in accordance with section 5.3 (b) (1) of Maximum Price Regulation 445.

(*b*) If purchased from Park & Tilford Import Corporation as a stockholder, $20.17 per case of grain spirits whiskey or $23.61 per case of cane spirits whiskey respectively (exclusive of state or local excise taxes).

(*c*) If purchased by assignment of a whiskey purchase agreement, the appropriate amount specified under (*b*) above, plus the amount properly included in the special seller's price pursuant to section 3 (a) (5) of this order.

(ii) *Changes in ceiling prices*—(*a*) *With reference to cane spirits whiskey.* Retailers who receive a purchase of cane spirits whiskey after receipt of their first purchase thereof, from any seller, shall refigure their ceiling prices for cane spirits whiskey and such refigured ceiling prices shall become their ceiling prices, therefor, in accordance with the provisions of Maximum Price Regulation 445 applicable to retailers except that a retailer shall use his "running weighted average net cost" instead of his "net cost for his most recent purchase" in determining his refigured ceiling prices for that whiskey. For purposes of refiguring ceiling prices, any purchase of cane spirits whiskey, but no purchase of any whiskey of a different brand name, or of grain spirits whiskey, shall be deemed a "base purchase" thereof within the meaning of section 5.5 (c) of that regulation.

(*b*) *With reference to grain spirits whiskey.* Retailers who receive a purchase of grain spirits whiskey after receipt of their first purchase thereof, from any seller, shall refigure their ceiling prices for grain spirits whiskey and such refigured ceiling prices shall become their ceiling prices therefor, in accordance with the provisions of Maximum Price Regulation 445 applicable to retailers except that a retailer shall use his "running weighted average net cost" instead of his "net cost for his most recent purchase" in determining his refigured ceiling prices for that whiskey. For purposes of refiguring ceiling prices, any purchase of grain spirits whiskey, but no purchase of any whiskey of a different brand name, or of cane spirits whiskey, shall be deemed a "base purchase" thereof within the meaning of section 5.5(c) of that regulation.

(2) *Sales to wholesalers, primary distributing agents, monopoly states and other retailers.* The ceiling prices of a retailer for sales of "Park & Tilford Reserve Distribution" whiskey to wholesalers, primary distributing agents, monopoly states and other retailers shall be his "running weighted average net cost" for grain spirits or cane spirits whiskey, respectively, at the date of sale.

(b) *Records.* Any retailer selling "Park & Tilford Reserve Distribution" whiskey shall, for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, keep available for inspection by the Office of Price Administration, records of the same kind as he customarily keeps, and in addition thereto (unless his customary records so show), records showing separately for grain spirits and cane spirits whiskey, the date of each of his purchases of such whiskey, the name and address of the seller, the number of cases purchased, his net cost for the purchase and his computation of his running weighted average net cost for that whiskey.

SEC. 8. *Persons unable to determine ceiling prices.* A person who cannot determine his ceiling price for a particular sale of grain spirits or cane spirits whiskey under the provisions of this order, shall apply by letter to the Office of Price Administration, Washington, D. C., requesting that a ceiling price be established for that sale. The letter shall contain statements setting forth:

(a) The name and address of the person making application.

(b) Whether the whiskey to be sold is grain spirits or cane spirits whiskey, or both, and the quantity of each.

(c) The reason why a ceiling price for the sale cannot be determined under the provisions of this order.

After receipt of the application, the Office of Price Administration will, by order, authorize a ceiling price for the applicant or for sellers of the whiskey generally, including purchasers for resale, or for a class of such sellers. Until a ceiling price is authorized, the applicant is prohibited from making any sales or deliveries of "Park & Tilford Reserve Distribution" whiskey.

SEC. 9. *Notice of this order to be given by Park & Tilford Import Corporation.* (a) Concurrently with the mailing of whiskey purchase agreements to all stockholders, as provided in the plan, Park & Tilford Import Corporation shall deliver or mail a copy of this order to all stockholders (as defined herein).

(b) Concurrently with its acceptance and approval of an assignment of a whiskey purchase agreement, Park & Tilford Import Corporation shall deliver or mail a copy of this order to the assignee.

(c) Concurrently with its receipt of a notification that the consignee of any shipment of "Park & Tilford Reserve Distribution" whiskey is a person other than a stockholder or assignee, Park & Tilford Import Corporation shall deliver or mail a copy of this order to said consignee.

(d) Concurrently with its receipt of either an amendment to this order or a separate order modifying or changing any of the provisions herein contained, Park & Tilford Import Corporation shall deliver or mail a copy of the said amendment or separate order to all stockholders, assignees and consignees.

(e) Park & Tilford Import Corporation shall not be required to deliver or mail more than one copy of this or any other order or any amendment thereto to a particular stockholder, assignee or consignee.

SEC. 10. *Reports by Park & Tilford Import Corporation.* On August 15, 1944 and thereafter on the 15th day of each succeeding month until the 15th day of the month following the last shipment of cane spirits and grain spirits whiskey pursuant to the plan, Park & Tilford Import Corporation shall report all sales, assignments and shipments of whiskey made pursuant to the plan, for the preceding period, to the Office of Price Administration, Washington, D. C. Such reports shall be in writing signed on behalf of Park & Tilford Import Corporation by a person having authority so to do, and shall contain statements showing, with respect thereto:

(a) The name and address of the purchaser.

(b) The name and address of an assignee, if any, and a statement that the assignee has submitted evidence that he is a licensee.

(c) The name and address of the consignee.

(d) The date on which each shipment is made, to whom made, whether of grain spirits or cane spirits whiskey, or both, and the quantities of each (in cases) in each shipment.

SEC. 11. *Ceiling prices for clearing "Park & Tilford Reserve Distribution" whiskey*—(a) *Prices.* Ceiling prices for clearing "Park & Tilford Reserve Distribution" whiskey shall be as follows:

(1) *Clearing by all persons, except monopoly states.* The ceiling price for clearing "Park & Tilford Reserve Distribution" whiskey shall be $1.00 per case, except for monopoly states.

(2) *Clearing by monopoly states.* A monopoly state's ceiling price for clearing "Park & Tilford Reserve Distribution" whiskey shall be the amount obtained by subtracting from $20.17 per case of grain spirits whiskey or $23.61 per case of cane spirits whiskey, the sum of $4.18, and multiplying the resulting figure by the highest percentage of markup in use during March, 1942, for the monopoly state's sales of domestic whiskey to a customer of the same class as the purchaser, according to the statute, ordinance or regulation then prescribing its markup.

(3) *Prohibition.* No consideration or markup in excess of the appropriate amounts stated in subparagraphs (1) and (2) of this paragraph may be charged, received or paid for clearing.

(b) *No charge for clearing in certain instances.* No person acquiring "Park & Tilford Reserve Distribution" whiskey, which he has cleared, shall charge or retain a payment previously received for clearing the whiskey so purchased or received. If a clearing charge has been made or received by any such person with respect to the whiskey so purchased or received, such charge shall be cancelled, or if paid, shall be refunded to the seller or assignor or their nominees.

SEC. 12. *License, brokerage and other fees.* No person may add to, or increase his ceiling prices for "Park & Tilford Reserve Distribution" whiskey, as provided in this order, because of any sum paid for licenses, permits, clearing, brokerage, finder's fees, shares of stock, stock transfer taxes, assignments of purchase privileges or orders or for other expenses not specifically provided for under sections 2 through 7 of this order.

SEC. 13. *Changes in "Park & Tilford Reserve Distribution" whiskey by authorization only.* If Park & Tilford Import Corporation desires to make deliveries of whiskey under the plan, other than cane spirits or grain spirits whiskey (as defined in section 1 (b) of this order), it shall give notice of its desire by letter to the Office of Price Administration, Washington, D. C., stating the nature of the change it proposes to make and requesting that the ceiling prices established in this order be adjusted to reflect that change. At any time after receipt of that notice, the Price Administrator may by separate order or by amendment to this order establish ceiling prices for the sales of the whiskey Park & Tilford Import Corporation desires to deliver. Until such ceiling prices are established Park & Tilford Import Corporation shall not deliver whiskey under the plan other than cane spirits or grain spirits whiskey (as defined in section 1 (b) of this order).

SEC. 14. *Terms of sale.* If any seller, directly or indirectly, requires a purchaser to make or furnish any payment to the seller or to another person in advance of delivery of cane spirits or grain spirits whiskey, or in advance of the rendition of a service for which a ceiling price is established by this order, the seller or such other person must compensate such purchaser by the payment of an amount equal to interest at the rate of 5% per annum on the amount of the advance payment from the date the advance payment is made to the date on which the item is delivered or the service furnished or the advance payment refunded to the purchaser. Such interest shall be payable on the date the item is delivered or the service furnished or the date on which the advance payment is refunded. The seller may not include such interest payment in his maximum price and the purchaser shall not be required to reduce his supplier's price (as an element of his net cost) by the amount of such interest received on the advance payment.

"Seller" as used in this section includes Park & Tilford Import Corporation, any other person selling "Park & Tilford Reserve Distribution" whiskey or clearing that whiskey. However, the term includes a person selling that whiskey by assignment of a whiskey purchase agreement only if the assignee is a wholesaler, monopoly state or primary distributing agent.

SEC. 15. *Miscellaneous.* (a) To the extent consistent with this order, the applicable provisions of Maximum Price Regulation 445 are incorporated herein and shall apply to sales of grain spirits and cane spirits whiskey.

(b) The provisions of this order shall not operate to make lawful or to permit any sale or transfer, or handling or dealing in grain spirits or cane spirits whiskey otherwise prohibited or controlled by Federal, state or local laws, ordinances or regulations, and shall not be deemed a recognition of the validity of the plan.

The foregoing provisions shall not be construed to deprive any person of the benefits of section 205 (d) of the Emergency Price Control Act of 1942, as amended.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall became effective July 3, 1944.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Issued this 1st day of July 1944.

CHESTER BOWLES,
Administrator.

[MPR 188, Order 1802]

UNITED AERO SERVICE

ADJUSTMENT OF MAXIMUM PRICES

Order No. 1802 under § 1499.158 of Maximum Price Regulation No. 188. Manufacturers' maximum prices for specified building materials and consumers' goods other than apparel. Approval of maximum prices for sales of an unfinished combination desk and bookcase manufactured by United Aero Service.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register, and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, and Executive Orders Nos. 9250 and 9328, *It is ordered:*

(a) This order establishes maximum prices for sales and deliveries of an unfinished combination desk and book case manufactured by United Aero Service, 9301 Van Ness Avenue, Inglewood, California.

(1) (i) For all sales and deliveries since the effective date of Maximum Price Regulation No. 188, by the manufacturer to jobbers and by the manufacturer to retailers, the maximum prices are those set forth below:

Article	Maximum price to jobbers	Maximum price to retailers
Unfinished combination desk and bookcase.	$6.98, f. o. b. factory. $7.04, delivered.	$7.58, f. o. b. factory. $7.64, delivered.

The delivered prices set forth above include delivery only within a radius of 15 miles from the factory. These prices are subject to a cash discount of 2% for payment within ten days, net thirty days.

(ii) For all sales and deliveries by the manufacturer to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined by applying to the prices specified in subparagraph (1) (i) of this paragraph (a), the discounts, allowances, and other price differentials made by the manufacturer, during March 1942, on sales of the same type of article to the same class of purchaser and on the same terms and conditions. If the manufacturer did not make such sales during March 1942, he must apply to the Office of Price Administration, Washington, D. C., under the fourth pricing method, § 1499.158, of Maximum Price Regulation No. 188, for the establishment of maximum prices for those sales, and no sales or deliveries may be made until authorized by the Office of Price Administration.

(2) (i) For all sales and deliveries on and after the effective date of this order, to retailers by persons other than the manufacturer, who sell from the manufacturer's stock, the maximum price is that set forth below, f. o. b. factory:

Article	*maximum price to retailers (per unit)*
Unfinished combination desk and bookcase	$7.58

(ii) For all sales and deliveries by persons who sell from the manufacturer's stock, to any other class of purchaser or on other terms and conditions of sale, the maximum prices shall be those determined under the applicable provisions of the General Maximum Price Regulation.

(b) At the time of or prior to the first invoice to each purchaser, other than a retailer, who resells from the manufacturer's stock, the manufacturer shall notify the purchaser for resale of the maximum prices and conditions established by paragraph (a) (2) of this order for such resales. This notice may be given in any convenient form.

(c) This order may be revoked or amended by the Price Administrator at any time.

This order shall become effective on the 3d day of July 1944.

Issued this 1st day of July 1944.

[Rev. Order 33 Under 3 (c)]

U. S. COMMERCIAL CO.

APPROVAL OF MAXIMUM PRICES

Revised Order No. 33 under § 1499.3 (c) of the General Maximum Price Regulation. Approval of maximum prices for sales of portable hand wound phonographs originally purchased by U. S. Commercial Company.

For the reasons set forth in an opinion issued simultaneously herewith and filed with the Division of the Federal Register and pursuant to the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, Executive Order Nos. 9250 and 9328, and in accordance with § 1499.3 (c) of the General Maximum Price Regulation, Order No. 33 is revised to read as follows:

(a) Any person may sell and deliver at wholesale the portable hand wound phonographs described in the application of the United States Commercial Company, Washington, D. C., at a maximum price f. o. b. shipping point no higher than $8.50 per unit for "Model No. 64 Special" and $7.00 per unit for "Model No. R-64 Special." These maximum prices are subject to the seller's customary discounts, allowances, and other price differentials.

(b) Any person may sell to consumers, other than industrial or commercial users, and deliver the portable hand wound phonographs described in the application of the United States Commercial Company, Washington, D. C., at maximum prices f. o. b. New York, New York no higher than $14.25 per unit for "Model No. 64 Special" and $11.75 per unit for "Model No. R-64 Special." These maximum prices are subject to the seller's customary discounts, allowances, and other price differentials.

(c) Before selling or offering for sale any hand wound phonograph pursuant to paragraph (b) of this revised order, the seller must attach securely to such phonograph (or to the original carton if delivered to the ultimate consumer in original cartons) so that it is clearly visible, a durable tag or label containing in easily readable lettering the following statement containing the correct price and model number:

The OPA has established a retail ceiling price of $———(inserting correct figure) for this phonograph Model———(inserting correct Model No.). Lower prices may be charged. This tag may not be removed until after delivery to the consumer.

(d) At the time of or prior to the first invoice to each purchaser for resale, the seller shall notify the purchaser of the maximum prices and the conditions set by this revised Order No. 33 for resales by the purchaser. This notice may be given in any convenient form.

(e) This revised Order No. 33 may be revoked or amended by the Price Administrator at any time.

This revised Order No. 33 shall become effective on the 3d day of July 1944.

Issued this 1st day of July 1944.

Dual rear 9.00 x 20, 10 ply, 8" rims, 6 stud hubs	240.25
(c) Eaton 2-speed Rear Axle (16,050 lbs.) for 2 ton models	157.80

5. An undesignated paragraph to follow paragraph (h) is added to read as follows:

NOTE: Where the manufacturer has an established price in accordance with § 1390.6 of Maximum Price Regulation No. 136, as amended, which is higher than a price permitted under paragraph (a) or (b), because of a substantial specification change or material substitution in the truck, the reseller may add to his price under paragraph (c) or (d) the increase in cost to him over the price he would otherwise pay under paragraph (a) or (b) plus his customary mark-up on such cost.

This amendment shall be effective as of June 19, 1944.

Issued this 3d day of July 1944.

BITUMINOUS COAL IN HARTFORD, CONN., AREA

Amendment No. 6 to Order No. G-70 under Revised Maximum Price Regulation No. 122. Solid fuels sold and delivered by dealers. Specific maximum prices for solid fuels within specified areas in Region I.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of Region I of the Office of Price Administration by §§ 1340.259 (a) (1) and 1340.260 of Revised Maximum Price Regulation No. 122 and the Emergency Price Control Act of 1942, as amended, subparagraph (6) containing Appendix 6, is hereby added to paragraph (o) of Region I Order No. G-70 under Revised Maximum Price Regulation No. 122 to read as follows:

(o) *Appendices establishing specific maximum prices.* * * *

(6) *Appendix 6: Specified bituminous coal; Hartford, Connecticut, Area*—(a) *Maximum prices established by this Appendix 6.* This Appendix 6 establishes specific maximum prices for sales of specified bituminous coal, defined in

paragraph (f) hereof, in the Hartford, Connecticut, Area by dealers, and for specified services rendered by dealers in connection with the sale or handling of said coal. Maximum prices are established for sales on a delivered basis. The Hartford, Connecticut Area shall include the following cities and townships in the State of Connecticut: Bloomfield, East Hartford, Glastonbury, Hartford, Newington, Rocky Hill, South Windsor, West Hartford, Wethersfield, and Windsor.

(b) *Schedule of maximum prices: Sales on a delivered basis.* All prices are per net ton. Customer classifications also refer to net tons, and are defined and explained in paragraph (e), below.

Kind of coal	Customer classifications			
	Less than 10	10 to 99	100 to 299	300 or over
Screened lump	$11.70	$10.70	$10.20	$9.95
Run of mine	11.03	10.03	9.53	9.28
Hughes modified run of mine	11.48	10.48	9.98	9.73
Big vein dealer run of mine	11.43	10.43	9.93	9.68
Broad top run of mine	11.28	10.28	9.78	9.53
Big Sewell 2¼" nut & slack	11.20	10.20	9.70	9.45
Nut & slack	10.85	9.85	9.35	9.10
Stoker pea	10.85	9.85	9.35	9.10
Eureka lumpy run of mine	11.23	10.23	9.73	9.48
Sonman lumpy run of mine	11.23	10.23	9.73	9.48
Glenmar lumpy run of mine	11.18	10.18	9.68	9.43

(c) *Maximum authorized service charges.* (1) The prices set forth in the Table of Prices in paragraph (b) are for delivery of the coal into customer's bin. No additional charge shall be added thereto for carrying or wheeling from truck to bin, or for trimming within the bin, except that for deliveries one story or more above street level a charge of twenty-five (25) cents per ton per flight of stairs may be added.

(2) In addition to the maximum prices set forth in paragraph (b), the dealer may charge not more than seventy-five (75) cents per net ton for coal stored during the usual heating season by the dealer for the account of the customer; *Provided*, That no charge for storage may be made unless the dealer receives a written statement from the customer (which the dealer shall preserve for not less than two years) requesting such storage, the coal which is the subject of the charge is ear-marked as that customer's coal and is stored separate and apart from all other coal owned by the dealer or by other customers of the dealer (except that when the same kind of coal is properly stored for the account of two or more customers, these customers' coal may be mingled in one pile with a proper record of the respective amounts belonging to each customer) prior to the beginning of the usual heating season, and the customer pays for all of the coal so stored upon its being placed in storage.

(d) *Terms of sale.* Terms of sale may be net cash, but no additional charge shall be made for the extension of credit if payment is received by the tenth day of the month following the month in which the coal is delivered. For the extension of credit beyond the tenth day of the month following the month in which the coal is delivered, interest may be charged at a rate not to exceed one-half of one per cent per month.

(e) *Customer classifications.* The classification of a customer in one of the tonnage classifications set forth in the Table of Prices in paragraph (a) shall be made upon the basis of that customer's total annual consumption of all solid fuels (except wood and wood products) even though he may purchase portions thereof from two or more dealers, and regardless of the number of points to which delivery is made: *Provided, however*, That if the total annual consumption at a particular point of delivery is less than ten tons, the "less than 10" ton price may be charged for the coal which is delivered to that point regardless of the customer's total annual consumption, although such deliveries shall be included in the determination of the customer's classification in arriving at the price applicable to deliveries to points at which the annual consumption is ten tons or more. (For example, Mr. X uses 50 tons of Run of Mine annually at Point A; 45 tons annually at Point B; and 8 tons annually at Point C. The maximum price for the coal delivered to Point C is $11.03 (the "less than 10" price), but the maximum price for the remaining 95 tons is $9.53 (the "100 to 299" price), and not $10.03 (the "10 to 99" price), since his total annual consumption at all three points is 103 tons).

In the event that it is impossible for any reason to determine the customers proper classification at the time of the sale or delivery (as, for example, in the case of a customer who converts from oil to coal), an estimate shall be made of his probable consumption, he shall be tentatively classified upon the basis of that estimate, and the dealer or dealers supplying him shall make an appropriate refund and may require that the customer agree to pay an appropriate additional amount if, when his actual classification has been determined, it appears that he was entitled to a lower price or could properly have been charged a higher one.

(f) *Definitions of coals.* (1) The maximum prices set forth in the Table of Prices in paragraph (b) shall apply to all bituminous coals which come within the following definitions and (a) are produced in Producing Districts 1 and 3, or (b) are produced in any other Producing District and mixed with coal produced in District 1 or 3, or both:

(a) "Screened lump" means bituminous coal which has been passed over screens with two (2) inch or larger openings, or which has been forked from a bin or storage pile with forks the tines of which are not less than two (2) inches apart, in the dealer's yard or storage facilities.

(b) "Run-of-mine" means the whole product of the mine from which no part of the coal which has passed over a screen, or which has been forked, has been removed; except those run of mine coals which are separately priced and defined when they are stored, handled, billed and delivered separately.

(c) "Hughes modified run of mine" means the coal produced by C. A. Hughes and Company at its Hughes No. 2 Mine, Mine Index No. 217, in District No. 1.

(d) "Big Vein dealer run of mine" means coal in Size Group 1 which is produced at any mine in the Big Vein or Tyson Seams in Subdistrict Nos. 43 and 44 in District No. 1.

(e) "Broad Top run of mine" means coal in Size Group 3 which is produced at any mine in Subdistrict No. 39 (Broad Top Region) in District No. 1.

(f) "Nut & slack" means all of the coal which, at the mine, has passed through a screen with a mesh not larger than two and one-half (2½) inches or smaller than three-quarters (¾) of an inch except "Big Sewell 2¼ nut and slack" when it is stored, handled, billed and delivered separately.

(g) "Big Sewell 2¼ nut and slack" means coal in Size Group 3 produced by Walker Coal Mining Co. at its Big Sewell No. 2 Mine, Mine Index No. 1272, in District No. 3.

(h) "Stoker pea" means coal which has been double-screened at the mine and which passes through a screen with one and one-quarter (1¼) inch mesh, and over a screen with a mesh at least three-eighths (⅜) of an inch.

(i) "Eureka lumpy run of mine" means coal in Size Group 1, Price Classification A, produced by the Berwind-White Coal Mining Company in District No. 1.

(j) "Sonman lumpy run of mine" means either of the following coals, both of which are produced in District No. 1 and are in Size Group 1, Price Classification A:

(i) Produced by Koppers Coal Division of Eastern Gas & Fuel Associates at the Sonman B mine, Mine Index #476.

(ii) Produced by W. H. Piper & Company, Inc. at the Sonman #2 mine, Mine Index #474.

(k) "Glenmar lumpy run of mine" means coal in Mine Group 1, Price Classification B, produced by Moshannon Smithing Coal Company at its Glenmar #1 mine, Mine Index #179, in District No. 1.

(2) All other bituminous coal delivered in the Hartford, Connecticut, Area by dealers (that is, all bituminous coal produced in Producing Districts 1 and 3 which does not fall within any of the foregoing definitions; all bituminous coal produced in other districts which is not mixed with coal produced in Districts 1 or 3, or both; and any mixture of coal produced in other districts with coal produced in Districts 1 and 3, which mixture does not fall within any of the foregoing definitions) shall remain subject to Revised Maximum Price Regulation No. 122, shall be priced under the appropriate pricing rule in § 1340.254 (b) thereof, and shall be reported in accordance with § 1340.262 (c) thereof.

This amendment No. 6 shall become effective June 26, 1944.

SWEET CHERRIES IN WAYNE COUNTY, MICH.

Order No. G-5 under Maximum Price Regulation No. 426. Order adjusting maximum wholesale prices of sweet cherries sold in Wayne County, Michigan.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Office and Administrator of Region III by Article III, section 15, Appendix J, paragraph (i) (4) of Maximum Price Regulation No. 426 and by the Regional Administrator delegated to the Detroit District Office or District Director thereof, it is hereby ordered:

(a) *Primary receivers selling ex-car, ex-truck, ex-dock, ex-terminal sales platform.* For sales ex-car, ex-truck, ex-dock or ex-terminal sales platform at a terminal market or any wholesale receiving point by primary receivers in less-than-carlots or less-than-trucklots, the maximum price shall be the maximum delivered price (see Column 6 of the applicable table in paragraph (d) of Appendix J), plus the mark-up named in Column 5 of the table in Exhibit A of this order.

(b) *Definitions.* The terms used in this order shall have the same meaning that they have when used in the Appendix J except as herein modified or changed. The term "terminal sales platform" means a platform at a railroad terminal used for the purpose of making displays and sales of cars of produce and other perishables which are held on track regardless of whether such terminal platform is used free of charge or whether there is a compensation required to be paid for such use, and which platform is not equipped for permanent storing or warehousing.

(c) To the extent applicable, the provisions of this order supersede Maximum Price Regulation No. 426.

This order may be modified, amended or revoked at any time by the Office of Price Administration.

This order shall become effective June 23, 1944.

(Pub. Laws 421 and 729, 77th Cong.; E.O. 9250, 7 F.R. 7871, and E.O. 9328, 8 F.R. 4681)

Issued this 23d day of June, 1944.

CHATTAHOOCHEE BRICK CO.

Order G-6 under § 1499.161 (a) (2) of Maximum Price Regulation No. 188. Chattahoochee Brick Company, Chattahoochee, Georgia; Docket No. IV-188-47.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator and by § 1499.161 (a) (2) of Maximum Price Regulation No. 188, *It is hereby ordered:*

(a) That on and after the effective date of this order the Chattahoochee Brick Company of Chattahoochee, Georgia, hereinafter referred to as applicant, may sell and deliver common brick manufactured by it at a price not in excess of the prices hereinafter set forth to the different classes of purchasers:

Common brick	Maximum f. o. b. plant prices (per M)	Maximum prices delivered within metropolitan delivery zone (per M)
Dealer	$13.00	$14.25
Retail 5-10-M	14.25	15.50
Retail 1-4-M	15.25	16.50

(b) When deliveries of common brick are made by applicant outside of the metropolitan delivery zone applicant is permitted under this order to add to the above maximum delivered prices for such deliveries the following amounts: For distances up to and including five miles beyond metropolitan delivery zone, 42¢ per thousand, and over five miles and up to and including ten miles beyond metropolitan delivery zone, 83¢ per thousand.

(c) For the purposes of this order "Metropolitan delivery zone" is defined as any point within a radius of fifteen air miles from applicant's plant.

(d) Any person purchasing common brick from applicant for resale, on and after the effective date of this order, and paying therefor a price reflecting permitted increase over the established maximum price of applicant under Maximum Price Regulation No. 188 may add, in selling common brick so purchased, the exact amount of such increase, not to exceed $1.50 per thousand, to its own properly established maximum price.

(e) That all freight allowances, other allowances, discounts, differentiations in classes of purchasers and other differentials customarily made by applicant and all others affected by this order, shall be maintained.

(f) Except as otherwise provided herein, all transactions subject to this order remain subject to all appropriate regulations, including the provisions of Maximum Price Regulation No. 188 and the General Maximum Price Regulation, where applicable, together with all amendments which heretofore have been or which hereafter may be issued.

(g) All requests made by applicant and not specifically herein granted are hereby denied subject to applicant's right to file a protest as provided in Revised Procedural Regulation 1, within sixty days from the date of issuance of this order.

(h) This order may be revoked, corrected or amended by the Office of Price Administration at any time.

This order shall become effective June 12, 1944.

FIREWOOD IN CHATHAM COUNTY, GA.

Order No. G-36 under § 1499.18 (c) of the General Maximum Price Regula-

tion. Firewood sold in Chatham County, Georgia.

For the reasons set forth in an opinion issued simultaneously herewith and under the authority vested in the Regional Administrator of the Office of Price Administration by § 1499.18 (c) of the General Maximum Price Regulation and by General Order No. 32, it is hereby ordered:

(a) *Maximum prices.* On and after the effective date of this order the maximum prices for firewood sold and delivered in Chatham County, Georgia, shall be as set forth below:

(1) Sales at wholesale of pine, oak, and/or mixed firewood: $9.00 per cord.

(2) Retail sales of pine, oak, and/or mixed firewood: $14.00 per cord and $2.00 per load.

(3) The retail price for any part of a load shall be in proportion to the $2.00 per load price; that is, $1.00 per ½ load, 50¢ per ¼ load, etc.

(4) The above prices include delivery to the purchaser's premises and other services incident to the sale of firewood customarily performed by the seller in March, 1942.

(b) *Terms.* All credit terms, discounts, allowances, and price differentials offered by the seller in March, 1942, shall be maintained.

(c) *Definitions.* When used in this order, the terms:

(1) "Firewood" means oak, pine, and/or mixed oak and pine wood other than kindling prepared and intended for consumption as fuel an which is sawed and split into pieces varying from twelve to eighteen inches in length when sold at retail; and oak, pine, and/or mixed oak and pine wood intended for consumption as fuel and cut into pieces four feet in length when sold at wholesale.

(2) A "cord" shall contain 128 cubic feet of firewood. A "cord" according to local custom contains eight loads.

(3) A "load" shall contain 16 cubic feet of wood or be ⅛ of a cord.

(4) "Sale at wholesale" or "selling at wholesale" means a sale or selling to a person in the ordinary course of trade or business who, in turn, sells and delivers to a consumer other than a dealer or commercial user.

(5) "Sale at retail" or "selling at retail" means a sale or selling to a consumer other than a dealer or commercial user.

(6) All other terms used, unless the context otherwise requires, shall be construed in accordance with Section 1499.20 of the General Maximum Price Regulation.

(d) *Invoices and records.* Every person making a sale of firewood for which a maximum price is set by this order shall give the purchaser or his agent at the time of the sale an invoice or other memorandum of sale, which shall show:

(1) The date of sale,

(2) The name and address of the buyer and seller,

(3) The quantity of firewood sold,

(4) Description of firewood sold, in the same manner as it is described in this order. (This shall include the kind of wood, i. e., hard, soft or mixed, and length of pieces of wood.)

(5) Place of sale. (If the price is dependent on place of delivery, then the place of delivery shall be stated.)

(6) The total price of the wood.

On the invoice or memorandum, a separate statement shall be made of any discounts and of each service rendered, such as delivery, carrying and stacking, and the charge made for each such service.

The seller shall keep an exact copy of such invoice or memorandum for a period of two years and such copy shall be made available for inspection by the Office of Price Administration.

(e) *Applicability of Georgia State Office Price Order No. 1, firewood.* This order supersedes and hereby revokes Georgia State Office Price Order No. 1 as of the effective date of this order.

(f) *Applicability of the General Maximum Price Regulation.* Except as otherwise provided herein, or as the context otherwise requires, all sales for which maximum prices are established by this order shall be subject to all of the provisions of the General Maximum Price Regulation together with all amendments, supplementary regulations, and supplementary orders thereto.

(g) This order may be revoked or amended by the Regional Administrator at any time.

NOTE: The record-keeping provision of this order has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This Order No. G–36 shall become effective May 31, 1944.

SOLID FUEL IN DESIGNATED COUNTIES IN NEW YORK

Order No. G–37 under § § 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122—Solid fuels sold and delivered by dealers. Pennsylvania anthracite delivered by dealers in Albany, Columbia, Fulton, Greene, Montgomery, Rensselaer, Saratoga, Schenectady, Schoharie, Ulster, Warren, and Washington Counties, State of New York, Coal Area VI.

For the reasons set forth in an opinion issued simultaneously herewith and under authority vested in the Regional Administrator of the Office of Price Administration by § § 1340.260 and 1340.259 (a) (1) of Revised Maximum Price Regulation No. 122, it is ordered:

(a) *What this order does*—(1) *Dealers' Maximum Prices; area covered*—If you are a dealer in "Pennsylvania anthracite", this order fixes the maximum prices which you may charge, and if you are a purchaser in the course of trade or business, this order fixes the maximum prices which you may pay, for certain sizes and qualities of "Pennsylvania anthracite" (hereinafter called simply "anthracite") delivered to or at any point in the zones comprising State of New York—Coal Area VI. That area comprises twelve counties in the State of New York, falling into eleven zones, as follows:

Zone 1. Zone 1 includes Albany County, except that portion lying east of Route 9W and north of the highway intersecting Route 9W known as Menanda Road; and includes the City of Rensselaer and the Towns of East Greenbush, Nassau, Sandlake, Schodack and Stephentown in Rensselaer County.

Zone 2. Zone 2 includes all of Schenectady County.

Zone 3. Zone 3 includes all of Montgomery County.

Zone 4. Zone 4 includes Fulton County except the Town of Northampton.

Zone 5. Zone 5 includes Saratoga County except the Towns of Corinth, Day, Edinburgh, Hadley, Moreau, Waterford, and Half Moon, and the City of Mechanicville.

Zone 6. Zone 6 includes all of Warren and Washington Counties, the Town of Northampton in Fulton County, the Towns of Berlin, Hoosick and Petersburg in Rensselaer County and the Towns of Corinth, Day, Edinburgh, Hadley and Moreau in Saratoga County.

Zone 7. Zone 7 includes the City of Troy and the Towns of Brunswick, Grafton, North Greenbush, Pittstown, Poestenkill and Schaghticoke in Rensselaer County, the Towns of Waterford and Half Moon, and the City of Mechanicville in Saratoga County, and that portion of Albany County lying east of Route 9W and north of the highway intersecting 9W known as Menanda Road.

Zone 8. Zone 8 includes all of Columbia County.

Zone 9. Zone 9 includes all of Ulster County.

Zone 10. Zone 10 includes all of Greene County.

Zone 11. Zone 11 includes all of Schoharie County.

(2) *Schedules of prices; charges and discounts.* The applicable prices, authorized charges, and required discounts, from which you shall determine the maximum prices for designated sizes and quantities of anthracite delivered within zones 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11 are set forth in Schedules I, II, III, IV, V, VI, VII, VIII, IX, X and XI, respectively.

(3) *To what sales this order applies.* If you are a dealer in anthracite, you are bound by the prices, charges, and discounts, and by all other provisions of this order for all deliveries within Zones 1, 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11.

You shall determine the maximum price for "direct-delivery" sales, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone to which delivery is made, whether or not you are located in one of the eleven zones.

You shall determine your maximum price for a "yard" sale, as hereinafter defined, by reference to the appropriate schedule of this order covering the zone in which the purchaser takes physical possession or custody of the anthracite.

(b) *What this order prohibits.* Regardless of any contract or other obligations, you shall not—

(1) Sell or, in the course of trade or business, buy anthracite of the sizes and in the quantities set forth in the schedules herein, at prices higher than the maximum prices computed as set forth in paragraph (c) of this order, although you may charge, pay, or offer less than maximum prices.

(2) Obtain any price higher than the applicable maximum price by—

(i) Changing the discounts authorized herein, or

(ii) Charging for any service which is not expressly requested by the buyer, or

(iii) Charging for any service for which a charge is not specifically authorized by the applicable schedule of this order, or

(iv) Charging a price for any service higher than the schedule price for such service, or

(v) Using any tying agreement or requiring that the buyer purchase anything in addition to the fuel requested by him, except that a dealer may comply with requirements or standards with respect to deliveries which have been or may be issued by an agency of the United States Government.

(vi) Using any other device by which a higher price than the applicable maximum price is obtained, directly or indirectly.

(c) *How to compute maximum prices.* You must figure your maximum price as follows:

(1) *Use the schedule which covers your sale.* (Schedule I contains a separate table of prices for "Direct-delivery" sales and "yard sales" within Zone 1. You will find Schedule I in paragraph (d). In like manner Schedules II, III, IV, V, VI, VII, VIII, IX, X and XI contain separate tables of prices for similar sales in Zones 2, 3, 4, 5, 6, 7, 8, 9, 10 and 11, respectively. You will find Schedule II in paragraph (e), Schedule III in paragraph (f), Schedule IV in paragraph (g), Schedule V in paragraph (h), Schedule VI in paragraph (i), Schedule VII in paragraph (j), Schedule VIII in paragraph (k), Schedule IX in paragraph (l), Schedule X in paragraph (m), and Schedule XI in paragraph (n).)

(2) Take the dollars-and-cents figure given in the applicable table of the applicable Schedule, for the sizes and quantity you are selling.

(3) Deduct from that figure the amount of the discount which you are required to give, as specified therein. Where a discount is required, you must state it separately on your invoice.

(4) If, at your purchaser's request, you actually render him a service for which this order authorizes a charge, you may add to the figure obtained as above no more than the maximum authorized service charge. You must state that charge separately on your invoice. The only authorized service charges are those provided for in the schedules.

(d) *Schedule I.* Schedule I establishes specific maximum prices for certain sizes of anthracite, in certain specific quantities, delivered to or at any point within Zone 1. There is a separate table of prices for "direct-delivery" sales and "yard sales".

(1) *Sales on a "direct-delivery" basis for sales of anthracite of the sizes and in the quantities specified.*

(o) *Commingling.* If you sell one size of anthracite, commingled with another size of anthracite, your maximum price for the combination shall be the maximum price established in this order for the smallest of the sizes so commingled, whether the sale be a "direct-delivery" sale or "yard sale", except in the following situation. Where a purchaser requests that two or more sizes of anthracite be commingled in one delivery, then, and in that event, if those sizes are separately weighed at the point of loading, the dealer may commingle those sizes in the truck or other vehicle in which the delivery is made. The price for anthracite so commingled shall be calculated on the basis of the applicable per net ton price for each size in the combination, and the invoice shall separately state the price, so determined, for the quantity of each size in the combination.

(p) *Ex parte 148--Freight Rate Increase.* Since the Ex Parte 148 Freight Rate Increase has been rescinded by the Interstate Commerce Commission, dealers' freight rates are the same as those of December 1941. Therefore, you may not increase any Schedule price on account of freight rates.

(q) *Addition of increase in suppliers' maximum prices prohibited.* You may not increase the specific maximum prices established by this order to reflect, in whole or in part, any subsequent increase to you in your supplier's maximum price for the same fuel. The specific maximum prices already reflect increases to you in your supplier's maximum prices occurring up to the effective date of this order. If increases in your supplier's maximum prices should occur after such date, as the result of any amendment to or revision of a maximum price regulation issued by the Office of Price Administration governing sales and deliveries made by such suppliers, the Regional Administrator will, if he then deems it to be warranted, take appropriate action to amend this order to reflect such increases.

(r) *Taxes.* If you are a dealer subject to this order you may collect, in addition to the specific maximum prices established herein, provided you state it separately, the amount of the Federal tax upon the transportation of property imposed by Section 620 of the Revenue Act of 1942 actually paid or incurred by you, or an amount equal to the amount of such tax paid by any of your prior suppliers and separately stated and collected from you by the supplier from whom you purchased. On sales to the United States or any agency thereof, or to the State of New York or any political subdivision thereof, you need not state this tax separately.

(s) *Adjustable pricing.* You may not make a price adjustable to a maximum price which will be in effect at some time after delivery of the anthracite has been completed; but the price may be adjustable to the maximum price in effect at the time of delivery.

(t) *Petitions for amendment.* Any person seeking an amendment of any provision of this order any file a petition for amendment in accordance with the provisions of Revised Procedural Regulation No. 1, except that the petition shall be filed with the Regional Administrator and acted upon by him.

(u) *Right of amendment or revocation.* The Regional Administrator or the Price Administrator may amend, revoke or rescind this order, or any provision thereof, at any time.

(v) *Applicability of other regulations.* If you are a dealer subject to this order, you are governed by the licensing provisions of Licensing Order 1. Licensing Order 1 provides, in brief, that a license is required of all persons making sales for which maximum prices are established. A license is automatically granted. It is not necessary to apply for the license. The license may be suspended for violations in connection with the sale of any commodity for which maximum prices are established. If your license is suspended, you may not sell any such commodity during the period of suspension.

(w) *Records.* If you are a dealer subject to this order, you shall preserve, keep, and make available for examination by the Office of Price Administration, a record of every sale of anthracite hereunder, showing the date, the name and address of the buyer, if known, the per net ton price charged, and the solid fuel sold. The solid fuel shall be identified in the manner in which it is described in the order. The record shall also state separately each service rendered and the charge made for it.

(x) *Posting of maximum prices sales slips and receipts.* (1) If you are a dealer subject to this order, you shall post all your maximum prices (as set forth in the applicable schedule or schedules of this order) in your place of business in a manner plainly visible to and understandable by the purchasing public.

(2) If you are a dealer subject to this order, you shall, except for a sale of less than one-half ton, give each purchaser a sales slip or receipt showing your name and address, the kind, size, and quantity of the anthracite sold to him, the date of the sale or delivery and the price charged, separately stating the amount, if any, of the required discounts which must be deducted from, and the authorized service charges and the taxes, which may be added to, the specific maximum prices prescribed herein.

In the case of all other sales, you shall give each purchaser a sales slip or receipt containing the information described in the foregoing paragraph, if requested by such purchaser or if, during December 1941, you customarily gave purchasers such sales slips or receipts.

(y) *Enforcement.* (1) Persons violating any provision of this order are subject to civil and criminal penalties, including suits for treble damages, provided for by the Emergency Price Control Act of 1942, as amended.

(2) Persons who have any evidence of any violation of this order are urged to communicate with the Albany District Office of the Office of Price Administration, or with the Price Panel of the appropriate War Price and Rationing Board.

(z) *Definitions and explanations.* When used in this Order No. G-37, the term:

(1) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing, and includes the United States or any agency thereof, or any other government, or any of its political sub-divisions, or any agency of any of the foregoing.

(2) "Sell" incdludes sell, supply, dispose, barter, exchange, lease, transfer, and deliver, and contracts and offers to do any of the foregoing. The terms "sale", "selling", "sold", "seller", "buy", "purchase", and "purchaser" shall be construed accordingly.

(3) "Dealer" means any person selling anthracite of the sizes set forth in the Schedules herein, and does not include a producer or distributor making sales at or from a mine, a preparation plant operated as an adjunct of any mine, or a briquette plant.

(4) "Pennsylvania anthracite" means all coal produced in the Lehigh, Schuylkill and Wyoming regions in the Commonwealth of Pennsylvania.

(5) The sizes of "Pennsylvania anthracite" described as broken, egg, stove, nut, pea, buckwheat, rice, barley, and screenings shall refer to the same sizes of the same fuel as were sold and delivered in the State of New York—Coal Area VI with such designations during December 1941. Under no circumstances, however, shall the anthracite contain an ash content in excess of the limits specified by Amendment No. 1 to Solid Fuels Administration for War Regulation No. 9.

"Screenings A" are screenings derived from the primary or initial screening of egg, stove, nut, pea, and buckwheat sizes of anthracite, before any of these sizes have been reclaimed from screenings.

"Screenings B" are the resultant screenings after buckwheat and larger sizes of anthracite have been reclaimed from "Screenings A".

(6) "Direct delivery' means delivery to the buyers bin or storage space.

(7) "Carry" and "wheel" refer to the movement of coal to buyer's bin or storage space in baskets or other containers, or by wheelbarrow or barrel, from seller's truck or vehicle, or from the point nearest and most accessible to the buyer's bin or storage space at which the coal is discharged from seller's truck in the course of "direct delivery".

(8) "Yard sales" means sales accompanied by physical transfer to the buyer's truck or vehicle at the yard, dock, barge, car, or at a place of business of the seller other than at seller's truck or vehicle.

(9) Except as otherwise provided herein, or as the context may otherwise require, the definitions set forth in §§ 1340.255 and 1340.266 of Revised Maximum Price Regulation No. 122 shall apply to terms used herein.

(a) (1) *Effect of order on revised maximum Price Regulation No. 122.* This order shall supersede Revised Maximum Price Regulation No. 122, except as to any sales or deliveries of solid fuels not specifically subject to this order.

NOTE: The record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This order shall become effective July 1, 1944.

(56 Stat. 23, 765; Pub. Law 151, 78th Cong.; E.O. 9250, 7 F.R. 7671 and E.O. 9328, 8 F.R. 4681)

RAILROAD RETIREMENT BOARD.

[Jurisdictional Docket 28]

COLORADO FUEL & IRON CORPORATION

NOTICE OF HEARING

Status under Railroad Unemployment Insurance Act of individuals employed as members of engine crews and switch crews in switching operations for the blast furnace department and the open hearth department of the Colorado Fuel & Iron Corporation (and its predecessor, the Colorado Fuel & Iron Company).

Pursuant to order of the General Counsel of the Railroad Retirement Board, dated June 3, 1944, reopening for further consideration and proceedings pursuant to Regulations, Part 319, of the Railroad Retirement Board (20 Code Fed. Reg., Cum. Supp., Part 319), all issues determined by his opinion of January 19, 1944, L-44-28, relating to the status under the Railroad Unemployment Insurance Act of individuals employed as members of engine crews and switch crews in switching operations for the Blast Furnace Department and the Open Hearth Department of The Colorado Fuel & Iron Corporation (and its predecessor, The Colorado Fuel & Iron Company), and appointing me to serve as examiner for the conduct of such proceedings, notice is hereby given that a hearing will be held Wednesday, July 19, 1944, at 10:00 a. m. in Room 312, United States Post Office Building, Pueblo, Colorado, on the question whether such individuals, with respect to their service as members of engine crews and switch crews in switching operations for the Blast Furnace Department and the Open Hearth Department of The Colorado Fuel & Iron Corporation (and its predecessor, The Colorado Fuel & Iron Company), have been "employees" within the meaning of the Railroad Unemployment Insurance Act.

The Colorado & Wyoming Railway Company, The Colorado Fuel & Iron Corporation, the individuals who have been denied benefits on the basis of pay earned in the above-described switching operations, and all other parties properly interested may participate in the hearing and will be afforded an opportunity to present evidence and to make arguments before the examiner.

In preparation for, and in the conduct of, said hearing, the examiner is authorized to require and compel the attendance of witnesses, administer oaths, take testimony, and make all necessary investigations. A record will be kept of all evidence presented, orally or in writing, at said hearing. The evidence presented orally will be under oath. The examiner may require that copies of all exhibits admitted in evidence at the hearing be furnished by the party offering the same to all other parties participating or entering an appearance in the proceeding.

PAUL M. JOHNSON,
Examiner.

SECURITIES AND EXCHANGE COMMISSION.

COMMUNITY GAS AND POWER CO., ET. AL.

[File Nos. 54-68, 59-55]

NOTICE OF FILING OF APPLICATION FOR EXTENSION OF TIME

At a regular session of the Securities and Exchange Commission held at its office in the City of Philadelphia, Pa., on the 30th day of June A. D. 1944.

In the matter of Community Gas and Power Company, American Gas and Power Company, File No. 54-68; Community Gas and Power Company, American Gas and Power Company, and the subsidiary companies thereof, respondents, File No. 59-55.

The Commission, having entered its order herein (File No. 59-55) on July 2, 1943, pursuant to section 11 (b) of the Public Utility Holding Company Act of 1935, directing, among other things, that American Gas and Power Company dispose of its interests in Birmingham Gas Company, Savannah Gas Company, Jacksonville Gas Company, St. Augustine Gas Company, Bangor Gas Company, Lowell Gas Light Company, and American Utilities Associates; that the corporate existence of Community Gas and Power Company be terminated and that said company be liquidated and dissolved; that the existence of American Utilities Associates be terminated and that American Utilities Associates be liquidated and dissolved; and that American Gas and Power Company change its capital structure into a capital structure consisting of one class of stock, namely, common stock;

Notice is hereby given that on June 13, 1944, Community Gas and Power Company and American Gas and Power Company filed an application herein requesting the entry of an order by this Commission under section 11 (c) of the Act, extending for one year the time within which to comply with said Order dated July 2, 1943. All interested persons are referred to said application, which is on file in the office of the Commission, for a statement of the grounds upon which such extension of time is requested.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held for the purpose of considering said application,

It is ordered, That a hearing on such matters under the applicable provisions of the act and rules of this commission thereunder be held on July 14, 1944, at 10:00 a. m., e. w. t., at the offices of the Commission, 18th and Locust Streets, Philadelphia, Pennsylvania. On such day the hearing room clerk in Room 318 will advise as to the room where such hearing will be held.

It is further ordered, That William W. Swift, or any officer or officers of the Commission designated by it for that purpose, shall preside at the hearing in such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of said act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That without limiting the scope of the issues presented by such application, particular attention will be directed at the hearing to (1) whether the applicants have exercised due diligence to comply with the Commission's Order of July 2, 1943, and (2) whether an extension of time of one year, or of any shorter period, for compliance with said order is necessary or appropriate in the public interest or for the protection of investors or consumers.

It is further ordered, That notice of said hearing is hereby given to Community Gas and Power Company, American Gas and Power Company and their subsidiary companies and to all interested persons; said notice to be given to Community Gas and Power Company and American Gas and Power Company by registered mail, and to all other persons by publication of this notice and order in the FEDERAL REGISTER and by a general release of this Commission distributed to the press and mailed to the mailing list for releases issued under the Public Utility Holding Company Act of 1935.

It is requested that any person desiring to be heard in these proceedings shall file with the Secretary of this Commission on or before July 10, 1944, an appropriate request or application to be heard, as provided by Rule XVII of the Commission's rules of practice.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

THE UNITED CORPORATION

NOTICE OF FILING OF AMENDMENT AND ORDER REOPENING RECORD AND RECONVENING HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 30th day of June 1944.

Notice is hereby given that The United Corporation ("United"), a registered holding company, has filed an amendment to the plan heretofore submitted under section 11 (e) of the Public Utility Holding Company Act of 1935 for the purpose of effectuating compliance with section 11 (b) of said act:

All interested persons are referred to said amendment, designated as Amendment No. 2, on file in the offices of the Commission for a statement of the transactions now proposed, which may be summarized as follows:

Under the plan as heretofore filed and as more fully set forth in Holding Company Act Release No. 4870, United had proposed to offer to exchange for an outstanding share of its $3 Cumulative Preference Stock, and any and all claims to accrued and unpaid dividends thereon, up to and including 1,244,356 shares of such stock, the following:

(a) 1½ shares of the common stock of Philadelphia Electric Company;
(b) ¼ share of the common stock of Delaware Power & Light Company; and
(c) $3.75 in cash.

Under the provisions of Amendment No. 2 to said plan, in lieu of the foregoing securities and cash, United now proposes to offer to exchange for an outstanding share of its $3 Cumulative Preference Stock, and any and all claims to accrued and unpaid dividends thereon, up to and including 1,123,374 shares of such stock, the following:

(a) 1⅗ shares of the common stock of Philadelphia Electric Company; and
(b) $5 in cash.

Hearings having been held with respect to the plan as heretofore proposed and the record closed on May 5, 1944, and said Amendment No. 2 having been filed prior to consideration by the Commission of the record heretofore made, and the Commission deeming it appropriate that a further hearing be held with respect to the amended provisions of said plan;

It is ordered, That the record in this matter be reopened for the purpose of considering the provisions of said amendment;

It is further ordered, That a hearing be held on July 17, 1944, at 11 a. m., e. w. t., at the office of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia, Pennsylvania, in

such room as may be designated on that day by the hearing room clerk in Room 318.

It is further ordered, That Richard Townsend, or any other officer or officers of the Commission designated by it for that purpose, shall preside at the hearing above ordered. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That notice of said hearing be given to The United Corporation by mailing a copy of this notice and order forthwith by registered mail, and that notice be given to all other persons by a general release of this Commission distributed to the press and mailed to the mailing list for releases under the act, and by publication of this notice and order in the FEDERAL REGISTER.

It is further ordered, That any person desiring leave to be heard or otherwise wishing to participate in this proceeding shall notify the Commission on or before July 13, 1944 in the manner provided by Rule XVII of the Commission's rules of practice.

By the Commission.

ARKANSAS-MISSOURI POWER CORP., ET AL.

NOTICE OF FILING AND ORDER FOR AND CONSOLIDATION OF HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pennsylvania, on the 29th day of June, A. D. 1944.

In the matters of Arkansas-Missouri Power Corporation, File No. 70-911; John E. Dwyer, trustee of the estate of Inland Power & Light Corporation, File No. 70-912; and Central States Edison, Inc., File No. 70-913.

Notice is hereby given that Arkansas-Missouri Power Corporation (Arkansas) and John E. Dwyer, Trustee of the Estate of Inland Power & Light Corporation (Inland), both registered holding companies, and Central States Edison, Inc. (Central), also a registered holding company, have filed with this Commission applications and declarations pursuant to sections 6, 7, 9, 10, 11, and 12 and Rules U-44 and U-45 and any other applicable sections of the act or rules thereunder. The applications and declarations concern the acquisition by Central of Inland's investment in its subsidiary, Missouri Edison Company (Missouri Edison), the acquisition by Missouri Edison of Arkansas' investment in its subsidiary, East Missouri Power Company (East Missouri), the contribution by Central of its investment on its subsidiary, Gasconade Power Company (Gasconade), to Missouri Edison, and the acquisition by Missouri Edison of the physical properties and other assets of East Missouri and Gasconade.

All interested persons are referred to said documents, which are on file in the offices of this Commission, for a full statement of the transactions therein proposed, which are summarized below:

1. Central proposes to purchase and Inland proposes to sell 2,400 shares of common stock (all such outstanding shares) of Missouri Edison for $290,481.61, subject to certain closing adjustments, and subject also to the transfer to Inland of any balance remaining in a certain tax escrow fund ($42,000 at March 31, 1944) after payment of tax liabilities, if any.

2. For the purpose of financing the acquisition of Missouri Edison, Central will cause Gasconade to issue to it a three year, 3% note, dated August 1, 1944, and maturing August 1, 1947, in the principal amount of $300,000 in partial payment of existing note indebtedness of Gasconade to Central, aggregating $476,490.32. Central will sell such note to Continental Bank and Trust Company of New York for the sum of $300,000.

3. Central proposes to contribute to Gasconade $176,490.32, representing the remaining balance of the principal amount of the existing note indebtedness of Gasconade to Central and to contribute to Missouri Edison its entire investment in Gasconade which will then consist of the common stock of Gasconade (954 shares of no par value). Thereafter, Gasconade will liquidate and Missouri Edison will acquire all its physical properties and other assets subject to its liabilities.

4. Missouri Edison proposes to purchase (under an assigned contract of purchase between Central and Arkansas) and Arkansas to sell (a) 14,547 shares of common stock (all such outstanding shares) of East Missouri for $600,000 and (b) a $30,000 open account indebtedness of East Missouri to Arkansas for $30,000, subject to certain closing adjustments. Thereafter, East Missouri will be liquidated and Missouri Edison will acquire its physical properties and other assets, subject to its liabilities.

5. For the purpose of financing the acquisition of East Missouri, Missouri Edison will issue, under an Indenture supplemental to its present Indenture, and sell, at private sale, to Connecticut Mutual Life Insurance Company, at a price of 105, $582,000 principal amount of 3¾% First Mortgage Bonds, Series B, dated July 1, 1944, and to mature July 1, 1969.

Central has indicated that the above proposed transactions are preliminary steps in a general program whereby Central will become an operating company and cease to be a holding company. The subsequent portion of the contemplated program, approval of which is not sought at this time, includes the acquisition by Central of the physical properties and assets of Missouri Edison, the sale of Natural Gas Service Company, The Sedan Gas Company and Blue Valley Electric Company wholly owned subsidiaries of Central, and the possible issuance of an undetermined amount of preferred stock, not in excess of $550,000, to the extent necessary (a) to redeem the publicly held preferred stock of Missouri Edison and (b) to pay the balance of the $300,000 note indebtedness to be owing to Continental Bank and Trust Company.

It appearing to the Commission that it is appropriate in the public interest and in the interests of investors and consumers that a hearing be held with respect to said matters, and that said declarations shall not become effective or said applications be granted except pursuant to further order of this Commission; and

It further appearing to the Commission that the issues presented by the declarations and applications of Arkansas (File No. 70-911), of Inland (File No. 70-912), and of Central (File No. 70-913) involve common questions of law and fact and should be consolidated and heard together:

It is ordered, That the proceedings in these matters be, and they hereby are, consolidated and that a consolidated hearing under the applicable provisions of the act and rules of the Commission promulgated thereunder be held on July 14, 1944, at 10:00 a. m., e. w. t., at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania, in such room as the hearing room clerk in room 318 will at that time advise. All persons desiring to be heard or otherwise wishing to participate in the proceeding shall file with the Commission on or before July 10, 1944, a written request relative thereto, as provided by Rule XVII of the rules of practice of the Commission; and

It is further ordered, That Allen MacCullen or any other officer or officers of the Commission designated by it for that purpose shall preside at the hearing in such matters. The officer so designated to preside at any such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice; and

It is further ordered, That, without limiting the scope of the issues presented by said declarations and applications otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

1. Whether the proposed acquisition of Gasconade and East Missouri by Missouri Edison will serve the public interest by tending toward the economical and efficient development of an integrated public utility system or will be detrimental to the carrying out of the provisions of section 11 of the act.

2. Whether the proposed considerations to be received and paid in connection with each of the proposed sales and acquisitions are reasonable and bear a fair relation to the sums invested in or the earning capacity of the assets underlying the securities to be transferred.

3. Whether competitive conditions have been maintained in the negotiations of the proposed acquisitions.

4. Whether the proposed accounting entries on the books of Central and of its subsidiaries conform to the requirements of the act, whether the property accounts of Gasconade, East Missouri, and Missouri Edison, as stated on their respective books, include intangibles, property not used or useful, write-ups, or other inflationary items which should be eliminated or appropriately provided for, and whether the depreciation reserve and the proposed annual provision for maintenance and depreciation are adequate.

5. Whether the proposed issue and sale of securities by Gasconade and Missouri Edison are entitled to an exemption under section 6 (b) of the Act, and, if not, whether such issue and sale of securities meet the requirements of section 7 of the act.

6. Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms and conditions in respect of the proposed transactions and, if so, what the terms and conditions should be.

7. Generally, whether the proposed transactions are detrimental to the public interest or to the interests of investors or consumers or will tend to circumvent any provisions of the act or the rules, regulations or orders promulgated thereunder.

It is further ordered, That notice of the hearing aforesaid be given to the declarants and applicants and to the Missouri Public Service Commission and to all other persons; said notice to be given to the declarants and applicants and Missouri Public Service Commission by registered mail and to all persons by general release of this Commission, which shall be distributed to the press and mailed to the mailing list for releases issued under the act, and by publication in the FEDERAL REGISTER.

It is further ordered, That jurisdiction be, and is hereby reserved to separate, whether for hearing in whole or in part, or for disposition in whole or in part, any of the issues, questions or matters hereinbefore set forth or which may arise in this proceeding, or to consolidate with this proceeding other filings or matters pertaining to the subject matter of this proceeding and to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

By the Commission.

OKLAHOMA POWER AND WATER CO.

ORDER PERMITTING DECLARATION TO BECOME EFFECTIVE

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of June, A. D. 1944.

Oklahoma Power and Water Company, a subsidiary of The Middle West Corporation, a registered holding company, having filed a declaration pursuant to the Public Utility Holding Company Act of 1935 regarding the issuance of $850,000 principal amount of 2% promissory notes due $100,000 on November 27, 1944, $100,000 on March 27, 1945 and $650,000 on July 27, 1945, secured by $1,200,000 principal amount of Oklahoma Power and Water Company's 5% Bonds to certain banks in exchange for 3¾% notes due July 27, 1944 in the same principal amount held by such banks; and

Said declaration having been filed on June 8, 1944 and notice of filing having been given in the form and manner prescribed in Rule U-23 promulgated pursuant to said act and the Commission not having received a request for a hearing with respect to said declaration within the period specified in said notice, or otherwise, and not having ordered a hearing thereon; and Oklahoma Power and Water Company having requested that such declaration be permitted to become effective on or before July 15, 1944; and

The Commission finding under section 7 of said act that the requirements of section 7 (c) are satisfied and that no adverse findings are necessary under section 7 (d) and deeming it appropriate in the public interest an in the interest of investors and consumers to permit said declaration to become effective forthwith:

It is hereby ordered, Pursuant to Rule U-23 and the applicable provisions of said act, and subject to the terms and conditions prescribed in Rule U-24 that the aforesaid declaration be and hereby is permitted to become effective forthwith.

By the Commission.

UNITED UTILITIES, INC., AND CENTRAL GAS UTILITIES CO.

NOTICE OF FILING AND ORDER FOR HEARING

At a regular session of the Securities and Exchange Commission, held at its office in the City of Philadelphia, Pa., on the 30th day of June 1944.

Notice is hereby given that a declaration has been filed by United Utilities, Incorporated (United Utilities) a registered holding company, and The Central Gas Utilities Company (Central Gas), its wholly-owned subsidiary, seeking approval of the sale of a portion of the utility assets of Central Gas, pursuant to section 12 (d) of the Public Utility Holding Company Act of 1935 and that an application has been filed by United Utilities, pursuant to section 3 (a) (1) of the act, requesting, upon consummation of said sale, an order exempting it and every subsidiary company thereof as such from all of the provisions of the Act.

All interested persons are referred to said declaration and application which are on file at the offices of this Commission for a statement of the proposals which are summarized as follows:

Pursuant to an agreement, dated May 1, 1944, Central Gas proposes to sell to Reece E. McGee, of Blackwell, Oklahoma, an individual and non-affiliate, for a cash consideration of $1,000,000 subject to closing adjustments, a portion of its utility assets, consisting of gas wells, pipe lines and gas distribution systems, comprising its Western Division, located in the States of Colorado and Kansas. The proceeds from such sale will be used by Central Gas to discharge a note indebtedness in the principal amount of $349,000, due United Utilities, and to cancel or redeem part of its capital stock.

The applicant states that after consummation of such sale United Utilities and its public utility subsidiaries will be predominantly intrastate in character and will carry on their business substantially in Kansas, the state in which both the holding company and its public utility subsidiaries are organized, and that, therefore, such companies will be entitled to an exemption pursuant to section 3 (a) (1) of the act.

It appearing to the Commission that it is appropriate in the public interest and in the interest of investors and consumers that a hearing be held with respect to said declaration and application and that said declaration shall not become effective and said application shall not be granted except pursuant to further order of the Commission;

It is ordered, That a hearing on said declaration and application under the applicable provisions of the act and the rules of the Commission thereunder be held on July 17, 1944 at 10:00 A. M., E. W. T. at the offices of the Securities and Exchange Commission, 18th and Locust Streets, Philadelphia 3, Pennsylvania. On such day, the hearing room clerk in Room 318 will advise as to the room in which such hearing will be held. All persons desiring to be heard or otherwise wishing to participate in the proceedings should notify the Commission in the manner provided by its rules of practice, Rule XVII, on or before July 12, 1944.

It is further ordered, That Willis E. Monty or any other officer or officers of the Commission designated by it shall preside at such hearing. The officer so designated to preside at such hearing is hereby authorized to exercise all powers granted to the Commission under section 18 (c) of the act and to a trial examiner under the Commission's rules of practice.

It is further ordered, That, without limiting the scope of the issues presented by said declaration and application otherwise to be considered in this proceeding, particular attention will be directed at the hearing to the following matters and questions:

(1) Whether competitive conditions have been maintained in the negotiation of the proposed sale, whether the consideration to be received is fair and whether the sale otherwise complies with the requirements of the act and the rules thereunder.

(2) Whether it is necessary or appropriate in the public interest or for the protection of investors or consumers to impose terms or conditions in respect to the proposed sale and, if so, what these terms and conditions should be.

(3) Whether the Commission should find with respect to United Utilities that such applicant and every subsidiary company thereof which is a public-utility company from which such applicant derives, directly or indirectly, any material part of its income, are predominantly intrastate in character and carry on their business substantially in a single state in which such applicant and every such subsidiary company thereof are organized.

(4) Whether, if otherwise consistent with the applicable exemption requirements of section 3 (a) of the act, the exemption of United Utilities, and every subsidiary thereof as such, from the integration requirements of section 11 (b) (1) or from any other provision or provisions of the act will be detrimental to the public interest or the interest of investors or consumers.

(5) Whether, in the event an exemption or partial exemption should be granted the applicant, it is necessary or appropriate to impose terms or conditions in the public interest or in the interest of investors or consumers and if so, what those terms and conditions should be.

It is further ordered, That notice of this hearing be given to the declarants and applicant and to all other persons; said notice to be given to the declarants and applicant and to the State Corporation Commission of Kansas and the Public Service Commission of Colorado by registered mail, and to all other persons by general release of this Commission which shall be distributed to the press and mailed to the mailing list for releases issued under the act and by publication in the FEDERAL REGISTER.

It is further ordered, That jurisdiction be and is hereby reserved to separate, whether for hearing, in whole or in part, or for disposition, in whole or in part, any of the issues, questions or matters hereinbefore set forth or which may arise in this proceeding or to take such other action as may appear conducive to an orderly, prompt and economical disposition of the matters involved.

WAR PRODUCTION BOARD.

ALLIED INDUSTRIAL DIAMOND CO.

CONSENT ORDER

Armand Goldmuntz, Simon Rapaport, and Sylvain Goldmuntz, co-partners doing business under the trade name and style of Allied Industrial Diamond Company at 527 Fifth Avenue, City, County and State of New York, in the purchase and sale of industrial diamonds, are charged by the War Production Board with having, during the month of January, 1944, sold and transferred industrial diamonds weighing 712.20 karats in violation of War Production Board General Preference Order M-109. They are further charged with having at the time full knowledge that the purchaser intended to have the diamonds cut and polished as gem stones; and also with having had at the time of the sale personal knowledge of the contents, prohibitions and restrictions contained in General Preference Order M-109 and, therefore, their sale of the diamonds in violation of the order must be deemed wilful.

Armand Goldmuntz, Simon Rapaport, and Sylvain Goldmuntz admit the violation as charged and do not desire to contest the same and have consented to the issuance of this order.

Wherefore, upon the agreement and consent of Armand Goldmuntz, Simon Rapaport, and Sylvain Goldmuntz, and the approval of the Regional Compliance Manager, the Regional Attorney and of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Armand Goldmuntz, Simon Rapaport, and Sylvain Goldmuntz, co-partners doing business under the trade name and style of Allied Industrial Diamond Company, or under any other name, their successors or assigns, shall neither sell or transfer, nor offer to sell or transfer, nor purchase or accept a transfer, nor offer to purchase or to accept a transfer of rough diamonds, i. e. diamond material that has not been cut and polished as a gem stone or that has been incorporated in an unused tool or other device, unless authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Armand Goldmuntz, Simon Rapaport, and Sylvain Goldmuntz, co-partners doing business under the trade name and style of Allied Industrial Diamond Company, or under any other name, their successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 1, 1944, and shall expire on October 31, 1944.

Issued this 27th day of June 1944.

SILBERBERGS, INC.

CONSENT ORDER

Silberbergs, Inc., a corporation of the State of New York, having its principal place of business at 2118 Main Street, Niagara Falls, New York is engaged in the business of selling men's clothing at retail, and was found in an investigation by the War Production Board to have violated Consumers' Goods Inventory Limitation Order L-219 in that during the period from May 1, 1943, through April 30, 1944, its actual receipts of consumer goods was $175,025.04 in excess of its allowable receipts of $123,268.95 for such period. Silberbergs, Inc., admits the violation of the order as charged by the War Production Board and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Silberbergs, Inc. and the approval of the Regional Compliance Manager, Regional Attorney, and the Compliance Commissioner, *It is hereby ordered*, That:

(a) Silberbergs, Inc., a corporation of New York, its successors and assigns, shall not receive any consumers' goods as defined by Consumers' Goods Inventory Limitation Order L-219 during July, 1944, and its normal receipts during the months of August, September and October, 1944, as computed by the provisions of Consumers' Goods Inventory Limitation Order L-219 shall be reduced by 50%, unless hereinafter specifically authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Silberbergs, Inc., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 1, 1944, and shall expire on October 31, 1944.

MARTIN JARVIS

CONSENT ORDER

Martin Jarvis, who resides at 909 S. 20th Street, Philadelphia, Pennsylvania, on or about March 4, 1944, began construction on the remodeling of a single family residence into a five family apartment building at 2321 Catherine Street, Philadelphia, Pennsylvania, the estimated cost of which was in excess of $200.00 limit permitted by Conservation Order L-41. Mr. Jarvis admits this violation but denies that it was wilful and does not care to contest the issue of wilfulness and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Martin Jarvis, the Regional Compliance Manager and the Deputy Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) Martin Jarvis, his agents or contractors shall not engage in further construction on the premises at 2321 Catherine Street, Philadelphia, Pennsylvania, unless and until specifically authorized by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Martin Jarvis, his agents or contractors, from any restrictions, prohibitions or provisions contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on the 1st day of July 1944.

Issued this 1st day of July 1944.

STA-RITE LACQUER CORP.

CONSENT ORDER

Sta-Rite Lacquer Corp., located at 597 Sackett Street, Brooklyn, New York, engaged in the manufacture and sale of lacquers and similar products, was charged by the War Production Board on May 1, 1944, with having wilfully violated § 944.11 of Priorities Regulation No. 1 as amended May 15, 1943, by having wilfully failed to dispose of materials allocated to it by the War Production Board for the purposes or uses authorized in such allocations, and with having wilfully violated § 944.15 of Priorities Regulation No. 1 as amended May 15, 1943, by having failed to maintain accurate and complete records of its inventories of materials received on allocation or adequate and complete records of the disposition of such materials. The violations in question began on September 1, 1943 and continued through February 29, 1944. Sta-Rite Lacquer Corp. admits the violations as charged and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Sta-Rite Lacquer Corp., the Regional Compliance Chief and the Regional Attorney, and upon the approval of the Compliance Commissioner, *It is hereby ordered*, That:

(a) No authorizations to use, or to accept deliveries of Butyl Alcohol and Butyl Acetate, Aromatic Solvents, Xylol, Ethyl Acetate, Phthalic Alkyd Resins or Melamine Aldehyde Resin shall be made to Sta-Rite Lacquer Corp., its successors or assigns.

(b) Sta-Rite Lacquer Corp., its successors or assigns, shall not use, or accept deliveries of Butyl Alcohol and Butyl Acetate, Aromatic Solvents, Xylol, Ethyl Acetate, Phthalic Alkyd Resins or Melamine Aldehyde Resin.

(c) Nothing contained in this order shall be deemed to relieve Sta-Rite Lacquer Corp., its successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(d) This order shall take effect on July 1, 1944, and shall expire on September 30, 1944.

Issued this 1st day of July 1944.

LEON TOM

CONSENT ORDER

Leon Tom of 63 Central Park South, City, County and State of New York, engaged in the business of a broker in the purchase and sale of diamonds, is charged by the War Production Board with having during the month of January, 1944, acted as broker in the purchase and sale of rough diamonds (not incorporated in a tool or other device) weighing 712.20 karats, the sale being made by Allied Industrial Diamond Company of 527 Fifth Avenue, New York City, and in aiding and abetting such purchase and sale in violation of War Production Board General Preference Order M-109. Leon Tom is charged with having had at the time of the purchase and sale personal knowledge of the contents, prohibitions and restrictions contained in General Preference Order M-109, and therefore, his participation in the violation must be deemed wilful. It appears, however, that Leon Tom gained no more from the transaction than the customary brokerage commission of $1.00 per karat, or $712.20.

Leon Tom admits the violation as charged and does not desire to contest the same and has consented to the issuance of this order.

Wherefore, upon the agreement and consent of Leon Tom, and the approval of the Regional Compliance Manager, the Regional Attorney and of the Compliance Commissioner, *It is hereby ordered*, That:

(a) On and after the effective date of this order, Leon Tom, his successors or assigns, shall neither sell or transfer, nor purchase or accept a transfer of rough diamonds, i. e. diamond material that has not been cut and polished as a gem stone, unless authorized in writing by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Leon Tom, his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(c) This order shall take effect on July 1, 1944, and shall expire on August 31, 1944.

Issued this 1st day of July 1944.

PART 961—MILK IN PHILADELPHIA, PENNSYLVANIA, MARKETING AREA

SUSPENSION OF CERTAIN PROVISIONS

Pursuant to the applicable provisions of Public Act No. 10, 73d Congress, as amended and as reenacted and amended by the Agricultural Marketing Agreement Act of 1937 (7 U.S.C. 1940 ed. 601 et seq.) and of the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area, it is hereby found and determined that certain provisions of § 961.3 (c) (4)[1] of such order are provisions which obstruct and do not tend to effectuate the declared policy of the act with respect to producers of milk under such order.

Therefore, effective as of 12:01 a. m., July 1, 1944, and continuing until ordered otherwise by the War Food Administrator, the following provisions of § 961.3 (c) (4) of the order, as amended, regulating the handling of milk in the Philadelphia, Pennsylvania, marketing area, are hereby suspended: "if less than 20 percent of the milk received at the latter plant is moved therefrom as fluid milk"; "more than 20 percent of the milk received is"; and "except that any of this milk in excess of the amount of fluid milk moved from the latter plant during the month shall be allocated to Class II milk". (E.O. 9322, 8 F.R. 3807; E.O. 9334, 8 F.R. 5423)

Issued at Washington, D. C., this 3d day of July 1944.

THOMAS J. FLAVIN,
Assistant to the War Food Administrator.

PART 64—ENLISTED RESERVE CORPS

CURRENT PROCEDURES GOVERNING ENLISTMENTS

Section 64.20 (c) (5)[1] is rescinded and the following substituted therefor:

§ 64.20 *Current procedures pertaining to the Enlisted Reserve Corps.* • • •

(c) *Call to active duty.* • • •

(5) Preprofessional students (premedical and predental) who are members of the Enlisted Reserve Corps unassigned, and who have upon their own application continued on an inactive status to complete professional work at their own expense under authority contained in Memorandum No. W150–10–43, 4 June 1943, will be called to active duty upon completion of minimum requirements for admission to schools of medicine or dentistry, or upon initiation of ASTP preprofessional training at the institutions which they are attending. In the event the minimum requirements for admission cannot be completed prior to the date the class for which the student has a letter of acceptance is scheduled to begin or the class is not scheduled to begin in 1944, upon call to active duty these enlisted reservists will not be eligible for assignment to the ASTP, but will be available for assignment in the normal manner. TITLE 32—NATIONAL DEFENSE

Chapter VI—Selective Service System

[Amdt. 239]

PART 629—PHYSICAL EXAMINATION

MISCELLANEOUS AMENDMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 629.1 by deleting paragraph (b) in its entirety.

2. Amend paragraphs (b) and (d) of § 629.23 to read as follows:

§ 629.23 *Request for immediate induction.* • • •

(b) When a registrant is inducted under the provisions of paragraph (a) of this section, he shall be immediately classified in Class I–C and shall be counted toward filling the next induction call.

• • • • • •

(d) When a registrant in Class I–A or Class I–A–O who has been given a preinduction physical examination and found acceptable for general military service signs and files with his own local board a Request for Immediate Induction (Form 219), he shall be forwarded for induction under the conditions and in the manner provided in § 632.6.

3. Amend § 629.31 to read as follows:

§ 629.31 *Records returned to local board.* (a) The Commanding Officer of the induction station will return to the local board the following documents concerning registrants forwarded for preinduction physical examination: The original Physical Examination List (Form 217) indicating under column 4 the disposition of each registrant forwarded for preinduction physical examination, the Original, First Copy, and Second Copy of the Report of Physical Examination and Induction (Form 221), and all other records forwarded by the local board except the records bearing upon the medical, social, and educational history of the registrant.

(b) Upon receipt of the documents described in paragraph (a) above, the local board shall take the following actions:

(1) File the original Physical Examination List (Form 217).

(2) For each registrant found acceptable, file the Original, First Copy, and Second Copy of the Report of Physical Examination and Induction (Form 221) in the Cover Sheet (Form 53).

(3) When the registrant has been reclassified because of being rejected upon preinduction physical examination, transmit the First Copy of the Report of Physical Examination and Induction (Form 221) for such registrant to the State Director of Selective Service for review and transmission to the Surgeon General's Office, War Department, Washington 25, D. C., using Transmission of Reports of Physical Examination and Induction (Form 205) as a covering memorandum and file the Original and Second Copy of the Report of Physical Examination and Induction (Form 221) in the Cover Sheet (Form 53).

4. Amend the regulations by adding a new section to be known as § 629.31–1 to read as follows:

§ 629.31–1 *Disposition of other records by armed forces.* The Commanding Officer of the induction station will dispose of the documents described below as follows concerning registrants forwarded for preinduction physical examination:

(a) Retain one copy of Physical Examination List (Form 217).

(b) Forward one copy of the Physical Examination List (Form 217) to the Director of Selective Service, 10th Floor, Gimbel Building, 35 S. 9th Street, Philadelphia, Pennsylvania, and forward one copy of such List to the State Director of Selective Service.

(c) Forward all records bearing upon the medical, social, and educational history of the registrant to the State Director of Selective Service.

5. Amend § 629.32 to read as follows:

§ 629.32 *Mailing Certificate of Fitness to registrant accepted or rejected.* When a Certificate of Fitness (Form 218) indicates that a registrant has been found acceptable for general military service or acceptable for limited military service or that a registrant has been rejected, the local board shall immediately mail the original of such certificate to the registrant and shall record the date of mailing of such Certificate of Fitness (Form 218) on the registrant's Selective Service Questionnaire (Form 40).

6. Amend § 629.33 to read as follows:

§ 629.33 *Action when further serology requested for accepted registrant.* When it is indicated on a registrant's Certificate of Fitness (Form 218) that his serology is other than "Negative" and it is requested that the registrant be given further serological tests, the local board shall direct the registrant to submit to such further serological tests as may be necessary and it shall be the duty of the registrant to present himself for and submit to such serological tests at the time and place fixed by the local board. The results of such serological tests shall be attached to the Original of the registrant's Report of Physical Examination and Induction (Form 221) and shall be forwarded with the registrant when he is forwarded for induction.

7. Amend § 629.34 to read as follows:

§ 629.34 *Action when registrant's status not determined.* (a) If the induction station returns the records of a registrant without determining his status:

(1) If it is indicated on the Certificate of Fitness (Form 218) of such registrant that his status with regard to serology has not been determined and it is requested that the registrant be given further serological tests, the local board shall direct the registrant to submit to such further serological tests as may be necessary and it shall be the duty of such registrant to present himself for and submit to such serological tests at the time and place fixed by the local board.

(2) If it is indicated on the Certificate of Fitness (Form 218) of such registrant that his status has not been determined because his records were incomplete, the local board shall secure the required records.

(b) The results of further serological tests, a negative spinal fluid report when such a report is available, and, if required, the records provided for in paragraph (a) (2) of this section, shall be mailed to the induction station together with the registrant's Report of Physical Examination and Induction (Form 221) and all other records which were transmitted to the induction station at the time the registrant was forwarded for preinduction physical examination.

(c) The induction station will then determine the acceptability and will complete the Certificate of Fitness (Form 218) of the registrant. If the induction station is unable to determine whether such registrant is acceptable for general military service or limited military service or should be rejected, it will request that the registrant be again forwarded to the induction station for further preinduction examination. Upon receiving such a request from the induction station, the local board will again mail to the registrant an Order to Report—Preinduction Physical Examination (Form 215), note his special status in the Remarks column of the Physical Examination List (Form 217), and again forward him to the induction station for completion of his preinduction physical examination.

The foregoing amendments to the Selective Service Regulations shall be effective within the continental United States on July 1, 1944, and shall be effective outside the continental limits of the United States on August 1, 1944.

LEWIS B. HERSHEY,
Director.

PART 632—INDUCTION CALLS

MISCELLANEOUS AMENDMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend § 632.1 to read as follows:

§ 632.1 *Call for man for military service.* (a) The Secretary of War will issue to the Director of Selective Service requisitions for the number of specified men who have been found to be acceptable for military service required for service in the Army and the Secretary of the Navy will issue to the Director of Selective Service requisitions for the number of specified men who have been found to be acceptable for military service required for service in the Navy (including the Marine Corps and Coast Guard).

(b) The Director of Selective Service shall (1) allocate to the States concerned the number of specified men who have been found to be acceptable for military service requisitioned by the Secretary of War and the Secretary of the Navy, (2) issue to the State Director of Selective Service of each State concerned a Notice of Call on State (Form 12) for the number of specified men who have been found acceptable for military service allocated to such State, and (3) send two copies of such Notice of Call on State (Form 12) to the Secretary of War and two copies of such Notice of Call on State (Form 12) to the Secretary of the Navy.

(c) The State Director of Selective Service, upon receiving such Notice of Call on State (Form 12) from the Director of Selective Service shall (1) allocate to the local boards concerned within his State, the number of specified men who have been found to be acceptable for military service which his State is called upon to furnish for service in the armed forces, (2) issue to each local board concerned a Notice of Call (Form 10) directing the local board to select and deliver for induction the number of specified men who have been found to be acceptable for military service fixed in such Notice of Call (Form 10), and (3) send a copy of such Notice of Call (Form 10) to the Commanding General of the Service Command and a copy to the Commanding Officer of the induction station to which the selected men are directed to report for induction.

(d) Each local board upon receiving a Notice of Call (Form 10) from the State Director of Selective Service shall select the number of specified men who have been found to be acceptable for military service required to fill the call.

2. Amend the regulations by deleting § 632.2 in its entirety.

3. Amend § 632.3 to read as follows:

§ 632.3 *Manner of allocating requisitions and calls.* The requisitions of the Secretary of War and of the Secretary of the Navy and the calls of the Director of Selective Service and of the State Directors of Selective Service shall (notwithstanding the provisions of section 4 (b) of the Selective Training and Service Act of 1940, as amended), be allocated

on the basis of the best information available at the time of allocating calls, without affecting the usual regular and orderly flow of the Nation's manpower into the armed forces as required for service therein, and in accordance with the provisions of the Selective Training and Service Act of 1940, as amended, so that registrants shall, on a Nation-wide basis within the Nation and a State-wide basis within each State, be ordered for induction in such a manner that registrants who are fathers as defined in § 632.7 will be inducted after the induction of other registrants not deferred, exempted, relieved from liability, or postponed from induction under selective service law who are available for induction and who have been found to be acceptable for military service.

4. Amend § 632.4 to read as follows:

§ 632.4 *Manner of selecting registrants to fill an induction call.* In filling an induction call, the local board shall select specified men to whom the local board has mailed a Certificate of Fitness (Form 218) at least 21 days before the date fixed for induction who are available for induction and have been found to be acceptable to the armed forces and who are not deferred, exempted, or relieved from liability or postponed for induction under the selective service law; provided that so far as it is practicable to do so without affecting the usual orderly and regular flow of the nation's manpower into the armed forces, the local board shall select volunteers first, then non-fathers, and finally fathers and within each group, shall select men in the sequence of their order numbers.

5. Amend the regulations by deleting § 632.5 in its entirety.

6. Amend § 632.6 to read as follows:

§ 632.6 *Certain registrants inducted without calls.* (a) Any man age 18 through 37 who (1) signs a Request for Immediate Induction (Form 219) and is in a class available for service, provided an appeal is not pending in his case and the period during which such an appeal may be taken has expired, or (2) is a delinquent and is ordered to report for induction under Part 642, may be forwarded for induction at the time the local board is forwarding men for preinduction physical examination or for induction or at any other time when special arrangements have been made with the induction station without any calls being made for the delivery of such men.

(b) Under special procedure prescribed by the Director of Selective Service, men ages 18 through 37 may enlist or be inducted outside of the United States.

(c) When any registrant referred to in paragraph (a) of this section is inducted or where any registrant referred to in paragraph (b) of this section is enlisted or inducted, his local board will be advised that he was inducted or enlisted either in the Army or in the Navy (including the Marine Corps and the Coast Guard). Such registrant will then be counted toward the filling of the next induction call.

The foregoing amendments to the Selective Service Regulations shall be effective within the continental United States on July 1, 1944 and shall be effective outside the continental limits of the United States on August 1, 1944.

PART 633—DELIVERY AND INDUCTION

MISCELLANEOUS AMENDMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

1. Amend the regulations by deleting § 633.1 in its entirety.

2. Amend paragraph (a) of § 633.3 to read as follows:

§ 633.3 *Preparing records for a group ordered to report for induction.* (a) As soon as the local board has mailed Orders to Report for Induction (Form 150) to all registrants who are directed to report for induction at a particular time and place, it shall:

(1) Prepare in quadruplicate a Delivery List (Form 151) entering thereon (A) the name and order number of each such registrant and (B) the name and order number of each registrant who should be entered upon such Delivery List (Form 151) under the provisions of § 633.24 and indicating in column 3 thereof whether such registrant is a nonfather or a father.

(2) Assemble and attach to the registrant's Report of Physical Examination and Induction (Form 221) the X-ray film made at the time of preinduction physical examination; any waiver of disqualification; any order terminating civil custody; any Alien's Personal History and Statement (Form 304) or Statement of United States Citizen of Japanese Ancestry (Form 304A) bearing the armed forces' endorsement of acceptability for military service; and all other information bearing on the fitness of the registrant for military service except records bearing upon the medical, social, and educational history of the registrant.

3. Amend paragraph (c) of § 633.12 to read as follows:

§ 633.12 *Transfers for induction directed by Director of Selective Service.* * * *

(c) To accomplish the transfer for induction under paragraph (a) or (b) of this section, the registrant's own local board shall complete the Request for Transfer for Delivery (Form 154) in duplicate by inserting the name and present address of the registrant and the words "By direction of the Director of Selective Service" and by completing the second endorsement on such forms. A copy of Request for Transfer for Delivery (Form 154) shall be filed in the registrant's Cover Sheet (Form 53). The local board shall then forward the original Request for Transfer for Delivery (Form 154), the Original, First, and Second Copies of Report of Physical Examination and Induction (Form 221), and all other documents referred to in paragraph (f) of § 633.11 to the State Director of the State in which the registrant is located. The State Director of the State in which the registrant is located shall check such documents and, if not already accomplished, insert thereon the name and address of the local board in his State to which the registrant is transferred for induction and forward the documents to such local board. Unless the transfer of the registrant for induction is canceled under paragraph (d) of this section, the local board to which the registrant is transferred shall cause the registrant to be delivered for induction, and shall take the other actions provided for in paragraphs (g), (h), and (i) of § 633.11.

4. Amend § 633.22 to read as follows:

§ 633.22 *Forwarding registrants for induction.* When the registrants who are to be forwarded for induction have assembled, the local board shall proceed as follows:

(1) The roll shall be called, using the previously prepared Delivery List (Form 151) and noting any absences thereon in column 3 under "Remarks." If any registrant fails to report for delivery, fails to report at the place of induction, is transferred to another local board for delivery, or is rejected, the local board shall not furnish a replacement for such registrant.

(2) A leader and assistant leaders shall be appointed and furnished with proper credentials. Leaders and assistant leaders shall have such authority as is necessary to deliver the group to the place of induction.

(3) The leader shall be given the following:

(i) The original and all copies of the Delivery List (Form 151).

(ii) For each registrant being forwarded, the original and both copies of the Report of Physical Examination and Induction (Form 221) and other records referred to in subparagraph (2) of paragraph (a) of § 633.3.

(iii) When it is necessary, transportation and meal and lodging requests for the group, covering their trip to the place of induction. The leader shall be instructed to deliver the original and all copies of the Delivery List (Form 151), the originals and all copies of all Reports of Physical Examination and Induction (Form 221), and all other information concerning the registrants in the group to the Commanding Officer of the induction station or to his representative.

(4) The local board shall instruct all registrants in the group that it is their duty to obey the instructions of the leader or assistant leaders during the time they are going to the place of induction; that they will be met by proper representatives of the armed forces at the place of induction; that while they are at the place of induction, they will be subject to and must obey the orders of the representatives of the armed forces; that they must present themselves for and submit to induction; that if they are rejected, the representative of the armed forces will, to the extent prescribed by the regulations of the armed forces, provide transportation and subsistence for their return trip.

5. Amend § 633.23 to read as follows:

§ 633.23 *Induction procedures for registrants requesting immediate induction and for delinquents.* (a) The local board will forward the records required under § 633.22 to the induction station for registrants who have signed a Request for Immediate Induction (Form 219) or who being delinquent have been ordered to report for induction under Part 642.

(b) When such registrants are forwarded to the induction station and found to be acceptable for service in the armed forces, they will be immediately inducted into the Army or the Navy (or the Marine Corps or Coast Guard). The local board will be advised that such registrants were inducted into military service in column 4 under "Disposition" on the Delivery List (Form 151) forwarded by the local board with such registrants when they were forwarded for induction and returned to the local board by the induction station after such registrants have been inducted.

6. Amend § 633.24 to read as follows:

§ 633.24 *Registrants inducted because of request for immediate induction or delinquency, or outside United States to be listed on Delivery List (Form 151).* When the local board receives a Delivery List (Form 151) from the induction station showing that a registrant who has signed a Request for Immediate Induction (Form 219) or a delinquent who has been ordered to report for induction under Part 642 has been inducted for service in the armed forces without a call or when the local board receives a Delivery List (Form 151) or other information showing that a registrant has enlisted or has been inducted into the armed forces outside the United States, it shall (a) list such registrant on the Delivery List (Form 151) for the next group selected to report for induction to fill a call and opposite the name of each such registrant under "Remarks" in column 3 enter the fact that such registrant has been inducted at the induction station or has been inducted or enlisted outside the United States, the date of such induction or enlistment, and the fact that such induction resulted from the registrant's signing a Request for Immediate Induction (Form 219), from the registrant's being a delinquent, or from the registrant's enlisting or being inducted outside the United States, and (b) count such registrant toward filling such induction call.

7. Amend § 633.25 to read as follows:

§ 633.25 *Induction.* At the induction station, the selected men who have been forwarded for induction and found acceptable will be inducted for service into the armed forces.

8. Amend § 633.31 to read as follows:

§ 633.31 *Records returned to local board.* (a) The Commanding Officer of the induction station will return to the local board the following documents concerning registrants forwarded for induction:

(1) The original Delivery List (Form 151), indicating under column 4 the disposition of each registrant forwarded for induction.

(2) For each registrant inducted, the first copy and the second copy of Report of Physical Examination and Induction (Form 221).

(3) For registrants not inducted, the original, the first copy, and the second copy of Report of Physical Examination and Induction (Form 221).

(b) Upon receipt of the documents described in paragraph (a) above, the local board shall take the following action:

(1) File the original Delivery List (Form 151).

(2) After the registrant has been reclassified, transmit the first copy of the Report of Physical Examination and Induction (Form 221) for such registrant to the State Director of Selective Service for review and transmission to the Surgeon General's Office, War Department, Washington 25, D. C., using Transmission of Reports of Physical Examination and Induction (Form 205) as a covering memorandum.

(3) File the second copy of Report of Physical Examination and Induction (Form 221) in the Cover Sheet (Form 53) for each registrant inducted.

(4) File the original and the second copy of Report of Physical Examination and Induction (Form 221) in the Cover Sheet (Form 53) for each registrant rejected.

9. Amend § 633.32 to read as follows:

§ 633.32 *Disposition of other records by armed forces.* The Commanding Officer of the induction station will dispose of the documents described below as follows concerning registrants forwarded for induction:

(1) For registrants inducted, retain the original of the Report of Physical Examination and Induction (Form 221).

(2) Retain one copy of the Delivery List (Form 151).

(3) Forward one copy of the Delivery List (Form 151) to the Director of Selective Service, 10th Floor, Gimbel Building, 35 South Ninth Street, Philadelphia 7, Pennsylvania, and forward one copy of such list to the State Director of Selective Service.

10. Amend § 633.41 to read as follows:

§ 633.41 *Classification of registrants inducted or rejected.* Upon receiving notice from the induction station that a selected man who has been forwarded for induction has been inducted or rejected, the local board shall reopen his classification and classify him anew under Part 623.

The foregoing amendments to the Selective Service Regulations shall be effective within the continental United States on July 1, 1944 and shall be effective outside the continental limits of the United States on August 1, 1944.

PART 663—BOARDS OF TRANSFER IN TERRITORY OF HAWAII AND IN TERRITORY OF ALASKA

TRANSFER FOR INDUCTION

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service Regulations, Second Edition, are hereby amended in the following respect:

Amend paragraph (a) of § 663.5 to read as follows:

§ 663.5 *Transfer for induction mandatory.* (a) Transfer for induction is mandatory for each registrant located in the Territory of Hawaii whose own local board is located elsewhere and for each registrant located in the Territory of Alaska whose own local board is located elsewhere. Such transfer for induction shall be made by the registrant's own local board in the manner provided by § 633.12. The papers and documents described in § 633.12 of a registrant who is transferred for induction to a local board in the Territory of Hawaii or in the Territory of Alaska shall be forwarded to the State Director of the Territory of Hawaii or the State Director of the Territory of Alaska, as the case may be, for transmission by him to such local board of transfer as he may designate. Unless the transfer of the registrant for induction is canceled under paragraph (d) of § 633.12, the local board so designated shall cause the registrant to be delivered for induction and shall take the other actions provided for in paragraphs (g), (h), and (i) of § 633.11.

The foregoing amendments to the Selective Service Regulations shall be effective within the continental United States on July 1, 1944 and shall be effective outside the continental limits of the United States on August 1, 1944.

Chapter IX—War Production Board

Subchapter B—Executive Vice-Chairman

AUTHORITY: Regulations in this subchapter issued under sec. 2 (a), 54 Stat. 676, as amended by 55 Stat. 236 and 56 Stat. 176; E.O. 9024, 7 F.R. 329; E.O. 9125, 7 F.R. 2719; W.P.B. Reg. 1 as amended March 24, 1943, 8 F.R. 3666, 3696; Pri. Reg. 1 as amended May 15, 1943, 8 F.R. 6727.

PART 3201—MINING

[Preference Rating Order P-56, as Amended July 4, 1944]

MINES AND SMELTERS

§ 3201.11 *Preference Rating Order P-56*—(a) *Purpose and scope.* This order explains how operators of mines and smelters in the United States and in foreign countries may get the materials and products they need to carry on their operations. The materials covered include not only maintenance, repair, and operating supplies, including controlled materials, but also machinery, other kinds of materials, and equipment. This order does not apply, however, to an operator of a nonessential mine as defined in Limitation Order L-208.

(b) *Definitions.* (1) "Producer" means a person operating any of the following enterprises, whether in the United States, or any of its territories, or in a foreign country, but does not include any enterprise defined as a "nonessential" mine in Order L-208: (i) any plant actually engaged in the extraction by surface, open-pit, or underground methods, or in the beneficiation, concentration, or preparation for shipment of the products of mining activity; (ii) any plant wholly engaged in the processing and burning of refractories; (iii) any plant producing any material listed below by smelting or refining processes, and to whom a serial number has been issued under Preference Rating Order P-73, or is hereafter issued as provided in paragraph (c):

Antimony	Nickel
Cobalt	Platinum
Copper	Tin
Iridium	Tungsten
Lead	Vanadium
Mercury	Zinc
Molybdenum	

(iv) any prospecting enterprise for the discovery, exploration, or development of new or additional mining projects, including the construction of access roads; and (v) mines, concentrating mills, smelters, railroads, power plants, refineries, and appurtenances owned and operated by the companies holding serial numbers under Preference Rating Order P-58 on December 24, 1943.

(2) "District" means a mine supply control district of the Foreign Economic Administration.

(3) "Maintenance, repair, and operating supplies" means material used for the following purposes by producers in the conduct of enterprises described above in paragraph (b) (1): (i) minimum upkeep necessary to continue the working condition of essential property or equipment, and (ii) restoration of essential property or equipment to a sound working condition after wear and tear, damage, destruction or failure of parts, or the like have made the property or equipment unfit or unsafe for service; and supplies which are essential to and consumed or worn out in the conduct of such enterprises. In addition, except as hereinafter noted, the term "maintenance, repair, and operating supplies" includes minor capital additions normally necessary to the operation of the enterprise, but not exceeding in cost $500 (excluding purchaser's cost of labor) for any one complete capital addition. The term "one complete capital addition" includes a group of items customarily purchased together and all items which would normally be purchased as part of a single project or plan. No capital addition shall be subdivided for the purpose of coming within this paragraph.

Producers Holding Serial Numbers

(c) (1) *Maintenance, repair, and operating supplies for domestic producers with serial numbers.* Producers located within the United States, its territories and possessions (herein called "domestic" producers), holding serial numbers, which may be obtained in the manner specified in paragraph (f), are hereby assigned a preference rating of AA-1 for the purchase of maintenance, repair, and operating supplies, other than controlled materials. This rating may be applied by the producer by placing on his delivery order the endorsement described in paragraph (g). The producer may obtain controlled materials for maintenance, repair, and operating supplies by endorsing his delivery order with the endorsement described in paragraph (g) and inserting therein the allotment symbol "S-7" and appropriate quarterly abbreviation. An order bearing this endorsement constitutes an authorized controlled material order. No serialized producer shall order for delivery during any calendar quarter, with or without preference ratings, or allotment number, maintenance, repair, or operating supplies in an aggregate amount exceeding 120 percent of his aggregate expenditures for maintenance, repair, and operating supplies during the corresponding calendar quarter of 1943. A producer who has several plants or other operating units which maintain separate records of maintenance, repair, and operating supplies may treat each of them separately for purposes of complying with the provisions of this paragraph (c) (1).

(2) *Maintenance, repair, and operating supplies for foreign producers with serial numbers.* Producers located outside the United States, its territories and possessions and outside of Canada,[1] (herein called "foreign" producers), holding serial numbers, which may be obtained in the manner specified in paragraph (f), may apply for priorities assistance for maintenance, repair, and operating supplies by filing the foreign mine quota application Form WPB-2937 with the Mining Division, War Production Board, Washington 25, D. C.

(3) *Machinery and equipment.* All producers holding serial numbers, whether domestic, foreign, or Canadian, may apply for priority assistance in obtaining machinery and equipment by filing Form WPB-1319 in accordance with the WPB-1319 instruction pamphlet for items of equipment listed therein. Also, for items of equipment not listed in the instruction pamphlet for which a preference rating is required without authorization on a special form, application should be made on Form WPB-1319. For items of equipment not listed in the WPB-1319 instruction pamphlet, for which orders of the War Production Board require application for specific authorization to be made on a special form, application should be made on such special form. All applications should be filed with the Mining Division, War Production Board, Washington 25, D. C., Ref. P-56, unless otherwise provided in the WPB-1319 instructions. If necessary, Form WPB-1319 or the special form may be accompanied by a letter explaining any unusual circumstances. No application is necessary in the case of minor capital additions as defined in paragraph (b) (3) unless a special form is required by another order of the War Production Board.

Foreign Producers Operating Under Mine Supply Control Districts

(d) *Priorities assistance for certain foreign producers operating under mine supply control districts.* To enable a producer not holding a serial number hereunder and located outside the continental United States and within the jurisdiction of a district to obtain priorities assistance, the following procedure is established:

(1) For maintenance, repair, and operating supplies a district may apply for priorities assistance by filing the foreign mine quota application Form WPB-2937 with the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56. A producer not holding a serial number and located in a district may apply for priorities assistance by submitting to such district his purchase orders for maintenance, repair, or operating supplies, together with such information as may be required by the district. Within the limits of the priorities assistance granted to it pursuant to this paragraph (d) (1), such district may authenticate any such purchase order for maintenance, repair, or operating supplies by indicating the appropriate priorities assistance and countersigning the purchase order as follows:

Approved:

_____
Name of district

_____
Signature of authorized official

(2) For other machinery, materials, and equipment, a producer not holding a serial number and located within a district may submit to the War Production Board, Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), such application to be endorsed with the signed approval of the district within which the applicant is located.

(3) A distributor of maintenance, repair, or operating supplies or of other machinery, materials, or equipment used by producers, who is located outside the United States and within the jurisdiction of a district, may apply for priorities assistance in the same manner as prescribed in paragraphs (d) (1) and (d) (2) for producers not holding serial numbers and located within the jurisdiction of a district.

Other Producers Not Holding Serial Numbers

(e) (1) *Priorities assistance for other producers not holding serial numbers.* A preference rating of AA-5 is hereby assigned to delivery orders for maintenance, repair, and operating supplies (including minor capital additions as defined in paragraph (b) (3)), other than controlled materials, placed by domestic producers not holding serial numbers (other than operators of nonessential mines as defined in Limitation Order L-208). This rating may be applied by the producer by placing on his delivery order the endorsement described in paragraph (g). The producer may obtain controlled materials for maintenance, repair, and operating supplies by placing on his delivery order the endorsement described in paragraph (g) and inserting therein the allotment symbol "S-7" and appropriate quarterly abbreviation. An order bearing this endorsement constitutes an authorized controlled material order. No producer who uses the allotment symbol assigned by this order shall order controlled materials for delivery during any calendar quarter in an amount exceeding 120 percent of his aggregate expenditures for controlled materials for use as maintenance, repair, and operating supplies during the corresponding calendar quarter of 1943. Such producers may apply for higher ratings for maintenance, repair, or operating supplies exclusive of minor capital additions by filing Form WPB-2910 with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56; and for higher ratings, or for specific authorization if such is required, for minor capital additions, such producers may apply on Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), except that Form WPB-1319 shall be filed with the War Production Board regional or district office in which is located the Technical Advisor for Mining for the area in which the enterprise is located, and only the special application form, when one is prescribed, shall be filed with the Mining Division in Washington, D. C. Such producers may apply for priorities assistance for machinery or equipment by filing Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56. Foreign producers, not holding serial numbers and not located in a mine supply control district, may apply for priorities assistance for maintenance, repair, and operating supplies, exclusive of minor capital additions, by filing Form WPB-2910 with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56, and for machinery or equipment, including minor capital additions, by filing Form WPB-1319 or any prescribed special application form, following the procedure specified for serialized producers in paragraph (c) (3), with the Mining Division of the War Production Board, Washington 25, D. C., Ref: P-56.

Serial Numbers

(f) *Issuance of serial numbers.* Applications for serial numbers may, in the case of producers within the continental limits of the United States, be filed with the appropriate War Production Board Regional Office, Attention: Regional Technical Advisor, Mining Division; or with the appropriate State Coordinator of Mines for transmission to such Regional Advisor; or with the Mining Division, War Production Board, Washington, D. C. Serial number application by districts must be filed with the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56. Applications by Canadian and all other foreign producers should also be filed with the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56. In filing such application, the following forms shall be used:

Metal mines	Form WPB-1212
Coal mines	Form WPB-2784
Non-metallic mines	Form WPB-2758
Core or churn drill operators	Form WPB-2952

Smelters and refineries shall apply by letter. In issuing and cancelling serial numbers, the War Production Board will consider the importance to national defense of the present and prospective output of materials to be produced, the consumption of the critical material involved, and the importance to national defense of competing demands for such material, and competing demands for manpower and transportation. Serial numbers issued under Preference Rating Orders P-58 and P-73, and not cancelled prior to December 24, 1943, are hereby confirmed and shall be considered as having been issued under this Order P-56.

Use of Priorities Assistance; All Producers

(g) *Application and extension of priorities assistance.* The way to use preference ratings is explained in Priorities Regulation No. 3, and the way to use allotments, both in placing authorized controlled material orders and in making allotments, is explained in CMP Regulation No. 1. Instead of using the certification prescribed by those regulations or by any other regulation of the War Production Board, including Priorities Regulation No. 7, the producer may use the following endorsement signed manually or as provided in Priorities Regulation No. 7:

Allotment number _____
Preference rating _____
Order authorized under Preference Rating Order P-56, Serial No. _____

He shall not add the symbol "MRO" despite the certification instructions in CMP Regulation No. 5 or any other regulation. Requirements of other orders of the War Production Board as to special certifications remain applicable, but the foregoing endorsement shall be added to such certification. The use of the foregoing endorsement by a producer shall constitute a representation by the producer to the seller and to the War Production Board, subject to the penalties of section 35A of the United States Criminal Code (18 U. S. C. 80), that to the best of the producer's knowledge and belief he is authorized under applicable War Production Board orders and regulations to place the delivery order, to receive the item ordered for the purpose for which ordered, and to use the preference rating or allotment symbol for this purpose. Preference ratings assigned under this order for maintenance, repair, and operating supplies may not be used to obtain items on List A or List B of Priorities Regulation No. 3, except where that regulation permits the use of a P-56 rating for a particular item.

(h) *Restrictions on receipts and inventories.* Notwithstanding the provisions of any other order or regulation of the War Production Board, including CMP Regulation 2, receipts and inventories of producers shall be subject to the following restrictions only: No producer shall receive any delivery of material which will increase his inventory of such material to an amount greater than the minimum necessary to sustain his current level of operations; and the ratio of such inventory to current production shall in no event exceed the ratio of average inventory to average production for the years 1938, 1939, and 1940.

[1] Producers located in Canada, whether or not they hold serial numbers issued under this order, may obtain maintenance, repair, and operating supplies in the United States under Canadian order PO5B.

(i) *Restrictions on use and resale of material.* Notwithstanding § 944.11 of Priorities Regulation No. 1, no producer shall use any material, whether or not obtained pursuant to this order, for any purpose other than that for which priorities assistance was granted to acquire it; nor may he sell any material (including machinery and equipment), which he has used in the conduct of any enterprise described in paragraph (b) (1), whether or not he obtained such material with priorities assistance under this or any other order, except:

(1) To a producer holding a serial number hereunder, or

(2) With the written approval of the War Production Board applied for by letter to the Mining Division, or

(3) With the written approval of a district if he is a non-serialized producer located within such district, or

(4) As permitted by Priorities Regulation No. 13.

Applicability of Other Regulations and Orders

(j) (1) *CMP Regulation No. 5 and other regulations of the War Production Board.* None of the restrictions contained in CMP Regulation No. 5 shall be applicable to producers, and no producer shall obtain any material under CMP Regulation No. 5. However, privileges under other orders and regulations of the War Production Board granted to persons on Schedules I and II of CMP Regulation No. 5 shall be considered as applicable to producers operating under this order. For example, Order E-5-a on gauges and precision measuring hand tools classifies a person on Schedules I and II of CMP Regulation No. 5 as an "approved user." Producers operating under Order P-56 are in the same position providing that certification clauses and all other provisions of such other orders are complied with.

(2) *Restriction on use of priorities assistance.* No serialized foreign producer or district shall acquire maintenance, repair, or operating supplies through the use of any preference rating except after having received an approved application on the foreign mine quota application Form WPB-2937, or, in the case of a non-serialized foreign producer located outside a district, on Form WPB-2910, from the Mining Division, War Production Board, Washington 25, D. C. No producer shall acquire any machinery or equipment (other than maintenance, repair, and operating supplies) through the use of any preference rating or any specific authorization of the War Production Board except after filing Form WPB-1319 or any prescribed special application form in the manner above provided, or except after filing a project application.

Miscellaneous Provisions

(k) *Records and orders.* Each producer and each distributor acquiring maintenance, repair, or operating supplies pursuant to this order shall keep and preserve for a period of not less than two years accurate and complete records of all such materials so acquired and used or disposed of which shall upon request be submitted to audit and inspection by duly authorized representatives of the War Production Board.

(l) *Reports.* Producers shall file such report forms as may be required from time to time by the War Production Board, subject to the approval of the Bureau of the Budget, pursuant to the Federal Reports Act of 1942. The reporting requirements of this order have received the approval of the Bureau of the Budget pursuant to the Federal Reports Act of 1942.

(m) *Additional assistance and appeals in individual cases.* If the sound working condition of a producer is adversely affected by any provisions of this order or by inability to obtain material essential for repair, maintenance, or operating supplies, the producer may apply to the War Production Board for additional assistance by letter, in duplicate, giving the reasons why such assistance is essential. If an increased quota is sought, the present quota should be stated. In case of breakdown, imminent breakdown, or other emergency, the application may be made by telegraph or telephone either to the Mining Division, Washington, D. C., or to the nearest regional or district WPB office.

(n) *Communications.* All reports and applications hereunder and all other communications with respect to this order shall, except as otherwise specifically provided, be addressed to the Mining Division, War Production Board, Washington 25, D. C., Ref: P-56.

(o) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

Issued this 4th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

INTERPRETATION 1

APPLICABILITY TO CUTTING AND POLISHING OPERATIONS AT THE QUARRY

The term "producer" as defined in Preference Rating Order P-56 includes persons operating a quarry and also persons conducting further cutting and polishing operations at the quarry site, such as the manufacture of building stone and tombstones. These latter operations are included in the phrase "preparation for shipment, of the products of mining activity" appearing in paragraph (b) (1) (i) (§ 3201.11) of the order.

Since paragraph (j) (1) of the order forbids "producers" from obtaining any materials under CMP Regulation 5, producers of tombstones or other stone products at the quarry site may not operate under this regulation but must get priorities assistance exclusively under Order P-56.

The manufacture of tombstones and structural stone at a separate plant away from the quarry is not covered by Order P-56, and priorities assistance for MRO supplies required in such operations may be obtained under CMP Regulation 5. Under CMP Regulation 5, a rating of AA-2 is assigned to persons engaged in the manufacture of structural stone, while persons engaged in the manufacture of tombstones and monuments may use the AA-5 rating which is assigned under that regulation to unlisted business. (Issued Nov. 13, 1943.)

PART 1499—COMMODITIES AND SERVICES

[Rev. SR 1,[1] Amdt. 65]

STUMPAGE, LOGS, AND PULPWOOD

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 2.10 (c) is amended to read as follows:

(c) Stumpage, logs, and pulpwood, except that for pulpwood sold by the cord produced or delivered west of the 100th meridian in a local area in which maximum prices for firewood by the cord are established by Regional or District maximum price order or regulation, the maximum producer's price shall be the maximum producer's price for corded firewood in the particular local area, *Provided however,* That the adjustment provisions of § 1499.18 (c) of the General Maximum Price Regulation shall apply to such sales, and sellers, of corded pulpwood.

This amendment shall become effective July 8, 1944.

Issued this 3d day of July 1944.

CHESTER BOWLES,
Administrator.

PART 1300—PROCEDURE

[Rev. Procedural Reg. 3,[1] Amdt. 7]

PROCEDURE FOR ADJUSTMENTS, AMENDMENT, PROTESTS AND INTERPRETATIONS UNDER RENT REGULATIONS

Revised Procedural Regulation No. 3 is amended in the following respects:

1. Section 1300.201 (c) is amended to read as follows:

(c) Subpart C deals with protests. A protest is a means provided by the Emergency Price Control Act of 1942 for making a formal claim that a maximum rent regulation or an order issued thereunder is in some respect invalid. Only if a protest has been filed and denied, or if leave has been granted by a court pursuant to section 204 (e) (1) of the act, may the protestant file a complaint with the Emergency Court of Appeals to have the maximum rent regulation or order enjoined or set aside in whole or in part.

2. Section 1300.209 (a) is amended to read as follows:

(a) Any landlord whose petition for adjustment or other relief has been dismissed or denied in whole or in part by the rent director, or any landlord subject to an order entered by the rent director on his own initiative may file with the rent director an application for review of such determination by the regional administrator for the region in which the defense-rental area office is located: *Provided,* That any landlord subject to an order entered under section 5 (d) of any maximum rent regulation or subject to an order entered by the rent director under § 1300.207 of this regulation, may either apply for review of such order as provided in this section, or may protest any provision of such order as provided in §§ 1300.215 to 1300.223, inclusive, of this regulation. An application for review shall be filed in triplicate upon forms prescribed by the Administrator and pursuant to instructions stated on such forms. Upon the filing of an application for review of such determination, the rent director shall forward the record of the proceedings with respect to which such application is filed to the appropriate regional administrator.

3. Section 1300.209 (b) is amended to read as follows:

(b) Applications for review may be filed within ninety (90) days after the date of issuance of the determination to be reviewed (or before October 1, 1944, with respect to determinations made prior to July 1, 1944). An application for review which is not filed within the specified time ordinarily will be dismissed unless special circumstances are shown to justify a later filing.

4. Section 1300.216 is amended to read as follows:

§ 1300.216 *Time and place of filing protests.* (a) Any protest against the provisions of a maximum rent regulation may be filed at any time after the issuance thereof.

(b) The act provides no specific time limit for filing a protest against an order issued under § 1300.210 of this regulation, or of an order entered under section 5 (d) of any maximum rent regulation, or of an order entered by the Rent Director under § 1300.207 of this regulation. However, as the United States Emergency Court of Appeals has stated in its opinion in the case of R. E. Schnazer, Inc. *v.* Bowles, 141 F. 2d 262 (1944), if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. There will ordinarily be no reason why a protest against an order of the kind specified in this paragraph, affecting only an individual landlord, cannot be filed promptly after the issuance of such order. Accordingly, if a protest is not filed within ninety (90) days after the date of issuance of such order (or before October 1, 1944 in the case of an order entered prior to July 1, 1944), the Administrator ordinarily will regard the delay as unreasonable and will dismiss the protest unless special circumstances are shown to justify the delay.

(c) Protests shall be filed with the Secretary of the Office of Price Administration, Washington 25, D. C.

5. Section 1300.219 (f) is revoked and paragraph (g) of § 1300.219 is redesignated paragraph (f).

6. Section 1300.220 (c) is revoked.

7. Section 1300.222 is amended to read as follows:

§ 1300.222 *Joint protests.* Two or more landlords may file a joint protest. Joint protests shall be filed and determined in accordance with the rules governing the filing and determination of protests filed severally. A joint protest shall be verified in accordance with § 1300.219 (f) of this regulation by each protestant. A joint protest may be filed only where at least one ground is common to all persons joining in it. Whenever the Administrator deems it to be necessary or appropriate for the disposition of joint protests, he may treat such joint protests as several, and, in any event, he may require the filing of relevant materials by the individual protestants.

8. Section 1300.223 is amended to read as follows:

§ 1300.223 *Amendment of protest and presentation of supplemental evidence.* A protestant may at any time be granted permission to amend his protest or to present further evidence in connection therewith when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest.

9. The first paragraph of § 1300.225 (a) is amended to read as follows:

(a) Within a reasonable time after the filing of any protest in accordance with this regulation, but in no event more than thirty days after such filing, the Administrator shall:

This amendment shall become effective July 3, 1944.

Issued this 3d day of July 1944.

CHESTER BOWLES,
Administrator.

PART 1300—PROCEDURE

[Rev. Procedural Reg. 1,[1] Amdt. 8]

PROCEDURE FOR THE ISSUANCE, ADJUSTMENT, AMENDMENT, PROTEST AND INTERPRETATION OF MAXIMUM PRICE REGULATIONS

Revised Procedural Regulation No. 1 is amended in the following respects:

1. Section 1 (d) is amended to read as follows:

(d) Article V deals with protests. A protest is the means provided by the Emergency Price Control Act of 1942 for making a formal claim that a maximum price regulation is in some respect invalid. Only if a protest has been filed and denied, or if leave has been granted by a court pursuant to section 204 (e) (1) of the act, may the protestant file a complaint with the Emergency Court of Appeals to have the maximum price regulation enjoined or set aside in whole or in part.

2. Section 17 (b) is amended to read as follows:

(b) Any applicant whose application for adjustment has been denied in whole or in part by a regional administrator in the first instance, may, within 60 days after the date on which notice of denial was mailed to him, file with the regional office a request for review by the Administrator of such denial.

3. Section 17 (c) is amended to read as follows:

(c) *Timely filing.* Requests for review shall be deemed filed on the date received by the state or district or regional office: *Provided,* That requests for review properly addressed to the appropriate district or regional office, bearing a post-mark dated within 60 days after the date on which the order of denial was mailed but received after the expiration thereof, shall be deemed to have been filed on the date of the post-mark.

4. Section 18 is amended to read as follows:

SEC. 18. *Action on review.* After due consideration the Administrator or the Regional Administrator, as the case may be, shall grant or deny in whole or in part, any application for adjustment as to which a proper request for review has been filed. The applicant shall be informed in writing of the action so taken.

5. Section 19 is amended to read as follows:

SEC. 19. *Protest of denial of application.* Any applicant whose application for adjustment has been denied in whole or in part by the Administrator, or, upon request for review, by any regional administrator, may file a protest against such order in accordance with the provisions of this Revised Procedural Regulation No. 1. There is no specific statutory limit of time within which protests must be filed. However, as the United States Emergency Court of Appeals has stated in its opinion in the case of R. E. Schanzer, Inc. *v.* Bowles, 141 F. (2d) 262 (1944), if the filing of a protest is unduly delayed, the defense of laches (unreasonable delay) may be available to the Administrator. Where such an order is issued denying a seller's application for adjustment of his own maximum price, ordinarily there will be no reason why he cannot file a protest promptly after the order of denial is issued. Accordingly, in such a case, if a protest is filed more than 90 days after the issuance of the order, the Administrator will ordinarily

regard the delay as unreasonable and dismiss the protest unless special circumstances are shown which justify the delay. An order denying an application for adjustment may be protested, under Article V, in the same manner as a maximum price regulation. However, the protest may be based only upon grounds raised in the application for adjustment.

6. Section 26 is amended to read as follows:

SEC. 26. *Time and place for filing protests.* (a) A protest against a provision of a maximum price regulation may be filed at any time after the issuance thereof. Protests shall be filed with the Secretary, Office of Price Administration, Washington, D. C., except that protests of any person having his principal place of business in a territory may be filed with the director of the appropriate territorial office.

(b) Protests shall be deemed filed on the date received by the Secretary, Office of Price Administration, Washington, D. C., or by the director of the appropriate territorial office, as the case may be.

7. Section 29 (f) is revoked.

8. Section 33 is amended to read as follows:

SEC. 33. *Amendment of protest and presentation of supplemental evidence.* A protestant may at any time be granted permission to amend his protest or to present further evidence in connection therewith when, in the judgment of the Administrator, such permission will not unduly delay the completion of proceedings on the protest.

9. The first sentence of section 35 (a) is amended to read as follows:

PART 1305—ADMINISTRATION

[Supp. Order 92]

ADJUSTABLE PRICING OF CERTAIN COTTON TEXTILES

A statement of the reasons for the issuance of this supplementary order has been issued simultaneously herewith and filed with the Division of the Federal Register.*

For the reasons set forth in that statement and under the authority vested in the Price Administrator by the Emergency Price Control Act of 1942, as amended, the Stabilization Act of 1942, the Stabilization Extension Act of 1944, and Executive Orders Nos. 9250 and 9328, it is hereby ordered, that:

§ 1305.120 *Adjustable pricing of certain cotton textiles.* (a) This Supplementary Order applies to the following cotton textiles:

(1) All goods covered by Revised Price Schedules and Maximum Price Regulation Nos. 7, 11, 33, and 89.[1]

(2) Denims, 3.60 yd. fine yarn sanforized shirting chambray, and Class A print cloths covered by Revised Price Schedule No. 35.[2]

(3) Knit cotton heavyweight underwear covered by Maximum Price Regulation No. 221.[3]

(b) In connection with any sale first made on or after June 30, 1944, of any of the goods referred to in paragraph (a), and any delivery pursuant to such sale, the producer may agree with his customer to adjust the price to conform to any revised ceiling price which may be established by the Office of Price Administration prior to the revocation of this supplementary order.

(c) The permission granted in paragraph (b) shall not apply to deliveries against contracts made prior to June 30, 1944. No contract existing prior to June 30, 1944 shall be changed by amendment of such contract, by substitution therefor of a new contract, or otherwise (whether or not such change is made pursuant to the terms of the original contract), if the change so effected results in an agreed price in excess of the maximum price applicable under the contract as it existed prior to June 30, 1944.

This order shall become effective as of June 30, 1944.

Issued this 3d day of July 1944.

CHESTER BOWLES,
Administrator.

[RO 1E,[1] Amdt. 10]

MILEAGE RATIONING: TIRE REGULATIONS FOR THE TERRITORY OF HAWAII

A rationale accompanying this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Ration Order 1E is amended in the following respects:

1. In section 2.1, the definition of "limited service" is revoked.

2. Section 3.3 (b) is amended to read as follows:

(b) No Board shall issue a certificate for the acquisition of tires or tubes in excess of its quota.

3. Section 3.3 (d) is hereby revoked.

4. Section 4.2 is amended to read as follows:

SEC. 4.2 *Eligibility of passenger automobiles.* A consumer who meets the applicable conditions of section 4.1 may be granted a certificate for tires and new tubes in accordance with the following provisions:

(a) *Determination of uses of vehicle.* (1) The Board shall determine the purposes for which the applicant uses his vehicle as a basis for ruling on the applicant's tire eligibility.

(2) The applicant must establish the same facts as are required in section 5.4 (a) of Ration Order 5F for the allowance of occupational mileage.

(3) In the case of gasoline-operated vehicles, the Board shall reconsider the gasoline ration issued for use with the passenger automobile in accordance with the applicable provisions of Ration Order 5F.

(b) *Eligibility for Grade I Tires.*—(1) *Preferred mileage purposes.* A certificate for a Grade I tire (or a Grade III tire at the applicant's option) may be issued:

(i) For a passenger automobile which is used for one or more of the purposes described in section 5.6 (Preferred Mileage) of Ration Order 5F, if its total rationed mileage (excluding mileage allowed on a special ration) exceeds 150 miles per month.

(ii) To an applicant who operates fleet or official passenger automobiles on interchangeable gasoline ration books, if he establishes that the vehicle for which application is being made will be operated for one of the purposes described in section 5.6 of Ration Order 5F.

(2) *Obsolete size and Motorcycle and Motorscooter tires.* A certificate for a Grade I tire of an obsolete size or a motorcycle or motorscooter tire may be issued to replace an obsolete size tire or a motorcycle or motorscooter tire which cannot be recapped either because of its physical condition or the lack of recapping facilities but only if:

(i) In the case of a passenger automobile, a valid supplemental gasoline ration is outstanding;

(ii) In the case of a motorcycle or motorscooter, the vehicle is used by the applicant in carrying on an occupation or to drive to and from home and a fixed place of work.

(iii) In the case of a passenger automobile operated on a valid non-highway ration or with a fuel other than gasoline, the vehicle is used by the applicant in carrying on an occupation or to drive to and from home and a fixed place of work.

(c) *Eligibility for Grade III Tires.* A certificate for a Grade III tire may be issued for a passenger automobile which is not eligible under paragraph (b) and:

(1) Is operated on a valid supplemental gasoline ration; or

(2) Is operated on a valid non-highway gasoline ration or which is not propelled by gasoline.

(d) *Eligibility for tubes.* A certificate for a new tube may be issued for a motorcycle or motorscooter, or for any passenger automobile which is operated on a valid supplemental gasoline ration.

5. Section 6.3 (a) (2) is amended to read as follows:

(2) No dealer may transfer a tire in need of recapping to a consumer, except that a recappable passenger-type tire which is not worn beyond the breaker strip may be transferred to a consumer without first being recapped, in exchange for a certificate.

This amendment shall become effective July 1, 1944.

Issued this 4th day of July 1944.

PART 1341—CANNED AND PRESERVED FOODS

[MPR 306,[1] Amdt. 30]

CERTAIN PACKED FOOD PRODUCTS

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Maximum Price Regulation 306 is amended in the following respects:

1. A headnote is added to § 1341.585 (a), and the portion of § 1341.585 (a) preceding the item "Group I" is amended, to read as follows:

(a) *Maximum prices for listed miscellaneous packed vegetables.* The miscellaneous packed vegetables listed below include the packed juices of such vegetables. The miscellaneous packed vegetables covered in this paragraph are as follows:

2. In the list under Group I in § 1341.585 (a), the item "Pickles (packed from fresh stock)" is amended to read as follows:

Pickles packed from fresh vegetables other than cucumbers

3. Section 1341.585 (b) is added to read as follows:

(b) *Maximum prices for pickles packed from fresh cucumbers.*—(1) *Maximum prices for sales to purchasers other than government procurement agencies.* (i) The processor's maximum price per dozen, f. o. b. factory, for sales to purchasers other than government procurement agencies of each kind, variety, grade, brand, style of pack, container type and size of pickles packed from fresh cucumbers shall be:

(*a*) The weighted average price per dozen charged by the processor, f. o. b. factory, for the same item during the first 60 days after the beginning of the 1941 pack; plus

(*b*) Eight per cent of the weighted average price per dozen, f. o. b. factory, as figured under (*a*), above; plus

(*c*) An increase for fresh cucumber costs, figured by converting 40 cents per bushel (of fresh cucumbers) into cents per dozen of the finished product, on the basis of his 1941 yield. The processor shall figure his "1941 yield" by dividing the total number of bushels of fresh cucumbers used by him in processing the item during the 1941 pack by the total number of dozens of the item packed during that period.

(ii) "Weighted average price" means the total gross sales dollars charged for the item divided by the number of dozens of containers sold. All sales made in the regular course of business during the first 60 days after the beginning of the 1941 pack shall be included, regardless of the date of delivery, except sales contracts made with government procurement agencies. Sales contracts made at times other than during that period shall not be included, even though delivery was made during the period.

(iii) If the processor cannot figure his maximum price under (i), above, nor under § 1341.557, his maximum price shall be the maximum price of his most closely competitive processor for the same item.

(2) *Maximum prices for sales to government procurement agencies.* The processor's maximum price per dozen, f. o. b. factory, for sales to government procurement agencies shall be 96 per cent of the maximum price, f. o. b. factory, for sales to purchasers other than government procurement agencies, as determined under subparagraph (1), above.

4. The headnote of § 1341.586 (d) (1) is amended to read as follows: "*All miscellaneous vegetables set forth in Groups I, II and III in § 1341.585 (a) and § 1341.585 (b), and sweet potatoes set forth in § 1341.584 (j):*

PULPWOOD

Pulpwood produced in the States of Maine, Vermont, New Hampshire, New York and that portion of Connecticut and Massachusetts west of the Connecticut River.

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Maximum Price Regulation 361 is amended in the following respect:

In Appendix A, paragraph (b) (1) is amended to read as follows:

(1) The appropriate maximum prices set forth in paragraph (a) (1) above shall in no event be increased by more than $1.00 per cord when the producer can demonstrate that such payment is necessary to cover unusual costs of operation. Prior to the payment of all or any part of this sum, the consumer must apply to the Paper and Paper Products Branch, Office of Price Administration, Washington, D. C., for approval to pay such sum. The application must include a statement prepared by the producer which shows itemized unit costs, as well as a statement from the consumer as to why such additional payment is necessary. The statement of the producer must show unit costs broken down into such elements as stumpage, cutting, yarding, woods hauling, trucking, construction and maintenance of improvements, and general overhead.

Unless the Office of Price Administration or a duly authorized representative thereof shall, by notice mailed to the applicant within 15 days from the date of filing such application, approve, disapprove, adjust or extend the time within which to do any of the foregoing, such application shall be deemed to have been approved, subject to non-retroactive written disapproval or adjustment at any later time by the Office of Price Administration.

This amendment shall become effective July 10, 1944.

NOTE: The reporting provisions of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 4th day of July 1944.

[2] 8 F.R. 11681, 12237; 9 F.R. 2350.

The Maximum Import Price Regulation is amended in the following respects:

1. The words "or a seller under any other applicable price regulation" are added at the end of section 1 (b).

2. Section 5 is amended by adding a new paragraph (c) to read as follows:

(c) Whenever the Price Administrator grants an adjustment to an industrial user under this section, he may also adjust wholesalers' and retailers' maximum prices which are governed by the General Maximum Price Regulation.

3. The second sentence of the definition of "same" in section 6 is amended to read as follows:

Such materials are to be regarded as the same, notwithstanding minor differences in grade, quality, style or design which, according to trade practice, would not result in any significant difference in the price charged.

4. The words "purchasing commissions" are deleted from the definition of "total landed costs" in section 6, and the following phrase is substituted:

Any reasonable commission paid by the importer to a purchasing agent outside the continental United States, if . . .

5. Section 7 is hereby revoked.

6. The words "state the total landed costs of the article" are deleted from section 8 (d) (8), and the words "state the present total landed costs of the article" are substituted.

7. Paragraph (f) through (i) in section 8 are redesignated (g) through (j), respectively, and a new paragraph (f) is added to read as follows:

(f) Any importer who was granted an approved price for any imported manufactured goods prior to April 1, 1944, based on a first purchase after April 30, 1943, is not required to reapply for approval of a selling price under paragraph (e) of this section unless the foreign seller of those goods did not sell the same goods during the thirty days prior to April 30, 1943, or did not offer them for sale on April 30, 1943.

In the event the foreign seller did sell the same goods during the thirty days prior to April 30, 1943, or offered them for sale on April 30, 1943, any importer who was granted an approved price for those goods based on his first purchase after April 30, 1943, shall reduce that price by any amount by which the foreign invoice price on which his approved price was based exceeds the price the foreign seller charged a purchaser of the same class during the thirty days prior to April 30, 1943, or, in the absence of such a sale, the foreign seller's firm offering price on April 30, 1943.

8. The second sentence of the definition of "same" in section 9 is amended to read as follows:

Such goods are to be regarded as the same notwithstanding minor differences in grade, quality, style or design which, according to trade practice, would not result in any significant difference in the price charged.

9. The words "August 20, 1943" are deleted from the definition of "total landed costs" in section 9 and the words "April 30, 1943," are substituted.

10. The words "purchasing commissions" are deleted from the definition of "total landed costs" in section 9, and the following phrase is substituted: "Any reasonable commission paid by the importer to a purchasing agent outside the continental United States, if.."

11. The words "and domestic" are deleted from the heading in section 9.

12. The words "When used in sections 7 and 8 of this regulation" are deleted from section 9 and the words "When used in section 8 of this regulation" are substituted.

13. The words "either" and "or the domestic manufacturer thereof" are deleted from the definition of "primary wholesaler" in section 9.

14. The words "the domestic manufacturer" are deleted from the definition of "retailer" in section 9.

This amendment No. 3 shall become effective July 10, 1944.

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

In section 5 (c), subparagraph (2) is deleted, and the textual part of subparagraph (1) is amended to read as follows:

(1) Regardless of other provisions of this regulation, the maximum prices for certain specifications of lumber sold under Tables 1, 2, 3, and 4 are adjusted according to the tables below, subject to the limitation that the adjusted prices are good only on shipments made before October 16, 1944, against contracts or CPA auction acceptances made prior to September 16, 1944.

This amendment shall become effective July 3, 1944.

Issued this 3d day of July 1944.

CHESTER BOWLES,
Administrator.

PART 1439—UNPROCESSED AGRICULTURE COMMODITIES

[MPR 425,[2] Amdt. 5]

FRESH FRUITS, BERRIES AND VEGETABLES FOR PROCESSING

A statement of the considerations involved in the issuance of this amendment has been issued and filed with the Division of the Federal Register.*

Section 15 is added, to read as follows:

SEC. 15. *Adjustments by Regional or District Offices.* The following authority is hereby delegated to each Regional Administrator which he may in turn redelegate to any of the District directors within his Region:

(a) To determine, for any area within his jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to employ brokers or other agents to secure raw materials for processing. If such a custom is found to exist, the authorized officer shall issue an appropriate order permitting processors in that region or district to pay such an agent his usual commissions or fees in addition to paying the maximum price as established under the regulation to the supplier.

Any such order shall modify section 14 of this regulation to the extent necessary to effectuate the purposes of the order.

(b) To determine, for any area within its jurisdiction, and with respect to each commodity covered by this regulation, whether it has been a well-established custom in that area for a substantial number of processors to receive the raw material at points where they do not maintain their own facilities for grading, weighing, repacking and loading onto their conveyances. If such a custom is found to exist, the authorized officer shall issue an appropriate order to the effect that for the particular area the definition of "delivered to customary receiving points" in section 3 and of "customary receiving point" in Sec. 4 do not apply, and that processors' customary receiving points are the places where, in the past, they have customarily received the raw materials, whether or not they maintained the above mentioned facilities at that point.

This amendment shall become effective July 10, 1944.

TITLE 49—TRANSPORTATION AND RAILROADS

Chapter II—Office of Defense Transportation

[Administrative Order ODT 1, Amdt. 13]

PART 503—ADMINISTRATION

DELEGATION OF AUTHORITY TO HIGHWAY TRANSPORT DEPARTMENT

Pursuant to Executive Orders 8989, as amended, 9156, 9214, and 9294, and War Production Board Directives 21 and 36; *It is hereby ordered*, That Administrative Order ODT 1, as amended (8 F.R. 6001), be, and it hereby is, further amended by adding a new section designated as § 503.11, to read as follows:

§ 503.11 *Highway Transport Department.* (a) The Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department, is authorized and directed to administer the provisions of General Order ODT 44 (9 F.R. 7089). In the administration of said order, said assistant director shall have full power and authority:

(1) To issue certificates of transfer; to determine the form and contents of such certificates; to provide application forms for such certificates; to prescribe, with the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, the information to be contained in such application forms; and to designate the places of filing thereof:

(2) To issue government exemption permits and to determine the form and content of such permits;

(3) To provide forms of notifications of transfer of new commercial motor vehicles and to determine the form and contents of such notifications;

(4) To appoint members of local appeal boards as provided in Administrative Order ODT 27 (9 F.R. 7092) and to revoke any such appointments from time to time;

(5) To require, with the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, when necessary, the making and keeping, and prescribing the manner and form, of reports and records, and to designate accredited representatives of the Office of Defense Transportation to examine and inspect such records; and

(6) To do any or all things, whether or not enumerated herein, that are necessary for the complete exercise of the powers and duties specifically or generally delegated to said assistant director by the provisions of this section.

(b) The authority conferred in paragraph (a) of this section upon the Assistant Director, Office of Defense Transportation, in charge of the Highway Transport Department, may be delegated by him to such member or members of his staff as he may designate.

This Amendment 13 to Administrative Order ODT 1 shall become effective July 1, 1944.

TITLE 29—LABOR

Chapter VI—National War Labor Board

PART 801—RULES OF ORGANIZATION

REGIONAL WAR LABOR BOARDS

The following section has been added to the rules of organization of the National War Labor Board:

§ 801.14 *Organization of Regional War Labor Boards.* (See § 802.51, 8 F.R. 16676, 9 F.R. 1612, 6852)

Approved: June 30, 1944.

THEODORE W. KHEEL, *Executive Director.*

PART 803—GENERAL ORDERS

WAGE AND SALARY RATES

General Order No. 6 has been amended to read as follows:

§ 803.6 *General Order No. 6.* (a) The hiring of an individual at a wage or salary rate in excess of the rate properly established in the plant for employees of similar skill and productive ability within the classification in which the individual is employed is an increase in wages or salary within the meaning of Executive Order 9250, and the regulations of the Director of Economic Stabilization, and requires the approval of the National War Labor Board.

(b) The hiring of an individual at a wage or salary rate lower than the rate or the minimum of the range of rates properly established in the plant for the job classification in which the individual is employed is a decrease in wages or salary within the meaning of Executive Order No. 9250, and the regulations of the Director of Economic Stabilization, and requires the approval of the National War Labor Board.

(c) If a wage or salary rate or range of rates for a job classification has not theretofore been established by the employer for the plant involved, the rate or range of rates may be established without the approval of the National War Labor Board if it bears the same relation to the rates or ranges of rates for similar classifications in the area as the existing rates or ranges of rates in the plant bear to comparable rates or ranges of rates in the area; *Provided, however*, That rates or rate ranges covering new plants or new departments within existing plants must be submitted to the National War Labor Board for approval.

(E.O. 9250, 7 F.R. 7871)

Approved, June 27, 1944.

THEODORE W. KHEEL, *Executive Director.*

PART 803—GENERAL ORDERS

RESTRICTIONS ON HIRING RATES

Section II of General Order No. 31 is amended by the addition of the following section:

§ 803.31 *Schedules.* * * *

II–F *Restrictions on hiring employees at rates in excess of the minimum rate of the properly established rate range for a given job classification*—1. *Existing establishments.* An employer shall hire employees at the minimum of the properly established rate range for a given job classification; *Provided, however*, That an employee who has special ability and experience may be hired at a rate within the range corresponding to such ability and experience. But an employer may not, within a given year (which shall be the same year as the one used by the employer in calculating the average amount of merit or length of service increases given under section II–C–1 of this General Order), hire more than 25 percent of all the employees hired for any job classification, at rates in excess of the minimum of the properly established rate range for that job classification. In any job classification in which fewer than four employees are hired within the year, one employee who has special ability and experience may be hired at a rate in excess of the minimum rate of the proprely established rate range. If, before the effective date of this amendment, an employer has had a plan properly in existence (as defined in this General Order) which provides that some percentage of employees in excess of 25 percent may be hired at rates above the appropriate minimum rate, such provision may be continued in effect. All other employers are subject to the restrictions of this or the following sub-section (II–F–1 or II–F–2).

2. *New establishments or new departments in existing establishments.* An employer shall hire employees at the minimum of the properly established rate range for a given job classification: *Provided, however*, That an employee who has special ability and experience may be hired at a rate within the range corresponding to such ability and experience. But an employer may not, within the first year of operation hire more than 50 percent of all the employees hired for any job classification, at rates in excess of the minimum of the properly established rate range for that job classification. During all subsequent years of operation, no more than 25 percent of all the employees hired in any job classification may be hired at rates in excess of the minimum of the properly established rate range for that job classification. In any job classification in which fewer than four employees are hired within the year, one employee who has special ability and experience may be hired at a rate in excess of the minimum rate of the properly established rate range.

PART 803—GENERAL ORDERS

TERRITORIAL WAR LABOR BOARD FOR HAWAII

General Order 36 effective June 6, 1944, is hereby amended to read as follows:

§ 3803.36 *General Order No. 36*—(a) *Organization and jurisdiction.* (1) There is hereby created within the Territory of Hawaii the Territorial War Labor Board for Hawaii, to consist of the following members to be appointed by the National War Labor Board: Representatives of Labor, two of whom are to be available for service with the Territorial Board at any given time; Representatives of Industry, two of whom are to be available for service with the Territorial Board at any given time; and Representatives of the Public, two of whom are to be available for service with the Territorial Board at any given time. There shall be two Co-chairmen and one or more Vice Chairman, to be designated by the National War Labor Board from among the public representatives.

(2) The Territorial War Labor Board for Hawaii shall have jurisdiction over all labor disputes and voluntary wage and salary adjustments in Hawaii within the jurisdiction of the National War Labor Board. It shall have power, subject to the same review by the National War Labor Board as other Regional War Labor Boards, to issue final orders and rulings in such cases.

(3) The Territorial War Labor Board for Hawaii shall comply with all pertinent provisions of the rules of organization and procedure of the National War Labor Board, especially Part VI, entitled Jurisdiction and Procedure of Regional Boards; *Provided, however*, That the Territorial War Labor Board for Hawaii may by unanimous vote of its members, make such modifications in its procedures as are deemed by it to be necessary for its efficient administration. Such action shall be promptly reported to the National War Labor Board and shall be subject to the National War Labor Board's ultimate power of review.

(4) In acting hereunder on wage or salary adjustments, the Territorial War Labor Board for Hawaii shall comply with the terms of Executive Order 9250, dated October 3, 1942, Executive Order

9328, dated April 8, 1943, the Supplementary Directive of May 12, 1943 and all other Executive orders and regulations issued thereunder. The Territorial War Labor Board may make such recommendations as to appropriate policies to govern wage and salary adjustments as are adapted to the special circumstances obtaining in the Territory. Such recommendations shall be consistent with the Act of October 2, 1942. They shall be submitted for consideration of the National War Labor Board which will transmit to the Director of Economic Stabilization those recommendations deemed by it advisable and necessary.

(b) *Wage and salary adjustments which may be made effective without approval of Territorial War Labor Board for Hawaii.* (1) Adjustments in the wage and salary rates of individual employees as a result of (i) individual merit increases, (ii) individual increases based upon length-of-service, (iii) operation of an apprentice of trainee system, (iv) individual promotions or reclassifications, (v) increased productivity under piece work or incentive plans; *Provided, however,* That with respect to increases made under subdivisions (i), (ii) and (iii) of this section the total of such increases to any individual employee (subject to National War Labor Board jurisdiction) shall not exceed 10¢ per straight time hour during any year, and such increases during any such year shall not exceed an average of 5¢ per straight time hour for all the employees (subject to National War Labor Board jurisdiction) in the establishment.

(2) Increases in wage and salary rates made in compliance with any minimum wage statute or with any minimum wage order of the duly constituted authorities of the Territory of Hawaii.

(3) Adjustments in the wage and salary rates of governmental employees of the Territory of Hawaii. It is expected, however, that the authorities of the Territory of Hawaii will observe and abide by the same stabilization policies as are made applicable generally in the Territory.

(4) Establishment of a wage or salary rate or range of rates for a job classification not theretofore established for the plant involved, the rate or rate range so established to bear the same relation to rates or rate ranges for similar classifications in the area as the existing rates in the plant bear to comparable rates or rate ranges in the area, *Provided, however,* That rates for new establishments or new departments within existing establishments must be submitted for approval.

(5) The payment to employees, whose wage or salary increases are subject to the jurisdiction of the National War Labor Board, of a bonus, fee, gift, commission or other form of compensation customarily paid to such employees in the past provided that:

(i) If in a fixed amount, the total amount so paid to an employee during the current bonus year does not exceed the total so paid to an employee for like work during the preceding bonus year, or

(ii) If computed on a percentage, incentive or other similar basis, the rate and the method of computation are not changed in the current bonus year so as to yield a greater amount than that in the preceding bonus year, but a greater amount when resulting from the same rate and method of computation may be paid.

(6) The Territorial War Labor Board for Hawaii may, in the case of small total wage or salary increases, provide for the making of such other adjustments without its approval as it deems necessary for the efficient administration of its duties hereunder. Such action shall be promptly reported to the National War Labor Board and shall be subject to the National War Labor Board's ultimate power of review but any modification or reversal thereof shall not be retroactive.

(7) No general order heretofore or hereafter issued by the National War Labor Board shall be applicable to the Territory of Hawaii unless expressly extended thereto by action of the National War Labor Board.

(E.O. 9250, 7 F.R. 7871)

Approved: June 14, 1944.

PART 1226—GENERAL INDUSTRIAL EQUIPMENT

[Conservation Order M-28 as Amended July 5, 1944]

DICHLORODIFLUOROMETHANE

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of dichlorodifluoromethane for defense, for private account, and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 1226.27 *Conservation Order M-28.*—(a) *Definitions.* For the purpose of this order:

(1) "F-12 gas" means dichlorodifluoromethane (sometimes called "freon-12").

(2) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency or any organized group of persons whether incorporated or not.

(3) "Producer" means any person engaged in the production of F-12 gas.

(4) "Supplier" means any person to the extent that he is engaged in the business of distributing F-12 gas to persons using the same for installation in refrigerating or air conditioning systems. The term shall include an equipment manufacturer to the extent that he engages in the sale of F-12 gas which has not been installed in such systems. "System" means any "system" as defined in General Limitation Order L-38.

(5) "Equipment manufacturer" means any person to the extent that he uses F-12 gas for charging new refrigerating or air conditioning systems or parts of systems manufactured by him. It does not include affiliates, subsidiaries, branches, divisions or sections or an enterprise, if not actually engaged in the manufacture of systems or refrigerant containing parts of systems.

(6) "Insecticide manufacturer" means any person to the extent that he uses F-12 gas in the production of insecticide.

(7) "User" means any person who installs F-12 gas in a refrigerating or air-conditioning system, other than an equipment manufacturer. It includes suppliers, service agencies, owners or lessees, to the extent that they engage in installing F-12 gas in any system.

(8) "Contract agent" means any person to whom or for whose account F-12 gas is delivered by a producer for distribution to suppliers.

(If the same person, or two or more branches, divisions or sections of the same enterprise, acts in two or more capacities as contract agent, supplier, equipment manufacturer, or insecticide manufacturer, the particular provisions of this order which apply to the respective activities must be followed, to the extent to which the various provisions are applicable to each activity.)

(b) *Systems for which no deliveries are permitted.* (1) No person (including users, dealers, and other suppliers, and producers) shall deliver, or accept delivery of, any F-12 gas for use in, or for resale for use in any new or used system which is of a type referred to in List A, unless the delivery and use has been specifically authorized in writing by the War Production Board. It will be the general policy of the Board not to authorize delivery and use of F-12 gas for any List A system except in the following cases:

(i) When the major portion of the space to be air conditioned is used as a radio broadcasting studio, auditorium, hotel, restaurant, cafeteria, school, office or office building, or department store, and one of the following conditions exists: The building is "windowless" or one in which the windows cannot be opened for ventilation (such as glass brick, or glass set in a fixed frame which was built into the surrounding wall in an immovable way); or the rooms needing air conditioning are interior ones having no other means of adequate ventilation and are either served by a separate system or constitute a major portion of the space regularly occupied by persons and are served by one central system; or

(ii) When the system is used to air condition a room or rooms in a single family residence or a single apartment and its continued operation is essential to protect the life or restore the health of a person suffering from a serious ailment or disease and under care of a licensed physician, and a statement to that effect by such physician is also furnished with the application referred to below.

Application for WPB permission to get F-12 gas for such a use should be made by the owner or operator of the system by letter in duplicate (or in an emergency, by wire confirmed immediately by letter) to War Production Board, General Industrial Equipment Division, Washington 25, D. C., Ref. M-28 giving the address and a description of the building(s) in which the system is located and stating the extent to which the system comes within either of the cases described above, the quantity of F-12 gas needed, and the name and address of the probable supplier. The authorization, if granted, will be sent to the applicant, who should show it to his supplier when requesting delivery.

(2) During the period from November 12, 1943, through August 31, 1944, no person (including users, dealers, and other suppliers, and producers), shall deliver, or accept delivery of, any F-12 gas for use in, or for resale for use in any new or used system of any type (not in List A) unless the system must be operated under one or more of the following conditions:

(i) Where an air-cooled condenser is used and the ambient temperature is 110° F or higher; or

(ii) Where the saturated refrigerant temperature corresponding to the suction pressure is less than minus 10° F; or

(iii) Where aluminum or magnesium alloys or rubber (except synthetic rubber) have been used in construction of the system and come in contact with the refrigerant, and are not easily replaceable; or

(iv) Where the system is for use aboard ship, or outside of the continental United States by the Army, Navy, Maritime Commission or War Shipping Administration; or

(v) Where the total operating charge required to operate the system is ten (10) pounds or less of F-12 gas and the system was in operation on November 12, 1943, and is used for food preservation or for storage of penicillin, blood serum,

blood for plasma, blood plasma, biologicals and bacteriologicals; or

(vi) Where the use of no Group 2 or Group 3 refrigerants, as defined in the American Standard Safety Code for Mechanical Refrigeration, ASRE Circular No. 15, ASA–B 9–1939, as approved by the American Standards Association April 20, 1939, is permitted by that Code; or

(vii) Where the system is used in a sealed railroad car or sealed bus.

(The above restrictions apply not only to systems used for ordinary civilian purposes, but also to those owned, operated, or used within the continental United States by the Army, Navy, Maritime Commission or War Shipping Administration, including post exchanges and ships service stores, other than those used aboard ships.)

(3) Attention is called to paragraph (c) (2), which prohibits a supplier from delivering F–12 gas except on certified orders.

(c) *Deliveries by suppliers.* (1) No supplier or any other person (except a producer) shall deliver any F–12 gas for export outside of the continental United States, or for use by any of the following non-retail users (or to any ship yard or other person for use in a system to be delivered to any of them), namely: The Army, Navy, Maritime Commission, War Shipping Administration, post exchanges, ships service departments and activities, equipment and insecticide manufacturers, for new or used systems, or for use in insecticide, without specific authorization from the War Production Board. Subject to the foregoing restriction, any supplier or any other person (except a producer) may deliver F–12 gas to any other person, for use in any new or used system not referred to on List A of this order, if it must be operated under one or more of the conditions stated in (b) (2) (i) to (b) (2) (vii) both inclusive.

No person shall accept from a supplier or other person any delivery of F–12 gas which is prohibited by the restriction in this order.

(2) Whenever the owner of a system or any other user wishes to obtain F–12 gas for installation in a system or systems for which deliveries by suppliers are permitted under this order, he may place his order with any supplier for the minimum quantity, which the available cylinder or cylinders permit, necessary to bring the charge in the system or systems up to a normal operating charge. He must certify his order, or the vendor's delivery receipt, by a certificate endorsed on or attached to it, showing that the F–12 gas is to be used for such purposes only, and that he is not holding any empty cylinders not owned by him, which shall be in substantially the following form:

> The undersigned purchaser certifies to the seller and the War Production Board that he does not have any F–12 gas cylinders not owned by him, which have been empty for more than 15 days: and that the F–12 gas covered by this order will not be used or resold for any purposes not permitted by Order M–28.

Such certificate, which must be signed by the purchaser or his authorized official, will constitute a representation that what is stated in it is true. A supplier must not deliver any F–12 gas except under certified orders; and he must not make delivery under any order which is certified if he knows, or has any reason to believe that the certificate furnished with such order is untrue, incomplete, or inaccurate. In such a case the supplier must reject the order, and should explain why he is doing so, so that the prospective purchaser can comply with this order. Each supplier must keep all accepted orders and certificates which he receives, for a period of two years, for inspection by the War Production Board. (Certificates in the form required by this order before its amendment on November 12, 1943, may continue to be used for 30 days after that date, in place of the above form.)

This restriction shall not prevent a person who services several systems for which deliveries are permitted by this order from purchasing a cylinder of F–12 gas from a supplier, if the amount purchased is the smallest quantity practicable considering the sizes of the standard commercial cylinders and the amount needed in his current operations.

(3) No "standby charge" or any other quantity of F–12 gas, over and above that needed to bring the total charge in a system or systems up to the normal operating charge, shall be delivered to or accepted by any person for use in a system which he owns, leases, or operates (except the Army, Navy, Maritime Commission or War Shipping Administration): except, however, that a "standby charge" may be maintained for a system which is operated primarily for one of the following purposes: air conditioning or refrigeration for the production and storage of penicillin, or blood serum; or refrigeration for the storage of blood for plasma, or the production or storage of blood plasma.

(d) *Deliveries by producers.* Each producer shall hold his entire inventory of F–12 gas, together with all additional quantities produced or otherwise obtained by him from time to time, for delivery under such orders and for such uses as may be authorized or directed from time to time by the War Production Board. No deliveries of F–12 gas shall be made by a producer except pursuant to specific authorizations or directions heretofore or hereafter issued by the War Production Board.

(e) The provisions of this order shall be followed by every producer, contract agent, supplier, user, equipment manufacturer, insecticide manufacturer, and any other person buying, selling or delivering F–12 gas, without any regard to any preference ratings which have been assigned or which may hereafter be assigned to particular contracts or orders.

(f) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as issued and amended from time to time.

(2) *Reports.*[1] (i) Each equipment manufacturer who wishes to secure delivery of F–12 gas during any month for charging systems or parts produced by him, or for factory repair and charging of sealed or hermetic condensing units, shall file with the War Production Board, on or before the 15th day of the preceding month a report on Form WPB–3326, prepared in accordance with the instructions for such form.

(ii) Any person wishing to secure F–12 gas during any month for ultimate uses (such as testing coaxial cable for leaks) other than the charging of new or used refrigeration or air conditioning systems or parts or use in insecticide, shall file with the War Production Board, on or before the 20th day of the preceding month, a report by letter, in triplicate, showing the minimum amount required for the month, the purpose for which required, and the amount used during the preceding calendar month for that purpose.

(3) *Violations.* Any person who willfully violates any provisions of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, materials under priority control, and may be deprived of priorities assistance.

(4) *Appeals.* Any appeal from the provisions of this order, or any direction thereunder, shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

(5) *Communications.* All reports to be filed and other communications concerning this order should be addressed to: War Production Board, General Industrial Equipment Division, Washington 25, D. C., Ref. M–28.

Issued this 5th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,

LIST A—SYSTEMS FOR WHICH NO DELIVERIES ARE PERMITTED

Air conditioning systems. Any system, of any size operated or installed for the purpose of lowering the temperature and/or humidity of air in any building, room or other enclosure used as, or located in any of the following:

Amusement parks.
Animal hospitals.
Auditoriums.
Ballrooms, dancing studios and dance halls.
Bank and loan associations.
Bars, cocktail lounges, and beer parlors.
Bowling alleys.
Concert halls.
Funeral parlors.
Golf clubs, country clubs, athletic clubs, and all other clubs and club houses.
Hotels and apartment houses.
Moving picture houses.
Night clubs.
Office buildings and offices, public or private.
Railway, streetcar and bus stations and terminals.
Residential buildings and dwellings of all kinds.
Restaurants, cafeterias, and other places selling meats, food or beverages.
Schools.
Service establishments, such as laundries, cleaners and dyers, tailor shops, barber shops, "beauty" parlors, automobile sales and service shops, and repair shops of all kinds.
Skating rinks.
Stores, selling any kind of products, material or merchandise, at retail or wholesale (excluding manufacturing establishments).
Studios of all kinds.
Theaters.

This list does not include (i) any such system used primarily to air condition a building, room or other enclosure used chiefly for purposes not listed above, or (ii) any system designed, necessary and used, in substantial part, for the refrigeration and storage or processing of food, ice, or other materials or products, necessary to life or health, or to be delivered to the Army, Navy, Maritime Commission or War Shipping Administration, and requiring refrigeration, temperature control, or freedom from dust or other impurities.

Refrigeration systems.

Skating rink systems.
Refrigeration systems solely for storing or dispensing carbonated or malt beverages.

INTERPRETATION 1

[Interpretation 1 revoked November 12, 1943]

INTERPRETATION 2

(a) *Quantities which may be obtained by system owner.* Subparagraphs (c) (2) permits the owner (or lessee) of a refrigerating or air conditioning system (not on List A) who does his own installation of F–12 gas, to place his order for the minimum quantity "which the available cylinder or cylinders permit", necessary to bring the charge in his system up to a normal operating charge.

The standard commercial cylinders are generally available in sizes which contain four pounds, ten pounds, twenty-five pounds, and one hundred forty-five pounds of the gas, and a particular supplier may not have all four sizes in stock at all times. Questions will therefore arise as to the number and sizes of cylinders which the owner of a system is permitted to obtain, if the particular supplier with whom his purchase order is first placed should not happen to have the sizes of cylinder from which the minimum quantity needed by the system can be furnished the owner.

In such a case, the owner of the system should make a reasonable effort to obtain the minimum quantity which he needs, from some other supplier in his locality, rather than purchase an excessive quantity from the first supplier upon whom he calls. While the order does not prescribe rigid rules as to exactly what effort the purchaser should make in every case, it is required that he do whatever is practicable, under his particular conditions, to obtain the minimum quantity which he needs, and no more.

Where he is located in a large community in which there are a number of suppliers, he should contact several, if necessary in order to obtain the quantity needed. If he happens to be located in a small community where there is only one supplier who cannot furnish the exact quantity needed and the F–12 gas must be obtained immediately in order to avoid spoilage of a substantial quantity of food, the restriction would not prevent him from obtaining a larger amount, if that is unavoidable without letting his food spoil.

As a guide to the number and size of cylinders which should normally be obtained, for the different quantities of F–12 gas which may be needed in different cases, the following table is furnished:

Pounds of F–12 gas required	Amounts which should be ordered			
	Number of cylinders			
	4 pounds	10 pounds	25 pounds	145 pounds
0–4	1			
5–9		1		
10–14	1	1		
15–24		2 or	1	
25–29	1		1	
30–39	1	1	1	
40–49	1	2	1	
50–59		1	2	
60–69		2	2	
70–79	1		3	
80–89	1	1	3	
90–110		1	4	
111–145				1
146–170			1	1
171–195			2	1
196–220			3	1
221–245			4	1
246–290				2
291–315			1	2
316–340			2	2
341–365			3	2
366–390			4	2
391–435				3

The above interpretation applies only where the system owner buys his F–12 gas from a supplier, and installs it himself. If he has a service shop install the gas, the shop will always be able to furnish no more than the amount actually needed, from its service cylinders, and there will be no problem.

(b) *Installation of F–12 gas in systems or parts held by equipment manufacturers or dealers.* Paragraph (b) (1) prohibits deliveries of F–12 gas for systems on List A; (b) (2) prohibits deliveries for any other system, unless it must be operated under one or more of the conditions specified. These restrictions are intended to prevent deliveries of F–12 gas where there is a sale or other delivery of the gas. They prevent an equipment manufacturer or other person from delivering F–12 gas in any new or used system or refrigerant-containing parts if charged with F–12 gas furnished by him after the effective date of the applicable restriction, for any prohibited use.

These restrictions do not prevent the withdrawal and reinstallation of F–12 gas in the course of repairing a used system or refrigerant-containing part, where no additional F–12 gas is added to what was already in the system or part.

Neither do they restrict the delivery of new or used systems or refrigerant-containing parts which had already been charged at the time the applicable restriction became effective; nor do they prevent the owner or lessee of any installed system who had F–12 gas in his possession on the effective date of the applicable restriction, from charging the system with such gas, or having someone else do this charging for him, where no transfer of possession or ownership is involved. PART 3109—MEDICAL EQUIPMENT AND SUPPLIES SIMPLIFICATION

[General Limitation Order L–214, Schedule 2, as Amended July 5, 1944]

CORRECTIVE SPECTACLES

Section 3109.3 *Schedule 2 to General Limitation Order L–214* is hereby amended to read as follows:

§ 3109.3 *Schedule 2 to General Limitation Order L–214*—(a) *Definition.* For the purposes of this schedule: "Corrective spectacles" means spectacles designed to correct or assist defective vision in which corrective focus lenses are employed.

(b) *Restrictions on the use of nickel and nickel-bearing alloy.*[1] No person shall incorporate any nickel or nickel-bearing alloy in the manufacture of corrective spectacles (or any part thereof) except to the extent permitted below:

(1) Nickel silver (containing not more than 10% nickel in the alloy) may be used in any part of metal spectacleware (including oxford-type spectacleware) and xylonite spectacleware.

(2) Nickel silver (containing not more than 18% nickel in the alloy) may be used in screws and dowels for metal spectacleware and xylonite spectacleware.

(3) Pure nickel or any nickel-bearing alloy may be used in:

(i) Pad-arm assemblies for metal spectacleware;

(ii) Arms (of the type not fastened to the lens) on semi-rimless metal spectacleware; and

(iii) Plating of "white metal" spectacleware.

(c) *Restriction on the eyesize of metal frames.* No person shall manufacture any metal frame for corrective spectacles which has an eye with a circumference or periphery of more than 144.5 mm. There is no restriction on the shape of the eye, but the circumference or periphery of the eye must not be greater than 144.5 mm.

(d) *Exception for Army and Navy orders.* The restrictions of this schedule do not apply to the manufacture of corrective spectacles (or any part thereof) to fill orders or contracts from or for the account of the Army or Navy of the United States, if such spectacles (or parts) are manufactured in conformity with the specifications applicable to the particular order or contract.

[1] NOTE: The former editions of this schedule restricted the use of all metals in corrective spectacles. This amendment has the effect of removing those restrictions with respect to all metals except nickel and nickel-bearing alloy and also permits the use of nickel and nickel-bearing alloy in certain parts not permitted by the previous editions of the schedule.

PART 3159—BISMUTH

[Conservation Order M-276, as Amended July 5, 1944]

BISMUTH

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of bismuth for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3159.1 *Conservation Order M-276*—(a) *Definitions.* For the purposes of this order:

(1) "Bismuth" means: (i) Refined bismuth in such forms as bars, ingots, pigs, sticks, slabs, cakes, moss powder, or other shapes, suitable for production of industrial or medicinal products; or

(ii) Any primary alloy containing more than 0.5% bismuth (by weight) which has been produced in the normal process of refining non-ferrous ores or concentrates, bullion, residues, or flue dust, suitable for production of finished bismuth-bearing alloys.

(2) "Producer" means any person who produces bismuth as a primary or secondary metal or as by-product in the conduct of any enterprise.

(3) "Distributor" means any person regularly engaged in the business of buying and selling bismuth.

(4) "Consumer" means any person who uses bismuth in the manufacture of alloys, solders, compounds, salts, mixtures, medicinal products, or other bismuth-bearing materials.

(b) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of the War Production Board, as amended from time to time.

(c) *Restrictions on deliveries.* (1) Notwithstanding any contract or agreement to the contrary or the receipt of any preference rating, no person shall deliver bismuth after July 1, 1944; except as follows:

(i) To a producer or distributor; or

(ii) To Metals Reserve Company, to any other corporation organized under section 5 (d) of the Reconstruction Finance Corporation Act as amended (15 U.S.C., section 606 (b)), or to any duly authorized agent of any such corporation; or

(iii) To a consumer if the amount delivered, together with all other amounts received by that consumer during the calendar month, does not exceed 100 pounds; or

(iv) Pursuant to specific authorization of the War Production Board based on the application of the consumer on Form WPB-2278, or otherwise.

(2) No person shall accept delivery of bismuth in violation of the provisions of paragraph (c) (1) above.

(3) No distributor shall accept delivery of bismuth without specific authorization of the War Production Board if the inventory of the distributor is, or will by virtue of such acceptance become, in excess of the practicable minimum working inventory reasonably necessary to meet deliveries of bismuth on the basis of the distributor's current rate of sale.

(d) *Restrictions on use.* Notwithstanding any contract or agreement to the contrary or the receipt of any preference rating, no consumer shall, after July 1, 1944, put into process or change the form or shape of bismuth except as follows:

(1) In amounts of less than a total of 100 pounds in any month; or

(2) Pursuant to specific authorization of the War Production Board for all amounts over a total of 100 pounds, based on the application of the consumer on Form WPB-2278, or otherwise.

(e) *Reports.* Any distributor or consumer who on the first day of any calendar month has in his possession or under his control a quantity of bismuth in excess of 100 pounds, or who has received or used in the preceding month a quantity of bismuth in excess of 100 pounds, shall file a report on Form WPB-2278 with the War Production Board. This report shall be filed in accordance with the instructions to the form. The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(f) *Communications.* All communications concerning this order should be addressed to: War Production Board, Tin-Lead Division, Washington 25, D. C., Ref.: M-276.

(g) *Violations.* Any person who wilfully violates any provision of this order, or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States, is guilty of a crime, and, upon conviction, may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

PART 3169—TEXTILE PRINT ROLLERS

[General Conservation Order M-280, Revocation]

Section 3169.1 (*General Conservation Order M-280*) is revoked. This revocation does not affect any liabilities incurred under the order. The manufacture and delivery of textile print rollers remain subject to all other applicable regulations and orders of the War Production Board.

PART 3290—TEXTILE, CLOTHING AND LEATHER

[Conservation Order M-138, as Amended July 5, 1944]

ISTLE

§ 3290.261 *Conservation Order M-138*—(a) *Definitions.* For the purposes of this order:

(1) "Istle" means raw unprocessed pita and palma istle of the grade "fair average quality" only.

(2) "Istle product" means yarn, roving, or twine or products made therefrom processed from "istle," alone or in combination with other fibers.

(3) "Processor" means any person who processes "istle" or any "istle product."

(4) "Damaged istle" means "istle" that has been rejected by Defense Supplies Corporation, or "istle" upon which an adjustment has been made by an insurance adjuster as a result of any kind of damage making a given bale or bales unsuitable, wholly or in part, for use in the manufacture of products permitted by this order.

(5) [Deleted July 5, 1944]

(6) [Deleted July 5, 1944]

(b) *Importation of istle.* The importation of istle and istle products is subject to the provisions of General Imports Order M-63 as amended from time to time.

(c) *Processing restrictions.* (1) No person shall put into process any istle or istle product, except for incorporation into any of the following products:

(i) Rope.

(ii) Twine, provided only palma istle is used.

(iii) Any product for ultimate delivery to, or for incorporation into any material for ultimate delivery to the Army or Navy of the United States, the Maritime Commission or War Shipping Administration.

(iv) Any product, for the manufacture of which any istle or istle product is allocated in accordance with paragraph (e).

(2) No processor shall use in any calendar month more than 16⅔ per cent of the quantity of palma istle which he used in the period from January 1, 1944, through March 31, 1944.

(d) *Restrictions on the use of damaged istle and damaged istle products.* Any processor or dealer who has in his possession damaged istle defined in paragraph (a) (4), or istle products defined in paragraph (a) (2) that are damaged, shall report to the War Production Board the nature of the damage and the quantity not suitable for the manufacture of the products, or for the end uses permitted by this order. The report shall be by letter setting forth all pertinent facts, including a statement of the portion of each bale or package actually damaged. After making that report and receiving from the War Production Board an acknowledgment which does not object to his claim of damage, he may then use or dispose of the portion of each bale or package, actually damaged and so reported, free from the restrictions of this order. (Note: See paragraph (i).)

NOTE: Paragraphs (e) and (f), formerly (d) and (e), redesignated July 5, 1944.

(e) *Control and allocation.* The War Production Board may from time to time allocate the supply of istle, and istle products, and specifically direct the time, manner and quantities in which deliveries to or by particular processors shall be made or withheld. It may also direct, permit, or prohibit particular uses of istle, or istle products, by any processor, in connection with the allocation of such material to him. Any direction, prohibition or allocation, pursuant to this paragraph, must, to be valid, be in writing and in the name of the War Production Board.

(f) *Restrictions on deliveries.* No person shall accept delivery of, or purchase any istle or istle product, for any use prohibited by this order. No person shall sell or deliver any istle or istle product to any person whom he knows or has reason to believe is not entitled to receive the same, or to any person who he has reason to believe will put such material to a use prohibited by this order.

(g) *Appeals.* Any appeal from the provisions of this order shall be made by filing a letter in triplicate, referring to the particular provision appealed from and stating fully the grounds of the appeal.

NOTE: Paragraphs (h), (i), (j), (k), formerly (f), (h), (i), (j), redesignated July 5, 1944.

(h) *Applicability of regulations.* This order and all transactions affected thereby are subject to all the applicable provisions of the regulations of the War Production Board, as amended from time to time.

(i) *Reports.* Any person who acquires or puts into process any istle shall report on Form WPB-914, formerly PD-469-Part 1, as required on the form. The reporting requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. Persons affected by this order shall file such other reports and questionnaires as may from time to time be required, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(j) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise directed, be addressed to: War Production Board, Textile, Clothing and Leather Bureau, Washington 25, D. C., Reference: M-138.

(k) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order, wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

[Allocation Order M-340, as Amended July 5, 1944]

MISCELLANEOUS CHEMICALS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of the chemicals subject to this order for defense, for private account and for export; and the following order is deemed necessary and appropriate in the public interest and to promote the national defense:

§ 3293.491 *Allocation Order M-340*—(a) *Definitions.* (1) "Subject chemical" means any chemical listed in Appendix A, as therein defined.

(2) "Producer" means any person engaged in the production of any subject chemical and includes a person who imports any subject chemical or has it produced for him pursuant to toll agreement.

(3) "Distributor" means any person who buys any subject chemical for the purpose of resale without further processing and without changing the form thereof.

(4) "Supplier" means a producer or distributor.

(b) *Restrictions on deliveries.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall deliver a subject chemical to any person except as specifically authorized or directed in writing by War Production Board. No person shall accept delivery of a subject chemical which he knows or has reason to believe is delivered in violation of this order.

(2) Authorization or directions as to deliveries to be made by suppliers in each calendar month will generally be issued by War Production Board prior to the beginning of such month, but may be issued at any time. They will normally be issued on Form WPB-2947 (formerly PD-602) which is to be filed by the supplier with War Production Board as explained in paragraph (g) below.

(3) If a supplier is authorized or directed by War Production Board to deliver a subject chemical to any specific customer or group of customers, but is unable to make the delivery either because of receipt of notice of cancellation or otherwise, the subject chemical shall revert to inventory, and shall not be delivered, or used, without further instructions.

(c) *Exceptions for small deliveries.* (1) Specific authorization in writing of War Production Board is not required for delivery by any supplier to any person in any calendar month of a subject chemical in a quantity not exceeding the quantity stated in Column 3 of Appendix B.

(2) The aggregate quantity of a subject chemical which any supplier may deliver in any calendar month pursuant to paragraph (c) (1), shall not exceed:

(i) The quantity which he has been specifically authorized, upon application pursuant to Appendix D, to deliver on small orders; or

(ii) If he is a distributor, the quantity which he acquired upon certification that it was required to fill small orders or the quantity which he acquired himself on such a small order, or

(iii) If he is a distributor who customarily delivers exclusively on small orders, any quantity.

(d) *Exceptions for deliveries for other reasons.* Specific authorization in writing of War Production Board is not required for delivery of a subject chemical by any supplier to any other person for a purpose stated in Column 4 of Appendix B.

(e) *Restrictions on use.* (1) On and after the applicable effective date stated in Appendix A, no supplier shall use a subject chemical except as specifically authorized or directed in writing by War Production Board.

(2) Each person who with an order for a subject chemical furnishes a certificate required by paragraph (f) shall use the subject chemical delivered on such order only as specified on such certificate except as otherwise specifically authorized or directed in writing by War Production Board.

(3) War Production Board may from time to time issue directions with respect to the use or uses which may or may not

be made of a subject chemical to be delivered to, or then in inventory of the prospective user.

(f) *Supplier to obtain from customer a certificate of use.* No supplier shall in any calendar month (beginning in the case of each subject chemical with the calendar month in which the order becomes effective as to that chemical as stated in Appendix A) deliver to any person a greater quantity of such subject chemical than is stated in Column 3 of Appendix B, unless he shall have received from such person a certificate as to the use for which such person is ordering such subject chemical. Such certificate shall be substantially in the form and shall be subject to the instructions stated in Appendix C and shall be in the hands of the supplier not later than the 15th day of the month preceding the month in which delivery is to be made. It need not be filed with War Production Board. A supplier must not deliver a subject chemical where he knows or has reason to believe the purchaser's certificate is false, but in the absence of such knowledge or reason to believe he may rely on the certificate.

(g) *Applications by suppliers for leave to deliver or use.* (1) Each supplier requiring authorization to make delivery of, or to use, a subject chemical during any calendar month shall file application on or before the 20th day of the preceding month. The application should be made on Form WPB-2947 (formerly PD-602) in the manner set forth in the general instructions appearing on that form, subject to the special instructions contained in Appendix D. If there is an inconsistency between the general and special instructions, the special instructions must be followed.

(2) War Production Board may issue to any supplier other and further directions with respect to preparing and filing Form WPB-2947 (formerly PD-602).

(h) *Miscellaneous provisions.*—(1) *Applicability of regulations.* This order and all transactions affected thereby are subject to all applicable regulations of War Production Board, as amended from time to time.

(2) *Violations.* Any person who wilfully violates any provision of this order or who, in connection with this order wilfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using, material under priority control and may be deprived of priorities assistance.

(3) *Communications to War Production Board.* All reports required to be filed hereunder and all communications concerning this order, shall, unless otherwise directed, be addressed to: War Production Board, Chemicals Division, Washington 25, D. C. Ref: M-340.

Issued this 5th day of July 1944.

WAR PRODUCTION BOARD,
By J. JOSEPH WHELAN,
Recording Secretary.

APPENDIX A

Chemicals subject to this order. (1) "Acetaldol" means the chemical known by that name and by the names aldol, beta hydroxy butyric aldehyde oxybutanol, 3-hydroxy butanal.

Effective date—August 1, 1943. Comes in the following grades: no grades.

(2) "ST-115" means the preparation known by that trade name, as defined and specified in Appendix to Regulation No. 3 (1942 Revision) of the Bureau of Internal Revenue.

Effective date—August 1, 1943. Comes in the following grades; no grades.

(3) "Dehydrol-O" means the chemical known by that trade name as defined and specified in Appendix to Regulation No. 3 (1942 Revision) of the Bureau of Internal Revenue.

Effective date—August 1, 1943. Comes in the following grades: no grades.

(4) "G. C.-78" means the chemical known by that trade name.

Effective date—August 1, 1943. Comes in the following grades: no grades.

(5) "By-product—phosphoric acid" means phosphoric acid obtained as a by-product in the manufacture of methyl methacrylate.

Effective date—September 1, 1943. Comes in the following grades: no grades.

(6) "Oxidized petrolatum" means high paraffinic petrolatum oxidized and processed to contain aliphatic ketones, and which is suitable for use as a base in the manufacture of rust preventive compounds or corrosion inhibitors meeting specification No. 52-C-18 such as those petrolatums known by the trade marks Par-Al-Ketone, Alox 707, and Alox 701.

Effective date—October 9, 1943. Comes in the following grades: no grades.

(7) [Deleted June 9, 1944]

(8) [Deleted Mar. 27, 1944]

(9) [Deleted Mar. 27, 1944]

(10) [Deleted Oct. 22, 1943.]

(11) [Transferred June 15, 1944, to M-300-25]

(12) "Enamel wire naphtha" (also known as E. W. naphtha) means a mixture of aromatic solvents derived from coke oven light oil, drip oil or coal tar, distilling between 150 and 290° C., with at least 15 per cent distilling above 200° C., and containing 20 to 60 per cent monomeric polymerizable constituents of the cumorone-indene type. The term does not include aromatic material for the production of E. W. naphtha, or for the production of cumorone-indene resin, or for the production of other chemicals or intermediates, or for use as solvents in the crude state.

Effective date—February 1, 1944. Comes in the following grades: no grades.

(13) "Methyl Bromide" means the chemical CH_3Br.

Effective date—March 1, 1944. Comes in the following grades: no grades.

(14) "Precipitated calcium carbonate" means ultra fine particle calcium carbonate such as the chemical known as Kalvan, Witcarb R and Multifex.

Effective date—April 1, 1944. Comes in the following grades: no grades.

(15) "Pyronate" means the pyroligneous alcohol known by that trade name which is produced as a by-product of the destructive distillation of hardwood.

Effective date—May 1, 1944. Comes in the following grades: No grades.

(16) "Hi-flash naphtha" means water white coal tar solvent naphtha, having a distillation range of 145° C. (293° F. to 200° C. (392° F.), derived from coke oven light oils, coal tar distillates, drip oils or holder oils.

Effective date—July 1, 1944. Comes in the following grades: No grades.

APPENDIX C—CUSTOMER'S CERTIFICATE OF INTENDED USE

The undersigned purchaser hereby certifies to War Production Board and to his supplier, pursuant to Order No. M-340, that the ---------- (specify subject chemical) ordered for delivery in ---------- 194-- Month will be used by him for the manufacture or preparation of the following product(s), and that such product(s) will be put to the following end use(s):

	Quantity	Primary product	End use
(A)			
(B)			

Name of purchaser

By ----------
Date Duly authorized official Title

Instructions for customer's certificate. (1) The certificate shall be signed by an authorized official of the purchaser, either manually or as provided in Priorities Regulation No. 7.

(2) Where a purchaser wishes to receive more than the exempted quantity of each of two or more subject chemicals, a separate certificate shall be obtained as to each.

(3) The purchaser will specify under "Primary product", the exact product or products in the manufacture or preparation of which the subject chemical will be used or incorporated. A distributor ordering the subject chemical for resale as such will specify "resale" or, if ordering exclusively for resale on exempt small orders, will specify "small orders of ---------- or less" (specify quantity stated in Column 3 of Appendix B). If purchase is for inventory state "inventory."

(4) Under "End use" purchaser will specify the ultimate or end use to which the primary product will be put. He will also indicate whether civilian, Lend-Lease, other export or military, and if the product is for uses falling in two or more such categories, the percentage falling in each. Also, he will give contract numbers in the case of military use or Lend-Lease, and in the case of export, export license numbers. A distributor ordering the subject chemical for resale as such will leave blank the "End Use" column.

APPENDIX D—SPECIAL INSTRUCTIONS FOR SUPPLIER'S FORM WPB-2947 (FORMERLY PD-602)

(1) *Obtaining forms.* Copies of Form WPB-2947 (formerly Form PD-602) may be obtained at local field offices of the War Production Board.

(2) *Number of copies.* Prepare an original and three copies. File original and two copies with War Production Board, Chemicals Division, Washington 25, D. C., Ref.: M-340, retaining the third copy for your files. The original filed with the War Production Board shall be manually signed by a duly authorized official.

(3) *Separate set for each chemical.* Where the supplier's application relates to deliveries of two or more subject chemicals, he will file a separate set of Form WPB-2947 (formerly Form PD-602) for each.

(4) *Information at top of form.* In the heading, under "Name of Material", specify the subject chemical to which the Form WPB-2947 (formerly Form PD-602) relates; under "Grade"; specify grade stated in Appendix A, or if no grade specified, leave blank; under "WPB Order No.", specify "M-340"; indicate month and year during which deliveries covered by the application are to be made; under "Unit of Measure", specify unit of measure stated in Column 2 to Appendix B; under name of company, specify your name and the address of the plant or warehouse from which shipment will be made.

(5) *Listing of customers.* In Column 1 (except for small orders as explained in (7) below) list the name of each customer from whom an order for delivery of the subject chemical during the applicable month has been received. If it is necessary to use more than one sheet to list customers, number each sheet in order and show the grand total on last sheet which is the only one that need be certified.

(6) *Primary product and end use.* In Column 1-a (except for small orders as explained in (7) below) specify the product or products in the manufacture or preparation of which the subject chemical will be used by your customer, the end use to which such product or products will be put, and military or Lend-Lease contract numbers, and export license numbers, all as indicated by the certificate obtained under paragraph (f) of this order. The quantity of the subject chemical used in the manufacture or preparation of each primary product for each product use shall be shown separately. If the subject chemical ordered by a customer is for two or more uses, indicate each use separately and indicate the quantity of the subject chemical ordered for each use.

(7) *Small orders.* The supplier need not list the name of any customer to whom he is to deliver in the applicable month a quantity of the subject chemical not exceeding the maximum quantity (indicated in Column 3 of Appendix B) which he is permitted to deliver to any one person in any calendar month without specific authorization. Also, in the case of any such delivery, he need not show the name of the product or the end use. Instead, he must write in Column 1 "Total small order deliveries (estimated)" and in Column 4, must specify the total estimated quantity of the subject chemical to be delivered on such orders.

(8) *Use by producers.* A producer requiring permission to use a part or all of his own production of the subject chemical shall list his own name as customer in Column 1 on Form WPB-2947 (formerly Form PD-602) specifying quantity required and product manufactured. Written approval of War Production Board on such Form WPB-2947 (formerly Form PD-602) shall constitute authority to the producer to use the subject chemical in the quantity and for the purposes indicated in such approved form.

(9) *Table II.* Each producer will report production, deliveries and stocks as required by Table II, Columns 9 to 16, inclusive. Distributors will fill out only Columns 10, 12 and 13. Producers and distributors will show in Column 8 Grade, as stated in Appendix A, or if no Grade is there specified, will leave Column 8 blank.

Chapter XI—Office of Price Administration

PART 1335—CHEMICALS

[RPS 68,[1] Amdt. 7]

HIDE GLUE STOCK

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Section 1335.510 (e) is amended to read as follows:

(e) *Collectors' sales.* In the case of a sale of hide glue stock by a collector or other person not a producer, the maximum delivered price shall be the maximum f. o. b. price listed in paragraph (a) of this section for the type of material involved, plus the amount of additional charges per cwt. established as hereinafter indicated for the particular haul involved. (Such maximum price and additional charges shall be itemized on the invoice which shall be furnished the buyer before payment.)

Each collector of hide glue stock shall, on or before July 31, 1944, submit by registered mail to the nearest regional office of the Office of Price Administration an application containing the information listed below. Collectors entering business after July 10, 1944, shall make such an application no later than five days after their first delivery of hide glue stock. All applications may be amended at any time to include current information and to request the establishment of new or changed maximum charges for new or changed points of pick-up and delivery.

(1) A description of his business and method of operation in purchasing, selling and shipping hide glue stock.

(2) The location of points at which he receives and makes delivery, and the location of his assembly points, if any.

(3) The actual freight or trucking charges per cwt. and the actual loading and unloading expenses per cwt., if any, involved in shipments of hide glue stock between such of the aforementioned points as are made in the ordinary course of business.

(4) The total amount of charges per cwt. he proposes to add to each shipment between designated points.

Sales and deliveries may be made on the basis of such proposed additional charges. The Regional Administrator may by order at any time disapprove and modify any proposed additional charges which are out-of-line with the level of contract carrier charges in that area for the type of service rendered.

If within a period of 30 days after mailing the application, the seller is not advised by the Regional Administrator of its disapproval, such proposed charges may be considered as authorized. In the event of any modification of unauthorized charges the seller shall make refund accordingly.

This amendment shall become effective July 10, 1944.

NOTE: All reporting and record-keeping requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Issued this 5th day of July 1944.

CHESTER BOWLES,
Administrator.

PART 1351—FOOD AND FOOD PRODUCTS

[MPR 545]

BABASSU, COPRA, OURICURI, PALM KERNEL, AND SESAME PRODUCTS

In the judgment of the Price Administrator, it is necessary and proper to establish specific maximum prices for the sale and delivery of babassu products, copra products, ouricuri products, palm kernel products and sesame products. The prices established herein are, in the judgment of the Administrator, generally fair and equitable and will effectuate the purposes of the Emergency Price Control Act of 1942, as amended, and of Executive Order 9250 and Executive Order 9328.

Supplementary Order No. 45 is superseded insofar as that order exempted sesame meal from price control.

Such specifications and standards as are used herein were, prior to such use, in general use in the trades or industries affected.

A statement of the considerations involved in the issuance of this regulation, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

9. Maximum prices for bulk sales of listed meal products.
10. Base per ton prices for all listed meal products.
11. Increases for sacks.

AUTHORITY: Secs. 1 to 11, inclusive (§ 1351.389) issued under 56 Stat. 23, 765; Pub. Law 151; 78th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SECTION 1. *Applicability.* Except for those sales exempted by paragraph (a) of this section, this regulation shall apply to all sales within the United States and to all deliveries, whether immediate or future, pursuant to said sales, of the following commodities:

Babassu oil meal, oil cake, sized cake and pellets;
Copra oil meal, oil cake, sized cake and pellets;
Ouricuri oil meal, oil cake, sized cake and pellets;
Palm kernel oil meal, oil cake, sized cake and pellets;
Sesame oil meal, oil cake, sized cake and pellets.

(a) *Exempt sales*—(1) *Export sales.* This regulation shall not apply to any export sale. The maximum price for such sales shall be determined in accordance with the provisions of the Second Revised Maximum Export Price Regulation, as amended.

(2) *Emergency purchases.* This regulation shall have no application to any purchase by the United States or any of its agencies under such circumstances of emergency as to make immediate delivery imperative, and as to render it impossible to secure or unfair to require immediate delivery at the maximum price which would otherwise be applicable, if such purchases and deliveries are made pursuant to the provisions of section 4.3 (f) of Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation as amended: *Provided, however,* That the Administrator may, by order, waive the reporting of any part of the information required by section 4.3 (f) in connection with a particular purchase or group or purchases upon determining that such information may not reasonably be required under all the circumstances, and he may, in lieu thereof, require the reporting of other information more suited to the circumstances.

SEC. 2. *Sales at other than maximum prices.* (a) Regardless of any contract or obligation, no person shall sell or deliver, and no person shall, in the course of trade or business, buy or receive any of the products covered by this regulation at prices above the maximum prices established by this regulation nor shall any person agree, solicit, offer or attempt to do any of the foregoing: *Provided, however,* That certain agreements to raise prices are permissible, as provided for in subparagraph (1) of this paragraph.

(1) Any person may agree to sell at a price which can be increased up to the maximum price in effect at the time of delivery; but no person may, unless authorized by the Office of Price Administration, deliver or agree to deliver at prices to be adjusted upward in accordance with action taken by the Office of Price Administration after delivery. Such authorization may be given when a request for a change in the applicable maximum price is pending, but only if the authorization is necessary to promote distribution or production and if it will not interfere with the purposes of the Emergency Price Control Act of 1942, as amended. The authorization may be given by an order of the Administrator or of any official of the Office of Price Administration having authority to act upon the pending request for a change in price or to give the authorization.

(b) Prices lower than the maximum prices established by this regulation may, of course, be charged or paid.

SEC. 3. *Evasion.* Any method whereby a seller obtains greater consideration than the maximum price, or whereby he gives less than the consideration due the buyer for the maximum price is an evasion of this regulation, and therefore prohibited; and any offer or agreement which accomplishes or attempts to accomplish such a result is equally prohibited.

SEC. 4. *Documents, records and reports.* (a) Every seller, and every purchaser in the course of trade or business, shall keep for inspection by the Office of Price Administration for so long as the Emergency Price Control Act of 1942, as amended, remains in effect, complete and accurate records of every sale and purchase covered by this regulation.

(b) Every person making a sale covered by this regulation shall, for each such sale, prepare an invoice or bill of sale in duplicate. He shall retain one copy for his file and give one copy to his customer. Each such invoice or bill of sale must state the name and address of the buyer and seller, the sales price and the maximum price, the kind and grade of commodity and quantity sold, its guaranteed protein content, if any, and some indication as to whether it was sold bulk or sacked. In addition, every processor and jobber preparing such an invoice or bill of sale, must state thereon the point of production of the commodity and he must separately state any charges included in the sale price for sacks or containers, and for transportation (in excess of those charges included in the base price) and any markup included in such price.

(c) Upon demand every such person shall submit such records and files to the Office of Price Administration and keep such further records as the Office of Price Administration may from time to time require.[1]

SEC. 5. *Enforcement.* Persons violating any provisions of this regulation are subject to the license revocation and suspension provisions, civil enforcement actions, suits for treble damages and criminal penalties as provided in the Emergency Price Control Act of 1942, as amended.

SEC. 6. *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this regulation. A seller's license may be suspended for violations of the license or of one or more applicable price schedules or regulations. A person whose license is suspended may not, during the period of suspension, make any sales for which his license has been suspended.

SEC. 7. *Protests and petitions for amendment.* Any person seeking an interpretation or an amendment of, or desiring to file a protest against any pro-

visions of this regulation, may do so in accordance with Revised Procedural Regulation No. 1, as amended, issued by the Office of Price Administration.

SEC. 8. *Definitions.* Except as otherwise provided in the articles of this regulation dealing with maximum prices, when used herein the following terms shall have the following meanings:

"Person" means an individual, corporation, partnership, association, any other organized group of persons and their legal successors or representatives. The term includes the United States, its agencies, other governments, their political subdivisions and their agencies.

"United States", when it refers to an area, means the 48 states and the District of Columbia.

"Processor" means, with respect to any lot, the person who manufactures such lot. When any commodity is processed (or further processed) by a person who does not own it, the owner who caused it to be processed (or further processed) shall be deemed to be the processor when he sells the commodity which results.

"Store" means a building where a regular business of selling and delivering feeds and/or grain to feeders is carried on, and where the owner or one or more of his employees works on substantially a full-time basis in such business or in a general retail business of which such feed and grain business is a part.

"Retailer" means, with respect to any lot, a person who purchased such lot and who resells it to a feeder after having unloaded it into a store.

"Car door seller" means a person who maintains a store, and who, with respect to any lot he has purchased as a carload shipment, sells such a lot to feeders in less than carload lots without having unloaded the lot into a warehouse or store.

"Jobber" means, with respect to any lot, a person other than the processor or car door seller, who sells such lot without having previously unloaded it into a warehouse or store.

"Wholesaler" means, with respect to any lot, a person other than the processor, who sells such lot to anyone other than a feeder, after having unloaded it into a warehouse or store, or to a feeder after having unloaded it into a place of business other than a store.

"Importer" means, with respect to any lot manufactured outside the United States, the first person to whom such lot is delivered in the United States, and who sells such lot within the United States.

"Feeder" means, with respect to any lot, a person who uses such lot for feeding animals or poultry.

"Supplier" means, as to any seller, the person from whom he purchased the lot being priced.

"Customer" means, as to any seller, the person to whom he sells the lot being priced.

"Oil cake" is the product remaining after the commercial extraction of oil from a nut, seed or bean.

[1] Subject to the approval of the Bureau of the Budget in accordance with Federal Reports Act, 1942.

"Oil meal" is finely ground oil cake.

"Sized cake" is ground oil cake which will not pass through a 3/8 inch screen. It may, however, include limited quantities of oil meal, in keeping with normal trade practices.

"Pellets" are the product which result from the processing of oil meal through a pelleting machine.

"Listed meal products" means babassu oil meal, oil cake, sized cake, and pellets; copra oil meal, oil cake, sized cake and retailer as to that portion of it which cake, and pellets; palm kernel oil meal, oil cake, sized cake and pellets, and sesame oil meal, oil cake, sized cake, and pellets, referred to collectively.

"Your transportation cost" means:

(a) When you employ a common carrier, contract carrier, or other carrier for hire or compensation:

(1) If the shipment originates at a point in the United States, the charges (exclusive of loading charges not customarily included in such transportation charges) which you actually incur;

(2) If the shipment originates outside the United States, the charges which you actually incur, not exceeding the lowest rail rate of freight applicable to the shipment from the point of entry to the point at which your customer assumes further transportation expenses;

(b) When you do your own hauling, the reasonable value of the transportation service (exclusive of loading), not in excess of the maximum price you could lawfully charge for a like service if you performed it as a contract carrier;

(c) When any movement involves a combination of the types of transportation included in (a) and (b), the sum of the amounts computed separately for each portion of the movement.

"Carload shipment" means any quantity which moves as a rail carload shipment under Office of Defense Transportation or tariff requirements.

"Pool car lot" means a lot being shipped to the purchaser as part of a rail carload shipment of commodities sold by one seller to two or more persons.

"Less-than-carload lot" means any lot of less than 60,000 pounds other than a carload shipment or a pool car lot. It includes any delivery by or into a truck.

"Unit of protein" equals one per cent of protein and "each unit of protein or fraction thereof" means the number of full units, if any, plus an additional unit for any fractional unit.

SEC. 9. *Maximum prices for bulk sales of listed meal products*—(a) *By domestic processors.* If you are a domestic processor, your maximum price varies with the location of the production plant and depends upon whether you transport and unload the lot prior to sale. The following prices are your maximum prices if you deliver in a lot of 60,000 pounds or more and for carload shipments and pool car lots. If you actually deliver a less than carload lot you may add $1.00 per ton to the maximum prices set forth below in subparagraph (1) and (2).

(1) If the production plant is located in the United States at a point of entry, your maximum price is the base price provided in section 10, plus your transportation cost from the production plant.

(2) If the production plant is located at any point in the United States other than a point of entry, your maximum price is the base price provided in section 10, plus your transportation cost from the production plant and plus a freight allowance equal to the lowest per ton all rail carload freight rate on the listed meal product to the production plant from the point of entry of the raw material.

(3) In any case where you unload the lot into a warehouse or store operated by you as a separate place of business not located at the production plant and you sell from such warehouse or store, your maximum price is the appropriate maximum price for the location of the production plant, figured under subparagraphs (1) or (2) above, plus one of the following maximum per ton markups:

(i) If you sell to a feeder from a store $5.50 per ton;
(ii) In all other cases $2.50 per ton.

(b) *By jobbers, wholesalers, retailers and car door sellers.* Under the definitions in section 8, you are a jobber, wholesaler, retailer or car door seller when you are selling a lot which you have purchased. If you have unloaded the lot into a warehouse or store, you are a retailer as to that portion of it which you sell to feeders from your store, and a wholesaler in all other cases. When you operate a store but you sell without having unloaded the lot into a warehouse or that store, you are a car door seller as to that portion which you sell to feeders in less than carload lots. You are a jobber as to all other sales of a lot you have purchased. If you are any such seller, your maximum price is the sum of the following:

(1) The maximum per ton price your supplier could have charged on the sale to you if he had given you and fulfilled on delivery the same protein guarantee that you are giving your customer, plus,

(2) Your transportation cost, if any, and,

(3) If no seller of the same class as yours has already handled the lot, the applicable one of the following markups:

Jobber	$1.00 per ton for deliveries in pool car lots .75 per ton for all other deliveries
Wholesaler	2.50 per ton
Car door seller	3.50 per ton
Retailer	5.50 per ton

(c) *By importers.* You are an importer, with respect to any lot manufactured outside of the United States, if you are the first person to whom such lot is delivered in the United States and if you sell such lot within the United States. If you are an importer your maximum price is determined as follows:

(1) If you are the processor of the lot your maximum price is the base price plus your transportation cost from the point of entry to the point at which you deliver to your customer.

(2) If you are not the processor of the lot, and if you sell it without having unloaded it into a warehouse or store, your maximum price is the base price plus your transportation cost from the point of entry to the point at which you deliver it to your customer, plus one of the following maximum mark-ups:

(i) If you are selling it to a feeder in a l. c. l. lot, and you operate a store (although you have not unloaded this lot into your store)	$3.50 per ton
(ii) In all other cases	$1.00 per ton for delivery in a pool car lot; $0.75 per ton for all other deliveries

(3) If you sell the lot after having unloaded it into a warehouse or store, your maximum price is the base price plus your transportation cost from the point of entry to the point at which your customer takes delivery, plus one of the following maximum mark-ups:

(i) If you sell to a feeder from a store	$5.50 per ton
(ii) In all other cases	2.50 per ton

SEC. 10. *Base per ton prices for all listed meal products.* Base prices for all listed meal products depend upon the giving and fulfilling of a guaranteed minimum protein content.

(a) Where you guarantee, at the time of sale, that the lot will contain, at a minimum, the standard protein content listed below for the commodity, and you fulfill that guarantee by delivering a lot with at least such standard protein content, base per ton prices are as follows:

	Protein guarantee	Base price	
		Oil cake or oil meal	Sized cake or pellets
Copra products	20% or more protein	$45.50	$47.00
Babassu products	22% or more protein	45.50	47.00
Ouricuri products	20% or more protein	45.50	47.00
Palm Kernel products	18% or more protein	45.50	47.00
Sesame products	40% or more protein	72.50	74.00

(b) Where you guarantee, at the time of sale, that the lot will contain, at a minimum, any specified protein content less than the percentage shown above for the commodity, and you fulfill such guarantee by delivering a lot with at least the minimum protein content you guaranteed, you determine the base price by deducting from the appropriate price in paragraph (a), $0.75 per ton for each unit of protein or fraction thereof by which the actual protein content of the lot is under the guarantee shown above for the same commodity.

(c) If at the time of sale, you guarantee any minimum protein content and you do not fulfill such guarantee, you determine your base price by dividing the base price that would be applicable if the guarantee had been fulfilled by the number of units guaranteed, and multiplying that result by the number of full units of protein in the lot.

(d) If, at the time of sale, you do not guarantee any minimum protein content, you figure your base price by multiplying the actual number of full units of protein in the lot by the base price per unit shown for the commodity in the table below:

Product:	Base price per unit of protein
Copra products	$2.25
Babassu products	2.05
Ouricuri products	1.60
Palm kernel products	2.50
Sesame products	1.80

SEC. 11. *Increases for sacks.* If you sell any lot in sacks or packages, your maximum price is your maximum price for the same lot, bulk, plus the reasonable market value, not to exceed the lawful maximum price, of the sacks or packages at the time of delivery.

This regulation shall become effective July 5, 1944, except that it shall have no application to sales and deliveries of sesame products until September 3, 1944.

NOTE: The record-keeping provisions of this regulation have been approved by the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

Issued this 5th day of July 1944.

CHESTER BOWLES,
Administrator.

[Rev. SR 1 to GMPR, Amdt. 62]

GRAIN PRODUCTS

A statement of the considerations involved in the issuance of this amendment, issued simultaneously herewith, has been filed with the Division of the Federal Register.*

Revised Supplementary Regulation No. 1 to the General Maximum Price Regulation is amended in the following respects:

1. Section 2.3 (p) (1) (ii) is amended to read as follows:

(ii) The following barley products: pearled barley, ground pearled barley, hulled barley, malted barley, ground barley, barley middlings, barley grits.

2. Section 2.3 (p) (1) (iii) is amended to read as follows:

(iii) The following oat products: groats, hulled oats, ground groats, rolled hulled oats (table or feeding), cereal oats, ground oats, oat middlings.

3. Section 2.3 (p) (1) (iv) is amended to read as follows:

(iv) The following rye products: malted rye, ground rye, rye grits, rye middlings, the ground and unground by-products of the production of rye grits.

4. Section 2.3 (p) (1) (v) is amended to read as follows:

(v) The following soybean products: ground soybeans, ground soybean grits, the ground or unground by-products of soybean grits.

5. Section 2.3 (p) (1) (vi) is amended to read as follows:

(vi) The following buckwheat products: ground buckwheat, buckwheat groats, ground buckwheat groats, buckwheat grits, buckwheat middlings, ground or unground by-products of the production of buckwheat grits.

6. Section 2.3 (p) (1) (vii) is added to read as follows:

(vii) The following grain sorghum products: ground grain sorghums, grain sorghum grits, ground or unground by-products of the production of grain sorghum grits.

7. Section 2.3 (p) (1) (viii) is added to read as follows:

(viii) The following cottonseed products: ground cottonseed, cottonseed grits.

8. Section 2.3 (p) (1) (ix) is added to read as follows:

(ix) The following peanut products: ground peanuts, peanut grits.

9. Section 2.3 (w) is added to read as follows:

(w) Corn cobs and ground corn cobs.

This amendment shall become effective July 10, 1944.

Issued this 5th day of July 1944.

Chapter XIII—Petroleum Administration for War

PART 1503—PRODUCTION

[Petroleum Dir. 19 [1]]

CONSERVATION AND DEVELOPMENT OF PETROLEUM IN DISTRICT FIVE

The fulfillment of the requirements for the defense of the United States threatens to result in a shortage of petroleum for defense, for private account, and for export; and the following directive is deemed necessary and appropriate in the public interest, to promote the national defense, to provide adequate supplies of petroleum for military and other essential uses, and to assure for the prosecution of the war the conservation and most effective development of petroleum in District Five.

Sections 1503.4 to 1503.10, inclusive, (Recommendation No. 19), are hereby amended to read as follows:

§ 1503.4 *Petroleum Directive 19*—(a) *Definitions.* (1) "Person" means any individual, partnership, association, business trust, corporation, governmental corporation or agency, or any organized group of persons, whether incorporated or not.

(2) "Petroleum" means crude oil, condensate, or natural gasoline.

(3) "District Five" means the States of Washington, Oregon, California, Nevada, and Arizona, and the Territories of Alaska and Hawaii.

(4) "Director in Charge" means the Director in Charge of District Five.

(5) "District Director of Production" means the Director of Production, District Five.

(6) "Production Committee" means the Production Committee for District Five.

(b) *Production and allocation schedules.* (1) The Petroleum Administrator or Deputy Petroleum Administrator each month will certify the quantity of petroleum to be produced in District Five. The Production Committee, in collaboration with the District Director of Production or a staff representative of the Petroleum Administration for War designated by the District Director of Production for such purposes, shall then prepare, for submission to the Petroleum Administrator, allocation schedules for the production of petroleum from the various fields, pools, and wells in District Five in conformity with the maximum efficient rate of production for the fields, pools, and wells, and to secure proper distribution among such fields, pools, and wells of the total amount of production certified for District Five.

(2) The allocation schedules submitted to the Petroleum Administrator shall be predicated upon a consideration of the following factors, in so far as each is applicable:

(i) Gas-oil ratios,

(ii) Water production, and the rate and manner of encroachment of water,

(iii) Reservoir pressures,

(iv) Other factors bearing upon the efficiency of production operations under recognized engineering practices and principles of conservation, and

(v) In so far as consistent with the foregoing factors relating to the prevention of waste or efficient production operations, distribution which will not cause unreasonable discrimination in favor of one field, pool, or well as against any other field, pool, or well, and in this connection the following factors shall be taken into account:

(a) The kind and quality of petroleum produced in the various fields, pools, or wells in relation to current requirements,

(b) The availability of transportation,

(c) The effect of reducing rates of production on the continuity of production from any field, pool, or well, and

(d) Maximum production for large wells and minimum production for small wells.

(3) No production shall be allocated in the schedules which will result in production from any field, pool, or well at a rate in excess of the maximum rate at which it can be operated in accordance with recognized engineering practices and principles of conservation, except where the Petroleum Administrator or Deputy Petroleum Administrator has certified that the national war program requires that there be produced a greater amount of the type of petroleum being produced in any such field, pool, or well.

(4) No allocation schedules shall be submitted which provide that the amount of petroleum allocated for production from any field, pool, or well may be produced from any other field, pool, or well, except that a transfer of allocation from one well to another well or wells in the same pool and within the same lease, unit, or area wholly within the limits covered by a cooperative plan of development may be provided for when such transfer is specifically authorized by the Petroleum Administrator or Deputy Petroleum Administrator. Unless authorized as provided for herein, the amount of petroleum allocated for production from each well may be produced only from the well to which the allocation is made.

(c) *Additional functions of Production Committee.* The Production Committee shall from time to time make recommendations to the Petroleum Administration for War relating to the discovery, development, and production of petroleum and natural gas in District Five for one or more of the following purposes:

(1) To assure the proper development, production, and utilization of the reserves of petroleum and natural gas in District Five;

(2) To accomplish the most effective use of critical materials with respect to production operations;

(3) To eliminate the drilling of unnecessary wells;

(4) To prevent physical waste above ground and underground;

(5) To assure that natural gas produced in conjunction with crude oil is used primarily for the efficient recovery of crude oil;

(6) To encourage and foster the exploration for and discovery of petroleum and natural gas reserves at a rate not less than that by which known reserves are being depleted;

(7) To bring about orderly development of new pools or fields, including proper well-spacing, and the making of unit or cooperative agreements for development, pressure maintenance, or repressuring designed to effectuate the maximum practical recovery with a minimum expenditure of critical materials; and

(8) To encourage drilling of new wells in proven pools or fields when such wells are needed for the most efficient operation of the pools or fields as a whole, taking into account the availability of critical materials and other pertinent factors.

(d) *Administration of directive.* (1) The Production Committee shall maintain such staff and appoint such persons as may be necessary to carry out its duties, responsibilities, and functions under this directive, and may appoint such subcommittees as it may consider necessary for investigations of, and reports on, specific problems. The Production Committee may propose to the Petroleum Administrator the appointment of such standing subcommittees as it may consider necessary in connection with the performance of the Production Committee's duties, responsibilities, and functions under this directive, and may submit nominations for membership on such standing subcommittees. Operating expenses of such Committees or Subcommittees shall be met as provided in § 1500.7 (j) of this chapter, as amended or supplemented, or as provided in any other recommendation, directive, or order of the Petroleum Administration for War, which may be issued as a substitute therefor.

(2) All proposed allocation schedules shall be submitted by the Production Committee to the Director in Charge, who shall then submit to the Petroleum Administrator, through the National Director of Production, the schedules, together with accompanying data and information in support of the schedules, and the comments and recommendations of the Director in Charge. The Director in Charge may delegate to the District Director of Production the powers, authority, and discretion of the Director in Charge as provided for in this subparagraph.

(3) No schedule, whether it be a schedule as originally submitted or as modified by the Petroleum Administrator or Deputy Petroleum Administrator, shall become effective until approved by the

[1] See War Production Board Certificate, 206, *infra*.

Chief Counsel, and until the Petroleum Administrator or Deputy Petroleum Administrator has directed that the schedule be made effective.

(4) When a schedule becomes effective, it shall be binding on all persons, and no person shall produce during any period designated by the Petroleum Administrator or Deputy Petroleum Administrator any petroleum from any field, pool, or well in District Five in excess of the amount authorized to be produced by him as set forth in the schedule issued for the period by the Petroleum Administrator or Deputy Petroleum Administrator; and no person shall knowingly store, sell, market, purchase, receive, accept, transport, or cause to be transported in any manner any petroleum, or any part thereof, which is produced from any field, pool, or well contrary to or not in conformity with the provisions of any schedule issued by the Petroleum Administrator or Deputy Petroleum Administrator as provided for herein.

(e) *Appeals.* Any person effected by this directive or any action taken hereunder who considers that compliance therewith or the results thereof would work an exceptional and unreasonable hardship upon him, or that the terms of this directive have not been followed in its application to him, may appeal to the Director in Charge, Petroleum Administration for War, 855 Subway Terminal Building, Los Angeles 13, California, setting forth pertinent facts and reasons why he considers himself entitled to relief. If dissatisfied with the decision of the Director in Charge, such person may appeal within fifteen days after receipt of notice of the Director's decision to the Petroleum Administration for War, Interior Building, Washington 25, D. C.

(E.O. 9276, 7 F.R. 10091; E.O. 9319, 8 F.R. 3687)

Issued this 3d day of July 1944.

RALPH K. DAVIES,
Deputy Petroleum Administrator for War.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—General Land Office[1]

[Public Land Order 237]

MICHIGAN

WITHDRAWAL OF PUBLIC LANDS FOR USE OF NAVY DEPARTMENT

By virtue of the authority vested in the President and pursuant to Executive Order No. 9337 of April 24, 1943, it is ordered as follows:

Subject to valid existing rights, the public lands within the following-described areas largely in Lake Michigan are hereby withdrawn from all forms of appropriation under the public-land laws, including the mining and mineral-leasing laws, and reserved for the use of the Navy Department as a target area for aerial bombing:

MICHIGAN MERIDIAN

T. 39 N., R. 5 W.,
Secs. 6, 7, 18, 19, and 30, partly unsurveyed.
T. 40 N., R. 5 W.,
Secs. 30 and 31, unsurveyed.
T. 39 N., R. 6 W.,
Secs. 1 to 30, inclusive, partly unsurveyed.
T. 40 N., R. 6 W.,
Secs. 25 to 36, inclusive, unsurveyed.
T. 39 N., R. 7 W.,
Secs. 1 to 30, inclusive, unsurveyed.
T. 40 N., R. 7 W.,
Secs. 25 to 36, inclusive, unsurveyed.
T. 39 N., R. 8 W.,
Secs. 1 to 30, inclusive, partly unsurveyed.
T. 40 N., R. 8 W.,
Secs. 25 to 36, inclusive, partly unsurveyed.
T. 39 N., R. 9 W.,
Secs. 1 to 5, inclusive, secs. 8 to 17, inclusive, and secs. 20 to 29, inclusive, partly unsurveyed.
T. 40 N., R. 9 W.,
Secs. 25 to 29, inclusive, and secs. 32 to 36, inclusive, partly unsurveyed.

The surveyed lands within the areas described, including both public and non-public lands, aggregate 2,513.54 acres.

This order shall take precedence over but not modify the withdrawal for classification and other purposes made by Executive Order No. 6964 of February 5, 1935, as amended, so far as such order affects any of the lands in the above-described areas.

The jurisdiction granted by this order shall cease at the expiration of the six months' period following the termination of the unlimited national emergency declared by Proclamation No. 2487 of May 27, 1941 (55 Stat. 1647). Thereupon, jurisdiction over the lands hereby reserved shall be vested in the Department of the Interior, and any other Department or agency of the Federal Government according to their respective interests then of record. The lands, however, shall remain withdrawn from appropriation as herein provided until otherwise ordered.

MICHAEL W. STRAUS,
Acting Secretary of the Interior.

TITLE 46—SHIPPING

Chapter I—Coast Guard: Inspection and Navigation

AMENDMENTS TO THE REGULATIONS AND APPROVAL OF EQUIPMENT

By virtue of the authority vested in me by R. S. 4405, 4417a, 4426, 4472, 4488, 4491, as amended, 49 Stat. 1544 (46 U. S. C. 170, 367, 375, 391a, 404, 481, 489), and Executive Order 9083, dated February 28, 1942 (7 F.R. 1609), the following amendments to the regulations and approval of equipment are prescribed:

Subchapter N—Explosives or Other Dangerous Articles or Substances, and Combustible Liquids on Board Vessels

PART 146—TRANSPORTATION OR STORAGE OF EXPLOSIVES OR OTHER DANGEROUS ARTICLES OR SUBSTANCES, AND COMBUSTIBLE LIQUIDS ON BOARD VESSELS

Section 146.24-100 is amended as follows:

§ 146.24-100 *Table G—Classification; compressed gases.* For article (pressure

not exceeding 375 lbs. per sq. in. at 130° F.), in Columns 4 and 7, and immediately following "Tank cars (ICC–106A500)", insert "Tanks (ICC–106A500)".

Subchapter O—Regulations Applicable to Certain Vessels and Shipping During Emergency

PART 153—BOATS, RAFTS, AND LIFESAVING APPLIANCES; REGULATIONS DURING EMERGENCY

Effective November 1, 1944, § 153.6 (m) (5) is amended to read as follows:

§ 153.6 *Additional equipment for lifeboats on self-propelled ocean and coastwise vessels.* • • •

(m) *Provisions.* • • •

(5) On and after November 1, 1944, the provisions required by this section shall be packaged in hermetically sealed containers of an approved type and stowed in provision lockers or other compartments providing suitable protection.

Section 153.6 (p) (1) is amended by the addition of a new paragraph reading as follows:

(p) *Water containers.*—(1) *Existing lifeboats.* • • •

On and after November 1, 1944, the drinking water required by this section shall be contained in hermetically sealed cans of an approved type and stowed in the drinking water tanks, lockers or other compartments providing suitable protection.

Section 153.6 (p) (2) is amended by the addition of a new paragraph reading as follows, to immediately precede the last undesignated paragraph thereof:

(2) *New lifeboats.* • • •

On and after November 1, 1944, the drinking water required by this section shall be contained in hermetically sealed cans of an approved type and stowed in the drinking water tanks, lockers or other compartments providing suitable protection.

Section 153.6a (a) (3) is amended by the addition of a new sentence reading as follows:

§ 153.6a *Additional equipment for lifeboats on seagoing barges of 100 gross tons or over.* (a) • • •

(3) *Water containers.* • • •

On and after November 1, 1944, the drinking water required by this section shall be contained in hermetically sealed cans of an approved type and stowed in the drinking water tanks, lockers or other compartments providing suitable protection.

Effective November 1, 1944, § 153.6a (a) (7) is amended by changing the second undesignated paragraph to read as follows:

(7) *Provisions.* • • •

On and after November 1, 1944, the provisions required by this section shall be packaged in hermetically sealed containers of an approved type and stowed in provision lockers or other compartments providing suitable protection.

Effective November 1, 1944, § 153.7 (c) (5) is amended to read as follows:

§ 153.7 *Additional equipment for life rafts approved prior to March 15, 1943, for ocean and coastwise vessels.* • • •

(c) *Provisions.* • • •

(5) On and after November 1, 1944, the provisions required by this section shall be packaged in hermetically sealed containers of an approved type and stowed in provision lockers or other compartments providing suitable protection.

Section 153.7 (e) is amended to read as follows:
